Wholesale Liquor Raids Made by Local Officers

Two hundred and sixty-one gallons of whiskey, beer and wine, along with three complete stills, a truck and trailer were confiscated by Haskell county officers as the result of a drive to clean up the county of its speakeasies and beer joints last Saturday night. Five arrests were made in the raid and charges of violation of the liquor laws were filed against Joe Zelisko, L. J. Bruggeman, Otto Peiser, Albert Barnett and W. W. Kelly. All of the defendants made bond to await the action of the Grand Jury which is in session this week.

The officers assisting in making the raids were Sheriff W. T. Sarrels, Deputies Dan Kirkpatrick, W. C. Allen, Olen Dotson and County Attorney French M. Robertson. Sunday night the place of "Sagerton Red" local colored character who resides in the Foster community was raided and a small amount of whiskey and beer found, by the sheriff's department.

ORVILLE BULLINGTON, REPUBLICAN CANDIDATE FOR GOVERNOR, HERE LAST SATURDAY MORNING

Orville Bullington, Republican candidate for Governor, was in Haskell last Saturday morning and made a talk in the district court room in the interest of his candidacy. He was introduced by County Judge Joe A. Jones.

His address was along the lines he has been delivering throughout the campaign. He attacked the state ad valorem tax as obsolete, spoke with favor of the home rule plan for counties, the reorganization of the judiciary, and the consolidation of state departments in the interest of economy.

Bullington also elaborated on his charge that Jim Ferguson offered to bolt the Democratic ticket two years ago and support the Republican nominee for \$20,000. He said the offer was made during the Republican Convention at San Angelo, and named Harry Tom King of Abilene as the man who came to San Angelo for that purpose.

He lashed the Ferguson three-point highway program as "a cheat, a fraud and a swindle," especially as it affects resident and farm tenants who he said do not benefit from the general tax fund to which the Ferguson plan would convert one-third of the gasoline tax.

"Ferguson would give one-third of the tax, or one and one-third cents, to the schools," said Bullington. "That part of the plan is all right and I approve it, although Ferguson is obviously reflecting on the intelligence of the people when he talks about giving one-third of the tax to schools. The constitution guarantees the schools one-fourth of the tax, so Jim's plan really adds but one-third of a cent. This is about the difference between a pinch of this and a pinch of that."

"Jim promises he would cut one-third of the tax in the general fund."

HASKELL COUNTY LEADS WEST TEXAS IN LOAN PAYMENTS

Haskell County leads all West Texas in the payments of loans to the Reconstruction Finance Corporation, according to J. Edwin Brown, district supervisor of the West Texas division, who was in the city today. Mr. Brown states that the farmers are paying off their loans in this county far better than any other county in this division and is leading by a substantial margin.

Mr. Brown is moving his family to Lubbock tomorrow in order to be nearer in the center of his territory. He has made his headquarters here since last March and states that he regrets to make the move, as he thinks that Haskell is one of the best towns in West Texas and the contacts and association with the people here has been a pleasure that will long be remembered, and he reluctantly makes the change.

15 RURAL SCHOOLS OPEN 1932-33 TERM

According to Miss Minnie Ellis, County Superintendent, 15 rural schools opened their fall and winter term during the past two weeks and the balance of those who have delayed their opening on account of the large cotton crop, have plans made to begin by the 15th of this month.

The following schools have already begun their 1932-33 session: Midway, Lake Creek, Pleasant Valley, Post, Hutto, Ericsdale, Center Point, Tanner Paint, Roberts, Dennis Chapel, Burker Hill, Pleasant View, Rockdale, Ward and Cobb.

The American Legion of Haskell is planning a Rodeo to be held at Fair Park on November 11 and 12, which promises to be a good one with plenty of local color. Only cowboys from Haskell and adjoining counties will be permitted to compete for the prizes that will be offered in the different contests. The stock to be used will be from the local ranges and consist of wild horses, cows, mules and calves that have never been handled before.

One of the main attractions will be a calf roping contest staged between Dud Boone of Haskell and John Selman of Stamford. They are to rope five calves each for the best time. Frank B. Reynolds will be the arena director for the show, and anyone who would like to enter one or more of the different events are requested to see Mr. Reynolds between now and the opening of the opening day.

Price of admission to the rodeo will be 20c and 35c.

This will be about the only attraction staged in this part of the state for Armistice Day entertainment and the boys are planning to make it well worth while. A full program will be given both days Friday and Saturday.

Officer Returns Man Wanted for Wife Desertion

Haskell County Cotton Ginnings
There were 22,662 bales of cotton, counting round as half bales, ginned in Haskell county, from the crop of 1932 prior to October 18, 1932, as compared with 20,236 bales ginned to Oct. 18, 1931, according to Jas. E. Lindsay, statistical agent for the Department of Commerce, Bureau of the Census.

SHOOTING IN WHICH YOUNG MAN KILLED BELIEVED ACCIDENT

The shooting which occurred in the north part of the county last week in which O. T. Yates was killed is believed to have been accidental. Yates was at work on the Mack Cooke farm along with a number of other boys. The boys are said to have played a number of jokes on each other at different times.

Mack Cooke is said to have entered into the spirit of the pranks and on the evening when the tragedy occurred, he wrapped a sheet around him and took a pistol and went down the road to meet the boys in an attempt to scare them. He turned his back on the boys and was walking off from them stooped over, as if he was an animal of some kind and took the gun and reached around under his left arm and fired a couple of times, believing he had the weapon pointed into the air. Young Yates fell, and the rest thought he was also playing a prank, but on examination it was found that he had been shot through the head.

Mr. Cooke took the boy to Gorcee for emergency treatment and then carried him to the Seymour hospital where he died later. The remains were shipped to young Yates' home in Tennessee.

RAIL COMMISSION HEARING ON TRAIN SERVICE POSTPONED

Word has been received here that the officials of the Wichita Valley railroad lines, have asked that the hearing scheduled to be held on November 10th before the Railroad Commission be postponed indefinitely. The Valley lines had asked that the present motor train between Wichita Falls and Abilene be replaced by a mixed train.

Wichita Falls, Seymour, Haskell, and probably other towns on the line were planning to protest the change in service. The hearing had been set at 10 a. m. on November 10th, at the Kemp Hotel in Wichita Falls.

Just when the hearing will be held if at all, was not stated in the announcement.

Funeral Services of H. H. Langford Held at Munday

The funeral services of H. H. Langford was held from the family residence at Munday Wednesday afternoon at 3 o'clock, conducted by Rev. L. N. Lipscomb, presiding Elder of the Amarillo district of the Methodist Church, assisted by Rev. J. H. Crowe, pastor of the Methodist Church at Munday.

Mr. Langford moved to Haskell county about 1909, and was elected Tax Collector in 1914, serving two terms. He moved to Dallas in 1920 remaining there about a year before coming to Munday where he had resided until his death.

The deceased was 64 years of age and had been in apparently good health until Tuesday evening, when he returned home from work and complained of feeling ill. About 9 o'clock he stepped out on the back porch of his home, and evidently suffered a heart attack and died without regaining consciousness. He is survived by his wife and three daughters: Miss Winnie Langford, Mrs. Laura Lee Smith and Miss Mary Langford all of Munday. Interment was in the Munday cemetery.

Mesdames Carl Maples, Owen Fouts, and W. D. Kemp spent the week-end in Wichita Falls with relatives and friends.

Miss Jewell Cunningham of Henrietta, Texas, visited in the home of Mr. and Mrs. Hollis Atkieso over the week end.

LARGE CROWD HEARS CLOSING ADDRESS TEACHERS INSTITUTE

Before an audience of some 1200 people assembled in the First Christian Church here Friday morning, Judd Mortimer Lewis, veteran poet and newspaperman of Texas, brought the closing address of the 1932-33 session of the Co-operative Teachers Institute.

Mr. Lewis is widely known for his poems and his work as a columnist of the Houston Post-Dispatch. He has been a member of the staff of that newspaper almost continuously for more than thirty years, going to them on the strength of some verse which was published at the outbreak of the Spanish-American War.

Mr. Lewis gave a number of his poems and a collection of stories, around the central theme of that love which is the basis of true living and the binding cord of all fellowship.

Dr. L. H. Moore, professor of Philosophy and Education, Texas State College for Women, Denton, was another speaker on Friday morning's program. Doctor Moore discussed the relation of methods of discipline to the present social status, claiming that going to the extreme in the development of individuality along the anti-repression route has resulted in a society little versed in cooperative thinking and planning. Doctor Moore suggested that now is the time for a set of standards which will direct the development of the youth in his proper relation to and respect for society.

Mrs. R. L. Kincaid, Crowell, spoke to the teachers and school executives Friday morning on "The By-Products of the Teaching Profession." Mrs. Kincaid is chairman of the Thirteenth District Parent-Teachers Association.

R. T. Ellis, secretary of the Texas State Teachers Association, stressed the relationship of the individual teacher with the state organization. Friday morning's program concluded the two-day meet here with more than 400 teachers of Haskell, Knox, Throckmorton and Stonewall counties in attendance.

Instructors for Thursday's section meetings were Miss Nancy Moseley, supervisor of the primary division of the Dallas county schools; Dr. J. F. Kimball, vice president in charge of Baylor School of Medicine and Baylor Hospital, Dallas; Dr. A. W. Evans, head of the Department of Education, Texas Technological College, Lubbock, and Supt. H. D. Fillers of the Wichita Falls Public Schools.

Supt. C. B. Breedlove, general chairman of the Co-operative Institute, presided at each general assembly.

Einstein says that space is the most important thing in the Universe. It is when you're looking for a place to park.

Two political meetings, styled "old fashioned Democratic rallies" will be held in Haskell county Saturday afternoon, according to announcement made public Wednesday afternoon.

The first meeting will be held at the courthouse in Haskell at 3 o'clock Saturday and Hon. W. W. Hair of Abilene will be the principal speaker. Other speakers will probably accompany Mr. Hair to Haskell and also make short talks. Judge L. D. Ratliff of this city is expected to introduce the speakers here.

Everybody is invited to attend these meetings and the ladies are especially urged to attend.

Goblins, Witches, Ghosts Celebrate Hallow'e'en Here

Haskell celebrated Hallow'e'en on Monday night. Ghosts, goblins and witches were on hand but Haskell observed All Saints' day in a comparatively quiet fashion. The usual rough stuff was lacking and little property was destroyed and but a small amount of damage done by the revelers.

WORK PROGRESSES ON HASKELL COUNTY ROAD

The L. E. Whitham Construction company, which has the contract for hard surfacing highway No. 51 (now No. 16) from Knox county line into Rule, has the equipment on the ground and about 150 men at work. Work was started at the Haskell-Knox county line approximately 2 miles south of Knox City. It is expected that work on the 15 mile stretch will be finished in the next 40 working days. The pavement will be 18 feet wide on the tangent and 20 feet wide on the curves and nine inches thick, according to specifications.

Would Add Two New Deputies to Sheriff's Force

Two new deputies will be added to the sheriff's force in the next few days, if the recommendation of the grand jury, which is now in session, is placed into effect. Sheriff Sarrels states that an appropriation of \$300.00 has been made for this purpose and he expects to follow the recommendation of the Grand Jury and appoint the two new deputies suggested by the Grand Jury if they can be secured.

Well-Known Mechanic Now With Panhandle Garage

Chas. Redwine, well known automobile mechanic who for the past two months has been employed with the Haskell Motor Company, is now located at the Panhandle Garage, making the change Nov. 1st.

Mr. Redwine is an experienced mechanic in all lines of automobile repair work, and will be a valuable asset to the Panhandle Garage.

Old time innocent amusements are still innocent, but they're no longer amusements.

W. L. Fraley, prominent Haskell county farmer, who resides in the Ballew community, was held up and robbed Tuesday night about nine o'clock near the city limits north of town and relieved of his purse containing \$331.00 in cash.

Mr. Fraley had been to the gin with a bale of cotton, and is said to have paid off some cotton pickers at the gin, taking \$19.00 from the purse in making the transaction. He started home in his wagon and a short distance beyond the gin, three men asked for a ride. They had only been in the wagon a few minutes when one of the men stuck a gun in his side and another grabbed the lines and pulled the team out of the road. In the mix-up Mr. Fraley was able to throw another purse he had containing \$125.00 into the weeds, which was found the next morning. The purse taken by the robbers was also found a short distance away with all his papers and checks still intact, but the money missing.

Several arrests have been made by local officers, but none of the suspects have been identified.

BUILDING CAMPAIGN DRIVE NEXT WEEK

The Assembly of God Church is launching a big campaign next week for funds to complete their brick building on Highway 30 south of the square. The Men's Well-Wishers Committee is composed of Judge L. D. Ratliff, Sr., chairman; D. H. Persons, vice chairman; C. H. Eckles, secretary treasurer; Sam A. Roberts, Jno. A. Couch, Dr. O. M. Guest, Lynn Pace and J. M. Martin. The other committees will complete by 5:30 p. m. Monday, at which time both committees will meet in the office of the Spencer Lumber Co. to finish the plans and to receive sectional assignments.

The town is to be divided into sections and each member of the solicitation committee will be given a section. The town is to be thoroughly canvassed. The committee seeks to raise one thousand dollars as it is estimated it will finish the construction.

Pastor Eckles and the committee feel confident that the estimate can be raised, and the building completed soon, because of the great amount of interest and enthusiasm manifested in the great rally last Sunday afternoon. Doctors, lawyers, business men and social leaders seem to be unanimous in the agreement that the time has come for the completion of the building.

The pastor and the committee wish to heartily thank the following men and women for their splendid cooperation in the rally Sunday afternoon: Judge L. D. Ratliff, Sr., District Attorney H. F. Grindstaff, Rev. H. R. Whatley, Mrs. C. M. Kaigler, Mr. D. H. Persons, Mrs. J. A. Wimberly, Mrs. L. F. Taylor and Rev. Chas. C. Robinson of Quanah.

TOM SHOW PROVES VERY SUCCESSFUL

Forty-five men and women visited and stayed through most of Mr. Paul A. Cunyus' talk on "Selecting Toms and Hens for Breeding Purposes." Everyone who attended the show and lecture stated that they learned things they did not know. Mr. Cunyus, who is the turkey specialist from the Texas A. & M. extension service stated he was well pleased with the interest shown by the turkey growers.

Saturday at two-thirty all the turkey growers are asked to meet in the County Agent's office to elect the pool committee for handling the Thanksgiving turkeys.

with a delightful Halloween party. Much to the surprise of the guests who were seated around a very daring bank robber, who had just made a raid, forced his way into the home at the point of a gun. He left his loot there for safe-keeping as the officers were closing in. Of course one of the daring ghosts opened the sack and found that it contained candy which was put away for safe keeping immediately by the guests.

The guests were then taken to the witches fire to learn facts concerning their future.

Then came the search for the feast of the goblins. Following the live ghosts the guests were led through the haunted house where they heard piercing cries and saw ghostly figures walking through the burned ruins of the witches castle; to the lost paradise of the goblins; back to the Mystery House on Danger Street where awaited them the feast of the goblins which consisted of: hot chocolate, sandwiches, cake, and a delicious fruit cup with whipped cream.

New Democrats May Vote For ORVILLE BULLINGTON FOR GOVERNOR

Assuming you want to vote for ROOSEVELT and GARNER and all the rest of the Democratic nominees except Mrs. Miriam Ferguson, the only name you mark out in the Democratic column is Mrs. Miriam Ferguson, as shown below. In the Republican column you mark out everything from top to bottom, except Orville Bullington. In the next column, the Socialist, you draw a line from top to bottom, and the same for the other five columns. If two gubernatorial candidates names appeared unmarked, neither would get a vote and your ballot would not be counted.

You must leave all the 25 electors unmarked in the party you want and mark out all of them in the other columns in order to cast a vote for your presidential choice.

Below is the important corner of the official ballot correctly marked if you want ROOSEVELT, GARNER and BULLINGTON and the rest of the Democratic nominees.

Halloween Party.
The Epworth League enjoyed a real Halloween Party at the Methodist parsonage Thursday night Oct 27th.

To get to the real place for the party we had to go in the back door, encountering ghosts of all descriptions, running into everything, stepping on springs and everything else, then wind around and then in the end find yourself upstairs in a regular "spooky" room. We had fortune tellers, palm readers, ghosts and everything that goes with a Halloween party. Those enjoying the apples and doughnuts were: Margaret Richey, Pauline Diesman, Mildred Grissom, Juanita Stone, Hazel Williams, Beulah Cass, Georgia Martin, Ruth Josselot, Mrs. Jerome Sanders, John Paul Perrin, C. B. Breedlove, Fred Sanders, Artie Pippen, Fred Abbott and Wayne Teague of Rule, Marshall Gordon, Catherine Rike, Mrs. C. M. Kaigler, Judge T. R. Odell, Miss Ruby Fitzgerald, Helen Ballard, Anna Gene Gordon, Frances English, Glenn Gordon, Grady Gordon and Mr. and Mrs. A. W. Gordon.

Morris Collier

Announcement was made the first of the week of the marriage of Mr. Bob Herrin, Jr., and Miss Anita Collier, at Walters, Oklahoma, on June 18th, with Rev. Graham, pastor of the Methodist church, performing the ceremony. This wedding united two pioneer families of Haskell county and climaxed a romance which started early in life. Mrs. Herrin is the beautiful and accomplished daughter of Mr. and Mrs. J. L. Collier. She finished high school here with the 1931-32 class and is very popular with the younger set. Mr. Herrin is the son of Mr. and Mrs. Bob Herrin, Sr. He finished his senior year also with the 1931-32 class. Mr. and Mrs. Herrin will make their home in Haskell, and have a host of friends who join us in wishing them much happiness and prosperity in their life together.

During the month of October the library loaned 282 books to girls, 132 to boys, 186 to adults, making a total of 600. For the same month last year, 506 books were loaned.

The smallest daily circulation was 9 books and the largest, 64.

The library was given 59 magazines and distributed 102.

The books, Fetters of Freedom by Cyrus Townsend Lord and The Silver Butterfly by Mrs. Wilson Woodrow were given the library. The board wishes to express thanks for these contributions.

Theater Party

The members of the Senior Class assembled at the home of their sponsor, Mrs. Geo. V. Wimbish, last Friday evening at seven o'clock. Everyone was in good spirits because of the football victory that afternoon over Munday. When all had arrived, we marched in a body to the Texas Theatre. By the courtesy of the manager, Mr. Leon, the football boys and pep squad members were admitted free. The picture was real good, a scream from start to finish, because it was Joe E. Brown in "The Tenderfoot." After the show we all went back to Mrs. Wimbish's where delightful refreshments were served. A plate consisting of tuna fish sandwiches, mints, olives, and hot tea was served to each of the following: Juanita Stone, Emma Kate Richey, Beulah Cass, Ollie and Ola Frazier, Norma Ann Gilstrap, Margaret Higgins, Willie John Fields, Agnes Grissom, Rozelle Jones, Mary Frances Collier, Lois Fouts, Clara Wilfong, Maxine Simmons, Mildred Sadler, Louise Warren, Margaret Richey, Betty Ann Hancock, George Kinney, Hubert Watson, Alvy Couch, Rod Clifton, Clinton Herren, Doyle Eastland, Marshall Gordon, C. B. Breedlove, Jr., Lowell Thomason, Ed Welsh, Jr., Howard Wilson, a special guest, and sponsors, Mr. and Mrs. Wimbish.

Hoboes Have Halloween Party

Last Friday night at 7:30 o'clock Miss Geraldine Norris entertained the Hoboes at her home with a delightful Halloween party. On arriving all were taken to the basement where they had their fortunes told and bobbed for apples. Then back to the living room where all kinds of Halloween games were played. Anna Gene Gordon was voted a new member of the club. Refreshments of sandwiches, potato chips, pickles and cocoa were served to club members. Then the host and hostess, Mr. and Mrs. Norris, took the club to the Texas Theatre after which all returned to

the Norris home where they were again served. Members enjoying this splendid party with their sponsor, Mrs. Young, were: Ruth Welsh, Geraldine Fouts, Eva Bell Pippin, Anna Bell Stanton, Rose Cousins, Frances Norris, Annie Maud Taylor, Lillian Kagler, and Contine Guest and Geraldine Norris.

Misses Contine Guest and Lillian Kagler Entertained Jointly for the J. O. L. L. Y. Club

On last Monday evening Misses Contine Guest and Lillian Kagler entertained the J. O. L. L. Y. Club in the home of the latter. The rooms were decorated with Halloween motifs and baskets of chrysanthemums. Four tables were arranged for games of bridge. After the games the bride, Mrs. Bob Herren, Jr., was told that someone wanted her at the door and thinking they were going to play a joke on her

she ran around the house and fell in the fish pond, that saved anyone from doing anything more to the bride and groom. A delicious plate of bread and butter sandwiches, chicken salad, brownies and stuffed dates and coffee was served to Misses Frances Walling, Elizabeth Gilbert, Annie Maud Taylor, Anna Bell Burt, Lillie Fay Stoker, hostesses Contine Guest and Lillian Kagler, Messrs. Charles Kay of Rochester, Cliff Crowell, Clarence Whiteker, Rogers Gilstrap, Messrs. and Mesdames Bob Herren, Jr., and Carl Arbuckle. At 11:30 they all went to the midnight matinee.

Large Crowd in District Courtroom
 Sunday to Discuss Completion of Church.

When Rev. and Mrs. Eckles arrived at the District courtroom last Sunday afternoon they found a large audience awaiting them and at 2:30 the service was opened with a song. Rev. Eckles stated that he had secured a number of speakers from the various churches and prominent men to give their viewpoints on what they thought of completing the Assembly of God church that was started last year. Rev. Whitley stated that he had three special reasons for hoping the church would soon be completed, first because it was sponsored by such a great leader, one who was undaunted and filled with faith; second, because a church wherever founded combatted the evil influences always abroad, and third, because he believed in the foundation of any church that preached Christ. Judge Ratliff stated in no uncertain terms that he believed in the religion that their church preached and practiced as he had had some deep experiences with the Christian workings of their people. Mr. Persons also endorsed the movement and stated that he

hoped to see the new building completed soon and promised any help that he might be able to render. Judge Grindstaff delivered such a splendid sermonette on the influence of good over evil that Rev. Eckles promised to have him fill the pulpit sometime in the future. Mrs. C. M. Kaigler stated that she believed that faith and works together could accomplish anything and read two beautiful poems one based on Haggai helping to rebuild Jerusalem and one by Edgar A. Guest, "Man is the Agent Who Carries Out God's Plans." Special music was rendered by Mr. and Mrs. Victor Anderson; Rev. and Mrs. Beard of Gilliam; and District Presbyterian and wife, the Rev. and Mrs. Robinson of Quanah. Altogether the meeting was spiritual and enthusiastic and no doubt much good will be the result.

SPORTS

"That's My Boy" Gholsen has been ringing in the ears of every Haskell football fan since Buford and the rest of the boys beat Monday 14-0. The smallest man on the team by far and yet the best linesman we have is little Buford Gholsen. He played against Monday as though he might be interested in seeing his team win, and that is exactly what they did. Gholsen tears through the line as a two hundred pound guard should, and deals the opposition more misery than the rest of the team put together. There isn't a man on the Indian team that couldn't take a lesson or two from him.

The backfield worked nicely and as well as the whole team in general. Eastland and Herring looked good—with the latter probably playing the best game of the season. Sherman also played a better game than before, while O'Neal played his usual good, consistent game. No one starred in the backfield—they all played a good smooth game and that kind of playing usually wins games.

Stamford and Hamlin both have good strong teams and our boys will have their hands full beating them. Haskell should beat both teams, however, and Stamford won from Hamlin after losing to Albany by a score of 35-0 or somewhere in that neighborhood. I don't believe there are very many teams that could beat Haskell by that score, and especially Albany. So I pick Haskell to beat these two teams by a score of 7-0.

We play Anson this week. They have nothing if anything at all and this game should be nothing more than a good work-out for the Indians. The score should be 26-0 favoring the Indians—still our boys might be fooled and should not go to Anson too confident.

Mother of 7—Still Young

THE woman who gives her organs the right stimulant need not worry about growing old. Her system doesn't stagnate; her face doesn't age. She has the health and "pep" that come from a lively liver and strong, active bowels. When you're sluggish and the system needs help, don't take a lot of "patent medicines." There's a famous doctor's prescription for just such cases, and every druggist keeps this standard preparation. It is made from fresh laxative herbs, active senna, and pure pepsin. Just ask for Dr. Caldwell's syrup pepsin. Take a little every day or so, until every organ in your body feels the big improvement. The next time you have a bilious headache, or feel all bound-up, take this delicious syrup instead of the usual cathartic. You'll be rid of all that poisonous waste, and you haven't weakened the bowels. You'll have a better appetite, and feel better in every way. The constant use of cathartics is often the cause of a sallow complexion and lines in the face. And so unnecessary!

Would you like to break yourself of the cathartic habit? At the same time building health and vigor that protects you from frequent sick spells, headaches, and colds? Get a big bottle of Dr. Caldwell's syrup pepsin today. Use often enough to avoid those attacks of constipation. When you feel weak and run-down or a coated tongue or bad breath warns you the bowels need to be stimulated. Give it to children instead of strong laxatives that sap their strength. It isn't expensive.

Nagging Pains are Warning Signals

TEMPORARY pain relief remedies may save you much suffering at the moment, but putting a mask over a warning signal does not clear up the condition it was telling you to avoid.

When periodic pains, due to a weak, run-down condition, distress you, treatment for the cause of the trouble should be started without delay. Take Cardui to build up against the nagging symptoms of ordinary womanly ailments. So many women grudge CARDUI. It must be good to have the wisest woman use that. It has today. Sold at drug stores. Free From Pain Thanks to CRAZY CRYSTALS

For years I suffered agony with pains in my stomach, and with heart burn, caused from gall bladder trouble. It had been over fifteen years since I had been able to see the shape of my ankles they had been so badly swollen.

About four weeks ago I started using CRAZY CRYSTALS, and now I am perfectly easy, and free from pain. The swelling in my feet and ankles has almost entirely disappeared. I would like suffering people everywhere to know about CRAZY CRYSTALS.

ROOSEVELT LANDSLIDE

The Literary Digest poll as it stands today forecasts one of the most sweeping victories for Governor Roosevelt ever won by any Democratic candidate in American history.

With ballots tabulated from all of the 48 states, the Digest's poll shows Roosevelt marching ahead of President Hoover is 41 of the 48 states. The week's tabulation gives Roosevelt a popular vote lead of 3 to 2 and an electoral vote count of 474 to 57, with 266 needed for election. Mr. Hoover leads in six New England states and in New Jersey.

Woodrow Wilson, in 1912, the year of the big Roosevelt-Taft split, stacked up the largest electoral vote of any Democratic candidate to date. He had 435, as against 83 for Theodore Roosevelt and 8 for Taft.

A total of 2,617,185 ballots have been tabulated by the Digest to date. Of these, 1,473,466 or 56.30 per cent are for Roosevelt, while 973,367, or 37.19 per cent are for Hoover.

Ohio, Indiana and Illinois, the three key states which both candidates are exceedingly anxious to capture, are given to Roosevelt with large margins. In California, Hoover's home state, Roosevelt is ahead approximately two to one, or 123,489 to 64,945. At this stage of the contest, it would seem to be all over but the shouting.

FARMERS AND BUSINESS

Regardless of what may be done in the future with respect to legislation intended to aid the farmer, it must be conceded that agriculture will never attain the place to which it is entitled until farmers make up their minds to organize effectively for mutual protection and co-operation.

Because of the scattering of farmers over such a wide territory, and the difficulty of getting them together even to discuss their own problems, the task of organization is a hard one.

While several farmers' organizations of national scope already exist, they really include only a very small percentage of all farmers. While these bodies are helpful, they can never be really effective without a large and loyal membership.

As former Secretary Jardine once said: "Big business is efficient because it is organized. It knows the best methods of production and what the market demands, both quantity and quality. Organization will bring to agriculture the same benefits that it has brought to business."

PAPER FROM ALASKA

For several years the enormously increased demand for paper of all kinds has given concern to many, who feared that with the depletion of the forests of Canada and the United States a paper famine might ensue.

This fear has led to the substitution with more or less success of other fibres instead of wood, as well as to efforts to make available new sources of wood pulp supply.

In the search for new timber the paper manufacturers have recently turned to Alaska, where immense forests of suitable woods have been discovered. Two of the largest timber sales ever made by the United States Forest Service were negotiated for Alaskan forests.

One involves the purchase of 835,000,000 cubic feet of pulp timber in the vicinity of Juneau, Alaska, the contract requiring the erection of a paper mill of 200 tons daily capacity, to be increased within 15 years to 400 tons.

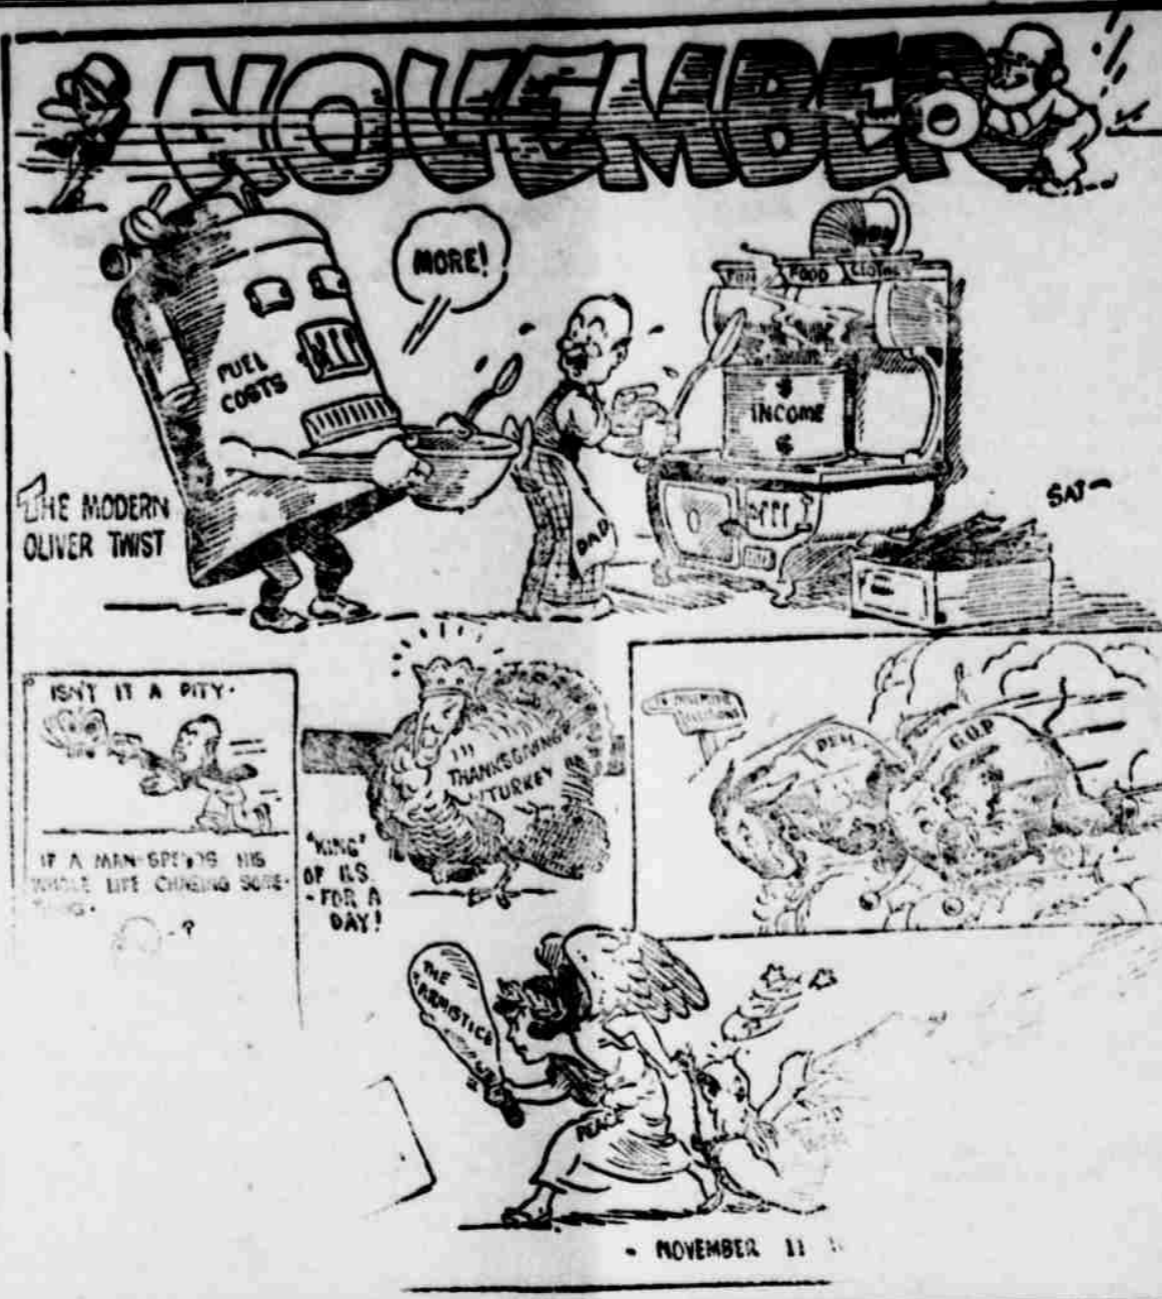

The same interests are seeking water power sites in that region where tremendous potential water power exists.

Recent surveys of Alaska by government aviators have revealed almost limitless natural resources, and it is likely that adventurous spirits in the future will there find a virgin field for their activities.

R. F. C. INTEREST RATES

The Reconstruction Finance Corporation has fixed the rates of interest for livestock and agricultural loans at 7 per cent, according to the Baltimore Sun. Its rates now are: Banks, 5 1-2 per cent; railroads, 6 per cent; farmers, 7 per cent. Why this discrimination in rates against the farmer? Has he not suffered enough already?

October 28th marked the tenth anniversary of Mussolini's march on Rome at the head of his Fascist black-shirts and his seizing of the reins of government. During the intervening 10 years Mussolini has been an outstanding international figure, by some considered a dangerous one and a menace to world peace. Still, while he has ruled Italy with a heavy hand, and has been outspoken on international affairs, it would be difficult to demonstrate that on the whole he has not been of more good than harm to Italy and the rest of the world. A weaker man might have been far worse.

Nine Constitutional Amendments On Ballot November 8 Involve Questions of Much Importance to Texas Citizens

At the bottom of his official ballot, Nov. 8, the voter will find statements of nine proposed amendments to the Texas constitution for him to accept or reject. Several of these proposals are of far-reaching importance, and the purpose of this article is to briefly explain the purport of each and to summarize the arguments that are being offered, for and against.

Since the present Texas constitution was adopted, in 1876, a total of 110 amendments have been submitted by legislatures. Of these, 57 were rejected by the voters, 51 were adopted, and two failed, through a clerical error, to be placed on the official ballot.

Several of the proposed amendments now pending are described in such language that it is difficult for the average voter to understand their purport. This is a fault often found in submitting constitutional amendments and partially explains why so many have been defeated. The first amendment on the ballot is what is known as the university amendment. The voter may vote for this one without any doubt.

The University Amendment
Two years ago a constitutional amendment was adopted broadening the powers of the university's board of regents with respect to the investing of its permanent fund. That amendment was loosely drawn; it contained, among other things, a provision that the university could issue its own securities and then invest its own money in them. While it is improbable that there will ever be a board of regents that would thus abuse the authority given, it was a mistake to ever include such a provision.

The amendment now pending simply corrects the error made two years ago.

Redemption of Tax Sales
The next amendment on this county's ballot has to do with the manner in which property sold for taxes may be redeemed.

It is charged that there is a joker in this amendment, and the voter would do well to study it carefully.

The constitution now provides that when property has been sold for taxes, the former owner may redeem it, within two years, by paying up the taxes, with penalties and interest, plus double the amount which the property brought at the tax sale.

The proposed amendment provides that such property may be redeemed by paying up the taxes, interest and penalties plus one and one-fourth times the tax sale price, if redeemed within a year, or one and a half times the sale price if redeemed within two years.

So far as that particular provision of the proposal goes, it simplifies the redemption of property sold for taxes.

However, the text of the proposed amendment shows that it contains something else. Section 13 of article 8 now reads:

"Provision shall be made by the first legislature for the speedy sale of a sufficient portion of all lands and other property for the taxes due thereon, etc."

But in the proposed amendment this is changed to read:

"Provision shall be made by the first legislature for the speedy sale, without the necessity of a suit in court, of a sufficient portion of all

lands, etc."
The clause "without the necessity of a suit in court" was inserted as shown above. While this seems to refer only to the first legislature, that is, the one which met in 1877, it might be construed to mean that any legislature could provide for selling property for taxes without first getting a judgment in district court.

The voter must decide, therefore, whether the concession which this proposal makes to the taxpayer is not given at too high a price, namely, the loss of his right to defend in court his property from sale. The clause "without the necessity of a suit in court" must give rise to doubts as to the wisdom of this amendment.

Delinquent Taxes
The next amendment the Haskell county voter will find on his ballot has to do with the legislature's right to remit delinquent taxes.

At present the legislature can not remit delinquent taxes. If taxes for any year are shown to be delinquent they must be paid, or stand as a lien against the property.

It happens fairly often that when a piece of property is changing hands, the abstract reveals that the taxes for some year in the past are not shown to be paid. If the year in question is some time past, the chances are that the owner cannot produce the tax receipt, even though he is certain that the taxes, in fact, paid. The only way at present in which the title can be cleared is for him to pay the taxes shown to be delinquent.

Under the proposed amendment, the legislature would have the right, where the supposed delinquency was 10 years or more old, to wipe the slate clean. The probability is that if taxes on a piece of property are shown to have been paid in 1922, 1923 and 1924, they were also paid in 1921, even though the records show they were not. The amendment would allow the legislature to correct such a presumed error.

Reserve Soldiers Amendment
The next proposal undertakes to remove the restrictions, as to voting and holding public office, now imposed on reserve officers and enlisted men of the army, navy and marine corps. Under the constitution, officers and enlisted men of the regular army may not vote or hold office. As that provision is now construed, it applies also to the reserve forces. This amendment would permit reserve officers and soldiers to vote and hold office. It would affect only a few thousand people.

It was approved by the legislature on the theory that men who are in the reserve forces should not be penalized for thus holding themselves in readiness for service by being deprived of suffrage. One opponent of the amendment, a San Antonio lawyer, says its adoption would tend to build up a military oligarchy.

A Corrective Amendment
The next amendment on the local ballot is stated in language that does not conform to its real purpose, but which the voter may safely vote as it is merely a corrective amendment.

When the constitution was amended some years ago to permit coast counties to vote bonds for

construction of seawalls, it provided that "taxpayers" might vote on bonds issues. It should have said, "resident taxpayers" and the only effect of this amendment is to make it read that way.

Taxpayers and Bond Issues
The next amendment undertakes to restrict the right to vote in bond issue elections.

The framers of the constitution adopted in 1876 intended to provide that only bona fide taxpayers should vote on bond issue; their theory was that a voter who paid no tax had nothing at stake in a matter involving the public credit and therefore should not vote. However that provision has been construed by various court decisions in such ways that any one who has a poll tax receipt can vote for or against a bond issue if he wants to. All that is necessary is for him to say that he owns taxable property. He may not have rendered it for taxation and may not intend to and may not intend to pay taxes on it if he does render it, but the mere fact that he says he has it entitles him to vote in bond elections, the courts have held.

The proposed amendment would require such a voter to render his property for taxation before being allowed to vote on such an issue.

Some opponents of this amendment contend that every voter is ipso facto a taxpayer, indirectly because taxes are figured into the cost of everything he buys. Against that argument is the widely held belief that bonds should be voted only by those who must pay them directly.

Homestead Exemption Amendment
The next amendment on the local ballot, the so-called homestead exemption amendment, is easily the most important from the viewpoint of the average voter.

It provides that homesteads, up to the value of \$3,000 shall be exempt from state tax.

From the point of view of the small homeowner, this amendment means simply that he will effect a direct saving of \$10 to \$20 annually on his tax bill.

The amendment however cannot be considered along such simple lines. There are questions that arise in connection with it that complicate it somewhat.

One of them is, how will the state make up for the revenue it will lose? The state will be deprived, if the amendment is adopted, of some millions of dollars an-

ually in tax receipts. How will it balance its books?

If as is probable, the legislature levies special taxes, opponents of the proposal argue that the burden of these will finally fall upon the small homeowner. If, as is less probable, it cuts down expenditures there is the danger, opponents contend, that the schools will suffer.

There are many who believe that the ad valorem tax, as administered in Texas, is altogether unjust and who hail the proposed amendment as a step toward complete abolition of it. Undoubtedly, the fact that each county may fix its own basis of valuations has led to much confusion in the collection of the state ad valorem tax. In some counties, property is assessed on a basis of 50 per cent of its reasonable value. In other counties the basis is as low as 10 per cent.

The idea that the ad valorem tax should be gradually abolished is opposed by some students of the tax problems, however. These point out that the property owner pays no direct taxes, he is likely to lose interest in public finances; that as long as paying taxes is a more or less painful ordeal, the taxpayer is likely to see to it that the money is wisely spent. A great deal of the philosophy of taxation is bound up in this amendment. The average voter of course, will throw the philosophical aspects of it overboard and vote according to the proposal's affect on his own finances.

Assessor-Collector Mergers
The eight amendment on the ballot here provides for consolidation of two county offices, those of assessor and collector. This amendment is encountering much quiet

The Eyes of Texas Are Upon You

Unarmed and helpless, 390 Texas, prisoners of war, were shot down in cold blood, massacred, at Goliad, March 27, 1836. They died for Texas as truly as if they had laid down their lives on the battlefield.

We enjoy freedom and security in Texas today because brave and devoted men were willing to sacrifice everything, even life itself, to obtain them for us.

One hundred years of freedom and independence in Texas will be rounded out in 1936. And a long era of freedom and independence stretches before us in the future. All of this has been the fruit of the sacrifices of the men of 1836.

We are now facing the question of whether we shall pay due homage to the memory of those men in 1936. Can there be any doubt about the answer to that question? You will be called upon to answer it by your vote on the Texas Centennial Constitutional Amendment.

Vote with the knowledge that "the eyes of Texas are upon you," and you will vote as a Texan who knows what he owes the past, and who is proud of the heroic traditions of Texas.

opposition, because of the strength of the organized officeholders who are against it.

The amendment is being urged in the interest of greater efficiency and economy. Cities and school districts and other entities already have combined the two offices. Advocates of the proposal contend that the duties of the two offices are largely overlapping and that efficiency would be promoted by the merger.

Centennial Amendment

The ninth and last amendment is one which authorizes the legislature to make appropriations for observance of the 100th anniversary of Texas independence in 1936. This amendment is encountering opposition on the ground of economy. The question is one of economy vs. patriotism. Without the state appropriations it is doubtful if the anniversary can be fittingly observed.

In pleading for the re-election of Hoover, Republicans say we can't afford to experiment now. The people might as well do a little experimenting of their own as let Hoover do it.

Nothing needs more careful preparation than the impromptu speech.

A woman who refused to marry a man because he had a twin brother apparently wanted a more exclusive model.

Trade In Your Worn Tires for Safe Gripping Non-Skid Firestone Tires

LIBERAL trade-in allowance—now—on all Firestone High Speed and Heavy Duty Tires!

Why take a chance on worn, smooth, uncertain tires when you can buy Firestone non-skid safe, proven tires at lowest prices.

Firestone Tires are designed to grip the road. The non-skid tread is thick, tough and gives 25% longer non-skid safety.

Glen Schultz only last month set a new world's record in climbing Pike's Peak, in 16 min. 47 sec. His top speed was 78 miles per hour—negotiating many hair-raising turns where a skid or a tire failure meant death.

It's that kind of stamina that makes Firestone Tires safe and economical for you.

That's why race drivers use Firestone Tires. They won't risk their lives on any other make.

No tire in the world has the Firestone endurance. That is because Gum-Dipping, the patented Firestone process, transforms the cotton cords into tough, sinewy units. It means that the liquid rubber penetrates every cord and coats every fiber, assuring protection against internal heat. Two Extra Gum-Dipped Cord Plies under the Tread, give 56% stronger bond between tread and cord body.

Don't buy cheap tires that are only made to sell. Don't risk your life on wet, slippery pavements these October days—Use the same precaution race drivers use. Trade in your old tires—We will give you a liberal allowance on Firestone Tires—the safest tires in the world.
