OLTON, LAMB COUNTY, TEXAS, THURSDAY, JANUARY 31, 1957

Number 51

We have two suggestions for our column this week. One we consider a Doozie.

Comes now an epistle from an Amarillo reader who none too subtly suggests that it might be all right if we do quit writing a column. He also suggests that we might just supplant it with one of his own writing.

Might not be bad! Not bad!

Here's a suggestion from Mrs. Tom Smith. Mrs. Smith says we should run a contest on the "advantages and disadvantages" of trading in your home town. We'd like to hear from some readers on this subject.

One very good way for businessmen to encourage folks in the community to trade at home is to trade at home themselves whenever at all possible.

When Howard Hall, of Howard Hall Insurance Agency, sent his bill to the treasurer of a local church, G. H. Bley, Mr. Bley declared emphatically, "I think we ought to make him take part of it out in preaching."

FATHER OF LOCAL RESIDENT CLAIMED

Funeral services for Isaac Spencer Webb, father of H. C. Webb of this city, were held Sunday, January 27, in the Assembly of God Church at Lockney.

Webb, 89, died after a very short illness at the home of a daughter, Mrs. Myrtle Slaughter, Long Beach, Calif., on Jan. 21.

He had been a resident of Lockney for the past forty years. Officiating at the services was the Rev. M. H. Mooberry, former Lockney pastor, now of Iowa. Burial was in the Lockney Cemetery beside his wife who died May 29, 1956.

Survivors include three sons, H. C. of Olton, W. M. of Plainview, and V. W. of Fresno, Calif.; five daughters, Mrs. Eula Hampton of Sanger, Mrs. Clara Stamps of Sacramento, Calif., Mrs. J. R. Yearwood of Floydada, Mrs. Lola Hamrick, Wilmington, Calif., and Mrs. Slaughter.

Daily Attendance Averages 1,041 In Olton Schools

An attendance report computed for the first semester, ending Jan. 11, 1957, for the Olton Public Schools showed an average daily attendance of 1,041 students, according to Supt. Carl Macon.

Although the report indicates an increase of approximately 60 over the average attendance last year, attendance has not maintained a particularly high level because of measles and other children's diseases taking a deep cut into the lower grades.

Bohner School reported an average daily attendance of 80, which is approximately the same as that of the past year.

Macon emphasized that attendance is heavily stressed because part-time attendance cuts down on the number of teachers allowed the system, thereby resulting in over-crowded rooms. One classroom teacher for every 25 average daily attendance is allowed.

TO SPONSOR TOURNAMENT

OHS seniors plan to sponsor a basketball tournament between high school players and outsiders, starting the third week of February. Proceeds from the tournament will be used for the senior trip.

DON JONES

Heart Attack Is Fatal To Father Of Area Residents

Frank Roberson, 67, whose four sons live in the Olton community, died Friday night at 10:30 o'clock in the Lockney General Hospital of a heart attack. Having suffered his first attack in December, he was considered to be in improved condition.

Funeral services were held Sunday afternoon in the West Side Church of Christ in Lockney, where he had been a member since his boyhood days. Interment was in the Lockney Cemetery under the direction of Carter Funeral Home.

Officiating at the services were Earl Cantrell of Silverton and Frank Duckworth, a Fort Worth evangelist.

Born in Rogers, Ark., April 1, 1889, Roberson moved with his family to Erath County, Tex., when he was two years old. In 1901 the family moved to Lockney where Roberson resided until his death. He engaged in farming before his retirement.

He was married in 1910 at Lockney to Miss Beulah Whitlock who is among the survivors.

Roberson is survived by his wife; four sons, F. A., Lem, T. J., and Gilbert, all of Olton; a brother, Arthur, Lubbock; a sister, Mrs. Walter Griffith, Lockney; and six grandchildren.

The program was to begin at 10:15 o'clock with a discussion of Plains Cotton Growers by Mr. Pfeifferberger of Lubbock, who is executive vice-president of Plains Cotton Growers Association.

He was to give Lamb County farmers some valuable information on the new cotton grading house at Lubbock. Mr. Pfeifferberger also was to explain a new type of grading being employed at the grading house.

Enterprise Makes A Round Trip

The old adage that "news gets around" is true in more ways than one, as is evidenced by the fact that a copy of The Olton Enterprise recently had quite a trip!

Mrs. L. S. Kennedy of this city, who related the story, received a letter during the holidays from Mrs. G. W. McDaniel of Bellaire, Tex. (Mr. McDaniel was superintendent of Olton schools for six or seven years prior to the late H. P. Webb.)

Mrs. McDaniel wrote that their youngest daughter, Meda Beth, who was born in Olton, is now serving a four-year term as assistant director for the service clubs in Germany and France. Some one in Germany gave her an Enterprise. After reading it, she sent it to her father at Bellaire. And Mrs. McDaniel wrote that they all enjoyed it.

Yes, quite a few papers are sent overseas, but not very many are privileged to make a round trip.

Matching the Wheel to the Job

New front wheel arrangements for Ford row crop tractors permit the farmer to match the tractor to his needs. In addition to a dual-wheel tricycle tractor, two new front wheel options have been designed by Ford Motor Company's Tractor and Implement Division, and are on display at the local Ford farm equipment dealership. At right, the single front wheel tricycle for irrigated or narrow spaced crops uses a unique "C" axle support which makes servicing easier and reduces wheel clogging. At left, a wide adjustable front axle option with wheel spacing up to 80 inches gives four-wheel stability and flotation to row crop work.

John Doe, O. D.

Here are some facts to remember when seeking visual care: Every member of the South Plains Optometric Society must practice under his own name, not an assumed company or trade name. So his name is his reputation.

He requests that you make appointments, and he cannot offer free examinations. This is because a thorough eye examination takes time, the better part of an hour or more. It might require an entire day to complete five or six examinations.

With this in mind, seek professional advice, not glasses at a price.

Area Farmer Plants January Cotton Despite Contrary Opinions Of Many

Skies were overcast and frost was in the air—until the dust moved in—but Monday, January 28, was cotton planting time on an area farm.

J. B. Williams, who farms five miles north and a quarter mile west of Circle, planted 60 acres

of cotton, with Jack Creel of the Hunting and Fishing Club on hand taking pictures of the event.

If this unusual experiment is successful, Williams expects to have cotton up by the 10th of April with possibilities of ginning the first bale around August 15.

Williams is basing his experiment on the fact that volunteer cotton comes up before traditional planting time. Maintaining that nature takes care of these plants, he says that he has never seen a volunteer cotton stalk freeze.

Having listed his land, Williams put his seed down in the bed four to five inch deep. His plan calls for watering the first of February and harrowing the land to save moisture. Around March 25 he will knife the bed with three sweeps and then fix a board across so that it will rake the land level. The seed will then be two or three inches from the top of the level ground.

When the ground temperature reaches the germination stage, the cotton seed will come up—or rot.

"I've wanted to try this for a long time, so just decided to do it. I believe it can be made to work, even though I may not be following the right procedure. Sure would like for others to try it, using still a different method—maybe the watering needs to be held off until April," declared Williams.

Having resigned himself to much good-natured ribbing and dubious head shaking, Williams says he wishes he had kept a record of the different reactions his experiment has brought forth. He tried to discuss his early planting idea with a Texas Tech professor but got a fast "brush off" with his plan labeled as impractical.

Undaunted, he went ahead with his planting schedule, using a tractor loaned him by Ed Thompson, local John Deere dealer, thus enabling him to plant one and one-half bushels of seed to the acre. Rip Elms of Western Cottonoil in Littlefield donated a sack of chemically delinted seed. The remaining seed planted was regular gin-run.

"I'd like to hear from different people on this—whether they think I'm crazy or not," said Williams. As proof that the planting was actually done, Creel will show it on his Sunday TV program, February 10.

Youth Revival To Start Friday

A Youth Revival will be held at the Church of the Nazarene on Friday evening, January 25, at 7:30 o'clock and will continue through Sunday evening. The Rev. Winfred Ritter, church pastor, will conduct each of the three services.

This revival is part of a denomination-wide effort planned for this week-end.

Play Rehearsals For "Every Family Has One" To Continue Until February 8

Rehearsals for "Every Family Has One", the Olton Parent-Teacher Association play which is scheduled for a one night performance on February 8 in the high school auditorium, will continue throughout next week.

The cast has rehearsed each night this week under the direction of Mrs. Harry Ford and Mrs. Troy Martin.

Focusing public attention on the production will be two representatives of the play cast as they appear on KCBT's Hospitality Time next Monday, Feb. 4, at 5:45 p. m. Bill Taylor is program director for this TV program.

A three-act comedy by George Batson, "Every Family Has One" includes 12 characters, each one truly a "character" in his own right. Setting the pace at the Reardon household is a zany but lovable grandmother played by Mrs. Dub Hall, who was acclaimed for her performance in last year's P.T.A. play.

Other hilarious characters are Warry, the teen-age son who thinks he's a literary genius, played by Fred Stockdale; Penelope, a precocious 11-year-old who's a demon with a slingshot and the piano, played by Mrs. Wayne Hair; Essie, the woe-begone maid, played by Mrs. Joe Turner; and Lily, played by Mrs. Owen Norfleet, who's almost too much for even Grandma to cope with.

Also in the cast are Bub Holt, Mrs. Howard Buchenau, Mrs. Jethro Pinkerton, Bobby Fisher, Marshall Tabor, Mrs. Jim Brown and Merrill Briganee.

Tickets are on sale for 75c for adults, 50c for high school students and 25c for grade school students. They may be obtained from Mrs. Marcus Breland, Mrs. Frank Struve and Mrs. Brent Burrow, who are heading the advance ticket sales, or Mrs. Robert Duncan, president. Several P.T.A. members are also selling tickets. Those not purchasing tickets prior to the performance may get them there.

Child Receives Eye Injury In Home Accident

Andy Hale, son of Mr. and Mrs. Sammy Hale of this city, suffered an eye injury Saturday when he fell on a suction arrow stick at his home.

After being treated by Dr. Ben Souders, he was taken to the Methodist Hospital in Lubbock where he underwent eye surgery. The attending physician reported that there would probably be no impairment of the child's vision.

He was returned to his home Sunday and is considered in satisfactory condition.

IN HALE CENTER

Mr. and Mrs. Tom Smith visited relatives in Hale Center on Sunday.
