#### Married or Not, That Is Question

Wineta Long or Mrs. Welburn, Jr. (to be decided by court)

Rev. Wm. D. Welburn, Jr. (who says he's single)

The lady pictured above has filed suit for divorce in San Antonio saying that she is Mrs. Wm. D. Welburn, Jr., that she was married July 25, 1933, and gave birth to a son on November 18, 1933. The Rev. Welburn, Jr., former pastor of the Government Hill Methodist Church in San Antonio, denies that he is married to her and that he is the father of her child. The plaintiff declared that the Rev. Welburn denied the marriage before his congregation on December 17, 1933, this act constituting extreme cruelty and cause for divorce.

#### Complaints Made of "Peeping Tom" Sunday Night By Haskell Citizens

Numerous complaints have been filed by Haskell citizens against the activities of a "Peeping Tom," whose tracks have been discovered near windows of several homes in the past few days. The "peeper," from comparison of the tracks, has visited several places each night. At two places which he visited Sunday night his tracks showed that he had stood close to the windows and left at his own convenience, for he had casually wiped mud off of his shoes onto the grass. Although complaint has been lodged with local peace officers, who have promised to cooperate to the fullest, the matter probably will be taken care of by those persons whose homes have been visited if the peeper returns. A generous load of buckshot, or bullets, will be given him for his trouble.

#### MASS AGAINST ATTACK

Agricultural Crisis Would Have Been Worse, They Say, But For Them

CHICAGO. — Popular comment that the farmer has been "trained to ruin himself" by the agricultural experiment stations and colleges is protested by their leaders.

Instead, they point out, organized fact-finding has proved better than gold mines in producing farm wealth has saved thousands of farmers through the current crisis, and is now encountering the heaviest demands made on it in its history.

Research in agriculture has in truth had to face an unexpected struggle. Effort has been made to cut it down on the plea that since there was an agricultural surplus the thing to do was to check such causes as farm research which had produced the surplus.

This research has also been termed "tremendously expensive". The charge, however, is countered with figures showing the surprisingly small cost and the resulting large returns to agriculture. Federal appropriations to agricultural experiment stations for research (Continued on Page 5)

No services will be held during the revival on Saturday nights, so Rev. Hardegree states. With the exception of these nights, the services will begin at 7:30 o'clock.

Through the courtesy of the members of the Abilene church, who willingly agreed that Dr. Warren should come to this city and lead in a revival for the local church.

#### COMPETITION KEEN AMONG CANDIDATES AS DECISION NEAR

Hard Battle Expected From Men Whose Names Are On Ballot For Offices

#### INTEREST IS HIGH

Voters Will Also Ballot On Question of Sunday Picture Shows

Although very little campaigning is being done by those seeking offices, with the exception of salaried positions, practically all races in the city election will be closely contested. With the election scheduled for next Tuesday, April 3, very little time remains for campaigning. A mayor, three aldermen, city secretary and marshal will be selected by the voters.

At the same election, an ordinance to decide whether Sunday picture shows shall be continued to be shown in Haskell will be voted upon. At present they are being shown on Sunday afternoon and Sunday night after church services. Only two names were filed for mayor—Leo Southern and Elder A. F. Thufman, Church of Christ minister. The former has served here as alderman in the past and been active in various city activities, while the latter served as mayor of Chillicothe two terms before moving to this city.

Three aldermen are to be chosen, with F. L. Peavey, incumbent, Henry Atkinson, J. T. Ellis, Eugene Tomp, J. T. Bynum, E. M. Hand and J. L. Tubbs in the race. The terms of Hill Oates and A. C. Pierson, present office-holders, have not expired.

With R. H. (Rufus) Banks, present secretary, M. D. Crow, Cecil Bradley and Juanita Dunlap in the race for the office of city secretary, a spirited battle is expected.

Competition for the office of city marshal is strong, with various factions represented. W. E. Welsh, incumbent, Bill Larned, Wilton Kennedy, Al Cousins and Drew Emerson filed.

## EASTER

Easter will be celebrated next Sunday by all people of the earth who call themselves Christians—those who believe that "God so loved the world that He sent His only begotten Son that whosoever believeth in Him should not perish, but have everlasting life."

Easter is the symbol of the resurrection—not alone of that of Jesus who came to save a lost world from its sins, but of that resurrection from the death that comes to mortal man and that marks man, not as a beast of the field, but as a Soul that can not die. It is this belief in the eternal life that impels millions of souls to pattern their daily lives after Him who rose that Easter morn so many centuries ago. A Perfect Pattern—difficult to follow, but so worth while!

This EASTER of 1934 comes at a time when a worn and weary and disillusioned world is lifting its head in renewed hope. Will we forget the lessons taught by adversity? Will we cast aside our best impulses, our noblest idea, in our eagerness to rebuild our financial structures, wrecked by the winds of the economic storm of the past four years? Many of us will.

God grant that enough of us remain true to eternal truths to guide our beloved Nation by the shining star of RIGHT! God forbid that evil counsel may lead us into wrong thinking, and wrong influence!—Exchange.

### A Surprise Party.

On Friday evening March 23, the Bible Class of the Presbyterian Sunday School honored their teacher, Mr. R. E. Sherrill, with a surprise party given at the manse.

The entertainment was a very pleasant social affair—and a complete surprise to the honoree, when Mrs. Joe Jones, in her gracious manner, read a poem written by Mrs. B. M. Whiteker dedicated to Mr. Sherrill on his seventy-third birthday.

In addition to the games which showed how much the class knew of the bible, Mrs. Pace played several piano numbers, and Mesdames H. S. Wilson and Sam T. Chapman sang the duet, "Give Me the Roses While I Live," which was enjoyed by everyone.

The main feature of the program was, as always at a birthday party, when the three tiered cake lighted with the customary candles, was

placed before the honoree, and Judge J. A. Jones, speaking for the class, wished for our teacher "many happy returns of the day." Mr. Tucker, also in behalf of the class, presented the honoree with a fountain pen—a love token of appreciation for his years of faithful and untiring labors for the church.

Mr. Sherrill responded in words of appreciation, after which Mrs. Tucker, assisted by Miss Mary Ben Chapman, served cream and the cake to the following friends: Mr. and Mrs. R. E. ## MESOPOTAMIA IS ENACTED BY A NOTABLE CAST

The daringly different and dramatic in theme and RKO-Radio Pictures' "Patrol" presents Victor Boris Karloff, Wallace Ford, and a strong cast in a colorful story of suffering on the deserts of Mesopotamia.

Based on the famous Philip MacDonald, centering the plight of eleven men, a British cavalry detachment which is lost on the bleak out knowledge of its exact whereabouts, or its fate when the commanding officer is sniping Arabs.

Refuge in an oasis, the men come virtual prisoners of the Arab enemies slip camp at night, kill a stealer their horses. A path about them, the men various ways to the strains for the inevitable doom.

### In Charge of Music At Revival

ENOCH H. TROLLEUGER

Who will have charge of music and personal work during the revival meeting at the Haskell Christian Church, beginning Monday April 2.

### To The Voters of Haskell

Since my name has been placed on the ticket as a candidate or aspirant to the office of Alderman of the City of Haskell, in the coming city election Tuesday April 3rd, I have been repeatedly asked by numerous citizens, some of the things I would stand for or favor in the event I should be elected, pertaining to certain changes in city government affairs. These questions I have answered from time to time.

#### FOR PUBLIC WEAHER, Prec. 2:

- M. F. MEDLEY.

#### CITY ELECTION.

- FOR MAYOR:**  
J. LEO SOUTHERN,  
A. F. THURMAN.
- FOR MARSHAL:**  
BILL LARNED,  
WILTON KENNEDY,  
W. E. WELSH,  
AL COUSINS.
- FOR CITY SECRETARY:**  
RUFUS BANKS,  
M. D. (Myrtle) CROW,  
CECIL BRADLEY,  
JUANITA DUNLAP.

and since all the voters may not know how I stand, I take this method of bringing my platform to you thru these columns. These changes I deem necessary and favor for the benefit of the people of Haskell, as follows:

I favor a minimum of five thousand gallons of water (instead of three thousand, as at present) for the One Dollar and Fifty Cents minimum per month.

I favor, during the beautification months, a minimum of eight thousand gallons. The town needs more beautification, in the form of trees, shrubs, lawns and gardens, and as I see it, is a valuable asset to any town, therefore I favor this increase during these months.

I favor lowering the sewer rate in Haskell as much as it will bear. Just how much this will stand, I do not know, but will do my bit, if elected.

I favor a slight raise in salary for some of the city employees, and a reduction of others.

I realize that it has been said in the past that some of these things could not be done, but I contend CANT never did anything. At least it can be tried.

Please understand that I realize the office of Alderman is a NO PAY office and plenty of grief, but my feelings in this matter, are of being some worth as a citizen of Haskell.

If I am elected to this office, I promise to serve to the best of my ability in connection of the above mentioned platform.

EUGENE TONN.

### Respiratory Irritations Need Creosote

For many years our best doctors have prescribed creosote in some form for coughs, colds and bronchitis, knowing its danger is to let them hang on. Creomulsion with creosote and six other highly important medicinal elements, quickly and effectively stops coughs and colds that otherwise might lead to serious trouble. Creomulsion is powerful in the treatment of colds and coughs, yet it is absolutely harmless and is pleasant and easy to take. Your own druggist guarantees Creomulsion by refunding your money if you are not relieved after taking Creomulsion as directed. Beware the cough or cold that hangs on. Always keep Creomulsion on hand for instant use. (adv.)

# RED & WHITE STORES CELEBRATE 13TH BIRTHDAY

Started in 1921 by S. M. Flickinger, the Red & White stores have leaped international fame. There is no hamlet or city in the United States or Canada which has not heard the Red & White name. The growth of the Red & White stores has been phenomenal.

## S. M. FLICKINGER

and for a wholesale-retail cooperative organization. It spread to several cities and in the course of a few years the Red & White cooperative plan of home-owned, home-operated stores spread throughout the United States and Dominion of Canada.

with a number of similar independent stores in his city and are serviced by a local wholesale grocer (name of wholesale grocer). There are over one hundred similar wholesale grocers in other parts of the United States and Canada who also offer this unique service to their own individual groups. These organizations are affiliated with a national organization who comprise the Red & White Corporation.

Red & White was conceived and developed for the benefit of the retail store and is operated not for profit. It is not a stock-selling scheme—it is purely a friendly organization whose existence is made possible by the splendid cooperation, confidence and integrity of its members, whose names comprise the "social register" of the wholesale and retail food industry. Some of the finest names in the distribution of food can be found listed among the Red & White members. One of the unique principles on which the Red & White stores operate is the application of the Golden Rule, "Do unto others as you would have them do unto you." This plan of operation has proved to be highly successful and brings a fraternal atmosphere into the daily grind of business.

### Red & White Brands Controlled by Red & White Stores

The Red & White organization owns and controls the superior quality Red & White foods, whose name has come to mean a great deal to the housewives of America. It stands for the highest quality obtainable and enjoys the unique distinction of having a longer list of approved items by Good Housekeeping Magazine Institute than any other food manufactured in America.

### Plan Anniversary Sale

To commemorate the thirteenth year of progress of this organization, the Red & White stores are planning an International Anniversary Sale to be conducted in hundreds of newspapers throughout the United States and Canada, carrying the message to the housewives of America through their own store newspaper, "News Flashes," together with a unique presentation of many Red & White foods through lithographed window display cards and other media.

Every Red & White store will be dressed for the occasion with banners and signs and there will be an air of friendly hospitality expressed in every store. You are cordially invited to visit your nearest Red & White store during this gala event.

## Plant Exchange To Be Sponsored

Women throughout the county are being urged to take advantage of the plant exchange which will be held here during the week ending April 7. Anyone wishing to exchange may bring their plants to the Magazine Club, where the next meeting of the committees of the county-wide highway beautification program will be held on Saturday, April 7.

According to Mrs. R. V. Reynolds, chairman of the exchange committee, the women should take advantage of the plan and cooperate to make it a success.

In conjunction with the county beautification program, the Haskell Service Club has appointed a special committee composed of Rex Ragan, Anton Theis, and Roy Sanders to have signs placed at the four highway entrances into the city. The name of this place, its population and altitude will be given.

Mr. Trolinger was business manager and assistant to Dr. Claude E. Hill, in the First Christian Church, in Tulsa, Okla., which has a membership of 4000. He has worked with many of the outstanding pastors and evangelists in the country.

Rev. Hardgree also states that Dr. Warren and Mr. Trolinger will furnish the program for the Haskell Service Club next Tuesday, April 3, and will be active in cooperating in any way possible to help the people of Haskell.

## Production Credit

(Continued from Page One) tion credit, are making it possible for this type of credit to be available for the next one hundred years, available in January, June or November, in any month or day of any year, provided the applicant can qualify and offer sound, adequate security.

Mr. Sherrill further stated that at the present time it takes longer to receive a loan of this kind, but the officials are becoming more accustomed to writing applications, making inspections, and sending final papers for execution to the headquarters at Houston that the time is being cut shorter from the time the applicant makes his application to the time his draft is issued. The Corporation is making plans in order to be able to complete loans in five days, therefore, getting the money to the farmer in time to buy seed or feed in order to make his crop. Mr. Sherrill says that the farmers in this territory if they desire production credit in the future, must cooperate in every way possible, eliminating competition and driving in a straight way, in order to keep production credit moving each year and helping the farmers when they need help.

Another big factor in the organization is that the interest rate has been reduced from 6% to 5 1/2%, and is expected to be cut more in a few months. Kenneth H. Thornton, newly elected Secretary-Treasurer of the local association, made a short talk and stated what progress he intended to make with respect to getting loans closed as quickly as possible. Farmers who are planning on getting a loan with the local organization next year, may come in at any time and make an application, stating what date they want their money, and their checks will be ready at that time. The association is moving to new quarters, located four doors east of the postoffice.

## Farm Stations

(Continued from Page One) search amounted to only \$80,000 a state for the Government's fiscal year ended last June. The sum thus awarded all the 48 states, Alaska, Hawaii, and Puerto Rico was but \$4,977,560.

### Not A Huge Figure

The total of federal funds given the 32 land-grant colleges, including resident teaching, agricultural extension service and the agricultural experiment station, aggregated only \$10,160,000 for 1930, the last year for which there is a report available.

While all the states supplement federal funds with special appropriations for the support of the experiment stations and education, the reduction in state appropriations has been so great that in nearly 60 per cent of the states the money received from Washington constitutes a very substantial portion of the amount available to the land-grant college and university.

The huge sums which research in agriculture have yielded are surprising. No one realizes the value of research better than the large number of individual farmers who are constantly utilizing its results to increase their income. The federal office of education several years ago published a survey of the land-grant colleges and universities which estimated that the contribution by the experiment stations for the single year 1928 aggregated \$842,000,000.

## EASTER

Easter is observed by Christians in commemoration of the resurrection of Christ, but its observance is really the outgrowth of the Jewish Passover.

There is no mention of Easter in the New Testament, nor in the writings of the apostolic fathers. In fact, neither Christ nor any of his apostles suggested the keeping of this or any other festival.

But as more of the early Christians were drawn from the Jewish church, it was natural that many of the old Jewish festivals continued to be observed by them and gradually passed into the Christian calendar.

In the ancient church the celebration of Easter lasted eight days, but after the eleventh century it was limited to three, later to two and finally to one.

The proper time for the observance of Easter has been the subject of bitter controversy among the various Christian groups, and at one time no less than seven "Easters" were celebrated in a single year. In fact the Greek church did not adopt the date used by the rest of the world until 1923, so that only during the last eleven years has all of Christendom observed Easter simultaneously.

According to present usage, which conforms to the date established by the Council of Nice in the year 325, Easter can not fall upon a date earlier than March 22, nor later than April 25, it having been decreed that it should be the first Sunday after the full moon following the vernal equinox.

The last time Easter fell on March 22 was in 1818, after which about three centuries must elapse before it occurs on that date again. It fell on April 25 the last time in 1843, but will not occur so late in any year of the present century.

While Easter is a Christian festival, all nations and peoples from ancient times have acknowledged the symbolic significance of the coming of spring. Easter itself is linked to forgotten ceremonies by which the sun was welcomed and the earth re-dedicated to beauty and fruitfulness. This was always a mystery; it still is a mystery and a marvel, although man has learned a little knowledge and has made the seasons his servants. The flower that springs from the seed, the glory of green that sweeps the hills in springtime are manifest miracles. They fortify and justify the faith of those who believe that on Easter morning a stone was rolled away from the sepulcher in Palestine and death was found vanquished in the Resurrection.

## NEW SUBSTITUTE FOR CWA

Demobilization of the vast Civil Works army by May 1 will not leave the unemployed and their families stranded, as President Roosevelt has announced a re-organized national relief program to be substituted for the Civil Works program.

This new Federal aid proposes three different methods of relief: For the distressed families in rural areas; for stranded populations in communities where industries have died, and for unemployed in large cities. The President believes the recent \$950,000,000 relief appropriation granted by Congress will be sufficient to carry out the new program until the spring of 1935.

In the new set-up it is planned to provide the kind of relief in rural areas that will make it possible for needy families to raise enough food for themselves and to earn a little cash with which to supply their other needs. The families in single industry communities are to be moved to subsistence homestead projects where they can raise enough food for their needs and work part time in small factories. For the unemployed city workers new work projects will be started.

All of these methods of relief fit in with the President's long-range plans for making this a better country in which to live.

Already Emergency Director Harry Hopkins has started working out the details of the new plans to carry on where the Civil Works leaves off. In the new scheme the Interior and Agricultural Departments are working with the relief administration. Thus most of the machinery necessary to carry out the program is already in existence. These new relief plans have already had a wonderful psychological effect upon the morale of those for whom they are primarily intended. The new plan is to substitute gradually as the CWA is disbanded and in this way no one actually in need is expected to suffer.

## COURT UPHOLDS PRICE FIXING

The recent decision of the United States Supreme Court upholding the New York law which fixed the price of milk will be welcomed by the administration and the friends of the New Deal. It is generally believed that the action of the Court in upholding this law has strengthened the Federal Government in its position of fixing prices and regulating private business.

The decision was based on the broad principle that "a legislative body may, when economic conditions warrant it, regulate any business, and that the only test is whether the public need outweighs the private interests involved in that business, provided the regulations be not unreasonable or discriminatory."

The case arose out of the enactment of the law fixing the price of milk. The business of distributing, marketing and selling milk is not a public utility, but the commodity itself is necessary and essential to the lives of a vast majority of our people. While the Court may not hold that all of the regulatory price fixing measures of the Federal government are constitutional, the decision paves the way for a more liberal interpretation of the Constitution. It establishes more clearly than ever before that private competition can never be upheld when it interferes with the general welfare and that is the basic principle of the New Deal.

Fewer college girls are marrying, a recent survey discloses. Maybe higher education is improving their judgment, if nothing else.

A' weapon that comes down as still As snowflakes fall upon the sod; But executes a freeman's will, As lightning does the will of God; And from its force, nor doors nor locks Can shield you—'tis the Ballot Box. —J. Pierpont.

Next Tuesday, all legal voters within the city of Haskell will have an opportunity to vote upon various officials and ordinances. It is an important election, affecting everyone. The officials you choose will probably be good ones—you can hardly help electing good men to office from those on the ticket. We can't help with the decisions, but we can hope that the "best" are chosen.

Now you may not think your vote makes much difference but it does—so be certain to have your poll tax in hand next Tuesday and VOTE! It doesn't matter how you vote, nor for whom you vote. The thing is to do it.

We've been asked (and who hasn't) how we think the election will go for the various offices, but deponeth sayeth nothings. We don't understand women, we can't predict weather right nor can we tell one-tenth of the time how anyone will vote. We've heard too many people tell one candidate for office they would vote for him, and then in the next breath tell another hopeful the same hokey.

Probably the only certain things which will result from the election Tuesday is that we will have a mayor, three new aldermen, a city secretary, a marshal, we can or can't attend Sunday shows and tell all winners we voted "right." And then wait for the hot, juicy primaries in the county and over the state.

WE SAW—BERT WELSH having a half-dollar changed into quarters Sunday morning. BOB MCANULTY sweeping the floor of the Texas Cafe. The ROBERTS BROTHERS reminiscing upon various and sundry things also on Sunday. MARY REISING twirling a rope and roping a coffee cup. BARTON WELSH inquiring for Sam Roberts, wanting to buy a successful Java. B. M. WHITE, KER "toting" an overnight bag. BILL HOLDEN explaining that he is particular about some things, but not gandy. MISS LOUISE WARREN listening to the song "Waiting for the Robert E. Lee." BUFORD COX using both hands while talking to an automobile prospect. BYRON WRIGHT gazing heaven-ward Monday morning at the rain clouds. JASON SMITH leaving the Texas Cafe smoking a big cigar (shore, shore). REV. C. H. BEKLES hunting the keys of the typewriter in Emory Menefee's office. MACK MARTIN moving marble table from in front of the door in the Oates Drug Store so people could get in. JOHN RIKE talking to kindred souls in the Courthouse Monday and grumbling that we're making the Free Press sound like two old maids, with our gossip. MISS JOHNIE REED arranging exhibits for the Lubbock Meat Show. MISS MINNIE ELLIS working hard to get out reports on schedule time. B. C. CHAPMAN rushing down to Judge Dotson's office to take a bond. BEN BRIDGES holding courthouse door so KENNETH THORNTON couldn't get in. MISS MARJORY WHITEKER making book-covers in county superintendent's office. ROY SANDERS and TROY POST telling everyone about the new home-office of the Pioneer Mutual Life Insurance Company (where! and they get all that advertising free). DAN

KIRKPATRICK and BEN DOTSON enjoying a casual coffee and talking in a friendly manner—pitties barred. HERBERT ISSER talking to certain people and saying "yoo-hoo!" LEO SOUTHERN and G. W. WARD, traveling auditor for the Wichita Valley R. R. admiring the work of the sign painter in the Tonkawa Cafe Shop Monday. MRS. LOIS EARNEST POST quit writing on the typewriter to write a personal letter that couldn't be postponed. R. H. MAXWELL spitting the mud in his car Monday, which caused us to wait until he had passed. BOYD LATHAM, Haskell's new baseball pitcher, soliciting work for Lancaster's Tailor Shop as part of his new job. Little MISS EMILY ROBERTSON trying to persuade her mother, Mrs. F. M. Robertson, that the direction in which they were walking wasn't as nice as the one they were coming from, to no avail. MR. AND MRS. CLAY SMITH dressed appropriately for the rain Sunday afternoon. THE WRITER walking from the postoffice back to the Tonkawa Cafe Shop where he had left a certain pipe.

Sometimes we wonder how many people take a newspaper simply to find fault. Lots of times people criticize the work of a newspaper man, and at the same time are making a fizzle of their own job. None of us are perfect—or try to be!

Wonder if that eligible young bachelor is still having so sorry that pillow around?

INKSPOTS—There's nothing selfish about young Bobbie Roberts, because he very willingly gave his "big" brother a bite of the cookie he was eating. Instruments of shorthand should provide these benches for all kinds of words because a certain stone passed in utter confusion recently when a speaker she was listening to said "damn." Apparently there's no mark in shorthand for that overworked word. Believe It or Not—Eli Thurman was the first person elected with a fine after his dad. When You Discuss Electrical Appliances . . .  
What are the most important operations of your home?  
Modern homemakers all agree on these!

REFRIGERATION . . . You need constant refrigeration the year round, and you will enjoy the money-saving, health-guarding superiority of electrical refrigeration.

WATER HEATING . . . You need hot water many times each day. The modern electric water heater gives you a surplus of hot water, and for good measure adds safety, cleanliness, health, dependability, constant and convenient.

COOKERY . . . Nothing so important. This inexpensive "Electric Cook" is worth immediate investigation. Electric cookery is simple—yet accurate, clean and economical.

LAUNDRY . . . Very necessary—but dreaded each week. Enjoy a "happy" washday by installing a combination washer and ironer. Cut washday to a fraction of the time usually required the old way.

THESE WILLING, INEXPENSIVE SERVANTS—the electric range, refrigerator, water heater, and washer and ironer—will improve your home by doing your work better, and save time, health, money and clothes. Don't consider these modern and efficient domestic electrical servants as luxuries! . . . They are all dividend-paying investments. They pay for themselves. Take advantage of these appliances at our convenient terms and prices—and take advantage of the lowest step in electric rates. A representative will be glad to call and discuss them with you.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and operating costs amount to but a few pennies a week?

## VOTE AGAINST THE SUNDAY MOVIE

1. This means that there will be no show from midnight Sunday to midnight Sunday. This will do away with the show after midnight on Sunday morning. This is a strange time to have a show. Fathers and mothers should remember that we are living in a day when everything must be appropriate for the season. The midnight show is no exception. While fathers and mothers are trying to sleep or walking the floor worrying about their children, the movie has charge of them and is putting something on the screen that is thoroughly appropriate for that time night. Vote the Sunday movie out and it will stop this kind business.

2. The movie closes its doors about one o'clock on Sunday morning, opens its door for a second performance early Sunday afternoon, closes them a short time for the preaching service and opens for a third performance immediately after the preaching service on Sunday night. The movie is willing for the church to have a little SANDWICH service on Sunday night. But, will people who attend the show on Sunday afternoon go to some church that night? There is not one in ten that will. The hugging and kissing seen in the average pictures are not very conducive to church attendance. If the Sunday show is voted out it will give the churches an opportunity to reach the careless and indifferent for Christ.

3. If the Sunday show is voted out, the movie will still have days each week in which to operate. It seems that this could be enough. It should not have access to the people on Sunday to wear them out and unfit them for the services of the churches.

4. A vote for the movie is a vote against the church. The Sunday movie is against the church. It is offering the people entertainment instead of worship. It would like for the public to have Sunday to be a holiday instead of a HOLY DAY. The church is the only divine institution. Our Saviour loved it and died for it. The church has struggled through the ages. It has made better homes, communities and nations. It makes your business worth more and your land more valuable. Whether you are a member of the church or not, if you believe in it and appreciate what it has done for others, then protect the church with your vote.

5. On April 3, TWO PERSONALITIES will be pleading for your vote. (1) Satan wants your vote. If the Sunday movie stays just one lost soul from getting interested in the preaching of the Gospel and causes him to go out into eternity unprepared, will be a great victory for the devil. (2) Christ is anxious for your vote. You need not be told what side Christ is on. He died to save a lost world and is opposed to everything that hinders the salvation of the lost. Not to vote at all is a vote against Christ. Voters, please crucify the desires of the flesh and vote one for the glory of God. When your neighbor insists that you vote for the show, please ask yourself some questions. What about this person's past life? Has he grown a spiritual life? Has he love lost souls? Is he deeply interested in the spiritual welfare of our town?

VOTE AGAINST THE MOVIE IS A VOTE FOR JESUS.

### New Store Opened At Ardmore, Okla. By P.-T. Company

Announcement that the eighth store in their group will open about May 1st has just been announced by Mr. George Goetze, manager of Perkins Timberlake Company here. The building at Ardmore, according to Mr. Goetze, will be modern in every way. The building, which is situated in the center of the business section of the city is 50x180 feet and is being remodelled and thoroughly modernized to house Perkins Timberlake Company's newest store.

The store when completed will have hardwood floors, modern windows, both in design and background, with newest lighting system throughout the store and windows. It was announced that the latest type of Grand Rapids fixtures will be installed. The floor plan has been worked out by expert architects from the Grand Rapids Fixture Company.

### Builds Closet From Corrugated Pasteboard Here

A closet that will fill the need of Mardell White, newly enrolled bed room demonstrator of New Mid 4-H Club is to be built from corrugated pasteboard and old two-by-four lumber. The frame will be built with the lumber to form a base on which to tack the pasteboard. The entire room including the closet will be repapered. A row of shelves across the ends, rods the length of the closet and shoe racks made by sloping the bottom shelf to the floor will complete this closet. A beaverboard door may be used in the opening for a minimum cost. For temporary storage space this is a practical as well as an inexpensive closet.

### V. W. Meadors In Receipt of New Farm Loan Plans

V. W. Meadors, secretary-treasurer of the Haskell National Farm Loan Association, received word today from Wm. I. Myers, Governor of the Farm Credit Administration, Washington, D. C., that Federal land bank loans and Land Bank Commissioner's loans will be made in the future through the Federal land bank in bonds of the Federal Farm Mortgage Corporation, which bonds are guaranteed by the United States Government both as to principal and interest, which will be at the rate of 3 1/4 per cent per annum for the bonds to be issued at this time. These bonds will take the place of the cash distribution in the reimbursement of the unclosed loans.

previously approved by the Federal land banks. The bonds of the Federal Farm Mortgage Corporation, according to the statement by Governor Myers, will have behind them not only the unconditional guarantee of the Federal Government as to both principal and interest, and the capital of the Federal Farm Mortgage Corporation amounting to about \$200,000,000 but also the consolidated bonds of the Federal land banks issued in exchange for the bonds of the Federal Farm Mortgage Corporation and the mortgages accepted by the land bank commissioner as security for loans.

Governor Myers assured Secretary Meadors that the Federal Farm Mortgage Corporation bonds will be an attractive investment. "They will be as readily marketable as bonds of the United States Government and they will be quoted in all of the principal markets," he continued. "Holders who have to dispose of these bonds should not sell them without first ascertaining their real market value."
