

WINDING DOWN the day's activities in Knox City last Wednesday with a visit to The Knox County News office were, from left, the Honorable Jack Hightower of Vernon who was guest speaker for the Knox City Lions lun-

cheon, David Counts, local businessman who was Lions program chairman, and Bob Davis of Amarillo who accompanied the congressman. (Photo by Stacy Angle)

## Hightower Is Guest Speaker At KC Lions

By JAMES PATTERSON

Guest speaker for the regular meeting of the Knox City Lions Club on September 2, was Congressman Jack Hightower of Vernon. The meeting was begun with Lion President Dick Evatt presiding, by singing "America". The invocation was given by Lion Secretary John Gillispie.

After a delicious luncheon, the Lion Boss encouraged the Knox City Lions to help in the "MDA Telethon" by taking part in the telephone answering service, taking "MDA pledges" at the West Texas Utilities Office - starting at 6:00 p.m. Sunday and

going through Monday. Also, he presented Membership Recognition pins as follows: 30 year membership to Lion Alton Fitzgerald, 25 year membership to Lion Bruce Campbell, and 10 year membership to himself, Lion Dick Evatt. Also, he recognized guests including Janie Berryhill, Dan Powers, Bob Davis, Doris Crownover, Bobby Burnett, Faye Railsback, Mary Counts, Joe Boone, Dale Bloxham, Greg Clonts, who became a new member, Ray Boyd of Vernon Rev. Bill Trice of O'Brien, Nick Immel of Amarillo, and Congressman Jack Hightower who gave the

program.

Lion David Counts was program chairman and introduced Congressman Hightower, who, in turn, expressed his delight in being in Knox City and in having the opportunity to serve Knox, Floyd and Kent Counties which have been added to his Congressional District. He said these counties would have two congressmen until 1983 and he liked rural counties - he would have difficulty serving New York, because he understood the needs and feelings of people in the rural area better and his efforts are to represent the people who send him to Washington. He

is a good friend of Congressman Charlie Stenholm and they work closely together. Not all the members of the Texas delegation are alike, but they are "close-knit" and that can make a big difference when it comes to the vote. During the period that we've have two congressmen, both will strive to help all the constituents. Concerning inflation, he says, "Government spending is not the entire cause, so many areas have to be attacked, and one of the areas being 'worked on' is government spending. There is constituency for each item of the budget and each thinks that his is the most important." He tries to consider all and still work on the "cut."

In the past, legislators heard the requests and tried to respond to all possible, but no one seemed to look at the total, and a tremendous deficit budget has resulted. Now, studying the budget and trying to come up with a solution brings criticism. When cuts are made, they can't all be taken out of salaries or any other one thing; but better "budget legislation" must be enacted. In making such legislation, a look at the priorities must be considered. One of the priorities which has become a "must" is National Defense. A lot of things that look good on paper do not always turn out that way - high interest is one of them. We have to back up and do something about these things. Everyone wants to be Santa Claus, but no one wants to be the tax collector. Social Security Tax is not paying the bill for retirement benefits and something must be done about it. Social Security may have to be funded differently, but "it will be there" for those who have paid in to it.

In closing, the Congressman said that he was happy to see his friends and to be back in Knox City - that he was glad to serve and wants to be available to all who need him. The name drawn by the Lion Sweetheart was Sammy B. White, who was absent, which means that if he had been present, his wife would have received a pair of hose. So, wives of Lions, see that your Lion is present at all meetings; it could be his name that will be drawn next!

The meeting was closed with the Pledge of Allegiance led by Lion Boss Evatt.

## Town's Namesake At Truscott Reunion

By CLARA BROWN

Truscotts were in Truscott for the first time in many decades on Saturday, September 5, for the annual community homecoming and barbecue.

The great-grandsons of the first Knox County Judge, J.J. Truscott, and the sons of World War II General Lucian King Truscott Jr., saw their family's namesake town for the first time.

Lucian King Truscott III, retired Army officer, now living in Albuquerque, New Mexico, and James J. Truscott, retired Air Force officer now living in Abilene, Texas, grew up on Army posts. They said they feel as if they have a home town at last since they have visited Truscott.

"It seems strange," said Lucian Truscott, "to see your name everywhere you look." They especially enjoyed the giant mural painted on the side of the Truscott community center and the Truscott bank building and post office.

After the barbecue the two Truscotts were taken on a short tour, along with their wives and two of James Truscott's children. They saw the Truscott Brine Dam, the site on China Creek where one of the Truscott families lived in 1883, and the house the Truscotts built between 1900 and 1910 which served as the post office on the Benjamin-Margaret-Crowell high-

way. It is now called the Tom Westbrook house. The Truscotts are believed to have left Knox County about 1910. The time of their arrival is uncertain, but the Baylor County census of 1880 shows that in Township 2 (later Knox County) were living George Truscott, 24, Lucinda Truscott, 17, Lawrence Truscott, 8 months, and James Truscott, 47.

After the tour of the community, Paul Bullion called the families to the microphone where they were introduced to the approximately 300 persons attending. An informal receiving line was set up and many took the opportunity to meet the Truscott families. In appreciation of the visits of the two Truscott families, the Truscott Historical Preservation Association presented a Knox County History to each family and also gave each of the Truscotts a brushed silver coin-medallion.

Beautiful weather helped make the reunion a success. This will be the last reunion on an odd-numbered year. From now on, reunions will be held on even-numbered years along with the Gilliland reunion. The Truscott meeting will continue to be on Saturday with the Gilliland meeting on Sunday.

The delicious meal was catered by Curly Awalt of Knox City and Munday. After the barbecue, music provided by local and neigh-

boring bands was enjoyed until late hours.

A quilt donated to the Community Center by Lucille Hickman in memory of her sister, Larval E. Jones Eubank, was won by Mrs. Lela Hunter of Crowell.

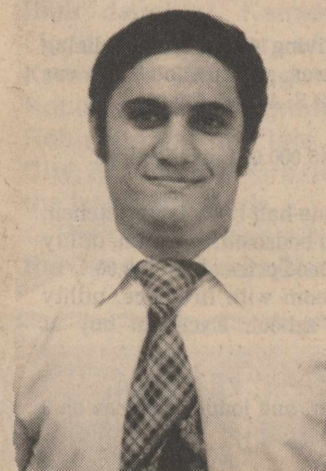

Mrs. Virginia Casey, chairman of the Truscott and Gilliland history committee, reported that much interest was expressed in the history book. The family history section is almost completed and will soon be ready for editing.

"The details of preparing copy for indexing, editing and publishing have proven much more time-consuming than we anticipated," she said, "but we are moving along at a steady pace. We want to finish as quickly as possible, but we do want to do a good job."

The family is residing at 927 Aspen in Knox City.

## Jodie Tankersley Is Buried Here Friday

Funeral services for four year old Jodie Lea Tankersley of Seymour, granddaughter of Mr. and Mrs. E.H. Tankersley of Knox City, were held Friday afternoon, September 4, at two-thirty o'clock in the First Baptist Church in Seymour. Officiating were the Rev. Arthur Tigert, pastor of Calvary Baptist Church in Seymour, and the Rev. John Gillispie, pastor of First Baptist Church in Knox City. Burial followed in the Knox City Cemetery.

## Benefit Tourney Set October 4

The two person scramble at Knox City Country Club to benefit the Hospital Auxiliary has been set for Sunday, October 4, instead of the September 27 date as earlier reported.

Tee-off time is set for 1:30 p.m. and entry fee is \$40.00 per team.

Half of the proceeds will be donated to the auxiliary to help defray the expense of the recently purchased heart monitor.

# Hounds Win Over Hawley In Opener

By DAVID COUNTS

The 1981 edition of the Knox City Greyhounds traveled to Hawley Friday night to take on the Bearcats. Temperature at game time was

warm and the humidity was high.

The playing field was wet causing several fumbles. Even though the Greyhounds won the game 24-0 it took three quarters for the Hounds to take charge of the game.

## KC's Total For Telethon Is \$1130.00

Dick Evatt, local pledge coordinator for the Jerry Lewis MDA Telethon over the Labor Day weekend, reported that he was well pleased with this year's total of \$1131.00, approximately a third above last year's collection.

Evatt said call-in pledges totaled \$904.00 while door-to-door cash collections were \$227.00. He remarked that the children who collected door-to-door did "a great job."

The Knox City Lions Club sponsored the local telethon effort headquartered in the West Texas Utilities office and Lions Club members manned the phones for the annual event, which was telecast over KTAB-32 in Abilene.

The Hounds won the coin flip and elected to receive the opening kickoff. Unable to move the ball, Dwayne Watkins punted the ball to the Bearcat five yard line. James Stafford recovered a fumble on the eight yard to set up Ricky Gutierrez's four yard run for a touchdown. The extra point try failed.

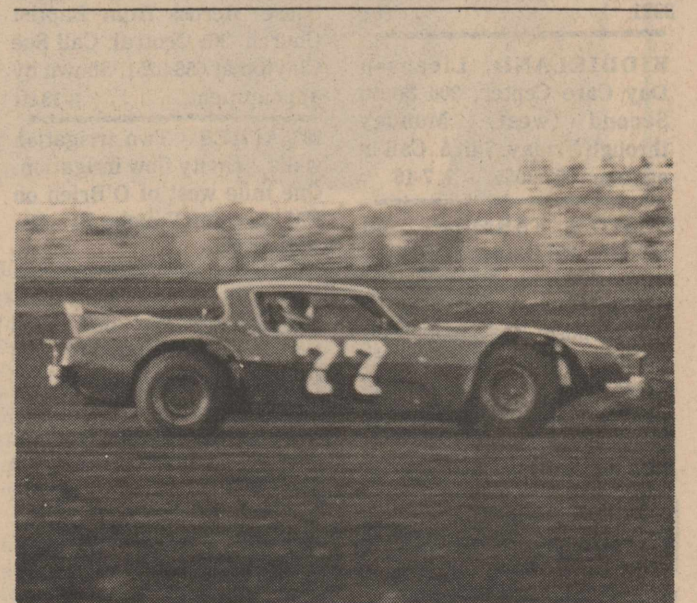

Nothing much happened in the game until the fourth quarter with the exception of some good defensive plays in key situations by the Hounds. Mike Oliver and Kevin Leach each made big plays. Ricky Gutierrez and David Flores each recovered a fumble and James Stafford intercepted a pass.

The second half was very good for the Hounds. They allowed the Bearcats minus one yard total offense.

The Hounds dominated the third quarter. A fumble on the Bearcat three yard line negated one good Hound drive.

SPEEDWAY WINNER - Danny Lewis, driver of the red Camaro number 77 sportsman class, owned by Bobby Vasquez, came in tenth place this season out of 39 fast cars during racing held each Saturday night at 8:00 o'clock on the dirt track at Armadillo Speedway, two and one-half miles west on Highway 80 in Abilene. Danny commented that he had only one regret, being that racing was over for the 1981 season. He is looking forward to the 1982 season.

The Hounds took complete charge in the fourth quarter. On an eleven play drive, Ricky Gutierrez scored on an eight yard run. A pass try for two points failed.

On the first play after the Hounds kicked off, the Bearcats fumbled the ball and Richard Daniel recovered. The Hounds could not move the ball and had to punt.

Steve Lynn made an excellent defensive play to force the Bearcats to punt. Rance Hacker behind a convoy of five blockers ran the ball 26 yards into the end zone for a Greyhound touchdown. The try for points failed as a pass fell incomplete.

On the third play after the kickoff, Rance Hacker intercepted a Bearcat pass and returned it to the Hawley 35. James Stafford ran for 10 yards and the 15 yards. Steve Lynn ran for nine yards before Stafford ran the last yard for the final touchdown. The kick try was no good.

The victory was a good start for the 1981 season.

Results of the other district 4-A teams included Rochester 0, Crews 13; Rule - Open; Aspermont 47, Roby 7; Jayton 50, Spur 0; Throckmorton 36, Saint Jo 0; Newcastle - Unknown.

## Grandparents Day Set For September 13

National Grandparents Day will be celebrated September 13, the fourth such observance since proclamation of this special occasion in 1978. Its purpose: "to foster respect and honor" among those for whom the day is named.

Grandparents Day is a relative newcomer among family celebrations. Mother's Day was first held in 1914 and Father's Day in 1924.

The National Association of Greeting Card Publishers, Washington, D.C., keeps tabs on these special events, researching their origins and compiling data on the manner in which they are celebrated.

Grandparents Day stems from the joint effort of Marian McQuade, a grandmother from Oak Hill, West Virginia, and Mike Goldgar, a grandfather from Atlanta, Georgia, each of whom had campaigned independently for such an occasion since the early 1970s.

In a continuing effort for observance of the holiday, Goldgar founded the non-profit National Council for Observance of Grandparents Day in Atlanta.

The council is assisted in its efforts by a civic advisory board consisting of organizations concerned with the role of grandparents in today's society.

The following is a random look at grandparenting as seen by these groups as well as interested sociologists and psychologists:

While many grandparents possess a better health and financial resources than previous generations, they may still feel alienated or lonely within families that are separated.

There should be a conscious effort on the part of parents to strengthen the bond between grandparents and grandchildren.

Grandparents are oral historians and the best qualified biographers to tell their grandchildren stories which automatically link three generations.

If visits with grandparents are impractical because of time or distance, written communication from children to grandparents may bridge the gap. Letters and greeting cards are an effective expression of loving concern.

When both parents in a family are working, grandparents can be ideal surrogates, giving the children the reassurance and support they often need, particularly in times of stress.

Grandparents are natural role models. They tend to have well-defined ethnic, religious and cultural backgrounds.

## FIRST AID FACTS

1-2-3's of Home Medical Care

A few moments of planning can prepare any member of the household to tend to minor daily emergencies that require first aid treatment.

First, check your medicine cabinet. Is it adequately stocked with Band-Aids in assorted sizes, gauze pads, rolled gauze, and adhesive tape?

Show all family members where these dressings are stored, making sure that every item is visible, so no one has to hunt for things when there is no time to spare. You may also want to clip this article and tape it to the inside of your medicine cabinet for reference.

Always cleanse all minor wounds with mild soap and water. Remember to wash your own hands first to

Prepare ahead against emergencies.

prevent germs from entering the cut or abrasion. Then, treat with a first aid cream or topical antibiotic for further protection.

To prevent contamination and to absorb fluids leaking from the wound, cover with a gauze dressing. First, fold the gauze in place and secure with a first aid tape. If the wound is small, use a Band-Aid. Covering a wound also protects against reinjury.

First aid experts caution that deep wounds or serious burns require immediate medical attention. Take the victim to the doctor's office as quickly as possible. If you cannot reach your doctor or you have no family physician, take the patient to the closest emergency room for treatment.

Any time the skin is broken due to an injury, tetanus may result. So check with your physician to see if a booster is needed. Children's inoculations are usually up to date, but adults somehow feel that they are not vulnerable and this leaves them open to dangerous illness. Parents should keep records of all inoculations, yes, including their own and provide for booster shots whenever necessary.

## Says Well-Known Auctioneer

# Horse Sale To Be Biggest Ever

The chairman of the Cattlemen's Round-Up for Crippled Children horse sale says this year's sale will be the biggest ever.

Perhaps it's because this year, he's a patient at the West Texas Rehabilitation Center and has experienced first hand how the money raised at the horse sale will be used.

R.C. Williams, involved in CRCC since Conda Wylie

Here's a hint for home entertaining. If you're thinking of having a party, now is a perfectly good time to start your planning.

Pick a date. Decide the theme and menu. Make your guest list.

To get your party on everyone's calendar, send save-the-date messages early. The bigger the party, the more notice you need to give. This notice builds excitement for the event as well as preventing scheduling conflicts.

\*\*\* An easy—also quick and efficient—way to do this is via Western Union Mailgram service. Just phone your message and guest list to Western Union. The number is in your phone book.

Mailgram messages are transmitted for delivery with the next day's mail. They're fast and dependable, and they look "important" so they aren't overlooked.

\*\*\* Mailgram messages are perfect as invitations, too, especially for "spontaneous" get-togethers. And if, despite the best laid plans, a party has to be cancelled, Mailgram messages can be used to notify your guests of the change at the last minute.

brought in the first pen of calves in 1960, is known to everyone in the Abilene area as the voice of Abilene Auction.

He's worked in the cattle business since 1924 and at Abilene Auction for 32 years. In the 22 years since the first Cattlemen's Round-Up, he has spent many hours preparing for sales, talking to donors, handling the sales.

"I have never missed a sale," he said in an interview right after his daily treatment at WTRC. Williams's therapist, physical therapist Lu Ann Farmer, says he never misses a treatment either.

A portion of Williams's right foot was amputated in May and the treatment that started in July is to promote healing. When the foot heals, he will be fitted with a prosthesis and will be taught to walk on it at WTRC.

"It's sure done me good," he said. "Everybody out here has been good to me."

Williams still goes out to the auction three days a week, Monday, Tuesday and Thursday, and he broadcasts the auction report from his home.

He's already getting calls about the horse sale, set for October 3 at Abilene Auction.

"Horses are bringing more money than cattle. It's going to be bigger than it's ever been," Williams said.

How much will a horse bring in?

"Whatever you can get—that's what horse trading's all about," he said. He did say that a horse that once went for \$50 now will bring \$600 to \$700.

School Pictures To Be Made Wed.

Students in the Knox City-O'Brien CISD as well as their parents are reminded that school photos will be made Wednesday, September 16.

Senior portraits will be made the following Wednesday, September 23.

He says the cattle market is "pretty good," since he's seen both better and worse over the years. "The cattle business is a good one to go broke in," he said.

He's planning on handling the sale from his wheelchair if necessary and is counting on the best sale ever.

"Tell them to bring us the stock and we'll get the money. We're going to make it a big one."

# TAX FREE STARS SAVERS CERTIFICATE

It helps you where it counts...

On October 1, 1981, Big Country Savings offers the STARS SAVERS CERTIFICATE (Big Country Savings' All Savers Certificate). It allows savers to earn up to \$2,000 tax-free interest for married couples filing jointly or \$1,000 on an individual return. This means that the tax-free dollars you earn with the STARS SAVERS CERTIFICATE will benefit your bottom line when compared to the after-tax earnings from other savings plans (see table below).

Only \$500 is required to open an account. And your tax-free STARS SAVERS CERTIFICATE is insured by the F.S.L.I.C., an agency of the Federal Government. The STARS SAVERS CERTIFICATES earn an interest yield equal to 70% of the investment yield for 52-week U.S. Treasury securities. The yield you earn will be established on the date your certificate is purchased and will remain unchanged for one year until maturity.

We want to help you make the very most of your money. Come in now and we'll answer any questions about the STARS SAVERS CERTIFICATE. It helps you where it counts... on the bottom line.

### COMPARE STARS SAVERS TAX-FREE YIELD TO A TAXABLE YIELD.

NET TAXABLE INCOME	RATE OF TAX ON NEXT DOLLAR OF NET TAXABLE INCOME		THE INTEREST YIELD YOU WOULD HAVE TO RECEIVE TO NET 12.61% AFTER FEDERAL INCOME TAX	
	Married, Filing Jointly	Individual	Married, Filing Jointly	Individual
\$20,200	28%	34%	17.514%	19.106%
\$25,000	32%	39%	18.544%	20.672%

\$50,000	49%	50%	24.725%	25.220%

The approximate figures (above) are based on the 1981 tax tables. The interest yield of 12.61% is equal to 70% of average investment yield on one year U.S. Treasury bills as of the 9/3/81 auction. The rate quoted here can change month to month.

Well, we finally got school started and are through two weeks of school. The various Ag departments are going through the business of settling in and going to work. In Ag III and IV we have been pulling nails and studying the different kinds of plants, soils and machinery used in farming. We all realize how important this is, whether we are growing a section of wheat, a garden or just maintaining a yard. It is important to realize all of the many factors that go into farming. There are the long hours of

work, the use and repair of machinery, the understanding of what crops to plant in which kind of soil, the right fertilizers, the use or non-use of water, and the harvesting techniques; all are factors in determining which crops will give the most return.

**How Convection Cooking Differs From Microwave**

Two ways to save money and energy while cooking foods faster are convection and microwave cooking. Though each makes cooking easier, there are important differences between the two.

Convection cooking is a dry heat method, using hot air circulated by a high-speed fan to surround the food, quickly browning and sealing in juices. Microwave is moist cooking. It is a form of "electromagnetic" energy that causes the water molecules found in all food to vibrate, producing heat that cooks the food.

more even. Special rack accessories enable two level baking and broiling.

Both convection and microwave are energy-efficient methods of cooking. Convection, which has been used in restaurants for nearly 30 years, cooks foods at 25 degrees lower than normal required because of the rapid hot air circulation. This Microwave cut down on counter-top oven can cook a 19-pound turkey in less than three hours, shut itself off and keep the brown and juicy bird warm until you're ready to serve.

Convection and microwave cooking may differ a good deal from each other, but when they can be combined to cook in the same Sharp Electronics Corporation oven, it seems that could be a very good deal for the consumer.

By MELISSA WHITLEY

We finally made it - we have seventy members in the Greyhound band this year!!! Since three weeks before school started, these members have been practicing on both marching and playing. We feel we are off to a better start than we have been in years.

We also voted to try a new style of marching - the 6-to-5 or corps style. Many larger bands use this marching method because it eliminated many of the marching errors

## Nutrition News and Notes

If you have a healthy interest in the food you eat, here's some nutritional information you should find nourishing.

• Vitamin C, what many experts refer to as the "glue" that holds the body together, is water soluble, and cannot be retained in the body for further use. It must be "reapplied" every day.

• One of the world's most important cereal crops is rice. It has one certain advantage over other cereal grasses such as oats, rye, wheat and barley. Rice does not create many of the allergic conditions of other cereals, and it has a better vitamin profile than other related cereals.

• A versatile yogurt culture that's considered good for intestinal hygiene is acidophilus. Acidophilus reintroduces friendly bacteria and is often taken when one is using an antibiotic. One company, Schiff, perhaps the most respected name in nutrition, offers its Acidophilus Preparation in a powder form in a two piece capsule. This allows the organism to revive when it enters the moist atmosphere of the stomach, and start to do its work efficiently.

A complete catalogue of that company's wide range of vitamins, minerals and food supplements is available free by writing to: Schiff, Dept. N, Moonachie Avenue, Moonachie, N.J. 07074.

**POST NASAL DRIP  
BEGINS  
IN THE NASOPHARYNX**

To maintain moisture, the nasal passageways produce copious quantities of both a watery secretion and a thicker mucous. A certain quantity always lingers in the upper throat or nasopharynx. If an oversupply accumulates, particularly of the mucous, the result is a post-nasal drip.

Some basic causes are air irritants, smoking, chemical or physical damages to membrane, gross deformities in nasal passageways, climate, altitude or humidity. Gargling is not considered effective. Do not neglect medical treatment of post-nasal drip. Otherwise the tissues thicken, resulting in permanent deformities which require surgical correction.

## Easy Spicy Corn Relish

Here's a simple recipe for a deliciously spicy corn relish you can make in a few minutes today and eat tomorrow. Take the relish on a picnic to spread on ham sandwiches, serve it with fried chicken, or bring it to a barbecue with hot dogs or hamburgers. Made with fresh corn which is plentiful now, the spiciness comes from instant minced onion, mustard seed, turmeric, celery seed and ground black pepper—all available on your supermarket spice shelf.

### EASY CORN RELISH

- |                                    |                           |
|------------------------------------|---------------------------|
| 1 cup cider vinegar                | 1 teaspoon salt           |
| ½ cup water                        | ½ teaspoon celery seed    |
| ½ cup sugar                        | Pinch ground black pepper |
| 2 tablespoons instant minced onion | 4 cups fresh corn kernels |
| 1½ teaspoons whole mustard seed    | ½ cup diced green pepper  |
| 1 teaspoon turmeric                | ½ cup diced red pepper    |

In medium saucepan combine vinegar, water, sugar, onion, mustard seed, turmeric, salt, celery seed and black pepper. Bring to a boil. Reduce heat and simmer, covered, for 15 minutes. Add corn and peppers. Simmer, covered, until vegetables are just tender, about 5 minutes. Remove from heat and spoon into a container. Cover and refrigerate until ready to serve. YIELD: 5 cups.

"Thou shalt not take the name of the Lord Thy God in vain; for the Lord will not hold him guiltless that taketh His name in vain." (Exodus 20:7)

My son, never forget the things I've taught you. If you want a long and satisfying life, closely follow my instructions. Never forget to be truthful and kind. Hold these virtues tightly. Write them deep within your heart. If you want favor with both man and God, and a reputation for good judgment and common sense, then trust the Lord completely; don't ever trust yourself. In everything you do, put God first and He will direct you and crown your efforts with success.

Don't be conceited, sure of your own wisdom; instead, trust and reverence the Lord, and turn your back on evil; when you do that, then you will be given rewards, health and vitality.

Honor the Lord by giving Him the first part of your income, and He will fill your barns with wheat and barley and overflow your wine vats with the finest wine. The wheat, barley and wine spoken of here represent all of the needs of all who will obey His words and reverence Him. His Word is Truth and can never be changed. To disobey will bring shame and disgrace to the disobedient. God has made it easy to do His commands; He does not ask anyone to do hard things. The life of the obedient is full of great joy and much happiness; with eternal life with Jesus who died for us.

**"As we convert to lignite  
generating, your utility bill  
is going to increase."**

*"But there's good news too!"*

In the early 1970's, the member cooperatives of the Brazos Electric Power Cooperative foresaw continued increasing costs and possible shortages in using natural gas as a primary energy source. In order to guarantee our member/owners the electricity they would need, we began construction of the lignite-fueled San Miguel Plant. Building a lignite-fueled plant is a great deal more expensive than building a natural gas-fueled plant. For example, approximately 30% of the total cost is expended to meet requirements of the Federal Clean Air Act. When we switch to the San Miguel plant as our primary source of electricity later this year, the effect of the high construction costs will make a noticeable increase in your monthly electric bill.

But the cost of lignite will increase more slowly than natural gas, making electricity from San Miguel more economical as time goes on. In future years, this plant will help us to slow inevitably rising costs and assure our member/owners of a reliable, available source of electricity. We believe THAT'S GOOD NEWS!

Because we saw the need early and acted on it, we will have more control of future fuel prices affecting the cost of electricity to the member/owners of the Brazos Electric Power Cooperative.
