### OUR TRIP TO QUAIL

We shall never forget our trip to Quail, the largest consolidated rural high school in the state of Texas on Thursday, March 18, 1937.

We all met at Mattson school house and left on our journey about 5:00 o'clock in the morning (rather early for some of us). The buses took three separate routes, in order to get everybody that wanted to go. We all met again at Munday where we left one of the buses, as two could carry the fifty-eight of us very easily and comfortably. We stopped about every thirty or forty miles in order to let everyone get something to eat and to rest a little. As we had no bad luck or trouble on the way, we arrived in Quail about 10:30 o'clock, a little earlier than we had figured on arriving.

On our arrival we were very cordially welcomed by the Superintendent, Mr. Chaudoin, the school board and the student body. We were divided into groups of about ten or fifteen and each group was assigned to one of the Quail teachers or board members to be directed over the premises. We were shown through all the various parts of the building, and all the different classes and departments—it seemed that they tried not to overlook the slightest detail in explaining situations to us. After seeing the various parts of the building, which was very beautiful, and the interesting things in which the students were engaged, we were directed to the Home Economics building where we were served a delicious plate lunch by the Economics girls. After lunch we strolled about at our leisure, visiting first one thing and another. One of the most impressive things we saw was the trophies they had won in various fields and arts. There were about two dozen of them, and some were very beautiful.

At 2:45 we went into the auditorium for chapel. They opened chapel with a song and prayer. Then a play was presented by some small boys and girls. Next some musical numbers were rendered by the high school string band. Then various ones made speeches, Mr. Chaudoin, Mr. Cunningham, and members of the school board. And last, but not least, our superintendent, Mr. Watson made a talk on his impressions and ideas of the Quail School. He also expressed his gratitude to them for the splendid reception they gave us. When chapel was over, we were lined up in front of the building, and our pictures were made. (Believe it or not, 58 men and women make a rather large picture!)

We started for home about 4:00 p. m. We stopped in almost every town on our return trip, and I think I can speak the sentiment of the 58 people when I say that everyone had an enjoyable time on the return trip. We arrived home about 10:30 that night—a very tired and sleepy bunch.

We were very much impressed with Quail, its people, and the treatment we received from them; and we expressed our thanks by inviting them to visit our school in the near future.

### MUSTANG'S CORRAL

This week we are interested in only one thing. Here it is—track!

The members of the Mattson track team carried off top honors including the trophy for high point class B High School with 69 1/4 points. John McGuire was high point man with 19 1/4 points.

The boys made the following points: Brantley Massie 7 1/4, Gerald Atchison 4, John Mayfield 6, Raymond Shafer 4 1/4, John Freeland 5, Bob Freeland 12 1/4, and Elmer C. Watson 11 1/4.

These boys are entitled to go to the State Meet to be held in Denton. John McGuire, Elmer C. Watson, John Mayfield, Bob Freeland, John Freeland, Brantley Massie, Raymond Shafer, and Gerald Atchison will be entitled to enter in District Meet.

The events and the places they won were as follows: John McGuire, 2nd in 100 yard dash, 1st in discus throw, 1st in pole vault, 1st in 220 low hurdles; Bob Freeland, 2nd in shot put, 2nd in discus throw, 2nd in broad jump, 3rd in 440 yard dash; John Freeland, 1st in javelin throw; Gerald Atchison, 3rd in 220 yard dash, 3rd in one mile run; John Mayfield, 2nd in 880 yard run, 3rd in javelin throw, 4th in discus throw; Brantley Massie, 1st in 1 mile run, 4th in 100 yard dash; Elmer C. Watson, 1st in 220 yard dash, 1st in 880 yard run; Raymond Shafer, 2nd in high jump, and tied for 3rd and 4th place in pole vault.

McGuire, Massie, Watson and J. B. Freeland won first in the one mile relay.

Boost your school! Always be loyal and true to your school, and then watch it grow.

### WHO'S WHO IN THE FRESHMAN CLASS

Max Miles is one of our "pestiest" freshman boys. I believe he enjoys, most, making the girls, as well as the lady teachers, either very gay or very angry. He has the talent to do both. Max is, however, a fine student, and we are all glad to be able to say that he is one of our freshman friends.

Max was enrolled at Weinert last year. He says he likes Weinert but "give me Mattson any old day."

The shows that star Joan Crawford and Clark Gable are rarely overlooked by Max. He also enjoys "airplane pictures". This, probably makes up for his ambition to be an aviator.

Mattson hopes to have Max Miles in his school the rest of his high school days.

Robbie Jo Toliver is one of the freshman class most studious and intelligent students. Mattson is, indeed proud of her and her work. Although he believes in getting her school work first she never sits out of sports. She really has her part of the fun.

Robbie Jo enjoys most the pictures with Shirley Temple and Dick Powell.

She is looking forward to being a stenographer. We don't know if she means a "rich man's stenographer."

We are glad to have received Billie Doris Robertson into our school this year after having gone to Weinert last year. We hope to see more of her as she climbs from a freshman to a senior.

Doris is one true blond—we don't know just how "true" but she is a blond.

Doris seems to be contented if she can just sit and listen to the radio or look at a show as long as Bing Crosby is singing. She thinks Joan Blondell is very beautiful and enjoys watching her act.

Doris wants to be a nurse. Her sister has probably given her the idea on this.

Oscar Jeffer came to our school when Cottonwood consolidated. We hardly know when he is near because he is so quiet and timid. He says he likes English better than any subject.

Oscar doesn't have a favorite star. They are all alike to him. Besides, he had rather think of his life long ambition than to think of movie actors.

He plans to be a good farmer, and "when I say good, I mean good."

### ELIMENTARY SCHOOL ACTIVITIES

While wandering through the grammar school pupils we found Mrs. Furrh's first and second grades very much interested in the Dutch village which they were completing. The sand table was covered with busy and willing little hands to make the Dutch village more natural. The children seemed to be very anxious to begin the airport which Mrs. Furrh had told them they would make.

Mrs. Clifton's fifth and sixth grade are diligently working on choral singing, picture memory, and playground ball, because they feel confident that they will come to the top at the County Meet.

Miss Guess' third and fourth grades are looking forward to Easter as they have done some special art work. They have also been doing some interesting original work in poetry.

### JUNIORS IN TRACK

The Junior boys as well as the Senior boys took a great part in the track meet Saturday.

Those taking part were Charles Stephens, W. J. Adams, Max Miles, James Robert Massie, L. D. Holcombe, G. W. Couch, Raymond Couch, Rebus Guess, Leo Harper, and D. C. Nicholson.

Those taking places were James Robert Massie, third place in 100 yard dash and relay; Max Miles third place in 100 yard dash and relay; W. J. Adams third place in broad jump; Charles Stephens, third place in 50 yard dash; L. D. Holcomb, first place in broad jump and third place in relay; G. W. Couch third place in broad jump.

### TEN YEARS FROM NOW

The visitors of ten years hence will see many departures from our present ways. On entering the building, he will behold a very odd sight; in single file, as though on wings, the students are moving along the sides of the halls. They stand on a bracket at the end of an aluminum pole and are carried wherever they please by means of a cable overhead, without the least noise or confusion. A teacher stands at each door and works a switch for those who recite to him that period (perhaps I should explain that the switch will be an electric one, not willow). At the ends of the halls are elevators for teachers only, students being sufficiently elevated already. The old, hard seats and desks have been replaced by luxuriously upholstered pews, wide enough for four. In place of the old-fashioned recitation the teachers lecture, and the pupils simple take notes. Every two weeks the brains of all students will be photographed and the pictures placed on file. All cheating is thus eliminated, and the grades are given exact. The diplomas are composite pictures made from these photographs and accordingly they are recognized by every college in the land as up to standard.

### CHAT

The Editor

If you will glance at the sports column, "Mustang's Corral", you will understand why we Mattson citizens are strutting so proudly this week. No joking we are certainly proud of the points our boys won in track meet last Saturday.

We know that Spring is here—a sandstorm one day and the next day as "peaceful as a lamb."

It isn't long until the County Meet of the Interscholastic League. I'm sure, as the many conflicting sounds about us give evidence—the piping voices of the choral club, the shouts of the eager children playing playground ball, ranting claimers, etc.

You may rest assured that you will see some interesting plays soon, as several of the classes are rehearsing some.

Watch later for the interesting events to happen following County Meet. We keep saying, "When County Meet is over, we'll do 'so and so.'" I say we will do more when the weather becomes slightly settled.

Parents and friends, we invite you to visit with us. We haven't much to show in outward appearance here, as yet, but we do have a well-organized school and some interesting class activities.

"Waiter, for dessert, I'll have dapple umping. I mean—"

"You mean, sir, an apple dumple."

"No, what I want is an umple dapping; that is to say—"

"You rer, I suppose, sir, to a dumple appling."

"Oh well, bring me some ice cream."

Mrs. Watson (Working a cross word puzzle)—What is a female sheep.

"Ewe", replied Mr. Watson.

That started the fight.

The cup towel projects are almost finished and we hope to finish our slips and dresses soon. All the girls were present.

### Two 4-H Girls Clubs Organized at Sagerton

Miss Mildred Vaughan our new Home Demonstration Agent, spent the day in Sagerton Friday, March 19th.

At 9 o'clock she met with Mrs. L. K. Kinsey and Mrs. J. A. Clark at the school house and a 4-H club was organized. About 50 girls were present and two groups were organized. The high school girls in one group and the grammar school in the other.

In the afternoon the bodies met in the home of Mrs. Clark and Miss Vaughan demonstrated the removal of paint and varnish from old wood work and furniture and refinishing it. "There are three things to consider when refinishing a piece of furniture," she told the members. Namely, Be sure the piece be of good design, that the wood be good, and that it be well constructed.

This being Miss Vaughan's first visit to Sagerton she was introduced to the following members as they came in by Mrs. Clark: Mrs. W. P. Caudle, Mrs. H. D. Crabtree, Mrs. L. K. Kinsey, Mrs. Price Martin, Mrs. Arnold Gray, Mrs. Cecil Schraeder, Mrs. Walter Quade, Mrs. E. R. Rathgeber.

The club will meet with Mrs. Kinsey on Friday, April 2.

Mrs. Bert Welsh was in Abilene Monday the guest of Mrs. W. P. Shearer for the Pan-Hellenic luncheon at the Wooten Hotel. She was accompanied to Abilene by Mrs. Theron Cahill who visited with relatives.

### Guest Speaker at Seated Tea

Pictured as she exhibited examples of handcraft from her native land of Syria is Mrs. Joe E. Schaded of Paducah, guest speaker at a seated tea given in the home of Mrs. J. U. Fields Tuesday afternoon from 3 to 5 o'clock. Mrs. Schaded brought to Haskell a collection of articles from Syria, some of which are shown in the picture.

take the same pride as their elders in the creation of beauty in every thing they make".

Included in the collection shown was a beautiful box of olive and walnut wood, inlaid with mosaic work of Mother of Pearl in a blending array of colors.

Two large snow-white shells, intricately carved to depict "The Last Supper" and "Saint George and the Dragon," and a hand-made vase of brass, inlaid with silver and copper in a beautiful design, were among the most admired articles shown.

Other articles in the collection included a camel, perfectly carved together with trappings and a linked chain several inches long, which had been made from a single small block of olive wood.

Although not so generally worn today as in the past, Mrs. Schaded displayed a pair of wooden sandals, carved by hand and inlaid with pearl. Resembling somewhat the footwear of Holland, this type of sandal was at one time universally worn in Syria, she said.

Showing a pair of small leather shoes, Mrs. Schaded explained that they were a gift to her son, Maurice Joe, from his grandmother in Syria. In explaining the method used in manufacturing the shoes, the speaker said that the leather was first dyed a brilliant color, then soaked in water until pliable, when the seams were stitched wrongside out. The shoes are decorated with brilliantly colored tassels.

The craftsmanship discernible in a three-tiered folding vase, hand-hammered from brass with inlaid designs in colors elicited the admiration of the entire group.

Although very few Syrians speak or read English, Mrs. Schaded in exhibiting a small vase carved from dark-colored stone and lettered in English, explained that these articles were made by peasants who speak only Arabic, but have learned to carve the lettering without knowing its meaning. The beautifully colored stone is taken from the Dead Sea, the speaker said.

Many other articles of jewelry including cuff links, rings, and bracelets, some of filigree design

### SANDSTORM... OR FLOOD?

After the sandstorms of Tuesday and Wednesday, residents of this section would likely welcome a tiny portion of the disastrous flood which swept Dayton, Ohio, twenty-four years ago today—on March 25, 1913. Millions of dollars worth of property damage and a number of fatalities resulted.

Just like our own sandstorms—catastrophes cannot be prevented—but resultant property damage can be covered by insurance at a small cost. Take a few minutes time and look over your insurance policies—a part of your property may not be included.

## Plant Better Seed and Profit

### More On Your 1937 Cotton Crop

It is the firm conviction of most cotton growers and ginners that any movement for an improved cotton staple must start with a large increase in good outside planting seed.

For, once we have supplied a majority of the cotton raisers with desirable cotton, and short cotton ceases to be the rule, we will automatically attract more buyers. Good cotton was so scarce in this section the past season that it was difficult to convince a man the cotton was really a good bale when a buyer ran across one.

As one ginner remarked: "I saw hundreds of bales of cotton shown on the dealers tables last fall and lay there for days without an offer and finally have to be sent to Dallas or Houston and sold for most any offer that could be obtained."

There are considerable good seed now available from sections that made a good crop last year. And where the moisture was sufficient to make good staple, guarantee a high

Haskell County can produce superior cotton whereas there are many sections in Texas as well as in other parts of the world where only short staple cotton can be produced.

Why then should we try to compete with the lowest type and cheap labor when we can produce the type of cotton that spinners are ever seeking.

germination in the seed. There will be more brought in and it is up to every one connected with the cotton business in West Texas to do his share in seeing that these seed are planted. Lets not take any chances with seed that are of doubtful germination and that will result in a very sorry character of cotton in case they do germinate.

And so it is up to all of us to do our share in improving our cotton, raising the average price and increasing the yield per acre. With a general movement on to plant better seed there is no reason that this part of West Texas should not have the finest cotton in its history this coming season. The ginner is anxious to help, the farmers are responding in fine spirit and the cotton buyers will do their part when the cotton is harvested. No great movement for the improvement of a large class of our people was ever accomplished by the efforts of a few people. It requires the wholehearted support of all concerned and only in that way will we accomplish this change in our great West Texas crop.

# We Endorse The Movement

For a better quality cotton and urge the farmers of Haskell County to cooperate in the movement for a better cotton seed program.

The continued planting of a poor quality of seed will eventually ruin the cotton market of this section.

# Better Cotton

Must be grown in this area or we will be hard hit. If all the large buyers refuse to purchase low grade cotton what is to become of the grower who raises that variety? Play safe by planting good cotton seed.

### Visitors In Alvis Home

Rev. and Mrs. I. N. Alvis had their daughter, Mrs. William R. Johnson and friends, Mrs. Maurice Nicholson and Miss Lucille Quantelbaum of DeWitt, Ark., as their guests during the past week.

### Recommend Closing Dates

Directors voted at the meeting to recommend that business houses observe a schedule of holidays on which to close without circulation of petitions as in the past. Dates approved were July 4th, Armistice Day, Thanksgiving, and Christmas Day. Arrangements for closing for any special occasion would be referred to individual establishments in the usual manner.

The second Tuesday in each month was designated as regular meeting date for directors.

Directors present for the meeting were: T. C. Cahill, O. E. Patterson, Chesley Phelps, John A. Couch, Henry King, D. H. Peterson, Sam A. Roberts, N. I. McCollum, Courtney Hunt, J. D. Montgomery, W. A. Holt, J. M. Crawford, Dr. T. W. Williams, president, and Ralph Duncan, secretary-manager.

He fired one shot just as his wife had reached the southeast corner of the house, the charge striking her in the right arm and side. She was struck in

The grant has never been allowed—inssofar as an advance of funds made—because the county's share of the proposed project has never been provided.

Those favoring the project believe, however, that in the event bonds are voted locally that government sponsorship of the hospital will readily be forthcoming.
