expected to be in full swing by the send of the week. Sectional directors be announced in each of the towns of the county. Mr. Couch thates, and under their direction, quota allotments of the various districts will be secured.

Pungent reminder of the worthwhile service of the Red Cross agency was recalled by Mr. Couch in stating that this agency was the first to come to the aid of this section shortly after the depression, when a "drouth" placed thousands of persons on relief in West Texts. It is recalled that carloads of feedstuffs were shipped to Haskell county and other counties in this section at that time, and cash disbursements for provided by the Red Cross.

PLEASED WITH

Several Schools Will Receive Help From State

Mr. Bryan Dixon, Deputy State Supervisor, has completed his inspection of 27 schools Wednesday night. There are 31 schools applying for state aid in Haskell County and the remaining four schools will be inspected Thursday and Friday.

The remainder of the schools are Ericsdale, New Cook, Tanner Paint, and Tonk Creek.

Mr. Dixon stated that thousand dollars will be alloted to Haskell County from the state aid spent for tuitions for high school

In this respect, Mr. Dixon found that several of the districts were suffering from a lack of transportation facilities and Mr. Matt Grahem Harkell County Superintendent, stated that in all probability, there will be added several new school busses to the present fleet. Mr. Dixon stated that Haskell

County as a whole will probably get more state aid this year than next, but the salary aid will be cut, inas much as the goal of standardization s to have fewer grades and better lasses. This means that more students will be in high school and in Independent schools.

By standardization, Mr. Dixon explained, it is meant that the school will strive to get their equipment and personnel to the level that will permit of entering any other school, n case of transfer, without question take an entrance examination.

Come, always glad to have you with us, Come.

METHODIST CHURCH

There will be no services at the Methodist church Sunday as the pastor will be in Plainview where he goes for the annual conference which convenes at that place. Sunday school will begin promptly at 9:45. Be on time and let's have a large attendance.

PRESBYTERIAN CHURCH

There will be church services both morning and evening at the Presby-terian church and we invite all members of the Methodist church to be our guest in the obsence of their pastor. We also invite anyone who will to come and worship with us. We will be glad to have you.

THE MPORTA VENTI

The warm air throughout the home during winter should be just as pure and contain just as much oxygen as the fresh, pure air of summer. Rooms that are poorly ventilated, even though sufficiently warm for comfort, can be injurious to health. Stale or stagnant air is depressing, and fails to produce the pleasant and stimulating effect of pure air in motion. . . . No matter what kind

of fuel you use to heat your home during winter, it is important to have proper ventilation and circulation of pure air. This is especially important if the flame from the fuel comes in contact with the air you breathe. The reason is simple.

Fuel does not burn unless mixed with oxygen. Prove this to yourself by the simple test of dropping a lighted

match into a bottle. Place your hand on top of the bottle and you will note that the match stick will NOT continue to burn after the oxygen inside the bottle has been used up by the burning fuel. Likewise, the oxygen content of the air inside your home is gradually reduced by the occupants of the household through the processes of breathing and by the fuel burning in your heating equipment.

Without proper ventilation the air becomes stale. Sooner or later the tender air passages of the body become inflamed, leaving them an easy prey to vicious attacks of "colds" and serious respiratory diseases. Guard your health this winter with proper ventilation as well as adequate heat in every room in your home.

Tune in each Thursday night at 6:30, WPAA-WBAP, for vital facts to help you guard your family against the Common Cold Germ.

A CALL FOR HELP

The annual roll call of the American Red Cross beon Armistice Day. Once again the greatest organizrelief agency in the world seeks funds, with which to throughout the succeeding year, the brotherhood man in a practical, helpful way.

When hurricanes and storms strike unguarded cities fering is certain to follow. When great rivers overflow I food vast areas, misery and want abide after the der recedes. When sudden disaster maims and kills uneting people there in immediate need for outside

To whom do the American people entrust the duty -- prepared for such emergencies? The American cost chartered by the American government, demts value as a relief organization many times

To the people of Haskell County this organization a thing afar. They have seen its work and enjoyed mistance. The annual Roll Call is on opportunity to feel for past deliverance as the prayer in their hearts others, in time of danger and peril, may enjoy the e life-giving help that they enjoyed.

Certainly, if disaster overtook Haskell County torow, causing untold suffering, destroying life and perty, and leaving in its dread wake an injured popu-tion of men, women and children, the telegraph wires ald carry an appeal for urgent relief. The conscious mens of Haskell County would expect a prompt and equate response from America, because the people of country do not ignore such appeals.

When the inevitable response to the call came the ple of Haskell County would thank God for the preof the Red Cross, an organization organized to ap-for necessary help, trained and equipped to provide assistance.

Let us hope no call for relief will issue to the nation Haskell County but let us do our part in keeping up balert and a ready organization of nurses, doctors and workers of the American Red Cross. The call this th is not from any stricken section but from the Red "self, asking you to join it and through the . payof \$1, \$5, or \$10 as a membership fee, to participate the splen work that this organization will be

GHTING THE COMMON COLD

the Community Natural Gas Company is running a of Educational Advertisements on the proper venof the Home and the cause of Common Colds.

One of the amazing outlooks of present day life is meral acceptance of the common cold as an inevitailment. That it is a source of great inconvenience danger and economic loss is not disputed. However, dea that once here it must always afflict us remains wly intrenched.

It is refreshing to learn that scientiests are preparo undertake a scientific study of this nuisance, with toward the discovery of some cure. The medical it would appear to a layman, have not made as progress in combating the epidemic cold as is pos-. The results of intensive research into the methods preventing other diseases indicate that colds, too, can

come rare, if proper measures are evolved. Colds, in addition to being troublesome and inconpenient render the sufferer liable to grave diseases on acbunt of lessened vitality and consequent lessened resisbace to disease germs. Very often a sufferer from a "bad becomes a sufferer from other more serious maladles like influenza and pneumonia.

Of course every citizen can do much to prevent the pread of colds which spread by contact and association. ears ago it was rare when a suffer from cold thought out the other fellow, but nowadays, it is frequent for be to remain aloof, and sometimes, in bed, during the burse of a cold.

BABSON PREDICTS PROSPERITY

The average citizen of Haskell County will be interd in the prediction of Roger W. Babson, statistician economist, that the nation will be out of depression months, he added for a period of prosperity.

Mr. Babson does not undertake to tell how long the era will last, contenting himself with the observathat it may be of short or long duration. He believes there will be an active stock market, rising commoprices and full employment of labor, but that nottanding, "our standard of living will decline."

In explaining this last statement, which seems to be I line with the "period of prosperity" talk, Mr. Bab-ays that living standards will decline because administration, in spite of many admirable things it lone, has taught the people that they can be made briable without working, and can get security by

Plaids for the college girl will be unusually large this autumn. What interests father is the possibility of small checks for son as well as wall where the child was lodged.

Plaids for the college girl will be unusually large this autumn. What interests father is the possibility of small checks for son as well as wall where the child was lodged.

-CURRENT COMMENT-

SPORTSMANSHIP Stephenville Empire-Tribune

The thing that distinguishes a genuine sportsman from a "bum sport" is that those who have the spirit of sportsmanship not only know how to win gracefully, but how to lose uncomplainingly. The difference between a genuine sportsman and the other kind is that your . real sportsman never tries to shift the responsibility for his failure upon somebody else.

We have long believed that the sporting attitude toward life is the soundest of all philosophies of living. Try your best to win, but if you lose don't be too quick to blame somebody else for your failure. Nine times out of ten people get whatever rewards their individual ability, character and industry entitle them to. But it is our observation, also that about nine times out of ten the man who fails is ready to lay the blame upon the government, or the capitalists, or the boss, or anybody but himself.

True sportsmanship does not imply taking defeat lying down. The true sportsman never knows when he is licked. He never accepts defeat as final, but continues to strive to the end of the game. He observes the rules rigidly. If he doesn't like them, he may try to have them changed, but so long as the rules are as they are, he follows them.

We hear a great deal of whining in these days of depression, but every little while we run across a real sportsman, who hasn't let circumstances kick him, but is starting out afresh to try to win the game of life. To every such man we take off our hat.
