Five County Horse Show Here Saturday

The Knox City Arena will be the scene of the Five-County Horse Show Saturday, May 16, at 10:00 a.m.

The show which is limited to residents of Knox, Foard, Haskell, King, and Baylor Counties will be judged by Jimmy Poole of Stephenville.

The show will feature novice classes for beginning horsemen. Officials hope that youth in the five county area who are not experienced showmen will take advantage of these classes to get started showing in the judged events and/or running in the timed events. The age division in the novice classes will be the same as in the regular classes, which are 13 and under and 14 through 18.

Open classes are available for adults and any youth wishing to enter them. Points earned will count only in the division in which they are earned.

A walk/trot class for youth six and under will also be featured. Leadline will be optional.

A contestant may enter as many horses as he likes, but must declare his point horse when entering.

There will also be halter classes for stallions, mares and geldings. Stallion handler must be at least 19 years old.

Performance classes will include showmanship, western pleasure, western horsemanship, reining, trail, barrels, flags and poles. No stallions allowed in youth performance classes.

For more information, readers may contact Mrs. Joe Boone, Knox City, 817-658-3916, or Bob Cude, Goree, 817-436-3111.

Auxiliary Reminded Of May 18 Meeting

Knox County Hospital Auxiliary members are reminded of an important meeting coming up next Monday night, May 18, at 7:00 o'clock in the downtown Thrift Shop.

Auxiliary president Peggy McGaughey said that it was important for a good turnout Monday night to discuss the purchase of a new heart monitor for the hospital. The auxiliary has been in the process of buying this equipment for the hospital for several months but has been hesitant to decide on one until it met the approval of the doctors and nurses.

A monitor was brought out last week from Dallas and auxiliary members need to let their opinions be heard Monday night.

4-H Leaders' Meal Well-Attended

Over 400 persons ate barbecued buffalo at the annual Mother's Day Barbecue in Benjamin Sunday. The event was sponsored by the Knox County 4-H Adult Leaders Association.

Association president Ed Daniel, who also served as head cook, reported the group was very pleased with the public's response and expressed the appreciation of the association for the excellent turnout and support.

Daniel also expressed appreciation for all the hard

work to all who helped with the preparation and serving of the meal and the clean up operation following it. Special thanks went to Lewis Spinks, Bobby Roberson, Bud Carver, and Joe Barton who did the cooking, and especially to Gae Spinks who made all the rolls for the meal and helped organize much of the event.

The Purina Company donated the plates and cutlery, and the Spring Chickens Demonstration Club of Benjamin donated the potato salad. Beef brisket was donated by Lewis Lyles.

Assisting with serving, ticket sales and publicity were Bob and Ronnie Cude, Mr. and Mrs. Bud Redder, Cheryl Daniel, Shirley Brown, Jimmie Ryder, and Joe Lowe.

The barbecue was attended by persons from all over Knox County and from Crowell, Paducah, Guthrie, and Haskell.

Daniel also expressed appreciation to Radio Stations KDWT in Stamford and KVRP in Haskell for their promotion of the barbecue.

CROWELL CAP COMPANY'S branch in Knox City is expanding, adding another 1,450 square feet to its existing plant which opened here on North Central Avenue last August. BIO FEEDBACK THERAPY

Some physiological parameter is measured by appropriate electronic circuitry and the resulting signal translated into an audutory or visual display made available to the patient. This enables the patient to alter physiological responses with both voluntary and involuntary muscle control. Bio feedback electronic displays are in the form of flashing lights, modulated tones and visual meters. The patient, while being treated, may observe without difficulty, electronic measurements of ones self-induced physiological control. This is a carefully controlled learning process while being constantly assisted and encouraged by a highly trained Bio Feedback Therapist.

Bio feedback therapy has been widely accepted by the American medical profession and most reputable insurance companies providing health care policies pay for this service provided by the primary care physician.

Rehab Quarter Horse Sale Set June 30

The Rehab Quarter Horse Sale scheduled for June 30 is designed to be a "Classic" event for the Big Country and Rolling Plains areas of Texas. This quarter horse sale is designed to accomodate the market demand for quality halterperformance and racebred thorughout West

The Rehab Quarter Horse Classic will be the lead-off activity for the 1981 Texas Cowboy Reunion. It will serve not only as an excellent marketing channel for wellbred, useful quarter horses, but as a fund raising function of the West Texas Rehab Center. The sale sponsors, Burns-Hutson of Sweetwater, hope to build this into an annual event to benefit the WTRC.

According to Danny Burns, spokesman for the sales managers, the Rehab Centers in Abilene, San Angelo and Snyder provide unquestionable service to West Texas. The WTRC is a non-profit organization dedicated to the treatment of the handicapped of the Southwest. The West Texas Rehab provides quality services to thousands of people each year at no cost. The cost of maintaining a service of this type has become unbelievable, but through tax deductible contributions WTRC's 1981 budget of \$3.5 million can be met through programs such as the 1981 Quarter Horse Classic

The Rehab Classic is an excellent opportunity for horsemen throughout Texas to aid the programs of WTRC. The cost of \$125 to consign a horse to the sale will cover the cost of cataloging and sales promotion, while the commission of six percent of the final bid will be contributed to the Rehab Center for use in administering its

programs. This sale provides horsemen an opportunity to save in a select sale, and at the same time benefit to a worthy cause.

The response to this sale has been more satisfactory. Early consignments include: carrying bloodlines of Three Bars and Double Bid in foal to such outstanding cutting horses as Red Boy Leo and running horses as Letting off Steam (SI 104) by Nativo, yearling colts by leading sire Pacific Bailey out of stakes producing mares, mares by AQHA champion No Double out of Depth Charge, Waggoner bred mares, and many more. Other quality entries are expected by the con-

signment deadline May 30th. Make plans to include this sale on your calendar. You'll be glad you were part of this special event. For more details or to consign contact, Burns-Hutson, 1806 E. Broadway, Sweetwater, Texas, (915) 235-9639.

Application Filed For WTU Coal-Fired Plant

An application has been filed with the Texas Public Utility Commission for a certificate of convenience and necessity for a coal-fired generating plant to be built in North Texas by West Texas Utilities Company and two other operating companies in the Central and South West

Corporation. The certificate is required before actual construction can start on the plant, which will be built on a 1,937-acre tract which WTU purchased from the fabled Waggoner Ranch eight miles southeast

of Vernon and three miles southwest of Oklaunion. The application is for Oklaunion Power Station Unit No. 1, which will have a net capacity of 640 megawatts. Ultimately, three units with a total capacity of 1,920 megawatts are planned.

Cooling water will come from Lake Diversion, 20 miles south of the site. WTU purchased water rights in 1977 from Wichita County Water Improvement District No. 2 and the City of Wichita Falls. Boiler fuel will be low sulphur western coal.

probably from Wyoming Oklaunion will be the first

power plant to be jointly owned by CSW operating companies. WTU, the managing partner, will own 350 megawatts, Central Power and Light Company of Corpus Christi 115 megawatts, and Public Service Company of Oklahoma 175 megawatts. The other CSW operating company, Southwestern Electric Power Company of Shreveport, will not participate. PSO's participation hinges on a favorable ruling by the Federal Energy Regulatory Commission regarding an agreement between the CSW System and members of the intrastate Texas Interconnected System to install direct current interconnections across state lines.

The application states that the plant is needed to satisfy load growth of the companies and to reduce dependence on natural gas as a boiler fuel. Unit One is scheduled for commercial operation by December, 1986. Total cost is estimated at \$675,104,000.

Letters To The Editor

Knox City, Texas May 11, 1981

Dear Editor,

The Knox County Hospital Auxiliary would like to thank all of the people in Knox City, Goree, Benjamin, Munday, O'Brien, Rochester, Rule, and any other community we may have unintentionally failed to mention, for all the donations of clothing, cash, and memorials, plus all the kindnesses shown to the auxiliary since its origin.

We have great plans for the hospital, such as adding a new wing, updating the equipment, and remodeling the old, existing hospital. We hope we can continue to work for this great cause but of course, we need your help. All persons interested in this cause should be heard--please let's continue to support our hospital.
