Appear In Connection With Central West Texas Fair Here In October

According to the racing committee of the Central West Texas Fair, the dates on which Haskell will be held next summer, June 27, 28, 29 and 30, were selected after the committee had consulted with racetracks in Amarillo and Brady. The fair will hold the Tri-State meet previous to the Haskell event and Brady's July meet will come immediately after. The Central West Texas Association is an outgrowth of the Central County Fair.

The committee has also stated that fall racing meets will be held on October 15 to 20 in connection with the sectionals also to be held on those dates. Haskell's race meets considered good last fall, and the best in the state play smaller circuits, the committee is planning extensions, which will make the races the outstanding attraction in West Texas. The program, which has been tentatively arranged, is subject to change if conditions warrant. The purses were larger last year in those offered anywhere else for a similar period.

The new racing features slated for the Haskell meet this past season at Arlington, and which offers rich purses to those able to pick the winners in the second and third each day's program. According to those in charge, continued on Page Eight.

#### VALLEY BASEBALL WILL HAVE EIGHT CLUBS THIS YEAR

Aspermont-Knox City New Members Chosen; Bender Is New League Prexy

Whether the weather had something to do with the lack of announcements from political candidates, or whether for some other good and sufficient reason, the fact remains that only three persons signified their intention to become candidates during the past week, the lowest since the political situation began erupting.

Miss Minnie Ellis, who needs no introduction to the people of Haskell county, states that she will make the race for the office of county superintendent. She will ask for reelection upon her record and will have a statement later, detailing the accomplishments made by the office under her direction.

Houston E. Stevens, now connected with the Howard school, formally announces his candidacy also for the office of County Superintendent. Mr. Stevens will also state his plans for the operation of this office later.

Buster Cox, farmer, has entered the race of Commissioner of Precinct 3, and his statement will be found elsewhere in this issue. He is opposing P. G. Kendrick, present commissioner.

As soon as the roads become passable, and the weather becomes warmer, perhaps others will enter the various races and cause the contents of the pot to become much more stirred up.

#### CLUB WOMEN MAKE SAVING OF OVER \$18,000 IN YEAR

County H-D Club Members "Live-At-Home" Program Makes Great Record

#### WORK DIVERSIFIED

Canning Only Part of Work Which Haskell County Women Undertake

Final tabulation on results obtained by various Haskell home demonstration clubs in a "live-at-home" program in 1933 shows a money saving of \$18,711.75 in the canning of vegetables, curing of meats, cheese making and a great amount of home work in the making of clothing, hook mats, rugs and mattresses. Reports were received from approximately 75 percent of the 337 club members in the county. The work done by the clubs in the county in the year 1933 was under the joint direction of Mrs. Eileen Partlow Wilson and Miss Johnnie Reed. Miss Reed became home demonstration agent during the latter part of the year.

In checking the records which were compiled by the various club reporters, it is shown that the members believed in a diversified program. They canned 34,735 quarts of vegetables, for a money value of \$11,500.00; dried various vegetables, money value \$275.00; cured meat, \$6,300.00; made 650 pounds of cheese \$131.00; stored 825 pounds of nuts, \$165.00; designed 60 hook mats and rugs, \$120.00; made 89 foundation patterns, \$131.00; and 35 mattresses, \$26.25; built anew, or reorganized, 70 clothes closets; completed 17 bedrooms.

Although a friendly type of rivalry has been instilled among clubs, cooperation has been the keynote in all transactions between a club member and home demonstration agent, which has permitted the enrollment of 62 new women members and 63 new girl members during the past year. Many individual records were created.

The Haskell county bankers are preparing now for the luncheon which will be given and a tentative program arranged by E. O. Jamison, of Knox City, who is president of the association. This county's bankers have issued invitations to all banks to bring their entire force and make the day profitable.

That the meeting is strictly business-like, can be attested from the type of subjects to be discussed on the program, one banker points out. Haskell banks will be closed Friday, in order that both bank forces may attend to matters of the association's meeting.

### Heart Disease Is Public Enemy No. 1

Austin, Texas, Feb. 21.—Public Enemy Number One is Heart Disease, according to Dr. John W. Brown, State Health Officer. This disease kills over 7200 people each year in Texas and the worst part of this is that the number is increasing each year.

While it must be admitted that the deaths attributed to heart ailments are increasing, the fact remains that when a person complains of his heart, organic disease infrequently exists. Organic heart disease causes shortness of breath, swelling of hands and feet and a cough. Usually these signs do not convey to the patient's mind even the suggestion that he has heart disease.

So-called functional heart disease is usually traced to these sources, namely, nervousness, infections from another part of the body such as teeth or tonsils, to a disturbed function of the thyroid gland, to influenza and so on; and to the effects of the excessive use of tobacco, coffee or tea.

In cases where there is a disturbed heart action due to focal infection the source of which is located, the infective cause when possible is removed, as in the case of diseased tonsils and teeth. The heart, possessing remarkable recuperative ability, once the poisoning agent is definitely eliminated, in time becomes normal once again.

Good professional advice and a strict heeding of it are the only things to worry about either in

# MOVIES

functional or organic heart disease. It is a well established fact that the great number of those who know they have a heart condition usually die from some other cause.

### PREHISTORIC IDOL JUST A MOVIE PROP

A certain spot in Hawaii is going to puzzle archaeologists of the future, according to a letter received from a territorial forester on that island, by Cecil DeMille.

While filming "Four Frightened People," his latest Paramount picture, which comes to the Texas Theatre Saturday at 11 p. m. and Sunday matinee, DeMille built a 40-foot Malaysian idol and left it standing there when he was through with it. According to the letter jungle foliage has sprouted over that idol, and a year from now it will look as though it had been built by some prehistoric race.

Claudette Colbert, Herbert Marshall, Mary Boland and William Gargan are featured in this latest DeMille production.

### AUTHOR AND DIRECTOR OF "NIGHT FLIGHT" ARE BOTH EXPERT FLIERS

"Night Flight" M-G-M picture which comes to the Texas Theatre Tuesday and Wednesday, is a picture about the air mail.

It is fitting that in its making there should have been associated plenty of expert fliers.

The author, Antoine de Saint-Exupery, was an actual pilot on the very air line he writes about. The director, Clarence Brown, is the most experienced flier in film ranks. He holds a transport license and has thousands of hours to his credit. Clark Gable, who plays the vivid role of Fabian, a pilot lost in a fog, learned to fly in Dallas, Texas. Robert Montgomery, a pilot on the difficult trans-mountain route, is also a pilot. John Barrymore, stern manager of the air line, has been flying as a passenger regularly since 1912. Two electricians of the company are pilots. The head cameraman, Oliver Marsh, was a pilot-photographer during the war.

Other players in this production include Helen Hayes, Lionel Bar-

rymore, Myrna Loy, William Gargan, C. Henry Gordon and Leslie Fenton. Oliver H. P. Garrett adapted the book.

### "THE WORLD CHANGES" MAY WELL BE CALLED EPIC DRAMA OF U. S.

What exactly is a screen epic? The term has been used for such outstanding films as "The Birth of a Nation," "The Covered Wagon," "Cimarron," "Silver Dollar."

If it means a picture which relates the history of a hero, a family or a group in sweeping narrative style, with accuracy of detail and vigor of situation, then all advance reports must lead us to expect a true screen epic next Sunday and Monday at the Texas Theatre. That is the time and the place set for the first showing here of the new Warner Bros. First National special production, "The World Changes," starring Paul Muni, he of "I Am a Fugitive from a Chain Gang" fame.

According to advance reports, "The World Changes" covers a span of some seventy-five years in the history and development of America. Between its opening and its close the crisis and the triumphs of our national life figure as background for the saga of an American family.

In addition to Muni and Miss MacMahon, there is an unusually large and talented cast, which includes Mary Astor, Donald Cook, Patricia Ellis, Margaret Lindsay, Jean Muir, Mary Kibbee and a score of others.

## Rochester

Just as we thought winter had gone, here comes zero weather. Surely does hurt after so many spring days. Maybe the fruit will be saved. Do hope so, as we have not had a good peach crop here in several years. Our pretty green shrubs are not so great today as they were Saturday. ## EVILS OF THE MOVIES

1. The movie is largely responsible for the return of alcoholic drinks. All during the period of national prohibition the movies were trying to popularize drink. It has been almost impossible to see a show that did not have some kind of a drinking party in it. Both men and women, shamefully dressed, sat around the tables while the butlers served strong drinks. The impression has been made over and over that everybody is drinking. You will remember that the power of suggestion has a strong influence upon the life of every person. The movie is the strongest advertisement that the breweries have ever had. Will you vote for the movies to also use the holy Sabbath to advertise for the saloon interests?
2. The movies have made thousands of cigarette smokers among our girls. It makes no difference how well the actress may be dressed or how cultured she seems to be, about the first thing she does is to flip out a cigarette with the style of an artist and begins puffing smoke. I am aware of the fact that there should be just one standard, but, at the same time, it belittles a girl in the estimation of any man to see her sucking on a cigarette. Will you vote for this institution to use the Sabbath also to lower the moral standard of our girls?
3. The movies are responsible for the great increase in crime during recent years. Crime of every character is seen daily in thousands of shows. Every conceivable plot that can be used in committing crime is kept before the youth of our land. You must remember that the things we see will remain in our minds and the thoughts we have today will be seen in our acts tomorrow. Our thoughts to-day build a road on which the train will run tomorrow. You cannot dodge this truth, "As a man thinketh in his heart so is he." The little boy that buckles on the clothing of a desperado and wears two toy guns and thinks about killing some one for ten years will get his man. Will you vote for an institution to operate even on the Sabbath day that keeps the thought of crime in the minds of our youth?
4. The movies have destroyed that thing the people used to call modesty. Take the big poster in our city last week for example. A nude woman lying in the arms of a man while he was lusting over her person. This was the show for last Sunday night. No larger number of naked women were ever seen on the screen in one show than were seen last Sunday. Modesty will not reside where such is going on. When a girl loses the power to blush, she has lost something more precious than gold. Physicians tell us that the movie is doing more to make prostitutes than all other agents combined.

Will the Lord's people give the Lord's day to the movies to carry on this work of destruction? A vote against the movie is a vote for Jesus.

7:30 P. M.—Sermon. Subject: "The Axe, The Tree, The Fruit—Its Voice." What type of tree are you? Do you think you can abide in the Vine, bearing no good fruit? Say, what about making a test of the fruit of your life? Some good, some bad, remember. In making the test, turn on the unfailing light—the Bible.

One's religion is subject to departure by the slow method as well as the blow-out method. Remember there are two methods—Slow Leak Method, Blow-Out Method. Watch, pray and obey.

Monday, 3 P. M.—Ladies Bible Class.  
Tuesday, 7:30 P. M.—Community Singing.

We are always out by eight o'clock.

**PRESBYTERIAN CHURCH**  
"Be ye doers of the Word" will be the subject of the sermon at 11 a. m. Sunday. A church-wide hearing of this exhortation would produce a revival. And this is what we want to occur before our season of evangelistic services Easter week.

Sunday evening we will study the last three books of the Old Testament in our Through the Bible Reading Course. We will not start the study of the New Testament until some months later. So there will be preaching services on Sunday nights as well as Sunday mornings on first and third Sundays.

Next Sunday is the day set for the members to bring in their church pledges for the next year. It is hoped that every member will respond and not wait to be solicited. A cordial welcome awaits all at all of our services.

Funeral services were held at May, Brown county, Texas, Tuesday Feb. 20th.

**Church Supper.**  
The Church Supper Wednesday night at the Presbyterian Church was attended by about eighty people.

ple, which was considered good for a cold night.

Mrs. R. L. Hainey's talk on "Building Wisely" was gratefully received. All were pleased with the musical numbers rendered by Mary Lena Tubbs, T. T. Tucker, and Mrs. O. E. Patterson. The humorous reminiscences of Mr. R. E. Sherrill brought many hearty laughs.

There were many expressions of appreciation for the preparation and serving of the supper. The ladies were especially grateful to Mrs. Reynolds Wilson for her method of preparing most of the meal in the church kitchen, which saved them much work.

We should have a "kitchen shower" soon to replenish the equipment so we will not have to borrow dishes each time we serve.

The Session favors the suggestion made by the Synod's Committee on Evangelism that each church conduct a pre-Easter meeting with the pastor leading the members in an evangelistic effort. Since there will not be the attraction of a visiting preacher, we all will have to do our best in reviving indifferent church members and in stimulating interest in non-church people. Let us begin now by starting a prayer list and inviting them to the regular services.

**Junior Bible School Class.**  
On February 21st the Junior Bible School Class of the Church of Christ entertained Mrs. Richard Josselet (nee Miss Hope Campbell) with a shower in the home of Miss

**Manly-McCollum Marriage**  
was solemnized.

Wednesday morning February 28 at ten o'clock, in the presence of relatives and a few friends, Lewis Manly, daughter of Mr. and Mrs. James Lewis Manly of El Paso, Texas, and Mr. John L. McCollum of Washington, D. C., took wedding vows in the First Baptist Church, Abilene, Texas, with Rev. G. Robt. Forrester of First Baptist Church, Coleman, Texas, officiating. The very impressive ring ceremony, palms, ferns, and baskets of Colia lilies made a very lovely setting for the wedding.

The bride wore an original model, navy blue, sheer wool suit, galaxy trimmed, with harmonizing accessories. She carried an arm bouquet of Colia lilies.

Mrs. Hill Corbell, sister of the bride, was her only attendant. She wore a powder blue suit with white accessories and carried an arm bouquet of Talsman roses. Mrs. Hollis, aunt of the bride, gave the program music for the procession and Mendelssohn's wedding march as recessional. Immediately after the ceremony Mr. and Mrs. McCollum left by auto for a honeymoon trip via southern route to Washington, D. C. They will be at 73 W. street, N. W., Washington, after March 10th.

Those attending the wedding from Haskell were Mr. and Mrs. N. I. McCollum, Mr. and Mrs. Courtney Kennedy, Washington, D. C., Lynn Pace, Mrs. P. M. Baldwin, Mrs. W. N. Huckabee, Misses Le and Marguerite McCollum, Lee Huckabee, Ruth Milstead, Helen Hunt, Marvina Post, Helen Baldwin.

**Wed in Rochester Home.**

Mr. and Mrs. Tom Reeder Smith have returned from a honeymoon trip to points in South Texas and are at home in Knox City. The marriage of the couple was celebrated in Rochester last Monday in an afternoon ceremony in the home of the bride's parents, Mr. and Mrs. L. M. Kay. Beauty-baskets of snapdragons and sweet peas flanked an altar of southern smilax, while cut flowers were lavishly used in all rooms.

Mrs. James Yancey, matron of honor; Miss Maxine Bragg, honor maid; and Miss Elizabeth Kinnard, Wichita Falls, bridesmaid, were attendants for the bride, who is the former Miss Frances Kay. E. Hob Smith served as best man for his

brother, and Truett Alvis, James Yancey, and J. C. Vaughter were ushers. Lloyd Leslie Davis of Knox City was ring bearer.

The bride, who was given in marriage by her brother, Charles Kay, wore a princess gown of flesh satin and flesh tulle veil caught with orange blossoms and carried a shower bouquet of briardiff roses and lilies of the valley. Her traveling dress was of brown sheer wool with floral trim.

The bride's attendants wore floor-length dresses of crepe in pastel shades and carried arm bouquets of roses and sweet peas. Mrs. E. G. Warren of Knox City played a medley of love songs and for the professional gave the Lohengrin wedding music. She was also accompanied for the bride's sister, Miss Marjorie Sue Kay, who gave as a violin solo, "At Dawning" and for Mrs. Bob Speck who sang "Oh, Promise Me."

**Harmony Club Has Open House Party.**

The loveliest affair of the club year was the Open House party held in the club rooms Thursday Feb. 21. The receiving line consisted of the present and past presidents: Mrs. J. T. Ellis, Mrs. C. L. Lewis, Mrs. Leo Southern, Mrs. T. C. Cahill, Mrs. D. Scott, also Mrs. Tommie Hawkins, chairman of study, and the ushers, Mrs. Carl Powers and Mrs. Carl Arbuckle.

The room was decorated to resemble a living room of long ago. Beautiful old white wicker chairs and tables were used to carry out the old fashioned theme. Yellow tapers in candelabras gave a soft lighting for the room, and showed to advantage the costumes of the colonial ladies present; these being members of the club. Lovely violets, lily and daffodils were attractively arranged on the pianos and table.

The program for the afternoon was as follows:

Chorus, "Carry Me Back to Old Virginia," by the club.  
Piano, "My Old Kentucky Home"—Mrs. Marvin Post.

### GOVERNMENT BY NEWSPAPERS

When a reader of the Chicago Daily News wrote to the editor asking why newspapers did not devote more space to improving local conditions and less to sports and bizarre stunts, the editor replied in expressing the ideal of the modern press with extraordinary clarity.

"Our correspondent," he wrote, "probably does not realize that in effect he is proposing government by newspapers. To assign to the press the motor powers of good government is to place the cart before the horse. Newspapers know that newspapers have no power to govern and should have none. . . . Newspapers should no more dictate to government than government should dictate to newspapers."

"Newspapermen as citizens, as public officials, or as members of political parties have, of course, the same rights and duties as have other citizens. But the proper function of the press is to discover and print the facts, to show how the facts affect the lives of citizens, to discuss and interpret the facts, and to encourage all movements for better government. That is the job of the newspapers. If they go further and attempt to become unofficial arms of government, they are likely to destroy their real usefulness to the people as a whole by becoming mouthpieces of accomplices of special groups and special interests."

"Now as never before must it be emphasized in this country that the people themselves are the only possible fountain head of better government."

### SKETCHES

By W. G. FORGY

Next Tuesday noon, the Haskell Service Club will hold a special program for F. G. Alexander, retired Haskell business man, who recently celebrated 50 years of residence in this section. The members of the club are to be congratulated in being of the type who can pause and pay tribute to one who has been very influential in the moulding of Haskell county. May the program next Tuesday be a good one and Mr. Alexander made to realize that we are all appreciative of the fine work he accomplished through those 50 years of residence in this county. The Haskell Service Club members have shown that they can look backward, when necessary, as well as forward.

All you can hear about the city election is that so-and-so has "heard" that some one else would run for mayor. To date we've heard the names of T. C. Cahill, Leo Southern, A. F. Thurman, Raleigh Lemmon, Emory Menefee, Hill Oates, Sam Roberts, Server Leon, Courtney Hunt, Hollis Atkinson and Bill Holden mentioned as good material. More, maybe, next week.

INK SPOTS—The rats in this office hide our paste brushes. What do your rats do? . . . The inventor of a "short-wave" radio must have been a Scotchman. . . . If there's anything that looks any colder and forbidding than an outdoor basketball court on a cold day, you'll have to name it. . . . How many times have you seen Bill Holden without a cigar? . . . According to a member of the racing committee the "daily-double" will be a new feature at the summer races. We hate to bet once and lose, let alone having a double shot of the same. . . . T. J. Arbuckle yelled "walterwinchell" at us recently when we were about one-half block away. It's a toss-up as to whether he was being sarcastic or complimentary, nevertheless we felt relieved when he didn't take a punch at us. . . . Shahir Hassen knows a lot of people we know in Sulphur, Okla., and not a single one of them drink from those 32 different mineral springs which has made that resort famous! . . . You may not know it, but Sulphur, Oklahoma, is a national park and ranks about third in attendance for national parks. . . . One local waitress admitted to a Haskell business man that traveling salesmen were nuisances. . . . The telephone operator who handled a long-distance call for us the other morning at six o'clock was wide-awake and business-like—and deserves a raise in salary (no matter what she is earning) for being so courteous. . . . Just think of it—and marvel at our weather! Saturday we saw several fairs wearing ankle socks, and on Monday a lot of others frankly admitted it was time for longies. . . . Wonder whatever became of the young man who studied the "five-foot shelf of books" and became famous, while the other fellow studied the sport page and got lots of sleep? We'll answer that one—they're both working for the government on the CWA. . . . Ask Joe Lee Ambrose Brooks. . . . Climbed the stairs to Walter Murchison's office several times Monday, but could never find him in. Anyway, we thought the fire was too high, so to keep pace with our Scotch blood, turned it down. Don't kick, Walter, if the gas bill is high. . . . Those fellows who wired the "boss" at Mineral Wells a collect telegram, telling him to come home, are advised to watch out for a "come-back" in more ways than one! . . . Yes, sir! We finally managed to beat Bert Welsh in paying for the coffee. . . . No statistics are available, nor do we care to compile any, but we venture to predict that Haskell business men consume their portion of coffee every day in the year. . . . They sho' like that brew. . . . We presume W. R. Townsend, our new candy manufacturer, will soon be called the Kandy Kid. . . .

According to national political experts, most of those congressmen who brought the soldier's bonus question to the fore again, did so merely to make the "boys" back home feel good and not because they thought the time ripe to pay. Whether the bonus should be paid now, or later, is a mooted question, but most of us agree that most of our "statesmen" are merely jobholders and bandwagon riders.

But it looks like the bonus question will put a lot of congressmen on the so-called "spot" so says the same political observers. Roosevelt is opposed to the payment now—and those for it will not be able to cry "support the President in this crisis by sending us back!"

Several persons thought it would be a good joke to turn in a fire alarm Monday night when all the firemen were having their banquet, but no one seemed to have the necessary spunk on account of the fact that an arrest might be in the offing. Yep, we thought of it, but that jail looks too dog-gone chilly. . . . Wonder why radio orchestras haven't played "Yes, We Have No Bananas" They seemed to have dug up every other song we ever heard. Funny thing, but we liked that song!

According to late accounts, Sammy West, centerfielder de luxe of Hornsby's St. Louis Browns, has not signed a contract. When we were in Oklahoma and had no idea we would ever be within ten miles of Sam, we placed him on our All-Star American League team as centerfielder—and still believe he deserved the place.

## WHY YOU CAN HAVE ABSOLUTE CONFIDENCE IN THIS BANK

You can have absolute confidence in this bank because the Haskell National Bank is a member of the Federal Deposit Insurance Corporation.

You can have absolute confidence in this bank because the FDIC guarantees fully any and all deposits up to \$2,500.00.

You can have absolute confidence in this bank because the Haskell National is taking full advantage of the strength and power of the FDIC plan—without yielding to the weaknesses which it might invite.

For this bank is not using the extra protection offered by the FDIC's plan as an excuse for careless banking practices or as a shield to poor management. The guaranty of deposits offered by the Federal plan merely provides the depositors of this Bank with an extra and additional margin of safety over and above that provided by the conservative policies of this strong bank.

### Individualized SERVICE

WHEN it comes it is attended by deepest grief, shock, bewilderment. Funeral and burial arrangements must necessarily be hurried and distressful.

That is why it is best to know in advance the qualifications of the mortician, the cost of burials and other details of procedure that can be discussed calmly and free from stress. Such a practice is gaining increasing consideration among far-sighted people and to such understanding we owe our position as Haskell's leading morticians.

## Influenza Still Very Prevalent

STIN, Feb. 12. — Influenza, not of such prevalence as last year, is still occurring frequently enough to cause alarm, according to Dr. John W. Brown, State Health Officer.

In its present form, its symptoms range from a common cold to fever, backache, and prostration. However, pneumonia as a complication presents the real hazard, as is well known, pneumonia is an exceedingly dangerous disease. The remedy is bed upon the appearance of a cold, and resting there until advised by the physician that one can safely get up.

Everyone should realize that in its present form influenza can easily become a very serious matter. Of course, prevention is better than cure. While influenza seems to be a matter of persons, the careful avoidance of a few common sense rules will materially strengthen one's resistance to an attack. Some of these rules are:

As far as possible, avoid intimate contact with members of the family who have colds or influenza. Keep the feet dry. Wash the hands thoroughly before and after unnecessary fatigue. Eat that your alimentary system is regular and active.

J. B. Barton, who underwent surgery at Abilene, was able to get home Sunday. She reported doing nicely. She was accompanied home by Mrs. D. C. Barton, who will nurse her for a

# Judge the new FORD V8 on what it will do

Thousands of people who can afford to spend two or three times as much for a car, are today choosing the Ford V-8 for 1934, instead. Here are some of the reasons.

**POWER.** The Ford V-8 for 1934 gives you better than 80 miles per hour with the quicker acceleration and greater smoothness of an 8-cylinder motor. Power has actually been increased by 12 per cent over last year's model.

**COMFORT.** The Ford V-8 for 1934 offers more room than any other cars that cost considerably more. It offers you new Clear-Vision

Ventilation, with the window in one piece. It offers you free action for all four wheels—plus the comfort of Ford Cantilever Springs and the proved safety of a front axle.

**SAFETY.** With the new Ford V-8 you get an all-steel body, safety glass, welded steel-spoke wheels, exceptionally low center of gravity and more braking surface per pound of weight than any other American-made car we know of.

**ECONOMY.** Gasoline economy is increased by two or three miles per gallon with the new Ford V-8. Test runs show that the new engine will give 20 miles per gallon at 45 miles per hour.

### Military Funeral for Arthur L. Fox

Semi-military rites were conducted last Saturday in Tulsa, Oklahoma for Arthur L. Fox, 35, formerly of Haskell, who died in the Veterans hospital in Muskogee last Thursday.

The American Legion had partial charge of the arrangements in Memorial Park of Tulsa.

Arthur L. Fox for many years was a citizen of Haskell, being practically raised in this city. He moved to Tulsa several years ago and entered the employ of the Spartan Aircraft Company. He was a sergeant in the medical corps and saw service at Camp Taylor during the World War. He was formerly a member of the Legion drum corps. Survivors included his widow, Mrs. Mabel Fox and her parents, Mr. and Mrs. J. S. Fox, Tulsa; a brother, Walter F. Fox, Miami, Florida; and three sisters, Mrs. Alvin L. Chapman, Tulsa; Mrs. W. J. Kinnear, San Antonio; and Mrs. E. E. Anderson, Chicago.

### RACE MEET---

(Continued from First Page)

will be supervised closely to prevent any attempt at tampering of the races and the mutuels will be under the supervision of Haskell business men to make certain that all buyers receive what is due them with the break on the "nickel" in all cases. Horses will be graded to insure close races in all events and everything done to prevent any one outstanding horse from racing in a field. Racing authorities will insist that horses of same class and breeding and record, be placed in same race.

In keeping with the general policy of the racing committee to keep the races on a high plane, Steve Knight, starter in the Haskell races in 1933, has been re-engaged for both the summer and fall meets. Here, he is among the outstanding starters in the state, being official starter for the South Texas Racing Circuit, the Galveston Downs and the International Exhibition Race Meet in San Antonio. Knight has recently purchased a modern stall gate for starting races, which guarantees an even start, which has been being at Haskell for both

meets. The tape break-away was used here in 1933.

The amount of interest which was engendered in the Haskell county race meets far exceeded expectations of the most optimistic in Haskell. Held in connection with the annual County Fair, as an added attraction, the meets paid better than anyone expected. Since the 1933 races were held, still greater interest in the coming races is being manifested on the part of Haskell county race enthusiasts. Several first-class horses are the property of county citizens, among them being Gold Hills, owned by Dyke Lynch, who purchased the horse last fall. Gold Hills was in a crippled condition at that time, but has since recovered and said to be in fine racing condition. Victor Davy, expert with Atholof; Jim Speck with Wanda S.; Wafford, with Wrangler; A. B. Barnett, with Bullet, and Anderson with Dolly, are only a few of the race horses in this county which will be sent to the barriers in the summer races. Retired race stallions are being brought here to improve local strings.

- The racing committee believes

that the programs will be a section of all horse racing on Haskell and that they will help make his section a popular one and like many other sections, firmly believe that they have an opportunity to see the move for thousands of dollars and bent upon finding a way to their support in every way they may be capable of giving it.
