##### SECOND AMATEUR BOXING TOURNAMENT SLATED TONIGHT

Fifty-Two Entrants Listed With At Least Fifteen Bouts Assured

With fifty-two entrants listed, everyone anxious to be matched for a bout in the Amateur Boxing Tournament tonight, the affair promises to attract a larger audience than that of last Thursday's, when the matches were witnessed by a capacity crowd.

**New Seats Built**

New seats have been erected in the open air arena back of the City Hall, in order to comfortably accommodate all who attend.

Thirteen towns are represented in the list of entrants, with Rochester and Throckmorton furnishing several strong contenders who are assured a bout.

**Lon McMillin vs. Marvin Pettit**

Principal bout of the evening will be the four-round fight between Lon McMillin of this city and Marvin Pettit of Throckmorton, winner of the Golden Glove tournament in Fort Worth.

**Preliminaries at 8:30**

Preliminaries will begin promptly at 8:30 p. m., with two battling youngsters, Jerry Johnson and Red Haynes, both in the 55-pound class, as principals.

Winners in last Thursday's fights will be featured on tonight's card, including the following:

J. E. Taylor, 175, billed against tough "Red" Eaton, Rochester.

Lloyd (KO) McMillin vs. Bill Lauderdale of Rochester.

Burlis Thornberry vs. Wayland Daws of Throckmorton.

Obid Nelson, Abilene, vs. Ott Denham, Throckmorton.

Pete Pruitt, who lost to T. B. Bagwell last week, will meet an Albany opponent.

All other entrants will be matched according to weight.

Sebo Britton, referee, announced today that winners of each bout would receive courtesy tickets to the Texas Theatre, Woods Skating Rink, and Rice Springs Swimming Pool.

At least two bouts between colored fighters will be staged, with possibly a third, if Battling John Hammond of this city decides to accept the challenge of Tiger McCoy of Abilene.

Four other Haskell negroes, Sluggo Sparky Hill against Battling Melvin Floyd, and Alfonso vs. James Webb, have assured fight sponsors that they would go into the ring tonight.

**Brown Derbies Back**

Horace Ivey and his Brown Derbies Orchestra will again furnish numbers during the evening.

#### RURAL SCHOOLS GET HIGH RATING

Seventy certificates for high ratings were received for rural schools in Haskell County, according to a report received by county superintendent Matt Graham Thursday.

Seventy schools took examinations made application for standardized rating during the month of July.

Mr. Graham stated, certifying schools that had fully passed the standardized rating were received for New Cook, Mitchell, Midway, Star, Hutto, Gilliam, and other schools.

Standardized rural schools are to meet strict requirements to proper and adequate equipment, teacher training, adequate building, communication, and scholastic attainment.

Six schools in Haskell received the rating last year, Mr. Graham stated.

#### JIM FERGUSON SAYS WIFE MAY BE CANDIDATE

**Candidacy Would Depend On Issues Rather Than Opponents**

Former Gov. James E. Ferguson said Tuesday Mrs. Miram A. Ferguson may run for governorship in 1938, depending more upon the issues than upon the field of candidates.

Ferguson, stopping at Dallas en route to an old settlers reunion at McKinney, said he "couldn't say what platform Mrs. Ferguson would espouse," but among the main issues of the next campaign he listed the old-age pension, a sales tax and tenant-farmer legislation passed by congress to be administered by the states.

Of Gov. James V. Allred, Ferguson said "he still has plenty of friends, and some of them are talking pretty frankly about another term."

#### Clipper Ship Blazes Atlantic Air Trail

1—The late Guglielmo Marconi, father of radio, who was accorded a state funeral by Italy following his death recently. 2—Secretary of Treasury Henry Morgenthau (left) shown with Arthur DeSousa Costa (center), and Secretary of State Cordell Hull following a conference in which the United States agreed to sell \$60,000,000 worth of gold to Brazil to aid the southern republic in bolstering its currency. 3—Chinese soldiers typical of the troops now warring with Japanese soldiers in North China.

#### SLASH IN SCHOOL LEVY CRITICISED BY SCHOOL HEAD

Christmas. The constitutional requirement written plainly into Texas organic law that the state should furnish enough money to provide a minimum of six months schooling cannot be carried out because the money isn't there. It isn't a matter of administration but a matter of plain arithmetic. The legislature has passed the laws for these benefits but has not provided the money to carry out its promises to the rural children.

**State Ranks 37th**

"Last year Texas had a grand total of 1,560,000 children of school age. Of this number only 1,310,000 went to public schools, another 100,000 to private schools, and 150,000 did not get any schooling at all. That the state as a whole has not kept pace with general progress in providing for its schools, resulted in its being ranked 37th in the nation, is no idle claim but simply a matter of lack of sufficient financial support for the program for which the legislature and the people are asking.

#### Five Boy Scouts Guests of Lions Club on Tuesday

Boy Scouts from Weinert and Haskell were guests of honor at the regular meeting of the Lions Club Tuesday at noon, and they told an interested group of elders of the various phases of Scout activities carried on during the National Jamboree in Washington recently.

Regular business session of the Club was passed and the time allotted the five Scouts who attended the Jamboree from Haskell county. They were: James Cadenhead and Marion Joeslet of Weinert and Zog Phelps, Hugh Lowe and Dan Oates of Haskell.

#### Account of Prisoners Refusal To Work Is Inaccurate In Facts, Sheriff Says

A newspaper account concerning refusal of county prisoners to continue work on the county road gang last week and their complaint that insufficient food was being furnished them, was termed inaccurate as to the true facts in the case by Sheriff Giles Kemp Monday.

The sheriff was out of town when the incident occurred that ended in the three prisoners composing the "road gang" being returned to their jail cells at noon on Wednesday of last week, followed by the report becoming current that they had staged a "sit-down strike".

Yesterday, Sheriff Kemp furnished the Free Press with a statement expressing his own sentiment concerning the affair, with the request that it be published. The article also sets out the procedure he has followed while sheriff of the county in the handling and care of prisoners committed to jail.

The statement, in full, headed "No Work, No Food", will be found on page 9 in this issue.

#### CONVICTS CONFESS BURGLARIES HERE IN 1933 AND 1934

Harlem Farm Inmates Detail Looting Three Places and Hi-Jacking

Solution of three burglaries and the "hi-jacking" of a farmer near Haskell back in 1933 and early in 1934 appeared closer this week, following an investigation into the affairs that has continued since the crimes were committed.

Signed statements confessing the burglaries and hi-jacking were secured last week by Sheriff Giles Kemp from two inmates of the State Penitentiary, Raymond Wilkerson and Graef Huffman, both of whom are serving sentences for burglaries committed in McLennan and Tarrant county.

The two convicts, both in their twenties, are confined to the Harlem Farm near Richmond, Texas, and the Haskell county officer spent two days there last week in questioning the men and checking their prison record.

In their statements, Wilkerson told how he and Huffman broke into the Keys Cafe in this city on the night of Dec. 23, 1933, taking a leather pouch containing \$45 in money from its hiding place under a showcase, candy and ten or twelve cartons of cigarettes.

Late on January or early February, 1934, they broke into the Texas Theatre, where they obtained about \$20 in money, the statement relates, and in March, 1934, the Baker-Campbell store at Weinert was burglarized. There, Wilkerson sets out in his statement, they secured something like \$15 or \$20 from the cash register, took shoes, clothing, cigarettes and tobacco.

Wilkerson signed several statements concerning the robberies, while Huffman in a single confession, admitted his complicity in the affairs, but stated that he waited for his companion outside the buildings entered.

**Hi-Jack Farmer**

In one statement signed by Wilkerson, the convict detailed the hi-jacking of W. T. Fraley, Haskell farmer, on Oct. 15, 1933. He told that Huffman and himself waited near a gin north of town and climbed into the farmer's wagon when he passed. They forced the farmer to hand over a roll of currency containing \$126 the confession set out. Their account of the hi-jacking tallies, Sheriff Kemp stated, with the report made to officers of the affair by Mr. Fraley, who has since died.

**Will Face Grand Jury**

Confessions of the two convicts will be placed before the Grand Jury for the September term of Court, Sheriff Kemp stated, and the men will likely be brought to Haskell to appear before that body for further questioning in connection with the crimes.

Huffman was convicted for burglaries committed in McLennan and Tarrant counties, and sentenced to 25 years in the penitentiary, prison records show.

Wilkerson is serving a four year sentence for burglary, and was convicted in Tarrant county.

#### NEW FIXTURES BEING PLACED IN P-T STORE

All New, Modern Type Fixtures Will Be Installed in New Location

New fixtures for the Perkins-Timberlake store on the west side of the square arrived the first of the week, and are now being arranged in the store, while workmen are also making good progress on installing plate glass show windows and metal work at the entrance of the store.

Fixtures for the store are of the newest design, and when installed the establishment will be similar in appearance to the modern department stores of larger cities. Newest type of lighting equipment has been installed, together with several large "cyclone" type fans to insure comfort of patrons during hot weather.

Exterior appearance of the remodelled front will be enhanced by a large sign composed of chromium letters fastened directly to the front facade with no background.

Guy Collins, manager, stated that definite opening date in the new location would be announced shortly.

#### Smitty's Stock of Drugs Will Be Discontinued

Discontinuance of their line of drugs, toiletries and sundry items is announced this week by Chas. E. Smith, owner of Smitty's Drug Supply. The complete stock of these items is to be closed out this week, he stated. Special prices have been listed.

In discontinuing this line of merchandise, Mr. Smith stated that it was being done in order to make room for an enlarged stock of automobile parts and accessories and especially tractor parts for all makes.

#### Two Weeks Revival Will Begin Sunday At Baptist Church

Annual two weeks revival of the First Baptist Church in this city will begin Sunday, August 1st, and will end with the night service Sunday August 15th.

A large number of seats have been arranged on the spacious church lawn, which has also been lighted. Rev. H. B. Whatley, pastor, announced today.

Rev. Oren C. Reid, pastor of the First Baptist Church of Lawton, Okla., widely recognized as an outstanding evangelist, will conduct the services, and Mr. E. Otis Allen will direct the song service, which will include a large orchestra and two pianists.

Every arrangement possible will be made for the comfort of those who attend the services, and a warm welcome is extended to the public to join in making the series of meetings of the most successful revival meetings in years.

#### CHANGE IN VALLEY BASEBALL LEAGUE MEMBERSHIP MADE

Anson Withdraws; Hamlin Independent Team Is Given Franchise

At a called meeting of managers and players of the four teams comprising the Wichita Valley Baseball League, held at the City Hall Tuesday night, withdrawal of the Anson team from the league was accepted.

The Anson franchise was taken over by Bill Adair of Hamlin, on his proposition to form an independent team in that city to play the remaining games scheduled this season. Although the league as now composed will have two teams from Hamlin, no conflict will result, league officials stated, because the independent Adair team will assume Anson's playing schedule under the same rules of eligibility of players, etc., as adopted at the beginning of the season.

Teams composing the league under the revision, listed in the order of their standing, are: Munday Moguls, Haskell Braves, Hamlin Oilers, and Adair Independents.

**Munday Here Sunday**

After losing to Munday last Sunday, 2-3 to give Munday first place in standing, the Braves will have a chance to recoup their loss here Sunday, August 1st, when the Moguls are scheduled to invade Haskell.

#### Achievement Days For HD Clubs Set For Next Month

Achievement Day of Bedroom Improvement in Haskell County Home Demonstration Clubs will be observed by each club during the month of August.

An Achievement Day is held when a demonstration is finished and ready to show to the best advantage. It informs the cooperators how the demonstration was accomplished and helps to interest the non-club members in becoming cooperators. The achievement event is a recognition given the demonstrator and affords the incentive for her to put the finishing touches on her work.

Achievement Days in the clubs are as follows:

August 4th, Foster—Mrs. Pete Sego.

August 4th, New Mid—Mrs. George Ballard.

August 5th, Center Point—Mrs. Odie Bland.

August 6th, New Cook—Miss Bonnie Jean Sellers.

August 9th, Midway—Mrs. H. Harris.

August 10th, Blue Bonnet—Mrs. O. J. McCain.

August 11th, O'Brien—Mrs. R. M. Johnson.

August 12th, Mattson—Mrs. Elbert Mapes.

August 13th, Hutto—Mrs. Ralph Ray.

August 20th, Sagerton—Mrs. John Clark.

#### Two Hundred Forty-Seven Persons Receive \$13.60 Average

Two hundred and forty-seven residents of Haskell county received payments totalling \$3,360 during the month of June from the Texas Old Age Assistance Commission, an average of approximately \$13.60 per person. The allotment to individuals ranged from \$5.00 to \$25.00, the maximum allowance.

During May total payment to 250 recipients in the county amounted to \$3,426, and during the month of April 240 county residents were paid the total sum of \$3,919.

### Honor Paid To German Baron As Pioneer Settler

A monument to Baron John O. von Meusebach was unveiled at Fredericksburg recently in the town he founded nearly a century ago while second commissioner general for establishment of German colonies in Texas.

Von Meusebach was one of a group of German noblemen who, forsaking titles and comforts of the homeland, came to the Republic of Texas in the 1840's to found homes and seek fortunes amid democratic surroundings, which yet there beset with Indians. Born in Nassau in 1812, he became a leader in the land of his adoption, and his descendants remain prominent in Texas.

In addition to founding the towns of Fredericksburg, Castell and Leiningen in 1846, Von Meusebach's outstanding achievement in Texas was to effect a peace treaty with the warlike Comanche Indians. That pact, under which the Indians were not to molest the German colonists, made it possible to open a large grant of land to settlement.

After some preliminary Prince Carl of Solms Braunsfels came to Texas as first commissioner general for the German noblemen's Society for the Protection of Immigration in Texas. He founded New Braunfels in 1845. It, like Fredericksburg and other communities established under similar sponsorship is still dominantly German. Von Meusebach followed the prince and pushed farther north with settlements on lands previously granted but at first unavailable for use because of their distance from the coast where the colonists landed.

A red granite monolith designed by Louis C. Page of Austin contains in a recessed niche a bust of Von Meusebach sculptured by Charlotte Augusta Tremper of New York. The Fredericksburg memorial was financed out of the 1936 Texas Centennial fund, and Lieut. Gov. Walter Woodul representing the centennial commission dedicated it. The monument stands near the copy of the old "Kaffee-mühle Verenskirche" (coffee mill community church) so named because of its octagonal shape. This structure was restored a few years ago for a Fredericksburg museum, just as New Braunfels built its Sopenburg Memorial Museum and library and named it for Prince Carl's original crude log fort, Sopenburg.

Still another memorial to all German pioneers in Texas is soon to be erected at New Braunfels.

Doc Rose of Rule was a business visitor in Haskell the first of the week.

### Cotton Classing School Being Held at Tech College

Eighty-seven ginners from West Texas and two from New Mexico are registered in the annual Texas Technological college cotton classing short course at Lubbock.

Main idea of the school said M. E. Heard, Texas Tech head professor of textile engineering and an instructor in the course, is a plan for improving West Texas cotton. By showing ginners how to grade cotton, the school will provide a stimulus for farmers to grow better grades, since ginners will be able to pay higher prices for better grades of the product, it was pointed out.

The course will close July 30. The department will sponsor similar schools in Abilene August 2 to 13, in Quanah August 16 to 27. Besides Heard, instructors in the Texas Tech course are: Leaverne Lackey, United States Department of Agriculture cotton classifier, and H. Fehleson and C. F. Wilson, Lubbock cotton men.

### Palo Duro Is Taos of Texas

The Palo Duro artists' colony, the Taos of Texas which has been one of the most outstanding and most fascinating attractions of colorful and picturesque Palo Duro Canyon for two seasons, now has more than thirty artists enrolled who are lectured by nationally prominent art instructors who visit the wonderland of unique and fantastic formations each summer.

Miss Isabella Robinson, instructor in art in the West Texas State Teachers College, who is directing the artists' colony has announced a growing interest in the school this year as compared with last year. Visiting instructors this summer include Miss Amy Jackson of Amarillo, A. W. Mack of San Antonio, Carroll Killebrew of Pampa, Gene M. Brock of Houston and Harold Bugbee of Clarendon.

Living in platform tents with modern conveniences in the Palo Duro Canyon State Park, this school of art disciples search the walls of the canyon every day striving to catch the magic of a setting rich in legend and lore of the Indian and his instinctive enemy who early roamed the regions of the wild west in the role of cow-puncher. The colony's background is the same romance and drama of the wide-open-spaces that made the old Colonel Goodnight Trails and the famous JA Ranch notable in the history of the early west.

The only artists' school of its kind in Texas, the Palo Duro Canyon colony is growing rapidly and its director plans to build a second Taos in the West regions of the majestic Palo Duro as the idea becomes more popular with students of colors throughout the country.

Elmer Conner of Franklin, Texas, is here for a visit with his sister, Mrs. Vernon Buckley.

## What Irvin S. Cobb Thinks about

Semi-Nude Fashions.

**SANTA MONICA, CALIF.**  
—Clothes may not make the man, but leaving them off certainly makes him foolish. And that goes double for the women.

Whence arises the present-day delusion that going about dressed at half-mast enhances the attractiveness of the average adult? Our forbears of the Victorian era wore too much for health or happiness or cleanliness. But isn't it worse to offend the eye all through the lingering summer by not wearing enough to cover up blemishes, the bulges and the bloats that come with maturity? Sun baths should be taken on a doctor's prescription, not at the corner of First and Main.

Irvin S. Cobb

Women old enough to know better are the worst offenders, seems like. If only they'd stop to consider that the snail, which is naked, would lose in any beauty contest against the butterfly, which wears all the regalia the traffic will stand!

But even though it's for their own good, you can't tell 'em. If somebody started the fad of going at the game while practically nude, inside of two weeks mumblepeg would be the national pastime—until somebody else thought up a game to be played by folks without a stitch on. Or anyhow, just a stitch here and there.

### Doctoring Movie Scripts.

USUALLY they lay these yarns on Mr. Sam Goldwyn, who thrives upon them and goes right on turning out successes, his motto being, "What's grammar as between friends so long as the box office shows results?" But, for a change, this one is ascribed to another producer, who proudly describes himself as a self-made man, which, according to his critics, is relieving the Creator of a considerable responsibility and putting the blame where the blame belongs. They also say no self-made man should stop with the job only partly finished. But then Hollywood is full of parties trying to push Humpty Dumpty off the wall.

As the tale runs, this gentleman entered the conference chamber at his studio and as, with a kingly gesture, he laid down a fat sheet of typewritten pages, said to the assembled intellects of his staff:

"Jumpmen, in all my experience in the picture business this is what you might call unique. Here is absolutely, positively the only perfect script I have ever read in my entire life. I tell you that before we start altering it!"

### Strikes Versus Wars.

DID you ever notice how like a war is a strike?

The operator and his operatives are the shock troops that suffer the heaviest casualties. The owner risks his profits and perhaps his market and sometimes his plant. The worker gives up his wages, frequently his job, occasionally his life.

Stockholders see dividends vanishing and investments shrinking. Citizens see their communities disrupted. Women and children go on short rations, many a time go actually hungry. For, as in a war, the innocent non-combatants bear most grievous burdens.

Those who really garner in the spoils—professional agitators; financial buzzards eager to seize on bankrupted industries; lawyers with their writs and their injunctions; imported thugs masquerading, for one side or the other as honest mechanics—these might be likened to stay-at-home diplomats and profiteers and hired mercenaries who induce friendly nations to turn enemies so they may gain their own selfish ends.

After it's over, we realize that almost any strike might have been averted had common sense and common justice ruled, rather than greed and entrenched stubbornness and fomented hate. And the same is true of almost any war. For every real benefit to humanity came out of peace and arbitration, not out of battle and destruction.

And here's the final parallel: Ultimately, the supposed victor finds himself the actual loser. Tell me which army won any great strike—or any great war—and I'll tell you who won the San Francisco fire and the Galveston flood.

**Crocodiles, Alligators**  
Crocodiles and alligators are so closely allied zoologically that many laymen cannot distinguish between them. Hence alligators are frequently accused of attacking and killing men when, in reality, the killers are crocodiles. Naturalists who have spent their lives in the study of these reptiles, says Collier's Weekly, state that they have never heard of an authentic case of a human death caused by an alligator.

### Texas Has One of World's Richest and Most Varied Marble Deposits

While the problem of what to do about "marble boards" is bothering Texas and many of its cities the question of doing something about Texas native marble may soon prove a more important one—and its solution far more profitable!

Quarrying and marketing of one of the world's richest, most varied, and most easily accessible deposits of high-grade marble could be made one of the biggest new industries of the Lone Star state, according to a report to the All-South Development Council by Dr. H. M. Law, Dallas geologist who has made a first-hand study of the state's limestone and marble resources.

The eye-filling display of scores of handsome marbles Dr. Law has assembled for the new Greater Texas and Pan-American exposition, an expansion of the 1936 Centennial exhibit, has brought industry dramatically to the attention of thousands, among them many influential Texas businessmen who have expressed interest in developing it, said Judge John M. Spellman, director of the National Resources Committee.

Interesting skilled merchandisers and investable capital in con-

verting these possibilities into real "merchandise," thereby creating profitable employment for hundreds and new wealth for the state is one of the aims of the committee. Adoption by the state of a more reassuring policy with regard to natural resource taxation would, the Council's report points out, greatly simplify the problem of attracting capital and enterprise to the development of this, as of many others of the state's more than 100 yet undeveloped resources.

Decrying a lack of showmanship comparable to that of a butcher who "would try to sell steaks from a steer still out on the range," Dr. Law said that all Texas marble needs to become a gigantic "cash crop" is the relatively modest investment in equipment to harvest and polish some representative commercial samples of the state's 750 varieties, some smart and vigorous salesmanship on behalf of the material, and assurance to the architectural world that it could be supplied in quantity on reasonable "short notice."

The "obster age" of several million years ago laid down a bed of deep sea shell limestone marble extending in a 400-mile diagonal from the Red River to the Pecos

about 40 miles wide and 1,000 feet deep. This deposit, Dr. Law's report said, contains "more marketable volume of this unusual type of marble than combined similar deposits of any five states."

At present this particular type of marble, whose polished cross sections reveal interestingly its oyster "ancestry" in ornate configuration, is not on the commercial market at all. In fact, thousands of acres of it have been "wantonly" crushed for use in road building, with no appreciation of its uniquely ornamental value.

Less distinctively Texas, but even more important commercially, Dr. Law said, is a similarly inexhaustible vein of dense limestone marble which outcrops over the counties of Burnett, Blanco, Mason, Gillespie, Llano, Lampasas, San Saba and McCullough. Resources of this deposit alone are equal to the marble contents of any two or three states in the Union.

"With about \$3,000 worth of quarrying equipment and a little time we could have supplied from our own Texas deposits, the counterparts and equals of all the fancy marbles from Italy, Spain, France, Tennessee and Vermont that have made the State of Texas building an outstanding architectural triumph," Dr. Law said.

more than \$2,000,000 worth of marble imported from other states which have done a better merchandising job with no better materials, and have presented an inviting front to resource-conversion industries, the council's report concluded.

## QUAKER OATS

There was a time

—when old fashioned heating methods blistered your face while your back shivered.

But now . . .

with natural gas winter can be just pleasant, healthful in the modern home.

## A timely reminder

The tag end of summer warns that treacherous days of winter are on the way.

Do you remember the old days? Old-fashioned methods of heating . . . children wore heavy underwear and long stockings in order to keep warm . . . members of the family "huddled" in one or two rooms during cold weather . . . mother went shivering about the house with a shawl around her shoulders . . . someone was always "catching cold" — Remember?

There is a direct relationship between your family's health during winter months and the way you heat your home.

The cold germ is responsible for more than two hundred million illnesses each year. Don't give a "common cold" an even break!

Sudden changes of temperature during the treacherous months of cold weather are dangerous. If you follow the old-fashioned practice of "huddling" in one or two rooms while the rest of the house remains unheated — YOU ARE TAKING CHANCES WITH

YOUR FAMILY'S HEALTH. Plan now to have adequate heat and healthful temperatures in every room in the home this winter. It's the modern way to fight the "common cold."

### Rules for Success In Making Jelly

If you want your jelly to be firm and beautiful in color, yet not too hard and rubbery, you must follow certain important rules. The amount of sugar needed for jelly making will vary with the fruit used. In a general way 3-4 to 1 cup of sugar per cup of extracted fruit juice is a safe rule to follow. Such fruits as black-berry, apple, black raspberry, cranberry, quinces and red rasp- berries require 3-4 of a cup of sugar to each cup of juice. Crab- apples, currants, gooseberries and wild grapes require 1 cup of sug- ar to each cup of juice. Fruit that is just a bit under-ripe is best for jelly making. If it is impossible to obtain under-ripe fruit, 1 tablespoon of strained lemon juice added to each cup of fruit juice will produce almost the same result. The lemon juice should be added when combining the sugar and fruit juices to be boiled together. It is unimportant whether cane or beet sugar is used but in either case remember that too much sugar makes a syrupy jelly while too little will prevent your juices from jelling at all.

It is best to use a large flat bottomed kettle in making jelly so that rapid evaporation can take place. Stir until the sugar is dissolved, then cook only long enough to obtain the jelling test. For this dip a large spoon into the boiling syrup and left the spoon so the juice runs off at the side. When the juice "sheets", turn off the heat. The jelly is then ready to pour into hot sterile glasses.

### A NIGHTMARE FOR HIM

Princess Anne, Md.—Busily en- gaged in washing a car, an un- identified Negro looked up to see a group of men, brandishing knives surrounding him. He recovered from his fright when he learned that, unknown to him a rat had crawled up to his shoulder and the man wanted to kill the rat.

### Cavalcade Is \$500,000 Free Spectacle at Exposition

The Cavalcade of the Americas, a great historical spectacle depicting the struggle for liberty on the part of the peoples of the nations of the Western Hemisphere, is a free attraction at the Pan American Exposition in Dallas. The production cost \$500,000 and is on the largest stage in the world. Scenes from Cavalcade, shown above, are: (1) The landing of Christopher Columbus; (2) Geraldine Robertson, star of Cavalcade; (3) Cortez captures Mexico City; (4) Bolivar's cavalry charges the Spaniards.

### Lexicographer Will Be Judge Name Contest

Dr. Charles Earle Funk, New York lexicographer and linguist, will judge entries in the West Texas Utilities Company's "name-a-housewife" contest, H. C. King, local manager, announced yesterday.

Information came from the general office in Abilene that Dr. Funk had accepted an invitation to name the winners in the cam- paign to "secure a more appro- priate name for the modern West Texas woman."

Possibility that the name "house- wife" may be omitted from dic- tionaries of the future was viewed as a result of Dr. Funk's partici- pation as judge in the contest. He is senior member of the publish- ing firm of Funk & Wagnalls Com- pany, New York, and is associate editor of the famous Funk and Wagnall's New Standard Dic- tionary. He has been given wide recognition as America's outstanding lexicographer.

The contest is based on the as- sumption that "the woman of to- day is no longer a slave of kitchen drudgery."

"This company is interested in selecting a name that will improve the English language," Mr. King said. "We have long felt that the word 'housewife' is a misnomer. It has been worn out by adver- tisers and has lost its value as a word describing the average woman in the average home. But there is no word that accurately applies to the woman who conducts her home economically and effi- ciently while at the same time developing herself intellectually and socially."

Selection of Dr. Funk assures entrants "of a competent authority on the meaning of words and should result in national recogni- tion for the winner as well as the reward of first prize, a super-duty Frigidaire," Mr. King said.

Entries in the \$500 contest which closes August 14, will be sent im- mediately to Dr. Funk. A total of 13 prizes will be awarded.

### Rockdale

The revival meeting began at the Baptist Church Friday night. The pastor, Rev. Vaughn and Rev. Rennels of Abilene will conduct the services.

Mr. and Mrs. George Bouldin and children Weldon and Martha Sue and their married daughter, Mr. and Mrs. Raymond Luckie and Warren Martindale, returned Sunday from Quanah where they visited relatives.

Dinner guests Sunday in the Vestus Bunkley home were Mr. and Mrs. R. A. Gillespie, Doyle Gillespie, Murle Ivy, Billie Williams.

Mr. Jay Newcomb of Forsan spent Sunday here in the home of his parents, Mr. and Mrs. Tull Newcomb.

Mr. and Mrs. Sam Newcomb of Albany and their married daugh- ter visited relatives here this week.

Miss Leveda Ivy who is attend- ing A. C. C. spent the week-end here with her parents, Mr. and Mrs. John Ivy.

Mr. and Mrs. E. D. Williams and children Juanell, Delton and Martha Helen spent the week-end at O'Brien with Mrs. Williams parents, Mr. and Mrs. John Covey.

Mrs. John Carlson of Berryhill and father Mr. Ekdohl, spent Fri- day in the home of Mr. and Mrs. R. A. Gillespie.

Mr. John Ivy left last Monday for Spur where he will work for his brother-in-law while he takes a vacation trip.

### Nana, Art Miracle Is Shown at Fiesta

"Nana," world famous painting which is so lifelike that it almost breathes is on display on Sunset Trail at the Fort Worth Frontier Fiesta.

The exhibition at the Fiesta marks the forty-fourth year that "Nana" has been shown in the United States. Purchased by John Sutton and now opened and exhib- ited by his son, H. F. Sutton, "Nana" was brought to the United States in 1893 to be displayed at the Chicago World's Fair. "Nana" was purchased for \$33,000 and the present owner has refused offers as high as \$85,000 for the picture. It's exhibition history has caused it to be referred to as "the little gold mine."

"You keep 'Nana,' son, and she will keep you," John Sutton told his son soon after the picture was purchased. And H. F. Sutton has found his father's advice literally true for "Nana" has earned more than \$2,000,000 for the Sutton family since the picture was pur- chased 56 years ago from the Rus- sian artist, Suchorowsky, who painted it. More than 9,000,000 persons have paid admission to see the painting.

Henry Smith of Throckmorton was in Haskell Wednesday on business.

## Members Mrs. T. R. Odell's Sunday School Class Visit Carlsbad Caverns

A most enjoyable event for members of Mrs. T. R. Odell's Sunday School Class was a week-end trip to Carlsbad Caverns, New Mexico. The party left at 5:30 Saturday morning on a chartered Southwest Coaches bus from the Tonkawa Hotel.

The gait and hilarity of the group continued through the entire trip. After visiting in Carlsbad, sight seeing, the party spent Saturday night at Black River Village Camp. Early Sunday morning the bus carried the group on a tour to White City where a visit was made to "the old springs", and many jokes and pranks were played on the crowd. The party then toured the caverns from 11:00 until 4:30 p. m. Sunday. The grandeur and beauty surpassed everyone's expectations.

After having lunch together in the Cavern, the party was fully prepared for the beautiful and impressive "Rock of Ages" service. Everyone felt the majestic Spirit of the Creator.

After spending the night in Carlsbad, the crowd felt deeply grateful to the driver, C. C. Kennedy, for his many courtesies and efficiency, and presented him a small token of appreciation.

The trip was such a success that all expressed a desire to make a similar one in the future. One of the high points of the trip was a song composed and dedicated to the teacher, Mrs. T. R. Odell. Due to the fellowship and congeniality among the group, lasting friendships were made. Refreshing drinks were served to the group by Mr. Kennedy at Berry's fountain on their return Wednesday evening.

Those who made the trip were: Vada Thomas, Eleanor Foote, Mrs. T. R. Odell, Dr. Gertrude Robinson, Eva Dell Squyres, T. R. Odell Jr., Lula Ketron, Ola Belle Kennedy, Mrs. H. R. Jones, Wilda Phippen, Martha Head, Margaret Tidwell, Edna Belle Gillette, Sara Lee Cahill, Ruth Joesette, Sara Lee Walling, Mrs. Sam Herren, Becky Smith, Ada Rike, Mrs. F. M. Squyres, Mrs. Marvin Bryan, Ethel Irby, Mrs. R. N. Huckabee, Alma Joesette and Eloise Tolliver.

**Knitting Circle**  
Mrs. Douglas Brown was hostess for members of the Knitting

Circle Wednesday in an all day meeting. At lunch time in place of the covered dish luncheon the guests went to Mrs. Harrow's for lunch. Soon afterward they went to the home of Mrs. Geo. Herren where knitting was the diversion of the afternoon. Mrs. Brown served punch and cookies at intervals in the afternoon.

Those present were Mrs. Sam Herren Jr., a new member, and Mrs. Sam T. Chapman, Mrs. Rogers Gilstrap, Mrs. Bob Herren Jr., Mrs. Carl Powers, Mrs. Jno. A. Willoughby, Mrs. Carl Arbuckle, Mrs. Geo. Herren, Mrs. Sam A. Roberts, Mrs. Ed Fouts and the hostess.

### Mrs. Jack Crutcher Entertains Sew and Sew Club

Mrs. Jack Crutcher entertained the Sew and Sew Club at her home Tuesday afternoon. After about two hours of sewing the hostess served ice cream and cake to the guests.

After a short business session a picnic was planned for Friday night to be held at Rice Springs Park and given by club members for their husbands.

Guests were: Mesdames Hudson Pitman, Carl Powers, Bob Herren, Bill Woodson, B. W. Chesser, Hope Haynes, and one guest Mrs. A. L. Barnett of Paris, Texas, sister of Mrs. Crutcher.

### Mrs. Barton Welsh Hostess For Contract Bridge Club

Mrs. Barton Welsh was hostess for members of the Contract Bridge Club for their regular weekly meeting Tuesday afternoon at her home. Mrs. Robert Campbell was given the prize for highest score after the games. Mrs. Welsh served a refreshment plate consisting of sandwiches, cakes, pickles and ice fruit punch to: Mesdames Robert Campbell, Jack Mickie, Virgil Reynolds, French Robertson, Ralph Duncan, W. G. Forgy, T. W. Williams, Buford Cox, Marvin Bryan, Hill Oates, Theron Cahill, Walter Murchison, Mrs. Bert Welsh will entertain the club next Tuesday.

## Miss Gladys Fouts and Mrs. Carl Power Honor Guest With Elaborate Tea

Miss Roy Dell Girvin of San Angelo, was honor guest at an elaborate tea given at the Haskell Magazine Club rooms Saturday evening from 6 to 7 o'clock by Miss Gladys Fouts and Mrs. Carl Power. Miss Girvin is Miss Fouts' house guest and student friend from Hardin-Simmons University.

Miss Fouts greeted the guest at the door and presented Miss Girvin, Mrs. Buford Gholson, Miss Drusilla Jones, Miss Anita Jo Simmons and Miss Lily Albertson. Little Miss Eddie Bess Fouts directed the guests to the registry where Miss LaVerne Bynum presided. Mesdames: Power, Rogers Gilstrap, Ed Fouts served at the tea table which was decorated with crystal and silver and overlaid with an imported lace cover and centered with a dainty tray of small colorful candelabras. Orange punch, sandwiches, cookies and mints were served.

Miss Marjorie Ratliff played several lovely piano selections throughout the hour.

The invited guests were: Misses Gaye Roberts, Helen Ballard, Martha Head, Gerry Norris, Sara Lee Walling, Eva Bell Phippen, Mary Eleanor Diggs, Patsy Bentley, Margaret Breedlove, Mildred Norton, Maurine Norton, Gerry Fouts, Catherine Wair, Lucille Akins, O'Dell Williamson, Ava Grindstaff, Dorothy Sego, Audra Lee Guinn, Melba Cullum, Frances Kaigler, Ruth Welsh, Wilma Kuestler, Hazel Foote, Wilma Whately, Maxine Quattlebaum, Martelle Clifton, Helen Mabel Baldwin, Gerry Conner, Ruby Sue Persons, Winnie Darnell, Annie Barnett, Frankie Dorris Bynum, Eva Cass, Vera Cass, Geneva Thompson, Elizabeth Huckabee, Mickie Lee Tidwell, Louise Pierson, Elizabeth Stuart, Lois Fouts, Sue Couch, Christine Tucker, Kenzie Tucker, Mary Louise Holland, Frances Myrl Edwards, Elsie Gholson, Blanche Davis, Eloise Couch, Juanita Miller, Armita Rayley, Ruth Woodson, Marguerite Anderson, Faye Power, Elizabeth Gilstrap, Inez Laller of Anson, Drusilla Jones, Lily Albertson of Munday, Theda Maples of Temple, out of town guests.

### King Died of Leprosy

Robert the Bruce, Scottish king who lived from 1274 to 1329, died of leprosy. He was chief author of Scottish independence and king of Scotland from 1315 until his death at Cardross on the Clyde.

### Mattson Home Demonstration Club Holds Meeting

"Emergences are met in every household; accidents which require attention to relieve suffering," stated Mrs. Charlie King to the Mattson Home Demonstration Club in the home of Mrs. E. C. Watson July 22nd.

Mrs. King stated that bandages were very useful and can be kept on hand made of old sheets. They should be sterilized and rolled tightly. What to do before the doctor comes is important when the help administered is intelligent. Quick wit in an emergency means preparedness. Prompt intelligent action often saves lives. Mrs. Hub Merchant says that accidents don't happen but are caused. Poisons should be kept out of reach of children and should be kept in labeled bottles, so they would not be used or taken through mistake. Mrs. Ellis Miles told members it was very dangerous to fill a lamp while it was burning and also to pour kerosene on fire when it is not blazing. Matches should be kept in a tin box. Mrs. L. A. Stratton discussed "How to Prevent Yard Accidents." All old nails should be put away, old wire laying around is very dangerous and leaving hoes turned up, more especially where there are children. Mrs. Hub Merchant stated it was dangerous to stick needles and pins in the bed.

Those enjoying the meeting were Mesdames: Frank Nicholson, L. A. Stratton, Hub Merchant, Pat Freeland, Hix Hinkle, E. C. Watson, Floyd McGuire, Charlie King, Jim Stanford, Ellis Miles, Josh Hinkle and Miss Gladys Crume.

### The Foster Home Demonstration Club

"Study your room before buying curtains", Miss Vaughan told the women of the Foster Home Demonstration Club when they met with Mrs. M. M. Clark July 22.

If your room is dark select light curtains, if your room is light select dark curtains. It is best to have curtains to harmonize throughout the house.

If your room has flowered wall paper select plain curtains, if the wall has a plain paper select flowered curtains. It is best to have the curtains to harmonize with the rug also.

Achievement day in the home of Mrs. A. C. Sego has been changed to Monday August 2 instead of the 26th of August.

Ripe peaches were passed while a delicious plate was being fixed which consisted of sandwiches, pineapple salad, cake and iced drink.

Those present were: Members, Mesdames: Jimmie Best, A. C. Sego, A. J. Oates, J. O. Yarbrough, M. G. Martin, M. M. Clark, E. M. Server and Miss Mildred Vaughan.

### Foster Home Demonstration Club To Meet August 2nd

The Foster Home Demonstration Club will meet in the home of the bedroom demonstration, Mrs. A. C. Sego August 2. Every member is requested to be present.

### (By Scout James Cadenhead, Weintert, Texas)

This subject is a rather varied one as it includes many phases of talent shown at the Jamboree, but the artistic gateway made by the scouts representing the sections of each troop were truly works of art and added to the beauty of the camp.

Section F's archway was formed with huge antlers, large arrow heads and flint rocks. A certain troop in region 9 had as their entrance two big oil derricks with troop name over the top representing the Canadian valley.

The Cherokee camp sign was an interesting one made of colored heads forming the name Cherokee in large letters.

The Japanese troop made us welcome with Japanese lanterns and sign "Welcome to Little Tokio" hanging out front with two boys in Japanese dress standing guard.

The Scouts of Washington had the twelve Scout laws inscribed on their columns forming the effective entrance.

The President's summer White House at Hyde Park in miniature was brought by the scouts from New York, and the Indian reservation scouts held campfire with logs and lantern fires. Troop 29, Texas had a group of green wall tents with cactus at the gateway and Troop 9, Illinois, had their tents dyed like Easter eggs, red, purple and yellow.

The gateway to the great North west was two huge posts painted to resemble shocks of wheat, with a picture of a large wheat harvest painted on the arch.

Michigan's entrance was two large totem poles, each a work of art and painted tepees added to the interest of the camp.

The National Bridge of Virginia in exact replica was brought to the Jamboree by Troop 26 as their gateway.

The sign board for our entrance, Troop 21, was made by our Patrol leader Pete Place of Rule. It was a pine board several feet long, varnished and finished with blow torches with Section N, Region 9, Troop 21 painted in large black letters, held together by two large mesquite posts with different cattle brands of Texas on them. Atop this sign was a small miniature chuck wagon for added Texas flavor.

Each night a pageant from different regions was staged in the arena on the grounds of the Washington Monument.

One night 4,000 Scouts took part in "The Scouting Trail to High Adventure," dressed in colorful costumes showing the historical background of the eight states represented. There was also adventure in fun, games, thrilling chariot races, clowns, rope spinning and whip cracking. There was a colorful Indian pageant set in a typical Indian village and a fort scene and lumber logging camp. The several Scout bands were among the best in the country, each troop boasted of a real band. Our Texas troop band wore cowboy uniforms. The singing in itself was talent displayed by all the scouts, especially our Troop 21 under the leadership of Mr. Shumway of Abilene who composed all our songs.

There was a real Cherokee Indian named "Broken Rope" a member of Troop seven, who was a real artist painting a finish picture in 15 minutes, one of his pictures hangs in Senate office building.

The History of the U. S. from Pilgrim days until now was enacted by regions 1 and 2 and regions 5 and 6, presented scenes "Down in Dixie", plantation scenes and Negro spirituals were given by the Negro troop.

Our region 9 and 8 put on the arena display of Indians and cowboys fighting to death over a wagon train but no one was scalped.

One of the interesting displays was the "Emblem of the Jamboree" made from lineoleum six feet square by Cecil Moorehead which is to be sent to Holland to represent the United States. The human flag was very impressive made of colored handkerchiefs spread over the backs of the boys to represent the stars and stripe of the American flag.

Our troop 21 was chosen as the ideal Boy Scout camp and was presented a large troop flag which was quite an honor.

All boys from Texas proved their talent in swapping and selling horned toads as over a thousand were disposed of.

In a talent show given by each troop someone was chosen to present an act, so Carl Benaux from our troop put on a clever clown show.

We shall never forget the first National Jamboree and were happy we were among the 25,000 boys representing future citizenship.

### SUICIDE WITH MORAL

New York.—The note found beside the body of Joseph Banto, 20, who committed suicide, read: "A lesson to the young male members of our family to keep away from women."

## District Manager America May Outstrip All Other Nations In Business

The United States stands third among leading nations today in business recovery from the depression low year, and is in a good position to pass the rest of the world, states a special report just issued by Brookmire Institute, New York.

**Production at 1929 Levels**  
Today's American's production index is 84 per cent higher than in depression, 1932, while it approximates the monthly average of 1929. Early devaluation, in part, caused Japan and England to forge ahead of our recovery by many months. The American dollar's devaluation did not take place until the spring of 1933, so that its effects did not appear here until some time later, giving this nation a late start in the race for recovery.

Public Works, relief and a resultant budgetary inflation have all been important motivating forces making for expansion in this country. These and other recovery forces have carried many industries close to capacity operation. Domestic economy, therefore, is close to point where much of the extraordinary forces might be removed and industrial progress would probably continue from needed construction of new production capacity.

However, government payments are not yet being eliminated. In fact, there is, so far, very little reduction in such expenditures, announces the report. A continuation of these expenditures combined with new production capacity needs, and a substantial housing requirement, are sufficient to push domestic business volumes to much better levels. This coun-

try is therefore, to outstrip the rest of the world in the phases of recovery are still to come.

In general, pointing out that armament and production of power in the present conditions. The stimulus has helped to approach a point for many industries world wide. World production rising with primary and other ground-work for industrial capacity.

**Armament Impoverished**  
Little relaxation is thus far occurring in the present conditions. The stimulus would contribute to maintaining peace, and momentum to world production, which is reflection in every part of the earth. The United States construction expansion, providing an internal stimulus for further economic should receive attention from continued rest of the world.

**SAVES CHILD**  
Baltimore, Md., Shields, 3, owes quick action of his mother on noticing that he was breathing during pneumonia called a doctor, respiration by the child's mouth, for fifteen minutes.

Mrs. A. B. Dawson of Willis Point is visiting her aunt Mrs. R. B. Fields and other relatives this week.

Willard Warren of Dallas, who has been here for the past ten days spending his vacation with his parents, Mr. and Mrs. Claud Warren, left Tuesday night for Oklahoma City, where he will spend the remainder of the week before returning to Dallas. He was accompanied by his sister, Miss Louise.

# Families Pick New Homes as Town Starts Moving

Mayor Fred Howell of Shawneetown, Ill., right, helps Clifford Durham and his family select their home on the model of the new town. Fourteen hundred citizens are going to move to a new site three miles to the west and 400 feet above sea level. The re-location project, expected to take two years, was undertaken as a result of last winter's floods that completely inundated the community.

## MORE ABOUT KANGAROO COURT

(Paid Advertising)

Some read and some did not read my article in the Free Press some time ago relative to the Barber Boards Kangaroo Court. I am sorry all did not read it, for you would more thoroughly understand what I am going to have to say now. Since it was written they filed a complaint against me for working. Now there ought to be charges filed against some people for not working, but let alone those that want to work. The trial was to come up the 19th of this month. I was made to think of Jesus and the Harlot. Jesus said for those that were guiltless to cast the first stone and looked around and said woman where art your accusers. They were gone. And my accusers were not there. I was disappointed. I had evidence that I was wholly innocent. I am hearing from barbers from all over the state and see lots of them and all say they have never known of those bothering one that had his prices up. I was in Austin and learned lots. I am in position to ask if they have ever bothered a high price man. I don't believe they have. Then I am prepared to ask if under any circumstances would they bother one. If they say they will and can't catch them, if they will pay me what it costs them to catch us that they can't just name the union shop they want caught that I will furnish the evidence and if I fail to do it I get nothing. I'll catch them doing the very thing they accuse us of. Now that is no reflection on the barbers. We have here as nice a bunch of barbers as you will find anywhere. They are doing nothing wrong. Neither have we. They just wanted us to raise prices and we wouldn't do it. We know all the facts in the case. I won't snoop on one of them. I won't stoop that low, but it is easy to get one that will. They seem to take special delight in prosecuting the old run down broke, poor barber. Now no doubt Hell will be so full of people for oppressing the poor that they will be swinging out the windows, peeping through the knot holes, sitting on the walls and hovering on the house tops. I sure would hate to meet St. Peter with a recorder like that. Now people this barber law don't belong to the union barbers. It belongs to the state. Why then delegate the union barbers to take a state law that was passed under a democratic administration. Equal rights to all and special privileges to none, and then they use that law to prosecute those that they don't like. Let's be fair. They have had it seven years to prosecute those whom they don't like. Now this being a democratic state let's turn it over to the non union barbers seven years to prosecute those who don't agree with them. Isn't that fair. I for one don't want it. I had rather build instead of tear

down. I had rather build churches and good schools instead of oppressing the poor. I had rather make laws instead of breaking laws. Well of course they will say I am a law breaker. I don't believe there are any of us but breaks some little law some times. A man said to me a few days ago that so long as we had a law on the books that we ought to abide by it to the letter. It wasn't thirty minutes until I saw him run over a stop sign. Another said the same thing and before ten minutes was gone he cursed in a public place. How many run over a stop sign, run on the wrong side of the road, or even the middle of the road for miles, break a speed limit, let your chickens run out, cows and all kinds of stock. Dogs without a collar, set out a public drinking cup. Every time we have a big do on the courthouse lawn our county officials place a big water tank on the lawn and places about fifty drinking cups. That is ten times worse than failing to wash your hands just prior to shaving a man and further a barber is washing his hands every time he puts a hot towel on a customer. And, too, I have always tried to handle a bunch of customers that I don't have to take a bath and disinfect myself every time I shave a man. I am telling you people that have known both wife and I for all these thirty years that we have been humiliated beyond degree over this. She couldn't come to town or visit a friend in the country without some one asking her if our shop was closed. I have heard it a hundred times. One man asked me if I hadn't been in jail over it. He had heard it. Believe me it burns to the core. Were I a criminal it would be different, but just to think of a bunch having unlimited means and the barbers turning their money and they take our money to prosecute just one side. I tell you it is unpleasant in the first degree. I have a damage suit against them and when it comes up if I don't make these charges good, I want all my friends to come in and it is my treat. I want to show the people what some people will stoop to. Jesus was nailed to the cross by false accusers.

I don't blame any one for wanting more for his labor if people are able to pay more, but we have been trying to live and let live. If you want to pay more for work I don't blame you, but had it not been for us you would have been paying fifty cents for a hair cut. And as for my shop being clean, come and see. I would be glad to give a demonstration as to what they had me charged with. I have given it many times and as yet no one thought I had done a thing wrong. Come and see the report sheets that the very same inspectors gave us. My beauty shop record too is perfect.

Now if they wanted to settle this thing it would be easy. If they will say, now Finley old boy, we have treated you dirty as well as hundreds of others all over the state, and now we want to make restitution for it. We will first agree to pay you for all you have been out, pay damages on your character, and beg forgiveness and agree to be democratic and as we have had these fat salaries for this seven years at the barber's expense and now we will agree to turn this over to the non union barbers for the next seven. I believe that every barber would be willing to settle it on that basis and it seems reasonable to me. So now in conclusion I want to ask again, my friends to be here at the damage suit. Come in and inspect my shop and see if it is clean.

J. T. Finley.

### STABBED IN EYE; LOSES SPEECH

Boston.—While dueling with a playmate with wooden swords, Donald Begley, 13, of Lawrence, was stabbed in the eye and remained unconscious for seventy-six days. While apparently normal in other respects, Begley has not retained the power of speech and physicians have not determined yet whether he may be permanently unable to talk.

## Young Methodists Defeat Oldsters In Softball Game

A very enjoyable game of softball was played Monday at 6:30 p. m. at fair park between Mr. Daugherty's Bible Class and the younger Methodists. The young men scored a victory at the rate of 35 to 6. They had the assistance of two or three Baptists.

Beginning next Monday at 6:15 there is to be a tournament between actual members of the Patterson class, the Daugherty class and the young people's department. Two teams from each of these groups and one team of Intermediate boys will compete. The following week the championship will be played off. All these games will begin promptly at 6:15 p. m. so as to finish in time to attend the Baptist revival.

This is "Good Fellowship Week" among local Methodists, the climax of this week's endeavor is to be the watermelon feast on Friday night and the welcome of new members at Sunday School and church on Sunday morning. The pastor's theme is "Bliss Be The Tie That Binds."

No preaching service on Sunday night on account of Baptist revival.

## Huge Amount Spent In Big Bend Reserve

Nearly one-third of a million dollars has been spent by the Federal Government in carrying out development work in the proposed Big Bend National Park. It was revealed in statistics made public here this week by the National Park Service. The total expenditure up to July first was \$323,680—an average of more than \$100,000 per year since the work was undertaken by the Civilian Conservation Corps in August of 1934.

The principal activity has been directed toward making this mountainous wilderness accessible to pleasure-seekers. More than \$216,000 was used in the construction of fifteen miles of roads, five miles of trails and for bridges and guard rails. The trails include one of the south rim of the Chisos Mountains, from where is to be had the most spectacular view in the park—almost straight down 5,000 feet to the Rio Grande, and across mountain ranges into Mexican areas that would be included in the proposed Big Bend International Peace Park.

All of the work has been done in the Big Bend State Park. The area will become a part of the proposed 788,000-acre National Park when additional lands are acquired and decided by the State to the Federal government. The CCC program in the State Park is nearing completion.

An appropriation made by the last Legislature to purchase the additional acreage was vetoed by Governor Allred on the ground the State could not afford the expenditure at this time. Civic organizations throughout Texas now are endeavoring to raise one dollar from each of one million people so that title to the entire area can be vested in the government which would take over development, operation and maintenance of the National Park. One of the first steps contemplated under that program is the construction of administration buildings in the Basin of the Chisos Mountains, where the present CCC camp is located.

UNDECIDED  
Toledo, Ohio.—Apparently she didn't know her own mind—at least that's what the Marriage License Bureau thinks. After marrying Husband No. 1, she divorced him to marry No. 2. Later she divorced No. 2 to re-marry No. 1. That ended in divorce again, so she applied for a license to rewed Husband No. 2.

## Throckmorton Ranchers to Kill Out Prickly Pears

Ranchmen of Northwest Texas are carrying out many range practices designed to improve their holdings under the range conservation feature of the Agricultural Conservation Program, county agricultural agents for that section report.

The 1937 Throckmorton ranch-

men who have listed 373,441 acres of land in the program will clear prickly pear from approximately 15,000 acres and mesquite from around 2,000 acres, and in addition will construct 30 earthen dams to form water reservoirs.

The first of three dams for water reservoirs has been constructed on the James Shelton ranch in Hartley county. "I have had these dams planned for a long time," Shelton says. "They will be located in places which are a long way from water and will be a great aid in distributing grazing on that part of my range. The tanks will be fenced to keep the

water clear and to offer additional cover for wild life."

A 3,050 cubic yard dam on the Roscoe Bradford ranch in the Darrouzett section of Lipscomb county has just been completed and will back up water for 600 yards. The lake will have an area of 18 acres and will be 15 feet deep in places.

Three water reservoirs have been formed on another Lipscomb county ranch, that of R. T. Kelley of the Locust Grove section. The three dams are respectively 1,500, 1,282, and 950 cubic yards in size.

## 4-H Club Members Guests

Members of the 4-H Club from Knox County were guests of the 4-H Girls club members Tuesday in an afternoon held at Benjamin. Edred Vaughan, county demonstration agent, and Mrs. Crume, sponsor of the club, accompanied the trip to Benjamin, one of the Mattson school

meeting was held at the new courthouse, and after a singing, County Judge E. of Knox county addressed the group. Afterwards a picnic was served to all present. They were carried on a trip to the new county seat and the Knox county jail, returning from Haskell via Miss Lillian Bieber, and Dorothy, Dorothy and Maudie Parsons of Miss Alice Atchison, of Mrs. Kate Nichol, of Mrs. Edna Stanford, of Mrs. Vera Mae Mapes, of Mrs. Edna Vaughan, county demonstration agent.

## Braves Top Softball Game Tuesday

A third of a series of softballs played recently, Pip's managed by Artie Phippen a one-sided contest Tuesday afternoon at Fair Park, when the Braves beat Ben Bagwell's all-

two teams have another scheduled for Thursday beginning at 6:30 o'clock. Tuesday's game All-Stars, "Red" Campbell, Bryan, Braves, Winston Lloyd McMillin.

### FISHING VERSUS QUINTS

Almost every state, province or community has its feature attraction these days, good for so many tourists a year. Occasionally, however, a locality has two big drawing cards, and their competition is likely to develop some amusing situations.

From Ontario, homeland of the Dionne quintuplets, comes a brave statement from one D. J. Taylor, deputy minister of game and fisheries to the effect that more tourists invaded the province in the good fishing seasons of 1928-29 than in any comparable period since the birth of the five famous sisters.

In view of world interest in the quintuplets, many Ontario residents may consider this statement nothing less than open heresy. Nevertheless, it seems that Mr. Taylor would be certain of a share of victory if there is any argument. For, with the quintuplets steadily gaining in popularity, Ontario is going to need a good man to keep its fishing properly press-gauged. And from the start he has made, Mr. Taylor is going to be just the man for the job.

### TROTZKY ON VACATION

"Tired of civilization," Leon Trotzky, arch-disciple of Bolshevism, has left his haven in Mexico City to be gone "a long time" on an extensive fishing trip. His destination was unrevealed. Regardless of the varying opinions which this news will inspire, Trotzky's vacation is bound to be an interesting experiment, for himself at least.

For one thing, he will have a change to observe how his own inimitable brand of "civilization" works out when it is not contaminated by association with the adulterated varieties in vogue with most modern nations.

Few really will care how long Trotzky stays away on his fishing trip. It will mean a sad dearth of quips for the columnists, and possibly will reduce the volume of Stalin's treason trials. The only fearful thing about it all is what Trotzky will come back—dragging a new prize string of red herrings.

### "DE-EMPHASIZING" FOOTBALL

One common excuse for the semi-professionalism of "big time" college football is that the football gate supports the rest of the athletic program. If football didn't show such a profit, it is argued, the whole athletic program would have to be curtailed sharply. Well, the University of Chicago has a net \$66,000 deficit in its athletic and physical education department. Chicago, you may remember, has

been "de-emphasizing" football, and has enjoyed neither victories nor big crowds for some time. And the point of it all is that the university authorities refuse to get alarmed about the deficit. They remark that the university will meet the athletic department's expenses as it does those of all other departments. Athletics is not a proper part of the university program; the university will pay for it, instead of asking a hippodromed football team to do so.

### WHAT IS WRONG?

There has been a disturbing number of commercial airplane crashes of late. Even more disturbing is the persistent charge that the U. S. Bureau of Air Commerce which is responsible for safety in aviation, has been failing to do its job properly. This bureau is a part of the Department of Commerce. When the Senate Commerce Committee investigated it, following the 1935 crash in which Senator Bronson Cutting was killed, it was charged that politics in the department was preventing the bureau from functioning properly. It is reported now that the Senate will order another investigation, and one hopes that the report is correct. The bureau needs to be as efficient and as impervious to political influence as any branch of the government can possibly be. The Senate would be well-advised to get to the bottom of the matter so that a drastic overhauling can be made, if necessary.

### SNAP SHOTS

A domestic science course will teach a girl how to cook about everything a man doesn't care a whoop for.

Some folks live to a ripe old age and others just stay green.

An extensive vocabulary enables one to expose his ignorance more convincingly.

Some men who write a lot about international peace are hardly able to stay on speaking terms with their wives.

A lot of farmers have found that the old sow, cow and hens give them more relief than they can ever hope to get from Congress.

It takes real courage for a man to wear spats and carry a walking stick in a small town.

"Art is anything that is well done," says a critic. A hard-boiled egg, for instance?

The new model automobiles are very striking, according to pedestrians.

A friend tells us his breakdown was caused by trying to keep up the easy payments.

True love, says a writer is the key to happiness. But keys are so easily mislaid.

Once more home runs are among the items for which the demand exceeds the supply.

When money talks no one seems to mind the grammar it uses.

The fellow who insists on starting at the top ought to get a job digging wells.

We never could understand why they called it a "swift kick" since we never heard of anyone getting a retarded one.

## Haskell County . . . . .

# History

As Revealed by the Files of the Free Press 20, 30 and 40 years ago.

**Forty Years Ago—1897**  
Mr. Byron Glascock has gone to Seymour with his race stock to take in the sports.  
Mr. Bob Vannoy left Friday for Seymour, where he will remain until the cowboys reunion is over.  
The ice cream supper given by the ladies of the Cumberland Presbyterian Church on Tuesday evening was a very pleasant affair and yielded the neat-sum of \$20 above all expenses.  
Mr. S. W. Vernon was in town Thursday and gave us the figures on Mr. Dave Garren's wheat crop, which he threshed recently. Thirty acres, threshed separately, gave 28 bushels per acre, and the average of his entire crop of 70 acres was 25.77 bushels per acre.  
Mr. Bob Edge, who formerly lived here, but moved to the I. T. a year or so ago, was here this week arranging to move back to Haskell county.

The fishing party composed of Mr. W. T. Hudson and family and Misses Minnie Lindsey and Ellen Isbell and Messrs. Jim Fields, Walter Robertson, John Vannoy and Julie Winn, who went down on the Clear Fork the latter part of last week and spent several days fishing, report a splendid time. They caught more fish than they wanted, and found two bee trees, from one of which they secured a fine lot of honey.  
Two men arrived here Thursday evening and erected a tent in which they put on exhibition what they claim to be the petrified body of the notorious outlaw, Bill Johnson, who flourished in central and southwestern Texas prior to 1858, and had thirty-odd murders charged to his account. It is claimed to be the body found in banks of the Brazos river at Waco in January, 1893, and identified by old citizens as that of Johnson, who was executed there by a mob in 1858. It has the appearance of a genuine petrification.

**Thirty Years Ago—1907**  
The north bound passenger train ran off the track this side of Stamford Monday morning and caused the train to be an hour behind schedule at this place.  
Mr. G. D. Shappell of Fort Worth is here this week visiting Mr. Jack Piner. Mr. Shappell was in Haskell in the early days, and called to mind the fact that he used to shoot antelope on the spring branch close to where the town now stands.  
The West Texas Development Company has sold in the last week fourteen 160 acre tracts for a total consideration of \$44,255.00.  
Mr. Wm. Connelly, foreman on the big brick building under construction on the east side of the square, fell from the scaffolding Wednesday and dislocated his hip and broke two ribs. He was attended by Dr. A. G. Gebhart and Dr. E. E. Gilbert.  
Messrs. G. R. Couch and J. W. Collins returned last Saturday from Fort Worth, where they disposed of a shipment of cattle.  
Mr. Alvy Couch has accepted a position with the Haskell Furniture Company.  
Mrs. J. S. Rike and Mrs. R. C. Montgomery took the train Wednesday morning on a pleasure trip to Galveston.  
As Mrs. R. P. Moore and Mrs. R. J. Moore were out driving Thursday as they passed an automobile their horse became frightened and wheeling around, over-

turned the buggy, which he proceeded to kick into a wreck. Fortunately both ladies fell clear of the buggy as it turned over and were but slightly hurt.  
We learn that Mr. J. A. Fulghum of this place has taken the contract to build the first concrete building in Matador. It is to be 24x80 feet, and two stories in height.

**Few Will Cast August Ballots On Amendments**  
Only one of every seven Texas residents is eligible to vote in the constitutional amendments election August 23, the Comptroller's Department calculated recently.  
Department officials said voting poll taxes this year aggregated only 720,343, a decline of nearly 40 per cent from last year's figure of 1,172,928. The estimated exemptions would enlarge the voting strength to almost 900,000.  
The number of eligible voters always is considerably smaller in the "off years" than in election years.

It was doubtful if more than 500,000 persons would vote on the six constitutional amendments submitted next month. The vote in 1932 on repeal of State-wide prohibition totaled only 548,545 and none of the amendments sent to the people this year so far has aroused the interest that was created by the repeal campaign.  
Bexar supplanted Harris this year as the county with the most poll tax payments. The number of said polls dropped only from 62,888 to 61,004 in Bexar county, whereas the Harris county total declined from 33,566 to 39,176 and Dallas County from 62,364 to 37,502.

**Creeping Alfalfa of Asia May Aid In Erosion Fight**  
A creeping alfalfa discovered by H. L. Westover, forage specialist of the Bureau of Plant Industry, on an exploration trip to Asia, may be a valuable grazing and soil-holding plant for the semi-arid regions of the West, according to the Forestry News Digest.  
Westover found the plant in a stony goat pasture in a semi-arid region of Northern Turkey. Goats had grazed the pasture so closely that it was impossible to obtain seed so a root was dug from the stony ground. More than 2,700 plants were obtained from the original plant by a series of stem cuttings.  
Cuttings in thirty-inch rows in the sand hill country near Hyannis, Neb., sent out shoots that rooted in the first season as far as twelve inches from the crown. This experiment is in co-operation with the Nebraska station. Similar studies will be made in co-operation with other States' stations in semi-arid regions. The plant is a poor seed producer and does not grow high enough for mowing, which limits its uses to grazing, and, because of its strong root system, to protection against erosion.

**Pack Rats Help In Building Check Dams**  
Pack rats in certain parts of the Southwest aid Soil Conservation Service engineers in building dams an arrangement that is just about the last word in economy and efficiency.  
When the engineers want a check dam built in a gully, they choose a site, throw in cholla branches or other litter, and leave the rest to the pack rats who seldom fail to build their nests where they find the "bait."  
They bring in stones, weeds, cactus, sticks—anything they can pack. During rains, salt and debris washing down the gully are deposited in the brush pile. The resulting dam, engineers say, is just about as good as any they could build themselves. Silt and debris continue to collect in the gully above the dam, in many cases three and four feet deep. As silt fills in above, pack rats build the dam higher and higher until further cutting in the wash is halted.  
It is not just a hit-or-miss proposition. The engineers keep accurate accounts on their helpers and know just about how large a job the rats can handle successfully and about how long it will take to complete the job.  
Cactus plans are especially favored by pack rats in Arizona. The cacti generally take root and make the dam more effective as time goes on. It is quite common to find a series of such dams in the same gully, so that water descends in steps, instead of in a torrent.

**HURT INSTALLING SAFETY SIGN**  
Greenville, S. C.—While installing a "stop" sign on a city street P. C. Campbell, a Negro street employee, was knocked down and severely injured by a hit-and-run driver.

**Contrasts the Old and the New**  
Broadwayites are nearly all automobile fans and anything out of the ordinary along the "Row" interests them greatly. Recently one of the first Hudsons built, a 1909 model, was placed on exhibition beside the 1937 cars, on the floor of Hudson's big Broadway saleroom. Theatrical folk from all along the famous Avenue tried the contrast of sitting in the seat of what was one of the snappiest cars of its day and the latest model with its larger tip gearshift. Miss

Gracie Barrie, featured singer of the Broadway production the "Show is On", is shown here at the wheel of both cars, the old and the new. She was most intrigued by the difference in equipment and the methods of control. The 1909 car had no windshield or top. Its kerosene lamps copied the horse and buggy style and it is a far cry from the external gear-shift lever to the new selective automatic shift which is controlled by the flick of a finger.

### WAY BACK WHEN

by Jessam

FLIVVER KING WAS A SIMPLE MECHANIC

TIME is so short, so swift in passing, we should never be at loss for how to use it. The question should not be "How can I kill this evening?" but rather "Do I need to take this valuable time for fun, or is there something important I can do with it?"

Consider the life of Henry Ford. He was born on a farm near Dearborn, Mich., in 1863. The oldest of five children, Henry helped his father with the plowing, shucked corn, mowed hay, cut grain, dug potatoes, and milked cows. Time never hung heavily on his hands. Mechanically inclined, he rigged up a small machine shop on the farm and repaired watches at night for the village jeweler. After finishing the local public schools, the farmer boy left for the city to seek his fortune. In Detroit, he obtained a job as a mechanic's apprentice and the fortune he received was \$2.50 per week. When he was twenty-four he returned to the farm and ran a sawmill, experimenting in his spare time with a steam car. There was never a question in his mind about what to do with time.

His father was not in sympathy with Henry Ford's experiments, so he again went to Detroit, and worked for a power and light company as an engineer on the night shift. During the seven years that he was there he became general manager; and night after night, at home, he worked far into the morning hours in developing a gasoline motor car. Success came from his experiments at last, and in order to popularize the new vehicle, Henry Ford built racing cars and drove them himself in race after race. You know where Henry Ford stands today, one of the richest men in the world, employing hundreds of thousands of men.

His life is the story of time well used. It is an example worth remembering the next time you are wondering "how to kill time."  
©-WNU Service.

## Texas Highway Code Prepared

Texas now has its official state code on highway safety. The Governor's Traffic Safety Committee has just completed a 50-page pamphlet, "Creating Safer Communities", outlining the factors which that committee has found from a five-months' study should better driving conditions.

It treats with local safety committee organization, the use of statistical information on accidents education for safety, enforcement of safety rules, engineering problems and the rural problem. The question most often asked, what can the individual community do about bettering traffic problems? is answered in the text by the description of organizing local communities.

More than 50 towns and cities already have organized local traffic safety councils, according to the Governor and a greater number is expected with publication of the manual. First use of the manual will be as a text in the safety schools being conducted at Texas A. & M. College and Texas Technological College. Copies also will go out to mayors of all Texas cities, and these mayors are asked to cooperate in the statewide safety movement.

Work of the state committee is being conducted on a volunteer basis, with J. C. Rutland as chairman. Publication of the manual resulted from the first five-months study which the organization gave to the safety problems. A significant development in the cotton industry is the age by Far Western. The yields are higher. According to July issued Agriculture July issued in California now has cultivation compared in last year, a 67 per cent increase. These are all harvested 1932-36 for California pounds; for New Mexico 375. For the States figures are as showing only 10 Mississippi 217, Georgia 205, Louisiana 202, 292 and South Carolina. On the basis of production in the West season is expected to 100,000 bales, California about 740,000 and New Mexico 000 and New Mexico. In other words, the belt has been re-cut in recent years. States have been rapidly in the belt proved irrigation importance in staple will be fur-

## WORLD'S RECORD CATCH

Bigger than the young angler who caught it is the 60-pound white sea bass recently landed by Douglas Bombard, age eleven, off Santa Catalina island, Calif. Douglas made the catch from a little speed boat using flying fish for bait, with a light tackle with a breaking strength of 26 pounds. The young angler's record breaks the former record of E. A. Brewster, who in 1907 caught a white sea bass, weight 53 pounds, with a light tackle.

counteracting these physical advantages. While a tax exemption plan is not recommended for Texas, positive steps toward halting the constantly upward trend of state industrial taxation—particularly on natural resources, which are the prime attraction for many industrial prospects—are necessary if Texas is to present a completely inviting front to industry, the report concludes.

## Death From Old Age Rare With Animals

Few wild animals die of old age in spite of their freedom from the ills of civilization. Food shortage, accidental injuries, diseases, and natural enemies are the principal causes of death in the wild, says the United States Biological Survey.

Pneumonia, or inflammation of the lungs, is one of the common causes of death in the wild, as well as in civilization. Starvation is one of the most important contributing causes. A number of wildlife diseases also attack human beings with serious and sometimes fatal consequences, and investigators must always be on guard in examining sick or dead animals. Rubber gloves and antiseptics are essential, and also care against bites by ticks and fleas from the animal. Rabies, anthrax, bubonic plague, glanders, tularemia, and undulant fever are among the wildlife diseases that man must guard himself against.

## TRAIN RUNS OVER BOY; UNHURT

Washington—Jimmy Seis, two and a half years old, was run over by a locomotive and eight freight cars and emerged with two small cuts on his head and a puffed cheek. Wandering into the railroad yards, he was struck by the train and thrown between the rails. Unconscious, he lay still as the train passed over him.

## Pellagra Is More Prevalent During Spring, Summer

"Pellagra is a disease that is caused by not eating the right kind of food and shows itself usually by a strange kind of reddening and scaling of the skin," said Dr. Geo. W. Cox, State Health Officer.

"The person with pellagra usually suffers loss of appetite, indigestion, diarrhea, soreness of the mouth and tongue, nervousness, low spirits and more or less general weakness.

"Thousands of Texans suffer with this disease and approximately one thousand die each year. More cases appear in the spring and early summer months than at any time during the winter. It comes to those whose diet does not contain all that is needed to keep one in good health. The missing essential in the diet is called the pellagra prevention factor or vitamin. We know that because people who eat the right kind of food do not have the disease, because those who do have the disease and eat the right kind of food do get well and remain well as long as they maintain a proper diet and also when people are fed the wrong kind of food they develop the disease. Pellagra is not a communicable disease. The treatment should be directed by your doctor and the main thing is diet. Do not rely on patent medicines.

"The prevention of pellagra depends upon eating the right kind of food at all times. To make sure that the diet is right, it should always contain plenty of milk daily, some fresh meat and as many fresh vegetables as possible. Tomatoes, whole wheat products, salmon, yeast, and fresh fruits are especially valuable. Having provided these essentials of a proper diet, the rest may be arranged according to family or personal likes. In this way, you avoid pellagra."

## HUSBAND SPANKS; ASKS DIVORCE

Visalia, Calif.—When she forgot to say "yes, sir" to one of her husband's questions Mrs. Cecil Conley testified that he made her repeat "yes, sir" 600 times then he seized a clothes brush and spanked her with it. She filed suit for divorce.

## TAKES 9,000 PENNIES

Baltimore, Md.—A bank, containing 9,000 pennies, was stolen from Mrs. Elsie Hill, of this city, by John Norris, 26, who had been befriended by Mrs. Hill. The coins which had been accumulated by Mrs. Hill over a period of several years, were found buried in the woods a short distance from the home.

## BAND PLAYS AT FUNERAL

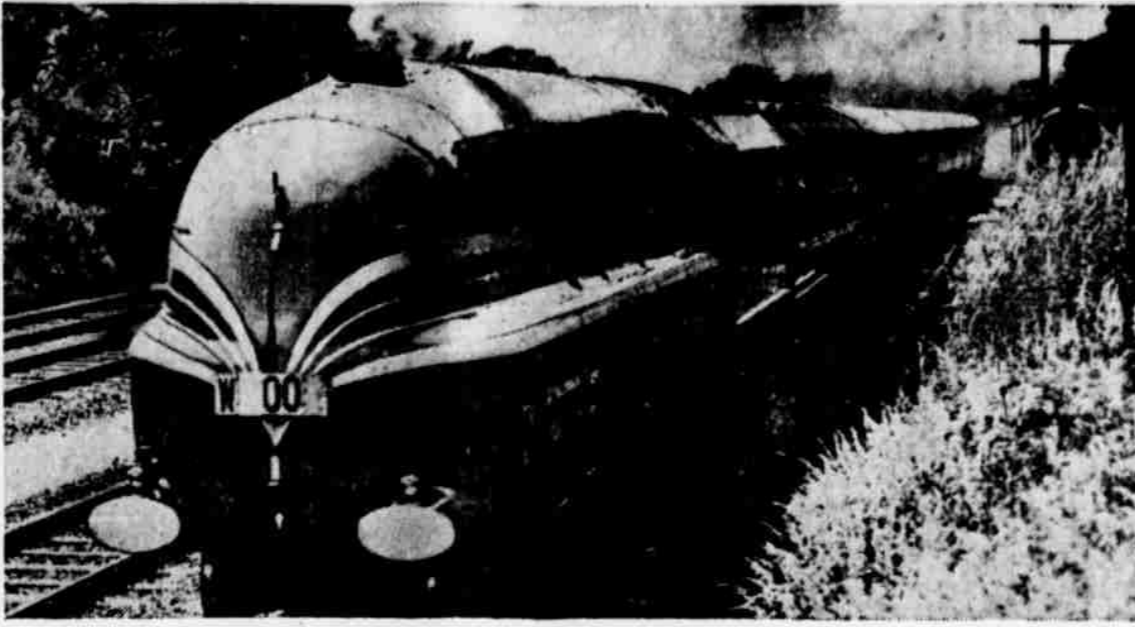

Scranton, Pa.—At her request, the family of Mrs. Carmela Castlegrande, 98, engaged a 30-piece band to play the music at her funeral. The band marched at the head of the cortege from the home to the church and then on to the cemetery.

## DOGS ATTACK CHILD

St. Johnsbury, Vt.—Little Arlene Holbrook, 4 years old, was seriously injured, if not fatally, when four dogs attacked her, ripping off her clothing and mutilating her little body.

## New Streamliner Speeds British Train Travel

Specially constructed to make the London to Glasgow journey in six and a half hours, the London Midland and Scottish railway's new streamlined train, the Coronation, has set a new speed record for British travel. The high-speed express is shown getting into its stride near Watford, England, on a recent test run.

## Weinert

A few of the farmers are heading maize and enjoying pretty weather.

Mrs. Grover Newsom and daughter Eula returned home from Snyder Sunday.

Gloria June Kane returned home Sunday from Waco where she has been visiting.

Mr. and Mrs. Frank Cook from Oklahoma City and Mr. and Mrs. Mac Cook from Kansas City visited their sister Mrs. Johnny Reeves and family last week.

Rev. Albright and Rev. Cockern from Shawnee, Okla., are holding the revival at Union Chapel.

The Baptist meeting closed here Sunday night with a lot of new members. Rev. Boswell from Waco did the preaching. Mr. Adams and sister from Stamford had charge of the music and singing.

The Lucky Four quartet consisting of Mr. Bailey Guess, Mr. T. D. McKinney, Mrs. Charley Winchester and Mrs. Frank West won first place in Rochester Saturday evening and got a trip to Abilene to sing over the radio Sunday evening. Everyone enjoyed the Lucky Four's songs.

Miss Kate Coggins from Anson visited her parents Mr. and Mrs. S. L. Coggins Sunday.

Mr. and Mrs. Oscar Reed and family returned from the plains Sunday and are planning to move out there leaving Saturday. We regret losing Mr. and Mrs. Reed and family.

Mr. and Mrs. Vernon Beard and family visited Mrs. Virgil Phillips at Plainview, Texas Saturday night and Sunday.

Miss Earnest Howard and little sisters Jane and Gayle, returned home from Plainview, Texas Sunday where they had been visiting their aunt Mrs. Al Marr and family and their granddaddy Earnest Riding.

## Rochester

A fine rain fell here last week. Crop prospects are good. Most folks are through with work and ready for their meeting. The Methodist church revival began Sunday, the Church of Christ expects to start Friday night. Each one holds their meeting in the open air on their church camp so it doesn't interfere too much to conduct them at the same time.

G. F. Mullino of Haskell was in Rochester Monday on business and shaking hands with his many friends here. We are still peeved at Haskell for taking this good family away from us. We still have hopes of getting them back.

Mrs. R. M. Michael and son, John returned from Lone Oak, Texas last week where they spent several days visiting relatives.

Mr. and Mrs. Aubrey Shaver visited Mrs. Shaver's sister, Mrs. Dallas Waters at Lubbock Sunday who is recovering from an operation. They report her getting along nicely.

Supt. Matt Graham was a business visitor here Monday, shaking hands with his many friends here.

## Summer Fruits and Vegetables For All Year Round Enjoyment

Few household tasks yield as much satisfaction as home canning. More interesting and more abundant meals and greater economy is achieved than the amateur would consider possible. The labor is so simply repaired that every moment of it becomes worthwhile. To be assured that none of the effort or materials are wasted you must be certain that your equipment is adequate and your method "fool proof".

### Sour Cherry and Strawberry Jelly

4 cups fruit juice  
7 1-2 cups sugar  
1 bottle liquid fruit pectin  
Use 1 1-2 quarts of fully ripe strawberries and 2 pounds of fully ripe sour cherries. Wash the fruits carefully. Stem (do not pit) and crush the cherries. Add 1-4 cup of water, place over heat and bring to a boil. Cover and simmer for 10 minutes. Crush or grind the strawberries. Combine the fruits and place in a jelly cloth or bag. Squeeze out the juice. Measure the sugar and juice into a large saucpan and stir until well mixed. Bring to a boil over the hottest fire and add the liquid fruit pectin, stirring constantly. Bring to a full rolling boil and boil hard for 1-2 minute. Remove from the fire. Skim and pour up quickly into clean hot jars. Seal or paraffin the jelly.

### Open Kettle Method

In this method food is cooked directly in an open vessel and then packed at once in sterilized jars and sealed immediately. All jars must be in perfect condition, and boiled for at least 15 minutes. Food is packed into the jars to within 1-2 inch of the top while boiling hot. Seal at once. Set aside to cool. Do not turn jars upside down while cooling and do not screw bands down after jars are cold and sealed.

### Cold Pack Method

Sterilize perfect jars for 15 minutes. Prepare foods according to recipes. Add liquid to 1-2 inch of top. When using syrup 1 1-2 inches from top of jar. Wipe top of jar and place sterilized lid on firmly. Process length of time indicated in recipe whether for pressure cooker, steam cooker or wash boiler. Remove jars from cooker and set aside to cool. Do not turn jars upside down while cooling and do not screw tops down after jars are cold.

### Mustard Pickles

1 quart green cucumbers cut small  
1 quart tiny cucumbers  
1 quart sliced or very small onions  
1 large cauliflower cut in pieces  
4 green peppers sliced  
Soak all ingredients for 24 hours in salt water, using 1 cup of salt to 1 gallon of water. Then scald in the same brine and drain. Make a paste of 8 scant tablespoons of ground mustard, 1 tablespoon of tumeric, a scant 1-2 cup of flour, 1 cup of sugar, 2 cups of vinegar. Mix dry ingredients with a little vinegar, then add remainder of vinegar. Scald, stirring until well mixed and smooth. Pour over the vegetables while hot and seal in jars.

### Crab-Apple Jelly

3 pounds Concord grapes  
3 pounds crab-apples  
6 1-2 pounds sugar  
1 bottle fruit pectin  
Crush the stemmed grapes, add 1-2 cup water, bring to a boil, cover and simmer 10 minutes. Strain apple and grape juice through a cloth. Bring sugar and 9 cups fruit juice to a boil, add pectin, stir constantly, cook at full rolling boil 1-2 minute. Remove, skim and pour in glasses and seal.

### Corn Relish

Grind 1 large head of cabbage, 4 onions, 4 green peppers and 6 red peppers. Add scraped kernels of 20 ears of young corn. Bring to a boil with 1 1-2 cups of sugar, 1-2 cup of salt, 4 cups cider vinegar. Add 3 more cups of vinegar and a mixture of 3 tablespoons tumeric, 1-2 cup flour, 1 tablespoon celery seed. Cook 30 minutes. Pour in jars and seal while very hot.

### Spiced Peach Jam

3 1-2 cups prepared peaches.  
1-3 cup lemon juice  
7 1-2 cups sugar  
1 teaspoon cinnamon.  
1 teaspoon cloves  
1 teaspoon allspice  
1 bottle liquid fruit pectin  
Select 3 1-2 pounds of fully ripe peaches. Wash carefully. Peel, pit, and grind or chop very fine. Add the lemon juice and spices. Measure the sugar into a large kettle and add the prepared fruit. If the mixture does not make 3 1-2 cups of prepared fruit, fill up the last cup with water if necessary. Mix well and bring to a full rolling boil over the hottest fire. Stir constantly while boiling. Seal in glasses or jars.

### Curried Apples

Pick over, wash and stem 10 pounds of currants. Mix currants, 3 pounds sugar and 4 cups cider vinegar. Add a small muslin bag containing 1 teaspoon salt, 1-2 teaspoon black pepper, 1-2 teaspoon

## Visitors Travel Faster on Highways Than "Home Folks"

Visitors travel faster than the home folks on the highways, and the farther they come the faster they go, according to a traffic survey by the Federal Bureau of Public Roads and the Connecticut State Highway Department. As reported in "Public Roads", the Bureau journal of highway research, Connecticut cars averaged 38.2 miles an hour; cars from neighboring Massachusetts, 40.3 miles; from New York, 41.3 miles; and from four midwestern States, 44.9 miles an hour in the daylight during the summer.

There was no significant difference in the average speed of men and women drivers. Men average a little faster in the winter; women in the summer. But, back seat drivers put on the brakes. That is, cars with passengers did not travel as fast on the average as cars with only a driver aboard. In the winter the difference in speed averaged only about half a mile an hour, but in summer it was 2 miles.

Average speeds were fastest in the early morning, slowed gradually during the day, picked up a little from 5 to 6 in the evening, and lessened in the dark hours. The driving records of 981 high speed drivers were checked against the records of 1054 moderate drivers. Thirty percent more of the fast drivers had been in accidents and they average 45 percent more accidents than those who drove at moderate speeds.

The timing was done with the aid of a stop watch and mirrors from a car parked at the side of the road so that drivers would not slow down for fear of a speed trap.

Amendments May Get Only Light Ballot Next Month; Fee System Arouses Interest

Several signs of increasing interest in the special constitutional amendments election Aug. 23 have appeared.

Most of the talk has been on the proposal authorizing a return to the fee system of compensating district, county and precinct officers. Plans have been made, however, for a systematic campaign for adoption of the amendments permitting state aid to adult needy blind and dependent children.

County officials, like the public, are divided on whether the Legislature should be permitted to put them back on the fee basis. District clerks at their recent Houston convention adopted a resolution favoring continuation of the salary system.

In addition to the fee system amendment and those expanding the social security program, the people will vote on eliminating double liability of state bank stockholders allowing discounts up to 3 per cent for prompt payment of taxes, and authorizing Harris county to levy an additional tax for a road program.

The vote is expected to be extremely light. None of the proposals has stirred up the interest aroused by the \$20,000,000 bond issue for relief of the unemployed, old age pensions, legalization of 3.2 per cent beer or repeal of statewide prohibition. There never are as many paid poll taxes in off years as in the years when officeholders are named.

The 45th Legislature submitted fewer constitutional amendments than others in recent years. In addition to the six in August balloting, eliminating of the ancient anti-dueling clause of the oath of office will be before the voters in the 1938 general election.

Rep. Bailey B. Ragsdale of Crockett blames a group in the Senate for lack of action on a soil conservation bill in the special session.

He said Gov. Allred would have opened the subject if majorities of both houses had signed a bill, thereby assuring its passage. He stated he obtained nearly 100 house signatures but the move died in the upper chamber.

The governor disapproved the soil conservation proposal passed during the regular session because the federal government indicated it might not co-operate under the Legislature's plan and because the bill would have diverted six cents of the 35-cent state ad valorem tax for general revenue purposes.

A bill in the regular session which came about as close to final passage as possible without reaching the governor's office was one

to establish two new senior colleges in Texas. The proposal called for elevation of John Tarleton at Stephenville and North Texas Junior Agricultural College at Arlington from junior to senior rank. It received Senate approval and was passed to final reading in the House only to die at that stage.

For a . . . Lubrication Job That Counts "Let Oscar Do It" When he gets through you'll say its different. OSCAR BARTON WELSH Call No. 1

'No Work, No Food', Says Sheriff The Truth About the "Sit-Down Strike"

I wish to make a few statements to the public in regard to a headline which appeared in the Haskell County Leader, one of Haskell County's four newspapers in regards to a prison strike while my wife, children and myself were out of the County a few days on business and for a few days rest.

I wish to say that it was a cowardly act on the part of the prisoners, what was expected of the truck driver, better known as "Haskell County's Parole Officer" and unfair tactics on the part of the editor of the Haskell County Leader in erroneous publicity given the occurrence, coming at a time while I was out of town.

Since I have been Sheriff, I have never seen a single prisoner that was satisfied in jail, if there wasn't something wrong with the food it was something else. I try to feed the prisoners plenty of good substantial food but try not to be wasteful. I feed the prisoners when they are not working, twice daily and receive sixty cents per day for their food and fifteen cents per day for safe keeping. When they are working on the County roads I feed them an extra meal, or three meals a day and receive thirty cents extra for the extra meal.

My wife does most of the cooking and I oversee what the prisoners get when I am at home. My orders for the meals consist of (for breakfast), each, four hot biscuits, bowl of oatmeal, 1 egg or bacon, plenty of syrup and coffee and sometimes jelly. (For dinner) each, three slices of light bread, one piece of cornbread, some kind of beans seasoned with meat, potatoes, cabbage or macaroni and tomatoes or hominy and syrup. (Lunch) which they carry out on the road, each has two meat loaf sandwiches, one jelly sandwich, one hard boiled egg, one banana, one cup cake or doughnut and on Sunday extra, some kind of roast meat and some kind of coblier.

Since I have been Sheriff there have been different ones feed at different times including Mart Clifton, Riley Lewellen, Al Cousins, Dan Kirkpatrick, Sebo Britton and Ollie Kittle. Irene Lusk, a negro has helped cook at different times, they can inform anyone what the prisoners have to eat.

I wish to invite the Commissioners Court, the County Judge, the County Attorney, the District Attorney and the District Judge to drop in at the jail at any unexpected time at feeding hours and inspect the food that is being taken up to the prisoners and to come over to the jail at any time the lunches are being prepared which go out, and inspect them before they are taken out. I want to extend a special invitation to the editor of the Haskell County Leader to drop in at any time unexpected and inspect for himself what the prisoners have to eat, then he won't have to print a lot of hearsay stuff.

I want to say that I will not while Sheriff, tolerate any sit-down strikes by prisoners. We have a County Health Officer and if he says a prisoner is able to work, he will either work or he won't eat at all. The Leader stated that there were about seven prisoners who struck, the truth is, there were three, two white men and a negro. One was in for beating his wife, one for getting drunk and calling a lady up over the telephone and cursing, and the

other for possession of liquor for the purpose of sale. Just a word of advice to those who are not satisfied with the food served at the Haskell jail: When you start beating your wife remember its Papa who pays, and when you start spending your money for liquor to get drunk on, and raise hell or undertake to, just walk into one of Haskell's County's several cafes, look the menu over and get you something that suits you and you won't have to eat jail food. And to the bootlegger, instead of selling someone liquor to get into trouble on and getting yourself because you are going to get you a job and try working for yourself, instead of the County. Take your money, buy the groceries you like, have them cooked like you like them and you won't have to eat jail food. And Mr. Editor of the Haskell County Leader, when you are looking for a headline for your paper, come around to the back of the Haskell County Cross Bar Hotel between the tall fence and the blacksmith shop and you will be allowed to interview some people who are not satisfied and they can give you some headlines such as "Mosquitos Disturb Prisoners Sleep," "Sheriff Refuses Prisoners Electric Fans," or "Prisoners Complain of Bed Being Too Hard" and any number of others.

I am asking this be printed in the Haskell Free Press and Haskell County Leader.

GILES KEMP, Sheriff Haskell County.

PERSONALS

Mr. and Mrs. Ben Charlie Chapman and Mrs. Jim Williams have returned from a few days vacation to Fort Worth, Mineral Wells and Dallas.

Mr. and Mrs. Jno. A. Willoughby returned the first of the week from a vacation which took them to Fort Worth, Dallas, San Antonio Houston and Galveston.

Mr. and Mrs. E. W. Tidwell of Houston are here visiting their mother Mrs. W. E. Tidwell and other relatives.

Mrs. Z. T. Loyd of Franklin, Texas is visiting her daughter Mrs. W. E. Tidwell. She was accompanied by her grandson, W. H. Loyd.

George Fields and sister Miss May have returned from a visit with relatives in Wills Point and Kaufman. While away they visited the Pan-American Exposition at Dallas.

We are privileged to have Rev. and Mrs. Earnest Spinks with us over the week-end. They have recently returned from Los Angeles, and held a two weeks revival at Gilliam. We wish to invite everyone to hear Bro. Spinks' soul-stirring messages, as he will be speaking: Saturday, 8:15 p. m. Sunday, 11 a. m. Sunday, 8:15 p. m. You can't afford to miss a one of these services. Don't forget the big contest that is on in Sunday School. Come Sunday morning at 9:45—and bring someone with you. You are welcome. The Pastor.

FIRST CHRISTIAN CHURCH Sunday, Aug 1st 1st. Bible School—9:45 a. m. Worship Service—11:00 a. m. Herman Pittman will do the preaching, and a cordial welcome awaits all who attend Sunday School and preaching services.

1937 Cash Farm Income Is Seen Best Since 1929

More dollars are rolling into the farmer's pockets this year than in any year since 1929.

Department of Agriculture economists at Washington delved into statistics and calculated that the 1937 cash income of farmers would be around \$9,500,000,000. This will be almost \$1,500,000,000 more than they got in 1936 and more than twice the cash they received in 1932, when their products brought them \$4,377,000,000 the smallest sum in years.

Gain of 21 Per Cent During the first five months of this year, the Bureau of Agricultural Economics reported total cash payments, including Government payments, at \$3,202,000,000, an increase of 21 per cent over the same period last year. For the remainder of the year economists expect this rate of increase will be maintained, and in all probability boosted a little.

Farmers appear to be in a particularly advantageous position, with good demand for practically all their production and prices of some commodities showing upward tendencies.

Wheat prices during 1937-38 are expected to be higher than 1936-37 because of prospects of a lower than average world supply. On the basis of the last crop report the nation's farmers will have more wheat to sell than in any year since 1931. Estimates of yield this year show 255,826,000 bushels more than last year. With cash wheat bringing more than \$1 every one of these additional bushels helps to swell the surge of dollars into rural areas.

Huge Corn Crop Many experts believe the indicated corn crop of 2,571,851,000 bushels, biggest since 1932, and almost a billion bushels more than 1936, undoubtedly will force corn prices down from present levels. The volume of cash corn sold, however, is relatively small and since most of the corn is feed to livestock, the money for it comes back to the farmer when he sells his steers, swine and other meat animals.

While it appears likely less livestock will be marketed during the remainder of this year than in the same period last year, higher prices are expected to offset any loss of cash income from this source.

One of the factors in the general increase of cash income has been the increase in 16 Southern states of money derived from sale of livestock and livestock products. Income from livestock sales in these states during the first five months of this year were greater by \$28,669,000 than the same period of 1936, indicating certain farmers in this area are breaking away from dependence on cotton and corn.

CARD OF THANKS On July 25, 1937 Mrs. Emma Oliver departed this life. She surrendered to the call of the grim reaper death at 7:15 a. m. in Sweetwater, Texas, in the home of her son, Pete McDade. With sad hearts we submit to Him who doeth all things well for it is His to call and ours to go. We use this method of thanking our many friends for the many comforting words, and kind deeds, that were done for us in those hours of bereavement praying God's blessings on all who were able to share with us in these hours of sorrow.—Pete McDade and family; Albert McDade and family; Maggie Guyden, neice; and other relatives.

Henry Smith of Throckmorton was in Haskell Wednesday on business.

SWIMMING DE LUXE

The last word in portable dressing rooms designed for beach use, made its appearance recently at Santa Monica, Calif., when Jean Parker, film actress, introduced an individual cabana. Housing but one person and resembling a large firecracker, the cabana is of lightweight construction.

Richard C. Gazley, chief engineer of the bureau of air commerce of the Commerce department, who recently received his appointment as chief of the safety and planning division from Secretary Reper.

Demonstrate New Type Machine In Building Tanks

A series of demonstrations are being conducted this week by Chapman & Lewellen, local dealers for M-M tractors and farm implements in the tank-building and repairing of earthen water reservoirs.

This firm has recently purchased a new Baker Hydraulic Scraper, a newly-developed efficient excavating machine with which it is possible to construct tanks, terraces, etc., quickly and economically, at a substantial saving in time and labor costs over previous methods used. The machine purchased by the local firm is one of the largest built, and is capable of excavating five cubic yards of dirt in a single operation.

First demonstration with the machine was conducted Tuesday and Wednesday on the Thornburg farm between Weinert and Rochester. Messrs. Chapman and Lewellen will be glad to discuss use of the machine with any interested farmer or rancher.

SPAIN'S LOSS OF POWER

The great sea armada built up by Spain during the sixteenth century, and which made that nation a world power, met defeat 349 years ago today—July 29, 1588—after an eight-day battle with the British navy.

Britain's dominance of the seven seas has been upheld since that time with very few exceptions, permitting the British dominion to extend to every point on the globe, while Spain gradually declined as a world power.

Loss strikes an individual as well as nations, but we are prepared to protect you against property loss with an adequate insurance policy.
