# for Water System

Is Being Installed Farm Animals

Under the supervision of Engineer John Prock, electrical equipment for the pumps and chlorinator plant erected along with other improvements to the City Water System, is being installed this week and should be finished within a few days, city officials state. When this installation is complete, all water mains will be "tied in" with the new steel tower and the entertainment. When this installation is complete, all water mains will be "tied in" with the new steel tower and tank, and service from the old water tower will be discontinued.

Ballew Street Extension

Extension of a water line to serve residents of Ballew street was discussed at Monday night's explained, was to present for construction work on surface storage tanks, and for cleaning and repairing present storage tanks, meeting of farmers and stockmen of this section will be held in the courthouse Saturday afternoon at 3 o'clock.

Announcement of the meeting was made Wednesday afternoon by County Agent B. W. Chesser, joined by H. T. Sullivan, vocational agriculture teacher of Haskell High School.

Purpose of the supervision of Engineer John Prock, electrical equipment which can be used by farmers of this area in construction work on surface storage tanks, and for cleaning and repairing present storage tanks, meeting of farmers and stockmen of this section will be held in the courthouse Saturday afternoon at 3 o'clock.

Announcement of the meeting was made Wednesday afternoon by County Agent B. W. Chesser, joined by H. T. Sullivan, vocational agriculture teacher of Haskell High School.

Purpose of the means of securing, as a cooperative venture, equipment which can be used by farmers of this area in construction work on surface storage tanks, and for cleaning and repairing present to surface storage tanks, and scockmen of this section will be held in the courthouse Saturday afternoon at 3 o'clock.

Purpose of discontine.

Purpose of the meeting, they explained, was to present for consideration, the proposed forming of a farmer-stockmen group to formulate some plan whereby equipment similar to a "steam shovel" or drag-line unit could be secured to be utilized by a cooperative group in the construc-tion and repair of surface tanks. The plan, tentatively stated, is

no "stock selling scheme, but sole-ly for the purpose of discussing and considering the advantages which this type equipment would present a large number of Has-kell county farmers and ranchers" as explained by the sponsors.

When the fact that a large area Quanah Firm Will Install of Haskell county secures water for livestock usage, and in a number of instances for domestic use, from surface storage reservoirs the value of keeping this source of water supply in adequate repair cannot be overestimated.

enable farmers and ranches to more economically construct and conserve water storage facilities is of the utmost importance, and with that view in mind a large miles east of Haskell with that view in mind a large miles east of Haskell. all concerned is desired at the meeting to be held here Saturday afternoon, leaders of the move

# for a heating system to be installed in the recently-constructed North Ward building. Their bid of \$7,737.00, less \$361.00 for salvage from the old building was lowest submitted. Electricial wiring contract was awarded to J. L. Prock of Anson, on a bid of \$1,175.00. The general contract was awarded to W. R. Truss on a bid of \$36,500.00, bringing total cost of the three contracts to \$45,412.00. Continued efforts are being made by school officials to secure an additional grant from the Public Works Administration in order that an auditorium may be added to the present plans for the building and relieve the School district of a portion of the financial burden in refurnishing the plant.

checks in Payment
of Age Assistance
Are Received Here

First checks for payment of Old Age Assistance were received in Haskell last Thursday, and the close of the week found a large number of aged persons whose applications had been approved, rejoicing over receipt of checks which ranged from \$6 to as much as \$30. Although exact figures covering disbursement to Haskell residents are not available, a partial canvase indicates that the average will be around \$15 per person each month in this vicinity. Information from the State Commission at Austin reveals that a number of applications remain to be investigated before they are finally approved or rejected, and applicants are advised that in all cases where applications are approved, payment when made will be dated back to July 1st.

Mr. and Mrs. Henry Wilson and Mrs. and Mrs. Henry Wilson and Mrs. Although the plant.

L. A. Woods, State Superintendent of Public Instruction, will speak on the courthouse lawn in this city Saturday afternoon July 11th, at 2:30 o'clock, in the interest of his candidacy for reelection for a second term as head of the State official has many supporters in Haskell county. He comes to this city Saturday from Fort Worth, where he is scheduled to fill a speaking engagement Friday night, July 10th. Mr. Woods is now engaged in an intensive tour of the state in the interest of his candidacy.

From Haskell the State Superintendent will go Saturday afternoon to Knox City, where he is scheduled to speak at 5 o'clock.

Knox City Man

Liquor Supervisor

For Abilene District

Announcement of the appointment of John W. Coates of Knox City as deputy liquor supervisor for the Abilene district was made for the Abilene district was made to the principal speaker and the court as second term as head of the State Official has many supporters in Haskell county. He comes to this city Saturday from Fort Worth, where he is scheduled to speak at 5 o'clock.

It A. Woods, State Superintendent of the state official has many supporters in Haskell county. He comes t

Announcement of the appointment of John W. Coates of Knox City as deputy liquor supervisor for the Abilene district was made from that city recently by C. A. Paxton, chief supervisor of the State Liquor Control Board.

With his headquarters in Abilene, Mr. Coates has already assumed his duties, replacing P. H. Murphy, former district supervisor who has been transferred to the West Texas border.

Investigators working in Abilene's 13-county district, in which Haskell county is included, have filled 136 charges, seventy-five per cent of which have been disposed of, records show. More than 100 violators charged have pleaded guilty.

#### Turn About Is Fair Play!

## RE-OPENING OF SET FOR MONDAY

Remodelled Show-House Is Most Modern In This Section

Modernized throughout, and vieing in appearance and com-pleteness of equipment through-out, with theatres in the largest cities, the new Texas Theatre will be reopened next Monday evening at 7 o'clock, after having remain-ed closed for ten days while changes were under way.

A large crew of carpenters, painters, electricians and decorators have been employed, at times on day and night shifts, in re-modelling both the interior and exterior of the building, and Man-

Opening Attraction Film attraction will be a recent 20th Century Fox release, "Under Two Flags", starring Ronald Col-man and Claudette Colbert, sup-ported by Victor Maclaglen and Rosalind Russell.

Added will be a comedy "Be-

ween the Lines", and Paramount

Lobby Changed
Theatre-goers will first be impressed by changes which have been made in the lobby of the theatre, and front of the building. together with new lighting effects.
Remodelling throughout has been under the supervision of Scott Dunn of Dallas, leading

theatre architect of the Southwest. Throughout the interior new decorations are found, and a new lighting arrangement installed, to-gether with all new stage settings,

throughout the theatre at considerable expense, along with new flooring for both first and second

floor lobbies. New Lounges

Tomorrow night at Rochester, arrangements have been made to allow all county and district candidates ample time to present their messages from the platform, and a loud speaker system will be utilized.

Candidates for State office, or their representatives, have also been allotted time on the program, it has been announced.

Comfortably appointed lounge and other innovations.

In all, the new Texas in appearance and equipment is now one of the most modern in West Texas, and favorable comment and praise for the enterprise of Mr. Leon in the expensive venture of their representatives, have also been allotted time on the program, it has been announced.

Comfortably appointed lounge and other innovations.

In all, the new Texas in appearance and equipment is now one of the most modern in West Texas, and favorable comment and praise for the enterprise of Mr. Leon in the expensive venture of the remodelling has been freely expressed by persons who have watched progress of the work.

Funeral Service Held Today In Lexington, Former Home of Deceased

E. C. Thomas, 69, well-known resident of Haskell for the past seven years, died at the family home Tuesday afternoon at 2:30 o'clock after a lingering illness of over a year's duration.

Funeral rites were to be held at 10 o'clock this morning (Thursday) in Lexington, Texas, his former home, with burial in that city.

former home, with burial in that city.

Born January 17, 1867, in Stargille, Mississippi, Mr. Thomas had resided in Texas most of his life. He was married to Miss Mollie Snodgrass, at San Grabriel, Texas in August, 1894, and they made their home in Lexington until moving to Haskell in 1929. Deceased had been a member of the Baptist Church for over fifty years.

## INCHES IS RECORDED

## Postal Receipts of Local Office Reveal

July 30th, over the previous year.
In speaking of the increase Mr. Diggs stated that the gain affected practically every department of the local office, from the money order division to the rental of postoffice boxes. Less than a dozen servicable boxes are unrented ager Server Leon announces that everything will be in readiness for the formal reopening on Monday since 1929.

Total revenue of the local office will compare favorably with receipts during the high peak reached in business, before the depression years.

Needed Repairs Planned for Building, and Interior to be Refinished

The work on the remodeling of sume their schedule of speaking dates at Rochester Friday night, July 10th, after a respite of two weeks.

All decorating has been designed and supervised by Duke Mahoney of Dallas, interior decorating has been designed and supervised by Duke Mahoney of Dallas, interior decorating has been designed and supervised by Duke Mahoney of Dallas, interior decorating has been laid throughout the building and interior woodwork will be refinished arranged a schedule of dates which carried them to other towns.

The work on the remodeling of the South Ward school building was begun Wednesday morning. New oak flooring is being laid throughout the building and interior woodwork will be refinished according to present plans of the School Board.

New carpeting has been laid.

New carpeting has been laid.

In addition to the work that is being done on the building the furnishings will be refinished and all the old double desks discared and replaced with single desks. Remodelling of the second floor A contract was let recently to lobby has provided space for a comfortably appointed lounge and Stamford for the refinishing of all

## New Ruling On **Diverted Lands** In This County

Summer fallowing has been approved in Haskell County. This means that land diverted from soil depleting crops will not have to be planted to a soil conserving or soil building crop, but that the diverted land can be left idle, however the idle land must be kept clean. This will entitle the producer to earn the 5c per pound but not the \$1.00 an acre.

Because of the drouth, farmers are also allowed to plant permitted cotton acres to feed for home use, without being penalized for increasing his regular feed base. For an example, if a producer has a 100 acre cotton base, 100 acre feed base, and 35 percent of the cotton base was diverted, leaving 65 acres to be planted in cotton; but due to the drouth, the farmer planted only 40 acres of the 65 acres permitted, the 25 acres the producer failed to plant may be planted in feed for home use, in addition to the regular 100 acre feed base.

## Downpour Fills Tanks and Creeks to Overflow

Stage Sunday

Substantial Gain

An increase of 13 percent in postal receipts of the Haskell postoffice is revealed in annotatement of Postmaster J. M. Diggs, at the close of business on July 30th, over the previous year. an average of the past twenty-

five years. Sunday's precipitation amounted to two and one-third inches, and was reported general in varying amounts, over this section. Starting about ten o'clock in the morning and continuing for several hours almost a steady downpour the rainfall continued intermit-

tently into Sunday night. Creeks and tanks were filled, many overflowing, bringing re-lief to stockmen and farmers who depend on these sources for water supply for livestock. Ranges which had become parched to a great extent will be quickly revived, stockmen believe, to provide con-

tinued grazing and pasturage.

The rain came "just in time" as many farmers expressed Monday, to curtail heavy damage to feed crops and cotton which was beginning to show effects of the

ginning to show effects of the recent dry spell. Insect damage to growing crops will also be halted, at least to a great extent, other farmers stated. This menace during the past few weeks had become a major con-cern expecially in the east and southeast sections of the county. where grasshoppers were des-troying crops to an alarming degree. Farmers in those sections

guaged at 2.33 inches, followed by 0.38 inch Monday for a total of 2.71. Previously, 9.06 inches had been recorded since January, bringing the total to 11.77 to date. Normal precipitation for six months from January 1 to June 30, computed over a twenty-five year period, is 12.37 inches.

List of Candidates Reporting Now Totals Forty-Five; Have Spent \$2,977.88

Statements of campaign expenses have been filed in the County Clerk's office by five more candidates for county and precinct of-fices since last Wednesday night. This brings the list of those re-porting to 45, who have expended \$2,977.83 to date in their cam-paign for the various offices. The additional candidates who filed reports were:

filed reports were:

R. H. (Bill) Rife, candidate for Commissioner Precinct No. 4 H. G. Hammer, candidate for

reelection as County \$130.00. Bruce T. Clift, candidate for Justice of the Peace, Precinct No. 1, \$29.00.
G. C. Newsons, candidate for Public Weigher, Precinct 2 (Weinert), \$12.00.

#### Helpful Hints For Hot Days

Many people dread summer time, and it hurts some worse than others. But a well ordered life in summer will give enjoyment to the average individual.

Perhaps a run down condition will show up more readily in summer, so it is even more important that rules of health be more carefully observed. These are simple, for the most part, although it might not be so simple to carry

To start out with, a problem is put up to us on the matter of sufficient sleep. The nights are short, and often hot, and there is not enough of the 24 hours used in building up our bodies, resulting nap some time during the day will pay big dividends in the matter of accomplishment, in whatever en-

deavor we may be engaging. in the summer, but overeating Louis Cox and daughter Delores, carries a heavier penalty then Mr. and Mrs. Ulric Ferrill and than in colder periods. Very little food is needed to keep the body Yarbrough and Mr. and Mrs. Leswarm and most people do not exercise as vigorously in summer. But food is needed for body building, and for resisting all the agencies that seek to tear us down. And a lot of care needs to be exercised as to the kinds of summer foods. Some meat should be eaten all the time, but it should not predominate in hot weather. More of the leafy vegetables need to be taken and some of them can be eaten uncooked. More fruit and fruit juices ought to be used. It is not always possible to lighten our work for summer, but

when this is possible, then a good step is made on bearing the heat agreeably. In the matter of exercise more moderation is needed. Also, this does not mean that exercise should be eliminated in summer time. No exercise at all can be responsible for the tired feeling spoken of, but work or play carried to the point of ex-haustion is especially to be avoid-Mrs. Ivy's sister and husband, Mr. ed in hot weather.

Clothing needs to be adjusted to the weather and a more sane view of this is being taken now than during periods when style ruled with an iron hand. This does not mean necessarily that one should belong to a nudist colony, or go half naked. In fact it would be hotter to wear no clothes at all than to be clothed in seasonably cool garments. Ask your clo-

bath the year round would not be a bad program, and frequent bathing will certainly make the sum-mers more livable. Maybe you are supposed to have only one suit of underclothing in the weekly wash; but if so, then unless you are mighty busy, a little of your time would pay in health and comfort by washing out the duds by hand

Nature demands cooling liquids for the period, so that usually most of us drink plenty of water, but be sure and not get the idea that there is any merit in making your-self suffer with thirst. It should be cool or even ice cold, but be careful about gulping down large quantities of ice water, especially about meal time.

about meal time.

There are many pleasures that are available only in summer. Swimming is one of them, and a healthful and cool exercise. While regretting to sweat down our clothes, perspiration carries many wastes and poisons out of the body. The sun's rays tan us, but in many ways they are beneficial. A person can camp out in summer, and you don't have to always be concerned about having artificial heat, wherever you might happen to be. Not all of the summer is scorching hot. So, let's get along with it as well as possible,

#### SARAH ANN'S COOKING CLASS

One of the best vegetables of the One of the best vegetables of the summer is corn. Its season is brief so we wish to serve it often and in many different ways. Most of us enjoy eating corn plain, that is, steaming hot on the cob, dripping with butter, salt and pepper. There are many ways of introducing fresh corn into the summer meals. These same dishes may be served as one can buy canned corn of excellent flavor.

Corn Souffle

2 cups cooked corn.

2 tablespoons fat.

2 tablespoons flour.

1 cup milk.

1 1-4 teaspoons salt. Few grain pepper.

Few grain pepper.

3 eggs.

Heat fat, add flour and mix until smooth. Add milk gradually and cook \$20 10 minutes, stirring constantly. Add corn, salt, pepper and well-beaten egg yolks. Fold in stiffly beaten egg whites. Turn into a greased baking dish and bake in a moderate oven about 45 minutes. Serve immediately with slices of crisp bacon garnishing the top.

Corn Waffles 2 cups flour. 2 teaspoons baking powder. 2 tablespoons shortening. teaspoons salt. eggs. 1-2 cups evaporated milk.

3-4 cup corn.
6 strips minced crisp bacon.
Beat egg yolks, add corn and milk and sifted dry ingredients.
Fold in bacon and stiffly beaten egg whites. Bake in a waffle iron.

Pepper Stuffed With Corn 6 medium green peppers. 2 1-2 cups cooked corn.

eggs. can tomato soup. 1-2 cup water. 1 teaspoon salt.

1 teaspoon salt.
Pepper.
1-2 cup grated cheese.
1-2 cup bread crumbs.
Cut off the stem ends of the peppers and remove the seeds and membrane. Beat the eggs slightly and add the corn, bread crumbs, salt and pepper. Stuff the peppers with the corn mixture and place upright in a baking dish. Top with grated cheese. Pour the tomato soup, thinned with water, around the peppers. Bake in an oven 350 degrees for 30 minutes.

Halloway were in Wichita Falls Thursday of last week.

We are sorry to report grandma Highnote has been ill. We hope she will soon be well again.

Buster Fowler left here Friday morning for De Leon, Texas. He and Mutt Campbell were going from there to Dallas to visit the Centennial Exposition.

Rochester

The Fourth passed quietly in our little city. Most everyone at-

Corn Fritters

To 2 cans of corn add salt, pepper and a tablespoons of melted butter, 1 egg and 4 tablespoons

tended the Rodeo at Stamford, an enjoyable day indeed.

A good rain fell here Sunday.

Just right to put the finishing flour. Drop by spoonfuls in hot touch on cotton, maize etc.

Corn Puffs

1 cup milk. l teaspoon salt. 2 cups corn.

Paprika.
6 tablespoons grated cheese.

Beat eggs until light, add milk corn, salt, paprika and cayenne. Grease 6 custard cups and fill full of mixture. Add I teaspoon of grated cheese to each cup. Place in hot water and bake in a mod-

Stewed Corn

Cut the corn from the cob after it has been husked and silked. Place in a saucepan. Add milk Place in a saucepan. Add milk to nearly cover the corn, together with salt and pepper to taste. Simmer about 10 minutes or until it thickens, stirring constantly. Then add butter, one tablespoon for every 2 cups of corn.

Serve plain or arrange in a shallow serving dish which has been lined with buttered toast strips and garnish with curled crisp slices of breakfast bacon.

Scalleged Corn and Ham
Place 1 cup of cooked corn in
a buttered baking dish spread a buttered baking dish spread over it 1-4 cup cracker crumbs and 1-2 cup ground, boiled ham dot with teaspoon of butter and sprinkle with salt. Add another cup of corn and spread with 1-4 cup of cracker crumbs. Sprinkle with salt and pepper. Pour over it 1 cup of milk and bake 30 minutes in an oven 325 degrees.

Corn Balls 1-2 cups corn.

egg.
tablespoon minced onion.
teaspoon baking powder.
1-2 cups cracker crumbs.
-4 teaspoon salt.
teaspoon salt.
tablespoon fat.

Pepper.

Mix the corn with the onion and the well beaten egg. Stir into the mixed dry ingredients. Mold into cakes in the palm of the hand. Arrange these in a baking pan in which fat has been melted. Bake in oven 425 degrees for about 20 minutes, turning to brown on both sides.

favorite over Bryan, while in the three-cornered fight of 1912 the closing odds were 4 to 1 on Wilson and 5 to 1 each against "Bull Moose" Roosevelt and Taft.

this year is not expected to prove At the close of the 1916 battle between Hughes and Wilson the odds favored the Republican can-didate at 10 to 9, but it was gen-erally conceded that Hughes had won, the delayed returns from California changed the final outcome and Wilson became the victor. In the past-election betting, which took place in Wall Street, that year Wilson became a slight favorite over Hughes. Thus again, the odds in the financial district proved a barometer.

Odds on Harding to defeat Cox in the 1920 election were 5 to 1. In 1924 Calvin Coolidge was a 10 to 1 favorite over John W. Davis while in 1928 Hoover was a 5 to 1 choice over "Al Smith".

Coming down to the last presi-dential election, it is interesting to recall that at the time of his nomination Hoover was a 2 to 1 favor-Spencer and Company for reward.

#### Air Conditioning Is Age Old Device

Her majesty, the queen bee attended by her ladies in waiting and thousands of her loyal subjects hold court at the Centennial Hall of Agriculture in Dallas unperturbed by the milling crowds of observers.

The queen, who has a very dainty appetite, does not feed on pollen as do the others but exists on a delectable diet of royal jelly which is secreted from the heads of her daughters. Her palace is protected from intruders in the best traditional manner by guards who are stationed at the doors. The bees have had air conditioning since Bible days. This has been accomplished by placing fanners at the doors with the sole duty to fan the air and keep it circulating for her majesty. The queen's royal birth chamber closely resembles a peanut shell.

It is suggested that if one must approach a bee the best time to do so and avoid getting stung is while it drinks. A bee must concentrate on getting a water supply which is very necessary to the process of making honey and will seldom attack while drinking. However if one is a victim of his sharp sting-ter it may console him to know the bee cannot sting again. The sting-rison of this city.

Stunday evening, hence all members are urged to attend services. A very interesting program is being planned by Byron Frierson.

Mr. and Mrs. W. H. Boyd of Caterm, Okla., and Mr. and Mrs. Jim Harrison of Sapulpo, Okla., were week-end guests in the home of Mr. and Mrs. W. B. Harrison of this city.

er is torn from its side and the delicate tissues so badly lacerated that it dies.

that it dies.

Texas offers a wide variety of floral sources for honey and there are as many kinds of honey as there are varieties of flowers. The largest per cent of Texas honey is gathered from cotton, mesquite, catsclaw, holly, clover and horse mint. Honey, it was pointed out, is one product that is free from disease bearing germs.

Besides the honey produced by

Besides the honey produced by the bees, the beeswax is used for many commercial purposes. A new type candle has been perfected with beeswax, which is guaranteed not to bend, break or melt and has no unpleasant odor while

#### Attend Bedside of Relatives

Mr. and Mrs. Arthur Sparks and daughter of Brownwood, Mrs. Maud Evans and Mr. and Mrs. Richard West and baby of Santa Anna, Texas, came to Haskell this week to the bedside of their uncle, E. C. Thomas, who passed away Tuesday afternoon.

Mr. and Mrs. Terry Leeman visited friends in Abilene over the week-end.

#### **ELIAS HOWE**

Advent into the world one hundred and seventeen years hundred and seventeen years ago today of a youngster christened Elias Howe was a commonplace event, but the genius of the young man became evident at an arly age and he is credited with the invention of the world's greatest boon to housewives—the sewing machine. And though many improvements have been made, the basic principle of his invention remains changed.

And so with Insurance pro-tection, many innovations are offered but dependable, and SOUND Insurance can never be surpassed for protection.

#### Gate Which Will Open Automatically Is Boon To Rancher

(San Angelo Times) A program on "Texas Heroes" will be given.

An important business meeting will also be held, which is of interest to all members, and they are urged to be present by the club officials.

Many years ago the inventor of the bumper gate, now widely used throughout the West Texas ranch country, was hailed as a benefactor of the rural resident and those who were obliged to motor into the agricultural districts.

#### THE DRINKING DRIVER ..... ACE

An alarming increase in highway deaths during the month of May ought to awaken the judiciary, state and municipal authorities to the necessity of shaking off their apparent air of indifference to this pressing problem and give some serious thought to ways and means of reducing the automobile death rate and keeping it within bounds. The National Safety Council reports that during the month of May automobile fatalities in the United States totalled 2,970 persons, an increase of seven over the mark of May, 1935. If such a death toll could be traced to an epidemic of disease or any other cause we would be genuinely alarmed but we have become entirely too indifferent to this particular menace which challenges us. It seems high time that we accept this challenge and go to work systematically to eliminate it by studying and classifying the causes and then seek a remedy for each particular cause through legislation or other

One of the greatest traffic problems today is the drinking driver-not the drunken driver. The most dangerous man in America is the man who soaks up a skin full of liquor and then gets under the steering wheel of an automobile. The driver who is merely under the influence of liquor is far more dangerous than the driver who might be classed as intoxicated. A few drinks makes a man more adventuresome and reckless and a serious threat to the lives of all whom he meets on the highway There is little question that our whole system of dealing with the automobile fatality problem needs overhauling and our courts must accept greater responsibility in solving these problems.

#### HAIL, WATER BABIES:

The most popular sport in the United States is neither baseball nor football, golf nor tennis, It is, on the contrary, the age-old sport of swimming. This finding is reached by statisticians of the National Recreation Association, who report that in 1935 nor fewer than 46,500,000 people went to the public beaches and 18,000,000 to the outdoor swimming pools. This compares with a seasonal participation in baseball of 10.250,000 people and in golf of slightly more than 6,500,000. Just what moral should be drawn from all this by a conscientious commentator we do not quite know; unless, perhaps, it be that swimming, the most informal of all sports, and the cheapest, is also the most enjoyable. Or did you, as one of the 48,500,000 know that al-

#### VAGABOND AMERICANS KNOW HOW TO LOAF

Now that the Republicans and the Democrats have temporarily had their fill of viewing with alarm and pointing with pride, the ordinary citizen can relax a little and start thinking about where he is going on his vacation. And, until he has attended to that little matter, the rival politicians might just as well hold their breath. July and August are bud months in which to try to make an impression on the American people. They're too busy traveling about and having a look at their country. There never was a land in which the vacation habit was as strong as in this one. Perhaps that is partly because Americans have a tradition of restless movement-s legacy from the early days, when men were forever moving westward in pursuit of the receding frontier. But there is more to it than that. At heart, for all his tremendous energy and his capacity for hard work, the American is a loafer and a vagabond-a trait which will ultimately be his salvation.

#### END OF AN INJUSTICE

Some of the lesser injustices should be taken out of the federal government's work-relief program by the new ruling that an unemployed man no longer need take a "pauper's oath" to get a work relief job. Formerly jobs were open only to people who had received direct relief prior to last November. Such a rule was bound to work occasional hardship, and it did. Many a man who needed a work-relief job to keep body and soul together but who had managed to stay off the dole in the past had no chance to get one. The new ruling puts a much-needed flexibility into the program. It pro-bably will multiply the headaches for state WPA directors, who will have to set up their own eligibility standards and take the grief that comes with them; but, all in all, it looks like a sound and intelligent slep

#### WHAT IS A MAN?

Centuries ago human beings believed that the earth was the center of the universe, that sun, moon stars and planets revolved around the world, and that the sphere upon which we live was the sole end of creation.

Gradually, light came through the darkness and great astronomers revealed the truth. Far from being the center of the universe, our tiny world was but a fragmentary part of a solar system which, in itself, was but a speck in cosmic space.

Subsequently, modern instruments revealed the amazing galaxy of a hundred billion giant suns, which we call the Milky Way. Our little solar system was 30,000 light years from its center and it may interest you to know that a light year measures six thousand billion miles.

Recent discoveries reported to the American Philosophical Society by Dr. Harlow Shapley, director of the Harvard College Observatory, discloses that for the first time astronomers have been able to gaze beyond the clouds of cosmic dust that have concealed what lay beyond the confines of the

What was revealed? Harvard astronomers have already seen 147 new variable stars, disclosing a distribution of outer galaxies far beyond the confines of the rim of the Milky Way. Moreover, as a remark, the astronomers report the discovery of a new globular or star system, composed of 50,-000 stars much larger on the average than our puny

Pacing such facts as these, the average individual is apt to exclaim with the Psalmist, "What is man that Thou art mindful of him?" and to revel in the face of doubt in the promising and encouraging declarations, "a little lower than the angels", and "in the image of God."

#### BACK TO THE FARM

We have heard a good deal in recent years about the migration from the farm to the city. But A fash the Census Bureau has just revealed that in 1935 ing. Well the farms population of the United States stood at at least.

the highest figure in the nation's history. To be exact, there were, in that year, 31,800,907 American living on farms—an increase of more than one and one-quarter millions in the last five years. And this increase took place despite substantial reductions in farm population in the drouth and dustbowl belts. It is significant, perhaps, that the principal gains were made in farm areas near industrial centers and mining sections. But whatever deductions may be drawn, it is undeniable that the trend is a good one. A thriving farm population is the best insurance of industrial and commercial

#### HARDLY TRUE AMERICANS

Addition of the White Shirt Crusaders to the long list of crary cults springing up in the United States lately is hardly something for Americans to crow about. The White Shirts, who call themselves "American Fascists," demand, so it is charged, the overthrow of our government by the capture of every county courthouse and state capital in the country. The worst part of it is, of course, that these ders claim to act in the name of sou anism." That is the repulsive feature good citizen. Here, it appears, is an organiza-that, like the Black Legion, has forgotten what Americanism is. America has no room for terrorists These zealots represent anything but Americanism.

the Fair Publishing Com-

Schools are closed for the summer all over the State, and citizens interested in the welfare of the future generation are confronted with the fact that a vast amount of energy and ability may go to waste if skill and patience are not employed in directing children in this play time season. according to Dr. John W. Brown, State Health Officer. The civic, moral, and educa-

tional value of developing the na-tural talents of each child," Dr. Brown said, "has a far-reaching influence on the health, knowledge, and character of the future men and women of this State. The child need not be directed in each little act that he performs. Let the summer vacation season be the time when the child has a chance to develop his own individuality. Many on artist, statesman, or competent executive has come from humble surroundings. But looking back of this, we probably will find that this outstanding individual had a chance to develop his natural talent.

"It has been observed that children grow faster during the sum-mer months than at any other time. This is explainable, perhaps, because it is then that they are out in the sunshine and fresh air. Good health is essential to physical and mental growth. The prime factors of good health are care of the body, nourishing food of the right kind, regular habits, suffi-cient sleep, rest and play, and a happy state of mind.

"Of course, where the child lives and under what conditions, means a great deal as to the type of recreation he will find during the summer. The city child will look forward to trips to the country or hours spent in the play grounds and swimming pools. The child living in the country will have many things to do that will have many things to do that will keep him in the sunshine most of the time.

"Let us all work toward the end that each child may feel at the end of summer that he has worked out some of his own ideas and dreams, and still developed his physical and mental capacities during these few months of play."

## "I'd Better Ask Betty-

Most men know that their wives have sound and expert opinions on merchandise. Even the husband who would never admit has need for advice usually tries to ferret out her views, wishes and hopes before buying.

Why? Because most women seem to have an inborn interest in new things and better ways. . . . They are curious and alert.... They ask their friends about this and about that ... They compare values with great care. . . . They read the advertisements eagerly for the latest news.

It pays to keep ahead, by keeping up with advertising. Well-known products are definitely better products-if not, they couldn't be advertised month after month and year after year. The manufacturer and the merchant both know that the business that prospers is the business that promises satisfaction and keeps its promise.

The advertisements in this newspaper contain useful information about many things that concern you personally. Read every one that interests you. . . . Read it carefully and take it seriously.

The Lines
