Interest In Local and State Races Is Developing

R. A. (Bob) Stuart, candidate for Railroad Commissioner, outlined his platform to Haskell voters in an address Wednesday. Stuart favors abolition of the ad valorem tax, and payment of old age assistance by conserving oil and gas now being wasted in the oil fields to provide necessary capital.

Traveling Trophy Brought To Haskell As Stimulus For Visits

Haskell Lions were hosts Tuesday at noon to a group of visitors from the Munday Club, who also brought to this city a "traveling" trophy from the Carthage, Mo., Lions Club—a miniature marble statue recently adopted as a stimulus to encourage frequent visits between clubs in neighboring cities. President R. R. Davenport of the Munday Club explained the purpose of the small statue to Haskell recipients. The trophy, marble replica of a lion, is to remain in custody of the Haskell Club until their next regular meeting. On the following meeting date a delegation of members from the club must carry the trophy to some other Lions Club as a memento of their visit. The purpose, conceived by Carthage, Mo., Lions is meeting with hearty favor as a means of encouraging more frequent visits between the civic organizations. Munday Lions were the fifty-first recipients of the trophy on its rounds. The visitors also had charge of the entertainment program of the local club for the meeting, with Wade Mahon and Lee Haynes, visiting Lions as the "goats" in a mock trial. Attendance for Tuesday's meeting was considerably larger than in previous weeks. Visitors registering from Munday were: E. W. Harrell, Wade Mahon, Paul B. Pendleton, Boyd Corley, Lee Haynes, L. M. Palmer, John Easley, R. R. Davenport and W. R. Cabaness.

"Red" Hodges, Southwest speed demon who has appeared several times on the Haskell track, will be here again during the Summer Race Meet July 3-4 in a new racer with which he expects to settle once and for all his dispute with Herschel Buchanan, Haskell.

Annual Encampment Will Be Held July 18-29 On Clear Fork

Plans are near completion for the West Texas Baptist encampment at Lueders, to be held July 18 to 29. The encampment, formerly known as the Lueders Baptist encampment is to be held on a larger scale than ever this year, according to the Rev. P. D. O'Brien, of Stamford, camp president. During the first week study courses in Baptist Training Union and Women's Missionary Union work will be studied. Saturday and Sunday, July 23 and 24, will emphasize work of the Brotherhood of Baptist laymen, and the last week will feature Sunday school study courses. Free camping grounds will be available, and both religious and recreational activities will be offered. The camp is on the banks of the Clear Fork of the Brazos river. Noted Baptist leaders to be present include Ollie B. Webb of Dallas, vice president of the Texas and Pacific railroad; Dr. Porter Bailes, camp pastor; Mrs. B. A. Compass, state W.M.U. president; the Rev. J. W. Marshall, secretary of Texas Baptist Student Union; L. E. Waite, Lubbock, director of BTU; J. D. Riddle of Abilene, song leader; W. J. Lites of Dallas, Sunday school director. The Rev. Henry Littleton of Hamlin is camp business manager.

Alternate Plans Will Be Drawn To Utilize PWA Funds

Among the first projects approved in connection with President Roosevelt's spending-lending program enacted by Congress, was the approval of a \$45,000 grant from the Public Works Administration to supplement a \$60,000 county hospital bond issue voted in this county last summer. County Judge Conner and officials of the Chamber of Commerce were advised Wednesday that the grant had been approved by President Roosevelt in telegrams from Senators Tom Connally, Morris Shepherd and Congressman George Mahon and later confirmation from Geo. M. Bull, regional director. PWA approval was based on the original application filed by the Commissioners Court in 1936 and which had never been withdrawn. Administration officials at that time had advised local sponsors that all available PWA funds had been earmarked previous to consideration of Haskell county's application. However, county officials and local organizations continued active in behalf of the application and Courtney Hunt and Dr. J. C. Davis, state representative, were sent to Washington last year to urge consideration of the project. In the meantime petition for a county-wide hospital bond issue was circulated and an election ordered which resulted in approval of a \$60,000 bond issue for erection of the institution. Contract for the structure was awarded to C. H. Mothes and work started on the building proper several months ago. Cost of the building was estimated at approximately \$49,400, but to date only \$7,000 has been expended on construction work, which has been delayed for the past few weeks awaiting material. With the additional PWA grant, a total sum of \$105,000 will become available for building and equipping the institution. Plans for enlarging the building remain to be worked out between Contractor Mothes, the building architects, Butler & Huseman, and the Commissioners Court, which will necessitate holding up construction work now under way until alternate plans for the enlarged project can be prepared to utilize to best advantage all funds available for building and equipping the institution.

Will Discuss Issues In His Candidacy for Lieut. Governor

Known for his aggressive campaigning, Senator G. H. Nelson, of Lubbock County, candidate for Lieutenant Governor, Saturday morning at 11 o'clock, will discuss the issues in his race here before Haskell County voters. He is to use his special sound equipment for the delivery of his discussion. Nelson's speech here is one of six scheduled for Saturday. He is to speak in Seymour before coming to Haskell. From here he goes to Stamford, Abany, Breckenridge and Ranger. He is carrying on what old-timers concede is the most active campaign ever conducted by an aspirant to the Lieutenant Governorship. Nelson, termed the "Rising Star of Texas Politics," opened his campaign in his native East Texas. After several weeks in that section, he went to counties in North, Central and South Texas. Following a week in the Rio Grande Valley, Nelson, Monday, returned to his adopted West, the section that has honored him with the offices of County Attorney, District Attorney and State Senator. He has never been opposed for a second term. Not only is Nelson presenting his record and platform during his current campaign, but he is explaining the importance of the Lieutenant Governor's office. "The Lieutenant Governorship is the legislative throne of our state government," he declared. "He has more power over legislation than the Governor. Through the appointment of free conference committees, he is able to exercise a deciding influence on the passage or defeat of major bills. The people should know before election, and not afterwards, where a candidate for the state's highest legislative post stands." In every sector of the state, Nelson is being labelled the leading contender for the Lieutenant Governor's position.

SENATOR NELSON TO SPEAK IN HASKELL SATURDAY MORNING

Will Discuss Issues In His Candidacy for Lieut. Governor

Known for his aggressive campaigning, Senator G. H. Nelson, of Lubbock County, candidate for Lieutenant Governor, Saturday morning at 11 o'clock, will discuss the issues in his race here before Haskell County voters. In every sector of the state, Nelson is being labelled the leading contender for the Lieutenant Governor's position.

WEST OFFSET FOR PARDUE NO. 2 TO BE SPURRED SOON

Second offset well in the Pardue oil pool south of Haskell is due to be spudded within a few days, after a several weeks period of inactivity in the discovery pool since bringing in of Forest Development Corporation's No. 2 Pardue. The third well, west offset to the second producer, will be located 330 feet from the east line and near the center of J. F. Morgan survey, abstract 315. H. O. Grace, drilling contractor on the discovery well and second offset, was skidding rig and machinery to the new site Thursday. The tract is owned by the Bankers Life company of Dallas, and is a part of the original lease block assembled by Forest last year. An early drilling test is also in prospect on the ITIO block of several thousand acres northwest of Rule, assembled last summer by M. F. Rayburn and later assigned to the Oklahoma corporation. Location for their first test will be near the line of the M. O. Daugherty and Mrs. W. J. Weaver tracts. It was reported. ITIO seismograph crews have made several surveys of the lease block, which takes in portions of the Wise and Coryell county school lands. Top lease price reported paid inside the block was reported at \$10.00 per acre paid for a 160 acre tract.

R. R. COMMISSION CANDIDATE SPEAKS IN CITY WEDNESDAY

Robert A. (Bob) Stuart of Ft. Worth, candidate for railroad commissioner, in an address here Wednesday denounced the perpetual politician and the chronic office holder as being a menace to Texas. He is on a West Texas speaking tour and by Saturday night will have made more than 50 addresses during the week in different cities. "When I am elected your railroad commissioner," said Stuart, "I'll conserve enough oil and gas that are being wasted in the oil field to give sufficient capital to pay old age assistance and let us abandon the ad valorem tax. "Also I'll give relief to the independent truck operator who is being persecuted off the highway that he helps build. I am for oil production but not the kind that prorates the little fellow out of business and prorates capital and industry out of Texas. If we would raise the oil allowable there would come a revival of business—new drilling would start, refineries would reopen and employes would get back to work." Stuart said he is the only man in the race who can defeat his opponent, C. V. Terrell, who has been railroad commissioner for 14 years and who now seeks three years more. He said that Terrell is opposed to old age assistance and that he fired a railroad commission employe for making an address in favor of it. According to Stuart he seeks election upon the record he has made as district attorney of Tarrant County, as state senator, as holder of three major Federal Housing Administration positions and as president of the board of regents of the seven Texas Teachers Colleges, a position he now holds.

R. A. (Bob) Stuart Denounces Politicians As Menace to Texas

Robert A. (Bob) Stuart of Ft. Worth, candidate for railroad commissioner, in an address here Wednesday denounced the perpetual politician and the chronic office holder as being a menace to Texas. Miss Middleton Is Named As Haskell Sponsor at Reunion

Miss Elizabeth Middleton, daughter of Mr. and Mrs. C. C. (Ching) Middleton of the Cobb community, has been selected as Haskell's sponsor at the Texas Cowboy Reunion in Stamford next month. Selection was announced Monday through a committee of the local Chamber of Commerce. Miss Middleton, former Haskell High School student, is a member of a pioneer Haskell ranching family, and is an accomplished horsewoman. She will compete with sponsors from a number of surrounding cities for valuable trophies offered by the Reunion association. All sponsors will be honor guests at a number of social affairs to be held during the Reunion.

RACE DRIVERS FEUD WILL LIKELY FLARE DURING MEET HERE

Hodges, Buchanan Develop Intense Rivalry During Recent Contests. A duel which was scheduled for Dallas June 12 but was cancelled by injury of one of the contenders seem likely to be fought out at Haskell on the 3rd and 4th of July. It happened this way: Red Hodges for over three years held the official crown as the king of dirt track drivers in the middle west. This spring he "stepped

Council Approves New Fire Plug for High School Zone

Purchase and installation of another fire plug near the High School building was approved by members of the City Council in their regular meeting on Monday night. Need for the additional fire protection unit was explained by city water superintendent Rogers Gilstrap. A committee of three aldermen was also appointed to discuss with the Fire Department at their next meeting the condition of present fire fighting apparatus and additional equipment needed. During the evening's session a number of bills against the city were approved for payment. With Mayor F. G. Alexander presiding, aldermen present were John V. Davis, John S. Rike and J. D. Montgomery.

Beauty Operator Completes Course At Abilene School

Mrs. Talma Fraley, owner of the Dolores Beauty Salon in this city, has returned from Abilene where she has recently completed a certified course of beauty culture in the Parsons Beauty School. Mrs. Fraley, a licensed beauty operator, will be in active charge of her shop in the future, with Oma Mae Smith as assistant, and will appreciate the opportunity of welcoming her friends and patrons to the popular establishment.

WHEAT INSURANCE WILL BE TOPIC OF FARMERS' MEETS

Special interest to grain growers of this section will be a series of meetings to be held next week in various communities in Haskell County by County Agent G. Mann and the county crop insurance supervisor, W. S. Sney, for the purpose of discussing the Wheat Insurance Program for 1939. Other phases of the Agricultural Conservation Program will be discussed at these meetings. Monday night, June 27. Tuesday night, June 28. Wednesday night, June 29. Thursday night, June 30. Meetings will start promptly 8 p. m. Every wheat farmer is urged to attend one of these meetings in order to learn the details of the Wheat Insurance Program. Other phases of the Agricultural Conservation Program will be discussed at these meetings.

New Officers of Haskell Chapter R. A. M. Elected

At a stated meeting of Haskell Chapter No. 181, Royal Arch Masons, held on June 13, 1938, the following named were elected and appointed as officers for the ensuing caplular year: T. J. Arbuckle, Most Excellent High Priest; W. D. Hellums, Excellent King; Roy A. Overton, Excellent Scribe; V. A. Brown, Treasurer; J. A. Jones, Secretary; F. L. Daugherty, Captain of the Host; R. J. Paxton, Principal Sovereign; Norman N. Frey, Master of Third Veil; M. E. Overton, Master of Second Veil; Tom M. Patterson, Master of First Veil; T. W. Flenniken, Guard. Announcement is made that a called meeting will be held on Tuesday, June 28th at 8:30 o'clock P. M. for the purpose of installing the new officers. Mr. and Mrs. Norris Price and children of Breckenridge and Mrs. Walter Price of Goree are visiting Mr. and Mrs. Walter Rogers and other relatives this week.

Continuance Is Granted In Case At Throckmorton

Scheduled trial of a criminal case transferred from Breckenridge to Throckmorton, was continued Monday of this week until the November term of district court on motion of attorneys for the defense. In this case, one of the most important on the docket, the defendant was charged by indictment with receiving and concealing stolen property, court officials stated. No other criminal actions were calendared for trial this week. The three-week term will end Saturday, July 2nd. Hon. Bryan Atchison, judge of the 90th district, Breckenridge, will preside during next week because of illness of Judge Dennis P. Ratliff of this city.

Beauty Operator Completes Course At Abilene School

Mrs. Talma Fraley, owner of the Dolores Beauty Salon in this city, has returned from Abilene where she has recently completed a certified course of beauty culture in the Parsons Beauty School. Mrs. Fraley, a licensed beauty operator, will be in active charge of her shop in the future, with Oma Mae Smith as assistant, and will appreciate the opportunity of welcoming her friends and patrons to the popular establishment.

Auto Stolen At Munday Is Found Abandoned Here

Deputy Sheriff Riley Wellen and City Marshal Britton Tuesday morning identified an automobile found abandoned in the north part of town as the machine stolen from B. F. Snoddy of Benjamin, Monday night. The car, a V8 Ford sedan, was taken from in front of a Munday theatre early Monday night, officers earned. One suspect was questioned in connection with the theft, officers said, but no charges had been filed Thursday morning. A Knox county officer came to Haskell Tuesday afternoon to return the car to its owner.

Regulars' Back In Braves Line-Up For Tilt Against Anson

Following a schedule of regular work-outs this week, the Haskell Braves are expected to be in "top" condition for their game with Anson Sunday afternoon at Fair Park, manager Tommy Hall stated Thursday. Several players out because of injuries will be back in the line-up Sunday, he added. Starting battery for Haskell will be Archie Pittman and Coody. The game will start promptly at 3:30 p. m. Mr. and Mrs. Everett Thompson visited her parents, Mr. and Mrs. T. C. Stewart over the week-end.

Snoddy of Benjamin, Monday night. The car, a V8 Ford sedan, was taken from in front of a Munday theatre early Monday night, officers earned. One suspect was questioned in connection with the theft, officers said, but no charges had been filed Thursday morning. A Knox county officer came to Haskell Tuesday afternoon to return the car to its owner.

Behind The Scenes in American Business

By John Craddock

BUSINESS — American businessmen were surprised to learn last week that the present depression is more severe in the United States than in any other country, according to a report by the Federal Reserve Board. The Board pointed out, however, that manufacture of war materials in foreign countries, particularly England, Germany and Japan, is mainly responsible for keeping many factories humming. In America, factory employment is still well above normal in ten industries, farm implements, iron and steel, wirework, cash registers, engines and turbines, machine tools, aircraft, women's clothing, baking, beverages and royan. It is significant that of these 10 all but the aircraft industry are manufacturing essentially peace-time goods. Perhaps America will be enjoying prosperity when other countries are busy paying for their armaments.

WASHINGTON — Although it had made total appropriations of close to \$12,000,000 during its 183 day session, the 75th Congress ended last week with a bitter Senate debate in the final hour over whether the Lobby Investigating Committee should receive an additional \$12,500 to carry on its work. The total appropriations are a peace-time record, equal to approximately \$50,000 for each minute Congress was in session or to \$22 for each man, woman and child in the country.

Bills passed during the session which will have an important bearing upon business include: federal regulation of wages and hours; \$3,700,000,000 authorization for relief and public works, \$1,500,000,000 authorization to the RFC for business loans; crop control and other-normal granary; modification of capital gains and undistributed profits tax; liberalization of FHA financing provisions; granting of power to SEC to pass upon reorganizations of industrial corporations.

PRIVATE SPENDING — While the government gears its machinery to spend more money for relief and work projects, 42,000,000 of America's motorists will stage a spending program of their own this summer, parting with \$1,806,000,000 touring the U. S. from Maine to Mexico. This year's rolling army will be 13 per cent greater than last year and the largest ever to take the road, according to The B. F. Goodrich Company, which made the survey. Of the nation's 25,410,000 passenger automobiles 14,000,000 are expected to join the tourist parade. Each tourist will spend an average of two weeks on vacation and travel 1,200 miles. The nearly two billion dollar flood of vacation cash will keep people employed at 18,000 hotels, 30,000 tourist camps, 158,254 restaurants, 317,000 gasoline filling stations and 95,004 repair shops.

THINGS TO WATCH FOR — New gadgets for the boy's summer camping trip, a short axe made of one piece of steel so that the head can't fly off, a waterproof canvas sleeping bag with full-length zipper that can't come undone in the night-time, a small box flashlight which fastens to the belt and shines red or green for signalling. . . An apparatus for fumigating furniture consisting of a transparent rubber composition tent that forms an airtight chamber under which a can of fumigating gas is placed. . . A man's vest with a zipper pocket on the inner side for bills and change. . . Lower prices for American pimientos as plantings exceed previous record year by 33 per cent. . . More home builders specifying aluminum window frames in their instructions to architects and contractors. . . Receipts of aluminum, non-corrosive qualities and lightweight. . . Household mechanical refrigerators which make carbonated water as well as ice. . . An electric chair for chickens to eliminate the old method of killing by decapitation.

ROUNDABOUT CIRCULARS — When a business recession sets in, advertising men have to dig up novel ideas to promote merchandise and build sales. Recently the advertising manager of a British shot manufacturing concern sent

Asthma Sufferers Welcome this News

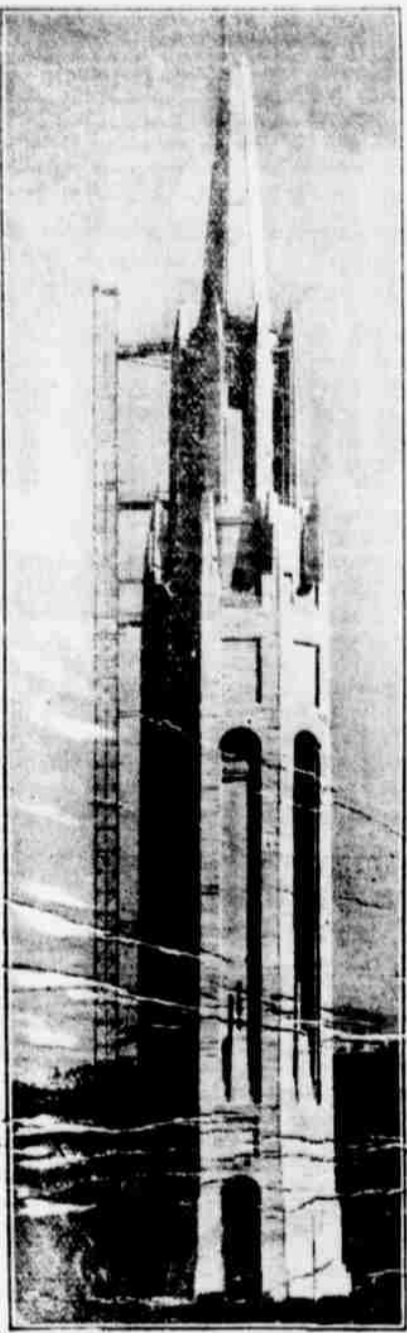

Those afflicted with bronchial asthma will be glad to learn that local pharmacy is now offering, under a money-back guarantee, a doctor's prescription that has been in use for more than 25 years, with a record of unusual relief from bronchial asthma symptoms in thousands of cases.

LETTERS RECENTLY RECEIVED

The first from Lexington, Ky.—"In 1932 I was very ill with an attack of asthma. Finally, I purchased a bottle of your asthma remedy. I was somewhat relieved. After the purchase of the second bottle, which has now been five years, I have had no further trouble. Records show sufferers had been afflicted for 18 or 20 years.

The second letter comes from Kansas. "After taking almost two bottles, I haven't had asthma for about eight years. I have a friend who has a chronic case of asthma, and would like for you to get in touch with him." Records show sufferer had asthma for 25 years and had possibly spent a sum sufficient to buy 24 bottles of Dr. Fugate's Prescription. It will place you under no obligation to call for complete detailed information concerning Dr. Fugate's Prescription at

Tower of Sun

Striking 400-foot Tower of the Sun, at the 1939 Golden Gate International Exposition on Treasure Island in San Francisco Bay. The tower, now nearing completion, will house a carillon of 44 bells on which world-famous bell ringers will play throughout the run of the Fair.

Because he doesn't like bridge and his wife does, Frank Million, tire dealer of Oklahoma City, spends his evenings making dresses for his daughters.

When he obtained a divorce on cruelty charges, Thomas Turner of Pomeroy, O., received a 150-acre farm as alimony from his wife.

Mrs. Edith V. Lady of St. Louis declared in her divorce suit that her wedding ring was a "loop of misery."

By express to New York a package containing 80,000 letters which had been printed and addressed in London, U. S. postage stamps were affixed and the letters mailed back to prospective customers in England. The manufacturer's theory, of course, was that people are much more apt to open and read a letter mailed from a foreign country.

HEADLINES — Hollywood in year starting July 1 will spend \$190,000,000 to produce 638 feature pictures, 15 serials, and 178 shorts. . . Three Washington, D. C., department stores have advertised in a certain newspaper every day without exception for 50 years. . . Average retail price of women's all-silk hosiery has dropped, from \$1.51 a pair for period 1923-29 to 91 cents a pair for period 1933-38. . . Hidden taxes on a quart of whiskey range from 78 cents to \$1.05. . . A major league ball player's shoes cost \$22 a pair and last only one season. . . \$350,000,000, or \$2.70 per capita, is bet annually in permutual machines at race tracks. . . Shipyards are twice as busy now as they were a year ago. . . Two-thirds of current aeronautical production in America is for military equipment, almost half is for export.

After divorcing her husband, who was out of work, Mrs. Mary Ridden of Kansas City sent him \$25 with her "best wishes."

Fish Conservation Important To Texas

(Editor's Note—This is the fifth and last of a series of articles dealing with Texas fishing and fisheries problem, by Will J. Tucker, Executive Secretary of the Texas Game, Fish and Oyster Commission).

Increased and intensive land use in Texas, the development of populations, the demand for water for irrigation, the control of flood waters, and the requirement of hydro-electric power, have not been without compensation to the fishermen.

Many large impounded bodies of water are the result of these causes. Such projects as those on the Colorado, Brazo, Trinity, Pecos, Gaudalupe, Medina, Devil's River, Concho and Nueces are effecting the opportunity for fishing that did not heretofore exist. These and other water projects have definitely added to the State's water area.

Probably the large impounded bodies of water, close to center of population, have done as much to recruit the fishing army as any other cause.

Lake waters produce more fish than do stream waters. This is because the lake waters are not flowing in the same degree as are stream waters. If a lake flows it is relatively not much better than a stream in food production. For instance Diversion Lake below Medina does not produce much food, nor may fish, because it is in fact only a dammed stream continually flowing, and because it is fed by the relatively barren bottom waters of Medina Lake. Roy Inks Lake, below Buchanan Lake, is the same kind of "lake."

When great hydro-electric projects are constructed, like those on the Colorado, we believe that because we have a lot of impounded water we will have a lot of fish. If the fluctuations in these bodies of water are too violent you can be assured that they will not be producing the auxiliary product that they should produce. The greatest food production comes from stable water levels.

We need aquatic vegetation, that are ordinarily found around the shores of natural fresh water lakes, and the chain of fresh-water organisms that come as a result of vegetation, that cannot be produced where there is constant and violent fluctuation where the flow is rapid. If the lakes are such that they will not produce fish, it is not expected that they will support any considerable number of fish, however many may be poured into them. The same conditions are necessary to produce forage foods, such as minnows and many crustaceans, as are required for fish production. Without the production of the foods upon which fish live, a supply produced from the outside will not permanently cure the trouble. Of course, if we could produce fish in our hatcheries to a catchable size in sufficient quantities to meet the angler's demand, and release them for immediate catching, that would be a different matter.

When a lake is constructed for hydro-electric purposes, the operators should be urged to dam all creeks leading into that lake with dams that will maintain a permanent water level only slightly lower than the maximum water level of the lake. These areas could be used as an area for the hatching of fish and feed to supplying the connecting lake and would not be subject to damaging lowering of water. It would be wise to use the angler's license funds for this purpose, if they were sufficient. Such natural fish production units would certainly be economical of operation.

It is not expected, however, that the anglers of Texas will get much development from their money, so long as only about one

out of every six are paying any sort of license. The money the anglers are now paying would not pay for the operation of the fish hatcheries alone, much less take care of patrol and law enforcement details that are necessary to require the wayward to do that which the majority are willing to do.

There are nine fish hatcheries in Texas at the present time, operated by the Game, Fish and Oyster Commission. The hatcheries are operated by the Federal Government, one other is in partial operation, and one other Federal hatchery is under construction. Another has been promised.

Warm water fish, the kind that are suited for Texas inland waters, are not so readily produced as are cold water fish that require higher or more northern latitudes. You may take the eggs and mill from trout, and rear the young with cheap foods. With bass and other sunfish, and catfish, you must depend upon more natural processes. Feeding is more difficult, if at all practicable, except through fertilization. Cannibalism is terrific except among the channel catfish. You may, therefore, hatch and rear many trout, with a little effort and expense as is required for infinitely less black bass.

As a supplement to natural production, however, and to compensate for the lake of the anglers from bodies of water, where they make heavy demands, the hatcheries are sorely needed. It would be profitable if we had more of them in efficient operation and distributing their output, which should go to the public bodies of water, with only a primary supply furnished private waters. In privately controlled waters there is every incentive for keeping the supply at peak level. This is done with many private places, affording an example of what can be accomplished in sustained yield through fishing pressure control.

Hatchery methods of production have greatly improved in recent years. Survey of waters and determination of those biological factors that would permit of the best utilization of the hatchery output have not kept pace. A splendid work in this direction has been accomplished by the North Texas State Teachers College, through the activities of Drs. E. B. Harris and J. K. G. Silvey. They have made a real contribution to practical freshwater biology. They are able to tell us when some of the major lakes of North Texas have a greater food supply than required by the existing fish populations. They have learned where physical improvements must be made on some lakes before any additional stocking would be profitable. Certainly more such studies should be made. Not only should the talent found in our educational institutions be thoroughly utilized, but the funds should be provided the Game, Fish and Oyster Commission so that it could make a direct effort in this direction.

If adequate regulations are provided governing fishing—simple regulations that every reasonable person could understand and that are given relatively more permanence than are given to present regulations—we would make one big stride in conservation of our fresh water fish. Better fishing opportunities could then be provided, if all of those participating in the removal of fish from our fresh waters, excepting those of youthful years, contributed the money to make possible increased fish production, distribution, control of obnoxious fish, water study and improvements and enforcement of the necessary regulations. Most states have found that such a universally applied fishing license brings good results.

After all, we must consider

"Seeing's Believing?" WORDS & PICTURES Around the World By William LaVarre

A New Way To Have Shapely Legs!
THE natives of San Blas don't depend upon nature for neat ankles, shapely calves. From infancy the girls wear "legshapers" of tightly bound beadwork. The girls might not be able to win honors for the San Blas islands at the Olympics but San Blas husbands, in the paradise off the coast of Panama, don't want their wives to be runners!

That many people are not going to get good fishing unless we provide it for them close to home. We have picture shows close to home because we are willing to pay a reasonable admission charge. We have good roads because we pay a gasoline tax, and good fishing will also be provided, commensurate with the possibilities under the handicaps fixed, in proportion to the aggregate sum of money that is provided for that purpose.

We must realize that we have infinitely less land in Texas under fresh water than there are dry lands. With the hundreds of millions of land acres in this State, the hunters have been forced to adopt what once would have been thought to be severe restrictions, so that they would have something left to hunt. An acre of water will produce a higher poundage of desired wildlife than will a dry land acre. Our fresh waters are not producing annually as much as we have sometimes taken from them, consequently, the take is a lower average than it should be. We are not operating on a sustained yield basis. We must give the what with demands, and then take no more than should be taken to keep it at a high production level. We do not need commercialization in this sort of program, except for rough fish, and except for taking those fish we will not need seines, nets, trot-lines or snag-lines with which to effect a reasonable harvest.

The arc lights have long since been replaced with more efficient electric lighting. I do not need the bugs any more which those lights attracted. I can buy some just as good from any tackle house, and they are not near as messy. I have learned enough entomology for my purposes. Perhaps we have taken more than our share of fishes. We would like to see all of those who have lived in the out-of-doors and who love it, do their share toward bringing about that sentiment in Texas that will give the boys and girls, and those who didn't have time for fishing until they grow up, a chance to indulge in

Drivers In Fatal Accidents Rarely Punished In Court

In a report to Congress on a study of fatal highway accidents, the Bureau of Public Roads notes that of 905 drivers involved, only 28 served time in jail and only 95 paid fines. More than 86 per cent were not penalized by the courts in any way.

Records from four States accounted for 614 of these cases. Motor-vehicle departments in these States reported their action following the fatal accidents. Only 11.5 per cent of the drivers escaped the forfeiture—for at least a short period—of their rights to drive, and the driving privileges of one-third were either suspended for 6 months or more, or revoked entirely.

This comparison was one part of the study of motor-vehicle traffic conditions which Congress asked the Bureau to make. Although the report says that analysis of the case histories "creates a very definite impression that the penalties imposed by the courts are seldom in reasonable proportion to the offenses," it definitely does not find fault with the courts. "Rather," says the report, "the failure to inflict proper punishment is due to the difficulty of obtaining evidence, admissible to court under the rules of evidence, sufficient to convict and also, perhaps, to the lack of a criminal code designed to fit present-day motor-vehicle-accident cases."

"Motor-vehicle departments, unhampered by the rules of evidence, and actually existing because of the problems of present-day traffic, can at least take positive action that courts so frequently find impossible."

Brought Home From Hospital
Fred Derr, who lives east of Weinert, was removed from the Stamford hospital to his home Monday afternoon in an ambulance from Holden's funeral home. Mr. Derr has been a patient in the hospital for the past week.

Seven and a half million fingerprints are now on file in the department of justice.

Cross-word puzzles were first started in 1913.

Slab House Dwellers Lived In Panhandle When Feudalism Was Vanishing In Europe

Feudalism was breaking up in Europe under the rise of lusty young cities struggling for trade advantages. A new capitalism was born against labor, wealth against poverty, town against country, and popes against imperial authority. . . . Ladies exhibited their faces, the "new" exhibited the usual vulgarities, great banking houses fought supremacy, and Dante, the poet, talked of "the good old days" when homes were built for comfort, not for ostentation. But there was little ostentation in the communal slab houses, clustered in pueblo-like fashion on a natural shelf overlooking Antelope creek northwest of Amarillo, which were inhabited by Plains Indians during this prehistoric period. This prehistoric village, now being excavated and restored by a WPA party under the sponsorship of West Texas State College, was occupied about the year 1300 A. D. The date has been fixed by comparing artifacts found there with those taken from other sites in the Southwest where scientists, studying the ruins and other evidence, have agreed upon a time basis. The location, one of many studied and studied by Floyd V. Coville of Amarillo, is one which actually will become a museum of pre-historic life in this section. Restoration will be directed by Prof. C. Stuart Johnston of West Texas State College. Ele Baker is project superintendent. Mr. Studer's research has had such scientific value that it has formed the basis for most of the archaeological studies made in this section.

The excavations have revealed the walls made of rock slabs of adobe, the low doorways, the pits in the middle of many rooms, and well-made implements of flint, bone and sinew. There were about twenty rooms in the village, a few of them and, but most about 15 feet square. They were covered with pitched roofs made of poles, brush and earth. Ventilation was means of a smoke hole in the side. Evidence of habitation is good. Some of the fires appear as if they were made last week, for the charred stumps and smoked earth are well preserved.

Lighting and ventilation obviously were poor. Doorways were less than three feet in height, though the hundreds of inhabitants moved on hands and knees, apparently, as they came and went about their daily tasks. Water was carried in pottery containers from the creek bed below. This pottery was not painted, but covered with a cord-like impression from which it gets the name, "cord-marked pottery."

These plains redmen were more peaceful in habits than the nomadic tribes which probably annihilated them or drove them from this section. They hunted, raised corn and probably beans and squash, and bartered with residents of other villages, some of which were nearby.

Burials often were made beneath the dirt floors of the houses. In one room of the Antelope creek ruin was found last week the skeleton of a middle-aged man. It was in a flexed position. Prof. Johnston said the physical build appeared to be similar to that of the modern plains Indian.

A typical slab room of one of these villages will be taken to the museum of the Panhandle-Plains Historical Society at Canyon and restored in every detail. Plaster of paris figures made from molds formed on the bodies of living Indians will be placed in this room. The first of these casts was made recently of Chief Sky Eagle, an Ottawa Indian entertainer and model. Sky Eagle, a graduate of Carlisle, posed for students of the Palo Duro School of Art in the nearby canyon. The cast was made by Harley Goettsche of Higgins, student assistant in geology and anthropology, who has done similar work for leading museums elsewhere.

Other habitat figures will be made for the museum, probably in Taos, N. M.

A National Youth Administration Work Project employing 40 El Paso youths in the City Maintenance Shops has been approved. The youths will work in four shifts and will receive training in carpentry and mechanics.

A room in the home of Col. William J. Blake at Watertown, Mass., is papered entirely with World War maps, showing sectors where Blake saw action.

When she proved that an automobile accident had turned her nose blue, Mrs. Anita Woods of Los Angeles won a \$2,001 judgment in superior court.

Because they disagreed over radio programs, Mrs. Catherine McAuley of Flint, Mich., was disinherited by her mother, Mrs. Martha Morea.

Flying for Fair

Fuller Jr., air speed king, watches while pretty Zoe Dell Lantis, the "most photographed girl in the world" puts finishing touches to a Golden Gate Exposition emblem on Fuller's plane in which he will attempt new inter-city records this year. Fuller, Bendix trophy race winner, has been appointed "Chief Pilot" for the 1939 World's Fair of the West, on Treasure Island in San Francisco Bay.

Did You Get Your Share?

By T. C. RICHARDSON, Secy. Texas Breeder-Feeder Association

Americans eat an average of 139 pounds of meat per capita, both fresh and cured. Two-thirds of it is produced west of the Mississippi river and two-thirds of it is eaten east of the river. City people eat more fresh meat per capita than country people, and pay at retail something like three times the price per pound for which the producer sells it on foot. In other words, the farmer who raises meat can eat it for about one-third the price to his city neighbor, yet eats less of it.

Fresh meat, milk and eggs are bone-and-muscle building foods which are ready for human consumption where they are produced without going to a factory for processing. By all the rules of reason producers might be expected to use them in the diet to the utmost extent of appetite and the demands of health. It is a queer mental quirk, therefore, which stunts their use by those who produce them and they are looked upon mainly as something to sell, with which to buy less palatable and more expensive foods.

The other day, in a public meeting a Texas man said there were 4,000 children in his county for whom milk, butter and cheese have to be imported. He might have added that the same children probably have fresh meat very seldom. The town children can have only what their parents are able to buy, at retail prices, but no farm child needs be denied these wholesome foods.

On average farm enough feed can be grown on a few acres to supply the family's meat and milk menu to repletion. On many farms enough grass goes to waste for want of animals to eat it at the right time to raise a flock of sheep or two or three beef animals.

The old-time "beef club" by which several families kept themselves in fresh meat the year round was an institution of the pioneer days, and is still used in some communities. Modern refrigeration permits a single family to kill a lamb or a calf at any time and use it as needed.

The steam pressure canner has made it possible for any farm family to preserve meat at any time, after using as much as possible in fresh form.

The present crop plans call for the planting of more feed crops, and these feed crops must be fed to livestock. There is no restriction whatever on the production and use of all the dairy, meat and poultry products the family can use and many a cotton family has its first real opportunity to produce and use its full needs in these wholesome and delicious foods. There is no restriction on the sale of meat, poultry or eggs. These will be used to enhance the cash income.

If every farm family raised and ate its share of fresh meat the livestock population could be greatly increased without sending any more animals to market than are now sold annually. Let's get our share.

"Home Town"

By M. L. HART, Agent Burlington Ry., Provo, S. D.

Sadly, the little teacher locked up the books, carefully put out the fire and gave a last look about the neat little schoolroom. Today was the last day of school, though it was but mid-February. On her desk lay a letter from the chairman of the school board which said: "Due to the abandonment of the Northern and Southwest Railroad, and the resultant decrease in tax revenue, this district will be unable to continue. Effective at once, you will notify your pupils that the term is ended. We are studying plans for continuance next year but the solution is not yet in sight."

Ten little children, still too young to understand what it was all about, bade their teacher goodbye, their education sacrificed to the short-sightedness of their elders. The teacher dabbed at her eyes as she watched them trudge toward home.

"I won't make much difference," commented the village postmaster, as he read the official notice that hereafter, all mails would be carried by motor stage, following abandonment of the Northern and Southwest Railroad. And so it proved, for months on end. Buses and trucks roared through the valley, business went on as usual—the mail arrived with clocklike regularity. In a year, folks almost forgot the time when screaming whistle and clanging bell signified "mail time."

"No mail today," the postmaster grumbled, "Road too bad." It happened again and again. On days when the stage did get through, it was hours late. All the spring rains, buses and trucks plowed and slid, drivers cursing. People complained, blamed county officials, wondered why somebody didn't "do something." Finally, someone wrote the inevitable letter to the commissioner. His reply, arriving a day-late mail stage, cheered them but little: "Due to the sharp decrease in tax revenues last year when the railroad was abandoned, our highway budget, along with all other activities, had to be pared to the limit. There is no money for major road repairs this year. We have applied for Federal assistance, but so far have been unable to meet the requirements."

"This is my last trip," announced the trucker as he set a box of groceries in the doorway of the village store. "These roads have ruined two trucks for me already, and I can't make no money that way."

"What am I going to do?" queried the storekeeper, hopelessly.

"Dunno, that ain't none of my worries," replied the driver as he mounted his cab, and as his motor roared, called back: "Get yourself a truck, I guess," and he laughed at the look of old fellow's face.

For several minutes, the gro-

cer stood in the open door, gazing reflectively at the grass-grown stretch beside the rotting water tank, where once a screaming whistle and clanging bell had announced the coming of the "local."

"WHAT," the housewife fairly screamed, "THIRTY CENTS for peas,—why, I used to pay you twenty for the same brand."

"Yes ma'am," answered the storekeeper wearily. "But that was before I had to buy a truck to get 'em here." "Time I pay my driver, buy tires, buy license, buy—buy—buy,—lady, you have no more cause to kick than I have," and he trudged to the back room to count the eggs his customer had brought.

In a moment he was back, and placing the empty basket on the counter, began a bit apologetically. "Can't pay but sixteen cents today, Missus — they're worth twenty-two in town, but 'time I truck 'em up there, I can't no more'n break even now." The lady stamped indignantly out of the store.

"And the store used to be over there," said the hunter, as he pointed to a fallen-in shack whose windows, devoid of glass, stared vacantly toward the patch of tangled weeds beside the pile of staves and iron hoops that had once been the Northern and Southwest water tank.

"Your mother and I lived there," indicating a stone foundation, with only charred sticks and ashes to mark the remains of an erst-while home.

"They're all gone now — there used to be over a hundred people lived here, but now — just look at it!"

The man seemed to suddenly have aged, as he turned misty eyes away from the depressing scene in the valley below. With a last backward look at the deserted village the younger man hurried to catch up with his father, who was striding away.

"Why, Dad?" he asked, "What happened—why did everybody have to leave this pretty little valley? The soil looks fertile, the water is great, why is it deserted and forgotten?"

And far down the canyon below the village, an eerie sound reverberated from crag to tree. True, it was not a sound for human ears—not LIVING humans at least, but a sound meant for the ears of the generation gone before. It would have answered the young man's query more eloquently than his father could have answered it. It was the voice of a ghost, not a spoken word but all the more enlightening for that. It was the ghostly echo of a screaming whistle and a clanging bell!

Young Haskell Minister Will Begin Revival at Gunter On Friday Night

The Rev. Woodrow Adcock, pastor of the Howe Methodist Circuit in Grayson County will open the summer revival campaign for the circuit at Gunter Friday night, June 24. The Gunter revival services will close Sunday night, July 3. Revival dates for other points on the Howe Circuit are: Howe, July 8-

At the age of eighteen he became an active religious worker as superintendent of Ketrin Methodist Sunday School of a small rural church two miles from his father's farm in Northeast Haskell County where he was born and reared. He was licensed to preach at nineteen and immediately became an active evangelist. He has preached consistently throughout his college and university training as pastor, evangelist, and young people's worker.

Upon graduation from McMurry College, Abilene, Texas, he entered the graduate School of Theology of Southern Methodist University and is now in his second year in that institution. While in McMurry College he also fulfilled a three-month radio contract for religious broadcasts over station KRBC of Abilene.

Silver Mining Survey Due For Llano Section

Possibility of silver mining in the Llano region on a commercial scale is being watched with interest following reports of prospecting received by the mineral resources committee of the Texas Planning Board.

Advices received by the Board were that a group of men have leased up the Emil Kothman ranch on the strength of a sample of ore which assayed \$21 worth of silver to the ton.

There are extensive silver mining operations in the Big Bend section but this is the first commercial venture in the hilly Central Texas region. Success of the venture likely will lead to wide exploratory work throughout the hill country.

Members of the Board were advised that the group already is sinking shafts and should know in the near future whether the venture is to be successful.

If the ore holds up to the showing of the sample, it was stated, the silver content is sufficient for profitable mining.

J. J. Rocco of Dover, O., was fined \$10 for dancing to the music of a Salvation Army meeting.

Perfume has been made from alcohol since 1370.

SAVE WITH SAFETY

PHOENIX Vita-Bloom HOSIERY

- The Reason for Vita-Bloom**
Raw silk is protected by a natural protein substance that gives the thread its amazing strength and vitality. This vital element is removed from the silk in the making of hosiery. Hosiery manufacturers have tried to overcome this for years.
- What Vita-Bloom Is**
Now Vita-Bloom, a new, secret method (patents pending), an extra manufacturing process used only by Phoenix, restores this life-giving protein. Vita-Bloom definitely improves Phoenix hosiery.
- What Vita-Bloom Does**
You can see the new depth and "bloom" of color. You can feel the smooth, soft, even texture. You can prove the longer life, the snap-and-wear-resistance quality by trying the new Phoenix Vita-Bloom.

In the new Phoenix Personality Colors—Folly, Gaiety, Scandal, Tease and Others \$7.00 —others 79c to \$1.35

SOCIETY

Bonnie Dell Hisey Is Hostess To Junior Group

Members of the Junior Department of the Church of Christ enjoyed a party at the home of Miss Bonnie Dell Hisey, Monday night. In the absence of their teacher, Don Campbell, Horace O'Neal acted as chaperon. Games were played on the lawn and various contests held.

After an evening of entertainment, punch, sandwiches, fruit and cookies were served to the following members and guests: Mattie Bell Stark, Dorothy Lee Rose, Beatrice Barton, Zug Phelps, Billy Stark, Billy Davis, Maudeen Barnes, Jack Davis, Billy Alsbrock, Anita Coburn, Vern Tatum, Rita McCurrey, Lela Reynolds, La Vas Ward, Bonnie Dell Hisey, Josephine Parrish, Omega Lee, Joe McCreg and Neal Mullins.

Tuesday Bridge Club Meets In Home of Mrs. Cox

Mrs. Wallace Cox was hostess to her bridge club, Tuesday afternoon. Vases of roses were used in the entertaining rooms. An ice course was served to Meses. John P. Payne, Theron Cahill, W. P. Trice, John Rike, W. M. Reid, A. A. Bradford and Marlin Wilson.

Merry Dames and Guests Entertained In Home of Mrs. Lewis

Mrs. C. L. Lewis was hostess to the Merry Dames Club, and guests Monday afternoon. Her home was attractively decorated with Shasta daisies. Games of eighty-four were enjoyed during the afternoon and a salad plate was served to the following: Meses. R. J. Reynolds, R. C. Montgomery, O. E. Oates, D. H. Persons, Sam A. Roberts, H. M. Smith, Paul Frismon, W. A. Duncan, F. L. Daugherty, Sam Chapman, T. C. Cahill, O. E. Patterson, F. T. Sanders, John W. Pace, J. U. Fields, J. V. Hudson, J. T. Ellis, Courtney Hunt, D. Scott, John A. Couch, J. A. Jones, J. R. Cooper and S. W. Scott of San Antonio.

The Methodist Missionary Society

On Monday June 20th fifteen members of the W. M. S. met in the church auditorium. Mrs. Hugh Smith directed a most interesting program. With Mrs. Patterson at the organ all joined in singing "More Love To Thee". Mrs. Fields offered a prayer. Mrs. Sanders read, as the scripture lesson, John 4:7-30. Mrs. Kimbrough also brought a very inspirational message.

The theme of the program being "The Indebtedness of Women to Jesus" the director led a responsive reading bearing on this subject. In answer to the roll call each woman present told of some current news of Japan. The Society was adjourned by the reciting of the Lord's Prayer in unison.

Mr. and Mrs. Gaines Irvin Entertain Rainbow Sewing Club

Mr. and Mrs. Gaines Irvin was host and hostess in their home Friday night June 17th entertaining the Rainbow Sewing Club ladies and their husbands. The entertaining rooms were beautifully decorated with various colors of flowers. Tables were laid for 42 and 84.

Refreshment plate of sandwiches and ice punch was served to Mr. and Mrs. McMillen, Mr. and Mrs. Harold Kirkpatrick, Mr. and Mrs. Walter Rogers, Mr. and Mrs. Tom Stewart, Mr. and Mrs. Doyle Andrews, Mrs. W. E. Adkins, Mrs. Jess Josselot and the host and hostesses.

Mrs. J. B. Smith Complimented With Shower By Mrs. Bill Barnett

Mrs. J. B. Smith, formerly Miss Frances Reese, was complimented with a miscellaneous shower last Friday afternoon by Mrs. Bill Barnett, Mrs. Charlie Reese assisted in receiving guests and Madge Reese presided over the bride's book.

After many nice gifts were presented to the honoree a nice plate

of refreshments were served to the guests.

The invited guest list included: Meses. Joe Chapman, Martin Arend, Howard Reese, Ruth Pittman, T. L. Grace, S. A. Allison, W. G. Pope, Bill Zahn and children Dennis and Benny, J. E. Pope, Jesse B. Smith, Lloyd Tidwell, Nig Bartlett, G. W. Sego, Harold Hammond, O. L. Miller, Anna Neal, M. A. Clifton, Rod Clifton, J. F. Pinkle, Paul Zahn, Blair MacDonald, T. L. Moore, Lee Brown and G. W. Churchwell, Meses Naomi Barnett, Irene Miller, Golda Wood, Onella Moore, Geneva Pope and Bill Lois Brueggeman.

Maye Bell Circle Meets In Home of Mrs. Cullum

The Maye Bell Circle met in the home of Mrs. J. S. Cullum Monday afternoon June 20th.

Mrs. Jim Tyler the educational chairman directed a program on Christian Education. Theme thought: "Train the Young People of Today in Baptist Schools and You Save Tomorrow's Baptist Day."

Opening Song: "Onward Christian Soldiers."
Devotional, Matt. 28:20 by Mrs. Jess Barton.

Prayer For Our Baptist Schools by Mrs. H. R. Whately followed with a duet by Mrs. Jesse Josselot and Mrs. Walter Rogers.

Our W. M. U. Relationship to Christian Education by Mrs. R. C. Couch.

Hymn, "God Will Take Care of You."

Tidings from the Camprises by Gladys Fouts.

Prayer for the President and the Faculties of our schools by Mrs. Charlie Smith.

College Songs sang by Geraldine Conner, Mary Eleanor Diggs, Elsie Gholson and Jean Conner, accompanied by Sue Couch at the piano.

Introduction The Christian Work In State Schools by Sue Couch and Geraldine Conner.

Prayer, "For Our Youth of Today" by Mrs. Walter Rogers.

Hymn: No. 35.
Prayer for Special Giving by Mrs. McMillen.

Announce Engagement of Former Haskell Girl

Announcement has been made of the engagement of Miss Felicia Siegel of Fort Worth, formerly of Haskell and Dr. B. E. Lovine of Ames, Iowa and Los Angeles, Calif. Miss Siegel is the daughter of Mr. and Mrs. E. Siegel and received her grammar school education in the Haskell

Approaching Marriage of Miss Earline Waggoner Is Announced

Mrs. S. A. Hodge of Stamford entertained with a bridge breakfast at the Stamford Inn Tuesday morning, announcing the approaching marriage of Miss Earline Waggoner, daughter of Mr. and Mrs. J. M. Waggoner of Haskell and Morris Childers, teacher in the Stamford Public Schools. The announcement was made on miniature place cards in the form of diplomas. After the breakfast, served from a table decorated with huge white peonies, games of bridge were enjoyed.

Guest list for the party included: Meses Howard Whately, A. Mathis, Nat Wash, Eugene Pruitt, Rosaline Daniels, Leslie Larche, Leonard McNutt, Frank Fleming, J. M. Waggoner of Haskell and Misses Martha Jane Bryant, Margaret Ann Buster, Mary Alice Abbott, Frances Pruitt, Catherine Jones of Rule, Mary Louise Kinard, Sue Morrow, Bernice Rosenwasser, Kathleen McNabb and Virginia Bounds.

Mrs. Theron Cahill Is Hostess to Luncheon Club Wednesday

Mrs. Theron Cahill was hostess to the Luncheon club and guests Wednesday in its regular monthly meeting. At the noon hour, a luncheon was served. Games of bridge were played during the afternoon, at the conclusion of which, Mrs. John P. Payne was given a high score prize. Guests for the party were: Meses. John P. Payne, C. V. Payne, John V. Davis, W. P. Trice, French Robertson, Carrie Williams, Virgil Reynolds and Richard Sherrill of Pittsburgh, Pa.

Mr. and Mrs. Matt Graham Entertain Bridge Club

Mr. and Mrs. Matt Graham entertained their bridge club Wednesday night. Roses and nasturtiums were used to decorate their home. In games of bridge, Mrs. Wallace Cox was awarded high score prize. A delicious ice course was served to: Meses. Ben Bagwell, Roy Killingworth, Ralph Duncan, John Rike and Meses. Bill Richey and Wallace Cox.

Cecil Lancaster Circle Meets In Home of Mrs. B. M. Whiteker

The Cecil Lancaster Circle met Monday afternoon June 20th at 4 p. m. in the home of Mrs. B. M. Whiteker.

Opening Song—Send The Light. Prayer—Miss Ida Crawford.

We had another lesson in the book we are studying: "Stewardship Parables of Jesus" taught by Mrs. Whiteker which was very interesting.

We then had a business and social hour after which our hostess served refreshments to the following: Mesdames Scott, Roberts, Jim Fouts, Gilliam, Oates, Watson, Cunningham, Glenn and Miss Ida Crawford.

Sew and Sew Club Met Tuesday With Mrs. Gholson

The Sew and Sew Club met with Mrs. Buford Gholson, Tuesday afternoon. The entertaining rooms were decorated with roses and zinnias. After an afternoon of sewing, an ice course was served to the following members: Meses. T. J. Lemmon, Hayden McDonald, Hut Pitman, Bill Woodson and Paul Warren.

Helen Bagley Circle

Mrs. L. F. Taylor was hostess to the Helen Bagley Circle of the Baptist W.M.U. Monday afternoon. The meeting was opened by singing two songs and Mrs. J. B. Bailey gave the opening prayer and Mrs. Taylor the devotional from Chronicles, 22nd chapter. A short business session followed after which our efficient Bible teacher, Mrs. Gillstrap taught a wonderful lesson from the Songs of Solomon, which was very interesting and instructive to all. We were dismissed with prayer by Mrs. Reynolds. Mrs. Taylor served punch to eight members. Ladies attending were Mesdames Gilstrap, Couch, Oates, Merchant, Reynolds, J. B. Bailey, Jim Bailey and the hostess, Reporter.

Exhibits Volunteer Stalk of Hardy Cotton

C. W. Marion, farmer living on Route 1 out of Haskell believes that the cotton farmer's problem in this country could be easily solved if he could develop planting seed from a hardy volunteer stalk plowed up in his field one day last week. Despite the severity of several hard freezes during the past winter and late spring, the plant had produced quite a bit of foliage, Mr. Marion said.

Mrs. Troy V. Post and son of Dallas who have been visiting her parents, Mr. and Mrs. M. S. Shoel, left for their home Monday. They were accompanied home by her sister, Mrs. Jim Darden and niece, Emily Jean Grissom of Eastland.

Mrs. Effie Sellers of Aldershot, Eng., smuggled tobacco to her husband in prison by putting it inside a cake.

Book-of-the-month clubs now have 150,000 members.

CHURCHES

CHURCH OF CHRIST J. G. Malphurs, Minister

Our subject for the sermon at eleven o'clock will be taken from the eighth chapter of First Corinthians, CHRISTIAN LIBERTY IS BOUNDED BY CHRISTIAN LOVE. You are urged to hear this sermon, in which it will be shown that the stronger members of a congregation will have to refrain from doing some things that might be lawful in order not to offend the weaker members.

For the evening hour, 8:30, the minister will give a marriage ceremony for the special benefit of the unmarried. Many young people do not reflect seriously enough over the marriage ceremony before taking upon themselves the vows of wedlock; in fact many do not have a very accurate idea of the questions that will be asked them in a ceremony. All young people are urged to come and go through this practice ceremony before taking upon themselves its vows.

FIRST CHRISTIAN CHURCH W. Russell Coatey, Minister

Bible School—9:45 a. m. Morning Worship—10:45 a. m. Sermon: "The Secret Of Successful Christian Living." Evening Worship—8:15 p. m. Sermon: "Some Who Are Offended."

Several new members were added to the church as a result of the revival meeting which was held at the First Christian church by Evangelist T. H. Johnson and W. Russell Coatey, local minister. The church has been strengthened as a result of the spiritual and instructive sermons preached.

The sermon Sunday morning will be primarily one of instruction and encouragement to new converts, but it should be helpful to others also. The sermon for Sunday evening will point out reasons why people are offended at Christ and the Church. The Church has always had its enemies and always will have enemies. But, in as much as it is a divine institution, it has always triumphed over them.

"WHO IS THE BEAST?" TOPIC OF SERMON AT THE METHODIST CHURCH

The scarlet beast of Revelation, coming up out of the sea, having seven heads and ten horns with ten crowns is to come in for consideration in the two preaching services Sunday at the Haskell Methodist Church. His mark, or brand of ownership and conformity, he places upon the forehead or in the palm of the hand. Without this mark men are forbidden to buy or sell.

Who is the beast? During the N. R. A. controversy and resign we heard quite often that the blue eagle was the mark of the beast, without which you could not engage in business, "buy or sell."

Who is the horlot dressed in purple and scarlet, with decorations of gold and precious stones and pearls, riding upon the scarlet colored beast with diamonds upon his hands? The inhabitants of the earth have been made drunk with the wine of her fornication. Was this adulteress with whom even kings consorted a church which opostotised and deceived the people and persecuted those who were free from the mark of the beast?

Read Revelations chapters 13 through 18 as preparation for the two preaching services Sunday at the Methodist church. Special vocal numbers and good organ music for both services.

WEINERT FOURSQUARE CHURCH

A revival meeting is now in progress at the Weinert Foursquare church. Rev. R. E. Humphreys of Henrietta, Okla., is doing the preaching. Come out and hear these soul-stirring messages.

Saturday at 8:30 p. m.—Special Divine Service.
Sunday, 8:30 p. m. — Danger Ahead.
Rev. R. E. Spinks, Pastor.

Salt Solution Is Aid Against Heat Suffering

The Red Cross, in a bulletin just issued, advises heat sufferers to drink a light salt solution to prevent heat stroke and heat prostration.

"Common-sense precautions during periods of excessive heat may prevent prostration and heat stroke," said Harold F. Enlows, director of first aid and life saving for the Red Cross.

"Because excessive perspiration reduces the essential saline content of the blood stream, an excellent preventive measure during high temperature periods is the taking of a pinch of salt in a glass of water when thirsty."

Enlows also warned against confusing heat stroke with heat prostration. "Heat stroke," he said, "is caused by exposure to heat—particularly the sun's rays. Heat prostration is caused by exposure of the sun's rays or indoor heat."

"Heat stroke symptoms are headaches, red face, skin hot and dry, no sweating, pulse strong and rapid, temperature very high, victim usually unconscious."

Heat prostration symptoms are opposite in almost every way. Enlows pointed out.

"Prostration symptoms," he said, "are pale face, skin moist and cool with profuse perspiration, pulse weak, temperature low, victim often faints but seldom remains unconscious for more than a few minutes."

"Heat stroke treatment," he explained, "includes placing patient vated; cooling body with bath or placing person in sheet and pouring on tap water; no stimulants."

"Heat prostration treatment consists of placing patient supine with head level or low; applying stimulants of salt."

The Arkansas Gazette has been published for 118 years.

Former Haskell Girl Marries In Waco

Mr. and Mrs. Jack Sills of Chillicothe announce the marriage of their daughter, Virginia to Herbert Dillard, son of Mrs. B. A. Dillard, also of Chillicothe. The ceremony took place June the fifteenth, 1938—at the First Baptist Church, Waco, Texas. The bride spent most of her school days in Haskell and was popular in her social circle.

The groom was reared in Chillicothe, where his father, Dr. B. A. Dillard was a prominent physician until his death a few years ago.

Mr. Dillard is employed by the Riggs Optical Co., Waco, Texas, and they will reside at 121 1-2 South 11th street, Franklin Apts.

Words underscored in a poem by Mrs. Emily Punchedard of London resulted in her husband being granted a divorce.

CARD OF THANKS

We wish to express our heartfelt thanks to our neighbors and friends for their many deep kindness during the illness and death of our dear husband father.

Our prayer is that if you have such dark hours of sorrow may God lend you a helping hand. We deeply appreciated beautiful flowers with their sage of love and cheer.—N. G. Larned, Mr. and Mrs. Davis, Frances, John, Walter, Narval Joe, and Donald Larned.

Continuing Trend South For Chemical Plants

Management for the South in the report points out, enhanced by the increasing disposition among her leaders to emphasize the desirability of sound, aggressive state encouragement of industrial enterprise, can bring the Lone Star state an impressive share of the fruits of this long-range expansion movement.

The steady march of technical advances in petroleum refining has accounted for extensive modification of existing refineries and equipment in recent years, while changes in various key chemical processes are being made constantly, necessitating frequent changes in equipment, and often installation of whole new plants or removals to new locations to produce large quantities of certain heavy chemicals with a new use suddenly creates a new volume market.

where almost two-thirds of expansion took place, said managing editor of Chemical Metallurgical Engineering.

of the natural advantages of South in appealing to this of industry assure long-time of development along lines if other factors are favorable is seen in Lee's of these advantages.

materials are there in great abundance," he said, "production is lower than in any other part of the world, and a market exists in the southern and neighboring states, recent technological developments have placed this section in position to compete with other parts of the world.

of a recent survey covering the South from the Atlantic to the Grande indicates that the expansion in that section continue for some time to come. Many of the building contracts for in 1937 are now under construction, contracts have been since the first of the year for buildings, while plant sites being selected and plans drawn additional plants which will be as soon as business takes a turn for the better."

his position as a magnet for

Lueders Resident Stamford Suicide Victim Wednesday

Jimmie Sparks, 33-year-old Lueders oil field worker was found dead in his automobile parked on a residential street in Stamford Wednesday morning about 10 o'clock. The charge from a shotgun had penetrated his head, just above the right ear.

A verdict of suicide was returned following a coroner's inquest. A note to the victim's wife was found in Sparks' automobile. His wife told investigating officers that her despondent husband had previously threatened to take his life.

Funeral services were held Thursday afternoon at the Lueders Methodist church, with interment following in Avoca cemetery.

Immediate survivors include his wife and one daughter; his parents, three brothers and two sisters.

Accepts Position With Finley Barber Shop

Marlin Howard of Athens, Texas, has accepted a position with the Finley Barber Shop in this city. Mr. Howard, an experienced and licensed barber, expects to make this city his permanent home and is anxious to become acquainted with all patrons of the establishment.

The tango dance originated with African negroes.

Haskell Student Missionary Sends Interesting Letter From Brazil

The following letter from Miss Maybelle Taylor of this city, who is now a student missionary in Brazil, will be of interest to her many friends in this section:

Caixa 352, Rio de Janeiro
Brazil
May 22, 1938

Dear Friends:

"Braga once said, 'Brazil, My Beautiful Brazil, Beautiful in body but sick in soul!'

How true this is. I have been to many churches in the three months I have been here and the church can not hold the crowds that come to hear the 'Gospel Message.' People stand out in the streets looking in the windows. Oh, may the people of North America realize the great need of the gospel message here and throughout the world, people are hungry to hear the 'old story' to us but so new to them.

"Mr. Bratcher has just returned from a trip in the interior. I want you to know about it. He traveled for nineteen days, preached forty three times to 7,550 people, without any duplications, and there were 205 decisions. One day he spoke six times, three times one night as the crowd was so great they could not get in the church, so he preached outside on the street. People here are very quiet and reverent during a message even if it lasts two hours or if it is coming in on the radio. Mr. Bratcher traveled by train, horse back, in oxen cart, mule back and walked several times many miles. Several times he had to get up at four in the morning to catch a train. How does this compare with the work in the States?

"There are many young men and women here that would like to be in school, training to be preachers or workers but do not have the money. It takes only sixty dollars a year to put a girl or boy through school, that includes every thing. I think any Sunday School Class would be happy to have the honor of putting a girl or boy through school. If you know of any such class I would be glad to find the student for you. A fine girl came to the Girls' School 'on faith' she said and I couldn't see her go back home, so I told Mrs. Soren I would help put her through school. Her name is Ruth and she is quite pretty, so very grateful, too.

"The people here are very nice and do not laugh at you when you make a mistake in speaking, so I try speaking in Portuguese as much as possible. We have

Curry Chapel

Well, summer time is here after so much cold, rainy weather. Quite a few farmers around here have not finished planting cotton. Feed is looking good.

Bro. Hammer filled his regular appointment here Saturday night, Sunday and Sunday night. There was a good attendance at each service, and all were enjoyed.

The singing convention met here Sunday afternoon with a number of good singers present. The program was dedicated to the memory of Mr. Larned, who was buried at Haskell Sunday, and the last song he led two weeks ago at the East Side Convention was given as a special number. "Won't It Be Wonderful There." Mr. Larned was president of the East Side Convention, and he will be greatly missed by a host of friends.

Mrs. Eimer Gossett of Abilene spent the week-end with Mrs. L. W. Hill.

Rev. and Mrs. Hammer spent Sunday with Mr. and Mrs. Ed Kreger.

Mr. and Mrs. J. L. Tolliver and family took dinner with Mrs. Baty Sunday.

Mr. and Mrs. Clay Kimbrough, Jr., had relatives from the Plains visiting them during the week-end.

Mrs. Frank Spencer and Mrs. Baty visited with Mrs. Thurman Rhoads awhile Sunday evening to see the new baby girl. Mother and babe are both fine.

Mrs. Cecil Jetton is attending College at Canyon for the summer.

Mr. and Mrs. Tom Jetton and children spent Sunday with his father and mother.

J. W. Gifford has returned from a trip to California.

There will be Sunday School here Sunday morning at 10 o'clock and singing Sunday night. Everyone is invited to come.

market at present covered by current low priced types.

One authority in the industry put it a bit more bluntly recently when he asserted that just about everybody who can afford to buy a car now has one, and whatever demand is to be expected in the immediate future must come as the result of the elimination of all vehicles beyond a certain age. Without setting a specific age on the cars to be eliminated, this authority indicated that if all the units manufactured prior to 1930 were to be taken from the highways through some equitable plan, a replacement market would be created

sufficient to keep the production lines active on a profitable basis for an indefinite period.

Guests In Home of Mr. and Mrs. Pace

Mr. and Mrs. S. W. Scott and son, Dr. Walter Scott of San Antonio have been the house guests of Mr. and Mrs. John W. Pace this week. Dr. Scott has just received his P.H.D. degree from Rice Institute. He is the fortieth candidate to have received this degree since the founding of Rice.

England printed its first mediatory book in 1480.

METHODIST WOMEN WILL SPONSOR OLD FASHIONED CREAM SUPPER JUNE 29

An old fashioned ice cream supper will be held by the ladies of the Methodist church on the lawn of the church next Wednesday from 8:00 p. m. to 10:30 p. m.

An orchestra will play and games of ping pong, soft ball, volleyball, bean board, box hockey, etc., will be available. A pleasant evening with wholesome games, plenty of good fellowship and patronage of a good cause should make this a very satisfactory occasion. Come early, meet the

a big crowd and rejoice the heart of some most most worthy church women. Your favorite ice cream will be served at a bargain with home-made, Haskell-made, cakes.

While Robert Pethick of New Orleans was being tried for bigamy four other women were preparing to marry him.

American industry uses 1,250,000,000 pounds of rubber yearly.

Choked Used-Car Market Seen Bar To Cheaper Auto

DETROIT—As a general proposition motorcar manufacturers and distributors are agreed there is a sizable market for lighter weight and lower priced automobiles, but they are also of the opinion that most of the demand for such vehicles must come from among the more than 10,000,000 individuals who represent the current used car market.

Discussion of the potential demand for cars cheaper than the cheapest now produced in American motorcar factories was precipitated by the announcement of plans of the German automobile industry to produce vehicles weighing around 1,500 pounds and selling for \$395.

Slump Hits Output

Experimental work in the construction of such vehicles has been carried on for many months in American motorcar factories; at least two producers are known to have finished and tested working models. But for the unexpected contraction of the automobile retail market these models probably would have been introduced this spring.

The industry, however, still is harassed by an accumulation of used cars that was only slightly reduced by the campaign it undertook three months ago in an effort to stimulate a re-distribution of these vehicles.

Just when the smaller and cheaper cars will make their appearance among the older producing companies' models even the producers themselves apparently are unwilling to predict. The establishment of a workable junking plan for the annual elimination of several hundred thousands old units might speed their introduction, but the scrapping plan is still unsighted and the retail demand for new and used cars continues at a rate approximating 50 per cent of what it is at this time of year in normal times.

Field Is Limited

One of the major points brought up in the discussions of the potential market for lighter, smaller and cheaper cars is the general agreement that, to make their production profitable at a price lower than the present lowest priced unit, there must be a distribution on a volume basis far in excess of what most authorities in the industry believe is now possible without borrowing a large share of the

NOTICE TO THE PUBLIC—Any erroneous reflection upon the character, reputation or standing of any firm, individual or corporation will be gladly corrected upon being called to the attention of the publishers.

The dividing line between news and advertising is the line which separates information for public interest from information which is disseminated for profit.

On A Hot Spot

Prime Minister Chamberlain, the real head man of the British Empire for the time being, occupies about the hottest spot in Europe just now. He is in a position that anything he does, or fails to do, will find condemnation.

Lloyd George, the great war premier, and Anthony Eden, deposed foreign minister, are both hammering him for his supposed cowardice and the humiliation he is bringing on Britons. But neither of these men has to accept the responsibility of what Britain does.

Chamberlain must decide whether he is willing to plunge his country into the Spanish struggle and precipitate another world war, or let venturesome British ships take the consequences of their own course in entering ports in the war zone—a position very much like that Woodrow Wilson occupied before we finally were pushed into hostilities in 1917.

The British premier is trying to avoid having done to his country what Great Britain helped do to the United States 21 years ago.

Ear-Marks of Honesty

There are probably more organizations for the preservation of this and that, which are actually out for the accomplishment of ends that have nothing to do with the ones that are stated, than there ever were before in the history of our country.

Scratch what appears to be a warrior for human rights and you find instead a warrior against Candidate Joe Deaks, Officeholder Fred Jones, or one of the two leading political parties. And sometimes you find a warrior against the whole country.

Thus, when a group appears which bears unusual ear-marks of a natural inability to agree on a common ulterior motive, that is, the chances are that such a body means what it says.

A national organization has appeared which calls itself simply "National Re-dedication". Supporters describe its purpose as the stimulation of the nation's faith in the principles of democracy, and the re-dedication of American to the cause of preserving their democratic rights.

Consider the personnel: The director is a poet, Hermann Hagedorn. Discovered among others on the committee are Owen D. Young, Dan Beard, William Allen White, Mary E. Whoolery, Herbert Hoover, Alf M. Landon and Norman Thomas.

The Real Dictator

The emphasis with which both houses of Congress overrode the President's veto of the measure to extend low interest rates on farm loans indicated again that the real dictator in the United States is public sentiment, and not the man in the White House.

Mr. Roosevelt has before expressed his oppo-

sition to the interest extension bill, but there never has been any doubt on part of those who understood the temper of Congress on the subject that his veto would be promptly overridden.

This is no time to raise interest rates on farm borrowers, in spite of the demand for a balanced budget.

How Again—To Be Happy

Recipes for happiness seem to be a dime a dozen these days. So many have so little to recommend them that a definite editorial obligation exists to call attention to the ones that do seem to have extraordinary merit.

Your attention is directed to the advice of Mrs. Christine Morton of the New York State College of Home Economics. Mrs. Morton has found the key to happiness in old age.

Devote more of your time during the so-called active years, says Mrs. Morton, to practicing up for the leisure you're going to have so much of, say, after the age of 70.

Mrs. Morton's idea may not have laid claim to the heart with such violence a few months ago. Something in the air about this time, however—an occasional warm something-or-other suggestive of approaching dog days—forces the mind to the conclusion that a more commendable idea hasn't been proposed in many and many a year.

Now, in these summer months of the year and the summer months of your life, is the time to bone up your solarie. Get yourself into condition for hammock-swinging. Keep practicing your whittling. Train for your siestas now.

Mrs. Morton has not only hit on a recipe for happiness in old age but for happiness in all the years that precede it.

Old Star Still Shines

The sensation of the 1938 season among major league pitchers is not a new star, but the oldest on the mound, Lefty Grove of the Boston Americans, at the age of 38. In his first 11 games this year he won ten and lost one, which is quite a record for a pitcher of any age.

Robert Moses Grove was not a boy wonder as a baseball player; in fact, according to Newsweek he never played ball until he was 19, and only got started then because he went on a strike with his fellow glass blowers in a Maryland factory. To pass the idle time he joined a sandlot ball team, took to the game like a fish to water, and the next year found him with the Baltimore Orioles, champions of the International League.

Cornie Mack bought Grove for his Philadelphia Athletics in 1924, and in the next few years the great southpaw figured in the winning of three American League pennants and two world series. In 1931 he won 31 games and lost only four, that being his best year.

Going to the Boston Red Sox in 1934, Grove had a bad arm and other ailments, which threatened to end his career as a hurler, and he pitched only 16 games that year, winning eight and losing eight. The next year he staged a comeback, however, and has been going strong ever since.

At 38, most pitchers have been on the shelf for quite a while, but Lefty's arm, which has been described as "thin as a pipstern," seems as good as ever.

The total property investment of the country's railroads is more than 26 billion dollars. Oddly enough any demagogue who happened to get elected to Congress is instantly endowed with sufficient brains to run them all—to hear him tell it.

After ages of research and investigation a simple definition of love has been found. Dr. C. C. Reed of Rochester, N. Y., states it thus: "Love is a physis hypermetamorphosis leading to hypercenesithia and megalomania resulting in an angiopathic neurasthenia."

When the Yellow River attacked the Japs, there wasn't anything their warplanes could do about it.

Champion Cowhands to Attend Cowboy Reunion

Top cowhands who won handsome saddles as champions in rodeo at the Texas Cowboy Reunion last year are planning to attend the ninth annual Reunion at Stamford this year on July 4, 5 and 6. Upper left is J. L. McCarsom, Palo Pinto, riding "Old Doc", who won the cutting horse contest. Vance Davis, upper right, riding "Buster", won the calf-roping contest. He works on the Queen Sabe Ranch, Garden City.

More Humus In Soil, Fewer Washes In Field: Organic Matter Moisture Supply

One of my farmer friends recently complained to me that his soil never seemed in the proper condition to cultivate, writes E. Burges in the Semi-Weekly Farm News. Examination of his soil disclosed that he has a fine sandy loam, which contains much powdered limestone and little organic matter. Such soil has been called "dinner-time" soil. If rain falls at night, the soil will be too sticky to cultivate in the morning, and by night it will be too hard. The only time it is "just right" is at noon—and then it is time to eat.

There is far too much "dinner-time" soil in the Southwest, and when it is so it usually is because of a deficiency of humus. It takes decaying organic matter to make any soil except sand easy to cultivate, and even sand is a little easier handled if full of humus. Clay, fine sandy loam, also loess and adobe soils, become little less than cement batter when wet, and little less than concrete when dry, if robbed of their humus by long cultivation, without the turning under of any green crops or the application of any manure.

The four types of soil just named composed mainly of fine particles, which are easily carried off by rain. Loess soil, in particular, seems to melt away like sugar under a rain. The black soils found in parts of Texas and Oklahoma are only a little less erosive when deprived of humus. The more humus in the soil, the fewer washes in the field.

Oat and wheat harvest time has just closed in this section, and soon threshing crews will carry all the small grain in the fields to one or a few places in each field, run it through a machine and leave the straw in a pile. Some of the oat straw will be left for cattle to eat, but most of the wheat straw and much of the oat stubble will be burned, in many cases.

Lossing Organic Matter. All of this will cause a great and unnecessary loss of organic matter which the soil needs to keep it alive, fertile and capable of cultivation at any time of the day. Combs are to be preferred to the binder-threshing machine combination, because combs scatter the straw evenly on the field as they harvest the grain. But if combs are unavailable, that is not sufficient cause for burning the piled straw. It should be scattered and plowed under with the stubble.

Many farmers burn their stubble before again breaking the land, for by so doing they plow easier. But this practice is a bad one. The somewhat easier plowing now is much more than offset next year and in following years by greater difficulty of cultivation. A further result is lower yields.

Stubble doesn't contain much fertilizer, and when plowed under it doesn't furnish plants any great amount of what it takes to make them grow and mature. Pant food comes mainly from air and water. The soil provides some minerals that are essential to plant growth, but the main function of soil is to supply plants a medium of growth; or, in other words, a suitable place in which to grow.

Most plants grow best in mealy, moist soil. Decaying organic matter in soil practically insures that the soil will be mealy and moist. Absence of organic matter practically insures that the soil will be sticky when wet and will cake when dry.

Turning Under stubble. Oat and wheat stubble should be turned under as soon as a good rain has fallen following the harvest. By this means the mechanical condition of the soil, in so far as later cultivation is concerned, is made much better, and the mineral content of the soil tends to be maintained. Indeed, turning under stubble or other organic matter makes more mineral food available, for it is only by organic acids that minerals are made available to plants. Pure water supplied by rain has little power to dissolve rocks, or the

Douglas News

(Last Week's Letter)

Health of this community is good at present.

Mr. and Mrs. Jess Kingston have moved into our community. We welcome them.

Little Miss Mildred Chapman of Haskell is visiting her grandparents for a few days this week.

Mr. and Mrs. Jess Kingston and Bill and Hubert called on Mr. and Mrs. Bill Brannan a while Monday afternoon.

Mrs. Ocie Carruth visited in Haskell one day this week.

It seems as if combining is the order of the day in this community. The wind had damaged the grain some but we are glad it didn't get it and it did in other communities close by.

Weldon and Bobby Hill of Clovis, New Mexico are spending the summer with their grandparents, Mr. and Mrs. John McGuire and other relatives here.

Frank Kennedy of Haskell was

Political Announcements

The Free Press is authorized to announce the following candidates for office, subject to the action of the Democratic Primary in July.

For District Clerk: MRS. HETTIE WILLIAMS. LEWIS (Shorty) SHERMAN.

For County Clerk: ROY RATLIFF. JASON W. (Jake) SMITH. (Re-election).

For County Judge: J. C. DAVIS, JR. CHARLIE CONNER. (Re-election).

For Sheriff: GILES KEMP. (Re-election). OLEN DOTSON. MART CLIFTON.

For County Attorney: WALTER MURCHISON. (Second Term)

For Tax Assessor-Collector: MIKE B. WATSON. (Re-election). M. E. (Elgin) CAROTHERS. HALLIE CHAPMAN.

For County Superintendent: MATT GRAHAM. (Second Term) THOS. B. ROBERTSON.

For County Treasurer: WILLIE LANE. BYRON G. WRIGHT. (Re-election). MRS. A. D. LEWIS.

For Commissioner, Precinct 1: AB HUTCHENS. (Re-election). W. E. WELSH.

For Commissioner, Prec. No. 2: T. M. (Tom) MAPES. (Re-election). I. A. LEONARD. R. B. GUESS.

For Commissioner Prec. 3: JNO. R. WATSON. P. G. (Buck) KENDRICK. (Re-election).

For Commissioner Prec. 4: R. H. (Bill) RIFE. (Second-term)

For Justice of Peace, Prec. 1: B. T. (BRUCE) CLIFT. (Second Term). ERNEST MARION.

For Constable, Precinct 1: W. H. (Bill) HALL. J. H. IVY. (Second Term)

For Public Weigher, Precinct No. 1: A. M. WILLIAMSON. (Second term)

For Public Weigher, Precinct No. 2 (Weinert): R. H. JONES. (Second Term)

For Public Weigher, Precinct No. 2 (Weinert): M. F. MEDLEY

a visitor in this community a while Tuesday night.

Mrs. Hallie Chapman was a pleasant caller in this community Wednesday.

Mr. and Mrs. Troy Carrigan and children, Marshal, Bill, Katherine and Jackie are visiting relatives here and at Haskell. They will visit with relatives at Hamlin and De Leon before returning to their home in Eunice, New Mexico.

Mrs. Bill Barton and daughters called in the home of Mr. and Mrs. Bill Braham Monday.

Mrs. Velma Haynes and little daughter visited with her sister and husband, Mr. and Mrs. Kirby Kirkpatrick.

Mr. and Mrs. Bill Carrigan and daughters, Misses Wanda R. and Elcise were guests of Mr. and Mrs. Bill Brannan Saturday night and Sunday.

Mr. and Mrs. Troy Carrigan and children have returned to their home in Eunice, New Mexico, after visiting several days with relatives and friends.

Three McMillin's Win Two and Draw One on Fight Card

The pick of Haskell's amateur fighters—the McMillin boys—were featured in the headline offerings on the Firemen's amateur fight card staged Thursday night by promoter Woodie Windham.

In the stellar event, Rosie McMillin took a decision over A. C. Curtis of Cisco in one of the hardest fought contests ever staged here, in the opinion of fans. Otto Dennon of Throckmorton and Lloyd McMillin fought a three-round no-decision bout, while Earnest McMillin in the first semi-final bout defeated Pettit of Throckmorton.

Six preliminaries on the evening card rounded out the exhibition.

For the next events, to be held Thursday night June 30th, Haskell and Abilene amateur fight teams will be matched against the Brownwood team, sponsors announced.

A home economics cottage, which National Youth Administration boys are assisting in building at the Dunbar High School in Mexia, is nearing completion. J. C. Kellam, State Youth Director, has announced. The structure includes food and clothing laboratories, a living and dining room, a fitting room, and pantry.

Oil companies distribute 125,000,000 road maps per year.

A group of influential editors were advisors of Andrew Jackson, and known as the Kitchen Cabinet.

A. & M. Preparation For Farm Youth At Short Course

Approximately 2,500 girls from Texas farm ranches will have the attention of Texas A. & M. College July 6-8 when the section of the annual short course will be held at the State Station. This is the first that adult and junior course visitors have met different dates, according to Snyder, short course chairman.

The arrangement has been because of the year's increase in attendance at short courses held at the time when the sessions of the college also been growing. Each has been harder to make for both groups and this was impossible.

General assembly evening and the night program will be joint meetings of the girls, with music in charge. Walter H. Jenkins, well known song leader, and picture shows will be featured. A tea for the gold star boys and girls will be given one afternoon.

Programs for the boys been arranged on the subject of livestock; field crops; entomology; horticulture; plant propagation classing and meat making subjects, wildfowls, and the like will be given by the girls, with such themes as "The 4-Girl's Dollar and Sense" and "I Got on Friendly Term the Things Around Me."

Haskell County History

20 Years Ago—June 23, 1918

Mr. and Mrs. G. F. Atchison of east of town returned from College Station Tuesday, where they had been to visit their son Earl, who is in training at that place.

John Harwell of Post loaded his threshing machine Monday for shipment to Grayson county to make a run in that section.

S. B. Robertson, a wholesale grain buyer of Stamford, was in the city Friday and reports that he has paid out to men in Haskell county several thousand dollars for empty sack since the first of the year.

Mrs. J. Fuller of Abilene, who has been teaching the ladies of the A. R. C. proper methods of making surgical dressings, passed through the city Tuesday en route to her home. She was accompanied to Haskell by Mrs. Sam Chapman, Miss Willie Browning and Mrs. Louis Browning.

Mrs. R. C. Couch and two children left Monday for Colorado Springs, where they will spend several weeks.

W. A. Duncan of Byers spent several days in Haskell this week.

Dr. and Mrs. J. C. Davis of Sagerton were here Wednesday to hear Governor Hobby speak.

M. W. Kesterson of Brushy was in the city Saturday looking for farm hands to chop cotton and do other work. He says that farm labor seems to be very scarce.

Born to Dr. and Mrs. W. A. Kimbrough of this city, a 10-pound boy Friday June 14.

These Stamford business houses were consumed by fire Wednesday night about 11 o'clock.

Ernest Ptolet left for Austin last week to enter the State University for the summer. He was principal of the Haskell High School during the past term.

40 Years Ago—June 25, 1898

Work on the reunion grounds is progressing, and several loads of lumber arrived this week for use in building stands and otherwise improving the site.

Mr. Fred James, who has been

public weigher at Haskell and Rule \$5.00.

Judge C. C. Higgins concluded the business of the spring term of our district court and adjourned the term Tuesday.

J. J. Stein met a party of Germans at Stamford the early part of the week, and showed them a large section of Haskell county in his auto.

Mr. Wm. Oglesby has been making extensive improvements on his residence in the south part. He has a modern cottage with 19 rooms and has his own water system.

Miss Louise Lamar, who has been one of the operators here for the telephone company, left Monday to visit relatives at Graham.

We are informed that on account of the increase in the scholastic population of Haskell the board of trustees is contemplating the erection of another school building at some convenient site, possibly in the east part of town.

H. G. King, banker of Dallas, spent several days in Haskell this week.

Home B. Wade of Stamford was in the city Wednesday.

A Tom of Truscott spent several days in Haskell this week.

Miss Dulin Fields went up to Monday last week to meet her sister, Miss May, who has been here at Will's Point.

Mr. and Mrs. J. F. Jones were over Wednesday completing the removal of their household effects to Rule.

A group of 45 National Youth Administration boys are working part-time at the Vocational and Technical High School in San Antonio helping build playground equipment and renovating school desks and other furnishings. J. C. Kellam, State Youth Director, has announced.

A home economics cottage, which National Youth Administration boys are assisting in building at the Dunbar High School in Mexia, is nearing completion. J. C. Kellam, State Youth Director, has announced. The structure includes food and clothing laboratories, a living and dining room, a fitting room, and pantry.

Awaking from a nap by the roadside, Stefan Kasandl of Budapest found that two of his gold teeth had been stolen.

20 Years Ago—June 20, 1918

Expense of holding the general primary election July 25th has been prorated among candidates for the various offices as follows: County judge \$7.00, county attorney \$5.00, county and district clerk \$10.00, sheriff and tax collector \$10.00, tax assessor \$10.00, county treasurer \$5.00, county surveyor \$5.00, county superintendent \$10.00, commissioner \$2.00, justice of peace \$2.00, constable \$1.00.

Brief News Items From Weinert

Meeting
Book Club met in the home of La Verne Burgess, Thursday 10, at 4:00 p. m. After a short business session, which was conducted by the president, Burgess, the group of 22 members heard a very interesting review, "The Magnificent Woman," given by Mrs. Henderson. Burgess was assisted in a refreshment glass of iced ice cream soda by Willie Webb and Mrs. ...

Missionary Society Meets
The Women's Missionary Society of the Weinert Methodist church met at the church, Monday, June 20th with eleven members and one visitor present. The program "Agencies for Evangelism," directed by Mrs. Vernon Anderson was very interesting and inspirational. This being the "Spiritual Life" program Mrs. Henderson told of personal evangelism. Mrs. Jess Owens told of evangelism in the home, and Mrs. Jack Bettis told of Christian groups, doing evangelical work. More plans were discussed during the business session for making funds to buy seats for the church. The following ladies were present: Mesdames Vernon N. Henderson, Guy Jenkins, Jess Owens, Horace Marsh, Jack Bettis, Edgar Davis, Rex M. Mussey, J. W. Medley, Alvin Bennett, W. Weinert, and Mrs. Richard Weinert of Childress.

Week's Scout News
Received Too Late for Publication
Boy scouts of the Weinert Monday night, June 20th, at the agricultural building of school. In the absence of Mr. T. L. Hawkins, Horace Hattox will be their leader until Mr. Hawkins returns. The attendance was not good, on account of the absence of many.

Mattson, They were shopping in Haskell Wednesday.
Mr. and Mrs. Jack Rich and little daughter of Leuders were visiting Mr. and Mrs. W. R. Rich this week. Mrs. Rich was also at her mother's during the illness and death of her father, Mr. Cal Lewellen of Mattson.

Durwood Corley of Olney is spending the week with his Uncle and Aunt, Mr. and Mrs. Sam Bird.
Mr. Henry Monke is in Knox City remodeling the Pendleton tin property.
Mr. Rufus Jones, Misses Eula Florence, Jeanette and Annie Lee Weinert were in Haskell Saturday.

Mr. and Mrs. John Spratlin and children visited Mrs. Spratlin's parents at Merkle Sunday.
Miss Lollie Bush of Oklahoma City came in last week to be at the bedside of her father, Mr. Fred Derr, who is at the Stamford Sanitarium. We are glad to report that Mr. Derr is recovering from his recent illness.

Mr. and Mrs. Louis Ashby who have been here for several weeks returned to Plainview. Little Misses Jean and Gaye Howard went with them to spend the summer with their aunt Mrs. Al Marr and Mr. Marr.
Mr. J. D. McClaren of Munday was in Weinert Monday.

Mr. and Mrs. Cecil Cooper of Munday were guests of his parents, Mr. and Mrs. John Cooper Sunday.
Mrs. Pearl Brown and children spent Sunday with relatives in Avoca.
Little Miss Alice Mae Hickman who spent the winter in the home of her aunt Mrs. J. K. Kane left for her home at Iowa Park Saturday.

Mr. H. T. Sullivan has returned to Weinert after spending several weeks at Camp Bullard, San Antonio. He leaves in a few days for his home in Alabama.
Mr. and Mrs. Bert Trice and children of Big Springs spent the week-end with his sister, Mrs. Guy Jenkins and Mr. Jenkins. They will visit Mrs. Trice's mother, Mrs. Woodson and Mr. Trice's uncle, Mr. Billie Burt in Haskell before returning home. Mr. Burt is quite ill at this time.

Mrs. Leonard Sadler and daughter Monnie are visiting in Weinert.
Messrs. Payne Hattox, Clifford Stiegler and Henry Monke left Saturday night for Lake Kemp to fish and Sunday they were joined by Mesdames Hattox, Stiegler and Monke who spent Sunday there.
Miss Buchannon, district itinerant teacher trainer visited Mrs. R.

L. Foote at the Home Economics cottage Wednesday June 14, and was pleased with the results that Mrs. Foote is getting from the Adult Homemakers class which she is teaching as a summer project in Weinert. She has had the best attendance of any class in the district. Much credit is due Mrs. Foote for the success of the organization. There has been an enrollment of twenty-four women to date.

The first work she gave the class was on food values, the preparation of meals and serving them. She is now teaching the selection of garments, also the making of set in pockets and bound buttonholes. These lessons mean a great deal to the young mothers of the class.

Mrs. Fred Aycock had as her guests last week her father and mother, Mr. and Mrs. Price Carter of Stephenville, former Haskell County citizens. Mrs. Roy Adams also of Stephenville and Miss Eunice Carter of Throckmorton, sisters of Mrs. Aycock, also Miss Hazel Wortham of Meridian.

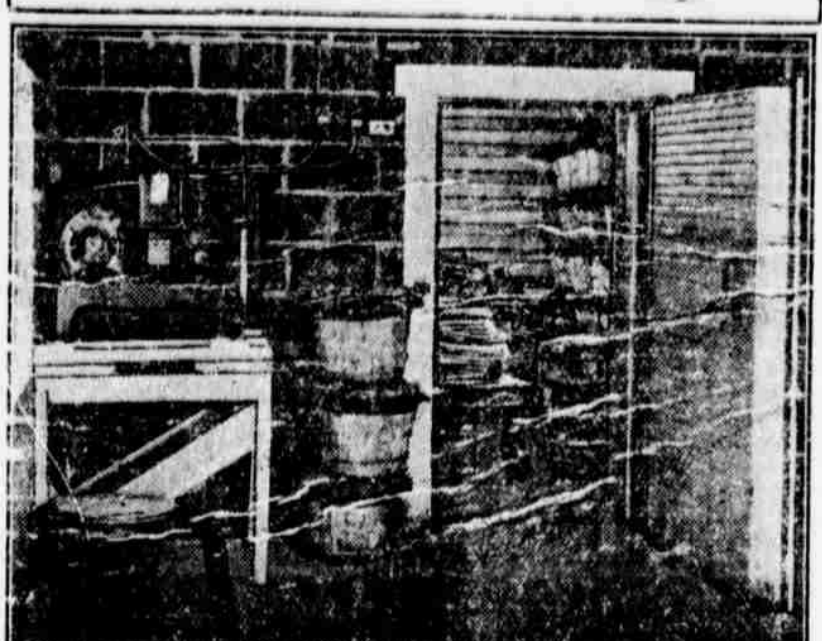

Mr. and Mrs. Garland Davis and son Don spent the week-end in the home of Mr. Davis' father of Sweetwater. This occasion was a family reunion, the first one in a number of years.
Mr. and Mrs. W. L. Johnson and sons Jack and Russell, spent Sunday in Leuders with Mrs. Johnson's parents.

Mr. and Mrs. Ernest Griffith spent last week in Wellington visiting Mrs. Griffith's parents Miss and Mrs. E. D. Clay. Their son, Clay, returned who has been in Wellington since the close of school here returned home with them. Mrs. Richard Weinert and son Dickie also returned with them for a week's visit with relatives here.

Mrs. Carl Palmer, Winton Palmer, Peggie Palmer and Miss Alice Palmer who spent last week here were in Lubbock last Saturday where Miss Palmer will enter Texas Tech for the summer term. They were accompanied by Miss Pauline Duff and her guest Miss Bobbie Lee Pearson of Lubbock.

Mr. and Mrs. Joe Parsley and son of Olney spent Wednesday night in the home of Mr. and Mrs. Sam Bird.
Mesdames G. C. Newsom, Ike Furr and Miss Eula Florence Newsom were shopping in Munday Tuesday.
Mesdames John Reeves and

Electric Cold Storage Keeps Farm Produce Always Fresh

With a cold storage room, market-fresh produce is available all year.

By IRA MILLER
Rural Electrification Extremes
ALTHOUGH an electric refrigerator is considered a hot-weather necessity on practically every farm having high-line power, its capacity naturally is limited to the food which the household will consume in a relatively short period of time. The problem of safely storing excess meats, poultry, eggs, dairy products, fruits and vegetables for future use, or to sell at higher markets, is one that must be solved in some other way.

Cold cellars and similar makeshifts are unsafe for meats and poultry and result in much spoilage and loss in quality of practically all other produce. On dairy farms which are so equipped, the "walk-in" type of milk cooler generally is sufficiently large to provide ample storage space for all family needs and, frequently, for marketable surpluses as well. Community cold storage plants are being built in ever-increasing numbers but some of them have certain disadvantages especially in so far as the fruit and truck farmer is concerned: The average locker may be too small to permit the keeping of more than a nominal quantity of food-stuffs; the temperature may be considerably below freezing, thus causing ice crystals to form in the cells which, when thawed, results in soft, flabby fruits and vegetables; and the customer usually must deliver and

withdraw the produce himself, thus necessitating repeated and often long trips. The best solution is to install an electrically-powered cold storage cabinet or room on the farm where it not only is immediately available but also where temperature and moisture can be accurately controlled to fit conditions. If not too large, the cabinet can be purchased ready-made built to order at the factory or constructed on the farm with the help of an experienced carpenter. Large storage rooms naturally must be erected on the farm.

Including the refrigerating unit and cabinet or room, walk-in cold storage will cost approximately \$5.00 to \$2.00 per cubic foot of space if built on the farm and \$6.00 to \$8.00 if purchased ready made or built to order. At three cents per kw.-hr., the average power cost throughout the year for these refrigerators is about \$3.00 per month for each 100 square feet of outside area—much cheaper than any other means of safe and satisfactory cooling.

Complete information on cold storage— which, maintaining temperatures of from 34 to 40 degrees and a moisture content in the air of 80 to 85 per cent, keeps all foods fresh and sound almost indefinitely—can be obtained, without cost or obligation, by writing to the manufacturers or to the extension division of your state college or university.

Sesoby were shopping in Haskell Wednesday.
Messrs. Clay Coggins of Stamford and John Coggins of Sweetwater were here to see their parents, Mr. and Mrs. S. L. Coggins last week.

Mrs. Fred Aycock had as her guests last week her father and mother, Mr. and Mrs. Price Carter of Stephenville, former Haskell County citizens. Mrs. Roy Adams also of Stephenville and Miss Eunice Carter of Throckmorton, sisters of Mrs. Aycock, also Miss Hazel Wortham of Meridian.

Mr. and Mrs. Garland Davis and son Don spent the week-end in the home of Mr. Davis' father of Sweetwater. This occasion was a family reunion, the first one in a number of years.
Mr. and Mrs. W. L. Johnson and sons Jack and Russell, spent Sunday in Leuders with Mrs. Johnson's parents.

Mr. and Mrs. Ernest Griffith spent last week in Wellington visiting Mrs. Griffith's parents Miss and Mrs. E. D. Clay. Their son, Clay, returned who has been in Wellington since the close of school here returned home with them. Mrs. Richard Weinert and son Dickie also returned with them for a week's visit with relatives here.

Mrs. Carl Palmer, Winton Palmer, Peggie Palmer and Miss Alice Palmer who spent last week here were in Lubbock last Saturday where Miss Palmer will enter Texas Tech for the summer term. They were accompanied by Miss Pauline Duff and her guest Miss Bobbie Lee Pearson of Lubbock.

Mr. and Mrs. Joe Parsley and son of Olney spent Wednesday night in the home of Mr. and Mrs. Sam Bird.
Mesdames G. C. Newsom, Ike Furr and Miss Eula Florence Newsom were shopping in Munday Tuesday.
Mesdames John Reeves and

This Lone Star State

By W. T. CARLEY
In this and succeeding articles prior to the first primary election we hope to acquaint our readers briefly with the inner workings of the various state departments, in the laudable hope that these readers may gain a better understanding of the extensive ramifications of their state government.

Our railroad commission was born in the brilliant, incorruptible mind of John H. Reagan and sold to the people of Texas by the rugged Jim Hogg. It came into being June 19, 1891, but was only an experiment until December, 1899 when a final sweeping decision of the United States Supreme Court gave it "proper teeth" to enforce its orders and decisions.

In addition to rate making for all transportation units in the state, the commission guards the production of 845,085,635,000 cubic feet of natural gas—sold to 590,794 Texas consumers. The commission guards the production of 80,000 Texas oil wells producing 507,234,000 barrels per year—forty per cent of the nation's oil production and twenty-five per cent of the oil production of the entire globe.

The commission has supervision over 93 bus lines, operating 665 buses that make 40,841,765 passenger miles per year; it supervises 1576 common carrier trucks making 64,215,242 truck miles per year, in addition to 1302 holders of contract carrier and special commodity permits.

The commission does not issue overload permits or enforce the 7000-pound law. This is under the highway commission, due to authority conferred by the legislature.

Next Week—The General Land Office.
Work has begun on a National Youth Administration Work Project for improving the athletic field at the Levelland High School. The youths are now assisting in building a fence around the grounds, sodding the area, and planting and cultivating trees and shrubbery.

Thirty-six youths in DeWitt County are working part-time on an NYA farm produce cannery project at Cuero. Youths assist in canning vegetables and meats, and process approximately 300 cans daily.

Hugh Wild Game Preserve Planned For Eastern Texas

Laying the ground work for establishment of public hunting and fishing resorts in Texas national forests, conferences have been held in Austin between state and federal officials on the subject.

Proposals for the projects were discussed at conferences attended by Secretary Will Tucker of the Game, Fish & Oyster Commission; Dr. Walter P. Taylor, senior biologist in charge of the Texas Cooperative Wildlife Service of A. & M. College, and L. L. Bishop of Houston, supervisor of National Forest in Texas.

Huge Acreage
Forests where the hunting grounds would be located are in the pine belt of Southeast Texas, comprising 1,714,000 acres. The Federal government owns 630,000 acres, and developmental game management projects would be started on suitable acres within the government-owned land. The regions are said to be rich in food and cover for wild turkey, deer, gray and fox squirrels and other species; but much of the area has little game on it

Mrs. A. D. Lewis Gives Statement of Her Candidacy

TO THE VOTERS OF HASKELL COUNTY:

I have for your support of my candidacy for the office of County Treasurer. I realize that the office is one of the most important to be decided by the voters of Haskell county in the coming primary. I consider the office a gift of trust to be bestowed by taxpayers and qualified voters of the county, and on this basis respectfully ask that you consider my claims and qualifications for the office. I have been a resident of Haskell county for the past 18 years, and together with my husband we have been property tax-payers during that time. I believe that I am fully qualified by experience, education and training—having had several years experience in book-keeping and clerical positions. As a farm housewife and the mother of five children, I believe that most of you will agree that I am no stranger to hard work. And believe that an office-holder should work just as hard and as conscientiously in handling the duties incumbent upon them as they would in managing their private business affairs.

With the limited time at my disposal between now and time for the primary, I shall endeavor to see all of the voters possible in behalf of my candidacy. And right here I want to express my appreciation for the kind reception and encouragement already given me by those voters whom I have had the pleasure of meeting—and to those whom I have yet to see, please consider this brief message as my personal solicitation for your support with the pledge if elected, as your next County Treasurer I will endeavor at all times to keep you on efficient and competent service.

Sincerely,
MRS. A. D. (Berrie) LEWIS.

A CORRECTION

In announcing the candidacy of Mrs. A. D. Lewis for County Treasurer last week, the statement appeared that she resided in the Midway community. Mr. and Mrs. Lewis have lived on their farm two miles east of Rule for a number of years.

Mr. and Mrs. Hill Oates left Tuesday to attend the druggist convention in Fort Worth. They were accompanied by Mrs. Jack Mickle and daughter, Elsa Lou who will visit Mrs. Mickle's sister.

J. J. Rocco of Dover, O., was fined \$10 for dancing to the music of a Salvation Army meeting.

Will be paid by the manufacturer for any CORN GREAT CHRISTOPHER CORN REMEDY cannot remove. Also removes Warts Drug Store.

Haskell Entrant Sought As West Texas "Goddess"

Haskell is one of 55 towns in this section invited to enter a young lady in the fourth annual "Goddess of West Texas" beauty revue here July 15, it has been announced by the Sweetwater Board of City Development, sponsoring organization. Twelve communities had already accepted Monday. They are: Fort Worth, Mineral Wells, Graham, Breckinridge, Colorado, Rotam, Anson, Stamford, Abilene, Midland, Roscoe and Snyder. Miss Joy Davis was Haskell's entry in the 1937 revue.

Miss Frances Prewitt of Stamford won first place in the revue last year and was awarded an all-expense trip to the Fort Worth and Dallas expositions. The winner this year is to be given a week's all-expense trip to Galveston. Second and third place winners are given cash awards. The contest to select "Miss Sweetwater" is to be held the night of July 14. As in previous years, she will not be eligible to compete for the regional title. She will serve as hostess to the visiting girls and will represent Sweetwater for the coming year in similar celebrations in West Texas. Miss Thelma Margaret Fife is reigning queen.

Entries in two revues are graded and judged 60 per cent on beauty of face and form, 20 per cent on poise and graceful carriage, and 20 per cent on personality. Contestants are forbidden to wear jewelry or hair ornaments and they are not permitted to use suntan or other artificial body coloring.

More than 25 West Texas towns were represented in the Goddess revue last year and the number is expected to reach 50 this year. A reception, tea, and "goddess" ball are among the entertainment features extended visiting beauties.

The Gulf AAU annual swimming and diving meet, to be held in Sweetwater, Saturday and Sunday, July 16 and 17, is expected to attract the best amateur swimmers and divers in Texas. Alfred J. Stiles is in charge of the meet.

Old-Age Insurance Benefits Available To Persons Over 65

A small poster entitled "Have You a Claim for Old-Age Insurance?" is now being distributed throughout the territory covered by the Wichita Falls office of the Social Security Board, according to J. Gordon James, manager of the office.

The purpose of the poster is to acquaint the public with the fact that lump-sum benefits under the old-age insurance provisions of the Social Security Act are now payable. The poster is being displayed in public buildings, business houses, industrial plants, and offices or meeting places of civic groups, veterans, patriotic, and labor organizations. It reads as follows:

"HAVE YOU A CLAIM FOR OLD-AGE INSURANCE?"

"Lump sums are now being paid by the Government.

"1—To men and women who have received wages for work in industry or commerce since December 31, 1936, and who have reached 65 since that date.

"2—To the estates of workers employed in industry or commerce after December 31, 1936, who have died.

"The accounts payable are 3 1-2 percent of the wages received for

work between December 31, 1936, and the date the worker reaches 65 years of age or dies. "WORKERS DO NOT HAVE TO RETIRE from their jobs to receive these lump-sum payments.

"FILING A CLAIM IS SIMPLE—THERE IS NO CHARGE.

"Claim forms, assistance, and information may be obtained at ANY Social Security Board Field Office."

The nearest Field Office is at 206 Post Office Building, Wichita Falls, Texas.

Piggly-Wiggly Store Will Give Prize For "Pig" Illustrations

A novel prize contest is announced this week by R. J. and R. V. Reynolds, owners of the Piggly-Wiggly food store in this city. A prize of \$5.00 in cash will be given the person who brings to their store not later than Saturday, July 2, the largest number of the familiar "pigs" used as illustrations in the store's newspaper advertisements. Every "pig" counts—so get busy and start clipping them today!

Mrs. William Ratliff was removed from her home here to the Stamford sanitarium in a Holden ambulance Thursday morning for treatment of her throat.

Prowler Suspect Assessed 2 Fines In Justice Court

Complaints charging the vagrancy were filed in Court Tuesday against Sausman, 25, after he had been taken into custody around midnight by City Sebo Britton.

The officer had been investigating activities of a vagrant in the residence of a few blocks northwest square late Monday. Sausman was arrested as he fled after he failed to pay a \$5.00 fine for a disorderly account for his presence in the vicinity. Later, Sausman identified several articles of the suspect's possession as having been taken from the premises of Mrs. Cass.

Sausman was arraigned in Justice of the Peace Court Tuesday, and on pleas of not guilty, he was fined \$10 and costs of the two cases filed against him.

A group of influential citizens were advisors of Andrew J. Sausman and known as the Kitchen Club.
