Robertson's Begin Annual Clearance Sale; Starts Friday

The annual Clearance Sale of R. V. Robertson, Dry Goods, will open tomorrow (Friday) with big price reductions, in all departments of the store. The Robertson Store is one of the oldest firms in Haskell having opened for business forty years ago. They have made it a practice during their entire business career to hold two clearance sales each year in order to dispose of the merchandise on hand and make room for seasonable goods. The sales staged by Robertson's have always been a sale of reduced prices on every item in the store and the buying public have realized this fact during the past years. This year they are offering a special discount, of five per cent, from their low sales prices in the form of a special coupon in their advertisement in this issue of the Free Press if the coupon is clipped and presented at the time of making th

Indians Victorious 19 to 0 Fire Department Is In Tilt Last Year; Game Will Attract Crowd

With every player on the Haskell high school football team in fair the Turkey Day tilt here Thursday against Anson, before one of the largest crowds of the season. The game will start at 2:30 p. m.

The records of the two contesting teams are both spotted, which has caused local "dopesters" to scratch their heads many times in an endeavor to figure the possible winner. On the basis of Anson's battle with Rotan, who smacked Haskell severely, the invading huskies would receive the nod from practically every one, because they held the conference leaders to a 0 to 0 tie. On the other hand, they also tied with Stamford, who were beaten by the local warriors 27 to 0. Anson beat Hamlin 61 to 0, while Haskell tommyhawked them 12 to 6.

The Haskell tribesmen beat Anson 19 to 0 last year, but the latter (Continued On Page Eight)

Rule Marshal Dies from Sudden Heart Attack on Monday

(Continued On Page Eight)

Henry Townsend, city marshal of Rule, died Monday from a sudden attack of heart failure. He was about 56 years of age.

The deceased had been city marshal of Rule for the past ten years, and was regarded as one of the best death grieved the citizenship of the entire county.

According to reports, Townsend had attended a fire, and was seized with an attack. He was rushed to a physician, who administered treatment. Townsend was then taken to his home, where another stroke occurred shortly. The physician was called again, but Townsend passed away while being treated.

The funeral services were held Wednesday.

Friends of the deceased from all over this section attended and paid their last tribute.

Dave Leflar, Former Haskell School Boy, to Attend Hawaiian College

The following sport item written by Bob Marks in the Albany (Oregon) Democrat-Herald will be of in terest to Haskell county people as Dave Lefler graduated from the Haskell Grammer School in 1926 before moving with his parents, Mr and Mrs. S. M. Leffer to Portales. New Mexico.

"Among those who will fail to answer Coach "Red" Rupert's call for returning lettermen at Albany co lege on September 18 will be Dave Lefler, tackle and center, who is now en route to the Hawaiian i lands for a year's stay.

Leflar, one of the largest men on the Pirate squad for the past two years, will be missed. He played the greater part of his time at tackle started a few games at center and saw several minutes of action at ber of Dave Leflar. His return next end.

The Pirate footballer, who will be a junior this year, goes to the Hawallan islands as the recipient of ar exchange scholarship granted by the Young Men's Christian associations of the University of Hawa and Albany college. Dave was the alternate, but gets to make the trip in place of Merrit Morgan, original winner, who was unable to go because of illness in his family,

Although Leffar was reticent to leave Albany college, after spending two years here, the opportunity was not one to be thrown aside. He will stay in Honolulu until June. en he will return to Albany to spend his senior year at the local in stitution. The University of Hawa: is sending a Japanese student to Albany this year, as its part of the exchange program.

Dave Leflar came to Albany about the first of October, 1931, not knowa soul in the city. He registered at Albany college, played football, became prominent in student body affairs, and at the time of his depart

BELTON-Bell county farmers neted almost one and one-half milion dollars more for their cotton crop this year than in 1932, it is revealed in figures compiled by Geo P. McCarthy, county agent. The 1932 net return to producers was \$906,200. This year the produces will net about \$2,366,592 including cotton plow-up money, an estimated net return of 4 cents per pound on optioned cotton, and payments to

committees for campaign work. The 1932 crop totalled 46,000 bales

which sold for 6 cents per pound while the present crop totalled 50. 000 bales which sold for 9 1-2 cents the 1933 crop will bring \$1,460,392 more to farmers than that of 1932.

plan to be offered growers who sign Government contracts for 1934-35 provides for total payments of \$120. 000,000 of which 90 millions are to be paid in the form of land rentals and 30 millions in "parity" pay ments, according to C. A. Cobb. chief of the Cotton Section of the Agricultural Adjustment Administration. In explaining details of the new plan to county farm and home demonstration agents at their annual meeting at A and M College last week Mr. Cobb emphasized that the plan is not yet in its final form and may be modified later.

As tentatively set up in the plan, land rentals will be paid on retired cotton acres at the rate of 3 cents per pound for the average five-year production. Land producing an average of 125 pounds of lint per acre for the years 1928-32, for instance, would be entitled to a renthave as their guests Mrs. Forgy's al of \$3.75 per acre. The minimum mother and sister, Mrs. M. E. Stagg payment would be \$2.25 per acre for a production of 75 pounds of lint per acre, and the highest would

be \$14 per acre. Land rental payments are exlandlords making satisfactory at rangements with tenants. In the case of large properties where fewer tenants may be needed next went the Government will probably urge landlords to allow the dismissed tenants to remain in their houses and to work food and feed crops for their living out of the retired acres. For other necessities tenants may be able to work as day laborers for the landlord.

THANKSGIVING DAY

How the observance of a day of Thanksgiving by the Pilgrims after their first harvest in 1621 was the beginning of what has become a national custom is well known. The story of how this custom gradually became widespread has also been frequently told.

But few of this generation know that the establishment of a uniform date for Thanksgiving Day was brought about by a woman, Mrs. Sara Josepha Hale, born in Newport, N. H., in 1788. Left a widow with five children she took up writing as a means of support, and was editor of a women's magazine from 1828 until 1877.

She founded the first Seaman's Aid Society in Boston, raised a large sum in aid of the Bunker Hill monument and was active in many movements for the advancement of women. When in her early forties Mrs. Hale began her long campaign for making Thanksgiving Day a national holiday and its celebration on the same date throughout the country.

For about twenty years she wrote editorials in her magazine, and bombarded presidents and governors with personal letters in support of the idea. Finally President Lincoln adopted her suggestion in 1864 and designated the fourth Thursday of November as a day of national Thanksgiving. Since then his example has been followed by all succeeding Presidents.

While it will seem to many that they have little in the way of material blessings for which to be thankful this year, we may be mindful of the spirit of sympathy and practically helpfulness which has greatly developed during the trying times through which we are passing. Never before has such interest been shown in the plight of the unfortunate, nor more earnest and sacrificing efforts made for their relief. For these manifestations we may be thankful, as well as for the indications that conditions have begun to improve, that our faith in our national future is fully justified.

AUTO POWER BY RADIO

Another prediction which may soud fantastic was made some time ago, to the effect that we shall in a few years have automobiles that will run without fuel, the motive power being supplied from a central station by

The idea is advanced, not by a crank or visionary, but a no less authority than G. M. Williams, president of the Marion company, who declares that such a plan is receiving serious consideration by leading automotive engineers.

According to this plan, each car would have a certain wave-length, and by throwing the switch a generator of corresponding wave-length in the central station would supply the power. Many cars might have the same wave length, so long as the total load could be carried by the corresponding generator.

We do not vouch for the practicability of this suggestion, but only pass it on as an indication of what may happen. In any event it illustrates the daring conceptions of the modern engineer, and who can say that the idea may not some day be made to work?

BANNING OF FIREARMS

Former Commissioner Whalen of New York wants legislation to prohibit the sale of firearms, on the theory that criminals would therefore be unable to get them. This brings up an old question in which there is room for argument on both sides, but we doubt that a no-gun law would help much.

The trouble is that the professional crook would find a way, through smuggling, bribery or other unlawful means, to get his gun anyway. Even if all firearms were required to be registered it would take another army of inspectors to keep track of them, and besides, every criminal would provide himself with a good sized arsenal before the law could be put into effect.

Maybe the object sought by Mr. Whalen could be accomplished the other way around-by making it compulsory for everybody to carry a gun after sundown. Then the crooks would have less advantage.

LET'S NAIL ANOTHER **BIG WHOPPER!**

Glibly, many mistaken people point out that "Opportunity" knocks but once at every man's door. What a "whopper," or in other words a distortion of the truth.

REAL OPPORTUNITY knocks at every man's door EVERY DAY. It is knocking at your's RIGHT THIS MINUTE! Today you may think you'll wait until "tomorrow" before you see a reputable insurance agency, but THAT opportunity may be lost by that time because of what may happen tonight. If you have anything left after the disaster, you may insure the remainder, and grasp that opportunity, but why not be wise and make sure that ALL is covered. We write insurance that will PROTECT.

Dog-gone, if we're not going to confine our attendance at sporting events to checker tournaments. This game of football, with all the rules and technicalities and referees with which it is inflicted "gets in our hair", to say the least.

While there are always two sides to a question, (except when you're arguing with your wife) and a referee may be right one-tenth of the time, it appeared to this ignorant observor that our football boys reome from the earth

Time after time Indian players vere penalized for infractions of the rules, probably deserved, but it's dog-gone peculiar to us why one team is penalized so much and the other isn't. We have good eyes, and upon at least three different ocasions we saw Roscoe players using their finger-nails around Haskell player's mouths after they were lown and the ball out of play. Jack Bynum was the recipient of a few dirty nails once. But did the referee see it? Apparently not.

A. C. C. officials may be among the best in the country, but we hope we never have to watch their work again. The referee Friday appeared, to us, to be of the type that watches the smaller infractions so closely that he misses the larger

There's no question in our minds that Roscoe has the better team. Not in the least. They displayed better team-work and greater blocking ability. When the ball was given to Shilansky (oi, oi, vot a player that boy iss), his interference kept right with him, instead of being scattered all over the field as it has happened for Haskell upon numerous occasions.

There's good material in this Hasscale the heights.

The Indians should beat Anson by at least three touch downs, but we had rather see them lose to a team like Roscoe by a close score than to batter a team like Anson or

Many Haskell people are expecting to visit in Stamford and Wichita Falls Thanksgiving!

Since seeing Mae West in "I'm No Angel" we hope Haskell girls don't start saying "unhh" and rolling their eyes.

One reason why we want to go to heaven is to be present when the so-called bad are separated from the so-called good and see the surprised look on a lot of the "goods" when they are lined up in a different pew from what they thought they would be in because they used so much of their time telling the other fellow what to do instead of keeping their own lives spotless.

After listening to the "plans" of nany men working for the govern ment offer which are meant to help the cotton farmers, we advocate stronger than ever the placing of Peter Molyneaux, editor of the Texas Weekly, in charge of such

Use This Laxative made from plants

Thedford's BLACK-DRAUGHT is Thedford's BLACK-DRAUGHT is made from plants that grow in the ground, like the garden vegetables you eat at every meal. NATURE has put into these plants an active medicine that stimulates the bowels to act—just as Nature put the materials that sustain your body into the vegetable foods you eat.

In Black-Draught you have a natural laxative, free from synthetic drugs. Its use does not make you have to depend on cathartic chemical drugs to get the bowels to act daily. Now you can get Black-Draught in the form of a ETRUP, for CHILDREN.

ginning facilities to requirements of the particular communities.

Secretary Wallace pointed out that under terms of agreement farmers are not directly represented on the State committees except as they are members of the co-operatives and that the agreement made no provision for supervision either by public agencies or by farmers representatives over the drawing of cottonseed samples, but which he thought should be done. The price structure and conditions continue only for the present ginning season. The industry is to organize State chairman shall constitute a national administrative committee.
