

ALL STAR: One member of the All Star team makes a hit for Rotan and scores a run in the bottom of the third inning in the final game. The final score was 13-13.

Softball Teams End Season With A Tie

The girls Softball teams of Rotan and Roby completed their season Friday, June 30. The younger girls, ages 8-10, were made up of two Roby and two Rotan teams.

The two Roby teams, the Maroon Bombers and the Yellow Jackets tied the two Rotan teams, the Rangeretts and the Green Machine, 13-13 in the Friday game.

The older girls, ages 10-12, of the two Rotan teams (Rangeretts and The Green Machine) were defeated by the two older girls Roby teams of the Maroon Bombers and the Yellow Jackets. The score was 14-13.

Yellowhammer Schedule For '78 Released

The Rotan Yellowhammer football activities get underway starting August 9 with the issue of shoes, and socks at the field house. First day for fall workouts, in shorts, will be August 14, with first date for contact workouts being August 18.

The first scrimmage for the Yellowhammers is August 25 with Munday, at Yellowhammer Field.

Second scrimmage will be September 1 at Crosbyton.

The 1978 Yellowhammer schedule is: Spur, There, Sept. 8; Merkel, Here, Sept. 15; Rochester, Here, Sept. 22; Robert Lee, There, Sept. 29. District Games are: Hamlin, Here, Oct. 6; Jim Ned, There, Oct. 13; Roscoe, Here, Oct. 20; Open Date, Oct. 27; Albany, There, Nov. 3; Baird, Here, Nov. 10; and Hawley, There, Nov. 17.

Little League All-Stars Announced

The Little League All-Stars and alternates were named Friday night June 30, following the last game of the season.

Fifteen All-Stars were named and one active alternate who will work out with the team and be prepared to play in case one of the All Star team members is unable to play.

Strickland Reunion To Be July 9

The Strickland family reunion will be held Sunday, July 9, at the Rotan Community Center.

All relatives and friends are welcome to attend.

County Jail Will Be Open To Public July 9

NEW TABLE: Inside view of one of the cells recently remodeled in the Fisher County Jail. Open house will be held for the public Sunday, July 9.

The Fisher County Jail will be open to the public on Sunday afternoon, July 9, from 2 to 4 p.m. The public is cordially invited to attend and observe the changes and improvements that have been made in the jail, due to the current Texas Jail Standards. There will be no inmates incarcerated at that time.

The Fisher County Jail was built in 1928 by Southern Prison Co., at which time J.S. Connell was County Judge; A.J. Yoakum, Comm. Precinct No. 1; W.J. Madden, Comm. Precinct 2; J.W. Tyler, Comm. Precinct 3, and P.D. Neel, Comm. Precinct 4.

Sheriffs serving after this jail was constructed are: J.F. Parker, Sept. 2, 1927-28; W.D. Pickett, 1929-1930; J.F. Parker, 1931-1934; Frank Terry, 1935-1938; R.L. (Bogue) Wilkins, 1939-1954; A.E. (Bus) Rollans, 1955-1976; 1977 to date, Mickey A. Counts.

The original capacity of Fisher County Jail before renovation was 44. The present capacity is 15.

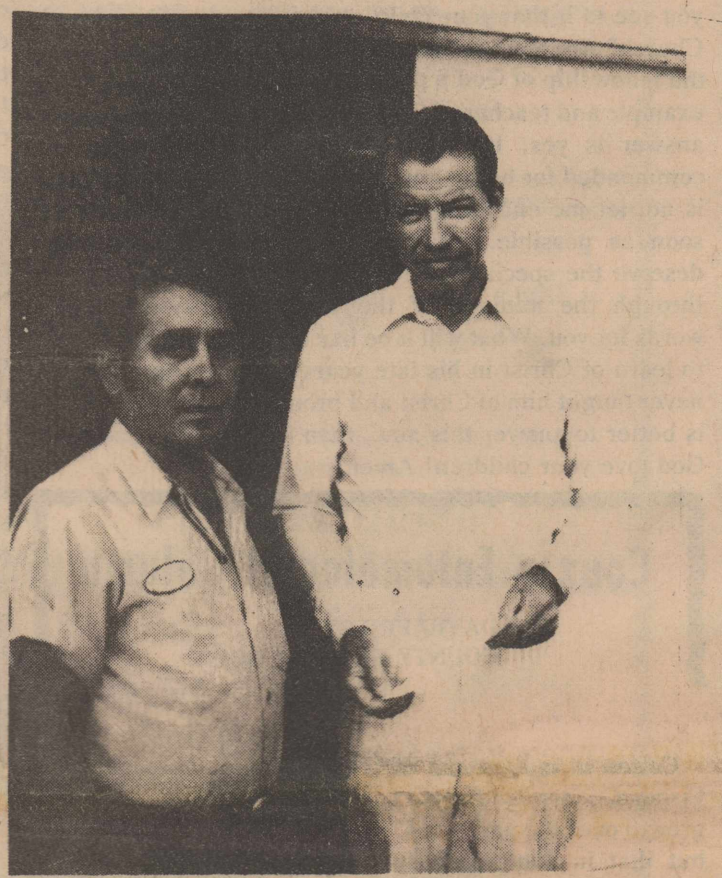

The following is a partial list of improvements and changes made to the Fisher Co. Jail: new aluminum storm windows, complete new wiring throughout the jail portion including penal light fixtures; new sewer and water lines; three new combination commodes, wash basins and water fountains; a vent-a-hood in the kitchen; stainless steel counter top for food preparation; storage area in kitchen; repaired levered locking systems; some new locks, metal tables, benches and seats; four stainless steel and galvanized showers; widened all bunks; enlarged food passers; installed fire extinguishers, smoke detectors, hi-speed smoke exhaust fans; purchased an air pack; installed an evaporative cooler, hot water heater; established a library with books donated by the public; linen storage space. Furnish sheets, towels, wash cloths and white coveralls for inmates. The jail area has been completely repainted. The above is a result of Texas Laws Governing County Jails.

The jail is divided into different areas, which are single cells, separation cells, detoxification cells, day rooms and multi-occupancy cells and storage. Work on the Fisher Co. Jail, excluding plumbing, wiring, installation of windows and vent-a-hood was done by employees of Fisher County, Fisher County Sheriff Dept., County Commissioners and volunteer work done by inmates without pay.

The majority of the work was done by the inmates without pay.

As a result of not hiring all the renovation, approx-

imately \$46,000.00 in County tax money was saved. The approximate cost of renovation is less than \$29,000.00.

NEW MEMBERSHIP: Ben Reaid, president of Rotan Chamber of Commerce, left, presents Chamber Membership to T.L. Roa, owner of Roa's Paint and Body Shop.

Truck And Car Collision Causes Some Excitement

A 1977 White truck and tractor semi-trailer collided with a 1974 Ford LTD Tuesday, June 27, in Roby. The driver of the truck was Paul Stuart of Big Spring, driver of the car was Mercedes Lopez of Rotan.

Stuart was traveling south on S.H. 70 as Mrs. Lopez pulled out from a self service station on S.H.

70. The truck hit the car causing very heavy damage to the car. Truck and trailer were overturned spilling a load of sheetrock onto the highway in front of the Roby Fire Hall. The accident occurred at approximately 4:45 p.m.

The driver of the truck and a passenger in the car were taken to Fisher County Hospital by the

Fisher County Ambulance to be checked for injuries, and were released shortly after. The highway was blocked for approximately two and one-half hours.

The Roby Volunteer Fire Department was on the scene to prevent fire from spilled fuel. The Texas Highway Dept. from Roby assisted in traffic direction and the clearing of the highways.

CLEAN UP CREW: The Roby Volunteer Fire Department and Texas Highway Department help clean up the sheetrock from Highway 70 in Roby following car-truck accident.

DAMAGED CAR: This car, driven by Mercedes Lopez of Rotan, was involved in an accident with a truck June 27, in Roby. No injuries were recorded.

Rise In Screwworms Troubles Experts

A rash of infestation along with favorable moisture conditions across Texas, New Mexico and Arizona has prompted prediction of one of the highest screwworm outbreaks since 1976. The results could cost Texas cattlemen millions of dollars in damage and destroyed livestock.

The Gulf Coast tick, and particularly the screwworm fly, have become a serious threat to the Texas beef industry in the past few years. Adult ticks attack the ears of the cattle causing open wounds in which the screwworm fly lays its eggs. According to entomologists who have been monitoring the problem, screwworm larvae feed in these wounds and in extreme cases can kill the animal.

A Texas Agricultural Extension Service survey, conducted by area extension entomologists, showed that a screwworm infestation can cost a cattleman as much as \$81.50 per head. This includes all categories of loss--death loss, loss of weight, medication expenses and the extra expense associated with transportation and labor. In the same survey, screwworms produced an estimated \$283 to \$375 million loss to the Texas general economy during 1976.

"We've already had more cases of screwworm infestation this year than at the same time last season," says E.H. (Elmer) Ahrens, research

entomologist with the USDA Screwworm Eradication Laboratory at Mission. "At the same time, we are seeing a sharp increase in the number of screwworm reports from Arizona and New Mexico. This all points to the possibility of real screwworm problems this summer."

Jesse Cocke, area entomologist for the Texas Agriculture Extension Service, is working closely with the screwworm eradication program and agrees with Ahrens who points to favorable high-moisture conditions as yet another indication of increased tick and screwworm problems this summer.

"According to weather predictions, many parts of Texas are still anticipating rainfall," Cocke says. "If the rains do come this summer, conditions could become favorable for screwworm and tick infestation."

Ahrens, who has been working with area entomologists, says that cattle from Arizona and New Mexico are particularly to blame for the higher number of screwworm cases in Texas.

Cocke, who works with the "Screwworm Watch" monitoring program from his headquarters in Weslaco, says one of the few methods of protection cattlemen have in the war on screwworms are newly developed insecticide-

Words of Life

Johnny T. Robertson, Pastor
First United Methodist Church
Rotan, Texas

FOR PARENTS ONLY

Recently I have considered the love of God for children. I am reminded of Jesus blessing the children in Mark 10:13-16. The disciples misunderstood Jesus' mission and, though Jesus' work was far too important to be troubled with children. In direct contrast to the disciples, Jesus noted the great importance of children, "for to such belongs the Kingdom of God". (Mk. 10:14; The disciples had forgotten that Jesus had healed many children during His ministry. The role of children among the people of God was very important in the mind of Jesus. Our Lord said, that there is much to learn from children, "for whoever does not receive the Kingdom of God like a child shall not enter it." (Mk. 10:16; Had it not been for Jesus the disciples would have considered children unimportant to God. The disciples would have caused the parents and the children both to think that God did not have a place for children in His Kingdom. The experience of knowing God's love was almost denied to the children. But Jesus refused the rejection of His disciples and gathered the children in His arms and blessed them.

Perhaps some of us need to learn from the mistake of the disciples. Do you refuse to allow your children to experience the love of God? None of us would do this knowingly. But, maybe you have and do not realize it. Do you see to it that your child attends Sunday School and Church? Are your children (and you) actively involved in the fellowship of God's people (the church)? Are you an example and teacher of God's love for your child? If your answer is yes, let God be praised. You are to be commended for being loyal to Christ. But if your answer is no, let me encourage you to correct the situation as soon as possible. Children are people too and they deserve the special right to know God's love for them through the ministry of the Church. I have stronger words for you. What will it be like to have a child grow-up to learn of Christ in his late years and ask you why you never taught him of Christ and brought him to church? It is better to answer this now, than later before God. Let God love your children! Amen.

County Entomologist Column

DAVID FINLEY
COUNTY ENTOMOLOGIST

Cotton in most areas of Fisher County made good growth over the past week, but that in Jones County has become moisture stressed due to the very recent lack of moisture and hot weather conditions. Insect activity for the most part is light.

Thrips are causing some damage across the pest management program area. Approximately 96 percent of the fields being checked are averaging less than 1 thrip per plant. The other 5 percent of the fields show medium to heavy thrips damage with some severe damage to younger leaves and terminals being found. These fields are bordered by drying johnson grass and pasture weeds, thus it appears these insects are migrating to the cotton as the wild hosts dry up. Producers with fields that are located next to this type of growth should be on the alert the next two to three weeks for thrips moving to their cotton.

Aphids are being found in light numbers on some cotton in the pest management program. These insects seldom cause damage to cotton in our area. They seem to be on the increase over last week as more fields were being reported to have slight numbers.

Cotton Fleahopper activity has increased slightly over the past week. Numbers ranging from 0-5 per 100 plants are being found. These insects seem to be migrating from drying wild host weeds

and could present a problem during the next two to three weeks. This will be the period that most of the cotton in the area will begin to put on pinhead sized squares. Watch out for this sneaky varmit as it will steal those early squares if you are not careful.

Boll Weevil activity and response to pheromone traps have declined over the past week. Only seven weevils total were caught in the 56 traps being monitored in Fisher and Jones Counties. Earlier planted cotton next to overwintering habitat can expect activity to increase in these fields as they approach 1/3 grown squares. Base your application on several things such as nearness to habitat, moisture conditions present, growth stage of cotton (just prior to 1/3 grown squares), weevil damage or the presence of a weevil and the time of the year. In a year like this one where nothing is certain you must consider all of these factors before making a decision. I will say as a general comment that if your cotton is planted after June 7-10 the probability of you needing an overwintered boll weevil application will be greatly reduced because of the time in July when you will reach 1/3 grown squares and the fact that there may not be many overwintered weevils around that late in

Continued Page 4

Tax Break For Students With Summer Jobs

If you are a student or are a parent of a student who is planning to work this summer, you may be entitled to some tax breaks, the Internal Revenue Service says.

The IRS points out that students who expect to gross less than \$2,950 in 1978 do not have to pay Federal withholding taxes if they did not pay income tax for 1977. Also, a married student does not have to pay taxes if he or she expects to gross, with spouse, less than \$3,600. The Form W4, which employers can supply, is used to stop withholding.

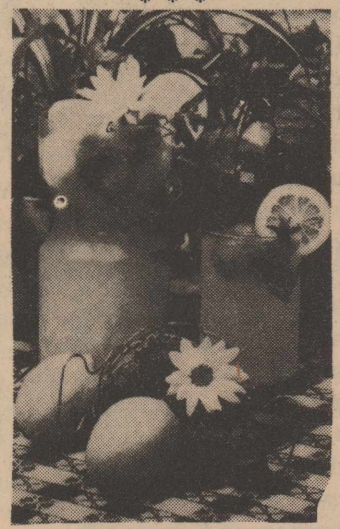

The IRS advises parents that they may claim their son or daughter as a dependent regardless of how much their child earns providing he or she meets basic dependency tests and are full-time students for any part of five months of 1978. One of the main dependency tests is that the parents must furnish their son or daughter more than one-half total support.

On the liability side of the ledger, students employed in businesses where they may receive tips of \$20 or more a month at any one job are reminded by the IRS that such income is taxable. The amount of these tips should be reported to employers, and a daily record of tips should be kept showing the employer's name, date and amount of tips received.

FOOD FACTS & FANCIES

Lemons
This brilliant yellow citrus fruit is valued not only for its nutritive value, but as an excellent household cleanser, a cosmetic (hair rinse) and as the principal ingredient in a wide range of folk remedies. British sailors on long voyages used it to prevent scurvy.

STAMFORD WINNER: Melody Walker wins All Around Youth saddle at the A.Q.H.A. Show at Stamford. She had the Grand Champion Gelding in both the A.Q.H.A. show and the Youth Show, was 2nd in showmanship, 2nd in the barrel race and 1st in the pole bending, giving her enough points to win the coveted All Around Youth Saddle. She also won several trophies and a bronze horse trophy for being All Around.

Nursing Class At WTC Will Begin Sept. 1

Applications are due by July 24 for a new Vocational Nursing class at Western Texas College.

The class will start Sept. 1, Winnie Poyner, instructor said. Under a newly adopted schedule, nursing classes at WTC will be starting March 1 and Sept. 1 each year. This will enable those who complete the program to take state board examinations for licensing within about seven weeks of completion.

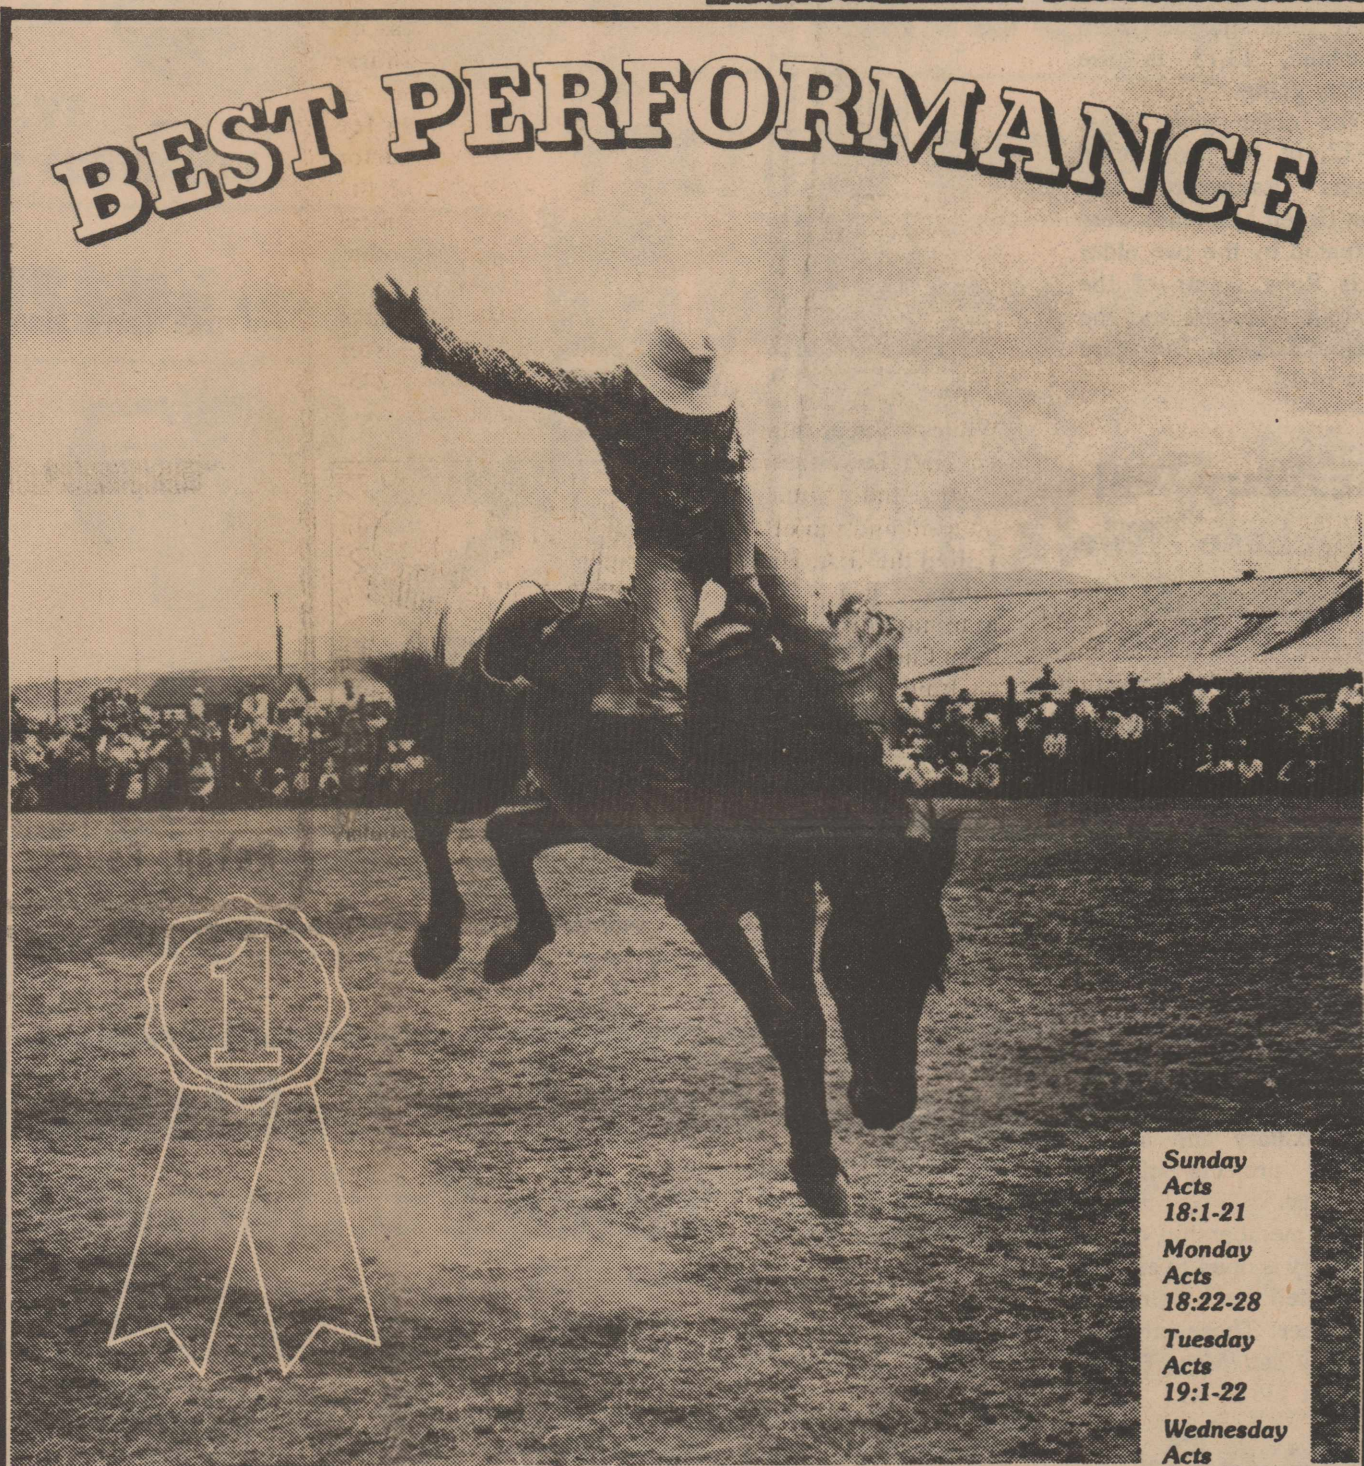

Persons interested in applying for the new class must take entrance examinations first. They must then return to the campus for a personal interview.

BEST PERFORMANCE

All he has to do is stay on for eight seconds. But that can be the longest eight seconds of the day when the rodeo performer gets a particularly spirited bronco.

He knows that when he gives the final nod of his head and that big gate is swung open, some horses turn into twisting, turning beasts who seem to breathe fire and stomp lightning.

Yet every performer hopes he will get that very kind of mount. Unless the horse puts on a wild display during the ride, the judges will score the rider low and he will miss the prize.

Anything that brings a special reward usually requires a person to go beyond his normal performance.

Shouldn't we all then be ready to give an extra share of our talents and abilities if we want eternal life—the greatest reward ever promised to man?

This Sunday come to church and find how it's done.

Mrs. Charles Fritz

Laura Womack And Charles Fritz Wed

Miss Laura Womack, daughter of Mr. and Mrs. Morris Ray Womack of Amherst, was married Saturday, June 24, to Charles Fritz, son of Mr. and Mrs. Jimmy Lynn Fritz of Andrews.

Lynn Blair, minister of the Amherst Church of Christ, performed the ceremony at the First United Methodist Church in Amherst.

The bride, given in marriage by her father, wore a white Dacron organza dress with French imported Chantilly lace yoke and sleeve detail. Crystal pleating trimmed the skirt and attached chapel train. Her cathedral veil was attached to a cap of Chantilly lace and bordered with a band of matching lace. She carried a cascade of white carnations and orchids. She also carried the Bible carried by her mother in her wedding.

Miss Luanne Womack, sister of the bride was maid of honor. The bridesmaids were Misses Lisa Summers and Cindy Springer of Rotan. Junior bridesmaid was Margaret Fritz, sister of the groom. Flower girl was Tonya Hearn of Littlefield. The attendants wore blue dotted Swiss dresses and carried a blue carnation.

Chris Hearn of Littlefield served as best man. Groomsmen were Douglas Allen and Jan Witkowski of Littlefield and Tom Carrol of Andrews. Ushers were Morris Womack, brother of the bride, of Dallas, and Lee DeFord of Littlefield. Ringbearer was Eric Hearn of Littlefield.

Miss Debra Hollis of Hamlin played traditional wedding music on the organ. She also sang

Leisure Lodge Report

By Ima Berry

Thanks to the ones from First Baptist Church for Sunday School. Also, the WMU last Wednesday from First Baptist Church.

Also, many thanks to First United Methodist Church for Sunday afternoon services.

Remind everyone to remember our Fisher County Singing will be July 11th because the 4th was on the first Tuesday.

Also want to remind everyone about our Community Dinner on Thursday.

We've enjoyed quite a number of out of town company the past week.

Visiting Rollie Curlee was both his daughters, Mr. and Mrs. Jack Coonce of Odessa and Mrs. Jeannine Acker and Kevin of Monahans.

Mr. and Mrs. Bill Etheredge and Brad of Roby visited the Tom Simmons.

Mrs. Jackie Noles of Gatesville visited her mother Mrs. Jackie Lewis last week.

Visiting the Hones Grubens was their daughter Inez Purser of Merkel, Mr. and Mrs. Richard Reagan and daughter of Dallas and nephew, a neice and husband of Sulphur Springs.

Mr. and Mrs. John White of Sweetwater visited Mary Lee Barker.

Mr. and Mrs. Dane Hudnall and son of Austin visited the G.A. Hudnalls.

Mrs. Iola Cady of Marona, Ariz., her son John Cady of Japan who is on leave from the Armed

Forces, and Mr. and Mrs. Jack Scarbrough of Midland all visited Lottie Schick on the weekend.

Hope to see you all Thursday. See you next week.

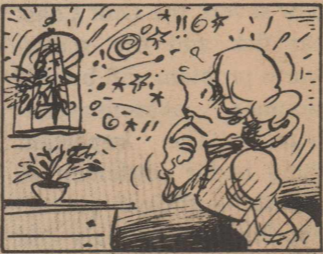

A training course in automatic transmission, designed for persons in automotive trades who want to update skills and knowledge, has been scheduled on the campus of TSTI Sweetwater.

The 36-hour short course will cover service techniques and update changes in current models of automatic transmissions, including GM Hydramatics, Ford Cruisomatics and Chrysler and AMC Torqueflites.

There will be two class sessions: one beginning July 24 and ending Aug. 29, the other beginning July 26 and ending Aug. 31. The July 24 class will meet on Mondays and Tuesdays from 7 to 10 p.m., the July 26 class on Wednesdays and Thursdays from 7 to 10 p.m.

Tuition and parking fee total \$41. The instructor will be Ed Howell of the Texas State Technical Institute Mobile Automotive Program, Waco.

Prospective students should contact Bob Rister at TSTI Sweetwater, 235-8441, extension 46.

"Sparkie Williams," a bird owned by a woman in Bear Cross, Hampshire, England, reportedly had a vocabulary of 531 words.

Registration AT WTC Will Be July 12

Registration for the second session at Western Texas College will be held July 12, with classes beginning July 13.

Students will register in the office of the registrar in the Administration Building. Persons wishing information about the courses to be offered may contact the registrar's office at 915-573-8511.

Fall semester classes begin on Sept. 7.

"Evergreen" and "You Light Up My Life".

A reception for the couple followed the ceremony in the Fellowship Hall of the church.

The bride is a graduate of Rotan High School and attended Texas Tech University. The groom is a graduate of Andrews High School and attended Texas Tech University. He is manager of the Aid Ambulance Service in Littlefield.

Following their honeymoon to Lake Amistead the couple will be at home at 500 W. 6th in Littlefield.

Among out of town guests attending the wedding were Mr. and Mrs. Richard Posey, Patricia, Robert, Julie, Jill and Jan Posey; Mr. and Mrs. James Springer, Mr. and Mrs. Luther Summers, Mr. Floyd Garcia, Jr., Mr. and Mrs. Stuart Nowlin, and Mr. M.T. Hill of Rotan; Mr. and Mrs. Frank Garcia and Clinton Cecil of Snyder; and Mrs. C.E. Whitely, Jr. of Jacksonville.

Hustlin' Round Hobbs

By Mrs. Jimmy Walker
Hobbs, Texas 735-2840

Well it's still very hot and dry, but some places got a few showers which is really what we need on this little cotton.

Mr. and Mrs. Wayne Boydston and Carlena from Mesquite spent all of last week visiting with Mr. and Mrs. Frank Boydston.

Mr. and Mrs. J.W. Etheredge and boys went to Vernon Friday and Saturday and Todd and Randy both participated in the District 4-H Horse Show there. They were accompanied by Tonya Porter. Todd got in the finals for the barrel race and Randy was in the finals for the reining, so we are sure proud of both of these boys. Mr. and Mrs. Sam Etheredge and Mr. and Mrs. Lealon Wilburn from Roby all went to Vernon on Friday to watch Randy and Todd in the 4-H Horse Show.

Gloria Martinez from Fort Worth is spending the long week-end with her parents, Mr. and Mrs. Rudolph Martinez.

Mrs. James Ratliff and Teresa went to the 4-H Horse Show in Vernon both Friday and Saturday and Teresa participated in the show. We were very proud to hear that Teresa made the finals in the barrel race this year.

Congratulations to Tisa Lovett, daughter of Mr. and Mrs. Dwight Lovett, on winning 2nd place in the barrel race at the District 4-H Horse Show. She will now advance to the State 4-H Horse Show to be held in San Antonio this month, and we wish her lots of luck there.

We were very sorry to learn of the death of Mrs. Lorene (Buster) Wright who passed away Friday after a long illness. Our deepest sympathy goes out to Buster and the boys and to Maryanne. Mrs. Wright was a very much loved and respected member of our community and we are going to miss her.

Mr. and Mrs. D.H. Hornsberger from Sweetwater and Mr. and Mrs. Frank Arp from Roby spent all day Sunday visiting with Mr. and Mrs. J.D. Kincaid. Windle Kincaid from Rotan ate Sunday dinner with the J.D. Kincaids and their guests.

Mr. and Mrs. Jimmy Walker and Meldoy went to Stamford Friday and Melody participated in the Open Youth Horse Show. We also stayed and watched part of the rodeo that night. Saturday we were back in Stamford at 7 a.m. for the A.Q.H.A. show and the A.Q.H.A. youth show. They ran these two shows the same day this year so we really had a busy day. Melody was lucky enough to show Mac to Grand Champion Gelding in the A.Q.H.A. show and she also had Grand Champion Gelding in the A.Q.H.A. youth show, beating out her competition from California. Then she placed 2nd in showmanship, 2nd in the barrel race and 1st in the pole bending which gave her enough points to win the coveted all around A.Q.H.A. youth saddle, and she gave up going to the District 4-H Show in Vernon, we were doubly pleased. Mr. and Mrs. Blake Walker from north of Snyder spent the day with us at Stamford and you never saw so many hot and dirty people as there were at the end of those shows. The sand blew all day both days, but on the way home on Saturday we came through a fast shower at Hamlin and our pickup and trailer got a free wash. It really rained heavy for a few minutes. Now we are cleaning up and Melody rides in the open barrel race Tuesday morning and is No. 4 out, so we hope that Mac Will run good. There are 105 in the barrel race this year, so it's going to be hard to get in that top 10 for Tuesday night, but we are hoping that she'll have a good run.

Have missed quite a few folks this week, but had to get this in a day early because of the 4th. So I'll catch up with you next week.

County Entomologist Continued From Page 2

the year. Bollworm light trap catches have increased drastically this week. Catches range from 0-20 females per night and 9-63 male moths per night. Tobacco budworm catches range from 1-7 male moths per night. I've heard the comment from last year that as bollworm catches get larger so does the possibility of rain. I hope they are right.

come by and talk about it. I'll listen to anything. This is going to be a weekly thing from now on until the end of the growing season so take a few minutes off and stop by. Oh yes, if no one comes by before 3 p.m. I'll probably be gone so try and come early.

Bollworm egg lay predictions reflect the lateness of this year's crops by showing little or no peak egg activity expected for July, but August is a little different story. Moth activity will begin around July 15 with an increase in egg activity until August 6 where it peaks then declines until August 24. Here it begins to increase and you can expect another large peak to occur in September. I hope this will be helpful in your decision making this year. For those of you who may want to irrigate look to next week's letter for a discussion of this.

Beginning on Wednesday, June 28, I will be at Kirby Clayton's Office in Anson from 1 to 5 p.m. If you have any questions for me I will be there to answer them. Hope you will use this opportunity to

For the first time in its eight-year existence, TSTI Sweetwater will offer training programs leading to the associate degree.

D.A. (Bill) Pevehouse, campus general manager, said the Texas Education Agency has approved associate degree programs in technical office training and air conditioning and refrigeration. They will be taught for the first time in September 1978.

Until now, TSTI Sweetwater, a state-supported technical-vocational school has taught only skill development programs. A year or less in length, they offer certificates of completion to graduating students. The two new technical programs will offer associate of applied science degrees to graduates.

Future plans call for the implementation of addi-

Rotan Advance
Rotan, Texas
Re:6-22-78 "Re-evaluation tax suit could surface"

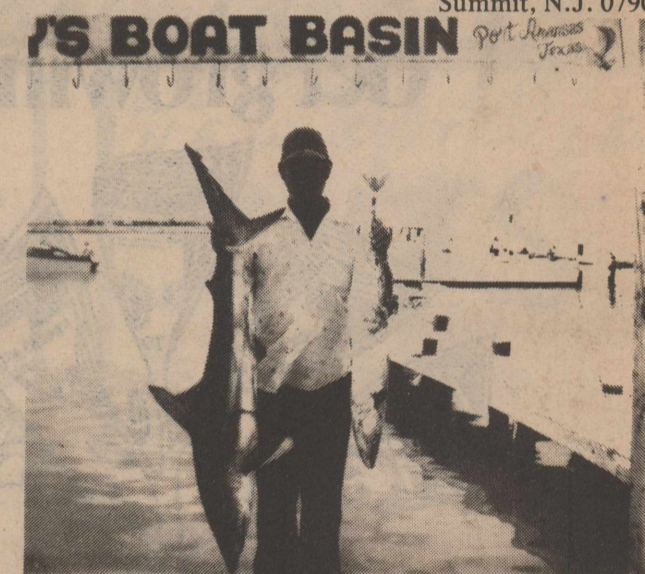

I find it difficult to fathom Bob Ford's and Jerry Krupka's thesis that increased taxes on oil production are unjustified. What with the price of crude having increased from under \$3.00 per barrel to near \$12.00 since the 1950's and the 20 cent cotton of that period now up to 42 cents (based upon not a small number of sales of 1977 cotton) me thinks oil values have indeed grown at rates far surpassing those of cotton. Granted, there have been sales of land at inflated prices. But what is the fair value of land? "The price at which a fair return upon investment can be earned after expenses including costs of management" is a quite logical means of valuation. It hardly stands to reason for the vast majority of farm land to be valued at what a limited few sales would indicate, particularly when the price is heavily predicated upon 1973 prices of cotton or when a Federal Government agency guarantees purchase-money mortgage debit and thereby assumes

the lions share of investment risk.

On the other hand, the value of producing oil property is easily determined at a given rate of return on investment. The value of production at a given rate is readily determinable at market prices of oil, once a desired yield is determined.

There is every reason for oil production taxes to increase with increases in prices for the product. Conversely, the case for adjusting tax values on farm land, although product prices have increased in the last 20 years, is less clear, as the farmer's rate of return on investment continues marginal in view of his many-fold increases in costs of equipment, labor, and would you believe fuel as well as substantial increases in all forms of taxes (with the hidden tax of inflation being the primary cause of reduced purchasing power and higher income tax brackets). Perhaps Mr. Ford and Mr. Krupka would care to disclose to us the effective income tax rates of General Crude and Continental Oil Co.?

Very Truly Yours,
Preston Morrow, Jr.

The 20 pound King was caught by Loretta Daniel of Rotan.

Associate Degree Program Offered At TSTI

tional degree-granting programs at TSTI Sweetwater, Pevehouse said.

The new air conditioning and refrigeration technology program will be six quarters (18 months) in length, according to Ronnie Freeman, program chairman. TSTI will continue to offer a four-quarter (one-year) air conditioning and refrigeration mechanics curriculum.

The four-quarter program trains the mechanic; the six-quarter training is at the technician's level, Freeman explained. With the increased technology in air conditioning, the students need two more quarters.

In addition, the Texas Education Agency approved a three-quarter (nine-month) solar energy mechanic training program for TSTI Sweetwater.

Freeman said this cour-

se is "designed to further the knowledge of the air conditioning technician in his field."

This program also may be taken as an option by itself by students wishing to be certified as solar installers.

The expanded office training curriculum at TSTI Sweetwater will permit associate degree candidates to concentrate in either of two areas: general (accounting or general office work) and secretarial.

Students not wishing the associate degree may take only enough hours to qualify for a certificate of completion as a receptionist, general office clerk, accounting assistant or secretary. Any of these options may be pursued through the associate

Okra, a popular garden crop--makes a delightful gourmet item--pickled okra. The first recipe is the longer fermented method and is the favorite of Ernestine Edmundson, Ellis County Extension agent.

The second recipe, a quick method, is the standby of Mrs. Lyndon Baines Johnson.

Pickled Okra

Wash okra, leaving small amounts of stem on the pods, and drain. Make brine: 1/2 cup plain salt, 2 quarts water, 1/2 cup vinegar, 1 tablespoon sugar. This amount covers one gallon of okra.

Place in bottom of appropriate size jar--a layer of dill and two tablespoons mixed pickling spices. Add okra, then another layer of dill and a like amount of spices. If desired, add a few cloves of garlic. Pour brine to top of jar. Keep okra under brine at all times. A stem of dill or some grape leaves added for color will keep okra from floating. Fermentation will begin with three days. Remove the scum that forms on top daily.

If possible keep the pickles at even room temperature (70 to 86 deg. F. is best for brining). Fermentation is faster in hot weather (10 days to two weeks).

When fermentation stops, pickles are ready to eat. Seal airtight in brining liquid for storing, or rinse pickles and pack into sterilized jars and cover with fresh brine if desired.

Commercial dill seeds do not give the flavor that fresh dill or dried dill heads with stems give.

Note: Carrot strips, green beans, onions, green tomatoes, blackeyed peas and other vegetables may be pickled by same method.

Pickled Okra

Fresh okra, 1/2 cup water, 1 tablespoon salt, 1 teaspoon dill seeds for each pint jar, 1 hot red pepper, 1 hot green pepper, 2 cloves garlic, 2 cups vinegar.

Place one-half teaspoon dill seeds in bottom of each sterilized jar. Wash okra and pack as tightly as possible in jars being careful not to bruise. Add one-half teaspoon dill seed, red and green peppers and garlic. Bring vinegar, water and salt to a boil and pour this mixture over the okra. Seal the jars and allow to stand two weeks. Serve icy cold. Makes approximately four pints.

Processing: Process sealed jars of okra from either recipe for five minutes in boiling water bath while hot--immediately after putting it in the jar. Processing destroys any bacteria, yeasts or molds which occur in the air, and therefore, can easily contaminate food in transfer from the kettle to the jar and cause spoilage.

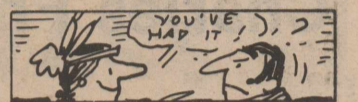

Notice

Mr. and Mrs. Garvis Hinson wish to announce the cancellation of the wedding of their daughter, Brenda, to Neal Neal, July 8, 1978.

Unique to electric heating is the fact that you can control the heat in each room of your house. This is called a zonal system. By turning down your thermostat to, say, 60 degrees in rooms not being used, you not only protect your budget, but conserve energy, too.

You can save energy further by having a temperature-sensing thermostat in each room. It automatically reacts to incidental solar heat gain and heat-generating appliances in your home by reducing heat output, point out heating experts at the National Electrical Manufacturers Association.

To reduce radiated heat loss through windows, close window draperies. To take advantage of sunlight you may want to open drapes on windows receiving full sunlight during the day, but be certain to close them again at night.

French legend has it that a red man appeared to Napoleon and foretold his downfall.

Rotan, Texas

Teresa Coan And Brian Harrison United

Miss Teresa Ann Coan became the bride of Brian Keith Harrison in a double ring ceremony at 7:30 p.m., June 30 at the Calvary Baptist Church, Rotan. Rev. Steven Sweet of Pecos officiated.

The bride is the daughter of Mr. and Mrs. Dueaine Coan. The bridegroom's parents are Mr. and Mrs. Tyrus Harrison, all of Rotan.

Floyd Garcia, Jr. provided music as Rick Campbell of Rotan, brother-in-law of the groom, sang "You Light Up My Life" and "Annie's Song".

The bride, given in marriage by her father, wore the traditional white wedding gown. It was an Alfred Angelo original with a peau d'ange lace bodice. The skirt was of flowing chiffon of a scarf head which made the chapel train. The Victorian neckline enhanced the beauty of her shadow sleeves of lace and chiffon. The gown had the button look down the back and on the cuff to add the finishing touches.

The bride was attended by her two sisters, Karen Dooley of Snyder and Rhonda Coan of Amarillo. They wore floor length gowns of blue lace-covered organza with blue taffeta puff sleeves. They carried long stemmed white carnations.

Mike Crite of Rotan served as best man. Raymond (Hoss) Carrillo of Rotan was groomsmen. They wore baby blue

tuxedos with coordinating vest and victorian ruffle shirts. Their slacks were dark blue. The groom's tuxedo was an exact replica, differing only by his baby blue slacks.

Ushers were Kenneth and Kevin Levens of Anson, cousins of the groom.

Candlelighters were Brian Christopher Sheehan, and Bryan Campbell, nephews of the groom.

A reception was held following the ceremony in the Fellowship Hall of the church. The bride's table was adorned with a three-tiered cake designed by Mrs. Bret Clements of Rotan. The bride's bouquet was placed between the attendant's carnations below the silver and blue candelabra to complete the table adornment.

Mrs. Roy McCombs of Rotan and Kathy McCombs of Rotan served at the bride's table.

Mrs. Carrol Levens, aunt of the groom, presided at the guest book.

Stephen Dooley of Snyder, nephew of the bride, Brandon Sheehan, nephew of the groom, and Miss D'Lane Dooley of Snyder, neice of the bride, handed out the blue rice bags. The grooms parents honored the couple with a dinner catered by the Hatahoh of Rotan following the rehearsal.

The bride is a 1975 graduate of Rotan High School. The groom graduated from Rotan High School in 1976, he is

presently employed by National Gypsum of Rotan.

Following a wedding trip to Mexico and Las Vegas, Nevada, the couple will make their home at 310 E. Forrest in Rotan.

PAINT IT YOURSELF

If bright sunlight brings out the worst in your painted walls, gather your ladder and your painting supplies and get to work. Don't be afraid to tackle the job; today's paint and equipment is economical and easy to use.

Here are some basic tips to help you prepare your room for painting:

- Remove all pictures, wall accessories and lamps from the room. Place furniture in the center of the floor and cover it completely with drop cloths. Rugs should be rolled and either removed or covered completely.
- Paint adheres better to clean surfaces, so be sure to dust the walls.

- To prevent new paint from bubbling, scrape away all chipping, flaking and peeling paint with a putty knife. Use a spackling compound to patch all cracks and holes, then sand all the rough areas.

TSTI Continued From Page 4

degree level.

The receptionist certificate option will be new this year, said Mrs. Fran Neal, technical office training chairman. Two quarters (six months) in length, it is designed "for the student who desires minimal skills and has an immediate need for employment," Mrs. Neal said.

"We are strengthening and expanding our present curriculum," Mrs. Neal said of the associate degree program.

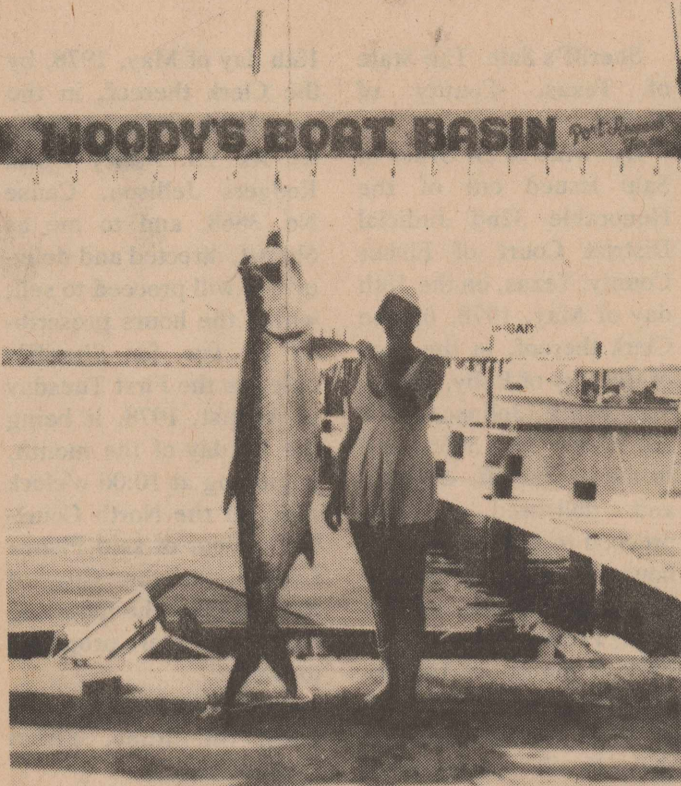

As an example she cited the addition of accounting and data processing courses which, she said, "should produce a more well-rounded accounting assistant."

Approximately seven quarters, or 21 months, will be required to complete the associate degree requirements in technical office training.

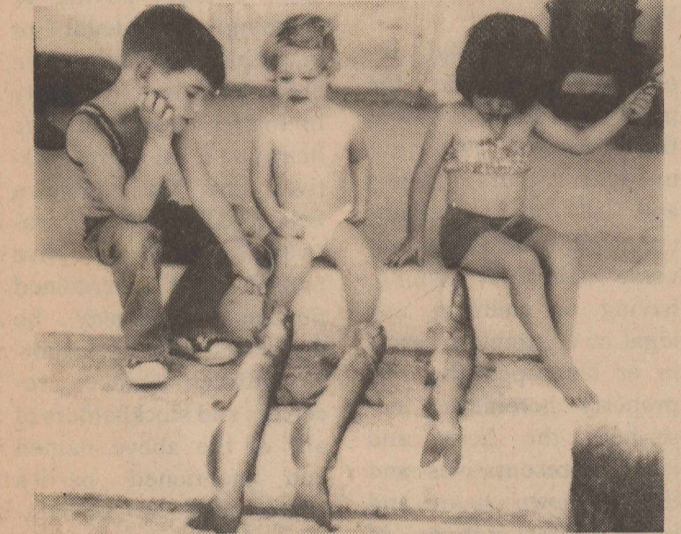

Mrs. Neal stressed that cooperation between the office training department, TSTI administration and the local business community has served to make available expanded training opportunities for all in the area served by TSTI Sweetwater.

"It's a step we've been needing to take for a long while", said Homer K. Taylor, TSTI manager of Instructional Services, about the curriculum expansion.

"We have been having to hold up because of lack of physical space. But the addition of new buildings has allowed us to go into these two technologies."

BIG CATCH: Mrs. Kenneth [Becky] Bilbo, daughter of Mr. and Mrs. Leonard Keys, formerly of Sweetwater, and daughter-in-law of Mr. and Mrs. T.W. Bilbo of Rotan, proudly shows her 105 lb. Tarpon. The fish lacked 8 lbs. being a record and was the first one caught of the season, from the Gulf at Aransas Pass. It took her one hour and forty-five minutes to land the fish.

SUMMER FUN: These youngsters were happy when their PaPa Charles took them fishing. Ryan and Rachel Shipp are the children of Mr. and Mrs. Vollie Shipp, Fluvanna; Kayleen Shipp is the daughter of Mr. and Mrs. Raygene Shipp. Grandparents are Mr. and Mrs. Charles Shipp, Mr. and Mrs. Martin Solliz, Rotan; and Mrs. Margaret Daughtry of Fluvanna. Great-grandparents are Aggie Crite, Ft. Worth, Sara Ship, Rotan; Nannie Daughtry, Fluvanna; Granddad and Grandmother Winnie of Fredricksburg.

Secret Pal Club Has Monthly Meeting

Mmes. Lillie Herron and Opal Burch were hostesses to the Secret Pal Club Wednesday, June 21, at 2 p.m., in the home of Mrs. Herron.

Members present from Rotan were Mrs. Jo Henry, Mrs. C.K. Hamlin, Mrs. Clara Rogers, Laura Myers, Evelyn Polk, Verna Mae McCombs, Pauline Helms, Virgie Weems and the hostesses, Mmes. Herron and Burch.

Members from Roby present were Mmes. O.D. Knox, Joe Ballenger, John Palmer, Tracy King, Hazel Smith, Scena Wood, and Bess Ashley.

Delicious refreshments were served buffet style from an appointed table.

The club is happy to welcome two new members, Mrs. John Leach of Rotan, and Mrs. J.F. McAnally of Midland.

Cox Jewelry
SWEETWATER

COUNTY AGENT NEWS

By Richard Spencer

Cotton planting is almost finished across both Fisher and Jones Counties. Moisture conditions remain adequate however, a rain will be needed soon on some areas. Cotton and grain sorghum are both making good growth. Most of the cotton being

checked is at the seedling stage with some pinhead sized squares being found in the older planted fields. On the average, insect activity is light.

Cotton aphids are being found in light numbers on two-three leaf cotton. These insects are serving as food for beneficial insects and will be good if they will stay on the cotton the entire growing season.

Thrips are being found in light numbers on all cotton that is up. On some May 18 planted cotton outside the pest management program thrips were found in heavy numbers

and were causing severe damage to terminal growth. This field was surrounded by pasture which was where these insects

migrated from as the wild host plants dried up. These very small insects have rasping-sucking type mouthparts and will scrape away tissue from the underside of leaves

and the terminal. This rasping gives a silvery appearance to the leaves. They will also turn brown around the margins, curl and crinkle. Close exami-

nation of seedling plants during the next 2-3 weeks will be required to see if this insect is migrating to your fields.

Boll weevils are not

being found on any cotton across the pest management program area as of yet. However, weevils are still being caught in traps.

We had our peak emergence of weevils from overwintering habitat the week of June 4. This was

right on schedule with our prediction of the last week of May and first week of June emergence dates.

Cotton planting is so late this year that it will be difficult to recommend an application to control this pest. First 1/3 grown squares will not be found on most fields until the last

two weeks of July, right about the time that I feel we can expect an increase in bollworm eggs. If control measures are applied for boll weevils very long before the first 1/3 grown squares appear, I feel you'll be throwing

your money away because weevils will not move into cotton in heavier numbers and cannot lay eggs that will form grubs until 1/3 grown squares are present. Therefore, treatment

on later planted fields may not be needed because as you know since we had our peak emergence June 4 and 1/3 grown squares will not be present until the last two weeks of July, most of our weevils should

die due to a lack of squares to feed upon. Hopefully, this will be the case.

Bollworm Egglay Prediction: Next week I will enclose a computer prediction of when we can expect

bollworms to begin laying eggs in our cotton. This

will be very beneficial to those debating on whether or not to apply insecticide

and also to those who may be planning to irrigate.

Reports From Other Counties: David Kattes at Colorado City reports that boll weevil catches peaked the same weeks that ours did. This seems to be consistent for the entire

Rolling Plains. Gerry Bohmfalk at San Angelo reported that boll weevils peaked June 2, 3, and 4 there. Also, he noted that thrips are a problem on some of the younger cotton in that area.

Pest Management Report: Field scouting is underway as of this week. We have two scouts working in Fisher County and two in Jones. Those in Fisher are Max Kemp from McCaulley and Dwaine Rivers from Roby. In Jones County Mike Brown and Marvin Ansley both from Anson are working. Marty Jungman from Rio Medina, Texas is working as our scout supervisor

and Robert Morgan from Roby is working as our demonstration assistant. We have a lot of experience among these men and they should do us a good job in scouting this season.

By virtue of an Order of Sale issued out of the Honorable 32nd Judicial District Court of Fisher County, Texas, on the 18th day of May, 1978, by the Clerk thereof, in the case of the City of Roby, ET AL VS. J.V. Beauchamp, ET AL, Cause No. 3865, and to me as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales on the First Tuesday in August, 1978, it being the 1st day of said month, beginning at 10:00 o'clock a.m., at the North Courthouse Door of said Fisher County, in the City of Roby, Texas, the following described real property, to-wit:

Lots 7, 8, and 9, Block 49, Original Town of Roby, Fisher County, Texas.

Levied on this 30th day of June, 1978, as the property of J.V. Beauchamp, the unknown owner or unknown owners and any and all other persons unknown, including adverse claimants, owning, having or claiming any legal or equitable interest in or lien upon the real property hereinafter described; the heirs and legal representatives of each of the above named and mentioned persons who may be deceased; and the corporate officers, trustees, receivers and stockholders of any of the above named and mentioned parties, which may be corporations, foreign or domestic, defunct or otherwise, together with the successors, heirs and assigns of such corporate officers, trustees, receivers or stockholders to satisfy a judgment amounting to \$348.96 with interest from the 18th day of May, 1978, at 9 per cent per annum and all costs of suit, in favor of the City of Roby, the Roby Independent School District, the Fisher County Hospital District, the State of Texas, and the County of Fisher.

Given under my hand this 30th day of June, 1978.

Mickey A. Counts
Sheriff, Fisher County

New Uses For Clear Fork Surface Water

Use of surface water from the Clear Fork of the Brazos River Watershed for other than domestic and livestock purposes has been documented in a report prepared by the Texas Department of Water Resources, according to an announcement by the TDWR.

This report was prepared for publication subsequent to a field investigation of water usage in the watershed covering portions of Scurry, Fisher, Nolan, Stonewall, Jones, Taylor, Haskell, Throckmorton, Shackelford, Callahan, Young, Stephens and Eastland Counties.

At a later date, all known users of surface water in the segment will receive, from the Texas Water Commission, a notice of the adjudication and a claim form to be completed and filed as required by law. Each party will be notified of the date, time and place for a jurisdictional hearing and subsequent individual evidentiary hearings which will be held to determine the extent of the validity of the nature of each claim to use water in the watershed.

Publication of this report from information gathered during field investigation marks the commencement of the adjudication process in the Clear Fork of the Brazos River Watershed. Several such operations have been undertaken since the passage of the Water Rights Adjudication Act of 1967. The report consists of a 329-page book and a 22-page appendix of aerial photographic mosaics and is available for inspection at TDWR offices in Austin, or at the offices of county clerks of Nolan, Jones, Taylor, Shackelford and Stephens Counties.

The smallest mammal is the pygmy shrew, which is only 1 1/2 inches long without its tail, and weighs only one-eighth of an ounce.

Grandparents' Corner

Annie Fayrene Messic, age 2 years, enjoyed eating her first year of corn. She is the daughter of Mr. and Mrs. Dearl Gene Messick of Rotan. Grandparents are Mr. and Mrs. Harrell Settle of Phoenix, Ariz., and Mr. and Mrs. Cecil Fowler of Brinkley, Ark. Great-grandparents are Mr. and Mrs. O.C. Ashton and Mr. and Mrs. Charlie Messick, all of Rotan, and a great-grandmother Mary Benson of Phoenix, Ariz.

Center Home Demonstration Club Meeting

Mrs. Will Moore was hostess, Tuesday, June 27, when Center Home Demonstration Club members met in the Court-house Annex.

Mrs. Willard Burk, Club Chairman, called the meeting to order. After a recreation period the minutes were read by Mrs. Lowell Thornburg.

The program "Home Owner's Insurance" was given by Mrs. James Cave and Mrs. Lynn Randolph.

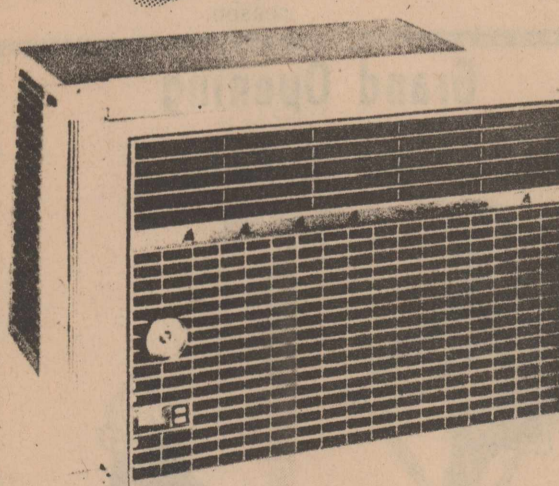

Mrs. Moore served delicious refreshments to Mrs. Willard Burk, Mrs. Nina Cave, Mrs. James Cave, Mrs. Lynn Randolph, Mrs. B.K. Newhouse, Fay Anderson, Mrs. Joe Ballenger, Mrs. Lowell Thornburg and the grandchildren of Mrs. James Cave, Jill, Jennifer and Paul.

Grandmother Rides Elephant In Dallas

If 83-year old Ruby Clark had planned a career as an elephant rider, she might have started a little earlier.

She was not at all sure, in fact, she wanted even to ride. But her son insisted, she agreed and she loved it. It just may have been her most exciting Mother's Day.

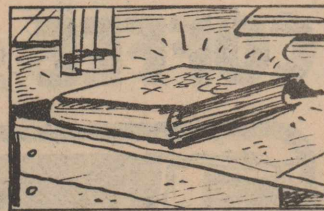

Formerly of Sweetwater, Mrs. Clark has lived in a rest home in Duncanville. Dinner out, a trip to the John F. Kennedy Museum and visit to Lion Country Safari were on the itinerary when her son, John O. Clark, and his wife, Mildred, postmaster at Buffalo Gap, went to the Dallas area for a weekend visit with her. It was at Lion Country Safari they encountered the elephant.

And wouldn't she like a ride? She wasn't sure. "I had to coax her a little", John admits. "She'll do just about anything I tell her is OK. She had never been on a plane until I put her on a jet and she went to

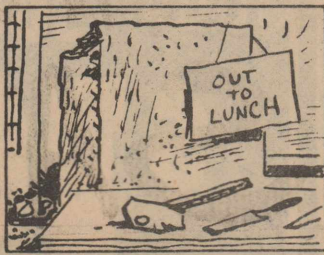

Dallas."

Ruby's daughter-in-law rode with her, and both loved it. It was a Mother's Day treat that will be hard to top.

Married in Waxahachie, Mrs. Clark and her late husband, B.F. Clark, lived for a time at Roby and Rotan, then for a number of years at Sweetwater where he was a carpenter and contractor. Mrs. Clark has seven children.

The first Gideon bibles appeared in hotel rooms in November, 1908.

Michelangelo carved his famous statue of David from a marble block on which another sculptor had started work.

Emergency Care Classes Begin July 6

Emergency Care Attendant (ECA) classes will begin July 6 at TSTI Sweetwater, with both morning and evening class sessions planned.

Instruction will cover topics such as cardio-pulmonary resuscitation, bandaging and splinting, poisoning, emergency childbirth and medical emergencies.

The morning class will meet from 9 a.m. to 1 p.m., the evening class from 6 to 10 p.m. Classes will meet in the Vocational Nursing building at TSTI Sweetwater.

Class dates will be July 6, 12, 13, 18, 19, 25, and 27, and August 3, 11, 15, and 17. The ECA class is 40 hours in length. Tuition, books and parking fee total \$38.46.

Prospective students may register or obtain more information by calling 235-8441, extension 40 or 41.

LOOK WHO'S HERE!

Mr. and Mrs. Lance McWilliams of Roby are parents of a son, Kelly Dee, born July 2. He weighed 8 lbs. 4 1/2 ozs.

Grandparents are Mr. and Mrs. Ted Posey of Roby and Mrs. Deana McWilliams, Sweetwater. Great-grandparents are Mr. and Mrs. Dave Posey, Rotan, Mr. and Mrs. Max Stuart of Roby; and great-great-grandparents are Mr. and Mrs. H.I. Curlee of Colorado City and Mr. and Mrs. D. Sharrock of Palava.

THURSDAY, JULY 6, 1978

FISHER C

Stella Tribble

Stella P. Tribble, 78, of Tulsa, Okla., and formerly of Roby, died Wednesday, June 28, in a Teague hospital of natural causes. Graveside services were held at 4 p.m. Saturday, July 1, in Roby Cemetery, directed by Weathersbee Funeral Home of Rotan.

The Rev. Loren Gardner, pastor of First United Methodist Church, officiated.

Jesus F. Guerra

Jesus F. Guerra, 68, of Roby died at 4:30 p.m. Thursday, June 22, at his home after a long illness. Services were held at 10 a.m. Monday, June 26, in Weathersbee Funeral Home Chapel in Rotan. Burial was in Roby Cemetery.

Born June 6, 1910, in Marin, Mexico, he was the son of the late Mr. and Mrs. Luz Guerra. He married Dolores Martinez March 3, 1941, in Marin. He was a coal miner in Kentucky for many years before moving to Roby in 1968.

Survivors include his wife; a stepmother, Mrs. Luz Guerra of Monterrey, Mexico; four sons, Jesus and Efrain, both of Monterrey, Eloy of San Cristobal de las Casas, Mexico, and Raymond of of Roby; four daughters, Carmen Narbaes, Blaca Islas, Ebra Marin and Elba Nunoz, all of Monterrey; a half-brother, Juan of Delano, Calif.; four sisters, Rosita Mantenayos and Celia Garcia of Houston, Monical Leal of Fresno, and Olivia Martinez of Calif.; 34 grandchildren; and a great-grandchild.

Tisa Lovett In Finals At Vernon Horse Show

Those participating in the 4-H Horse Show from Fisher County at Vernon last weekend were Tisa Lovett, Todd and Randy Etheredge, Alan Kiker, Connie Williamson, Linda Hoodenpyle and Teresa Ratliff.

Tisa Lovett made the finals in the barrel race Friday night and placed 2nd overall. She will now advance to the State 4-H horse show at San Antonio in the barrel race later this month. Todd Etheredge and Teresa Ratliff were in the top in the barrel race, and rode in the finals Friday night.

Randy Etheredge and Alan Kiker both advanced to the finals in the reigning Friday night. Alan Kiker place 8th overall in the reigning.

Connie Williamson had a 3rd place in the halter grade geldings and Linda Hoodenpyle participated in the reigning. Tisa Lovett

and Alan Kiker both roped on Thursday at the District 4-H Show.

Accompanying the Fisher County youths were John Schumacher, assistant county agent; Mr. and Mrs. J.W. Etheredge and Tonya Porter. Mr. and

Mrs. Junior Kiker, Mrs. James Ratliff, Mr. and

Mrs. Jerry Hoodenpyle, Mr. and Mrs. Dwight Lovett, Mr. and Mrs. Freddie Williamson, Mr. and Mrs. Sam Etheredge and Mr. and Mrs. Lealon Wilburn.

PUBLIC NOTICES

SUBJECT: Non Discrimination POLICY:

Midwest Electric Cooperative, Inc. has filed with the Federal Government a Compliance Assurance in which it assures the Rural Electrification Administration that it will comply fully with all requirements of Title VI of the Civil Rights Act of 1964 and the Rules and Regulations of the Department of Agriculture issued thereunder, to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in the conduct of its program and the operation of its facilities. Under this Assurance, this organization is committed not to discriminate against any person on the ground of race, color or national origin in its policies and practices relating to applications for service or any other policies and practices relating to treatment of beneficiaries and participants including rates, conditions and extension of service, use of any of its facilities, attendance at and participation in any meetings of beneficiaries and participants or the exercise of any rights of such beneficiaries and participants in the conduct of the operations of this organization.

Any person who believes himself, or any specific class of individuals, to be subjected by this organization to discrimination prohibited by Title VI of the Act and the Rules and Regulations issued thereunder may, by himself or a representative, file with the Secretary of Agriculture, Washington, D.C. 20250, the Rural Electrification Administration, Washington, D.C. 20250, or this organization, or all, a written complaint. Such complaint must be filed not later than 180 days after the alleged discrimination, or by such later date to which the Secretary of Agriculture or the Rural Electrification Administration extends the time for filing. Identity of complainants will be kept confidential except to the extent necessary to carry out the purposes of the Rules and Regulations.
