

THIRTY DISTRICT COMMITTEEMEN FOR AAA PROGRAM TUESDAY

KELL-STAMFORD BATTLE THURSDAY

Game Is To Play Burnett In District
Students will go to Stamford on Thursday to see the battle between the Bulldogs and the Redskins for supremacy in the district.
The game will be decided by the ruling of the committee "that in case of a tie the game was won and lost by the school which the other in conference of such was the case, and the district champion is at the peak of the season."
Ten days of hard conditioning and preparation for the crucial B game of the year, the Redskins are determined to beat the Bulldogs.

Vandals Burn Bonfire Tuesday But Is Rebuilt
Unknown persons, presumably those childish pranksters living fifteen miles south of Haskell, kindled more than a bonfire when the huge pile assembled for the pep rally and bonfire was burned Tuesday night.
The trick aroused the indignation of the entire student body and made the football team more determined to beat the Bulldogs.
A group of attractive feminine sex lured the Indians' guards away from the bonfire long enough for other youth to burn the stack of lumber. It has been zealously guarded by high school students each night, fearing just such a scheme would be attempted.
Students working hard for a week had assembled a huge pile of material almost fifteen feet high to be lighted after the mammoth pep rally Wednesday night. But all started again Wednesday morning gathering more boxes, posts and lumber. An even larger bonfire than the first was built.
Sign painting expeditionists left a large "Stamford beat Haskell" sign in red barn paint on the water tower but Stamford had a sign reading just the opposite on their own tower, painted earlier in the week.

To Move WTCC Headquarters to Abilene Friday

West Texas chamber of commerce headquarters may be moved to Abilene Friday according to D. A. Bandeen.
Bandeen said that necessary papers in executing the compromise, agreed upon by representatives of WTCC and the city of Stamford, and approved by the WTCC board of directors, had been drawn up and would be signed Wednesday.
In that case Bandeen indicated he would allow only the Thanksgiving holiday to pass before moving from the Stamford office to new headquarters in Abilene's old federal building.
Removal had been set for October 18, but was stopped on October 17 by a temporary writ of injunction secured by Stamford interests who opposed the move. With signing over the Stamford headquarters building—free of debt—to the city of Stamford, the injunction suit would be dropped, according to the agreement.
Bandeen has been working with E. V. Hardwick, attorney for the Stamford interests, in executing details of the compromise.

Cotton Storage Warehouse Is Already Filled

The government warehouse constructed here a month has been completely filled with cotton bales placed in the loan.
Storage capacity of the warehouse is 2,400 bales; but more was available loans could be made on more cotton, it is reported.
Need for the warehouse was evidenced here when lowered prices for cotton left many bales on growers hands. The revised loan on cotton made it possible for farmers to hold their cotton for better prices in the loan and the local warehouse could have been filled much sooner if a government clause could have been obtained when the structure was completed.
Owners of the building state that another warehouse will not be built this season.
Sam A. Roberts was in Denton Wednesday and was accompanied home by his daughter, Audra Gayle, and Misses Mayre Lena Tubbs and Helen Mable Baldwin, who will visit with relatives during the holidays.
A burglar who stole \$125 from the home of Rev. Alan Ramsey of New Orleans sent the money back several days later.
In his divorce suit Charles Falk of Los Angeles charged that his wife beat him with a shoe.

Now It's a Six-Man Football Team

Lined up in a 3-2-1 formation is the Manhasset, L. I., high school six-man football team running through signals. Invented by Stephen C. Epler of Columbia University, six-man football is designed to make the grid-iron game more open, safer, and to afford schools with small registrations more even competition.

REACH HALF OF GOAL IN RED CROSS MEMBERSHIP DRIVE

1938 LICENSE TAGS DELIVERED HERE BY PRISON OFFICIALS
Total of 3,500 Tags For County Received By Collector
The new 1938 license tags were received in Haskell Tuesday, according to Mike Watson, county tax assessor and collector. A total of 3,500 tags were received including passenger, commercial and farm license tags.
The plate this year presents an entirely different appearance from those of 1937. The passenger license are cream background with black figures. The numbers for this county range from 631-151 to 634-151. These plates are shorter but wider than the 1937 passenger tags.
The 300 commercial licenses have a black background with orange figures and farm tags are orange with black figures.
Despite the early arrival of these tags, they do not go on sale until March 1 and are not to be placed on cars until April 1, state the county officials.
Delivery of the tags was made in the State prison truck from Huntsville, with trusts of the prison in charge of delivery.
Explaining the colors of the tags it is pointed out that some Texas university or college is chosen each year for the color of the license tags. All of the plates are manufactured in the prison system at Huntsville by prison labor.

Hang Christmas Lights on Streets By December 11

Haskell will take on a gala festive look of Christmas season when the colored lights are put up next week or by December 11.
Sponsored by the chamber of commerce the lights will be strung from the main streets to the water tower. Each season the fire boys have accepted and handled this job.
Merchants have already started stocking their Christmas merchandise so that shoppers will not have to wait for that last minute rush. With Christmas only twenty-four more shopping days away many customers have already begun their buying for the holiday.
It is contemplated that more lights will be purchased to decorate the streets this year.
Mrs. Mary Walsh returned Wednesday from a week's visit in Stamford with Mrs. Hugh Austin, Mrs. Gordon Haynes and Mrs. Robert Harrison.
Mr. and Mrs. David Ratliff and son are visiting his parents, Judge and Mrs. L. D. Ratliff and other relatives.

Roll Call Is To Be Continued Through Thanksgiving Holiday

A generous response has been accorded the annual Red Cross Roll Call in Haskell County, inaugurated Nov. 11, according to J. C. Davis, county Roll Call chairman.
With a membership goal of one thousand for the entire county approximately half has been attained by canvassers. Largest enrollment in proportion to membership quota was received at Weiser. If the goal is not reached by Thanksgiving Day, scheduled closing time, it will be extended for a further period to complete the canvass. There are many in Haskell who have not been solicited and reports from other places in the county are not completed, states Mr. Davis.
This quota, an increase of \$150 over last year should be readily subscribed, point out committeemen, in view of the fact that the National Red Cross during the past several years have expended between \$20,000 and \$25,000 for the relief of distress and suffering in Haskell county alone. The Red Cross was especially active in this section at the beginning of the depression, when thousands of dollars worth of foodstuffs were distributed to needy families.
One half of the one dollar membership remains in the local chapter for Haskell's own needy and \$4.50 of the \$5.00 membership.

COTTON GINNINGS TOTAL 10,037 BALES FOR 1937 SEASON

Ginnings in Haskell totaled 10,037 bales for the 1937 season Wednesday night. Light snow halted gathering of the crop Monday but resumed operations Tuesday afternoon. However all gins were closed for Thanksgiving Day. Local gins have ginned 1,237 bales within the last eleven days. It is estimated that ninety percent of the season's crop has been gathered and recently freezes will hasten gathering of the remainder of the crop.
With production standing forty per cent higher than that of last year, in the neighborhood of \$17,500,000 in cotton money has poured into farmers' pockets in a 14 county area around Haskell since the opening of the crop this season.
From the influx of income however approximately \$1,500,000 has been paid to cotton pickers, practically all of this amount having been turned over and over, stimulating business already vastly improved by income from the cotton itself.

Letters to Santa Will Be Printed In Free Press

Following an annual custom, the Free Press will publish letters from its younger readers to Santa Claus in the issue of Thursday, December 23.
Letters telling Old Santa just what you want should be addressed to "Santa Claus" in care of the Free Press and should be placed in the mail not later than December 20 in order that they may be printed.
Get busy now, kiddies, and let Santa know just what you are expecting this year, and we feel sure that if you've been a good boy or girl, he'll try to arrange for your desires.

W. M. Reid Called To Attend Funeral Aunt, Mrs. Rogers

Mr. and Mrs. W. M. Reid were called to attend the funeral of his aunt Mrs. W. M. Rogers at Morgan Tuesday.
Mrs. Rogers died suddenly Monday and funeral services were held at Morgan Tuesday at 3 p. m., where she had resided for several years.
She was the aunt of Mrs. Reid and the mother of Mrs. Carter Rogers who had lived in Haskell for many years.

PROCESSING LEVY RESTORATION ASKED FOR FARM PROGRAM

Secretary Wallace came to the heart of the wheat country Tuesday, Wichita, Kan. to advocate restoration of the once invalidated processing taxes to finance the administration's farm program.
In a six-mile middle course wheat program he urged a processing tax for the payment of cotton benefits.
Warning that such a program could not be enacted without a fight, the Secretary brought a round of applause from 3,500 farmers and agriculture leaders of seven States when he declared:
"In the long run public opinion will prevail and it will support good laws, not half-baked measures written with one eye on the processors and the other eye on what the courts did before they saw the light."
The Secretary was introduced by Gov. Walter A. Huxman of Kansas. Farmers and official representatives from New Mexico, Oklahoma, Colorado, Nebraska, Missouri and Texas attended.
Following his address Wallace, George Farrell, Western division AAA administrator, and Dean Harry Umberger of the Kansas State College extensive service, conferred with State and district farm leaders on agricultural problems.

Fighting For Stability Asked

Wallace said a year ago consumers were paying farmers \$1.06 for each bushel of wheat that was milled. Today the farm price of wheat averages about 80c.
"If a processing tax of say 20c a bushel were added, the combined cost of wheat and tax would be \$1 a bushel—or 6c less than the farm price a year ago," he said.
He warned opposition to the processing tax and said already the milling industry, through the Millers' National Federation of Chicago, is organizing to block reinstatement of the levy.
"It is high time for the processors to join together with the farmers and the consumers in fighting for stability," he said, "instead of following the shortsighted policy of fighting against the best interests of all three groups."
The Secretary called his wheat and cotton program middle course, because, he said, they fell between two schools of thought—one laying emphasis on price regardless of how small production would have to become to get that price; the other, which would encourage unlimited production through an export bounty or through unconditional payments to producers.
Middle Course Advised
The first, he said, meant extreme nationalism and could be brought about through drastic marketing quotas applied year by year; the second would mean dumping with an increase in world trade barriers against the United States.
His middle course program:
First, planning for that share in the world market which will bring wheat farmers their maximum prosperity.
Second, the setting of acreage goals in line with needs of the soil and of the market here and abroad.
Third, protection against drought through an ever normal granary, with reserve supplies of wheat stored on the farm or in elevators.
Fourth, crop insurance.
Fifth, retirement of submarginal land.
Sixth, price adjustment payments, to be financed from tariff-equalizing taxes.

Transportation Fund To Add Another \$12,000 For Rural Schools

A total of \$35,136 has been recommended by John L. Beard, deputy state inspector, for state salary aid, following completion of inspection of all schools in the county.
This recommendation for the twenty-six schools includes twenty-one rural and five independent schools.
Transportation funds, another form of state aid, will be made in addition to this, which will equal the amount of \$12,000, 1936's figures. Actual total will not be known until the school year is completed.
The difference between expenditures and receipts is made by the state aid fund, eight months school guaranteed unaffiliated schools and nine months for affiliated schools.
Mr. Beard, with Matt Graham, county superintendent, completed the final check of schools this week. All but seven of the schools were inspected earlier, these having recessed for short periods.

Students Home For Thanksgiving

Miss Ruth Welsh, Ralph Bernard, Crockett English, Hubert Watson and Paul Montague, students in Texas University at Austin, are spending the Thanksgiving holidays with relatives and friends here. Arriving Tuesday night, they will return to Austin Sunday.
Mrs. Mary Walsh returned Wednesday from a week's visit in Stamford with Mrs. Hugh Austin, Mrs. Gordon Haynes and Mrs. Robert Harrison.
Mr. and Mrs. David Ratliff and son are visiting his parents, Judge and Mrs. L. D. Ratliff and other relatives.

ELECTION CALLED FOR NOVEMBER 30

Newly Introduced Cotton Seed Shows Valued Qualities

At last the ideal seed for Haskell County cotton producers has been found if reports of a grower in the west part of the county are accurate. Having all the desirable qualities of long staple cotton and also the best qualities of short staple now produced in the county, this newly introduced seed has proven very satisfactory on Mr. Smith's farm, one mile west of Rule.
Known as D. P. L. 11, the seed was brought by the grower from Mississippi last year when he moved to West Texas. Planting the seed for the first time here, it has produced more than a half bale to the acre on ordinary soil with an excellent "turnout" with the cotton has 1-32 staple, graded by a government classer and according to experiment records based on the most money per acre this variety of seed ranked first at the Spur experimental station, first at the Lubbock station and was grouped in the high ten at the Chillicothe station, the three closest experiment farms to Haskell, reports W. L. Scott, assistant county agent.
But all available seed have been bought from the owner and letters ordering more of the seed from its original home in Mississippi reveal that no more can be purchased there.
However farmers in the Rule vicinity are planning on planting what seed they have from this year's crop and more will be available next year.
Of course, one year's test of the seed is not a fair check but with the unusually good "turnout" this season many producers will change firm their present short staple seed to D. R. L. 11.

To Administer The 1938 Farm Program In County

Thirty committeemen and alternates to administer the 1938 AAA program in Haskell county will be elected next Tuesday, November 30, according to County Agent, B. W. Chesser. Meetings will be held in five different districts, with three committeemen and three alternates being elected in each district.
The elections will be held in the same manner as last year with Mr. Chesser, his assistant, W. L. Scott, one of the office clerks or a county committeeman in charge of the election.
Even though the 1938 program has not been announced producers are urged to attend these elections and have a part in selecting the men they want to represent them. Any producer of farm products, including ranchmen that will likely have some interest in the 1938 program are eligible to vote.
The following is the five meeting places and the communities that meet at each place:
HOWARD: Irby, Douglas, Cobb, Rockdale, Ericdale, Rose, Weaver, Howard, Post, Haskell No. 2 and Haskell No. 3.
CENTER POINT: Ward, Tanner Point, Gaunt, Center Point, Saughton, Flat Top, Bunker Hill, Plainview, Vernon, Sayles, McConnell and Haskell No. 4.
RULE: Gillingham, Foster, New Cook, Jud, Tunk Creek, Rule, Midway and Haskell No. 1.
O'BRIEN: Cliff, Mitchell, Hutto, Idella, Rochester, New Mid, Dennis Chapel, Marcy and Lone Star.
WEINERT: Pleasant Valley, Cottonwood, Ferris Ranch, Pleasant View, Brushy Lake Creek, Myers, Vontress, Ballew, Powell, Weinert and Roberts.
All elections will begin at 7:30 p. m.

Haskell County Relief Rolls Are Increasing

Relief rolls in Haskell County started increasing this week as the cotton gathering season drew to a close. Bumper crops and other employment had reduced the case load in the county materially during fall months but applicants flooded the relief office during the week.
Most destitute cases, after examination were accepted and application forwarded to the district headquarters office for approval. Ten applicants were accepted by Mrs. Mack Perdue Tuesday after interviews. Home visits and other checks on applicants will be made and only after thorough examination of the clients circumstances will cases be placed on the relief rolls.
Interviews revealed among many of those applying for relief were those tenant farmers who are without farms for the next year.
The general and WPA cases on Haskell County rolls now total 337 families, an average of almost five persons to the family.
Each year at this time there is a decided increase in local cases which continue to swell the rolls until spring months. Largest number placed on relief was last December when fifty-seven cases were added during one month.

W. Russell Coatney Called As Minister of Christian Church

W. Russell Coatney, minister of the North Lawrence Christian Church, Lawrence, Kans., has accepted a call to the ministry of the First Christian Church in this city, and is expected to arrive Thanksgiving Day to assume the pastorate. It was announced Wednesday.
Mr. Coatney, graduate of the Manhattan Bible College, Manhattan, Kans., was extended the call to the Haskell pastorate after preaching here about a month ago.
The new minister will occupy the pulpit at both morning and evening hours Sunday, and has announced the following sermon subjects: 11 a. m.—"Let Us Not Forget to Be Thankful." 7:30 p. m.—"Christian Workers."

PROCEEDS OF DANCE AT SONS OF HERMAN HALL GO TO RED CROSS

Proceeds of the dance at the Sons of Herman Hall in the Irby community Friday night, November 26, will go to the Red Cross chapter.
A string orchestra will furnish music for the monthly affair. Everyone is cordially invited to attend.

Continuation Of Our Football Boys

...and that's the way it goes. The boys who didn't know that they were going to play football this year were surprised when they found out that they were going to play football this year. They were surprised because they had heard that the school was going to play football this year, but they didn't know that they were going to play football this year.

Thoughts On Thanksgiving

Golden beams of sunshine, red days of fall and now the cold, very blanket of winter is upon us. This is a time for all nations to rest so that they may next spring burst forth again in all her glorifying glory.

Things They Thankful For This Year

That he is well enough to go to school every afternoon. That Roy P. is driving a truck when he goes to work. That he still has a way to live.

Things For Which We Were Thankful Two Years Ago

REMEMBER? (Taken from old school annual) Louise Pierson—That Lon Mc is going to get a football sweater soon. (Now she is so glad that Gene can supply a nice sweater).

Bonfire Is Built

In appreciation and in hopes of its giving our boys a good football spirit, the high school students built a large bonfire. The fuel consisted of boxes, paper and brush and made a very large fire indeed.

Speaking Of Spanish

The freshmen's chief delight seems to be in "raiding" the library. It is indeed fine to pursue knowledge but fighting over a place seems to be carrying it too far.

We Wonder?

When J. J. and R. S. P. that... We wonder if Frances Fouts knows that she is about to lose her marbles to a Munday girl? (I imagine she does).

Oscar's Letter

Many large business firms pay huge prices for the chef of the Waldorf-Astoria's signature. But one Haskell high school girl has received a personal letter from him with his signature. She wrote to the famous chef for some of his luncheon and dinner menus and received the letter with his signature; it was just "Oscar".

Fidelis Class Is Entertained

Members of the Fidelis class of the First Baptist Church were delightfully entertained Friday evening at the home of Mrs. C. V. Payne with Mrs. W. P. Trice, Mrs. Ralph Duncan, Mrs. Bill McKinnon, Miss Maybelle Taylor and Miss Viola Smith joint hostesses. The entertaining rooms were very attractive with fall flowers. Guests arrived at 6:30 and were served a two course dinner. Afterwards Miss Taylor gave a devotional and the teacher Mrs. R. J. Reynolds led in prayer. A business meeting followed with Mrs. Payne presiding. Mrs. Bill Richey and Mrs. Bill McKinnon were elected group captains and the class divided equally on each group. Plans were made for our Christmas party.

Those present were Mesdames R. J. Reynolds, R. L. Foote, Bill Richey, A. C. Pierson, George Henshaw, Red Henshaw, Elmore Smith, Bill McKinnon, Roy Killingsworth, C. A. Barker, R. L. Lemmon, Scott Green, J. P. Payne, W. A. Holt.

Misses Marguerite McCollum, Mary Grindstaff, Nettie McCollum, Mary Emma Whiteker, and a visitor Mrs. Kate Blauvelt of Olympia, Washington.

Rainbow Sewing Club Meets With Mrs. Lester Fore

The Rainbow Sewing Club met in their regular meeting Tuesday November 16, at 2:30 p. m. in the home of Mrs. Lester Fore. The room was beautifully decorated with lovely flowers. After the business session twenty-five minutes was given for recreation before the sewing hour began.

Mrs. Gaines Irvin was presented with birthday shower. Our next club meeting will be in the home of Mrs. Gaines Irvin Dec. 7th. An Achievement program is planned. Every member is urged to be present.

A plate of refreshments were served to Mesdames Jess Joesselet, W. E. Adkins, Walter Rogers, John McMillin, John E. Robison, Frank Kennedy, Gaines Irvin and the hostess, Mrs. Lester Fore.

Magazine Club Meeting

Mrs. R. O. Pearson reviewed the book "Schoolhouse in the Foot-hills" by Ella Ensloe and Alvin Harlow at the Magazine club Friday afternoon for their regular weekly meeting. Misses Jean Conner and Lottie Mae Thompson rendered two vocal numbers using mountain songs for their selections. Stanley Smith gave a reading, Mrs. K. H. Thornton and Mrs. Server Leon served tea.

Mrs. H. S. Wilson Entertains Members of the Merry Dames Club

Mrs. H. S. Wilson entertained members of the Merry Dames Club last Tuesday afternoon at her home. After a series of games of "84" Mrs. Wilson served a dainty refreshment plate to Mesdames, C. L. Lewis, T. C. Cahill, D. H. Persons, Sam T. Chapman, Mary Oates, R. V. Robertson, R. J. Paxton, Sam A. Roberts, Geo. Herrin, Elizabeth Martin, F. L. Daugherty, and Mrs. Nannie Cooper.

O'Brien H. D. Club News

Having a well filled pantry prevents embarrassment when unexpected guests come in, stated Mrs. Terry Robertson to O'Brien Club members in her home Nov. 17th. Mrs. Robertson's pantry supply consisted of all the various vegetables and fruits that go to make a wholesome meal.

Miss Vaughan gave a demonstration on making and selecting toys for children.

"The child learns more through his play than any other single activity," stated Miss Vaughan.

Toys should be selected for durability, hygienic cleanliness, simplicity, safety and flexibility of use.

By having tables and chairs to fit the size of the child will prevent many a soiled table linen. For children who like to slide down the cellar door an old wash tub will save the tearing and wearing of the clothes.

A variety of yeast breads and hot chocolate was served to Mesdames, J. E. Hawkins, C. M. Banner, Ogle Robertson, W. B. West, E. C. Westerman, C. W. Walsworth, Tom Link, T. J. Sparks, B. C. Cooner, Terry Robertson, Birdie Dickson, and Miss Mildred Vaughan.

Number of Changes To Be Made In '38 Farm Program

First indications of the 1938 government agriculture program were received here this week by W. K. Cottingham, county agent.

E. N. Holmgreen, administrative officer of the agricultural set-up in College Station pointed out that a number of major changes will be made.

Chief of these will be the doing away with the bases used in the 1936 and 1937 programs, and the establishment of goals. Included in these will be a general soil depleting goal, a soil conserving goal, a cotton goal, and a soil building goal.

"It will be necessary for the farmer to stay within the number of acres allotted for the general soil depleting and cotton goals, and to come up to the number of acres in the soil conserving and soil building goals if he wishes to receive 100 per cent benefit payments. Should he not do this, he will be penalized however, the penalty has not yet been announced," explained Mr. Cottingham.

The general goal for the county will be approximately 85 per cent of the 1937 general base. Likewise individual farm goals will be approximately 85 per cent of the 1937 general base (feed base) for the farm, subject to the adjustments made by the County Committee.

Smaller individual and county goal, it was announced, will be required where wind erosion is a serious hazard and where "Restoration Land" is designated.

Since it is possible that wheat will be an important factor in the coming year, it was announced that wheat will be included in the general goal. It was further pointed out that wheat compliance will be checked on the basis of the planted acreage in 1938, and not the acreage harvested.

Brief News Weinert

Weinert Preacher Moves To Plains

Rev. R. H. G. Albright and family who served the Methodist church at Weinert and Union Chapel will move to White Flat, Flomot, and will be pastor for the church there.

The preacher who will serve this charge comes to us from Shallow-water and is Rev. Vernon N. Henderson.

Owing to the bad weather on Monday, Nov. 22 there was no meeting of the Methodist Missionary Society, but the nominating committee plans to meet and elect the officers for the year 1938.

Married At Seymour

On Saturday Nov. 20, in a simple ceremony at the home of Rev. J. R. Balch, Miss Josie Martin, a popular member of Westover's younger set became the bride of Mr. George W. Farr. Rev. Balch, pastor of the Baptist church of Seymour, performed the ceremony.

Mrs. Farr is the daughter of Mr. and Mrs. Joe Martin of Westover and Mr. Farr is the son of Mr. and Mrs. Calud H. Farr of near Westover and a grandson of Mr. and Mrs. H. Weinert of Weinert.

They will make their home at Rendham, Baylor county.

Weinert Club Has Social

The first club social was given Monday night Nov. 22, in the home of Mr. and Mrs. W. L. Johnson with Mesdames Bailey Guess, Henry Smith, Preston Weinert, W. A. Marr and Johnson entertaining.

Gauntt, E. M. Server, M. G. Martin, M. M. Clark, A. J. Oates, J. M. Harrell, L. G. Server, G. M. Wade. Reporter

Louisiana Gets \$36,000,000 In New Industries

A summary of results of the first year's operation of Louisiana's industrialization program shows that Texas' easterly neighbor has attracted \$36,000,000 worth of new industry in that period directly attributable to state-sponsored efforts, says a report of the All-South Development Council.

It was on November 2, 1936, that Louisiana voters endorsed a new industry-courting program featuring a provision for 10 years property tax exemption for industries meeting certain requirements as to stability of employment and fair wages. The \$36,000,000 represents the total investment in new plants procured under the plan in its first year, comprising 57 tax exemption contracts which will provide employment for more than 17,000 persons and add about \$25,000,000 annually to Louisiana payrolls.

Governor Richard W. Leche, who not only originated the program but has done considerable personal sales campaigning to interest northern industrialists in the state's attractions, said in an "anniversary" statement that "Louisiana has taken the leadership in the South's drive for economic parity and we intend to maintain it vigorously—\$36,000,000 is an impressive start, but really we have only broken the ice."

CITATION BY PUBLICATION

THE STATE OF TEXAS

To the Sheriff or any Constable of Haskell County, Greetings:

W. M. Underwood, Administrator of the Estate of Frankie Underwood, Deceased, having filed in our County Court his Final Account of the condition of the Estate of said Frankie Underwood, Deceased, numbered 917 on the Probate Docket of Haskell County, together with an application to be discharged as such Administrator.

YOU ARE HEREBY COMMANDED, That by publication of this Writ for ten days in a Newspaper printed in the County of Haskell, State of Texas, you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same, if they see proper so to do, on Monday the 6th day of December, A. D. 1937, at the Court House of said County, in Haskell, Texas, when said Account and Application will be acted upon by said Court.

GIVEN UNDER MY HAND and seal of said Court, at my office in the City of Haskell, Texas, this 22nd day of November, A. D. 1937.

JASON W. SMITH
Clerk, County Court Haskell County.

I HEREBY CERTIFY that the above and foregoing is a true and correct copy of the Original Writ now in my hands.

GILES KEMP,
Sheriff Haskell County.
By Hettie Williams, Deputy.

Northwest Texas Farmers Blotting Out Wheat Smut

Northwest Texas farmers are increasing their efforts to blot out wheat smut in that area...

The loss from wheat smut in Baylor county was estimated at \$100,000 for the year...

wholesale treatment of grain for planting this season, and 50 percent copper carbonate is being used...

Stanford Brothers bought a grader and smut treating equipment, and have been going from one community to another in a county-wide smut eradication movement.

Loss from smut last year in Throckmorton county has convinced wheat farmers that it pays to treat their grain before planting.

As a result of a discussion led by G. J. Lane, county agricultural agent of Dickens county, 30 of the principal wheat farmers in McAdoo community formed a co-operative society for the purpose of buying and operating a machine of treating, cleaning, and grading wheat.

Approximately \$200 was spent on the project, and about 5,000 bushels of wheat will be treated for planting next year's wheat crop.

The cost of operating was born by each customer, and at the end of the season the profit accrued will be returned to the investors, leaving the initial cost for treating wheat about three cents for the copper carbonate and labor.

Between 3,000 and 3,500 bushels of wheat have already been treated for smut, and graded, ready for planting.

When You Feel Sluggish (Constipated) Take a dose or two of Black-Draught. Feel fresh for a good day's work.

Work seems easier, life pleasanter, when you are really well—free from the bad feelings and dullness often attending constipation.

For nearly a century, Black-Draught has helped to bring prompt, refreshing relief from constipation. Thousands of men and women rely on it.

BLACK-DRAUGHT A GOOD LAXATIVE

Floyd Gibbons' ADVENTURERS' CLUB

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF

"Worse Than Drowning"

HELLO, EVERYBODY: Charles Quinones of Bronx, N. Y., sends in a yarn that sets a new high for horror.

Charley is a Porto Rican who has come to the States to finish his education. It's a tale about his native land that he's going to tell us today.

They all lived in the town of Jajardo, on the northeast tip of Porto Rico, and the sea was not far away. They chose a spot called El Faro because of a lighthouse that stood on the hill above it.

Fishing With Dynamite. The tide came through the lagoon at El Faro at a pretty rapid clip. It was at the time when that tide was just turning that dynamite fishing was best.

They had to act quickly after that. If they didn't get those fish immediately the swift-moving tide would carry them away. Half a dozen of them dived into the water and began gathering up the ones on the surface.

Charley Quinones followed them—but instead of going after the fish on the surface he took a long, deep dive toward the bottom of the lagoon.

Between the Devil and the Deep. The little fish came to the top after an explosion, but the bigger ones sank to the bottom—and it was the big ones that Charley was after.

Huge Shark Was Terrifying. Says Charley: "The sight of it almost made me faint, and there aren't enough words in any language to describe how terrified I felt.

Desperate Push to the Surface. "And what made matters worse was the fact that no one could help me out of it. I was alone—more alone than anyone has ever been before, I believe.

International Boundary Markings. The land part of the international boundary between the United States and Canada, which is about 1,749 miles in length, is marked variously with monuments of iron, aluminum-bronze set on concrete, stone cairns and concrete, placed at points ranging from two and a half to four miles apart.

Softening Water. The water is so hard in some parts of the country that softening forms a part of the purification processes. Often, the saving in depreciation of water pipes and in the purchase of soap counter-balances the cost of softening.

Postoffice Mural Far Tougher On Females Than Mail

The Postoffice Department's new painting—"Dangers of the Mail"—appears on close inspection to be far tougher on females than on mail or males.

The ladies' stagecoach journey has been interrupted by Indians. The ladies are being scalped. They have lost their clothes.

80,000 EXPECTED AS RAIL TRESPASSERS. The number of illegal train riders and other trespassers ejected from railroad property but not arrested in the six months' period from March to August, inclusive, this year, was approximately 80,000 below the safe period in 1936.

The greatest number of illegal train riders and other trespassers ejected from railroad property in any month included in the six months covered by the reports was in July, this year, when there were 463,181.

It sounds a little bizarre, but critics grant the nude sheep herding might have happened. What troubles them is what became of the ladies' clothes.

lost their lives and 937 were injured, compared with 916 killed and 951 injured in the same months of 1936.

The protective and safety sections of the association of American Railroads are engaged in an intensive campaign to reduce the number of trespassers on railway property. This campaign was inaugurated last spring and was prompted by the increase that has taken place in recent years in the number of illegal train riders and other trespassers.

Pascal Trent was arrested for giving trick cigars to four Boston policemen.
