ROCHESTER GIRL WINS FIRST PLACE IN BEAUTY CONTES

Miss Vernona Penman Will Represent Haskell at **Frontier** Centennial

Miss Vernona Penman of Rochester was selected as Haskell's representative to the Frontier Centennial in Fort Worth, in a beauty contest held at the Texas

Theatre Friday night, May 1st. Miss Beverly Gilbert and Miss Lillie Faye Stoker, both of Haskell, were awarded second and third places by the judges, and will be presented with appropritely engraved loving cups by the contest sponsors, the Cham-ber of Commerce, Haskell Free Press and Texas Theatre.

Selection of the winners was made by three out-of-town judges, Col. H. S. Cole of Dallas, Jess

Campbell, president of the Wichi-ta Falls Junior C. of C., and Cedric Harrison, newspaper publisher of Seymour.

Between fifty and sixty young women were entered in the contest, representing practically every tion of the county. In a series of preliminary contests, competi-Thos. E. Hayden, former mayo of Abilene and one of the Scout leaders of the Chisholm Trail area will be the principal speak-er of the evening with Ed Shumtion had narrowed to representa-tives from O'Brien, Rochester, Rule and Haskell.

In winning the coveted title of "Miss Haskell" Miss Penman will go to Fort Worth during the lat-ter party of May or early in June Scouts will give the history of Scout work in Haskell during the

by the Emergency Education de-partment, branch of the State Department of Education.

The program will be in the na-OLD AGE PENSION ture of classes in physical edu-cation, under direction of Mrs. Faye Thompson, who has recently taken an intensive course in outlining the program to be given here.

Decision to conduct the work in Haskell was reached following Administration Cost Will Be the visit here recently of Homer

L. Massey, Wichita Falls, district supervisor of adult education. Matt L. Graham, county super-intendent, is sponsoring the work in Haskell. During his visit here, Mr. Massey addressed a group of interested women, explaining the nature of the programs which are State taxpayers and old folks in being conducted in a number of the Texas plan for helping the surrounding towns. needy aged.

First classes under supervision of Mrs. Thompson will be held on of Mrs. Thompson will be held on Thursday May 14th. Opening class will begin at 7:30 a. m., in the First Presbyterian Church, fol-lowed by a second class at 9 a. m., and an evening class starting at 6:30 p. m. which will be held in the First Methodist Church. S. Carpenter said.

All women over 16 are eligible to enroll for the classes. No personal expense will be incurred. This phase of adult education is planned as the start of an extensive program, sponsors state.

**BOY SCOUTS WILL** SPECIAL PROGRAM

Service Will Be Held At The Faculty of Haskell **First Christian Church** Sunday Night

## A special service honors the mothers of the Boy Scouts of this section will be held at the First Christian Church, Sunday even-ing at 8 o'clock. At the regular meeting the Board of Trustees Tuesday night, entire faculty of the Haskell Pub-lic Schools was re-elected for the 1936-37 school term.

Trustees expressed themselves as highly pleased with the man-ner in which the current term has progressed, although handicapped first by the Grammar School building program which necessi-tated transfer of a large number of students to the old East Ward, and later by the disastrous fire which destroyed the High School which destroyed the High School

cussed at a meeting of officers and several members of the Haskell County Young Democrats Club Wednesday morning.

# THE OFFICE

### of State Superintendent of Public Instruction

is a most important public trust. The educational destinies of one and onehalf million public school children are in the hands of the State Superintendent. Education today is at the crossroads and the present program will largely determine the next generation's ability to solve its problems,

The future of the institutions of higher learning is affected by his vision. Adult education, which is becoming more and more a responsibility of the public schools, places added nsibilities on the office. All this demands a State Superintendent of sterling qualities and outstanding professional ability.

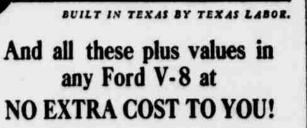

**DELIVERED PRICE** 

TWO things above all are worth looking at carefully before you choose your new car. One is the real dollar value and motoring satisfaction you are going to get for your money. The other is the price of the car delivered and in your garage ready to drive. Here you see the low delivered price of a new Ford V-8. If you will drive this 1936 Ford car, you will also see at once how much greater value it gives you than even Ford has ever offered before. In performance, safety, comfort, and beauty, it is by far the finest Ford car ever built.

PERFORMANCE WITH ECONOMY

Terms as low as \$25 a month, after down payment, under new UCC 1/2 per cent a month plans.

· Safety glass all around, and a windshield that opens.

6.00 x 16-inch Air-Balloon Tires.

Free Action on all 4 wheels.

 85 horsepower V-type 8-cylinder engine with dual down-draft carburetion.

· Silent helical gears for all speeds, including low and reverse.

· Super-Safety brakes with more braking surface per pound of car weight than any other car under \$3195. Centerpoise Ride-passengers cradled between springs on Ford's 123" springbase, almost a foot longer than wheelbase.

# L. A. WOODS, THE MAN

As rural school teacher, high school teacher, high school principal, county superintendent, and State Superintendent of Public Instruction, Mr. Woods has with credit and distinction. He holds the degrees of Bachelor of Arts, Master of Arts, st tor of Laws from Baylor University. Mr. Woods is an untiring worker. He has gives ingly of his time for the social, religious, and educational betterment of the comm

# HIS RECORD

Mr. Woods asks to be returned to office because he has fulfilled all of his original promises and because he believes that his experience qualifies him to render a greater to the schools of Texas. The campaign promises he made before and which he has fulfilled as follows:

- Kept promise not to reduce per capita apportionment. Kept promise to equalize educational opportunities. Kept promise to close chasm between urban and rural schools. Kept promise to emphasize vocational training. Kept promise to provide more supervision and less inspection. Kept promise to administer school affairs with economy and provide a more practical course of study. provide more school for the money.

Mr. Woods has not only fulfilled his campaign pledges but thre worthwhile achievements have been realized. Among these are the f

- 1. A deficit of more than twelve and one-half million dollars has been the school apportionment put on a cash basis. Mir. Woods has b mental in securing a per capita apportionment of \$17.50, the maxim ted by the statutes, though at the same time the state school ad v was lowered from thirty-five cents to twenty cents on the \$100 value Mr. Woods has been
- Under the present plan of distribution. State Ald is being at economically as under the former plan and with a great deal is the cost of distribution being 1.7%.
- 3. The length of school term has been increased by ten days. Equalisatividing eight months for rural elementary children and transporting a 30.000 rural high school students to accredited schools by county-wide systems of transportation with economy and efficiency.
- 4. Taking advantage of the provisions of the Federal Emergency Relief Woods established a Federal Emergency Relief Adult Education thereby giving employment to many unemployed teachers and effert tional advantages to thousands of adults.
- 5. Economy in handling textbooks has been practiced in such a year has been saved to the taxpayers.
- Teaching standards have been raised by special training of teachers i specific work through co-operation of teacher-training institutions.
- 7. A state-wide program of public school music has been formulated and operation.
- Texas' greatest humanitarian Program has been provided by the particular Crippled Children's Act and through expansion of Vocational Rehability
- The School Plant Division has been established as an integral part of Department of Education to assist school officials in working out the
- An efficient system of child and financial accounting, reports of children and money, has been installed the

#### REMEMBER MOTHER SUNDAY

America's annual tribute to motherhood will be paid Sunday in every city, village and hamlet churches will give over part of their services to Mother's Day programs. Mother's Day has been observed nationally only a score of years, but the iden was first suggested in 1910 by Miss Anna Jarof Philadelphia, and the custom took quick hold, the President being authorized in 1919 to proclaim the second Sunday of May annually as a day at apart for the nation to honor motherhood. The inject, as is well known, is to honor the memory I mothers who have passed on to their last rewards, but now the living share honors with the dead in the nation's tribute to mothers. A white carnation signifies that the wearer's mother is dead while pink contations are worn by those who are fortunate enough to still have their mothers with them There is nothing in this life more beautiful than the devotion of a mother to her child and few of us reflect as often as we should upon the debt of love and gratitude we owe our mothers, living and dead, for the sacrifices they made to give us pleasure and happiness which they possibly were denied in their youth. By thoughts and acts of affection on Mother's Day and other days as well. we honor our mothers and do credit to ourselves. your mother happens to be living, make this Mother's Day the occasion to rededicate yourself to the task of making her remaining days as pleasant and happy as it is within your power to do. and after she has gone your reward will be happy memories of bond of affection that held you close during her lifetime. Like many other things life the invaluable treasure of a mother's great love is never fully appreciated until death has intervened to make us appreciate our great loss.

#### WHAT ABOUT COLLEGE?

Schools will soon begin to close and a number of young people will go into the business of making Too many will stop their scholastic training at the end of high school days without realizing the tremendous advantage that will come to them by pursuing their way through college.

The Haskell Free Press does not recommend a college course for every boy and girl. There was me when people thought this was a good idea, undountedly, there are some boys and girls who will not take advantage of the educational opactualities that can be obtained. These might as all go to work, whether they are the sons or manters of tuch or poor parents.

At the same time, let us urge all students who ill complete their high school courses this summer, to give serious thought to the possibility of attending college. The right institution, and the right percount application, will make a difference in life.

#### MEN OF HONOR

Myriad formulas have been offered to insure rmatient national recovery, but now comes a lew York dergyman with a solution that seems to sive been overlooked. The key to the "more abunthant life" is just this, says the Rev. Minot Simons of New York City-a return to men of honor. For out Mr. Simons, there has been an underside of the world's life where standards of honor seem to have disappeared. Now it is clear, he contends, that honor, the basic virtue of dependability and progress, must be restored among men and nations if civilization is to go onward and upward. If honor goes, everything goes with it-business, character, social relationships, civilization itself. In a word, man holds the baton over his own destiny When he takes to the double-cross, he winds up by double crossing himself.

#### CURRENT COMMENT TEXAS RESOURCES (Semi-Weekly Farm News)

One of the most interesting exhibits now being gathered for the Texas Centennial Exposition is that which will show the diversity and abundance of Texas natural resources. The Bureau of Economic Geology of the University of Texas, the State School of Mines, which is also a branch of the University and other institutions are co-operating in gathering exhibits. A number of the leading industries-cement, sulphur, lumber, gypsum, alkali, petroleum, clay products will have interesting displays. The railroads are co-operating in gathering ander, 3 years of age, was miss- Fork has been awarded to the and shipping the materials to Dallas. It is the purpose of the Natural Resources

#### POLITICS IN CRIME

Consider your plight as the average American citizen. There are 300,000 people now living who will be murdered. You may be one of them. There are 150,000 actual murderers roaming at large. One or more of these may be shadowing your personal alety. And finally, you are inadequately protected under the law, even if "justice" is dispensed because the average murderer serves only four years relision. These are the startling statistics of J. Ed-nor Hoover, head of the Bureau of Investigation of Department of Justice. The figures are so threatening, he says, because America's law entrangled by the blood-caked hand of crime-affiliated politics." Think it over.

#### VICTORY\_FOR WHAT?

Premier Mussolini considers now that his Ethiopian campaign is practically complete. The major cities have tallen and Addis Ababa is all but taken. But is victory really established" That is the question the best military observers still ponder. Guerrilla warfare may go on indefinitely, they point out, and even if final capitulation is forced on Halle Selassie, complete victory may still be far from realization. Ethiopia has very little land suitable for extensive cultivation. Italy has owned Eritrea for 40 years and its colonization there has been negligible. Is it logical to assume now that Italy's 400,000 overflow population can find an outlet in this barren, torrid country? Il Duce may find the whole affair a ghastly mistake.

#### ATTACK ON UNEMPLOYMENT

The importance of chemistry in the current war on unemployment becomes daily more evident. Its contribution in the form of new products, which in turn mean new jobs, cannot be overestimated. Take, for instance, the latest development- a synthetic fiber, one-third thinner than the finest natural silk. A ball of this gossamer textile weighing only one pound, would, if unrolled, stretch across the United States. A similar ball of older type rayon would stretch only 1000 miles. Now consider what this new discovery may do for society. The manufacturer of rayon gave employment to 60,000 people who, in one year, received \$60,000,000 in wages. In oddition, almost \$60,000,000 was spent on raw and other materials for the textile. One might name many more products developed in the last 10 years that produced similar results. Here is a promising advance in the war against unemployment. In this battle, the laboratory is our first line of attack.

Things must have been awfully peaceful back in colonial times when all the people had to worry about was the Indians.

tent can long endure that fails to make it possible for its youth to earn a living."

John P. Quinn, organizer Socialist Labor Party: The working class has nothing to gain by putting off the revolution.

J. Edgar Hoover, Federal sleuth: "The political alliance with crime exists in State after State, municipality after municipality."

### WISE AND OTHERWISE

Why? But if moderns scorn old-fashioned things, why do they stick to the same old-fashioned sins?-Buf-

falo Evening News,

munists take control of the country-if only to see vate it and how? How far should prayer and its usefulness, Jesus how they'd divide up the eleven billion dollar de-ficit.-Judge. we depend upon it in ordinary and spoke various parables, two of which constitute our lesson. In ficit .-- Judge.

#### Encouraging

There's nothing basically wrong in a country where the outs can raise a million dollars to prove there has been no recovery .-- Portland Oregonian.

#### At Least

A good quarrel in the home may clear the air once in a while. At least the husband is very polite to the wife for a long time afterward.-The Rochester Times-Union.

Only Norge with its rich background of experience, and its tireless search for per-fection could have built the new 1936 Rollator Refrigerator - the greatest Norge of all time.

NEW BEAUTY-Norge leadership in design is evidenced by a widespread trend toward Norge styling throughout the industry. Always the smartest looking refrigerator, Norge again expresses beauty that breathes the spirit of tomorrow.

NORGE CONVENIENCE-The Norge has no trick gadgets to catch your fancy-things more to be talked about than used. You will find the Norge highly practical, because over 100,000 housewives were consulted on its interior arrangement. The result is amazing convenience, flexibility that increases storage capacity.

ECONOMY-The Norge is economical because its Rollator Compressor makes more cold with less current. And it gives greater economy for more years because of its mechanism-practically service free-almost everlasting. The Norge also provides economies because of its perfect protection of foods, and its capacity to store large quantities of bargain purchases.

SANITATION AND HEALTH-Proper refrig-eration is insurance against health hazards caused by bacteris, mold and yeast formstion. The gleaming white all porcelain interior of the Norge has no crevices where dirt can hide. All edges are rolled, easy to clean and keep clean.

MATCHED UNIT KITCHERS-The Norge Rollator Refrigerator and Norge Concentrator Gas Range are identical in style motif. They may be had in all white or matched color ensembles - and both on one easypayment contract.

See the 1936 Norge before you buy any refrigerator or gas range NORGE DIVISION Bors Warner Corp., Detroit, Mich.

Painfully Bruised

A Farmer's Conception Of That Guy

He meets us with a cheer smile, And stops to chew the rag awhile; Or if we're busy he will wait A half a day to learn his fate. That guy Smitty!

We tell him that his prices are-Too high above the present par; We rant and rave and rage and roar But still that bird he don't get sore. That guy Smitty!

He shows us how Old Farmer Cobb Saved ten bucks on an overhaul job. And makes us feel there still is hope By passing out a five cent smoke— That guy Smitty!

He tells us now that all in all We are going to have a busy Fall. He says "Yes sir, good times are near!" We answer with a mocking sneer. That guy Smitty!

He tries so very hard to please, We ought to make him feel at ease. It sems a shame to raise a fuss With such an optimistic cuss. That guy Smitty!

When time are bad he seems a pest Who seeks to get beneath our vest And shake us from our hard-earned pelf For dough to decorate his shelf, That guy Smitty!

Yet all in all he's not so bad: With all his faults he is a lad We'd miss a lot were he no more, To open up his parts house door! That guy Smitty!

Friday Afternoon. from 3 to 5 o'clock. we will sell Sunny Sue

dresses for only-

85c

Choose your size and color while they last. Only one dres to the customer.

we will sell length 3 1-2 yards di ing for only-77c Only one dress to the customer. yours white it lasts.
