Collie Re-Election Makes History in The 24th District

In his successful campaign for re-election to the State Senate, Wilbourne B. Collie, of Eastland, broke a precedent in this district. Never before has a Senator been re-elected since the district was organized.

Collie won a clear majority in the balloting over two veterans in Texas politics, Harry Tom King, of Abilene, and Y. L. Thomason, of Haskell. The certified vote by County Chairmen shows he received a majority over his opponents of 3563 votes.

"The results of the campaign

"The results of the campaign are indeed very gratifying to me", he said. "I am deeply grateful for this splendid majority in the first primary, and I esteem friends beyond measure for making it possible for me to continue a service which I hope will result beneficially to our district and the people of Texas."

The vote by counties is given below, with Collie's vote listed in the first column, King's in the second, and Y. L. Thomason's in the third column:

District Judge Dennis P. Ratliff heard pleas of guilty entered by Little and Clayton to charges of assault and robbery, and theft of an automobile. Sentence of 25 years was assessed against each man on the assault charges, and 10 years on the robbery bills.

Two years ago both men escaped from the Stonewall county jail, overpowering Sheriff Bailey Bing-ham, locking him in a cell and taking the officers automobile to make their getaway. Bingham re-cently learned that they were in the Wyoming penitentiary, and im-mediately set about to secure their release in order to prosecute them in this state.

Both men were confined in the Haskell jail pending trial, and were transferred to the State Peni-tentiary Sunday by Stonewall county officers.

Early Account Traces Tragic French Colony

The tragic expedition of La-Salle's colony in Texas has been recorded in many accounts. But by a co-incidence, the first account of the destruction of the unfor-tunate settlement of the French on the Texas coast appears to have been published in Mexico in 1691, it is pointed out by Dr. Carlos E. Casteneda, Latin-American librarian at The University of Texas.

"This account, generally known was written by Mexico's outstanding scholar and scientist of the seventeenth century. Don Carlos de Siguenza y Gongora," Dr. Cas-teneda said. "It was to Don Carlos that Father Massanet the founder of the missions in East Texas, wrote his long letter describing the first establishment by the Spaniards in this region, and it is Don Carios who claims in a prologue to one of his books that he wrote a history of Texas. But unfortunately the manuscript of this history of the State has been lost.

"However, in one of his many books. Don Carlos has given a brief but very interesting sum-mary of the destruction of LaSalle's colony. This is found in his Trofeo de la Justicia Espanola, published in 1691. This account was perhaps one of the chapters of his lost history of Texas. It is based in part on Father Massanet's letter and on the declarations made by two of the survivors of the settlement who were captured by De Leon in 1689 and sent to Mexico. It is therefore the first authentic account to be published of this tragic expendition in the history of the State. This rare occount is found in the Garcia Library of The University of Texas." The first chapter in this valu-able and little known book is en-

titled, "Fatal Events That Befell M. LaSalle on the Lake of San Bernardo (Matagorda Bay), and Happy Success with Whehi Sevxpeditions to the Province of Texas Have Been Undertaken to Settle Carolna (Georgia) "The successes attained by New Spain (Mexico) during the administration of the most excellent viceroy Count of Galve, will for-

ever afford materials for voluminous tomes even should these be reduced to a mere compendium. Don Carles write, "Should not a better pen undertake this heroic enterprise, I may attempt it myself sometime in the future. But in the meantime, I wish to se down here as a brief appendix. one or two of the many successes which are not entire unrelated to what I have already writen, either because it was the French who gave occasion for them, or because they were attained by the value of the Special Action of the Actio which are not entire unrelated to valor of the Spanish-American arms, or because they were due to excellent vicerov.

John A. Norris, chief engineer-general manager of the Brazos project, and Senator Morris Sheppard are expected to go to Washing this summer and work out arrangements for releasing funds for one or more new units in the 13-dam project.

The Brazos project is the largest public works project in Texas and is believed to be the largest WPA project in the United States.

"The wisdom of the government going into this sort of project has been born out by the recurring floods in other parts of the country as well as in Texas," Mr. Norris declared.

"The Brazos project appealed to

WPA officials as a workable project and they proceeded to make a way to do it regardless of the size of the job, although they had not previously taken on a project involving so many million dollars. "It was because of the constructiveness of the project and its pa-tent helpfulness in meeting a ma-

jor public problem in Texas that WPA went into this project. They really stretched a point to take it on and to put WPA money to the constructive uses it contemplated. "The relationship between the Brazos district and the WPA has been most helpful, pleasant, and cooperative in every way. Through WPA influence, the army engineers were persuaded to take over the direction of engineering work

SARAH ANN'S COOKING CLASS

During these hot days it is a relief to have a meal that requires the minimum of preparation on the part of the housekeeper. Such a meal should be served on the beach, the mountains, the old swimming hole or on the lawn in the back yard, whichever is most convenient. Don't strip the occasion of all it's fun by elaborate preparation with the convenient. ate preparation, either pack a lunch or have a camp fire meal.

Chili Con Carne

Peel and slice fine 2 medium sized onions and 1 seeded green pepper. Saute this mixture slowly until soft in 3 tablespoons of fat in your covered kettle. While this cooking is going on cut 2 pounds of rump steak in 1-2 inch cubes. Include a few cubes of suet. When the onions are soft, add this meat and cook uncovered, until the meat starts to sizzle and brown. It will take several minutes to bring the meat to the frying point. Have ready 1 1-2 pints of boiling water to which has been added 1 cup of tomato has been added 1 cup of tomato juice or puree; also have 3 table-spoons of chilli powder mixed smooth in 1-4 cup of cold water. Pour the tomato liquid and chili paste in the kettle when the meat starts frying. Add 1-2 teaspoon salt, 2 teaspoons of sugar and 3 cloves of garlic, minced fine. Cook slowly for about 1 1-2 hours or until the meat is tender. Add a little hot water if the mixture thickens before the meat is done. Finally add the contents of a can of baked kidney beans. When of baked kidney beans. When thoroughly heated taste and sea-son with more salt and chili powder if needed. Serve with buttered rolls and coffee. This may be made at home and heated when ready to serve.

Chicken Stew

Cut a chicken of about 4 pounds Cut a chicken of about 4 pounds weight in pieces and stew until tender. Remove the meat from the bones, cutting this meat up in pieces of uniform size. Saute 2 sliced onions and 1 seeded green pepper in 3 tablespoons of fat. When they are soft add a medium wired can of tomatoes and 3 cloves it better. I figure the good Lord knows what is best for us so we are indeed pleased over the prospect we have.

Mrs. A. A. Gauntt and son Floyd of Rul,e and hs family left Tuesday for Corpus Christi on business. Mrs. Buck Reed and children of Gorman are here visiting relatives. When they are soft add a medium sized can of tomatoes and 3 cloves of garlic, minced fine. Season to taste with salt, sugar, a pinch of powdered cloves and a bay leaf. Simmer for 1-2 hour, then remove bay leaf and add an 8 oz. can of mushrooms, liquid and all and 1-2 of a No. 2 can of corn. Whole kernels are better than crushed corn. Next put in your pieces of corn. Next put in your pieces of chicken. Heat thoroughly, add more seasoning if necessary and stir all ingredients together. This dish reheats perfectly.

Interesting Exhibit at Texas Centennial

The International Harvester Company exhibit at the Texas Centennial Central Exposition occupies all of the west wing of the Transportation Building—an area comprising 10,-\$10 square feet of floor space. This exhibit includes displays of historic and educational interest not only to users of farm machines, motor trucks, and industrial power equipment made by the Harvester Company, but also to all men, women, and children interest-

ed in the social and economic progress of the past century.

A replica of the first reaper built in 1831 by Cyrus Hall McCormick, is on display, as well as models of many of the machines that evolved from the reaper. A full-sized 16-foot McCormick-Deering harvester thresher is displayed operat-ing slowly so that visitors can see how each part functions. This mighty monarch of the harvest fields can cut, thresh, and clean the grain from 40 to 50 acres a day.

The board is composed of Governor James V. Allred, Comptroller George H. Sheppard and Trea-

surer Charley Lockhart.
"The board took into consideration the \$19 per capita apportionment, set by the board of education, in fixing the ad valorem tax rate for the school fund," a state-

ment said.
"It estimated the general revenue deficit as of Aug. 31, 1936, at \$9,505,741.90. Anticipated collections from ad valorem taxes for general revenus under the 35 cents rate was computed to be \$8,800,-241.85, leaving \$705,500.15 of the deficit to be absorbed by other

revenue. The Confederate pension fund would have a deficit of \$5,101,-430.70 at the end of the fiscal year, the board estimated, and the school fund a cash balance of \$1,293,197.-

"This estimate reflects the balby the board of education for the fiscal year just ending," the board said.

District Attorney

30th Judicial District

Dear Friend:

I wish to thank every citizen of the 39th Judicial District for the fine vote I received for District Attorney in the first primary. It is through your kind consideration that I am in the "run-off" election to be held on August 22nd.

As you probably remember I made the race 4 years ago and was defeated by a small vote in the second primary. I am in the same position again and I believe that I deserve advancement to the office at this time over my good friend and opponent.

I am thirty-five years of age, have had nine years actual experience as a lawyer, four years of which I served as County Attorney of Haskell County.

Should you see fit to elect me at this time I assure you that my services will reflect honor to myself, and that you will have cause to be proud of your part in giving a native son of the 39th Judicial District a boost in his second effort to be elected your District Attorney.

I earnestly solicit your fair and serious consideration of me and

OUR ENORMOUS FIRE LOSS

More than half a billion dollars worth of property goes up in smoke every year in the United States. More than 14,000 lives are lost through fires that occur, many of them, through carelessness.

The figures will probably indicate a higher loss this year. The campaign for carefulness seems to have missed a few cylinders. The average citizen insists upon taking too many chances and the fire demon burns up too much property.

The figures carry a lesson to the people of Has-

kell. It is the duty of every citizen to do his or her part to cut down the enormous economic waste.

The only way to do this is to practice carefulness yourself. Don't bother about neighbor John, or Sister Sue; get lined up on the need of precau-tion and refrain from joining the ranks of those who wantonly and needlessly cause the thousands of fires which occur through carelessness.

HOW ABOUT "PEDLER DAY?"

We suggest that merchants, interested in the peddler evil, close all stores for one day and inaugurate "Peddler Day" in Haskell.

Let every merchant, clerk and attache get

some article, a sales talk and a load on unmitigated gall and make the rounds. After the housewives of Haskell have answered the doorbells to their calls and seen the display, they will probably be tired of front door merchants.

To make the day a success we suggest that prizes be offered to the "peddler" who makes the largest number of sales. Of course, there must be a deposit from the housewife, who will be required to wait seven days for the delivery of the article. Then if it goes bad, there must be no comeback on the merchant. No guarantees allowed and bull dogs

PRECAUTION AVOIDS CANCER

That natonal efficiency is greatly diminished by disease is so well known that the statement needs no citations to win approval. At the same time, few of us realize the ravages of individual diseases.

For example, the actual money loss, due to cancer alone, is estimated to be as much as \$800,-000,000 in one year in the United States. Aside from money loss there is intense suffering among the victims of this malady.

It is estimated that three fourths of it all could be avoided if small growths were not ignored by so many people. The moral is, when these usings exist, see a doctor at once. Cancer, at a certain stage, cannot be cured, but, in it incipiency, it can very often be successfully and permanently removed.

PUBLICITY, FREE AND OTHERWISE

It is estimated that the Democratic and Republican headquarters will spend several million dollars in their efforts to reach the elusive voter. The average citizen will be inclined to the belief that

this sum will be well spent. Newspaper editors, accustomed to the free broadcasting of party propaganda through their columns, will probably wonder how much the parties would pay for newspaper space if the Fourth Estate adopted the radio rule of service for cash

CONGRATULATIONS, JUDGE!

The lady makes light of the matter, saying she is in jail for the "butcher and grocer," because she wouldn't be able to pay them if she paid the fine.

We think the publicity ought to go to the judge,

who sets his judicial conferres a notable example in this day of "fixing" such charges through pull and influence. It is not necessarily a piece of news when an actress goes to jail but when she is sent to prison by a judge for violating traffic laws it becomes important, even if only as an example.

CURRENT COMMENT

GARRETT CALLS BLANTON'S BLUFF (Stamford American)

The greatest upset in Saturday's primary was the big lead which Clyde L. Garrett piled up over Thos. L. Blanton in the race for congress. Blanton in the past has run a bluff successfully. He has bluffed many strong men out of running against him and when men have dared oppose him he has scared them out of their wits by the time the race

When Garrett let it be known that he was going to run for Congress, Blanton tried to bluff him out of it and showed him how he had poured it on those who dared oppose him in the past. Garrett refused to be biuffed and never became frightened when the battle was on. In fact Garrett has Blanton's middle initial, knows Blanton's number and got Blanton's goat. He surprised his own friends as much as he surprised Tom when he led the Congressman by nearly five thousand votes in the first primary. Incidentally, Blanton ran the poorest race of any Congressman in Texas.

Unfortunately the fact of a third man in the race forces Garrett into a run-off. Abilene is already turning the earth and making an assault on heaven to put Blanton back. Abilene hasn't forgotten the magnificent postoffice which Blanton gave it this year as the crowning gift of many favors. Abilene has power and votes and is going to make a desperate effort to continue its control of the 17th district which it has held for decades.

If the rest of the district goes to sleep, Abilene will snatch away Garrett's victory. But if the rest of the district rallies to Garrett's support as it should victory is assured and Blanton will be de-

"TRAMP"

THERE is a Big Difference in Dollars.

There is the "Tramp" dollar-the dollar that is spent away from home. Then there is the "Home" dollar with its "home" circulation, "home" benefits and "home" profits.

Though both of these dollars are marked "One Hundred Cents" the "home" dollar continues to multiply itself -"at home"-for community interests are mutual. Not so with the "tramp dollar"-once spent it is gone forever.

The success of Haskell and its surrounding territory contributes to the success of everybody in it. A prosperous town rests on the individual prosperity.

The advantage to you of spending your dollar in Haskell is far greater than the "tramp" dollar can possibly buy-even if it bought a hundred cents worth—and which it cannot possibly do, because the other fellow in the outof-town field must make a profit.

There is big truth in this worthy your serious thought. It pays to trade home with your "home" dollar.

SUNDAY MORNING AT METHODIST CHURCH

The Rev. Mr. Huckabee, pastor of the Methodist church, requests us to announce that he is scheduled to preach next Sunday morning at 10:45 following the 35 minute sessions of the Sunday school classes and departments.

The young people are to meet in their evening session, but there will be no night preaching service on account of the Baptist revival.

THE CHURCH OF CHRIST A. F. Thurman, Minister

Had a fine meeting with the people in the Rockdale Community. Those are some of the very best people with whom to work. From some points of view it was one of the most enjoyable meetings of my life. The community did its part. I tried my best to do my part. The Lord never fails to do His. It was a great meeting!

THIS HAPPENS we get the **NEWS!**

Mr. Pope has written a biogra-phy on the life of Joanna Trout-man. It will be on sale July 1. The Naylor Publishing Co., at San Antonio is putting out the book and will have it on sale as its exhibit at the Texas Centennial Exposition

A recent Associated Press story from Montell, Texas, relates the following story of Texas' first flag and its Betty Ross:
The origin of the Lone Star flag of Texas is less well known than the design of the Stars and Stripes

but Miss Johanna Troutman of Georgia was the Betsy Ross of the second republic north of the Rio Grande. She made the Texas banner from a silk dress and give it to those Georgia soldiers who went to Fannin's aid at Goliad. The At-lanta Journal of Sept. 30, 1931, printed this bit of early Texas history in regarding it:

"It was early in November, 1835, that news reached Georgia that the province of Texas was chafing under the tyranny of Santa Anna, the Mexican leader. A public meeting was held in Macon, Nov. 11, at which more than \$3,000 in money was raised and plans made to organize a company of soldiers to go to Texas and help her in the fight for freedom.
"Liberty or Death"

"As plans were being made for the march to Texas by the Georgian soldiers, a 17-year-old girl realized the company would need a flag, so this thoughtful and patriotic citizen, Johanna Troutman, at Knoxville, which was on the coast line 25 miles west of Macon, took one of her silk skirts, design-ed and made with her own hands, the Lone Star flag. "On each side of the flag, in the

center, was placed a large asure star of five points. Above the star on one side was the inscription, LIBERTY OR DEATH, and on the other, the Latin motto, Ubi Liber-ta Habitat Ibi Patria Est-Where Liberty Dwells, There is My Coun-
