**FIRST CHRISTIAN CHURCH**  
W. P. Hardegree  
9:45 Church School. Mr. Dennis P. Bluff, supt. The attendance during the last three Sundays has been very good. This is due to the faithfulness and efficiency of our teacher. The work that is being done by them deserves your support. Mr. Absent Member. I want to suggest that you support them not only with your attendance Sunday but by inviting a friend that ought to be in a class in some church school.

11:00. Morning worship, sermon and communion. Sermon subject, "Mothers of Men." Text: "For this child I prayed, and the Lord hath given me my petition which I asked of Him. Therefore also I have lent him to the Lord as long as he liveth he shall be lent to the Lord." I Sam. 1:27-28.

8:00. Evening worship and sermon. Sermon subject: "Living the Christian Life."

second Lord's days of May. We hope to have more room by that time. We hope to enlarge our building.

Will be looking for you Sunday. May talk on the subject, "Our Mothers." Come.

**FIRST BAPTIST CHURCH**

**A MOTHER'S REWARD**  
The above will be the subject for the morning service at the Baptist church. The day is an important one and the subject is of great value. We urge every mother to be present. The babies will not hinder the service, so bring them along. The Men's Bible Class would like to have one hundred men present. There were only forty-eight last Sunday, but there will be a great increase next Sunday. The fellowship is great and the lesson valuable.

The evening service will be better than ever. There will be a great song service and special music. "Why Man is of Great Value in the Sight of God" will be the title of the evening sermon.

**FIRST METHODIST CHURCH**  
Orion W. Carter, Pastor  
Sunday is Mother's Day. The pastor will use as his subject, "Blessed art thou among Women." Tribute will be paid to the second mother as well as the real mother. Special music will be rendered by the choir.

The evening service will begin at 8 p. m. and last just one hour. Plan to spend this one hour feeding the soul and thus being better prepared for a week of toil.

**THE CHURCH OF CHRIST**  
A. F. Thurman, Minister  
Bible Study and Class Work—9:45 a. m.  
Sermon and the Lord's Supper—11 a. m.  
Young People's Meeting—7:30 p. m.  
Sermon and the Lord's Supper—8 p. m.  
Wednesday, 8 p. m. — Prayer meeting and Bible Study.  
Wednesday, 3 p. m. — Ladies Bible Study.

Our protracted meeting closed last night. It was a wonderful meeting. Much good was accomplished. Thirteen were added to the church; the church was made spiritually stronger. Brother McClung will, the Lord willing, be with us again next year—first and

**Methodist Missionary Society.**  
On May 7th the members of the study class of the Methodist Missionary Society met in a study and review of the book of Nahum. Promptly at 3 p. m., the class was assembled by the singing of "How Firm a Foundation." Our musician Mrs. R. C. Montgomery, being absent, Mrs. O. E. Patterson was at the piano. The song was followed with a prayer by Mrs. B. Cox.

Mrs. C. L. Lewis, having been requested to tell the history of Jonah, very graphically portrayed this interesting character.

Mrs. F. T. Sanders next described, in detail, the city of Nineveh. As presented by Mrs. Sanders, the description of the fall of the city was intensely interesting. The book of Nahum was next read and comments made. The following members took part in the reading of the first two chapters: Mesdames B. Cox, Patterson, W. Cox, Freeman, H. M. Smith, C. L. Lewis, A. J. Shriver, Griffin, Martin, Sowell. This part of the program was concluded by the reading of the 3rd and last chapter by Mrs. J. T. Wilson. By her comments, the director causes these readings to be very interesting and her skillful questioning of the class results in many interesting and sometimes humorous ideas. All enjoy this part of the lesson very much.

This reading of the book of Nahum brought the session to a close and all joined in singing "Work for the Night is Coming." This was followed by the Lord's Prayer, led by Mrs. Shriver, being recited in unison. Mrs. Watson in her own sweet, gracious manner, made everyone feel at home, and all enjoyed the social hour which followed. The entertaining rooms were indeed bowers of beauty, being filled with very colorful spring flowers. The hostess, assisted by Mesdames Kimbrough and A. J. Lewis, served de-

licious refreshment of pear salad, topped with whipped cream, watermelon, mints and iced grape juice. Sprays of rose verbena made each plate a thing of beauty. Nineteen members, including the hostess, were present. This display of interest was very gratifying to the director, also to the president, Mrs. Patterson.

We meet with Mrs. Wallace Cox on next Monday afternoon and study the book of Habakkuk. Attendance is extended to all to come and be on time.

**Woman's Council.**  
The Woman's Council of the First Christian Church met Monday May 7, in the home of Mrs. J. B. Post. Vases of iris and pink roses lent their charm and fragrance to the artistic living and dining rooms. After a short business session, Mrs. J. M. Glass in her capable manner directed a program "Christ in a 'Hanging Clime'."

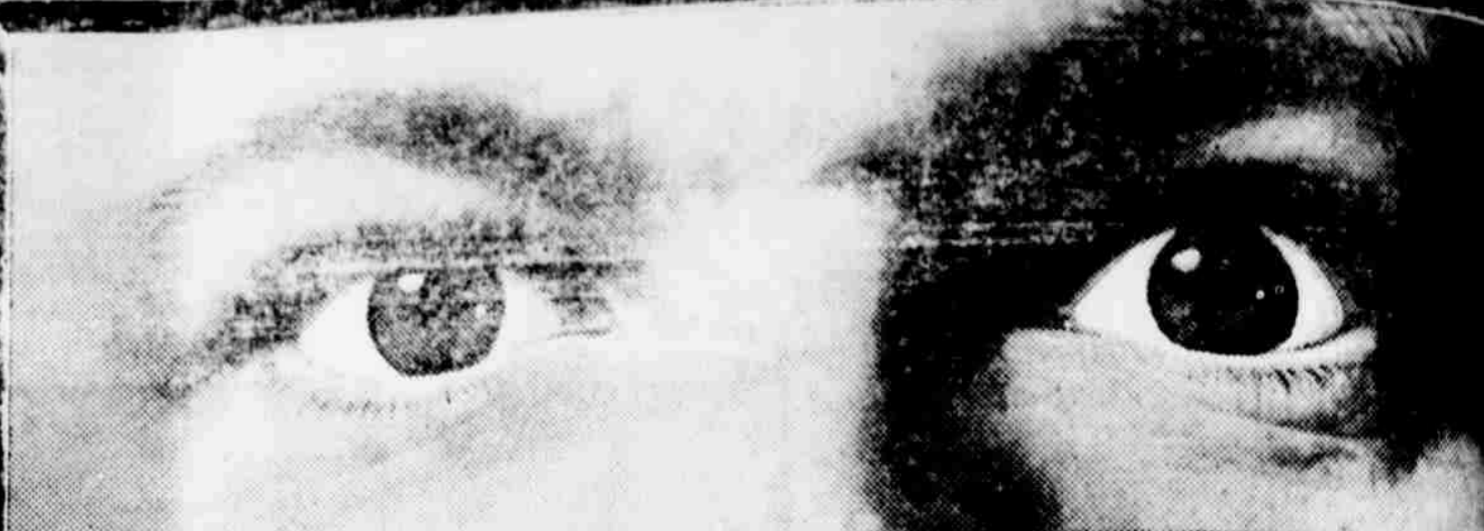

Devotional by the leader.  
"We Enter China" was dramatized in a very forceful and entertaining style by Mrs. Wayne Koonce, Mrs. Tommie Boone Hawkins, Mrs. D. P. Ratliff impersonating Dr. Macklin, Mr. Herndon, and Mr. Meigs, three bachelor missionaries, who entered China in 1886. Mrs. Thomas Morrison and Mrs. Pete Cooper impersonating Mrs. Macklin and Mrs. Meigs, brides of the missionaries.

"Elijah's Mantle" was discussed by Mrs. Hunt.  
Solo: "Follow Me", Mrs. Wayne Koonce.  
Hidden Answers—Council members.  
Missionary benediction.  
During the social hour the hostess served refreshing iced punch and cakes to the following members and guests: Mesdames H. S. Post, R. B. Fields, J. V. Davis, P. M. Baldwin, Lynn Puce, Perry, Misses Dulin Fields, Katherine Knight, the director and those presenting the program.

**Christian Endeavor to Sponsor Mother's Day Program.**  
What name is sweeter to human than Mother? The young people of the First Presbyterian Church think there is none. To prove this, the Christian Endeavor is sponsoring a program to be given Sunday evening at 6:30 p. m. in her honor. Mothers whether you have a son or a daughter or neither in this Society, you are invited. There is a worthwhile program, so come and see what is in store for you.

**Helen Bagby Circle.**  
The Helen Bagby Circle met with Mrs. R. J. Paxton May 7th. On account of sickness our president, Mrs. Taylor, could not be with us and in her absence Mrs. Couch presided.  
Meeting opened with prayer by Mrs. Couch.  
Mrs. Gilstrap brought a very beautiful and inspiring devotional on the subject of "How can we help others to live a more beautiful life." She read from the second chapter of Philippians showing that our mission is to hold forth the Words of Life. The study of our Mission Book was postponed to a later date.  
It was our pleasure to have our president, Mrs. I. N. Simmons with us, who gave an inspirational talk which was enjoyed by all.  
Eleven members were present.

Advocates More Rough Feed and Farm Pasturage

Increased acreage of rough feed and pasturage at the expense of corn and wheat is the desire of the Agricultural Experiment Station, Administrative Council, and the Texas and M. & A. Extension Service. Such a shift would help reduce the cost of production of meat, milk, and wool.

Senate Committee Gives More Power To Farm Chieftain

WASHINGTON — Strengthening of the power of Secretary Wallace to license producers and handlers of farm commodities was approved Thursday by the Senate Agricultural Committee at a surprise executive session.

Chairman Smith (Dem.) South Carolina of the committee, said Wallace requested the hearing be closed although an open discussion of the changes in the farm act had been expected.

Committee members said apparently the Secretary sought to save time and that the proposed amendments approved would be thoroughly reviewed in the Senate floor.

Smith said the committee was unanimous in approving a favorable report although ten of the nineteen members were present.

The action to extend the power of the Secretary came at a time when the national growers' alliance, which apparently had decided to let lapse its power to license industry.

Through licensing of processors of Agriculture may lead to the exclusion of processors of farm products, to license marketing agreements. Clear priorities have been issued thus far, the parts first being accepted by the majority concerned.

For Congress

CLARK MULLICAN

Judge, 99th District Court, Lubbock. Candidate for Congress, 19th District.

Announcement of Clark M. Mullican for U. S. Congress

To The People of the 19th Congressional District: For nearly a year you have had before you my announcement for Congress from this new District.

Believing that the people generally have grown weary of the many-winded, time worn, inflated structures in American politics we call "Platforms" that so often become the funeral tiers of numerous forgotten promises, I formally submit my candidacy to you in four simple sentences:

"To keep faith with my fellow man. To ever be mindful of my trust. To remain loyal to those I represent. To do always the very best I can."

No man in this race can say more, nor should he say less. These four sentences pledge me to support every emergency measure of the President's Recovery Program consistent with the needs of those who live in this District.

They also pledge me to sincere and profound consideration of every future question of Government tending to promote the welfare and happiness of the people who live in this District.

Were I to detail a platform several times as long, I could say no more. The multiple problems of Government that are perplexing the greatest minds in the world cannot be properly discussed in a political announcement, nor can they be solved in a political campaign.

However, if there are some who desire an expression of my views on National subjects, I invite and welcome your inquiry, personally and otherwise, and assure you a courteous reply. Before the campaign is over, I hope in some manner to acquaint every interested person with these views.

So far as I am able to observe at this stage of the campaign every candidate in the race, regardless of the number of words used, is running on the same platform, which is "A sincere desire to render a public service to the greatest number of people." This being true, the only issue raised or that can be raised is THE PERSONAL ABILITY and the POWER of the individual candidate to PUT OVER the things he wants and "underlies" that is the only question for your consideration, and one you must answer if you expect a full measure of representation in your law-making body.

Whether I fill the requirements in meeting this issue is for your determination. If I am not qualified to be your champion in any forum and to stand man to man with any who oppose your interests, then I do not want to go to Congress. That is fair to you, and fair to me.

I am conducting my campaign my own way, and concede the same privilege to the other candidates. I have no controversy with any man, and do not propose to engage in cheap petty, local politics that might lead to one. To me, the Congress of the United States is a sacred institution, second only to the Flag and I expect to deport myself with a dignity worthy of the high office I seek.

With an abiding faith in the sincerity and the ability of our Democracy to choose for the best interest of all concerned, I humbly submit my candidacy for your deliberate and careful consideration. CLARK M. MULLICAN, Democratic Candidate for Congress

Mrs. Loue Weep of Rock, Ark. said "I weighed 120 pounds, coughed constantly, was not able to sleep, my sides ached and I felt so weak. I took Dr. T. H. Sosebbee's Golden Medical Discovery and gained strength quickly. Then my cough cleared up and I was able to sleep. I felt stronger and better in every way. My doctor says my blood is good. MOTHER'S DAY May 13

Backward, turn backward, O Time, in your flight Make me a child again, just for tonight! Mother, come back from the echoless shore, Take me again to your heart as of yore; Kiss from my forehead the furrows of care, Smooth the few silver threads out of my hair! Over my slumbers your loving watch keep— Rock me to sleep, mother—rock me to sleep!

A SHORT STORY, BUT WITH A LONG TAIL. Has become known as a Tornado Period. At this season of the year the Twister's Terrifying Threat often becomes a reality laying waste thousands and thousands of dollars worth of property and snuffing out many lives. Tornadoes are beyond the control of man, and the only defense is insurance to pay for the damage they cause. Almost every day the newspapers carry big headlines with reference to the latest disaster. No locality is exempt—yours may be next. Anywhere in this country—windstorms can and do destroy millions of dollars worth of property. Each year adds to the list of places which "could never have a destructive wind storm"—and did. Windstorm insurance rates are so low that it is not worth the risk to be without it. Let us tell you how little it costs to protect yourself from loss through damage done by wind to home, business property or wind destroys a by-play safe and INSURE.

**Junior Class Picnic.**  
Members of the Junior Class took last Friday afternoon for their half holiday. We left the High School about 1 o'clock and went to Scott's Crossing for a picnic. Swimming was the first mode of entertainment, then kodaking and roaming over the hills. Later a real baseball game took place. Some of you baseball fans should have seen it. Coach Richey was so enthusiastic over the game that when he caught the ball on first and put someone out he started to run to second, and he expressed the opinion that he thought he was doing pretty well for a fat man. Soon after the ball game, supper was spread under the shade of a large tree. And maybe you think we didn't eat? We had sandwiches, chicken, pickles, cakes and fruit galore, but we were just a "shade short on something to drink" as we had drunk all the ice water and didn't have any water to make lemonade as we had planned. Mothers of the class members who went along were: Mrs. Foote, Mrs. Sarah Roberts, Mrs. A. C. Orr and Mrs. Sam Chapman. Our sponsor, Miss Davis and Coach Bill Richey.

**Weiner Roast.**  
On Friday evening May 4th, the Christian Endeavor met at the First Presbyterian Church to launch off on a weiner roast. Seven boats were safely steered to a landing in Mr. Calvin Frierson's pasture west of here. When everyone has disembarked, many boisterous voices could be heard, which proved that something was in the making. Many interesting games were played for some time, when everybody's thoughts turned to something more serious. This was a thing which happened during one of the games and seemed very serious indeed. Therefore to settle the matter there was nothing that could be done to settle it other than Kangaroo Court. However, after many questions and hot arguments were made the verdicts were freed. Rather than to call any names, the matter must be dropped, and save embarrassment. After all of this excitement, everyone craved something nourishing. Each served himself, which was in the old Indian style, by roasting weiners and marshmallows. Of course the menu would not have been complete if there had not been buns, pickles, cookies and lemonade. As the chill of the evening had begun to fall the crew readily decided to sail for home. Only one of the boats had trouble in returning, but after a little repairing, reached its destination safely. The voyage was a very enjoyable one.

## MOTHER'S DAY—MAY 13

Mother's Day, which is the second Sunday of May, falls on May 13th this year and will be observed throughout the United States in response to the annual proclamation of the President.

The great events of this world are not revolutions, economic conferences or banking reforms, but babies—just babies.

The most important people in this world are not soldiers, or statesmen or bankers, but mothers who are called upon to bring into existence a new generation. So it is entirely fitting that a day be set aside for honoring mothers.

Miss Anna Jarvis, of Philadelphia, originated the idea of Mother's Day, which was observed in several cities in 1910, the custom being extended rapidly in the following years.

Congress in 1913 passed a resolution offered by Thomas J. Heflin (later Senator) recommending observance of the day by its members and by the executive departments at Washington. In 1914 Congress authorized the President to designate the second Sunday in May of each year as Mother's Day, the first proclamation under this authority being issued by President Wilson on May 9, 1914.

As is well known, the object of the day is to recall memories of the mothers who have passed to the beyond, and to pay special tributes of affection to those living. Strew flowers on the graves of the sainted mothers who have passed on, and don't forget the living mothers. If you are away from home make it a point to get home on Mother's Day, and pay a loving tribute of affection to her. If it is impossible to get home write her and send some token of love and affection. Let her know that you have not forgotten her.

The badge of the day is the white carnation, emblematic of the purity, beauty and fidelity of a mother's love. By some the red carnation is worn in honor of living mothers.

Few of us reflect as often as we should the debt of love and gratitude we owe to our mothers. By thoughts and acts of sincere affection on Mother's Day, we not only honor them, but also honor ourselves.

## THE MILK "CROP"

The importance of the dairy industry of the United States is interestingly set forth in comparisons made by James E. Boyle, professor of rural economy at Cornell University, which show that milk is by far the greatest farm product in value.

In value per capita of population the figures are as follows: Milk, \$25.23; corn, \$15.91; hogs, \$14.21; cotton, \$11.06; hay, \$10.39; poultry, \$10.09; and wheat, \$8.53.

Thus it will be seen that the dairy "crop" is nearly equal to the corn and cotton crop combined, and greater than those of corn and wheat combined.

The consumption of dairy products, including milk, butter, cheese and ice cream, is rapidly increasing, due to the education of the public to their food and health value.

Dairying, combined with hog and poultry raising, should be an important feature of every farmer's program.

## SPEED LIMITS NOT IMPORTANT

It has been rather well established that laws which arbitrarily fix speed limits for automobiles are little protection against accidents. The speed at which one may safely drive depends upon the road and traffic conditions involved.

A high executive of one of the leading automobile manufacturing companies, who has made a close study of speed in its relation to accidents, declares that 50 or even 60 miles an hour over good open roads in the country may be safer than 15 miles an hour for cutting corners in town.

The safe driver is not necessarily the slow driver, but one who uses common sense whether driving fast or slow. Careless driving while turning corners, passing pedestrians or other cars, crossing railroad tracks and maneuvering in congested traffic is the greatest menace to life and limb.

Sense, not speed, is the important factor in determining whether a driver is safe or unsafe.

Many friends have remained devoted to each other until debt did them part.

## IS THERE A RIVER STYX?

The ancients thought so. They believed that Charon, a boatman, operated his ferry boat, transporting the spirits of those whose interment was sufficiently munificent from one side of the River Styx to the other. Those not taken across were doomed to roam until the payment was made.

Beliefs and customs have changed much since then, but a fitting burial will always be a desired assurance. Our reputation for perfect service is your guarantee.

### Mother's Day!

A day set aside, we are told, to honor our mothers, whether living or dead. One day out of 365 days in the year. We are to pay homage, to do things for her on one day, so it seems, and she is to slave for us all of the other days. We have nothing against honoring our mothers on a certain day, but we think it is a capital crime that we have to be jolted into honoring her by an act of Congress. She takes our rebuffs, day after day, with more time than anyone else would, with a smile upon her lips, but with an ache in her heart. No matter the generation, her opinions are mostly considered old-fashioned, but her deeds for us are taken with a mechanical "thanks" if they are even mentioned. To the younger people, she sometimes appears as a hindrance, preventing a "living of their own lives," but when trouble files into our lives we run like whipped pups to her and are comforted, even though we have sinned. In looking about for an expression of a Supreme Being, most of us have only to glance towards the one who faced death bravely for us, to find a real one. A lot of us treat our mothers in exactly the same manner we treat our God, and it is beyond our comprehension how God and our mothers can forgive us of so many slights. God is supposed to forgive and forget our transgressions, and many of us no more than ask Him to forgive one sin until we are committing another. Mother is "mother" and "will understand." Perhaps, but she is also human. She is a woman that appreciates praise, and EVERY DAY, not merely one day out of the year. While our mothers are living, we strut around, wear a red flower, give her a present of some sort and consider our "duty" done for another year. Mother should be proud of us for remembering her!

After she is gone, we wear a white flower and then can remember vividly the many things we could have done for her to make her life sweeter and to show that we loved her as we loved no other human being, but it is too late, unless she can penetrate the veil of death and read our thoughts. The thing every one of us can do is to have 365 days in the year for our mother if she is living, and if she has passed on, we can treat where there is no pain, we can treat the mothers of others as we wished we had treated ours. Instead of merely signifying that Sunday, May 13 is Mother's Day by wearing a flower and giving our mothers a present, we should be on our knees praying that she forgive us, but as is the way of mothers, she probably would already have forgiven us.

If you really want to make your mother feel happy, if she is living, you can do one thing Sunday that will probably please her more than anything else—go to church. There are but a few mothers in the world who would appreciate anything more than such an act. You may belong to no church, believe in no certain creed, but you will be the gainer by attending some church Sunday. Every church in Haskell, every church in the land, should be packed Sunday morning, at least. We would like to see people going early in order to "get a seat," as they do to places of amusement. If you are now a church member, and attend service regularly, you should make it your duty to invite others to share such a good thing with you. By going to church Sunday you will be presenting your mother with a joy, with a gift, that can come from no other source, and by all means you must not go expecting to be "inspired" by the brilliance of the minister, because he is not the one to inspire you. True religion and love will be the inspiration. You'll receive out of the service just as much as you put into it.

Yes, there should be 365 days for mother, of love, respect, obedience, from her children.

While listening to the radio the other morning, our gorge (whatever that is) rose when we heard a certain announcer for a mail order house advise sellers of hides to ship their best hides to that company and keep their poor ones for the local dealer, because it cost as much to ship poor hides as good ones. The announcer claimed that the company paid higher prices for good hides. Sure, take the cream—or the good hides. Pay a few cents more than the local dealer. Sounds good, but we're afraid it works the same as on automobile casings. The mail order house may sell casings cheaper, but it is the local dealer that furnishes free air for the tires and water for the radiator. We'll continue buying our casings where we make REAL savings. That keeps the money in Haskell.

Look At the Evidence  
Magistrate—So your only defense is that you were drunk when you kissed this lady. How can you prove that?  
Defendant—Well, just take a good look at her yourself, Judge.

He—I had a funny dream last night. I dreamed I was in South Africa. Diamonds were lying about me everywhere.  
She—Did you see any as small as the one in the engagement ring you gave me?

## Crime Responsibility Is Placed on Citizens

CHICAGO. — Crime seriously threatens to overwhelm the nation, Mr. Earl W. Evans, president of the American Bar Association, said in an address recently.

"Responsibility, whether we realize it or not, rests on every individual citizen," he said. "Our greatest present need is to arouse the people. They can get the kind of law enforcement they want." Quoting the late Chief Justice W. H. Taft, Mr. Evans called the administration of the country's criminal laws a "disgrace to civilization." Crime exacts an appalling yearly toll—some \$12,000,000,000 in money, he said.

"The American Law Institute has produced a model criminal code of great value, but most of the state legislatures have not adopted it," he said. "A number of acts—some on machine guns, another to secure attendance of witnesses at criminal trials—have been recommended by the commissioners on uniform state laws."

## Have You Seen the Frigidaire '34?

End your refrigeration worries the modern electrical way!

The safe preservation of foods, according to food chemists and medical authorities, require a temperature below 50 degrees . . . constantly maintained.

Modern Electrical Refrigeration assures this necessary low temperature . . . automatically. When the temperature in your Electric Refrigerator rises to 50 degrees, the freezing unit is automatically turned on . . . when it has been brought down to the correct level, the unit automatically switches off.

Moderate first cost and low operating expense are added considerations suggesting the immediate purchase of a new model Frigidaire.

The Frigidaire '34 operates quietly and with amazingly small amount of current, has automatic ice tray release, automatic defrosting and many other important features.

This is the "Electrical Age. A Frigidaire will be another step to your All-Electric Kitchen.

Your increased use of electric service is billed on a surprisingly low rate schedule and adds only a small amount to your total bill.

### of Snakes erent to Bites

INCISED—Bitten more times by poisonous snakes, M. Weidmann of San Antonio, Texas, was found out yesterday 30 minutes after the bite. He is immune to the bites of snakes. Mr. Weidmann had a career in 1904 when he was bitten by a snake.

He became interested in snakes and determined to see if he could be trained, he said. "I cannot whip a snake unless you are intelligent enough to understand why they are disciplined and therefore they treat them with kindness."

Weidmann was talking, he said, to a rattlesnake with several others. Suddenly angered, he raised his head to strike Weidmann. Calmly, like a parent, Weidmann picked up the angry snake, caressed it and immediately became immune.

to do that when one of the snakes said, "Mr. Weidmann, if I don't, the snake will realize he can dominate me."

# Far ahead OF LAST YEAR'S GREAT SALES RECORD

## THIS FAMOUS WINNING COMBINATION OF FEATURES

not found in any other low-priced car

**CHEVROLET** It was a great record of leadership that Chevrolet made in 1933! *It's an even greater, more impressive record that Chevrolet is making for 1934!*

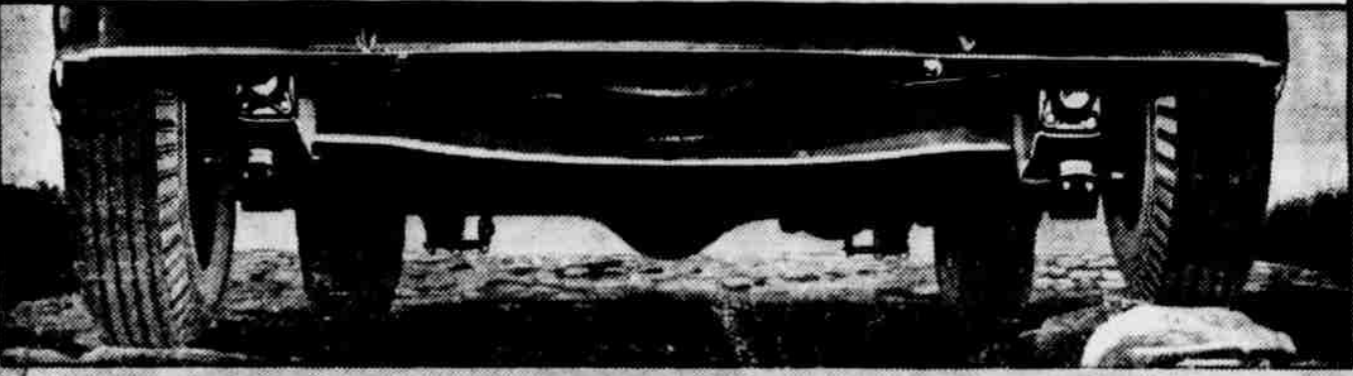

Already, sales are tens of thousands of cars ahead of last year. Production is running higher than that of any other automobile company in the world. And every day, from state after state, comes the same report on registrations: *Chevrolet is leading all other cars!*

The big reason for such preference is plainly shown at the right. Chevrolet has so many vital features that others in the low-price field have left out: Knee-Action wheels that are fully enclosed for complete safety and absolute dependability. A six-cylinder valve-in-head engine with an exclusive "Blue-Flame" head. Big, "cable-controlled" brakes, the best in the low-price field. Large, spacious bodies by Fisher, with Fisher No Draft Ventilation. And real "shock-proof" steering that brings new ease and comfort to driving. No other low-priced automobile has a single one of these five leading 1934 features. That's why no other can be backed by such a confident statement as this:

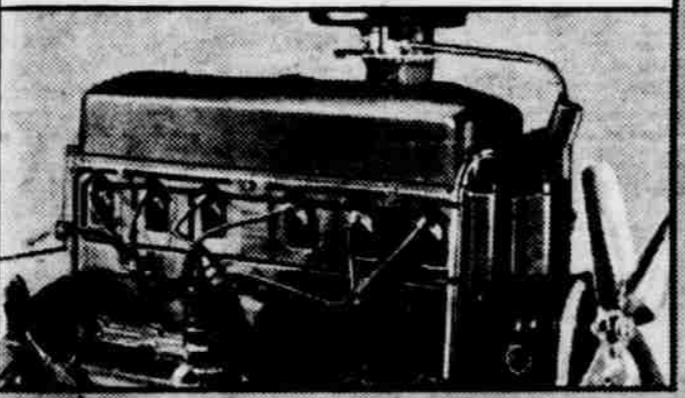

Drive it  
only 5 miles  
and you'll never
