

CONFERENCE — Tom Warner of Colonial Country Club in Dallas addresses the Western Texas College Turfgrass Conference Wednesday afternoon in the WTC Fine Arts Theatre. Experts from around the state were speakers at the two-day education session, which was to end by mid-afternoon Thursday. (SDN Staff Photo)

## Outlook brighter for local family's immigration woes

By DONNY BROWN  
SDN Managing Editor

A hopeful prediction that the U.S. Immigration and Naturalization Service (INS) will be reconsidering an "investor's visa" for the Jack Pointeau family of Snyder was offered this week.

A California-based attorney who specializes in immigration cases, Eva Voisin, said "It appears the INS was working with old facts," a reference to the agency's failure to renew this annual permit in September.

"I now have high hopes," she said by telephone from her Redwood City, Calif. office. "Immigration has been very responsive."

Reasons cited for the original INS decision included that the family did not own a controlling interest in the business they operate; that their "investment" must be worth a minimum of \$250,000; and that they must show an "intent to expand" the business.

The Pointeaus own 50 percent of the Travelodge Motel and are nearing the end of negotiations to buy the remaining 50 percent.

Information which is now aiding the Pointeaus, Voisin said, is that they are in the process of assuming a controlling interest in the motel's ownership and facts concerning the economic downturn for Texas communities. See **POINTEAUS**, Page 9

Ask Us

Q.— In the proposed pay adjustments for Snyder teachers, how many would actually receive a pay raise?

A.— According to a sheet provided by the school district, and based on the current staff, 156 teachers would have their pay adjusted upward in a range from \$165 annually to \$2,150, and 86 would stay the same. Those whose pay would be frozen are teachers who started with the district this year and those in pay grade 10-plus, the highest level of pay here. School officials note the adjustment is only in the discussion stage at this time.

### In Brief

#### School rapes

FORT WORTH, Texas (AP) — Four O.D. Wyatt High School students involved in the rape of a 16-year-old classmate have been identified and will be arrested, police say.

The sexual assault was the third such incident reported at Fort Worth schools since September. One of the reported incidents was unfounded, officers say.

Fort Worth Police Sgt. Dennis Timmons said the girl told police she was walking to a physical education class Monday afternoon when she was abducted by four youths who drove by and forced her into a car.

#### Delta trial

FORT WORTH, Texas (AP) — The crew of Delta Flight 191 had more weather information than air traffic controllers in the final minutes before the airliner crashed at Dallas-Fort Worth International Airport, an air traffic control expert has testified.

The testimony by David Michael Archung, an accident investigator for the Federal Aviation Administration, came Wednesday in a federal court trial to determine responsibility for the crash that killed 137 people in 1985.

Archung testified that transcripts of the cockpit voice recorder shows that flight crew members saw lightning directly in front of them about two minutes before the crash.

#### Deny rumors

SAN ANTONIO (AP) — Mayor Henry Cisneros, acknowledging rumors about marital problems with his wife, Mary Alice, says there are no plans to seek a divorce of their 19-year marriage.

Earlier this week, a Houston radio station reported that Mrs. Cisneros would file for divorce next month, but the mayor's office denied the story.

Cisneros, who announced last month that he would not be seeking a fifth mayoral term next spring in order to enter private business, told reporters that the rumors have created a strain for his family, which includes two daughters, Teresa and Mercedes, and toddler John Paul Anthony.

#### Weather

Snyder Temperatures: High Wednesday, 76 degrees; low, 46 degrees; reading at 7 a.m. Thursday, 46 degrees; no precipitation; total precipitation for 1988, 20.30 inches.

Snyder Area Forecast: Tonight, clear. Low around 50. Light southwest wind. Friday, mostly sunny. High in the lower 80s. Southwest wind 10 to 15 mph.

## ISD to consider Christmas bonus

A recommendation that all staffers for Snyder ISD be given a Christmas bonus with the November paycheck will be considered Thursday during the regular October meeting of school trustees.

The concept of a Christmas bonus was first proposed at a budget workshop of the board this past summer and board members indicated they would be receptive to the plan assuming there was a carryover of funds from the 1987-88 budget year.

At a second work session held Oct. 4, the board was told that there was some \$900,000 in surplus funds at the close of the fiscal year, which ended Sept. 30.

During discussion of the bonus concept, it was noted Snyder teachers have been frozen in pay for the past three years.

Thursday's meeting will begin at 7 p.m. at the school administration building. Other agenda items listed include:

A communication from Francene Allen, president of the local chapter for the Classroom Teachers Association.

A request to appear before the board by the parents of a Central Elementary student.

See **BONUS**, Page 9

## Bush, Dukakis...

# Second debate tonight

By The Associated Press

George Bush and Michael Dukakis tended to last-minute preparations for the second and final round of their presidential campaign debates as polls suggested that the Democratic nominee must deliver a solid punch tonight to overcome his Republican rival.

The two White House contenders, in a day filled with sports metaphors — and even a sporting event — hinted Wednesday at their strategy for their face-to-face confrontation.

"Fastball, curve, slider — maybe a knuckler," Dukakis said when asked what he planned to toss at Bush tonight.

The vice president said he hoped to show the American people "what my heartbeat is, what I really care about."

Neither Bush nor Dukakis planned any campaign appearances today. The two candidates were conducting walk-throughs of the debate area before their 9 p.m. EDT clash at Pauley Pavilion, better known as the home of the University of California at Los Angeles basketball team.

Republican vice presidential candidate Dan Quayle was campaigning in Montana, Oklahoma and Arkansas while his counterpart, Lloyd Bentsen, was on Capitol Hill, urging Democrats in Congress to wrap up their session

quickly and hit the campaign trail for the Democratic ticket.

Polls released Wednesday showed the GOP nominee leading solidly in the state-by-state race for Electoral College votes, although nationwide surveys suggest a close race.

An ABC News-Washington Post 50-state poll found Bush leading firmly in 21 states with 220 electoral votes — 50 shy of the total needed to win the presidency. Dukakis led in three states and the District of Columbia for 30 electoral votes.

States in Bush's column included Texas and its electoral prize of 29 votes, and New Jersey, with 16 electoral votes, California, with the biggest electoral prize of 47 votes, was leaning toward Bush as was New York and its 36 electoral votes, according to the ABC-Post poll.

Following Material Embargoed for 6 a.m. EDT Release

However, a survey released today by The Buffalo News found Dukakis holding a 9 percent lead over Bush — 49 percent to 40 percent — in New York state, including a commanding 62 percent to 28 percent lead in the New York City area.

Political-Media Research Inc. of Washington, D.C., conducted the survey of 850 registered voters Monday and Tuesday. The poll had a margin of error of plus or minus four percentage points.

End of Embargoed Material

The ABC-Post poll also conducted a standard national survey of 1,187 likely voters and found Bush leading Dukakis 51 percent to 45 percent. The survey, conducted Oct. 5 through Tuesday, had a margin of error of four percentage points.

A CBS News-New York Times poll had nearly the same result: 50-45 for Bush. That survey of 1,009 probable voters was done Oct. 8.

## Operatic program set Sunday

Melanie Smith, choir director for Snyder Junior High and a veteran of past opera performances with the Abilene Opera Association, will present a voice recital at 2 p.m. Sunday in the Fine Arts Theatre at Western Texas College.

The program is being presented by the WTC music department.

Smith is a native of Abilene who has twice placed first in the "singer of the year" competition sponsored by the National Association of Teachers of Singing.

Accompanying her at the Sunday recital will be Jane Womack, WTC instrumental music instructor.

Included on the program will See **OPERATIC**, Page 9

HOSPITAL GUIDES — This group of community volunteers will serve as guides for school children's tours of Cogdell Memorial Hospital scheduled through May 17. They include, from left, Thadine Harless, Jill Tolman, Phil Kelley, Helen Dillaha, Becky Hochwalt, Christy Thompson and Teddie Hatcher and, standing, Luann Burlison and Earlene Gray. (SDN Staff Photo)

## 3rd grader tours due at hospital

Third graders from Snyder, Hermleigh and Ira will be receiving special tours of Cogdell Memorial Hospital beginning this month with tours scheduled through the end of school.

Between Oct. 17 and May 17, some 320 third graders will have the opportunity to view the medical facilities at Cogdell.

At the conclusion of each tour, the classes will be served ice cream in the doctor's lounge. During their tour, they will be shown such departments as the X-ray and CAT scan room, physical therapy, respiratory therapy, ambulance area, medical lab, pharmacy and the emergency room.

Prior to the tour, their teachers will be sent handout sheets. See **HOSPITAL**, Page 9

## The SDN Column

By Roy McQueen

The feller on Deep Creek says, "The right aim in life doesn't mean a thing if you are loaded with blanks."

There seem to be two types of football fans. One is moderately interested and he usually has a wife who agrees to go to the game only if she gets to eat out before and after.

The second type fan lives and breathes football. He's the guy who gives you a play-by-play on Saturday or Monday morning, spilling out rushing statistics like a computer.

But up in Vernon, a group of guys are living a daydream, being an owner of a professional football team. The Fantasy Football League is now in its seventh successful season.

The league has 14 teams which play a 16-game schedule. The season begins with an annual draft.

In fantasy football, owners draft a team consisting of 12 offensive players from the pro ranks. Each week they select six of their players: a quarterback, two running backs; two receivers and a kicker—for a game against another team in the league.

Scores are determined by the performance of

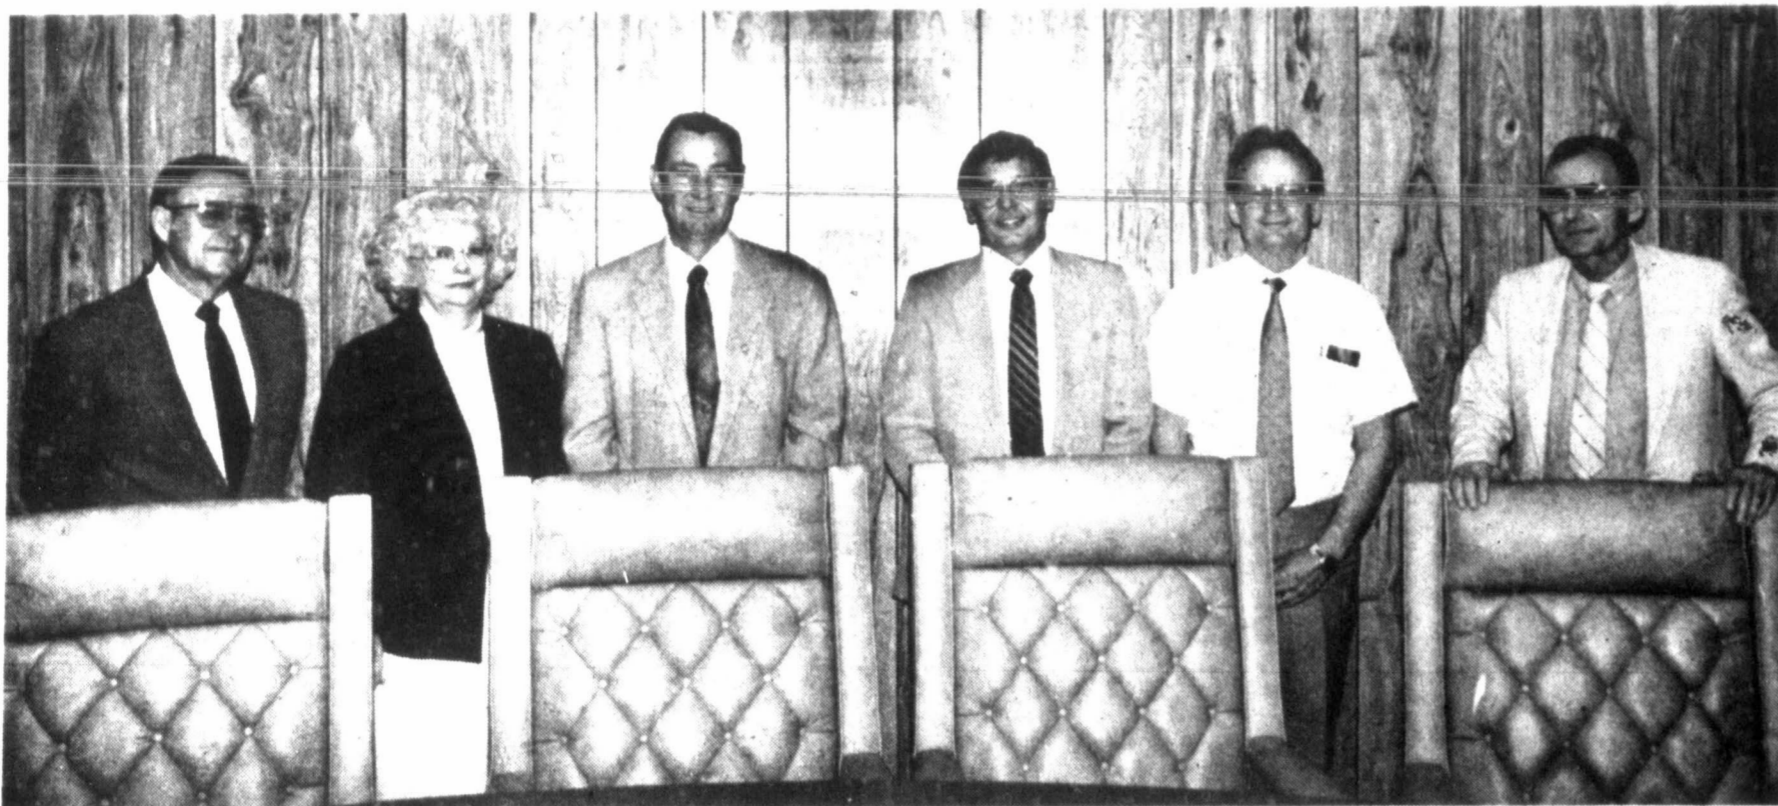

their players in actual NFL games over the weekend. A rushing touchdown is six points, a passing touchdown is three points for the quarterback who threw it and three points for the receiver. A field goal is three points and the point after touchdown is one point.

The annual draft is an indication of just how seriously the owners take the league. Owners arrive with lots of information and one even had a computer printout. The draft consists of 12 rounds with each team taking a player in every round.

The Buckner Bears had the first pick and chose Miami quarterback Dan Marino. John Elway of Denver was second. The league even has a commissioner who conducts the draft and helps determine the weekly scores.

But some owners may not have sufficient football knowledge. One drafted Larry Kinnebrew, not aware that he had been cut by the Cincinnati Bengals. Another owner drafted a player who had died the previous year.

But the owners are serious, and only make their opponents aware of their mistakes after the draft is complete. It sounds like those football nuts are out for blood.

**PRINCIPALS** — Principals gathered at the school administration building this week to mark Texas School Principals Week. They are, from left, Bob Travis of Stanfield Elementary, Gerri Parker of West Elementary, Ray Courtney of Snyder High School, Wayne Kennedy

of Northeast Elementary, Thomas Alvis of North Elementary and Jim Erwin of East Elementary. Not shown are L.D. Monroe of Central Elementary and Charles Anderson of Snyder Junior High. (SDN Staff Photo)

# China-Soviet summit likely

**BEIJING (AP)** — Senior leader Deng Xiaoping said today China and the Soviet Union are likely to hold a summit next year, according to diplomatic sources.

It would be the first such meeting in 30 years.

## Weight control class planned

Various aspects of weight control will be studied in a new Continuing Education class starting Oct. 17 at Western Texas College.

Classes will meet from 1-2 p.m. on Mondays, Wednesdays and Fridays to Dec. 9. Fees are \$30 per person.

Lee Burke, chairman of the WTC physical education division, will be the instructor. A portion of this class will be an exercise program. Burke would especially like persons planning to enroll in the college credit course (HPE 112-408) in the spring semester to sign up for this class in preparation for the spring class.

To pre-register call 573-8511, ext. 240.

Deng, in a meeting with Finnish President Mauno Koivisto, also expressed confidence that long-strained relations between China and the Soviet Union will improve, sources in the Finnish delegation said.

China's Foreign Minister Qian Qichen is to travel to Moscow later this year to discuss the proposed summit between Soviet President Mikhail S. Gorbachev and Chinese leaders, and it is generally believed Gorbachev will visit Beijing next year.

Deng's statement was the first by a Chinese to predict that the summit, the first since Nikita Khrushchev came to China in 1959, will likely take place next year.

Foreign Ministry

## WTC instructors attend conference

Joann Snider and Tammy Wesson, office careers instructors at Western Texas College, were among nearly 200 Texas Business Education Association members attending the organization's fall conference held Oct. 6-8 in Irving.

Speakers included Dr. Donald T. Rippey from the University of Texas who discussed "Educational Challenges for the 90s" and Tommie Butler, director of business education for the State Department of Arkansas, who discussed "Trends in Business Education."

The purpose of the annual convention is to encourage business education teachers to stay abreast of current educational issues and to provide sessions for teachers to improve their skills and knowledge in the areas of technology.

**TRAVIS FLOWERS**  
1906 37th  
573-9379

spokeswoman Li Jinhua said at a briefing today that it was still too early to name a time or place for the summit.

"The timing for the meeting between the top leaders of the two countries depends on whether the conditions are ripe or not," she said. "Now is the time for the creation of the conditions."

She said Deng and the Foreign Ministry held similar views on the summit, but declined comment on Deng's prediction that the meeting would take place next year.

The Finnish sources, speaking on condition of anonymity, said Deng also brought up the "three obstacles" China has cited as holding up the normalization of Sino-Soviet relations and said Soviet support for Vietnam's invasion of Cambodia remains the most serious.

The other two are the Soviet military presence in Afghanistan and the heavy Soviet troop concentration on the Sino-Soviet border.

The two sides met to discuss the Cambodian question in Beijing in August, and Qian is expected to take up the issue again in Moscow in a bid to narrow differences on how to bring peace to Cambodia.

The sources said Deng did not say whether Qian will set a date for the summit during his talks in

the Soviet Union.

A Xinhua News Agency report on the meeting today made no mention of the summit.

It only quoted Deng as saying political and economic relations between China and the Soviet Union will never be the same as those of the 1950s, when Moscow dominated Beijing. Deng said a new type of relation with the Soviet Union will be based on principles of peaceful coexistence, equality and mutual benefit and will not harm the interests of any other country.

China and the Soviet Union split over ideological differences in 1960 and have remained at political odds despite improving economic, academic and cultural relations in recent years.

Gorbachev has urged China to bury past differences and called for dialogue between the two sides.

The summit is likely to take place in Beijing because Deng, 84, no longer travels abroad. Deng has retired from most of his party and government posts, but is still the undisputed leader of the nation in terms of setting policies.

Gorbachev would also hold talks with Premier Li Peng and Communist Party General Secretary Zhao Ziyang, the two men responsible for the day-to-day running of the government and the ruling party.

## Reiter's syndrome explained in detail

**DEAR DR. GOTT:** Our grandson, 37, has had several attacks of Reiter's syndrome. He presently takes prednisone and Butzolidin with Darvocet or Tylenol #3 for pain. Can you tell me more about this condition?

**DEAR READER:** Reiter's syndrome is a non-bacterial infection that causes inflammation of the urethra (bladder out-flow tract) in men and the cervix in women. In both sexes, arthritis and mouth ulcers complete the triad.

Although the illness usually resolves in about three months, recurrences are common and produce joint swelling and pain that resemble other forms of arthritis, such as rheumatoid arthritis. The sexually transmitted micro-organism called Chlamydia is thought to be the cause. Therefore, treatment with antibiotics, such as tetracycline, may be curative. Many experts believe that Reiter's syndrome has a genetic disposition because of the high incidence of the tissue antigen HLA-B27, a genetic marker, in these patients. In chronic Reiter's syndrome, anti-inflammatory drugs, such as Butzolidin, are

helpful in relieving painful symptoms. Prednisone, a form of cortisone, is not of value. Prolonged arthritis symptoms often respond to physical therapy. The use of narcotics such as Tylenol #3 (with codeine), should be discouraged, except for very short-term use in selected cases, because of the addiction potential.

**DEAR DR. GOTT:** My daughter called and said she had a tumor and cyst removed and is having a sonogram. These are adnexal cysts. I find nothing in the books about these cysts. Can you help?

**DEAR READER:** The term "adnexa" refers to appendages. In gynecological lingo, "adnexa" means the ovaries and the structures around them: the ligaments and the Fallopian tubes. For practical purposes, the term also includes parts of other organs such as the colon, which are close to the ovaries. Your daughter apparently had fluid-filled cysts that lie in or around an ovary. Usually these cysts are benign. If painful, they can be surgically removed. Sonograms — ultrasound examinations — are an appropriate, safe, non-X-ray method of following the development of adnexal cysts. Sometimes adnexal cysts arise in non-ovarian tissues and can seem, on physical examination, to be in an ovary. In this case, doctors use the more general designation "adnexal cysts" in referring to these pockets of fluid.

## Dear Abby

By Abigail Van Buren

© 1988 by Universal Press Syndicate.

**DEAR ABBY:** While visiting a family in Santa Fe, we were enjoying a luscious meal of locally caught trout when we got into a discussion about how to eat corn on the cob.

Four of our party ate the corn in even rows — left to right. The fifth person ate the corn in a 360-degree movement, turning it round and round. Then ensued a serious discussion concerning the "socially acceptable" way to eat corn on the cob.

So, Dear Abby, please tell us: Should one eat corn on the cob straight across or round and round? I am sure there are far more pressing worldly matters, but we would like a little input from you, if possible.

MAY AND DON,  
SANTA FE, N.M.

**DEAR MAY AND DON:** Those who are sticklers for socially acceptable table manners are not likely to serve corn on the cob. (It's wonderful for picnics and outdoor barbecues, however.)

I can speak only for myself, but I gnaw the kernels off the cob beginning at the far left — and proceed across the cob. Then I rotate the cob and sink my teeth into the kernels above the "row" already eaten. (Something like playing a harmonica.)

I don't know about the folks in Santa Fe, but that's the way we Iowans eat it.

...

**DEAR ABBY:** Please help me. I am being deluged with "get well" wishes from friends and fans ever since The Associated Press put out a release saying, "Christine Jorgensen, the ex-GI whose sex-change operation nearly 40 years ago led to a career as an author, lecturer and nightclub performer, is dying of cancer."

That paragraph appeared adjacent to the obituaries in the San Francisco Chronicle! Abby, I had cancer surgery last

year, but to paraphrase Mark Twain: "The reports of my imminent demise are greatly exaggerated." Will you please help me spread the word? Thank you.

CHRISTINE JORGENSEN

**DEAR CHRISTINE:** I just did. Good luck and God bless you.

...

**DEAR ABBY:** I have a friend I see quite often. Whenever she sees me, she asks, "Is that new?" — referring to my dress, purse, shoes or a piece of costume jewelry, just anything I happen to be wearing.

I really like her, so I always tell her whether it's new or not, even though I find that question very irritating. Is there something I could say to get her to stop asking this annoying question?

ANNNOYED

**DEAR ANNOYED:** A few suggestions. Choose one. (If it doesn't work, try another.)

Her: "Is that new?"  
You: (1) "I really like you, but what difference does it make?" (2) "I really like you, but why do you want to know?" (3) "I really like you, but I wish you wouldn't keep asking me that question."

...

**DEAR ABBY:** You said you were interested in "unusual" names: I had a friend in school whose name was Bertha Mae Leake. Her brother was Raymond Will Leake.

They were both nice kids and deserved better.

MRS. RUSSELL DIXON,  
WILLOW STREET, PA.

## Astro-Graph

By Bernice Bede Osol

### Your Birthday

Oct. 14, 1988

Your prospects look very encouraging for the year ahead, provided you don't put too many irons in the fire at one time. Take pains to weed out those that have more sizzle than substance.

**LIBRA (Sept. 23-Oct. 23)** An important plan should work out as anticipated, but today you might be influenced by another and make some unwise changes. Get a jump on life by understanding the influences that are governing you in the year ahead. Send for your Astro-Graph predictions today by mailing \$1 to Astro-Graph, c/o this newspaper, P.O. Box 91428, Cleveland, OH 44101-3428. Be sure to state your zodiac sign.

**SCORPIO (Oct. 24-Nov. 22)** Even though you may be expecting additional funds, it's best to operate from what you have on hand. This way you won't be inconvenienced if you suffer any delays.

**SAGITTARIUS (Nov. 23-Dec. 21)** Be cautious today if you're involved with someone who you think is promising more than can be delivered. If you ignore your better judgment, you could have regrets.

**CAPRICORN (Dec. 22-Jan. 19)** Watch your step today so that you don't get careless and talk too freely about a con-

fidential matter to a person who has a problem keeping secrets.

**AQUARIUS (Jan. 20-Feb. 19)** A manipulator in your peer group may try to involve you in something today that is self-serving, but not to you. Don't snap at the bait.

**PISCES (Feb. 20-March 20)** The limb you're out on today is rather weak. Don't press your luck too far in situations where your reputation is on the line.

**ARIES (March 21-April 19)** Be extra careful today regarding mental tasks or assignments that are so routine you do them by rote. They're the ones where you could have slip-ups and make your biggest mistakes.

**TAURUS (April 20-May 20)** There may be more to your commercial dealings today than meets the eye. If you're offered something on the side for going along with the deal, take a hard second look.

**GEMINI (May 21-June 20)** Unless you are sincere about your intentions, it's best not to make commitments or agreements today. Be doubly sure people with whom you deal aren't playing games.

**CANCER (June 21-July 22)** Quantity should not be more important today than quality. What has the appearance of a big bargain could, in reality, be merely a lot of inflated fragments.

**LEO (July 23-Aug. 22)** It's OK to relax and have a good time today, provided you don't overindulge. You could blow your diet or health program in one fell swoop.

**VIRGO (Aug. 23-Sept. 22)** Your household budget can only be stretched so far before it snaps. Wait until you can pay cash for what you want instead of having to make drawn out payments.

**DONATION GIVEN** — The Snyder Police Auxiliary recently donated funds to the Noah Project which provides shelter and aid to abused spouses and their children. Pictured from left are Linda Scaff, director, and Karen Parker, president of the auxiliary. (SDN Staff Photo)

## Police Auxiliary gives funds

The Snyder Police Auxiliary met Oct. 4 at the Snyder National Bank community room for its monthly meeting.

The guest presentation was given by Kathryn Roberts, county extension agent. She

demonstrated the use of different accessories to create a whole new look from the same basic outfit.

The group voted to give funds to the Noah Project and made plans for a bake sale in November.

## Gardeners take tour

Snyder Garden Club members gathered at Martha Ann Woman's Club Oct. 6 to travel to the historic ranch home of Barbara Hamlett.

Following a tour of the home, Hamlett led a study of herbs in her garden and gave cuttings to members. A sack lunch and business session was held in the dining room.

LaVerne Hood, president, announced the District VIII convention to be held in Coleman Nov. 4-5.

Members were reminded of the Christmas gift project for patients at Big Spring State Hospital. In other activities, members worked with Cogdell Memorial Hospital in improving the hospital patio area and a bake sale is set for Nov. 12.

Guests Debbie Bronson and Denise Gibson were welcomed by 18 members.

The next club session will feature June Boren at Martha Ann Woman's Club with a program on dried plants.

**TOUR TAKEN** — Snyder Garden Club members were given a tour of the Hamlett ranch home and gardens Oct. 6. Members were given cuttings of various herbs to take home. (Club Photo)

## Alpha members join repair drive

Alpha Study Club met Oct. 4 with Sam Robertson, director of "Snyder Neighbors Sharing," presenting a program on the home repair project.

Robertson gave a review of the seven homes which were repaired last April, and stated that businesses, clubs, and volunteers are already committing themselves to this year's project.

For further information, call Robertson at 573-4053.

Sixteen members and three guests were present at Martha Ann Woman's Club for the presentation, and members agreed to help in the 1989 repair effort.

## 20th Cent. meets

The Twentieth Century Club met Oct. 4 in the home of Lois Bishop with a Chamber of Commerce representative presenting upcoming events and goals for Snyder.

Refreshments were served.

### FUN IN FRENCH

NEW YORK (AP) — At a mid-Manhattan day camp for boys and girls ages 3-13, all the activities are conducted entirely in French.

In Le Club des Enfants, a division of The French Workshop for Children founded by Francois Thibaut, the youngsters will learn French words and phrases while participating in games and activities.

## Snyder Duplicate Bridge Scoreboard

### FRIDAY

Dot Casey, Director

 2. Barbara Yorgesen and Dorothy Hudson.  
 3. Maribeth Vestal and Rick Hall.

"The public will believe anything, so long as it is not founded on truth," according to Dame Edith Sitwell, the English poet.

## Cut calories and keep taste

NEW YORK (AP) — Good taste and flavor seem to go along with fat and high calorie levels. But it's possible to get the same high aroma and flavor without the additional calories.

Dr. Susan Schiffman, director of the Obesity Clinic at Duke University and a member of the National Health and Sciences Advisory Board for Nutri-System Inc., gives these low-calorie seasoning and snack tips:

— As a substitute for chocolate topping, sprinkle a mixture of cocoa and a non-caloric sweetener.  
 — To increase flavor for low salt chicken soup, boil and add only half of the recommended water.  
 — Top popcorn or vegetables with butter flavored Pam rather than real butter or margarine.  
 — Season foods with lemon instead of salt to cut sodium content.

## Workshop held for flower judges

The District VII Texas Garden Clubs, Inc. sponsored "September Fest," a workshop on the new handbook for flower show judges.

Held Sept. 27 in the West Coke County Recreational Hall, Robert Lee, the session was attended by 43 members representing garden clubs in Abilene, Bronte, Big Lake, Colorado City, Haskell, Robert Lee, San Angelo and Snyder.

Instructor was Mrs. C.L. Sparkman of Odessa, flower show instructor and life judge.

Floral designs evaluated by Sparkman were created by Mrs. J.T. Holley and Mrs. John Willingham of Seneca Garden Club and Mrs. Travis Meitzen and Mrs. Tom Ridgeway of the San Angelo Garden Club.

Following a Dutch treat luncheon at the Cracker Barrel Restaurant, Mrs. Cumbie Ivey, District VIII director, took the group on a tour of Lake Spence and the Morning Glory Spillway, the only one of its kind operating in the U.S. today.

**GUEST SPEAKERS** — Steve Smith and Drew Bullard (left and right) of the Council for Excellence in Education were presented to University Women by Kay Hopper (center), first vice-president of the club. (SDN Staff Photo)

## University Women's Club hears education excellence

University Women met Oct. 4 at 6 p.m. for a salad luncheon and program at Martha Ann Woman's Club.

Kay Hopper, program chairman, introduced Steve Smith and Drew Bullard with the Council for Excellence in Education. They discussed the formation and organization of the council and outlined the aims of the group.

As part of the effort to recognize and encourage academic excellence, teachers were sent to workshops and a debate between candidates run-

ing for Texas State School Board was sponsored. Academically excellent students have been recognized each six weeks and a dinner was given to honor U.I.L. students.

The council has made contributions to various projects in education and work for scholarship funds. Anyone interested in furthering the goals of the council may join by mailing \$15 membership dues to the council in care of American State Bank.

University members were again active at the White Buffalo Days with homemade ice cream for sale.

lead, caught up in a special Willy fantasy of breaking up the defenders' communication. Naturally West played a second spade. Willy won and played a diamond to the 10, forcing East's ace. After East cleared the spade suit, Willy played his diamond winners, but East was able to throw a heart and a club painlessly. Eventually declarer had to play ace and a heart for down one.

The hand plays easily if Willy wins the first trick. After taking the diamond ace, East is not able to clear the spade suit because of the spade 10 in dummy. So he plays the club queen, which declarer should duck. On a club continuation, declarer can win the ace, run the diamonds (ending in his hand) and cash the club king. East will have been forced to throw a heart and a spade. South can now either throw East in with a spade to force a lead away from the king of hearts, or do it the other way by playing ace and a heart, compelling East to lead away from the queen of spades. Either way, the endplay brings in the game contract.

## Danger: Willy at work

By James Jacoby

A little learning can be a dangerous thing, especially when applied by Willy Nilly, our haphazard declarer. Willy bid a lot when he jumped right to three no-trump over his opponent's one-spade bid, but he did not think an invitational sequence in which he doubled first for takeout and then bid only two no-trump would do full justice to 21 points in aces and kings.

Willy botched the play earlier than usual. He ducked the jack of spades

GLASSES — Snyder Lions Club leaders Max von Roeder, left, and C.A. "Mac" McCown this week put sacks at various Snyder businesses to collect used eyeglasses for distribution to poor people in South America and Mexico. (SDN Staff Photo)

## Family of slain officer gets 2.1 million dollars from jury

DALLAS (AP) — The family of a slain policeman, who was mistakenly shot by another during a drug raid, has been awarded \$2.1 million dollars by a jury.

Relatives of Addison patrolman Ronnie Cox had asked for \$14.5 million in damages for his accidental shooting by a Dallas officer, but lawyers for the city of Dallas said the survivors were entitled to no more than \$711,000 and vowed to appeal Wednesday's award.

An attorney representing the Cox family said he was somewhat disappointed by the amount of the award.

"I thought we should have had a verdict in the \$5 (million) to \$7 million range," Cox attorney R.

Jack Ayres said after the verdict. He said jurors may have been influenced by news accounts of the city's dwindling liability reserve fund.

But juror Margaret Walsh denied any outside influence and said all jurors based their decision on logic and evidence.

"It was very difficult to put a price on his life, on his suffering, and the suffering of the entire Cox family," Ms. Walsh said. "How do you do that? The only thing that we could do was look at the facts, look at the charges from the judge and follow his instructions."

Dallas police officer Darren K. Coleman fatally shot Cox during a Dec. 12, 1986, drug raid at a

north Dallas apartment. Police from Addison, a Dallas suburb, participated in the raid.

At the request of Addison Police Chief Rick Sullivan, a Dallas County grand jury investigated the case, but declined to indict Coleman.

In civil court, the city of Dallas contended that Cox — who was not in uniform — rushed into the apartment without authorization and refused to drop a gun pointed at Coleman when ordered to do so.

In April, state District Judge Joe Burnett held the city legally responsible after ruling that Dallas improperly withheld evidence from Mrs. Cox's attorneys, a contention city attorneys denied.

Dallas City Attorney Analesie Muncy said that the award "certainly indicates that the rhetoric about \$14 million was extremely inflated."

"I think that it's a reasonable dollar amount for this type of case," Ms. Muncy said. "However, the city will appeal and nothing will be paid until we exhaust all appeals."

Jim E. Cowles, the attorney who represented Dallas in the damage trial, said Burnett's decision denying a liability trial would be the focus of the city's appeal.

## Former county resident honored as Top Techsan

LUBBOCK—Bill Haynes, long-time resident of the South Plains and former Hermleigh and Snyder resident, was recently named one of six Top Techsans for 1988.

After graduating from Hermleigh High School, Haynes was employed by Texas Electric in Snyder. He soon entered the Armed Forces and was a Sgt. First Class in the U. S. Army. After serving 16 months in Korea, he returned to Texas Electric.

He later earned a degree in telegraphy from Chauncy Business College in Pueblo, Colo. In 1960, Haynes earned a BA degree from Wayland Baptist University. That same year, he began a long-time career with Texas Tech as an accounting clerk at the housing office. After several promotions, Haynes was promoted through the ranks to his current position as assistant director of housing and dining services for business and summer conference.

During the past 28 years, he has served on various committees of the Association of College and University and Housing Officers International and the Regional Association. He served on the Association of College and University Housing Officers Conferences Services Executive Committee and in 1983, hosted the annual workshop at Texas Tech.

In appreciation for his service on the executive committee of ACHUO-I Conference Services, an award was established in 1987 in his honor, and he became the first recipient of the Bill Haynes Meritorious Service Award. The award will be given yearly to an individual who demonstrates outstanding leadership in conference services.

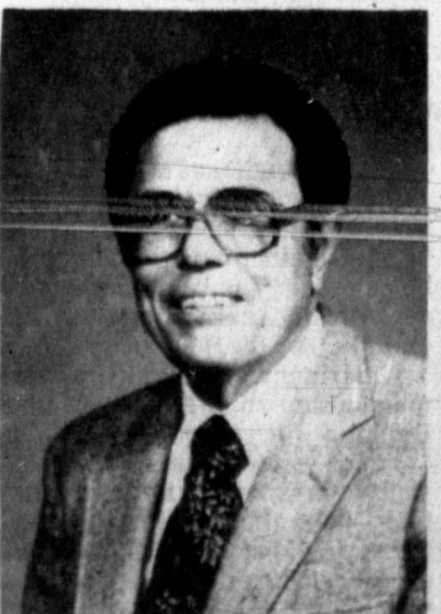

Haynes has served as sponsor

for Alpha Phi Omega and the Residence Halls Association of Texas Tech. He has been honored with a cash donation in his name to the scholarship fund of the National Association of College and University Residence Hall. As a result, he is listed as a National Association of College and University Residence Hall alumni honoree.

In spring of 1988 he received the Texas Tech Outstanding Employee Award through the vice president of Student Affairs Division.

Through his leadership, Haynes has been instrumental in assisting in the development of a more positive approach to university housing for all students.

Haynes' personal life is devoted to his family, gardening, arts and crafts and traveling. He is a member of Monterey Baptist Church and is a Master Mason. He served four years on the Board of the Day Care Center for the Lubbock community.

BILL HAYNES

## Knapp Baptists slate revival

Knapp Baptist Church will have a revival Friday through Sunday with Glenn Harlin as the evangelist. Friday and Saturday services will begin at 6:30 p.m. and services Sunday begin at 11 a.m.

Brent Hardegree will lead the music and Stacey Hardegree will present special music.

## Nazarene sets Thursday concert

Christian recording artists Drex Archer and Jeff Hicks, back up vocalist and instrumentalist, will be in concert at 7 p.m. Thursday at the First Church of the Nazarene.

The concert includes something for everyone and the admission is free.

## Africanized bees' genes are not diluting as they travel

WESLACO, Texas (AP) — Africanized bees are not mellowing as they make a beeline for the United States, scientists say.

"This African population is going to reach the U.S. virtually unchanged," Orley Taylor, an insect ecologist at the University of Kansas, said at the American Bee Research Conference Wednesday. "It's going to keep coming at us no matter what we do."

The release in 1956 of 20-30 swarms of African bees in Brazil and their steady northward trek has worried scientists and beekeepers.

In colonies, the Africanized variety tends to be more defensive around hives and will more aggressively attack and pursue humans than the gentler European bees commonly raised in the Americas.

Swarms of Africanized bees should reach Brownsville at the southern tip of Texas by March 1990, reported Jose Villa with the U.S. Department of Agriculture's

Agricultural Research Service in Baton Rouge, La.

Villa and Juan Labougle of the Universidad Autonoma de Mexico reported that the Africanized bees are spreading at the rate of about 300 miles a year.

Villa said the bees first arrived in the southern Mexican state of Chiapas two years ago, and described their movement as "a very dilute front that increases density through time."

Researchers and the bee industry in the United States have long assumed that the African genes would be diluted as they mixed with the European variety, thus improving their disposition.

But Glenn Hall, a bee researcher at the University of Florida, reported studies in South America and Mexico showing that the African variety in the wild retains its genetic integrity while continuously increasing its range.

"These findings are truly phenomenal and they are con-

clusive," Hall told the conference at Texas A&M University's Agricultural Experiment Station 12 miles from the Mexican border in the Rio Grande Valley.

The bees had "virtually a total absence of European mother lines" after 1,000 generations, Hall said, adding he prefers to call the feral swarms "African-derived" rather than Africanized.

Bill Rubink of the USDA's Agricultural Research Service in Weslaco said the fear of aggressive Africanized bees will bring an outcry for tighter regulation of apiaries in the United States.

Taylor said researchers do not know why the genetic makeup of the Africanized bees is not diluted more.

Efforts to dilute the African genes with European traits will bring only limited results, he said, but added there is hope through genetic research. "This African population ... is rapidly reproducing and truly self-sustaining," Taylor said.

## Onion quality improved by researchers

COLLEGE STATION, Texas (AP) — Researchers at Texas A&M University used tissue culture techniques to develop a way to clone a female version of the softball-sized "1015 super onion."

The process is expected to improve profits for growers in a matter of years and also improve the quality and yield of the onions.

The team of researchers, which has been perfecting the onion for more than 15 years, now can use tissue culture techniques for developing thousands of identical plants from one flower head. A flower head normally contains 300 to 400 tiny flowers and each can be used to regenerate about five plants, each eventually transplanted into the field for seed production.
