A Little Straight Talk

BY DAVE THOMPSON

On a drive back from Lubbock last Friday, I conducted my own survey to see how the 55 mph and seat belt laws were being observed on a holiday weekend. While keeping my speed at 55 by way of cruise control, a total of 26 vehicles passed me in the 125 mile trip. Of those, two were official cars of state agencies and two were U.S. Government trucks. In all the cars and pickups passing me, I could only see 12 of the drivers wearing seat belts. While trying to obey the law, I felt like a turtle strapped into my shell!

Rios Exxon Opens In O'Brien

The business climate of Knox City and the surrounding area received another boost recently when Jessie Rios announced the grand opening of his Exxon Service Station in O'Brien.

Open since April and now ready to offer full services to his customers, Rios has a wide variety of both products and services available. His station will offer fast, courteous full service to new and older established customers. Items offered for sale include gasoline, oil, batteries, and two different brands of tires with overnight delivery of tire sizes not in stock. In addition to the new tires, Jessie also carries a large variety of used tires for customers who prefer them.

Services offered to customers in-

clude full service on the gas islands, oil changes, repair of flat tires for cars, trucks and tractors, hydraulic and high pressure hose repair, and there are plans for a car wash in the future. Also on hand is a winch truck that can be used for a variety of purposes. In addition to car and light truck towing, Jessie also uses the winch truck for the placement and removal of stripper baskets for farmers and has even used it for tree removal. In addition to the gas pumps operated by employees during the day, key pumps for 24 hour self service are available.

While most customers are handled on a cash basis, Jessie also offers the use of Exxon, Discover, MasterCard, Visa and American Express credit

cards in his business. Also available on a limited basis are 30 day charge accounts for customers who first apply and qualify through Jessie.

No stranger to the business, the Rios formerly worked in the service station business for five years in Knox City and has worked part-time in O'Brien since 1972 along with his fulltime work in the oilfield. Jessie will not work the station by himself as he has the help of his wife, Dora, and 20 year old son Ray. Not working at the station yet but also included in the Rios family are daughter Trisha, age 14, and son Jessie Jr. (J.J.), age 6.

The entire Rios family invites everyone to come by and enjoy their new business with them.

JESSIE'S EXXON STATION ANNOUNCES GRAND OPENING

Storm Warning Siren's Testing Announced

Following the installation of a new electronic rotating severe weather siren at the Community Center, city officials have announced the proposed testing schedule for the storm warning system in Knox City.

Beginning in August, the new siren and the accompanying older model sirens that are located throughout the city will be tested once a month. The test date has been set for the first day of each month, with the time for

testing set for 12:00 noon on test days.

According to City Councilman Marq Brockett, the tests will take place on the first day of each month regardless of what day of the week the first falls on. Also decided was the use of a two minute blast of the storm warning system to signal an approaching severe storm or tornado, with no all clear signals following a storm.

City residents should take note of this information to avoid any possible

confusion or anxious moments when the sirens are turned on for testing purposes only.

Ministerial Alliance To Assist Parents

The Ministerial Alliance of Knox City and O'Brien is accepting donations to be applied to utility and rent expenses of Linda and Randy Watson of Knox City. These expenses have mounted during the illness of their 21-month-old daughter, Krystal Michelle, who became critically ill June 5. The baby was transferred to Hendrick Medical Center in Abilene and later moved to Cook's Children's Memorial Hospital in Fort Worth.

Since she has been in Fort Worth, the doctors there have removed both feet at the ankle and her left hand at the wrist, due to damage caused by the illness.

According to reports, Krystal is slowly improving, but is facing months of confinement and therapy.

The baby is the granddaughter of Peggy and Jerry Durham of Crowell.

Donations may be made to the Ministerial Alliance at Citizens State Bank in Knox City or may be handed to any of the individual ministers a spokesman said.

Carrier Calls For Property Tax Relief

State Representative Steve Carrier (Democrat-Roby), a long-time critic of the state's property tax system, is calling for major policy changes to help relieve the tax burden on small business and family homes.

Carrier says the time is now right for a bill he introduced in a previous session of the legislature. That bill would provide for the direct election of appraisal board members, rather than their appointment. "An elected board will be more sensitive to the needs of the taxpayer and would have a greater interest in resisting pressure from the state to over-appraise property," Carrier said.

Carrier is also championing a plan that would appropriate any state surplus budget monies first to property tax relief. He says that as the Texas economy recovers, that revenue surpluses generated by the existing tax structure should be focused on areas such as education, which soaks up over half of the local property tax. "We should require that additional state monies over and above mandated education improvements be dedicated to property tax relief," he said.

In the 1985 session of the legislature, Representative Carrier passed a bill to allow the refund to the taxpayer of penalty and interest when the delay which resulted in the penalty was the fault of the taxing entity and not the taxpayer. He is also the author of a bill to restore the homestead tax exemption.

Next CRP Sign-Up To Begin July 18

By Donnie Peters
County Extension Agent

The seventh round of sign-ups for the government's Conservation Reserve Program is July 18-August 5 at the Knox County ASCS office.

This sign-up period will give Texas farmers another opportunity to put highly erodible land into CRP for a 10 year period.

CRP is a part of the 1985 farm bill that is aimed at curbing crop production on highly erodible land and protecting that land from wind and water damage. And the program has been effective. Thus for figures from U.S. Department of Agriculture show that CRP has reduced soil erosion by 17 percent, more than 530,000 tons, since 1986.

In Knox County, 58 contracts have been made which put 8400 acres into the reserve program. Estimates were made that soil erosion has been reduced 25 tons per acre since signing.

Some 45 million acres have been targeted for the program across the U.S. Currently, 56 percent of that goal has been contracted nationally. Texas farmers have enrolled 3.2 million acres.

Farmers enrolling qualified land, as determined by the Soil Conservation

Service, must keep the land out of production for at least 10 years and must plant a cover of grass or trees. During this period they will receive an annual "rental" payment from the government plus half the cost of establishing the ground cover.

Several new rules that took effect with the last sign-up will continue. One new rule requires that acceptable bid levels not exceed the local cash rental rates for comparable land, as determined by local ASCS committees. Thus far 40 dollars per acre has been top rental rate accepted in Knox County.

In addition, filter strips along creeks may be enrolled even though they do not contain highly erodible land. Such strips must be 66 to 99 feet wide and must be parallel to and adjacent to perennial streams, permanent ponds or permanent lakes.

Farmers with highly erodible land also must have an approved conservation plan filed at their local SCS office by Jan. 1, 1990. Failure to do so will result in a loss of USDA farm program benefits on all cropland. And the approved plan must be implemented by Jan. 1, 1995, to retain government payments.

Osbornes Announces Promotions

Osbornes, Inc. of Vernon has announced the promotions of two Munday store personnel.

Manuel Hernandez, currently serving as assistant manager of the Munday store, has been promoted to assistant manager of the Osbornes store in Vernon. He will assume his new position in Vernon effective July 11. Hernandez has been employed by Osbornes in Munday for the past seven years, serving as assistant manager of the local store for the last three years.

David Hernandez has been promoted to assistant manager of the Munday store. He has been employed by Osbornes for five years and will also assume his new position on July 11.

Andy Duffie of Vernon, store supervisor for Osbornes, noted "We are very pleased to offer these two young men their respective promotions and look forward to their continued growth in management roles. Both Manuel and David have benefited directly from the leadership and training of Dub Moon, our Munday store manager. They

couldn't have had a better teacher than Dub and we will expect big things from both Manuel and David in the future." Duffie also noted that the vacancy created by Manuel Hernandez' transfer to Vernon will be filled from local applicants within the next week to ten days.

Applications Being Accepted For Sheriff

BENJAMIN - The Knox County Commissioners' Court will accept applications for Sheriff of Knox County until 9:00 a.m. on July 11, 1988.

Morris E. Nix, Sheriff of Knox County submitted his resignation to the court on June 23, 1988, to be effective July 24, 1988.

Interested parties may contact County Judge David N. Perdue at AC 817-454-2191 or write P.O. Box 77, Benjamin, Texas 79505 for further information.

CLASS OF 1978 members enjoyed themselves Saturday, July 2, during the class's ten year reunion. Attending the Saturday afternoon barbecue at the City Park were, kneeling from left, Vallia Rodriguez Magana, Rosa Rocha Richardson of Graham, Junior Gonzales of McAllen, Cheryl Brieden Vaden, and Debbie Ray Brown. Second row, from left, Eddie Martinez of Austin, Brett Boone of Fort Worth, Billy Lerma, Laverne Martinez Soto, Peggy Gutierrez Estrada, and Irene Flores Morrow of Hawley. Back row, from left, Judy Herring Fox of Mesquite (second from left), Donny Mullins of Rotan, Mark Clonts of Houston, Raul Espinosa Jr., Lydia Lankford Schindler of Forney, Phillip Rhodes of Childress, Tommy Mangis, and Jami Clonts Giolotti of Austin. Pictured behind Jami is Jim Dillon, who was class sponsor. (News Photo)

NEWS BRIEFS

Taking top honors in the championship flight were first, Boyer-Fudge, 124; second, Nuckols-Scarlet, 127; third, Hastings-Rust, 131; and consolation, Wyatt-Helms, 138.

First flight winners were first, Meiner-Strickland, 138; second, Smith-King, 140; and Correll-Sallee, 140.

Second flight winners were first, Hutchinson-Harlan, 144; second, Garcia-Gonzales, 145; and third, Skiles-Abernathy, 146.

MRS. DEAN MARTIN TYLER
...the former Kary June Kent

Local Resident Wed In Arlington Ceremony June 18

Kary June Kent and Dean Martin Tyler, both of Arlington, exchanged wedding vows Saturday, June 18, at eight o'clock in the evening.

The couple was married in a garden setting at the home of her cousin in Arlington.

The bride is the daughter of Mr. and Mrs. Thomas E. Kent of Mason.

The bridegroom is the son of Marie Tyler of Wellsville, New York.

The single ring ceremony was performed by Judge Rolly Millirons.

Soloist was the bride's father, who also gave her in marriage.

The bride wore a formal gown of white chiffon. The bodice of reem-broidered Alencon lace over English net was complemented by wide ruffles which formed a yoke in front, extending over her shoulder and to a point in the back at the waistline. A band of lace marked the top of a wide flounce at the bottom of the skirt which exten-

ded into a cathedral length train. She carried a cascade bouquet of burgundy, mauve and pink silk flowers and wore matching flowers in her hair.

Attendants were Mrs. David Turner, sister of the bride, of Olden and the bridegroom's son, Cody.

Mrs. Turner wore a pink dress of polyester fashioned with long sleeves and a white lace collar. Her bouquet was of flowers like those in the bride's bouquet.

A reception followed the ceremony. Serving were Mrs. Dale Bloxham of Knox City, Shannon Edminton, cousin of the bride, of Alvarado, and Angie Turner, her niece, of Olden, who also handed out satin roses filled with rice.

The bride graduated from Knox City High School and Jessie Lee's School of Cosmetology.

The bridegroom attended Hawlin High School and graduated from Wellsville High School, New York.

Following their honeymoon, they are at home in Arlington.

Kountry Kuts Offers Latest In Tanning Bed

Kountry Kuts, located at 214 West Main in Munday, offers the newest in tanning technology with the Solana Sunflower sunbed, which caters to year-round tanned beauty. The Solana Sunflower offers a no-sunburn, even, all over body tan in a few short sessions and is gaining popularity throughout the nation, for all ages throughout the year.

Wilma Hogan, owner/operator of Kountry Kuts, emphasizes a continuous program of eight to ten 30 minute daily sessions or at least one session every other day which will produce a healthy looking tan. After acquiring a good base tan, sessions once or twice weekly, will maintain a tan.

This year, Mrs. Hogan has a new line of Body Drench products available which gives the "serious sunners" the ultimate in tanning lotions. Scientifically planned to produce maximum tanning effects--without the use of sunscreens--the entire Body Drench program is enriched with moisture-binding vitamins and rich emollients for soft, smooth, glowing skin. Four products are available including moisturizer, accelerator, tan amplifier

and tanning base. Use of these products will definitely enhance the tanner's glow and radiate their progress, Mrs. Hogan said.

The Solana system, which is a UV-A system, drastically reduces the dangers from those in the UV-B range. In the past, the basic problem with indoor tanning devices has been achieving the proper balance of ultraviolet (UV) rays. The old types of sunlamps and stand-up booths often produced a severe sunburn and were responsible for the clouded reputation associated with the indoor tanning industry. A new technological breakthrough in Europe paved the way for a new generation of tanning devices. Extensive research shows a unique design of a lamp that could be used for tanning that emits a small amount of UV-B rays combined with a large amount of UV-A rays. This ultraviolet balance makes it possible for most people to attain a golden tan without sunburn.

Mrs. Hogan recommends tanning sessions in preparation for a vacation or any special occasion, to secure a "bronzed appearance" from scratch, when busy lifestyles preclude daytime sunning hours; or to avoid "natural" (but potentially harmful) outdoor UV-B rays from the sun.

She will be offering a July special for new customers as well as regular "sunners". Prices and other information are available in her ad elsewhere in this week's News.

Streams In Desert Places By Ozelle Stephens

"The soul that sinneth shall die." "The wages of sin is death." You cannot break God's laws and get away with it. That is just as true today as it was in Jeremiah's day. In studying the book of Jeremiah our hearts ache because of the striking parallel between the erring nation and our own beloved country. They had risen to one of the major world powers: The nations of the earth had honored them for their skills and for their powers.

They had given nations codes of living and statutes of law which have never been excelled to this day. Gold flowed freely in the market place. Silver was brought from Tarshish. But God does not judge men by gold standards. He weighs them upon the scales of justice and integrity.

He looks deep into their hearts for underlying motives, for proper attitudes and inner purity. Israel's outward show of strength was a mask camouflaged her spirit of weakness and shame. She was destroying herself with lust and greed. Do you see the parallel between Isreal's state then and our state now?

Washington wants to know

Save Your Superstations, Tell Washington

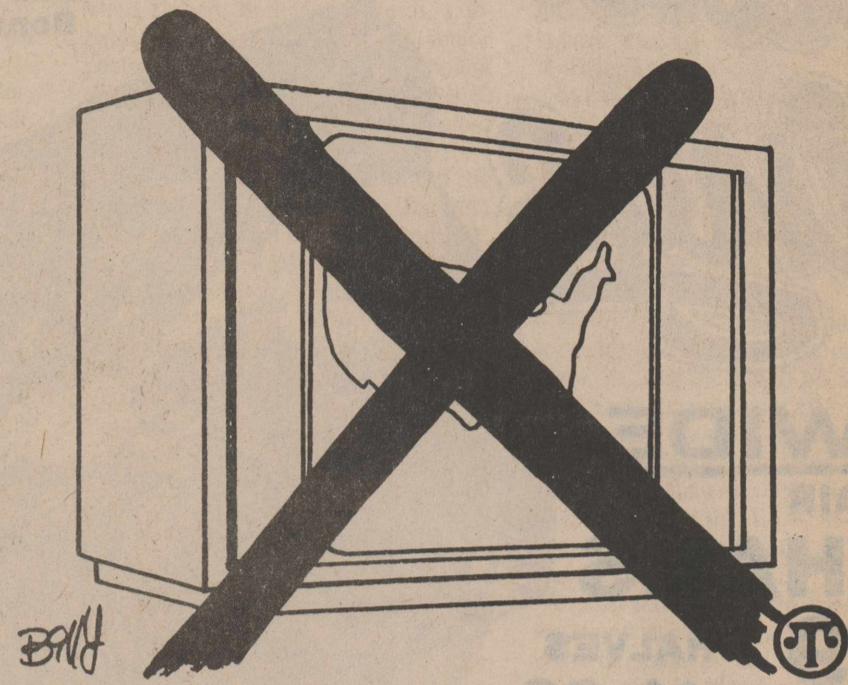

If a pending Federal Communications (FCC) rule called syndicated exclusivity, "syndex" for short, is passed, it may black out favorite programs for 50 million U.S. television viewers. Syndex would force supersations such as WGN (Chicago), WTBS (Atlanta), WPIX (New York), WWOR (New York), KTVT (Dallas/Ft. Worth), and KTLA (Los Angeles), to stop satellite transmission.

Syndex is a set of rules that the FCC may enact which would allow program producers, sellers, and broadcast stations to divide the country into exclusive program distribution areas. A broadcast television station buying rights to a given program (M*A*S*H for example) could, under syndex rules, force local cable operators to black out M*A*S*H anytime a superstation carried it. The black-out might be required regardless of the episode being shown or the local time at which the cable-delivered superstation carried the program.

While the rules don't affect TVRO (private earthstation owners) directly, they may have an indirect effect. Businesses that transmit superstations on satellite may lose all economic incentive to carry superstations. If enough cable systems drop superstations as a result of syndex rules, television viewers, both cable and TVRO, would then lose superstations entirely.

A consumer advocate group called H.A.L.T. (Homes Against Losing Television) has been formed to represent the general public in opposing syndex. According to a H.A.L.T. spokesman, "The general public's wants and needs have not been considered on this issue. In order to convince the FCC that people want their superstations, we are urging everyone who enjoys superstation programs, movies, or sports to contact their elected officials or us at H.A.L.T. We'll make sure that all H.A.L.T. correspondence is forwarded to the appropriate senator or representative."

"This could be the most sweeping change in television since its inception," explains H.A.L.T. "For anyone in Washington to make changes of

this magnitude without public debate of the issue is unthinkable." By making senators and representatives aware of the importance of superstation programs consumers can insure that their opinions are considered in the FCC proceedings on syndex.

H.A.L.T. urges concerned consumers to write Washington and tell their elected officials, "We want our supersta-

tions. Please tell the FCC not to pass rules that would cost us superstation programming." Consumers are writing to their senators at the U.S. Senate, Washington, D.C., 20510 and to their representative at the U.S. House of Representatives, Washington, D.C., 20515. Consumers can also write H.A.L.T. (Homes Against Losing Television) at Box 18698, Washington, D.C., 20036.

METER TAMPERING NOW A FELONY

The State of Texas has recently adopted an amendment to the State Penal Code making meter tampering a third degree felony. A third degree felony comes with a punishment of confinement in the Texas Department of Corrections for a term of not more than 10 or less than 2 years. In addition to imprisonment, an individual adjudged guilty of a third degree felony may be punished by a fine not to exceed \$5,000.

Before the amendment of the new law, it was a class A misdemeanor for meter tampering unless the loss of service was more than \$200. Under the new law, any meter tampering regardless of the amount of loss is now a felony of the third degree.

Meter tampering consists of, but is not limited to:

- (1) Diverting electricity from passing through a meter device.
- (2) Preventing electric service from being correctly registered by a meter device.
- (3) Unauthorized activation of electric service.

As a special note to our members, it will also be considered meter tampering if a meter is reset and electrical service is restored by anyone other than a Cooperative employee.

All Cooperative meters are sealed. This seal should not be cut or broken without special authorization. In cases where the seal must be cut for emergencies the Cooperative should be notified as soon as possible so that the meter can be resealed.

Truscott-Gilliland News By Clara Brown

July 4, 1988
The rain Saturday night, June 25, broke the drought. Other rains continued to fall during the past week. Most places west of Truscott received a total of five inches during the past week, although Eddie Lowrance says their total was closer to four inches. Kristy Kimmell reports the government gauge recorded 5.65 for the month of June with 2.09 inches recorded so far for July. She recorded 4.25 during the last week.

The tanks still need water, but some water did run with the showers Saturday night.

In Truscott and at Gilliland most people reported two to three inch totals for the past week. It usually rains more east of Highway 6, so this was an unusual rainy spell.

Jerry and Kay Hayes of Abilene and Jere and Joella spent Saturday and Sunday with the C.W. Millers.

Johnny Kimmell spent Friday and Saturday in Hall County, where the Moorhouses have part of the old Mill Iron Ranch.

Sunday dinner guests in the E.D. Welch home were the families of George and Linda Oustad, Munday; Tracy and Susan Cartwright, Benjamin; and Dennis and Charlotte Welch, Gilliland.

Monday, the L.G. McGuires were expecting Jason Cypert of Carrollton and his mother, Lori Cypert of Arlington, who planned to stop by on their way to Palo Duro Canyon.

Mike Dushan of San Antonio moved his family to Truscott over the weekend. They have bought the Dennis Welch trailer which is straight south of the Methodist Church. The family includes his wife, Chris and three boys, Pete, 16, Philip, 14, and Andy, 11. Eddie and Cathy Lorraine helped them move.

Gladys Meek of Seymour visited the Homer Martins Sunday afternoon.

Correction: The Allan and Beverly Baly home, not the Louis Baly home, was the June 19 site of a birthday party for their son Justin and a Father's Day celebration honoring the fathers and grandfathers in Allan's and Beverly's families. Not mentioned in the original story were guests Buster and Louella Tolson of Benjamin, Beverly's grandparents.

Corinne New returned Friday after spending almost a week visiting her son, Lawrence New, and his wife, Ginger, in Amarillo.

Clara Owens had the bandage removed from her eye last Monday at Abilene. Her daughter, Pat, says that Mrs. Owens is doing well but is anxious for things to progress faster.

Visitors in the Elmo Shaw home over the weekend were Tommy Shaw of Fort Worth; Jim Lynn, Chris, Cody, Zane and Lin of Lillian; and Mike and Ann Shaw of Mansfield.

Aurelia McElroy recently visited her brother, Paul Nolte, in Westminster, Maryland. She and her three sisters, one from Seneca and two from Topeka in Kansas, drove east together. Paul was the first paratrooper dropped across the Rhine in World War II. Aurelia said he has been ill from war injuries since then.

The four Nolte sisters visited Dolly Parton's place when they drove through Tennessee and Aurelia said it was a lot of fun.

Grandma's Sunday Dinner July 10, second Sunday, will feature fried chicken this time.

Fred Cook of Mesquite brought his nephew, Heath Sanner, to the A.L.

Cooks over the weekend. Heath will spend this week with his grandparents. Margaret Daniel returned Saturday from a two week visit in Kentucky. She was accompanied to Kentucky by her aunt, Mrs. Ruth Stoker of Mineral Wells.

The Darrel Hords have bought the Lucille and Larvallee Jones houses. Their grandson is still visiting.

Forrest and Winnie Carter of Granbury and Cate and D'Ette Carter of Alvarado visited Venta Horne over the weekend.

July 4 was an extra special holiday at the Sydney Alexander home. Besides being Independence Day it is also his birthday. Happy birthday, Sydney!

Harold and Carrie Barry attended the Stamford rodeo last Wednesday and Thursday. They said it was cool and pleasant.

Visiting Fannie Lois Bayers last Wednesday afternoon were her sister-in-law, Mrs. L.J. Barker of Odessa and her daughter, Mrs. Linda Warner and children of Magnolia, Arkansas, and Fannie Lois' sister, Ola Barker of Seymour.

Mr. and Mrs. D.E. Burgess were in Wichita Falls Saturday afternoon.

Margaret Todd was in Wichita Falls for tests one day last week, but is now back at the rest home in Knox City, according to her brother-in-law, Curtis Casey.

Fred, LaNay and Tim Cash and Gail and Lee Whitley enjoyed boat riding and fishing at Miller Creek reservoir recently.

Fred and Tim Cash took a load of hogs to market at Eastland Monday, June 29.

Wilfred Welch of Wichita Falls visited his mother, Mrs. Elmer D. Welch, Sunday afternoon.

Waldron Rites Held Tuesday In Benjamin

Graveside services for former Benjamin resident Jack H. Waldron of Fort Worth were held Tuesday afternoon, July 5, at two o'clock in the Benjamin Cemetery. Officiating was the Rev. K.E. Woolley. Burial was under the direction of Smith Funeral Home.

Mr. Waldron, 55, died Sunday night, July 3, at his residence following a brief illness.

Born December 8, 1932, in Knox City, he had lived the past 27 years in Fort Worth. He served in the United States Army during the Korean War. His parents were the late J.F. and Zena Waldron.

Survivors include two sons, Jack Waldron of Benjamin and Pete Waldron of Syria; a daughter, Teri McNitt of San Antonio; two sisters, Barbara Pierce of Benjamin and Pat Garza of Lubbock; and four grandchildren.
