Mr. McClintock, employed in Reid's Drug Store for several years, resigned that position to attend a school of pharmacy and later accepted a position in Midland. His many friends and acquaintances will be glad to welcome him back to Haskell.

Selection of Most Suitable Name Will Be Made at Formal Opening

In order that a suitable name may be selected for the new City Park and Swimming Pool, city officials and several cooperating merchants have announced that a number of attractive prizes would be awarded for the best name submitted for the park, all entries to be made before noon Friday April 30.

REGULAR MEETING OF CC DIRECTORS HELD ON TUESDAY

Haskell Will Send Sponsor and Home Town Speaker To WTCC Convention

Favorable reports of committee activities were heard by directors of the Chamber of Commerce in their regular meeting held Tuesday afternoon.

Directors also voted to send a young lady sponsor to represent Haskell at the annual convention of the West Texas Chamber of Commerce in Brownwood May 10, 11, 12, and also to sponsor a Haskell entry in the "My Home Town" speaking contest.

Haskell will also take an active part in other activities at the annual WTCC convention, and will sponsor a motorcade from Haskell to attend the three day meeting. Securing of a large delegation will be in the hands of Courtney Hunt and Guy Collins.

Directors also voted to ask for a "Haskell Day" at the Frontier Fiesta in Fort Worth and plans for having a large delegation in Fort Worth on that day were discussed.

County Judge Charlie Conner appeared before the directors, and led a discussion regarding filing of an application for WPA approval of a county-wide road improvement program.

Committee reports were made on Dairy Development, Membership, Highways, Lateral Roads, Trade Extension, Budget, and Projects.

Tax Attorney Is Employed by the County Recently

Collection of approximately \$100,000 in delinquent taxes due the county will be undertaken by Vance Swaim, of Lubbock, attorney specializing in the collection of delinquent taxes.

An agreement between Swaim and the Commissioners' Court was approved recently, and the attorney expects to begin preliminary work of checking the delinquent rolls within the next week or ten days.

Action of the Commissioners' Court of Haskell county is in line with other counties in this section, where a large percentage of back taxes are being collected.

Mr. Swaim is a former county judge of Foard county, holding that office for several years.

Comments On City's Growth In Past Year

"The town of Haskell during the past year has evidenced a more progressive spirit, and has made more concrete advancement in a visible business way, than any town of similar size in the state of Texas," was the comment recently of J. M. Woods, representative of a Rochester, N. Y., business house who regularly visits all sections of the state.

Mr. Woods' comment was elicited after he had noticed the many new residences built and remodelled recently, and the numerous improvements being made on business property in Haskell.

OIL TEST WILL BE DRILLED ON COLBERT RANCH

Leases Filed This Week Call For 2,500 Test To Be Started Soon

Oil leases on twenty-one tracts of land, comprising acreage included in the Colbert Ranch in the south part of the county, and covering approximately 3,360 acres of land, were filed for record in the office of County Clerk Jason W. Smith this week.

The leases were executed between A. E. Pardue of Jones county, who recently purchased the ranch property from Hardy Grissom, and the Forest Development Corporation of Abilene. Terms of the lease call for starting an oil test on the property not later than May 15th. A prior option on the acreage, executed between the owner and oil corporation in January this year, provided for drilling of core tests and other geological work, which has been completed.

The test well will be drilled to a depth of 2,500 feet, according to terms of the lease.

Mail and Bus Routes in All Sections of County Included

Application for a WPA grant in connection with the contemplated road improvements in Haskell county that will cost approximately \$140,000 was filed with the district WPA office this week by county officials. Request for the grant was contained in a blanket application and included projects involving 150 miles of lateral roads in the county used as mail and bus routes.

Submission of the several projects in one application was for the purpose of obtaining earlier consideration of the county-wide improvements, sponsors said. Every section of the county is included in the contemplated program.

Improvements would include widening of roadways, construction of drainage structures and fills, grubbing right-of-ways, etc., on at least 150 miles of roads in the county.

Final approval of the application would enable the county to make needed improvements to its system of roads at a nominal expenditure of county funds.

Budding Romances

LaVerne and Lloyd bud at noon with a little red mixed in.
 Marjorie and Albert still bud, but it ain't what it used to be.
 We don't know just what you'd call Ed and Robbie Jo's romance.
 Since Wilma's father is a preacher she buds mostly at church.
 Melba and Delman's love affair has just opened up.
 Jimmy and Eula Fay's started off with a bang and ended with a stand up.
 Junior and Anne Mae are still budding.
 Lynn and Kinzie's romance has just taken root.
 Roy and Mayre Lena may not bud long, but they're budding while the buddings good.
 We haven't heard about Henry Stanton lately but we know he's making those cowgirls hearts in Arizona beat fast.
 We know Elizabeth Huckabee is having plenty of romance in Ganga. Blondes like her usually do.
 If these budding romances continue to bud maybe they'll bloom like Frankie Dorris' did some day.

Who Are The Juniors?

Here comes the Junior class! Of course the first question asked will be "Who are the Juniors?" Well, folks open both ears, and I will attempt to tell you who they are.
 They are the most important class of student in Haskell High School. There are between 50 or 60 students in the class. Our class officers are named elsewhere on this page so I'll not bother you with them again.
 Most of the athletics are made of Junior students. Some of these students will be eligible to engage in these activities next year.
 We may not be the largest class but we have the largest average on the honor roll. Most of the time the smartest students in school are found in the Junior class.
 Many students in the Junior class play important parts in different clubs—such as: Gypsy Ramblers, Home Economics Club, and the Choral Club.
 The most important event in the Junior class this year will be the Junior-Senior banquet. It will be given by the Juniors in honor of the Seniors. The Juniors intend to make this banquet the largest and most successful banquet that has ever been held. We hope that all students who will attend will have a good time and enjoy themselves.

Junior Class Is First In Athletics

In the Haskell High School the Junior class is first in athletics.
 During the fall it had more men to letter on the football team than any other class. Those lettering on the team were as follows: Jimmy Crawford, Claude Jenkins, Lloyd McMillan, Robert Thompson and Marion Josselet.
 On the track team we were well represented. The Juniors on the team are as follows: A. J. Pinkerton, Lloyd McMillan, Robert Thompson, R. F. Harrison and Claude Jenkins.
 There are also two Junior boys on the Tennis team, Claude Jenkins and Bob McNulty. Wilma Kuenstler was on the girl team.
 Now you know of the athletics of the Junior class, let's see another class' beat it.

Juniors Planning Largest Banquet In History H. H. S.

The Junior class of 1937 is planning the largest, most up to date banquet that H. H. S. has ever had. With the whole class cooperating wonderfully it is really going to be "put over". The affair is scheduled to be held April 30 at the Methodist church at 8:30. The Juniors are going to be there 100 per cent and they are very anxious that the Seniors are also. The teachers have a very special invitation to attend, with their wives and what not.
 The Juniors feel as though the Seniors are our big brothers and sisters and want to do all we can for them while they are in high school. So, since the Junior-Senior banquet is supposed to be the biggest event of the year, we are going to make it so. We have a very good program planned which we are sure everyone will enjoy.
 So all you Senior girls and boys put on your Sunday clothes and come out to the Junior-Senior banquet.
 You can depend upon the Juniors.

New Members In Gypsy Rambler Club

The Senior Ramblers met Wednesday April 14, to vote in new members to the club. Names were written down on slips of paper by the members then put on the board, and the Senior Ramblers then voted in the usual method. There were twenty four names, and for the first time in many years every name was accepted.
 The girls are as follows: Bertha Adcock, Dorothy Dee Welsh, Nannie Patterson, Cleo Perdue, Annie M. Lees, Irene Miller, Thelma Landess, Erlene Stodghill, Olive Sloan, Muri Lancaster, Audra Lee Gunn, Maggie Lee Piland, Jean Kendall, Mildred Miller, Frances Holmesly, Doris Hallmark, Dela Pearl Blackwell, Savonne Cox, Evelyn Adcock, Golda Woods, Evora Jenkins, Leatrice Wheeler, Emma Pearl Graham, Margaret McClintock.

The Juniors Wonder

Why Joe Isbell left K. T.'s Tuesday night before Lynn Pace did?
 Why Mickie Lee went to Abilene. (Mickie, it wasn't on account of a boy was it?)
 Why Marion J. and Gene R. were late at Knox City. (Could it be they had a wreck?)
 Who's ring Wilma W. has on that fits her so good?
 Where was little Frances Fouts Friday night when A. P. went to fetch M. C. (You can't be losing him Frances.)
 Where Robbie Jo Burson was Saturday night? (Don't get afraid Robbie, we won't tell.)
 Where LaVerne H. is every night when she doesn't have a date with Johnnie C.
 Where Doyle H. was Friday night? (Doyle do you remember?)
 What happened at Conners' Friday night that they stayed so long.
 How Bob Mc and Thomas Lee got around in Abilene without that V8?
 If Jack S. has him a nurse in Stamford? (I hear Joe I. has).
 How Melba C. felt when the old timer came to the door last Friday night?

Musical Talent

The Junior class has a very remarkable talent for music. There are many students playing brass instruments, string instruments, and other forms of instruments. In the Haskell Municipal Band there are four Juniors and I feel sure there would be more if we had a High School band. Marjorie Ratliff is a noted piano player; also Melba Cullum, Marvin Post, and Martelle Clifton. Joe Isbell takes on a clarinet and can Virgil Meadors toots that saxophone. There are so many Juniors who can pick guitars there's no use naming them. So you see the Junior class also has much musical talent.

Junior Census in 1950

Frances Fouts is working in a big law firm in Detroit and is making a fine secretary.
 Geneva Thompson is now a blues singer on Jack Benny's program. It is rumored she's interested in the orchestra leader.
 Frances Reese is settled comfortably near Dallas, on a Smith farm.

Appreciation of Seniors

For a school to be a success it is necessary to have the wholehearted cooperation of all the students. It has especially been true this year because of our building conditions. To fully appreciate the seniors it is necessary to see what they have done under such conditions.
 Without a doubt the senior year is the hardest grade in high school. They have much more work and studying to do and we cannot help but admire the splendid work they have done. The seniors have helped make school just a little bit more pleasant and more enjoyable without any of the "superior stuff" found among many high schools. There is a closer friendship among classes and is being well led by seniors.
 As freshmen, sophomores and Juniors, those who are now seniors have contributed, through various organizations and clubs, much to the advancement of our school. On the football field it is especially noteworthy to see the fine brotherhood between seniors and other classes. There is no distinction—just a team battling for Haskell High carrying it to victory after victory.
 Soon these young men and women will graduate to become a definite part of the community of which we live. Our appreciation of them will be shown in a small way by the Junior-Senior banquet April 30. We sincerely wish them good luck and all the happiness in the world as they enter the "glorious adventure."

HEARTY RESPONSE AT M. E. CHURCH LOYALTY SERVICE

Church Leaders Encouraged By Liberal Response In Debt Campaign

The loyalty rally at the Methodist Church Sunday was well attended and successful in many respects, according to the pastor. The offering from those present was good and several good subscriptions have been received since that time. Some are contributing more than could have been expected. Others were somewhat hesitant because of the need of moisture on the wheat.

One of the workers said, "We are pleased with the results obtained in the debt raising campaign. We propose to hold what we have and make gains as rapidly as possible."

The campaign committee has agreed on an every-member campaign following Sunday's offering and every friends of the church is asked to encourage this movement.

Bishop H. A. Boaz of Fort Worth preached a most convincing sermon from the first two verses of the 84th psalm. The Psalmist said, "My soul longeth, yea even fainteth for the courts of the Lord, the Tabernacle of the Most High." Bishop Boaz emphasized the importance of the church among human institutions.

The subscribers to the church debt fund are making their checks and notes payable and the Farmers and Merchants State Bank

as trustee of the fund. The bank has been instructed to hold this money until all has been collected before any is paid out.

Traffic Signal Is Installed at N.W. Corner of Square

An automatic traffic control signal, ordered several weeks ago by the City Council, was installed Tuesday afternoon at the intersection of the two highways on the northwest corner of the square, scene of numerous automobile collisions over a period of years.

Haskell motorists are fast becoming acquainted with operation of the signal, and numerous favorable comments have been made to city officials.

An ordinance providing for observance of traffic rules in connection with the signal is being drafted by City Attorney French M. Robertson, to be passed at the next Council meeting. Penalties for failure to comply with the regulations will be strictly enforced, city officials announced.

If results of the new installation prove satisfactory, several other signals are contemplated in the near future, it was indicated.

A LESSON FROM THE WAR

Twenty years ago the people of the United States were facing participation in the World War. Congress had just passed the Declaration and the nation was finding out, for the first time, that unless men were sent abroad the Allied cause was all but lost.

It is worth while to learn a few lessons from the encounter, if possible. One of the striking illuminations is that, while we went to war to protect our shipping from German submarine depredations our chief contribution was a huge army in France. The point being that our shipping interests could have been protected by warships alone and the lesson being that if our shipping is attacked in the future and we decide to protect it, the navy is the weapon for the occasion.

Rear Admiral W. N. Phelps, Retired, points out this way clearly when he says "a few hundred millions put into augmented sea power would have beaten down the German submarine." Thus, if we ever have occasion to protect shipping in the future, let us do it with sea power, not an army of men in a foreign country, trying to overthrow an other government.

DO WE FACE STATE TARIFFS?

Many citizens of the United States fail to understand that the forty-eight States of the union are the greatest free trade market in the world with no tariffs, quotas or restrictions to the free exchange of goods.

The protection of interstate commerce by the Supreme Court in numerous decisions broadly defining the term has had much to do with the development of nation wide business. Not many of us vision a condition in which each State would have the right to block the goods of other States from entry within its borders unless the goods meet certain requirements but the possibility is beginning to interest business men who look ahead.

Consider for example, the decision of the Supreme Court that manufacturing is not interstate commerce and that farming likewise is interstate

production. Add to this that the court has held that a State can bar prison made goods from another State, with the implication that it can bar other goods not up to State established standards of wages, price or labor relations.

What happens? Well, let us suppose that a minimum wage is set in one State and, to protect manufacturers, goods from commonwealths with lesser standards barred. Let us consider a farm product such as milk. Under a New York law the price is fixed by the State and the Supreme Court has approved the law. The implication is that milk from other States can be barred. The field is wide open.

Already some of the States have attempted to bar goods from across the border and, with the way cleared, might not various States seek methods to give particular advantages to the manufacturers and farmers of their domain? Does this mean legalization of State AAA's and NRA's? We ask the question because we know of one State legislator who has already suggested a State AAA in his commonwealth in order to build up its agriculture.

We do not attempt to answer the problems that business men and farmers must face in the future. Either the national government must regulate these products or the States will do it themselves. What will the final result be? Frankly, we have no way to tell.

A GAMBLE

As the baseball season begins it might be well to consider the high prices paid for ball players and to understand that the magnates gamble when they buy.

An example is the purchase of Al Simmons by Detroit slightly more than a year ago for \$75,000. The other day he was sold to another club for about one-fifth that sum. The gamble is that, this year, under new circumstances, the slugger may be worth \$75,000.

Haskell County History

As Revealed by the Files of the Free Press 20, 30 and 40 years ago.

Forty Years Ago—1897
The United Confederate Veterans' reunion will be held in Nashville, Tenn., on May 22, 23 and 24, and officers of the association claim that it will be the largest and most important reunion ever held by the U. C. V.'s. Several from this section are planning to attend.

Miss Fannie Hudson gave a social and musical entertainment to a number of friends Wednesday night.

Mr. S. S. Cummings has finished gathering the cattle and horses sold by him to Mr. Campbell of Kansas and has them ready for delivery.

Messrs. Hudson & Tandy, Keller & Roberts and T. J. Lemmon started Friday to Quannah with some 1,000 head of cattle recently sold by them to be delivered at that place.

Lon Bennett of Seymour and Frank Brown, an agent of the W. V. and Denver roads were here several days this week. Mr. Brown was soliciting the shipment of the wool clip of this county over the above roads.

J. F. Collins & Son of Albany, Texas, have just received three carloads of Baker wire and one carload of nails and staples.

Rev. R. E. Sherrill while attending presbytery at Cisco last week yielded to the solicitations of the Cisco people for him to go there and remain for a few months preaching for them and looking after their church interests.

Mrs. Rebecca Phillips and Misses Alice Pierson, Minnie and Robbie Lindsey and Ida Gibson and Messrs. Lee Pierson and Eugene Griffin went over to Throckmorton Wednesday to attend the celebration of the first birthday of Rev. and Mrs. R. C. Farmer's sons.

Thirty Years Ago—1907
At the election held Monday to determine whether or not the town of Haskell should be incorporated under the general laws of the state, the vote was more than three to one in favor of incorporation, to-wit: 134 for incorporation.

The Haskell National Bank has just put in a Victor patent manganese steel safe with an automatic time lock. It is of the latest

fireproof and burglary-defying construction.

A petition was put in circulation yesterday evening recommending and endorsing the following gentlemen for election as officers of the town of Haskell: For Mayor, R. E. Sherrill, For Aldermen, A. C. Foster, R. C. Montgomery, T. E. Ballard, A. J. Smith and G. R. Couch. For City Marshal, Warren Fitzgerald.

Mr. Hardy Grissom and little brothers Ernest and Clyde went out to Mr. W. H. Day's Tuesday for a day's fishing in Paint Creek.

John D. Hughes of Georgetown came up last week and is looking after his cattle ranch in the southeast part of the county.

Mr. J. T. Knowles has received a letter from his niece informing him that her father and his brother, E. S. Knowles of Caney, Matagorda county, was shot and killed on the 10th instant while driving in his buggy. The deceased was sixty years of age and was shot by a young man of twenty-two.

Mr. T. E. Matthews, the promoter and manager of the Highland addition to the town, arranged for a balloon ascension and parachute jump out on the addition Saturday. It acted as a drawing card all right, but for some reason the persons in charge of the balloon could not get it inflated in time for the ascension before night, and the crowd and Mr. Matthews, who had done all he could to make it a success, were disappointed.

Quite a number of Haskell people attended the laying of the cornerstone of the Methodist College at Stamford Monday. Among them were Rev. J. H. Chambliss, Sheriff M. E. Park, Mr. J. W. Brewer and Misses Hazel Hudson, Docia Winn, Ara Killingsworth and Frankie Terrell.

The Haskell Telephone Company is extending its exchange system into the Highland addition on the south side.

Mr. Wilbur Wright and bride of Stamford spent Saturday and Sunday in Haskell with Mr. Wright's mother, Mrs. T. E. Wright, and other relatives.

Mr. Wallace Alexander returned home Saturday from Georgetown where he has been attending Southwestern University.

INDUSTRIAL DEATHS

Chicago.—Such causes as anti quated boilers and machines, defective chains, ropes and cables, faulty electric tools, cracked

grinding wheels, unstable ladders and "dead" fire extinguishers, (industrial "white elephants"), were responsible for the deaths of 3,600 workers in 1936, according to the National Safety Council.

1937 Ford V-8

● If you think that "all low-price cars cost about the same" — forget it! They don't.

Ford makes a car — a 60-horse-power economy Ford V-8 — that sells from 30 to 60 dollars under the prices asked for any other car of comparable size. The lowest Ford prices in years!

Check delivered prices in your town and see for yourself.

● Of course, first cost doesn't prove "low cost" — you must consider operating cost also.

The "60" has definitely established itself as the most economical car in Ford history. Ford cars have been famous for economy for 34 years, so that means something!

Owners who have driven it thousands of miles report that the Ford "60" averages between 22 and 27 miles on a gallon of gasoline.

You can prove those figures — on the open road — in a car provided by the nearest Ford dealer.

● When you've finished your personal check-up, ask yourself:

"Do I want to save money the day I buy my car and every mile I drive it?"

"Do I want a safe, roomy, comfortable car of advanced design — created from the finest materials to the highest precision standards?"

There's only one answer, of course — the 1937 Ford V-8.

Ford V-8 \$529 at Dealership Factory. Prices Transportation charges, State and Federal taxes extra. This price is for the 60-horsepower Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment, and ash tray.

\$25 A MONTH, after usual down-payment, buys any Ford V-8 Car, from any Ford dealer, anywhere in the U. S.—through Authorized Ford Finance Plans of Universal Credit Co.

Interior of the new office has been remodelled, and Dr. Guest states that he expects to complete removal of all fixtures and equipment from his former office upstairs in the Pierson building to his new location by Friday of this week.

He believes the change in location will be more convenient for his patrons and invites them to call and inspect the new quarters.

"IN GOD WE TRUST"

For seventy-three years all coins minted by the United States have borne the motto "In God We Trust", the inscription having been authorized and adopted on April 22, 1864. The motto typifies the spirit of our forefathers as well as a large majority of our citizens today, in our opinion. Faith and trust is necessary in every phase of life . . . even in the more material things—that's why we believe in Insurance as a protection against unforeseen disasters that could cause heavy loss.

Irby Essay Writer Wins in District Meet

Selma Steinfath of the Irby School won first place in the Read Writers Contest, rural division, at the district meet held at Breckenridge last Friday, April 16. This means that she will represent this district in the regional meet to be held at Abilene next Saturday.

Since this is the first time that the pupils of the Irby School have participated in the literary work of the Interscholastic League, both teachers and pupils are highly gratified with Selma's success. Should she be fortunate enough to win at Abilene, she would go to Austin for the State Meet which will be held early in May.

Several proposals concerning operating policies of the Ballew school for the school year 1937-38, will be discussed at a meeting of patrons of the district tonight. Conolidation of the common school district, letting of the school by contract, or continuation of the system as in the past, will be principal topics discussed. A large number of patrons of the district are expected in attendance. The meeting will be held in the Ballew school building, beginning at 8 o'clock.
