Operation of Government Soil Conservation Program Outlined for Haskell Farmer

Requirements to Conform With Program Set Out, and Farmers Benefits Explained

The following questions and obtain information about the proanswers are given to illustrate the gram? operation of the new Soil Conservation Program in the South- fices and the county and comern Region for 1936 under the Soil Conservation and Domestic Allotment Act of February 20,

Purposes of the Program

Q. What are the objectives of

A. The objectives stated in the Act for 1936 are: fertility, and to promote the eco- mitteemen. nomic use and conservation of

2. Q. How will the 1936 Soil program? Conservation Program bring about soil conservation and im- the county association

A. By encouraging farmers to

3. Q. What funds are available the Soil Conservation and Domes-

tic Allotment Act? A. The Act authorizes annual appropriations of not more than \$500,000,000. The amount expected to be available for the 1936 program is approximately \$470,-000,000.

4. Q. How will the funds ap-portioned in 1936?

A. The Act directs that: On determining the amount to be apportioned to each State, the Secretary shall take into consideration the acreage and value of the major soil-depleting and major export crops produced in the respectivity of land devoted to agricultural production (including dairy products) in the respective States during a representative

5. Q. How are consumers of agricultural products protected under the Act?

A. The Act provides that due regard shall be given to the maintenance of a continous and stable supply of agricultural commodities adequate to meet consumers' demands at prices fair to both consumers and producers and to the production of supplies of food and fibers adequate to maintain normal domestic human consump-

6. Q. What is the annual average acreage of soil-depleting crops in the United States?

A. About 300,000,000 acres. Q. What is the average annual acreage of soil-building and soil-conserving crops in the Unit-A. About 100,000,000 acres.

8. Q. What is the goal for soilbuilding and soil-conserving crops

A. To increase soil-building and soil-conserving crops by about 30,000,000 acres. 9. Q. How can the program be

A. Through the whole-hearted cooperation of producers, committeemen, and other affected by the

10. Q. Why was a new national program for agriculture formulat-

cultural Adjustment Act which production were declared unconstitutional by the Supreme Court on January 6, 1936. The Congress and farmers felt that another national program was necessary to maintain gains already made and to conserve and improve the soil.

11. Q. Will the Secretary of Ag-

riculture enter into contracts with producers under the Soil Conservation Program' A. No. Cooperation by produc-

ers must be purely voluntary. 12. Q. Where can a producer

TIME TO CHANGE TO Zoonomical And Lectric Cookery THE RANGE WITH ACCHET'S BRAIN' A New Hotpoint electric range, now the talk of the nation. Styled by Helen Hughes Dulany, fore-most woman industrial stylist, it typifies the thinking of modern women in hitchen appliances.

YOU CAN HAVE THIS BEAUTIFUL, MODERN RANGE IN YOUR HOME

• Trade-in Allowance · Low Down Payment · Easy Monthly Terms

The many ways you can save money with this mo ern new Hotpoint range would tickle the thrifting

* For example: Low electric rates assure low cool ing costs; cheaper cuts of meats cook tender flavory in controlled, applied electric heat; ! Thrift Cooker (nicknamed the "Scotch Kettle" turns out an entire delicious meal with about same amount of electric current as an electric las You can cook an entire meal (even to bread) in wonderful electric oven without one bit of attent from you. And, we haven't mentioned the savi you enjoy on cleaning and decorating. See a ranges at once. Come in and get all facts today.

FEATURES . Caired, hi-speed, clean-heat colls.." Brain" (automatic timer clock) . . Thrift Cooker . . new oven temperature control . . fully insulated oven . . tal model . . all porcelain enamel . . trimmed with chre

West Texas Utilities

Ford-FOR ECONOMY

"The Ford V-8 uses less fuel and oil for the power it gives than any other car we have ever made

AND ITS UP-KEEP COST IS THE LOWEST"

ENTHUSIASTIC sales talk often begins and ends with gasoline mileage. Some salesmen would like you to believe it is the whole story of automobile economy. But drivers ought to know better. For, the fact is, it's way down the list.

The big items of car economy are low first cost, low up-keep cost and low depreciation. Savings here can make a great deal of difference in cost per mile. Gasoline mileage is more of a talking point than an economy factor.

Check up and you will find that the difference between 17 and 19 miles a

gallon is less than \$10 for a whole year's average driving (8400 miles at 18 cents a gallon). Here are the big items that make the Ford the most economical car:

More value for every dollar you pay. Lower cost for repairs and service. Long life. Slow depreciation.

Quality means economy and the 1936 Ford V-8 gives you more real quality than any other low-price car. No other car under \$1645 has a V-8 engine. No other low-price car has Center-Poise Riding, safe, sure mechanical brakes and Safety Glass all around at no extra cost.

\$25 A MONTH WITH USUAL LOW DOWN-PAYMENT, BUTS ANT NEW FORD WITH USUAL LOW DOWN-PAYMENT, BUYS ANY NEW FORD

Condition Of The Grant And

Payments 60. Q. What types of payments will be made to producers? A. Soil-building payments, as

Soil-conserving payments. 61. Q. What provisions have be determined in accordance with been made concerning food and exceed \$1 for each such acre, but

62. Q. How will the quantity of food and feed crops for home consumption be determined? A. By standards set up by the State committee and approved by

the regional director. 63. Q. For what are soil-conserving payments made?

A. These payments will be made for diverting acreage from soildepleting crops to soil-building and soil-conserving crops and for approved soil-building and conrving practices.

64. Q. What is the rate conserving payments?

A. The rate of the soil-conserving payment for diversion from soil depleting crops other than A. Yes?

59. Q. If a crop is planted in the ed States will be around \$10 per acre.

65. Q. Where two or more producers incur the expense, the soil building payment shall be divided equally between them.

85. Q. How will the self-acre.

will be divided as follows: quired to have a minimum acreage of soil-conserving crops in order to receive payment?

A. Yes. No payment is to be made on any farm unless the to- ducer who furnishes the work tal acreage of soil-conserving stock and equipment; crops and soil-building crops on crop land on the farm in 1936 among the producers who are equals or exceeds either (a) 20 parties to the lease or operating ercent of the base acreage of all agreement in the proportion to oil-depleting crops for the farm that lease or operating agreement or (b) the maximum acreage with in the proportion that such proor (b) the maximum acreage with respect to which soil-conserving payments may be made on the form

For example, a farm with a payment is made. total crop-depleting base of 100 86. Q. Will there be any exceptoral crop-depleting base of 20 86. Q. Will there be any exceptoral crop-depleting base of 20 86. Q. Will there be any exceptoral crop-depleting the Southern acres must have 20 acres or 20 tion to thos rule in the Southern per cent of the base in soil-conserving or soil-building crops to qualify for payments in 1936 uness the farm is planted to wheat, corn and other soil-depleting rops for which a maximum diersion of 15 percent only is permitted. In that event, the minimum acreage of soil-conserving and soil-building crops required for payment would be 15 acres or 15 percent. If the 20 percent minimum were adhered to in all cases a producer might be forced to divert acreage for which he could not receive soil-conserving

66. Q. What is the rate of soilconserving payment for diverting acreage from the production of

A. Payment will be at the ratio of approximately 5 cents for each pound of the normal yield of lint cotton per acre.
67. Q. What is the maximum

acreage diversion with respect to on on which payment may be grant.

A. Thirty-five percent of the base cotton acreage for the farm, except that payment cannot be made in any county on more than A. Yes. Payment will be made by check drawn payable to each cotton acreages for all farms in he county.

68. Q. What is the rate of the soil-conserving payment for each acre diverted from the production

A. Five cents per pound of the normal yield for flue-cured or Burley; Six cents per pound of the normal yield for Georgia-Florida type 62; Three cents per pounds of the normal yield for Georgia-Florida type 45, or any

other kind of tobacco. 74. Q. Will the rate of the soilconserving payment vary from the basic rate specified or to be specified for diversion from soildepleting crops on land of a giv-

en productivity?

A. It may, but in no case may the variation be more than 10

75. Q. Why may the rate of the

75. Q. Why may the rate of the soil-conserving payment vary from the basic rates specified?

A. The rates specified are based upon an estimate of available funds and an estimate of approximately 80 percent participation by farmers. If participation in any region exceeds the estimate for that region, all the rates specified for such region may be reduced for such region may be reduced pro rata. If participation is less than the estimate for the region the rates may be increased pro rata. As has been stated, in no case will the rates be increased or decreased more than 10 per-

rent.

76. Q. What are the approved uses which may be made of the land diverted from the production of soil-depleting crops?

A. The approved uses are as follows: Planting soil-building crops; Planting soil-conserving crops; Following approved soil-building practices.

77. Q. For what are soil-build-

A. These payments will be made for planting approved soil-building crops or carrying out approved soil-building practices.

After reports from the different committees the meeting adjourned to meet again the second Thursday in May.

If you, as parents, are appreciative of your schools make an effort to attend the next meeting which will be the last for this school year.

Hutto Club Women Favor Candlewick Bedspreads.

"I shall provide a candlewick bedspread," was the response of nine women in answering the roll call of the Hutto Home Demonstration Club meeting in the home of Mrs. Ida Dozier, Friday, April 10th. The others answered with rayon and cotton spreads.

Mrs. S. S. Dozier and Miss Alice Corral were appointed as a committee to collect enough funds to finish the stage being built for Hutto school house.

The Council delegate reported that each Club will conduct a novel pencil sale, for the purpose of raising funds, and everyone is urged to buy from them.

The club ladies helped Mrs.

Ida Dozier to quilt a wool comfort. Mrs. Ida Dozier also reported a candlestick bedspread made by the club ladies at her home, Tuesday, March 31st. A few minutes period of re-

creation of games, songs and yells was presented. A five minutes drill was given. The club adjourned to meet

CRITISIZING THE CHURCHES

Every once in a while your run up on a citizen of Haskell who tries to impress you with the broadness of his religious viewpoint by taking a few pot shots at the churches of the nation. The speaker will tell about helping other human beings in distress, and exhibit every sign of superiority over those who worship in organized churches in the name of their religion.

It is rather seldom that these talkers realize that without the organized churches of the past it is highly improbable that they would know very much about religion. It is worse than that, Without the organized churches of the past it is doubtful if our present civilization would be even vaguely as good as it is. The critics of the church are quite willing to accept the fruits of its work, but they are not always just enough to give credit where it is

ABOUT A THIRD PARTY

There are some people in the United States who believe that a third party has a chance to come into successful fruition. The Haskell Free Press does not share that optimism.

The only effect of a third party will be to draw voters from the major parties. The big party losing the most might conceivably be defeated. The other party would win. The third party wouldn't get a handout for its pains. Its life would end with the

The only way to accomplish results in the United States, as we see it, is through the Demoeratic or Republican party. If neither of them offer a reasonable amount of hope then there is no

TIME TO PROTECT CHILDREN

Parents in Haskell County should emphasize the danger of playing in the streets and caution their children to be extremely wary before attempting to cross a highway. However, after doing this a parent must leave his child largely to the fate

The very nature of children makes many of them impulsive. Their lack of experience prevents effective caution. They will, unknowingly and unntentionally, expose themselves to grave peril. Under the circumstances which are known to all adults, the burden of care rests upon the conscienes of automobile drivers.

Public sentiment should compel motorists to proceed slowly and carefully when passing through shool zones and by crowded play grounds. The police power should assist in making effective this public sentiment and drivers should be severely punished for speeding in such zones. It is not enough for a driver to get by without an accident. The public should not stand for motorists who constantly imperil innocent children.

The Haskell Free Press harly expects that this article will revolutionize the habits of motor car operators. However, if everyone who reads it will begin a little propaganda along this line, the result might save the lives of a few children in Haskell County this year, which would be worth while.

BEAUTIFY YOUR YARD

Every year, about this time, there is a resurgence of the idea that Haskell ought to be more beautiful. There is discussion, elaboration and sometimes, committees with an occasional splurge

The Haskell Free Press would do nothing to interfere with other plans, except to call every reader's attention to the obvious fact that the beautifying of Haskell is a question of beautifying individual plots. Every citizen can do much to make his or her premises more attractive, and, without waiting upon committees, let's get busy, as individuals, and proceed to do so.

UNSUNG, UNSEEN

They were gay, inspired youngsters, those Fascist youths who departed from Italy for the Ethio-pian conquest several months ago. They were proud of their uniforms, and of their shiny guns; and proud that they had been singled out to disseminate e culture of the "Roman Empire". As they emsarked, bands played, there were peeches, and shouts of praise for "II Duce"-it was hero's sendoff. Now shift the scene to the present. Hospital ships are returning from torrid Africa. Thousands of these Fascist youths line the decks. There is scarecely one who does not bear visual evidence of wounds, sickness, or great hardship. They are a disappointed, weary, diseased and dejected lot. Where are the bands now? The speakers, the glorious shouts of the nation? Nowhere in evidence. A fighting nation cannot waste its time on men whose usefulness has ended. That is a spectacle no country can afford to forget.

A VITAL "ARMY"

Plans of the federal government to reduce the personnel of its CCC camps have drown fire, not only from Congress, but from the nation. Here, it appears, is one experiment of the New Deal that has met common acceptance, or as nearly universal approval as any federal agency may ever command. Nothing else has taught the nation the necessity of conservation as has the CCC. Moreover, the toll of erosion and floods in the last five years has emphasized the vital need of a permanent conservation unit to insure a long-term reforestation and soil control program. Anyone who proposes to trim the federal budget by abolishing this forest army ought seriously to consider first how much it will cost the nation 50 years hence to abandon the CCC now.

CURRENT COMMENT

THE HANDBILL NUISANCE (Fort Worth Star Telegram)

Citizens of Dallas, aroused in a campaign to clean up the city's streets in preparation for the central Centennial exposition, are taking pot shots at the handbill nuisance. An ordinance to prohibit the distribution of this form of advertising is proposed.

Experience of various cities which have revery definite formula for what can be done and and assumed charge of the es- a lot on the north side of the brought home from the Stamford sorted to law to end this nuisance has supplied a on the north side of the square, what can not be done by law. Various ordinance, tablishment. on the subject have been knocked out by the courts but others have been sustained. The main point fruit stand on the southeast corseems to be that the ordinance must avoid discrimination in favor of certain classes of handbills 11 it is to stand up in the courts.

There is no doubt in the mind of any urban householder about the nuisance character of handbills. They litter lawns, front porches, gutters and streets. The distributors trample on shrubbery and flower beds. The practice is so obnoxious to the of the Haskell office and route verage housewife as to destroy entirely its usefulness to those who pay the bills for printing and distributing. It is not good business on the part of merchant to solicit business in a form which anagonizes the prospective customer.

The litter produced by discared handbills on the streets is not, of course, the only clean-up proolem of a city. But it is an aggravation of a problem which exists at all seasons. Texas cities which wish to present a pleasing appearance to Centennial cepted a position with Marvin's isitors have a big job ahead, one part of which is Garage in Haskell. curbing the unwelcome handbill

Choral Club and our high school band, "The Red Spots."

The first two songs by Choral Club were Lullaby and There's A Song In My Heart. The quartet sang, Home On The Range Lights Out and I Couldn't Hear Nobody Pray. The concluding numbers from the Choral Club were, The Road That Brought You To Me and Chinese Lullaby.

The latter part of the assembly program was presented by Rehozey (C. T. Fields) and his "Red Spots" (Henry Stanton, James Roy Akins, Bob McAnulty, Billy West and Jimmy Crawford).

They played and sang a number of songs, in their own pleasing and original style, dedicating The Music Goes 'Round and 'Round to Miss Davis and My Darling Nellie Gray to Anita Jo Simmons. They received a generous applause from the student body.

We wish to congratulae the Choral Club and the Red Spots for their great accomplishment and to thank them for giving us such a fine assembly program.

Intimate Glimpses of Paul. Teachers

Name-Mrs. C. M. Kaigler. Greatest ambition-To be good dramatic director.

positions. Visiting in our school Friday was Juanita Stone, graduate of 1933. This year she is doing practice teaching of foods work. She states that she is enjoying her work very much.

Juanita will receive her degree this summer. Her major is Home Economics.

Campus Flashlight

It has gone around that boys and girls go to the little ice house around the corner to buy supplies; but I don't think so. When I go there I see boys and girls talking to each other and asking for dates. (Especially Jimmy Crawford).

Did you ever hear of a group for their interest.—The of boys called Troop Zero? It's a group of boys that go to the creek every week-end; and do they have fun. Just ask Jerry C. or Marion

an ex-graduate.

Joe Isbell and Louise Pierson don't seem to be getting along so Davis' study hall. Quiet isn't it' well. We've all heard that love is Much studying is done here be-

Artie Pippen, the dashing 2.20 hurdler, home run king, and hero half back of Haskell is quite sweet on a certain Freshman. The other bal is. She stops suddenly. We night when he took her home at 2:20 and was half-back to the car, made a home run. The funny part about it was that he caught him.

Notes From The Kaigler Studio

Every one is wondering if it was Mrs. Dennis Ratliff, or Mrs.

No. Mrs. Kaigler is not coaching Mayre Lena Tubbs for the district meet. But she's always there at practice time. Well, Doyle Hisey is the one who is being coached.

Problem: Is it Mary Jo's charms clock at the front. that caught Labry, or Eula Fay's that caught T. J.?

John Guest, Oh, My! He doesn't and he won first in Senior Boys' declamation contest.

We wonder why Labry cried on Paul R's shoulder? (Girls don't be late for rehearsal again).

Say, have you heard Joe Maples speak that Texas piece? Well, that proves that he can do something besides toot a horn.

Woodrow Perrin is going to make an ideal husband and father in the one act play, "Borrowing

Say, who is that Haskell High School girl who has the loveliest blond hair, the loveliest eyes, the most marvelous complexion; Stop! That's enough, it's Beverly

Paul Roberts had a black eye the day we had the dramatic club picture made. Paul said he got it at a scout meeting, but we are wondering.

Mrs. Kaigler was out of her studio last week. She was visiting little Miss Carmen Sue Kay, daughter of Mr. and Mrs. Chas. M. Kay of Rochester born April

Edna Tidwell got back in school after her operation for appendicitis just in time to be in the play, "Borrowing Trouble".

What are all of those out-oftown cars doing here. They are from Knox City, Rule, Stamford and Munday. "Oh, just the usual Sunday rush, friends of Ruth Welsh."

Helen Ballard, Ruth Josslet and Birch Wilfong will get two diplomas this year. They are seniors and then they have finished the four year course in speech and will receive a diploma from that

Geraldine Norris was in Law-ton, Oklahoma over the week-end and attended an Faster pageant at Medicine Park.

Boys Organize Glee Club Friday

The Haskell High School Glee Club, sponsored by Mrs. Wimbish, was organized last Friday afternoon. There were twentythree members that were willing to cooperate with the sponsor and each other and make a real Glee

Officers were elected and the ones who were elected are follows:

President-Jack Kimbrough. Vice-President-Artie Pippen. Secretary-Bill Reeves. Treasurer - Robert Wheatley.

Reporter - Bob McAnulty. We hope that more boys will enter, because we want to build extension specialist in home in- up a large Glee Club. Some boys dustries, with headquarters at College Station. She was graduated from N. T. S. T. C. at Denton be sissy. There are no girls and in 1923. She received her high it certainly is not a sissy matter.

Senior Class Has New Member

The seniors wish to extend a hearty welcome to the new class member, Jack William Baker. He did the first part of his senior work in Tanner High School, Decatur, Alabama. Jack William is staying with his uncle, Mr. H. T.

Freshman Edition Of The Warwhoop

The following items should have appeared in last week's "Fresh-man Edition" of the Warwhoop, but were omitted because of lack of space. We appreciate the efforts of the Freshmen in submitting this material, and thank them whoop Staff.

Glimpses

Although this is just a column It seems that Melba C. gave of the Warwhoop, we hope you Thomas Lee the run around last catch a glampse of dear old Has-Sunday night wien she went with kell High in church. In case you don't know it, we are now going to church instead of school.

The first period we see Miss Davis' study hall. Quiet isn't it? blind, and I believe in this case its hard of hearing.

cause we have classes the second period. Now let's go across the street to the Methodist Church. As we enter the freshman English class we hear Miss Vick explaining to the class what a verwonder why. Oh, yes, I see Joe M. is starting to talk again. When her father came out and Artie made a home run. The funny part class, in the main auditorium of the Methodist church. Just listening we wonder what those little freshmen are talking about; but if we ask we find they are studying the human body. I guess they study the body from several an Church. There isn't much ex- one away from a senior's name

citement there but we do see a Let's all make this time count, good many students studying. especially in our weakest courses About the middle of this study 'cause we'll have plenty of time hall we get sleepy and hungry, to waste when its too late to use but lunch is just around the cor- it on this term of school. ner-about fifteen minutes longer. We can always tell what time is because we have an alarm

Well, so far so good, but we find trouble in Miss Riley's history class. Too many students lessons and have time to fool with girls these days. He's an "A" pupil, he's sion. You know we get such a been leading man in several plays thrill out of history, if you're getthey can't take art in the discusting a bit tired now you can sleep the next period because we don't have any algebra to bring up for the seventh period. Well, so much for Mr. Sullivan's study hall. Now, in the auditorium of the Methodist church we have something interesting. But we have to hurry because we might be a bit late to hear about it. But as you're just visiting, I'll tell you, we do not have an algebra test today. As

algebra progresses, we find problem that someone can't solve, so Coach Richey works it on the blackboard. If the problem is hard we have to erase several times, because the blackboard is only about 3x5 feet. As the bell at the end of the seventh period rings we think of the good times we will have this afternoon because we have only seven periods now. But we have to put all our books in the Christian Church. Well, so long until tomorrow, be-

diseases. This is something you cannot afford to miss. Tuesdays and Fridays classes are meeting at the Haskell cannery at present.

The class in dramatics will meet at the Baptist church. These classes are free and you are urged to attend one or all of Reporter.

Methodist Revival Gains In Interest

The Methodist congregation was greatly encouraged by the start made in the revival on Easter Sunday. Extra chairs had to be brought into the large auditorium. The song service was inspiring and the general spirit indicated much interest in the meeting.
This is the ladies week. They

are responsible for the attendance. Friday night there is to be a mother's service. A big snake story is our attraction for the Sunday school pupils service for Sat-urday night. The high school is extended a special invitation for sunday night.

Next week is Men's week in the revival. They may bring all the family, of course. Tuesday night a special San Jacinto pa-triotic celebration. Wednesday. night. All ex-service men and their families are to be guests of the revival Friday night. We will hold a service honoring Fathers.

The public is invited to all services of this revival. Our special prayer is offered for the success of the revival at the Christian Church and for all religious work in Haskell, that Christ may be crowned king of our lives and become the head of every home the supreme object of devotion in every heart.

A New Refrigerator Is An INVESTMENT - A White Seal Is A SAFE INVESTMENT

Style That Stays Up-to-Date

While White Seal models are as modema morrow, they're in such excellent taste reflect the artistry of the smartest dest that you know they'll never go out of data years from now you'll be proud of a Whitel in your kitchen.

A Finish That Defies Time

The White Seal is finished in Dulux, a baked automobile finish. It doesn't chi crack and will stay beautiful for years. whisks with a damp cloth cleans every perfectly.

Insulation That Reduces Ice Bill

Nothing is more important about a refrige than its insulation. White Seal insulation approved quality and very thick. It keep bills down and assures low safe tempera in the hottest weather.

Galvannealed Steel Cabinets

White Seal cabinets are made of galvannealed steel. On White models where specified, the outside cabinet is welded into one ous piece. Galvannealed steel, as most people know, offers mi resistance to rust, under even the worst conditions. It makes
White Seal last far longer! Insist on a Galvannealed cabinet to tect your refrigerator investment.

Touch-A-Bar Hardware

Here's the last word in modern convenience for busy home-Just a touch against the handsome metal bar and the door swings automatically. Even when your hands are full of dishes, you can the door easily with your finger or elbow. Supplied on all where specified and illustrated.

Bar-Type Shelves-Storage Basket

The shelves in the White Seal are flat, so dishes won't tip over, easily removed for cleaning. As an extra convenience, many Seal models are equipped with a convenient sliding storage Suspended under the middle shelf in the food chamber, it keeps eggs and other small articles always handy.

Plus the Integrity of a Name

The manufacturers of White Seal refrigerators have made refritors since 1895—over 40 years. The plant today is the largest United States, producing more refrigerators each year than any in the country. You can depend on White Seal, to off outstanding value for your money and to give year after year of free, entirely satisfactory of its contraction.
