## Farm Program Outlined

WASHINGTON, Jan. 21 - Secretary of Agriculture Richard E. Lyng today announced 1988 farm program provisions including the provision that wheat, feed grains and upland cotton producers may request advance deficiency payments at signup.

Advance payments will be equal to 40 percent of the estimated commodity deficiency payment rate. One-half of this amount will be paid in cash at signup and the balance will be paid in generic commodity certificates on or about May 16, Lyng said.

The estimated payment rates are:

	Estimated Payment Rate	Advanced Portion
Wheat \$/bu.	\$1.53	.612
Corn \$/bu.	1.10	.440
Sorghum \$/bu.	1.08	.432
Barley \$/bu.	0.76	.304
Oats \$/bu.	0.30	.120
Upland Cotton \$/lb.	0.16	.064

For wheat and feed grains, producers may elect to participate in an optional acreage diversion program known as 0/92—under which producers devote all or a portion of the wheat or feed grain permitted acreage to conserving uses (CU) and receive deficiency payments on an acreage not to exceed 92 percent of the crop's permitted acreage. The deficiency payment rate on the CU acreage will not be less than the estimated deficiency payment rate shown above.

In order to minimize the adverse economic effects on rural communities, measures will be taken, when needed, to limit the amount of acreage idled under this program, taking into consideration acreage idled under other programs, including the conservation reserve program.

Producers may apply to participate in the 0/92 program from Feb. 16 through March 11. The application to participate in the program must state both the producer's intended crop acreage for harvest and the acreage the producer intends to devote to conserving uses in order to receive a deficiency payment. Wheat and feed

grain producers who do not submit an application to participate in the 0/92 program before March 11 will not receive deficiency payments on CU acres except as may be authorized in certain disaster situations.

Other program provisions called for by the Omnibus Budget Reconciliation Act of 1987 include:

—The oats acreage limitation percentage under the acreage reduction program will be five percent, down from the 20 percent level announced on Sept. 29, 1987. The oats and barley crop acreage bases will continue to be combined. Producers will be allowed to plant oats or barley on the permitted acreage within the combined crop acreage base.

—An optional corn, sorghum and barley paid land diversion program which provides for a reduction of 10 percent of the applicable crop acreage base with a \$1.75 per bushel payment rate for corn, \$1.65 per bushel for sorghum and \$1.40 per bushel for barley. The diversion payment will be paid all in generic commodity certificates on or about May 16.

—Grazing of Acreage Conservation Reserve (ACR) land and CU acreage will be permitted except during five consecutive months of the seven month period between April 1 and October 31 as designated by the State Agricultural Stabilization and Conservation Committee. The Secretary has determined that haying will not be allowed except under emergency conditions unless it is determined that, based upon information submitted by a State ASCS Committee, haying will not result in an adverse economic effect in the State.

### Former Resident Receives LVN Degree

Patsy Ruth Posey Wilson, daughter of Mr. and Mrs. O.O. Posey, recently received her Licensed Vocational Nursing degree.

Patsy Ruth, born and raised in Knox City, married Johnny E. Wilson October 30, 1959. She received her G.E.D.

—Established "target" prices have been lowered about 1.4 percent from those previously announced. Price support loan and purchase levels have generally been limited to a three percent decline from the 1987 crop levels, rather than five percent authorized by the Food Security Act of 1985. The revised rates are as follows:

	Target Prices	Loan Rates
Wheat \$/bu.	\$4.23	\$2.21
Corn \$/bu.	2.93	1.77
Sorghum \$/bu.	2.78	1.68
Barley \$/bu.	2.51	1.44
Oats \$/bu.	1.55	.90
Rye \$/bu.	---	1.50
Upland Cotton \$/lb.	0.759	.5180
ELS	0.957	.8092
Cotton \$/lb.		

—1988 program payment yields will be established based on the average of program payment yields established for a farm during the 1981 through 1985 crop years excluding the highest and lowest yields. However, if this calculation results in a yield below 90 percent of the 1985 program payment yield, producers will be compensated to ensure that they receive the same return as if the yield had not been reduced by more than 10 percent.

—In addition, the 1987 Act provides that during signup, wheat producers may request that 75 percent of the emergency compensation payment, also known as the "Findley payment," be paid to them in December 1988 instead of July, 1989. This payment is made available to producers when the wheat loan and purchase rate has been

## O'Brien Food Store Burgularized

Mrs. Loretta Hewitt of O'Brien Food Store informed the News office this week that their firm had been burgularized for the third time in approximately ten years. The latest occurrence was sometime between Sunday noon on January 31 and opening time of 8:00 a.m. Monday, February 1.

Mrs. Hewitt explained that approximately \$600.00 to \$700.00 of goods including some cash was taken from the store. Among the food items taken were microwave biscuits and sausage, microwave biscuits and ham, microwave tamales, microwave sandwiches, burritos, an 18 to 20 pound ham, hamburger meat with Texas Meat Packing Co. labels, pork chops, billfolds with western designs and a 25 caliber pistol.

Entry was made through a back entrance to the store, Mrs. Hewitt said. She and her husband, Coy, are offering a reward of \$500.00 leading to the arrest and conviction of the person or persons who burgularized their store, as noted by their ad elsewhere in this week's News.

**Streams In Desert Places**

By Ozelle Stephens

"Jesus, the Light of the World" Christ's presence is light, peace, joy, love, life, and substance, is ever within, about, before and beside us. He attends, guides, guards, inspires, comforts, heals, and prospers us. He fills our thoughts with love, and joy. He purifies, strengthens and heals our bodies. He inspires us to realize our dependence upon Him for eternal life through Him, and the truth and love He pours within.

He gives faith and understanding to direct our every step, to relieve us of all anxiety to cure every disease also to manage our affairs.

When waiting in His holy presence He softly whispers to us, neither let it be afraid. Lo, I "Let not your heart be troubled, am with you always." In holy trusting, we find ourselves hid with Christ in God, living under the bountiful Streams of His love.

--Acreage limitation percentages:

--Limited cross compliance will be in effect for the 1988 crops of wheat, corn, sorghum, barley, upland cotton and rice. To be eligible for price support loans, purchases for payments for any wheat, corn, sorghum, barley, upland cotton and rice crop, the acreage planted for harvest on a farm may not exceed the crop acreage base for these commodities. Oats and ELS cotton are

not subject to limited cross compliance requirements.

--Offsetting compliance requirements will not apply.

--Production of crops, program or non-program, will not be permitted on CU acreage under the 50/92 provision for upland cotton and rice or the 0/92 provision for wheat and feed grains.

--Production of crops on ACR land will not be permitted.

--The authority for producers to adjust any crop acreage base (CAB) with a corresponding downward adjustment of other CABs on the farm will not be permitted. However, limited adjustments in CABs will be considered when producers need to change cropping practices to carry out conservation compliance requirements on highly erodible land.

April 15 is the date for determining the status of individuals or entities in applying the 1988 maximum payment limitation requirements.

**Letter From Our Readers**

Letter to the Editor:

The billfold I lost in Athens Greece was returned to me. I regret having said, at the time, that wouldn't have happened in the U.S.A. It did happen in my home town, Knox City.

Sumpter and I were on our way home to east Texas from Sante Fe. I stopped at Allsup's to make a call, from an outside phone booth. After juggling my purse, billfold and address book, I failed to pick up my billfold.

One hundred miles later at Graham I missed it. We had been discussing farm business with Mr. Ed Daniel, in Knox City. I called him, he graciously went to Allsup's. Some honest person had turned it in, with money and credit cards in tact.

Many thanks to that honest person, Allsup's and the Daniels. Where else would this happen but in my home town?

Sincerely,  
Jo Nelle Robbins Reed

Hi Folks,

Enclosed is payment for our 1988 subscription. We wish you the best for 1988. We are enjoying our stay in Harlingen this winter so much. Bible studies are continuing and people are responding to God's leadership.

We were sorrowed at the illness of Joe Averitt but today was made happy at the news that he is returning home from the hospital to continue his recuperation. We praise the Lord for His healing power and His graces to us all.

So long for now,

## Benjamin News

By Gladene Green

Well Superbowl 22 is over! And I am glad. Don't think I could have stood seeing another quarter like things were going. By the way, did your team win? Mine didn't! Seems Denver couldn't get anything going for them and Washington did everything right. (Oh well, I still like John Elway) The superior team just won and there's no getting around that.

Cablevision may be coming to Benjamin. The "cable" people were in town last week to talk to prospective subscribers. If it goes as planned, we just may have it here by May or at least June. We are in need of some better TV reception over here. Those of us who have satellites are a little more fortunate as we do have interference free TV, on the channels that are not scrambled. But more and more are becoming scrambled and the cost of a de-scrambler is quite high. And you still are responsible if your satellite has problems. The cable will represent 'trouble free' TV for the customers. I just hope we can get it before the Nashville Network is scrambled!

### BALL NEWS

If it was basketball you wanted then three out of the five week nights last

week you could have watched in the Benjamin gym. On Monday night the Jr. High teams played Weinert and both won. The girls score was 22-9 and the boys won by a score of 31-26.

The Jr. High girls team is made up of the following: Kristen Simmons, Rhonda Whitten, Kate Grill, Kathy Bufkin, Stephanie Conner, Lisa Balones, and Sara Neal. Gina Trice is their coach.

Boys playing are Tres Pierce, Jimmy Barrientez, Ricky Trepanier, Robert Estrada, Timmy Cash, Jim Bob Conner, Russell Carroll, James Harvey Tomlinson and Jason Simmons. The boys are coached by John Mark Trice.

On Tuesday night, Knox City came over for a meeting with the Mustangs. The Benjamin girls had a comfortable lead at the beginning, then their guests "came alive" and at the end the score was 35-33. Benjamin barely got past the Houndettes. The boys lost to Knox City 77-27.

Then on Friday night, we hosted Aspermont. Again in the first quarter we had a comfortable lead (by about 18 points) But when Aspermont came back they came back 'loaded for bear' and they just kept making points and the final score was Aspermont 44-Benjamin, 43. The boys score was Aspermont 97-B-37.

This week we meet Weinert and Goree.

### HERE 'N THERE

Bill and Dorothy Spikes were in Loraine one day last week for the funeral of Bill's aunt, Ruth Butler. She was the sister of Bills' mother, Lois Spikes.

Reba and Charles Morrill of Humble were weekend guests of her mother, Odessa Cox.

Henry Rogers was in Big Spring last Friday for a medical checkup in the V.A. clinic. Henry will enter the hospital there on Wednesday for futher tests.

We learned last week of the death of Maureen Stephens who is a former Benjamin resident. Maureen and her husband, Fred have been living in Arizona for the past several years.

Peggy Dillard of Lubbock was a weekend visitor with her sister, Virginia Griffith and her mom Audrey Nolan in the Brazos Valley Care Home.

Gloria West is attending a seminar for County and District Clerks at A&M University this week.

Peggy Cure Ritchie of Wichita Falls came by to visit me one day last week. She had brought her mom down to attend to that "yearly" business in the tax office. Peggy and her husband lived in Las Cruces, New Mexico several years before moving back to Wichita Falls a couple of years ago.

Bea Parks spent several days last week in Dallas visiting her sister and brother-in-law and with other relatives and friends.

## Benjamin FHA To Observe National FHA/Hero Week

Benjamin FHA/HERO Chapter at Benjamin High School, an affiliated chapter of Future Homemakers of America, joins with 11,000 other local chapters in a nationwide observance of FHA/HERO Week, February 7-13, 1988. Observed as part of Vocation Education Week, this annual event gives members an opportunity to show how their background in home economics, along with their participation in Future Homemakers of America, equips them with leadership "skills for life."

The theme of this year's National FHA/HERO Week is "Future Homemakers of America: Leader on the Move." It describes the Future Homemakers of America membership, its spirit and its drive to make a difference in society. Through involvement in chapter projects, members learn to channel their leadership skills to achieve personal goals and improve the quality of life in their communities.

During FHA/HERO Week, members plan and carry out activities that also show the relevance of home economics to their overall education. Projects also involve career exploration, family communication and community service.

Chapter members are planning a series of activities during the week-long observance. To kick off the week, the Benjamin chapter is sponsoring skits on nutrition for the lower grades. The week will include a "HERO" day (people who have influenced their lives), planting a tree to commemorate FHA/HERO week and a "Remember Someone You Love" project. On the lighter side of business the FHA will have a 50's day, an inside-out day, a red and white day, and also a breakfast for members.

Chapter President Lorrie Rolston points out the significance of the week's theme "Leaders on the Move." "Since the founding of the organization in 1945," Lorrie says, "chapter members have taken leadership in making their communities better places to live. But the public doesn't always associate Future Homemakers of America with community service." She adds, "During this week, chapters nationwide sponsors one or more community service projects, tackling issues that affect the family such as

substance abuse, AIDS prevention, nutrition and fitness." She concludes, "Our members are 'leaders on the move' and use this week to showcase their contribution to the community."

Future Homemakers of America is a national vocational student organization whose 300,000 members are enrolled in home economics education and organized in a network of 11,000 chapters. Its programs emphasize preparing youth to assume their roles in society as wage earners, community leaders and caring family members.

It is unique among youth organizations because programs are planned and run by its student members. This prime focus of Future Homemakers of America, youth-centered leadership, helps members develop "skills for life"-planning, goal setting, problem solving, decision making and interpersonal communication-necessary in the world of work and in the home.

**JUNIOR CLASS NEWS**

By Trina Fry

Last week was the big game against Benjamin. It was a nervously close game. We lost by only two points. Friday we beat Weinert with a hoopin score.

Saturday some of the Juniors went to a UIL practice meet at Stamford. Three Juniors-Karen Daniel, Trina Fry and Beth Underwood competed in accounting. Beth received first place and Trina got second. Beth also entered number sense and calculator. She got sixth in calculator. Congrats! Another Junior Nancy Marin, entered the typing contest.

A tournament was held at Munday for JV teams. Our girls won consolation while the boys took the second place trophy. Congratulations to both teams on a great job!

**FHA NEWS**

By Starla Whitaker

Michelle Manuel is the second out of the Seniors who are FHA officers. Michelle is the typist for the chapter.

Michelle's job is to type all official business documents. Michelle likes her job because she likes FHA, and she likes to type. Michelle says that this year she would like to be as active in FHA as she possibly can. Michelle believes that a member can learn about leadership and responsibility to others. She thinks that the Knox City Chapter is a good Chapter, but the girls need to get more interested.

With Senior roll models like Michelle, the members should do just that.

# Your Energy Dollars Could Be Going Up In Smoke!

Fireplaces are built to draw. Even when there's no fire, this massive column is drawing air from inside your home — air you have paid to heat.

Closing the damper in your fireplace when it's not in use keeps winter heat from escaping up your chimney. This reduces the natural draft created by warm air inside the house as it rises. It also prevents any down drafts.

A glass fireplace cover can also help save you energy and money by decreasing the amount of inside air going up the chimney. When selecting glass door covers check for the following: air tightness, glass thickness (3/16" to 1/4"), frame strength, frame insulation and be sure they are heat tempered.
