

## ENGLISH SILO USE WILL DEMONSTRATED ON THURSDAY SEPT. 15TH

### FSA PERSONNEL TRAINING SCHOOL TO BE HELD HERE

#### Representatives From Eight Counties To Attend Two-Day Session

Haskell has been selected as one of seven cities in Texas where FSA personnel training schools will be held during the early part of next month. The two-day school in Haskell will be held on Friday and Saturday, Sept. 9 and 10, according to advices received by H. E. Skipworth of this city, district supervisor for the Farm Security Administration.

Principal purpose of the school will be to instruct county committees and other personnel of the federal set-up in carrying out the program of farm rehabilitation and procedure in selecting of tenant farmers for purchase of land under the Bankhead-Jones act, and to appraise the land bought.

County committees, rural supervisors, assistants and home management supervisors from eight counties will attend the Haskell meeting, and in addition County Agents and Home Demonstration Agents from these counties will be invited.

In charge of the training school will be administration supervisors and their assistants. Counties included in the Haskell district are Baylor, Haskell, Young, Wilbarger, Taylor, Mitchell, Tom Green and Coleman. Between seventy-five and one hundred persons are expected to attend.

The training school sessions will not be open to the public.

## Driver Dozes and Car Crashes Into Concrete Railing

Robert Wheatley of this city, who recently opened a shoe repair shop in Stamford, was painfully hurt Tuesday night when his car crashed head-on into a concrete bridge railing on the highway several miles south of Haskell.

Young Wheatley had worked late and was returning to Haskell when he apparently dozed for a moment and lost control of his car. He received a severe cut on his chin, and slight bruises about his body, but escaped serious injuries. The car was badly wrecked.

Alfred Hartfield, also of Haskell, who driving a few hundred yards behind Wheatley, brought the young man to the office of a local physician. Wheatley will be confined to his bed for several days as the result of his injuries, his parents Mr. and Mrs. C. Wheatley, said.

## Weinert Mascot of H-S-U. Band Is Hit In Washington, D.C.

Phillip Cadenhead, 11-year-old youngster who was chosen mascot for the Hardin-Simmons University Band on their trip to Washington for the national convention of rural mail carriers, is proving a sensation in the capitol city, according to press dispatches.

The youth, son of Dr. and Mrs. J. F. Cadenhead of Weinert, is an accomplished singer of cowboy ballads, and provides his own guitar accompaniment. Recent radio broadcasts over Wichita Falls and Abilene stations led to his choice as mascot for the H-S-U band on their Washington trip.

The following excerpt is taken from the Washington Post (daily) Monday, Aug. 22: "The song 'Beautiful Texas' written by governor-nominee W. Lee O'Daniel, as sung by Joene Propst, Berger, cowboy tenor and Phillip Cadenhead, eleven years old band mascot from Weinert, Texas, proved an especial favorite in the concert given in the grand ballroom of the Mayflower Hotel."

### "THE WANDERERS" TO PLAY FOR DANCE AT B&W CLUB

"The Wanderers" popular dance orchestra widely known through their daily broadcasts over station KGGK, Fort Worth, have been engaged for a dance at the Black and White Club in Stamford on Wednesday night, August 31st. Also with the orchestra for this engagement will be Ocie Stockard and "Papa" Calhoun.

## MAN IN CHARGE AFTER WOMAN AND BABE HIT BY AUTO

### O'Brien Woman Sustains Leg Fracture as Result of Accident

Serious injuries sustained by Mrs. Pete O'Brien and her three-weeks old infant as they were crossing the highway in that community late Sunday afternoon was the basis of a felony complaint filed in Justice Court here Monday against John Hendricks, Lubbock plumber who has been employed on a building project in Rochester.

Mrs. Barnard, carrying the infant in her arms, was walking along the highway toward her home after visiting her mother, who lived a short distance away. A passing automobile, travelling rapidly, either struck or brushed Mrs. Barnard, resulting in a severe fracture of one leg. The infant was thrown from her arms by the impact, and sustained a head injury, officers said. The car involved did not stop to investigate the mishap, officers were told.

Mrs. Barnard and the baby were carried to the Knox County hospital for treatment immediately after the accident.

Officers from Rule were notified of the occurrence, and as a result of their investigations City Marshal Bill Dunlap and Constable Ollie Kitley of Rule took custody of Hendricks Monday, and preferred charges against him in a complaint filed in Haskell alleging "failure to stop and render aid." Arraigned Tuesday afternoon, bond to appear before the next Grand Jury was set at \$750 by Justice Bruce Clift, after Hendricks had declined to make a statement to arresting officers and County Attorney Walter Murchison.

## Ft. Worth Attorney Will Speak Friday In Brooks' Behalf

Marvin Simpson, Jr., Ft. Worth attorney, will speak here Friday, August 26th, in behalf of the candidacy of Pierce Brooks, candidate for Lieutenant Governor, who led in the first primary, polling over 306,000 votes.

Brooks' platform includes payment in full of the old age pensions to those entitled to them under the Constitution. He shows this can be done without additional taxes. He would have \$10,000,000 yearly in the operation of the State government, without impairing its efficiency; he would abolish the Liquor Control Board, vest control in local officers and save a million; he would abolish the Old Age Assistance Commission, vest the authority in County Judges, and save another million.

In addition, Brooks advocates abolishing the auto license law, charging a nominal registration fee and retaining the driver's license. He points out the Highway Commission is well ahead with its program, has a large cash reserve, and this would not hamper its program.

## FINAL RITES FOR HASKELL RESIDENT HELD IN GORMAN

### M. C. Alsbrook, 55, Died Friday Evening at Home North of Haskell

Funeral services were conducted Sunday afternoon at 4 o'clock from the Church of Christ in Gorman, Texas, for M. C. Alsbrook, 55, who died at his home north of Haskell late Friday evening, August 19th. Rev. R. H. Echols conducted the service, and burial was in the Gorman cemetery with Masonic honors.

Mr. Alsbrook was born in Harrison county, Georgia, in 1882. He moved to Eastland county in 1903 and lived in that section until last year when he came to Haskell county.

Immediate survivors are his widow and three sons, Glenn Alsbrook of Gorman, Billie Alsbrook of Haskell, and Foy Alsbrook of Sparta, Tenn. Other survivors include his mother, Mrs. H. F. Alsbrook of Gorman; three sisters, Mrs. Stella Roberts of Sudan, Texas; Mrs. Eula Roberts of Gorman; Mrs. Lexie Carter of Gorman; and two brothers, Arthur Alsbrook of Gorman and Estes Alsbrook, Muskogee, Okla.

Funeral arrangements were in charge of Higginbotham Bros. of Gorman.

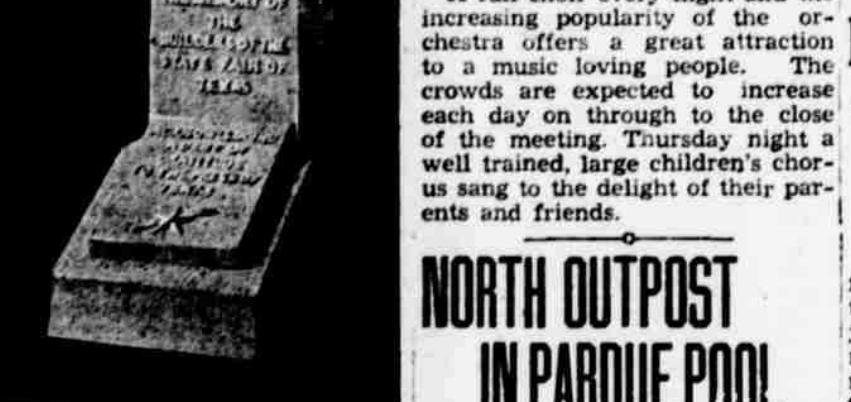

## METHODIST STRESSING REGULAR ATTENDANCE IN REVIVAL MEETING

### Monument to Press Major Goal Seeks Doubling Attendance at Sunday School and Church

Doubling the attendance at the Sunday school and church services is one of the major activities which the Methodists of Haskell have undertaken as a part of their revival program. Such efforts have been suggested by Brother Bickley as in every way worthy and challenging to Haskell people. He has been working in the field of motives, which attacks the spiritual indifference which is responsible for lack of attendance upon the means of grace.

"Spiritual indifference has been frequently described," said the Methodist pastor in discussion the plans for Sunday, "as the greatest menace facing our country today. Woodrow Wilson said that our nation can not survive materially unless it be redeemed spiritually. When we care enough we will attend church and Sunday school more ourselves and take with us our children and our neighbors. We have plenty of them to quadruple our attendance."

A full choir every night and the increasing popularity of the orchestra offers a great attraction to a music loving people. The crowds are expected to increase each day on through to the close of the meeting. Thursday night a well trained, large children's chorus sang to the delight of their parents and friends.

## NORTH OUTPOST IN PARDUE POOL HAS GOOD SHOW

Four Feet Saturated Lime  
Cored From 2806-10  
Feed Wednesday

Most favorable showing yet encountered in the Texas Pacific Coal and Oil Company No. 1 R. L. Livengood, north outpost to the Pardue pool south of Haskell was reported by operators Wednesday night. Drillers cored four feet into heavily saturated Adams Branch time at 2806-10 feet, with some gas showing. Markers in the test have indicated a slight upward trend in the producing horizon for the north extension.

After coring four feet into the time, operators were halted to await orders. The test is located in the south 43 acres of section 8, block 1, H&T survey, approximately one-half mile north of the original discovery well.

## GINNERS, COTTON BUYERS MEETING SLATED TUESDAY

All Haskell County cotton ginners and cotton buyers are requested to meet at the County Agent's office next Tuesday afternoon, August 30 at 2:00 p. m. for the purpose of receiving instructions with regard to Cotton Marketing Quotas and to study the various forms to be used in connection with the 1938 Agricultural Conservation Program.

## Many Applicants Seek FSA Farm Purchase Loans Under New County Allotment

Farmers who see a prospect of at least becoming owners of the land they work, after having struggled in vain for years to lift themselves from tenancy, are continuing to pour in applications to the county office of the Farm Security Administration, where loans will be made to a limited number of tenants or farm laborers. High interest rates and large annual installments made it impossible for them to pay out a farm in other years, but the FSA plan requires no more than the annual rent, and there is no down payment.

One farmer writes upon his application: "I have always lived with my parents and we have always had our crop together. We had always owned our own home until 1929. Owing to drought and other misfortunes we lost everything we had in 1930. Since that time we have been renting. My mother and dad are the best help a man ever had and their greatest desire is to help me to pay for a home, and my one desire to have a home for them the rest of their lives so we have no fear but what we can pay for a good piece of land in something like ten years if we can get on it. If you can see fit to choose me as one of the men, I will be deeply grateful. I have 5 workstock; 5 dairy cows; 2 calves; 2 hogs; and 300 chickens; also plow tools. I only owe \$75.00 and I have a good crop and believe I will have enough to run on next year after paying my debts."

Another farmer wrote: "As you know had it not been for a Rehabilitation Loan this year, I would have been foreclosed and forced off the farm because of drought and my inability to meet large payments that came due on my equipment. I am glad to say that if my crop makes as good as it now looks that I will be able to pay my indebtedness in full this year and have enough left to run another year. The Farm and Home Plans made by myself, my wife, and the Rural and Home Supervisors have been followed carefully and by reason of our getting financial aid and making plans and following them we now have 7 dairy cows, 7 calves, 14 hogs, 350 chickens. We sell one can of cream a week in spite of the dry weather. We have canned 284 quarts of fruits and vegetables, 25 gallons of cucumbers (from one 60 foot row). We will plant a fall garden and will continue our canning. We have now in store 300 pounds of onions and 3 bushels of potatoes which were produced by us. I practice rotation of crops and diversified farming. I am a firm believer in a Live at Home Program for my family as well as my livestock. I can make payments on a farm from the sale of calves, hogs and cotton crop. I am 42 years old and have a wife and two children at home. I will certainly appreciate a chance to own a home and believe without a doubt I can pay for it."

Applications of these men and the remainder of the 118 who have applied for purchase loans will be considered by a county committee consisting of Rufus H. Smith, chairman, David M. Guinn, and B. Walters. This committee will also appraise the land to be bought. Applications will close September 10, and it is expected that the new owners will be in possession of their farms by the middle of December.

## LOCAL MERCHANTS TURN OUT FOR C OF C BREAKFAST TUESDAY

### Abilene Credit Man Principal Speaker; Program Progress Is Reviewed

Sixty five business men and merchants attended the monthly Chamber of Commerce breakfast Tuesday morning in the coffee shop of the Tonkawa Hotel, and heard a resume of six months progress on the organization's program adopted March 1st.

The report was made by Dr. T. W. Williams, chamber of commerce president.

Guest speaker was E. E. Cockrell, secretary of the Abilene Retail Merchants Association, who pointed out the advantages of an active credit reporting bureau, both to merchants and consumers.

"Sound credit is the lifeblood of commerce in small towns and cities," he said in stressing the importance of close cooperation of business men in maintaining a local bureau. The speaker was introduced by Ralph E. Duncan, secretary of the Haskell chamber of commerce.

Other out-of-town guests were Ed Shumway of Abilene, H. C. Phillips of Dallas and M. C. Tiepfe of Lincolnville, Kansas.

## Many Farmers In County Apply For Subsidy Payments

More than 2,000 Haskell county farmers have filed their application for the 1937 Cotton Price Adjustment Program or Subsidy Payment, according to G. R. Schumann, Secretary of the Haskell County Agricultural Conservation Association. However, many farmers have not yet made application for this payment and they are urged to call at the county agent's office immediately and make their application.

Mr. Schumann further stated that cotton farmers in this county will receive approximately \$400,000.00 on the cotton price adjustment payment, due sometime in the next two months.

## Schedule Arranged For Registration of High School Pupils

Registration schedule for all students who will enter Haskell High School for the coming term was announced this week by Principal George V. Wimbish. It is very important that students observe this schedule if possible in order to facilitate final arrangements for the school opening.

The following registration schedule has been arranged:

Wednesday, Aug. 31, 8 a. m.—Freshmen.

Wednesday afternoon, 1 o'clock—Sophomores.

Thursday, Sept. 1, 8 a. m.—Juniors.

Friday, Sept. 2, 8 a. m.—Seniors.

## FARMERS SHOULD DESTROY EXCESS FIELD PLANTINGS

### Failure to Plow Up Excess Crops Delays Checking for Compliance

Farmers who have planted in excess to their cotton acreage and their feed acreage allotments are urged to destroy their excess acreage at once so that all work in connection with checking compliance under the 1938 Agricultural Conservation Program may be completed, G. R. Schumann, Secretary, Haskell County Agricultural Conservation Association said this week.

It is very important that compliance reports for all farmers be completed before cotton ginning starts in this county, because a farmer can not sell his cotton until his farm has been checked and the measurements approved by the farmer. Mr. Schumann pointed out.

The producers who are delaying plowing up their excess acreage are delaying the work for all farmers in the county. As soon as the farmer has destroyed his excess acreage he should report it immediately to the supervisor who originally measured his farm in order that the supervisor may check the acreage destroyed. They are requested not to notify the supervisor that they are ready to be rechecked until the excess acreage has actually been destroyed.

## LIONS CLUB TO GIVE TROPHY TO HASKELL'S MOST USEFUL CITIZEN

### STAMFORD MAN IS DROWNING VICTIM LATE WEDNESDAY

#### Gordon H. Haynes, War Vet, Drowns In Lake West of Stamford

Gordon H. Haynes, 44, prominent Stamford man and member of a well-known West Texas family, was accidentally drowned Wednesday afternoon while he was fishing in Lake No. 1 West of Stamford. He was pronounced dead at Stamford Sanitarium at 5:30 p. m. after efforts of resuscitation failed.

Boys who were fishing from a boat across the lake heard Haynes cry for help but were unable to reach him. The body was recovered about an hour later by David Bennett who was working with a group of Stamford men and boys under the supervision of Chief of Police G. G. Flournoy. Sons of Haynes, Gordon Jr., and Harry Lee, and a group of their school friends assisted in the search for the body.

Funeral services were held at St. John's Methodist church in Stamford at 3 o'clock Thursday afternoon, with the Rev. E. A. Reed, pastor, officiating, assisted by the Rev. P. D. O'Brien, Baptist pastor. Burial will be in Highland cemetery under direction of Kinney Funeral Home.

Haynes had been manager of the Stamford Municipal swimming pool during most of its existence. A native of Texas, he was born July 24, 1894, and came to Stamford 19 years ago from Ennis. He married Mattie Harrison September 3, 1918. During the war he served in the 36th division, though never going overseas. He was a member of the Knights of Pythias.

Survivors include the wife, two sons, Gordon Jr. and Harry Lee, and his father, H. L. Haynes, all of Stamford.

Recognition of Haskell's most useful citizen of this year will be provided by the Lions Club in the form of a loving cup or other suitable trophy, to be awarded at the next annual Chamber of Commerce banquet. Decision to offer the award was made at the regular meeting of the Lions Tuesday. Basis for the award will be worked out and announced soon. The award will be made by a committee which will include presidents of local women's clubs and other civic organizations of Haskell.

Lions will also award an annual trophy to the High School boy making the most outstanding record in sportsmanship, scholarship and citizenship during the 1938-39 term of school. Details of this award will be worked out by the committee on school activities.

Members of the club were put on strict behavior during the meeting, having as guests three ministers of this area, the Rev. R. N. Huckabee local Methodist pastor, Rev. John Crow of Merkel and Rev. A. Bickley of Abilene. The out-of-town visitors are members of the Lions Clubs in their home cities and during the course of the meeting made short talks concerning activities of their organizations. Lion Crow detailed the troubles his club encountered in passing the traveling Carriage, Mo., trophy to a neighboring club. The trophy remained in care of the Haskell Lions for more than two weeks and local members listened with interest to the visitors account of his club's worries in its disposal.

Another visitor present was Dr. H. D. Vaughter of Byers, Texas, father of J. G. Vaughter, Lions president.

Roy Killingsworth, committee chairman, reported the Club had provided transportation to enable a 13-year-old Haskell girl afflicted with infantile paralysis to go to Dallas, where she will be treated at the Scottish Rite Hospital.

## SOIL CONSERVING CONTEST HAS ENTRY OF HASKELL COUNTY

### Committee Named to Direct Activities In Proper Soil Practices

Formal Certificate of entrance has been made for Haskell County in the West Texas Chamber of Commerce Soil and Water Utilization Contest, according to G. R. Schumann, County Agent.

A County Soil and Water Utilization Committee has been organized for this county composed of the following members: Courtney Hunt, O. E. Patterson, Porter Campbell, C. M. Conner, R. E. Skipworth, Dean Harmon, V. F. Bunkley, S. N. Reed, Roy Weaver, H. T. Sullivan, M. P. Vannoy, Sam Roberts, D. R. Brown, W. J. Pille, E. B. Harris, Earl Atchison, Dr. T. W. Williams, Ed McMin, W. S. Grimsley and G. R. Schumann.

This contest is the result of a persistent and continuous effort of the West Texas Chamber of Commerce to find some means through which West Texas farmers and ranches could curb the menace of wind and water erosion and thereby insure the proper utilization of soil moisture.

Haskell County has long been one of the outstanding counties in which soil and water conservation work has been carried on and much progress has been made in this important work. The cooperation of the farmers, ranchmen and business men in carrying on this work is urged in order that Haskell county may make a good showing. Prizes will be awarded to the winning county entered in the Soil and Water Utilization Contest by the regional organization.

## Wichita Falls Men Purchase Interest In Wrecking Shop

Two Wichita Falls mechanics Bob and Farris Brown, have purchased an interest in the Haskell Wrecking Company in this city, and will be associated with Luther Kennamer in management of the establishment in the future.

The two men have been engaged in auto repairing for more than fifteen years, and are also experienced in all phases of truck and tractor repairing. Mr. Kennamer is a well-known and experienced mechanic, and has operated the shop for several years. The establishment located south of the square on Highway 30, is prepared to handle all classes of repair work.

## Only 127 Absentee Votes Recorded In Run-Off Balloting

A total of 127 absentee ballots had been recorded in the office of County Clerk Jason W. Smith Tuesday night, closing date for casting absentee votes for the second primary, to be held Saturday. The number is slightly more than one-third of the total absentee vote in the first primary, when more than three hundred ballots were listed.

All indications point to a tight vote in Saturday's primary in which three county and six state races are to be decided.

## Rural Schools Get Final State Funds For 1937-38 Terms

A check for \$1,957 was received by County Superintendent Matt Graham Monday from the State representing the final payment due under the state appropriation of \$22 per scholar for the school year of 1937-38 for pupils in the common school districts of Haskell county. These districts received State Aid in the total amount of \$43,054 during the last school term based on the state apportionment.

# Brief News Items From Weinert

**Attention**  
Mrs. Ernest Griffith, leader of the Methodist Zone No. 2 asks that all women of the auxiliary and church who can attend the meeting which will be held at Leuders on Tuesday August 30th to be in Weidert at 9:00 a. m. on that date. All ladies who go are asked to take a covered dish of meat or vegetables for lunch. You are urged to be present at this meeting.

Mr. J. K. Kane (Jerry) has bought Mrs. Pearl Brown's interest in the Brown-Kane grocery store and it will be known as the J. K. Kane grocery store. Mr. Kane has been connected with the Baker-McCarthy dry goods and grocery business of Weinert for years and put in a grocery store there in the early part of the year.

Mrs. Monke and Miss Alpha Mary Monke were in Seymour on Saturday night.

The free picture show is still open to the public and great crowds attend each Saturday. These shows are sponsored by the merchants of Weinert.

Mrs. Payne Hattox is spending this week at Avoca with her sister who has been quite sick in the

Stamford hospital, but is now at her home.

Mr. and Mrs. Clifford Stiegler and baby were in Vera Thursday night.

Mr. and Mrs. Worth Lee have had as their guests this week Mr. Lee's brothers Mr. Bruce Lee of California and Mr. R. C. Lee of Fort Worth.

Miss Ernestine Howard has returned to her home after spending the summer with relatives in Dallas.

Miss Dorothy Bell Boone was shopping in Weinert Monday.

Mr. and Mrs. Clifford Stiegler spent Sunday with Mrs. Steigler's parents Mr. and Mrs. Hattox at Corinth.

Mr. Oren Howard, Mrs. Brown, J. C. Brown and little girls were at Plainview Wednesday in the home of Mr. and Mrs. Al Marr. The little Howard girls Gayle and Jean who spent the summer there returned home with them.

Mr. and Mrs. Jack Merchant of the Cottonwood community was in town Sunday.

**Little Folks Enjoy Birthday Party Last Week**  
Mrs. Jess Owen honored her

daughter Rosie Ella with a birthday party at her home near town and many nice gifts were presented to her. Refreshments of punch and cake were served to the following children: Billie Louise Jones, Ella Ruth Tyson, Lucille Jenkins, Betty Joe Pickering, Viola Pickering, Alva Ray Medley, Jimmie Lee Medley, Joy Marsh, Billie Eugene Teaff, Darline Teaff, Tommie Bennett, Ann Derr, Edna Mae Alexander, Vivian, Jessie Fay and Tommie Owens. Also Mrs. Alvin Bennett, Louis Bennett, Mrs. Alexander, Marvin Teaff, A. B. Teaff and the hostess Mrs. Jess Owens.

Mesdames J. K. Kane and M. O. Satterwhite were in Haskell Monday.

Mr. Sam Bird Sr. and Mr. Joe Parsley and son James Collins Parsley of Olney visited Mr. and Mrs. Sam Bird Jr. Thursday.

Miss LaVerne Burgess visited her sister Mrs. Gavitt and Mr. Gavitt of Levelland last week end and Wallace Gavitt a nephew, returned home with her for a visit.

**Missionary Society Meeting Monday**  
The regular meeting of the Methodist Missionary Society met at the church for the following program. Song, "Happy Day" was sung as opening song. Devotional Galtions 1st chapter and the following topic were discussed, "The Spiritual Significance of Protestantism" by Mrs. Paul Josselet "The Situation Paul Faced" by Mrs. Annie Mae Medley; "Paul's Declaration of Spiritual Independence" by Mrs. Preston Weinert and "Paul's Gospel of Liberty" by Mrs. Guy Jenkins. Others present were Mesdames Ernest Griffith, Vernon Henderson, Henry Smith, Jess Owens, Alvin Bennett, H. Weinert and Miss Alma Josselet.

The Zone Meeting of this district will be held at Leuders on August 30 and all women of the church are urged to go, and asked to take a covered dish, meats or vegetables.

Mr. and Mrs. Ammon Petty, Evelyn, Edwin, Paul, Dorothy and James of Clyde were week end guests of Mr. and Mrs. M. L. Medley and they enjoyed a family reunion. All children and grandchildren were present except Mr. and Mrs. Everett Medley and sons.

**Called Meeting of Weinert Matron's Club**  
The Weinert Matrons Club met in the home of Mrs. R. H. Jones Monday August 22 at 4:15 for the purpose of attending to some important business. Two new members were received Mrs. H. T. Sullivan and Mrs. Elmo Cure.

The first meeting will be the 6th of October in the president's home Mrs. R. H. Jones.

Those attending were as follows: Mesdames Vernon Henderson, Sam Bird, Jr., Henry Monke, Bailey Guess, Vern Derr, Henry Smith, Preston Weinert, H. Weinert and Miss LaVerne Burgess, the hostess Mrs. R. H. Jones and Mrs. Taylor; Caster of Kansas City, a former resident of Weinert and also a former member of the club.

Mr. and Mrs. Sullivan of Vernon stopped in Weinert Sunday for Sunday School at the Methodist Church. They were starting on their vacation and their children have not missed Sunday School in several years. Therefore the Weinert

people had them in their Sunday School.

**Surprise Birthday Party**  
Mr. Carl Stephens Sr. was given a surprise birthday dinner Sunday August 21st. A group of friends and relatives met with he and Mrs. Stephens and enjoyed the day together. Those who were present are as follows: Mr. and Mrs. Stephens, Mr. and Mrs. E. M. Stephens and children, Mr. and Mrs. J. J. Stephens and daughters, all of Knox City, Mr. and Mrs. T. J. Brock of Fort Worth, Mr. and Mrs. W. O. Sanders of Fort Worth; Mr. and Mrs. V. P. Stephens and sons of Sunset, Mr. and Mrs. Browning, Mr. and Mrs. Cecil Stephens and daughter of Munday, Mr. and Mrs. H. D. Stephens, Mr. and Mrs. L. Stephens, Mr. and Mrs. Jack Hunt and son of Weinert and the host and hostess, Mr. and Mrs. Carl Stephens Sr.

Mr. Jerry Kane of Munday was a guest of his parents Mr. and Mrs. J. K. Kane Sunday.

Mr. and Mrs. Ernest Griffith and son Clay spent the week end in Mineral Wells.

Little Janice Bird celebrated her second birthday last week in the home of her grandparents, Mr. and Mrs. Sam Bird Sr. of Olney. She was accompanied by her parents Mr. and Mrs. Sam Bird Jr.

**Weinert Gins Ready for Business**  
There has been several bales ginned at the gins in the last ten days. The cotton is needing rain very badly but farmers are not so concerned about wet worms as formerly. Quite a few poisoned for worms however.

Mr. and Mrs. H. Weinert, Mrs. Carl J. Jones and Miss Beatrice Weinert spent last Thursday in Baylor county, the guests of Mr. and Mrs. Claude Farr.

Mr. Wesley Harrison, Mrs. J. R. Balch, Mrs. Jackson and Miss Maudine Phemister of Seymour attended the Baptist revival Thursday night.

Messrs. Jack Rich and John Edwards attended services of the Baptist revival here Sunday from Seymour.

Mr. and Mrs. H. T. Sullivan are spending the week at A. & M. College. Mr. Sullivan is the agricultural teacher of the Weinert high school.

The Baptist meeting which has been in progress under the tabernacle closed Sunday with quite a few additions. The preaching was by Rev. R. J. Balch of Seymour and singing by Mr. Curtis Owens of Abilene with Mrs. Raymond Lisles at the piano.

**Family Reunion in Edwards Home**  
Mr. and Mrs. Bob Edwards were in town shopping Saturday. They recently had a home coming in their home East of town and the following relatives and friends were present: Rev. Vernon Henderson, Mrs. Annie Mae Medley, Mrs. Frank Ford, Mr. and Mrs. Frank West, Helen Rhae and Russell, Mr. and Mrs. M. L. Raynes, Bethlene and Felton, Mr. and Mrs. Paul Josselet, Mr. and Mrs. Louis Edwards and Robbie Earline, Mr. and Mrs. Brance Edwards of Bethel, Okla., Mr. and Mrs. Ed Hester of O'Brien, Mrs. Al Cousins, Haskell, Mr. and Mrs. A. B. Warren, Munday, Mr. and Mrs. Carl Warden and children, Mr. and Mrs. Will Parsons, Grandmother Strickland and Mr. and Mrs. Bob Edwards. A bountiful dinner was served at the noon hour.

Mr. and Mrs. Garland Davis and Don spent Saturday night and Sunday in Wichita Falls.

Mrs. H. W. Johnston is visiting relatives in Vailent, Okla.

Mr. and Mrs. Preston Weinert and children were transacting business in Munday Thursday.

Mr. Jim McClelland of Seymour visited friends in Weinert Sunday.

Mr. and Mrs. T. D. McKinney, Miss Anita McKinney and Billy of Goree were in Weinert Saturday night.

Mrs. Carl J. Jones of Houston who visited the last ten days in Weinert left for her home Friday by way of Waco where Mr. Jones met her and will accompany her home.

Mr. and Mrs. Taylor Carter and their two small daughters Bettye and Patsy of Kansas city were guests of Mr. and Mrs. Rufus Jones Monday. Mr. Carter is a former teacher of the Weinert High School.

Dr. and Mrs. J. F. Cadenhead were in Abilene Saturday to see Phillip Wayne off on the Sunshine Special with the Hardin-Simmons band to Washington. There will be three extra features in which Phillip will take part. He and Joe Dene Propst will sing "Home on the Range" for the president of the United States. Phillip will also sing over the radio and he and Rex Felker will do trick roping. The Hardin-Simmons band is sponsored by the Rural Mail Carriers of Texas on this trip and Phillip is a member of this band. They will be back in Texas Saturday, Aug. 27th.

Dr. and Mrs. E. E. Cockerell of Abilene and Mrs. Joe Thurman who is visiting Mrs. Cockerell from Sulphur Spring were visiting friends in Weinert Sunday.

**\$25.00 REWARD**  
Will be paid by the manufacturer for any CORN, GREAT CHRISTOPHER Corn Remedy cannot remove. Also removes Warts and Callouses. 35c at Oates Drug Store.

## Nitrate Found Aid To Fall Gardens

Tomatoes, peppers and eggplants that have survived the summer may be stimulated to new growth in the fall by supplying one to three tablespoons of nitrate of soda to twelve inches from the plant, J. F. Rosborough, horticulturist of the extension service of Texas A. & M. College, said in discussing fall gardens.

"Before starting to plow for the fall garden all weeds should be cut and removed. If they are turned under molding and heating takes place, which dries out the soil," Rosborough pointed out. "The soil should be plowed three to four inches deep and a coating one to three inches deep of well-rotted, dry manure may be added before rebreaking or harrowing."

A 6-12-5 or 5-15-5 commercial fertilizer, in regions of ample rainfall and light soil, will stimulate quick plant growth when applied at the rate of three to four pounds per 100 feet of row.

"Due to the poor seed-germinating conditions in the fall, it is advisable to plant thicker than in the spring. Seed with a hard coat such as spinach, should be soaked overnight before planting. It is a good plan to press the soil around the seed at the time of planting," he pointed out.

In the northern part of the State only quick-maturing vegetables such as mustard, radish, and bush beans, should be planted, Rosborough said. In the southern part of the State the fall garden should afford as great a volume and variety of vegetables as the spring garden.

Among the varieties he recommended for fall planting are White Icicle and Scarlet Globe radish, Shogin turnips, Stringless Green Pod bush beans, Nantes carrots, Detroit Dark Red beets, Bloomsdale spinach, Los Angeles lettuce, Tendergreen mustard and Golden Acre cabbage.

## Texas Offerings To New Industry Studied by Steel

Important recent trend in the steel industry, tending to put steel selling competition on more of a "geographical" basis than ever before, serve to focus new attention on Texas attractions for decentralizing industry, says the report of the All-South Development Council, Dallas.

C. E. Wright, editor of Iron Age, is quoted in the report as estimating that Southern steel mills

will enjoy wider markets geographically for their products under the new pricing system, and some producers may be forced to shift to Southern territory because of freight and wage considerations and water transportation will be employed more to offset costs.

He was referring to abandonment of the multiple "basing point" system for steel prices to consumers—in effect since 1924 when the Federal Trade Commission outlawed the old "Pittsburg plus" system, under which Pittsburg was the sole basing point. Recent sweeping changes involve creation of a large number of new basing points, so that proximity of mill to consumption point will for the first time become a price factor. Until now, steel producers have quoted prices f. o. b. the nearest basing point and adding the freight from that location to the delivery point, even when the producing mill itself was closer to the consumption point.

With steel producers, as Editor Wright says, being forced to "shift to Southern territory because of freight and wage considerations" under the new pricing system, the question of choosing the most advantageous locations has this industry carefully scanning the southern field and evaluating labor, market, taxation and transportation factors, the report points out. Aggressive, factual merchandising of such of these advantages as Texas has to offer, if combined with official reassurance of the state's receptiveness to new industry, could put Texas in the front rank of prospects for steel industry branch manufacturing and bring long-sought development of another of the state's many latent resources, the 100,000,000 long ton deposit of iron ore near Longview.

Thus Texas' stake in the new developments, seen as an important new phase of the general industrial decentralization movement, embraces not only more advantageous prices for steel products used in Texas building and manufacturing, but also the prospect of becoming a steel production point, the report says. The Longview iron deposit, known but undeveloped for more than 30 years, canalization of the Trinity River, and the damming of the Red River, making available a water route for Oklahoma coal, would be fitted together to make Texas steel a reality.

The Southwest's rapid growth in population and its accompanying strong market for steel for home, factory and business building would seem to justify location of steel-producing mills as near this active market as possible to take advantage of the new competitive situation, the report says.

**Return From Visit To South Plains Section**  
Mr. and Mrs. G. S. Medford and Mr. and Mrs. W. A. Fowler, and children returned this week from a several days stay in the Plains country, where they visited relatives and friends at Brownsville and Levelland. Mr. Medford stated that crops in that section were somewhat later than here, but were looking good.

Dr. J. F. Cadenhead was a visitor in Haskell Friday.

Planning Fastest Rodeo in The Southwest

That the annual rodeo, September 3, 4 and 5, will be one of the fastest and best ever staged in the southwest has been voiced by the committee who to date have made strides in round-up and rodeo events...

September 3, opening the show, has been designated as the day, hundreds of riders from all over the southwest are expected to participate on that day. The rodeo will be held at the new arena...

As the regular rodeo events, roping, bronc riding, team roping, bronc riding, team roping, bronc riding, team roping, bronc riding, team roping...

and grass persist in your gravel driveways, give the ground a good watering with the garden hose and make a liberal amount of...

Sheep Sense—More Farm Profits

By T. C. RICHARDSON, Secretary and Breeder-Feeder Association. Present conditions in the wool market are favorable for starting a farm flock with a comparatively small investment...

Farms with ample feed and small grains for winter pasture need only fences, water and shelter to handle a farm flock. Some have found aged bred ewes profitable as a beginning since they offer a quick return in both early lambs and a wool clip...

If open ewes are bought off the range and placed on comparatively luxuriant feed on the farm they will usually breed readily in a few weeks. The change from short feed to good feed is equivalent to "flushing" to encourage breeding...

Ewes from three years of age upward, if not badly "broken-mouthed" or unthrifty for other reasons, will raise more and better lambs than the more expensive two year olds which the range sheepman prefers because of their youthful vigor and ability to withstand the vicissitudes of range life...

Consumer Income Off 22c On Dollar From A Year Ago

During the month of June the "real income" of Mr. and Mrs. Average Consumer was one cent on the dollar less than in May and 22 cents on the dollar lower than in June, 1937...

The decline in cash income in June was one cent on the dollar from that of May. Cash outgo remained unchanged. June cash income was down 25 cents on the dollar from the same month of a year ago...

"Just as general consuming capacity experienced no real drop until after the peak of business activity had been passed last year," the consumers' study explains, "budding reveal may not be quickly reflected in increased ability of consumers to buy goods and services..."

Texas Good Roads Association Plans State Fair Exhibits

An elaborate exhibit will be placed in the Educational Building by the Texas Good Roads Association as a special feature of the Golden Jubilee Celebration of the State Fair of Texas...

Datus E. Proper, executive vice president of the association, will be in charge of the exhibit. The exhibit will have as its purpose a plan to show good roads of the state and efforts being made to promote better roads...

Full details on the exhibit have not yet been worked out but it is expected that plans will be completed at the next monthly meeting of the executive committee of the association during August...

U. S. Cotton Crop Record Was Set In 1937, Bureau Says

Ginnings of cotton from the 1937 crop totaled 18,252,075 running bales, an all time high, according to a U. S. Census Bureau report. The previous record was set in 1926 when 17,755,070 running bales were ginned...

Behind The Scenes in American Business

(Editor's Note: The information contained in this weekly summary of happenings in the world of business and industry has been obtained from sources we consider reliable but is not guaranteed. Opinions and forecasts are based upon careful analysis but are subject to change without notice.)

NEW YORK, August 15.—BUSINESS—Prices in retail stores registered the smallest monthly decline during July since September 1937, when a downturn began that has lowered average retail prices nearly eight per cent.

CLOSE SHAVES — Men with whiskers, who use more than a billion and a quarter razor blades every year, according to the latest Department of Commerce estimate will be interested to know that the tax collector is nipping them, too. One blade in ever ten purchased by bewhiskered brethren — there must be about forty million of them — goes to the tax collector in the form of hidden taxes.

FOREIGN EXCHANGE — European cables bring rumors of another impending financial crisis in France and hint at further devaluation of the franc. To bankers, foreign exchange is a fascinating subject, but to the average layman it's all Greek. That makes currencies fluctuate? There are many factors of course, involving confidence in a government's political and economic stability...

for 500,000 American dollars in the money market. Just as at an auction, his bidding tends to boost the "price" of dollars. English papers that night will read, "Dollar rises" while American papers at the same time will read, "Pound sterling declines." That's one reason why France, which has imported more goods than she has exported every year except two since 1920, has had a gradual decline in the value of its franc.

THINGS TO WATCH FOR—Milk that will keep sterile and fresh at room temperature for as long as four months; a little hydrogen peroxide and potassium iodide is scientifically "cooked" into the milk, without affecting its taste. A car automobile for use in sailing, fishing, wrecks, harvesting fish, finding wrecks, harvesting shellfish. An acid treatment for opening the sealed "pores" of oil wells, thus obtaining a greater yield of oil. An "auto started agitator", which automatically jiggles the throttle while the engine is being started.

INDUSTRY TWISTS — It requires one and two-thirds pounds of livestock to produce a pound of meat for the dinner table. A ton of iron can be stored in a container having a capacity of four cubic feet, but a ton of aluminum, which weighs only a third as much as iron, needs more room. To store a ton of aluminum, the container would have to have a capacity of 11.6 cubic feet. Nearly one-half of the men hired by the steel industry during 1936 and 1937 had high school or college education, compared with only one-fourth who had such training among those hired in 1929. It takes 35 to 50 hours of labor to harvest 15 bushels of wheat with a sickle and a combined mechanical harvester-thresher does the job in only 45 minutes. There is one mile of railroad for every 12 square miles of land area in the United States, but only one mile of track to every 99 square miles in the rest of the world.

HEADLINES IN NEW YORK—Agriculture Department forecasts 1938 corn crop at 2,568,221,000 bushels; compares with 1937 crop of 2,644,995,000 bushels; Wallace sees no need for producer referendum on quotas. Cotton crop of 11,988,000 bales forecast; 1937 crop was 18,946,000 bales. Farm marketing receipts off 12 per cent in first six months of 1938 from like 1937 period. U. S. Steel Corp. operating rate drops in July. Machine tool orders expected to gain in August. Japan again sends gold to U. S.; shipments here total \$352,800,000 since March, 1937. Russia and Japan sign border treaty. New type wheat developed in England; it is rust resistant and able to withstand heavy storms because it grows short. Federal Housing Administration operations hit record in July. Continuation of business upturn predicted by Consumers' Goods Industries Committee based on reports from key companies in these industries.

Hubert L. Watson of Haskell, who received the bachelor of laws degree at The University of Texas in June, ranked in the top scholastic bracket of his class, Dean Ira P. Hildebrand announced last week from Austin.

May we take this means of expressing our deep and sincere appreciation for the many acts of kindness shown us in the loss of our father. Especially do we appreciate the many deeds of kindness shown by his Sunday School class and the ministers of Haskell and the medical doctors, also. Our grateful appreciation and thanks for the many beauty floral offerings. May God bless each of you. Mrs. Bessie Graham, Mrs. Velma Kemp, Mr. Carl Courtney, Mr. Ray Courtney.

Threading needles is a lot less trouble if you cut the thread on a bias instead of straight across.

CARD OF THANKS

Hubert L. Watson of Haskell, who received the bachelor of laws degree at The University of Texas in June, ranked in the top scholastic bracket of his class, Dean Ira P. Hildebrand announced last week from Austin.

\$25 Reward!

Will be paid by the manufacturer for any Corn, GREAT CHRISTOPHER Corn Remedy cannot remove. Also removes Warts and Callouses. 35c at Oates Drug Store.

Texas Patrolman Earns a "Reward"

AUSTIN—It was only one of a Texas Highway Patrolman's duties but Patrolman John Lowry has received extra dividends for help he gave to a stranded family of motorists near Henrietta over 18 months ago, state police officials related today.

The officer found the family—father and four small children—in their stalled, dilapidated automobile on a highway near that Northwest Texas town a year and a half ago. The family was hungry, without funds, in ragged clothes and had no fuel for their conveyance. Patrolman Lowry arranged for the necessary supplies and sent them on their way.

Eighteen months later a man and four children riding in a new automobile stopped the officer as he rode his motorcycle along the same highway. It was the same family whose misfortunes had been reversed since the first meeting.

WEINERT GET-TOGETHER POSTPONED UNTIL FRIDAY

The Weinert Get-Together had to be postponed until Friday night September 2. Come patrons of the school at eight o'clock and enjoy the games, entertainment, and refreshments. There will be no admission charges.

# SOCIETY

## Extension of Hayes Family Held in Haskell on August 1

A reunion of the Hayes family was held in Haskell beginning August 1 and lasting for two weeks. Relatives came from various cities in Oklahoma and Texas. This was a very happy occasion, marking the first meeting of the twelve families and others in twenty-three years. The parents, Mr. and Mrs. G. L. Hayes of Oklahoma City, Ala., are both deceased. All members of the immediate family except one sister, Mrs. Frank Krutchen of Oklahoma City, were in Haskell for the occasion. Mrs. Krutchen was ill and could not be here.

Each afternoon and evening, a family gathering was held in the homes of the children. Mr. and Mrs. Willy Qualseton entertained the group Tuesday night. Sunday, Mr. and Mrs. Clarence Burton were host to the group in their home, where pictures were taken, songs were sung, and a watermelon feast on the afternoon. Mr. and Mrs. Felix Peterson, intimate friends of the Hayes family, entertained them with an ice cream supper. Many other entertaining features were given for the visitors during their stay in Haskell.

Those who attended were: Robert Hayes, Wichita Falls, Texas; Mrs. Lena's Forest and son, Hoyt, Oklahoma; Texas, Mr. and Mrs. Robert Poovey and children, Robert J. Cecil and Mabie, Houston, Ala.; Mr. and Mrs. Lewis Hayes and son, Terry, Haysville, Ala.; Mrs. Verna Stone, Haysville, Ala.; Mrs. Ruby Perkins and son, Jerry and Chester, East Gibson, Ala.; Mr. and Mrs. Marvin Forest and son, Buddy, Oklahoma; Texas; Mrs. Earline Forrest, Fort Worth, Texas; Mr. and Mrs. G. G. Burton and children, C. G. Vermye and Maxine; Mr. and Mrs. W. W. Qualseton and daughter, Wynne; Mr. and Mrs. Charlie Qualseton and daughter, Sue; Mr. and Mrs. Claude Jennings and son, Claude Jr.; Mr. and Mrs. S. M. Hayes and children, Lorena, S. M. Addie, Lee and Carl; Mrs. M. and Mrs. Wilma Hayes and son, Kenneth and Percy; Mrs. Christine Tidwell and son, Leroy.

Mr. and Mrs. Charlie Childress and children, Peley Ann and Charles Clyde; Mr. and Mrs. Dorsey Chapman; Mr. and Mrs. Clavin Norman; Mr. and Mrs. Melvin Norman, Tulsa, Texas; Mr. and Mrs. Ed Roberts; Mr. and Mrs. Malvyn Miller; Mr. and Mrs. Dennis Wagon; and Mrs. H. M. Bishop of Santa Anna, mother of Mrs. S. M. Hayes.

## Woman's Missionary Society of First Christian Church

Mrs. Courtney Hunt and Mrs. J. M. Glass were hostesses for the July and August meetings of the W. M. S. of First Christian church. Mrs. M. H. Post was leader for the July program at which time Mrs. Murray Johnson, Mrs. Pease and Mrs. A. A. Bradford started on a new year's study centering our attention upon multitudes of people "In Our Cities and In The Land of India."

Mrs. Guy Collins leader for the August program gave as her devotional, "Christ Lament Over The City." Mrs. Wayne Koonce and Mrs. Pete Cooper gave as an informal conversation "So We're Going to Study the City." Mrs. R. O. Pearson discussed "The Soul of the City." Gifts of linen were brought for the Jubilee Power House at Dallas and seventy five pairs of pins have been knitted the past week for the home.

## Tuesday Bridge Club Members Meet With Mrs. Bryan

Members of the Tuesday Bridge Club met with Mrs. Marvin Bryan this week. Zinnias were used as decorations in the entertaining room. High score prize was won by Mr. Fred Robertson. The club is in fine shape and will meet again on Wednesday, August 12th. Mrs. Bryan was served by Mrs. Ernest Kithrough, French Robertson, T. W. Williams, Jack Minkie, Clay Smith, Buford Cox and Ralph Duncan.

Mr. and Mrs. J. D. McClaran of Muskogee were visitors in Haskell Tuesday. Mrs. McClaran accompanied a sister who has been visiting her in Muskogee while Mr. McClaran spent several hours entertaining business in Haskell.

## Miss Frankie Mae Brooks

Friday evening Miss Frankie Mae Brooks became the bride of Henry Atkinson in a simple ceremony performed at the Methodist church. The Rev. R. N. Haskell officiated. The bride was Miss Frankie Mae Brooks, Lena Bell Kemp, Janet Smith, Bess English, Mr. and Mrs. Latham Williams of Paducah, Mr. and Mrs. Dick Atkinson of Muskogee were present for the ceremony.

Mrs. Atkinson was educated in Haskell public schools and has been employed by various business concerns of this city. Mr. Atkinson is the owner of the Clover Farm Store and has been in business in Haskell since coming here from Muskogee a number of years ago.

## Immediately after the ceremony the couple left for a wedding trip to San Antonio and Dallas.

## "Hot" Party Is Held Wednesday Night

Friends of Miss Elsie Ghobson were entertained Wednesday night with a "hot" party. Guests came dressed accordingly, wearing sun bonnets and straw hats. The setting for the party was the garage decorated with sun flowers and johnson grass. After an evening of games picnic lunches were served in individual paper sacks with soda pop from cans of cracked ice. The menu included: Misses Mary Eleanor Dugg, Gayle Roberts, Helen Mabie Baldwin, Frances Fouts, Anita Jo Sumner, Helen Ballard, Louise Peterson, Ella Mae Watson, Marvina Post and Jean Conner. Mrs. Frank Baldwin, Tom Clifton, George William Fouts, Artie Pappan, Winton Watson, Gene Rogers, R. C. Couch, Buster Ghobson, Paul Kuester, Virgil Meadows Jr. and Robert Wheatley.

Local Representative Attends SPCA Training School

J. V. Hudson, local representative-in-charge for the Standard Production Credit Association attended a two day employee training school for Production Credit held in Muskogee August 21 and 22. The meeting was in charge of J. L. Hill Jr., secretary-treasurer of the association, which serves eight central West Texas counties.

## BANKS WILL OBSERVE LEGAL HOLIDAY SATURDAY AUG. 21

Haskell banks will be closed all day Saturday, August 21st, as required under the state election law. Merchants and all other persons of the bank are requested to arrange their banking business accordingly in order to avoid any inconvenience.

## CHURCHES

100 WOMEN WANTED

Mrs. C. A. Bickley will address the ladies of the Methodist Sunday school next Sunday morning. Mrs. Bickley is the director of the spiritual life department of women's work of the Northwest Texas conference. She addressed a large crowd of women on Thursday evening and is to hold several more special women's meetings during the revival. One hundred women are expected to hear her at 9:45 Sunday morning.

## Brief News Rochester Items From

### New High School Finished

Open house was held at the new high school last Monday afternoon from four o'clock until ten o'clock that night. Mr. B. H. Vaughn, the superintendent and the members of the coming school year showed the people through the new building and also through the old high school building, that has been remodeled and made into a grade school.

The people of Rochester are very proud of their new school.

Choosing Materials and Colors  
Insures Long Wear for Child's Clothes

Specialist in Clothing  
Dora Russell Barnes, and ragged it makes him lose self-respect.  
Selecting Materials  
In planning for these little garments we want to think of attractive, appropriate, easily laundered and inexpensive materials. In selecting the materials the following points should be observed: First, select a material which is fast in color. It may be plain, checked, figured or small plaid. Small prints and checks look fresh longer than plain materials. Gingham, percales, broadcloth, chambray, calico, Devonshire, romper cloth, kindergarten cloth and prints are all good for dresses and suits. Voile, batiste, dimities and dotted swiss are good materials for their best dresses. In silks, crepe de chine, pongee and flat crepe make lovely dresses. Challie, wool crepe, albatross and jersey are good in wool and wash well. Challie is one of the best.  
Color offers a field in which the child may have its wishes granted. Most children have their favorite colors, and the frocks that conform to them are dear to their hearts. At no time can more color be worn than in childhood, so select different colors for different dresses and suits for their wardrobes. Remember that color effects their happiness. One little girl expressed it like this: "I love to wear pink; it makes me feel so happy." Let the child choose some of her favorite colors.  
Simple lines are the attribute of good taste. A child being overdressed is worse than being underdressed. In choosing the style of garment it is well to keep the individual child in mind. Verticle lines add height and will make the roly-poly child look less round; on the other hand horizontal lines will make the tall, slim, angular child appear less tall. For the former type a straight one-piece dress with bloomers will be good; for the latter type a smocked dress with fullness over the chest and shoulders and a flare to the skirt will be good. Or a dress with a belt may be used. Do not attempt to put anything on the child that is out of proportion.  
Simple Trimming Best  
Trimming for the little frocks should be simple. A little touch of handwork as smocking, cross-stitch or some other simple decorative stitch gives a characteristic individual touch to the garment. Rick-rack braid and bias binding can be used very effectively.  
The best pattern is the one most easily made, most easily put on and taken off, best suited to garments worn under it and most easily laundered.  
Raglan sleeves are more comfortable than any other type; they allow for growth. A kimono sleeve is comfortable if short. Set-in sleeves are the most difficult to make, but are good. Sleeves should be loose and well fitting to permit active exercise.  
Both dresses and bloomers should be cut long enough to allow for wide tucks and hems to be let down as the child grows. Leg bands and waist bands of cloth are much more desirable than elastic. Elastic bands hinder circulation, frequently cause leg ache, make the child nervous and irritable.  
Fastenings and openings should be simple, large enough and located so that the child can take clothing off and put it on easily.  
All articles of clothing, undergarments, panties, bloomers, trousers, etc., should be sufficiently deep in crotch to insure comfort. Have roomy armholes, generous seat and wide crotch. Well-cut underwear gives a better line to the frock over it. Undergarments made in one piece hanging from the shoulders are preferable to two-piece garments.  
Hose supporters should be selected with care. If they hang from the shoulder the pull should come toward the neck rather than the shoulder, round shoulders are likely to develop. If supporter is attached to waist, attach it at the side so that one clasp is toward the front of the stocking and one toward the back, in order to equalize the strain. Never fasten supporters to the front of the waist, for stooped shoulders are likely to result.  
Ribbed hose are good and wear

SAMPLE BALLOT

- I Am A Democrat and Pledge Myself To Support The Nominee of This Primary.
- For Lieutenant Governor: Pierce Brooks of Dallas County, Coke R. Stevenson of Kimble County
- For Attorney General: Gerald C. Mann of Dallas County, Walter Woodul of Harris County
- For Associate Justice of Supreme Court: Richard Critz of Williamson County, W. H. Davidson of Jefferson County
- For Judge of Court of Criminal Appeals (Unexpired Term): Harry N. Graves of Williamson County, James A. Stephens of Knox County
- For Railroad Commissioner: C. V. Terrell of Wise County, G. A. Jerry Sadler of Gregg County
- For Commissioner of General Land Office: William H. McDonald of Eastland County, Bascom Giles of Travis County
- For Sheriff: Giles Kemp, Olen Dotson.
- For Assessor-Collector: Mike B. Watson, M. E. (Elgin) Carothers
- For Commissioner, Precinct 2: I. A. Leonard

Traffic Casualty  
Picture Remains Dismal In State

Texas' traffic casualty picture remains dismal in spite of regular monthly decreases in death tolls, state police reported, as they watched the July records rise to 139 dead.  
While there has been a saving of 145 lives in the first seven months of this year compared with 1937 figures, traffic experts of the safety department declared that ruthlessness and recklessness have snuffed out the lives of 909 people on Texas highways since Jan. 1.  
Because of holiday and vacation travelers causing crowded conditions and additional traffic hazards during the month of July, there was a predicted increase in deaths and injuries, but the 1938 toll fell short of the July, 1937, death rate by 15. Still, the officials pointed out were unnecessary and could have been avoided had drivers followed simple rules of safety.  
Cities are showing improved accident records as only 38 deaths occurred on city streets last month. There were 92 laid to open highway traffic. Intensified enforcement, educational campaigns and publicity programs were given by state officers as the reason for the lowered traffic losses in cities. Similar activities are adopted for decreasing open highway crashes. However, higher speed limits bring about more serious collisions, police said.  
State traffic recorders said that 60 of the 139 dead lost their lives in accidents involving two or more vehicles. Two were killed riding bicycles. One lost his life in a horse-drawn conveyance and another died after his car struck livestock on a highway. Six were killed in railroad crossing crashes.  
Heavy financial losses and suffering were seen by police in the reports showing that 1,454 persons were injured in July accidents, many slated to die from their hurts.  
Alfred Hartsfield left for Stamford this week where he has accepted a position.

Mr. and Mrs. Pledger Gilkerson and daughters of Temple have returned to their home after a visit with Mr. and Mrs. Joe Maples.  
Leroy Onnel left for Midland Wednesday where he has accepted a position with Perry Bros. of that city.

Time for Planting  
Fall Gardens; Not Too Late for Beans

Already the time has arrived for the beginning of work for fall and winter gardens. Where gardens have been continuously cultivated preparation for fall planting requires much less of both time and labor than when weeds and grass have been continuously cultivated. In the latter case the first step is to clear off weeds and grass. The ground cannot be put in proper shape for planting without their removal; and if it could, nothing could thrive because of the heating of turned-under grass and weeds.  
As a rule whenever we find such neglected gardens the gardeners are termed thriftless. But surely no one but industrious gardeners would be willing to do the extra work it requires to shape such gardens for fall planting. No matter how much horse labor is employed there must be a lot done with out hands.  
True it is easier to uproot grass and weeds with a plow than to cut it all with hoes, then rake it up, so the best plan I know is to first break deep enough to uproot grass and weeds and run section harrow over it if practicable. If not, use gee-whizz to pull grass out and leave in pile or windrows. Then with pitchfork throw it out—not over the fence, but next to the fence on inside of garden. Pack it closely and leave it to smother grass and weeds now growing there and to be rotted by spring so it can be turned back to enrich the soil.  
After this it is better for a ram to fall before further work is done, but with extra labor it can be done immediately.  
Pole beans for fall use should have been planted in July, but as a rule August planting of Kentucky Wonder will do well. White creaseback, being a few days earlier, are more adaptable for August planting.  
Most of bush snap beans make well planted in August. Other vegetables that are in line for August planting are beets, carrots, Chinese cabbage, Swiss chard, tender greens, roasting ear corn, tomatoes, turnips and mustard. For main crop we prefer late August or early September for the two latter. And for rutabagas we prefer planting in beds in a moist, partially shaded location and transplanting later, setting plants deeply in the ground. For cabbages and turnips a loamy plot near a creek or branch is to be desired for fall crops unless one is able to water gardens. We get earlier tomatoes, too, by setting suckers from old plants than from planting seed at this season.  
It must be remembered that fertilizer is needed for all gardens as well as for spring, and more of it. Special formulas for vegetables should be used, but when available well-rotted manure cannot be used too liberally when broadcasted and well mixed with the soil.  
Seed should be planted deeper than in spring—and more liberally—deep enough to come in contact with moist soil, and the soil firmly pressed after planting. And whatever plants are set should be set deeply, preferably in a furrow, and the earth filled in from each side.

Wheat Loan Plan  
of Government Is Assailed By WTCC

The agricultural board of the West Texas Chamber of Commerce at a meeting in Abilene Monday night opposed the formula announced by the Government for making wheat and cotton loans as "discriminatory to West Texas producers," and voted to renew activities of the organization in behalf of the domestic allotment plan for agriculture.  
"We assert that the formula for making wheat loans to our farmers is unfair and discriminatory to our wheat producers," resolution adopted by the body stated. "This loan, we believe, is not being made in accordance with the provisions of the Agricultural Adjustment Act of 1938, wherein the Secretary of Agriculture is charged with the responsibility of making wheat loans from 52 per cent to 75 per cent of parity price, which price we understand to be \$1.14. The loan, however, in accordance with recent regulations is being made on basis of varying specific loan prices at different concentration points, less freight and handling charges."  
Texas Loan Base Lower  
Texas maximum loan base is lower than the base for other States, it was said. In addition, West Texas farmers will be further penalized by "freight rates and handling charges in excess of those paid by producers in other regions," WTCC officials declared.  
"Should the wheat loan be made on basis of a certain per centum of parity, as is authorized by the act, all producers would get the same loan, grade being equal, but as the loan is authorized, our wheat producers stand at the foot of the list in the amount being made available. We urge that this formula for making wheat loans be protested, and that the loan be made uniform and equal on the farm to all wheat co-operators," the resolution stated. The board also urged that "cotton loans be made on a basis so that cotton co-operators everywhere will receive the same loan on basis of same grade and staple."  
Indorsing the domestic allotment plan the board said, "with West Texas leading the country in the economic production of cotton and with present regulations and policies stifling our natural advantages we think it is vital for West Texas to inaugurate concerted action to remove the present objectionable barriers to our agricultural development and we, therefore, recom-

Vote For  
G. A. Jerry  
SADLER  
For  
Railroad Commissioner

Qualified, and will render service that is fair and impartial.  
Vote for Jerry Sadler, is a Vote against professional Politicians, one that has office for more than 50 years and is now near 80 years old.  
Vote for Jerry Sadler, is a vote for the average man's interest and will down rule of the Special Interest, who seek office at any cost.  
Jerry has lead a clean Campaign. He is Young, Honest, Sober and a Christian man well qualified to do the job which he seeks.  
Jerry's opposition is an Old Man with more than 50 years in office, has attempted to get the office, from the Governor elect on down. His employee Mr. Leroy Onnel according to the following affidavit offered \$1,000 in cash for a False affidavit to scandalize Sadler's name, which is evidence of the kind of campaign Jerry People are waging. Help us keep the Political Offices clean. Vote for Jerry Sadler.  
An Affidavit in answer to the FALSE SCANDAL SHEET, which is being sent by the Terrell Forces. READ IT and VOTE FOR CLEAN HONESTY in every Form of Government. JERRY SADLER is the man for RAILROAD COMMISSIONER.  
Kilgore, Gregg County, Texas  
August 8, 1938

WHOM IT MAY CONCERN:  
My name is Charles Martinson, Junior. I am a resident of Kilgore, Gregg County, Texas, and I am the proprietor of the Fountain Bar, located in the Hotel Building, Kilgore, Texas.  
Previous to assuming ownership of the Fountain Bar, I was employed in the Fountain Bar by R. D. (Fat) Adams. While employed by Adams, I was offered in charge of the business and I had full access to all of its books and records. I became intimately acquainted with the affairs of the Fountain Bar and know that R. D. (Fat) Adams was its SOLE OWNER.  
I was surprised, therefore, when approached on August 1, 1938, by one Leroy Garrison, well known to me to be in the employ of C. V. Terrell, candidate for railroad commissioner; the said Leroy Garrison asked me to make a sworn statement to the effect that G. A. Jerry Sadler had at one time been connected with R. D. (Fat) Adams in the ownership of the Fountain Bar. Knowing this to be false, I refused to make a false affidavit and become a perjurer. The said Leroy Garrison insisted that I make such a statement and finally offered me \$1,000 (ONE THOUSAND DOLLARS) in cash for same, whereupon, I decided that I leave my establishment, and I have not seen him since.  
I make the above statement of my own free will in order that the people know the truth regarding the ownership of the Fountain Bar.  
L. E. ROBINSON, Witness. CHARLES MARTINSON, JR.

One Year in advance \$1.50

NOTICE TO THE PUBLIC—Any erroneous reflection upon the character, reputation or standing of any firm, individual or corporation will be gladly corrected upon being called to the attention of the publishers.

The dividing line between news and advertising is the line which separates information for public interest from information which is disseminated for profit.

Perishing Penmanship

Another thing to worry about! The cable burns with a dispatch from a London historian who announces that the art of handwriting has been on a steady decline for four hundred years and may be expected to pass in its checks any moment now.

Beauty Hazards

Every calling has its hazards. Comes the disclosure from a California doctor that there's even an occupational ailment peculiar to the profession of being a bathing beauty.

Poverty In Costume

It's pretty hard to overtake a fast-traveling gypsy on a capricious route, but it has been done. The dilemmas and demands of a complex industrial society, which have been on the gypsy's heels for some years now, have finally overtaken him and got him down.

Japan's Armies Face A River of Gold

One way to get an idea whether Japan will finally whip China is to follow the troop movements as reported in the daily papers. Another way is to keep an eye on the gold movement.

Sleep-Producing Medicine Should Be Used Carefully

"Thirty-five years ago, a German scientist produced a derivative of barbituric acid possessing hypnotic qualities. For years it was considered as non-habit forming and harmless and the type of drug was sold freely over the counter without a doctor's prescription.

Ernest Marion

I have made a desperate effort to see each of you personally and solicit your vote, but if I have not seen you, I at this time earnestly solicit your vote and influence on next Saturday August 27th, 1938.

Political Announcements

The Free Press is authorized to announce the following candidates for office, subject to action of the Second Primary Saturday, August 27th.

her gold supply. If the armies can win a complete and final victory before bankruptcy arrives, well, and good if they cannot, Japan faces utter ruin.

Despite all of the thimble-rigging and phengaling which most great governments have indulged in, in the field of economics, it does seem to be true that there are a few fundamental economic laws that in the long run have got to be obeyed.

There are all kinds of expedients by which the evil day can be postponed, of course. Some of them work beautifully—for a time. But the reckoning has to be paid sooner or later.

W. M. Lees of the Whitman community brought the first bale of cotton to this city Thursday morning from this year's crop.

Mr. and Mrs. O. E. Patterson made an auto trip to Lubbock this week to visit relatives and friends.

Hon. Scott W. Key and family will move the first of the week to Waco, where they will make their future home.

W. J. G. Hall left Thursday morning for Burk Burnett to inspect the oil fields and may remain there if he can find employment.

Mr. and Mrs. J. M. Cook of east of town have received a card from their son Alvin that he had arrived safely in France.

Earl Odell of the local postoffice force left this week for a few days visit in Ranger and Ft. Worth.

J. C. Turnbow left this week for Brenham, Texas, where he has accepted employment in the Brenham Cotton Mills.

30 Years Ago—Aug. 22, 1908 Mrs. J. F. Thompson of Fort Worth is visiting her brothers L. V. and Hugh Smith at this place.

Miss Myrtle Newbrough of Chihuahua, Mexico, is visiting Miss Florene Couch. Her father is a Baptist missionary to Mexico.

Chas. Neathery is working with the telephone company at Graham.

Messrs. G. R. Couch, J. D. Tompkins and J. V. Kemp on Wednesday delivered to Eugene Mayfield of Stonewall 160 head of yearlings on a previous contract.

County and District Clerk J. W. Meadows left Monday for Galveston to attend the clerks' convention.

Jno. W. Smith of the northwest corner made a shipment of three cars of cattle to Fort Worth this week from this station.

Prof. Eiden of Hico was a proctor in our city this week. Mr. Eiden has purchased some real estate here and is making arrangements to build some houses.

Methodists of Knox City have raised funds for a \$10,000 church building in that place, and the cornerstone of the new building will be laid Thursday, August 27th.

Messrs. R. E. Sherrill, C. D. Long, A. H. Alexander, J. B. Baker, and J. E. Poole have been designated by the Commissioners Court as a committee to accompany County Judge Joe Irby to Thrackmorton where they will meet with the Commissioners of that county to discuss joint improvement of a road between the two towns.

The Comanche baseball team played Haskell a series of five games this week. Although we are unable to give the scores of each game, suffice to say that the Haskell team won three out of five, thus maintaining her "rep" in amateur baseball circles.

Misses Frankie Alexander and Oia Sprows are visiting the Misses Roberts in Wicket this week.

40 Years Ago—Aug. 27, 1898 Mr. J. F. Jones got up steam this week and ginned several bales of cotton from the new crop.

D. R. Couch and Miss Sammie Reeves went to Abilene Thursday. Judge Hamner has returned from an electioneering campaign in Scurry County.

Mr. R. J. Norman sold the first bale of cotton here this week, but got only 5c a pound for it.

M. Smith returned Wednesday from Fort Worth, where he witnessed the riding and roping contests.

We are told that quite a colony of farmers are coming this fall to settle and establish homes on the Wise county school land in the northwest part of the county. It is a fine body of land containing 17,712 acres.

Haskell County History

As Revealed by the Files of the Free Press 20, 30 and 40 years ago.

20 Years Ago—Aug. 24, 1918 Lieut. A. G. Rehmeier of Love Field, Dallas, visited Haskell several days last week and made two exhibition flights while here, which thrilled the large crowds who witnessed the performances.

S. S. Kouri, an oil operator of Wichita Falls, has leased about thirty thousand acres of land in the east part of the county and will put down a deep test for oil as soon as the derrick and other machinery can be placed.

W. M. Lees of the Whitman community brought the first bale of cotton to this city Thursday morning from this year's crop.

Mr. and Mrs. O. E. Patterson made an auto trip to Lubbock this week to visit relatives and friends.

Hon. Scott W. Key and family will move the first of the week to Waco, where they will make their future home.

W. J. G. Hall left Thursday morning for Burk Burnett to inspect the oil fields and may remain there if he can find employment.

Mr. and Mrs. J. M. Cook of east of town have received a card from their son Alvin that he had arrived safely in France.

LEGAL NOTICE

THE STATE OF TEXAS. TO THE SHERIFF OR ANY CONSTABLE OF HASKELL COUNTY. GREETING: You are hereby commanded to summon W. L. Smith and the heirs of the said W. L. Smith, whose names are unknown and the legal representatives of the said W. L. Smith, whose names are unknown and the unknown claimants or owners of the property herein described, to appear at the next regular term of the District Court of Haskell County, Texas, to be held at the Court-house thereof in the town of Haskell, Texas, on the 4th Monday in September, 1938, being the 26th day of September, A. D. 1938, then and there to answer a petition filed in said Court on the 5th day of August, A. D. 1938, in a cause numbered 4872 on the docket of said Court wherein Mrs. Sam T. (Mary G.) Chapman, B. C. Chapman, Allie Belle Smith and her husband, Clay Smith, are plaintiffs, and W. L. Smith and the unknown heirs of the said W. L. Smith, and the unknown heirs of said unknown heirs of W. L. Smith, whose names are unknown, and the legal representatives of the said W. L. Smith, whose names are unknown and also the unknown claimants or owners of the property hereinafter described, are defendants, the cause of action being as follows: That on or about August 1, 1938, the defendants entered upon the land described in said petition and dispossessed plaintiffs of such premises and have at all times withheld and now unlawfully withhold from them, possession of said land, to their damage in the sum of \$2500.00—Plaintiffs pray that they have judgment for title and possession of said described land in accordance with their respective interests to the same and have writ of possession. This action is brought as will to try title as for damages.

You are hereby commanded to serve this citation by making publication of such citation once in each week for four consecutive weeks previous to the return day hereof in a newspaper published in your county, but if no newspaper is published in said County then in the nearest county where a newspaper is published.

Herein fail not, but have you before said Court on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed same.

Witness, Roy Ratliff, Clerk of the District Court of Haskell County, Texas.

Given under my hand and the seal of said Court, at office in the town of Haskell, Texas, this 6th day of August, A. D. 1938. ROY RATLIFF, Clerk of the District Court, Haskell County, Texas. 4tc.

Falls in the bath tub account for many serious injuries. A simple and inexpensive precaution is a rubber mat for the inside of the tub.

Don't throw away the candles you use for decoration in the winter just because they have become soiled. They can be cleaned to look like new with a cloth saturated in alcohol.

CITATION BY PUBLICATION THE STATE OF TEXAS. TO THE SHERIFF OR ANY CONSTABLE OF HASKELL COUNTY. GREETING: YOU ARE HEREBY COMMANDED to summon Herick C. Johnson by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Haskell County, Texas, to be held at the Court House thereof, in Haskell, Texas, on the 4th Monday in September, A. D. 1938, the same being the 26th day of September, A. D. 1938, then and there to answer a petition filed in said Court on the 22nd day of August, A. D. 1938 in a suit numbered on the docket of said Court No. 5194, wherein Doyle L. Johnson is Plaintiff, and Herick C. Johnson is Defendant and said petition alleging Plaintiff and Defendant were married April 16th, 1916; Plaintiff was kind and considerate toward the defendant; that five years after their said marriage, defendant commenced a course of cruel and harsh treatment; that defendant often abused the plaintiff by opprobrious epithets without cause or provocation; that defendant is a man of ungovernable temper; that defendant on two different occasions attacked plaintiff with a gun; that without cause on the 10th day of August, 1937 defendant threatened plaintiff with a gun and told her he was going to kill her that plaintiff on the latter date left the defendant; that said marriage relations still exist between the plaintiff and defendant; that defendants action renders their further living together as husband and wife insupportable; that no children were born of said marriage; wherefore plaintiff prays the court that defendant be cited to appear and answer herein, and for judgment dissolving said marriage relations, and for costs of suit.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

WITNESS, Roy Ratliff, Clerk of the District Court of Haskell County.

GIVEN UNDER MY HAND and the Seal of said Court, at office in Haskell, Texas this the 23rd day of August A. D. 1938.

ROY RATLIFF, Clerk District Court, Haskell County. 4tc By Olive Sloan Deputy.

### Nature of Competition Vastly Changed From Former Days

#### Development of New Products and Raw Materials Added to Price Rivalry

Washington—Are our "giant" corporations holding down living standards by holding up prices, in an effort to make exorbitant profits? Has competition declined so that the production and distribution of goods needed for higher living standards is being hindered?

A study which has just been completed at the Brookings Institution found that competition is as real as in former days—perhaps more real. But it operates in a different way.

These charts indicate in general how living standards have risen since 1870, during which years there have occurred the greatest development of machine production and the growth of large corporations. The upper chart shows that, although the wholesale prices of manufactured goods were about 9 per cent lower in 1937 than in 1870, the weekly wage had increased more than 150 per cent. The lower chart shows how much a worker could purchase with his weekly wage, assuming that retail prices kept in step with wholesale figures; in 1937 it was nearly three times as much as in 1870. This increase came in spite of the fact that the length of the working week was reduced by approximately one-third during this period.

Manufacturers today compete not only in the pricing of their products, but also in the development of new products and new uses for raw materials. The result may be even more useful to the people as a whole than in the days when the prices of nearly all goods were fixed by direct bargaining in the market.

The making of prices over a large part of industry is vastly changed from what it used to be. The producer estimates in advance a price at which an article can be bought by an expanding number of people and then finds a way to turn out a product within that price.

Almost everyone is aware that this is the way automobile prices are set, and the study found that the three largest concerns in this industry have set the high water mark of competition thus far.

Today, it is almost impossible for so-called monopolies to keep prices unduly high in order to make big profits. Advances in physics, chemistry, and engineering have been so great in recent years that, whenever a corporation tries to do this, some one comes along with a satisfactory substitute at a lower price.

Previous studies made at the Brookings Institution indicated that the best method of passing on to the public the benefits of improved productive efficiency is by giving the consumer lower prices.

#### Policies of Many Corporations Are Examined

In the latest study, entitled "Industrial Price Policies and Economic Progress," specific inquiries were made into the policies of many manufacturing concerns to find out whether they were aimed in this direction. The study was made by Dr. Edwin G. Nourse, director of economic research, and Dr. Horace B. Drury, a member of the staff. It was financed under a grant by the Maurice and Laura Falk Foundation of Pittsburgh.

Big corporations since the World War have sought to effect economic

and promote efficiency, the study found. This is in contrast to the aim of combinations of a generation ago, which was chiefly to control markets, suppress competition and raise prices. Some of these older combinations were able to hold up prices for a time, but eventually such attempts broke down or aroused so much resentment that the combinations were dissolved by governmental actions.

The study did not find that the

percentage of the nation's business done by "giant" corporations has been increasing. Production by such large enterprises comprises about 40 per cent of the total, which is about the same percentage as obtained a generation ago.

#### Big and Little Companies Work Together

The study shows how big and little companies work together to the advantage of both. Large corporations are generally able to spend more freely to maintain competent technical and management staffs, and these companies have usually been in the front of price reduction.

But smaller concerns also benefit from this large-scale production. With larger concerns purchasing their supplies in large quantities and planning production far in advance, smaller companies which sell them supplies and raw materials are in turn able to plan production on the most economical basis. Many small concerns also find it easier to borrow money from local banks and other sources when they have contracts with large corporations.

Operation of industrial enterprises at their practical capacity is necessary if the nation is to have maximum production of goods, the report of the study says. Forward-looking price policies, constantly aiming toward giving the consumer more for his money, were found to be the most important factor in bringing about capacity operation.

The high level of employment which would come with such capacity operation would have far greater effect in raising living standards than any employment which the government could provide.

Since 1870, while our large corporations have been developing, the amount of manufactured goods which the average worker's weekly wage would buy was multiplied by two and a half. At the same time, the working week was reduced by about one-third.

### Farm Chemurgy Has Significance To Southern Farmers

Some pertinent observations on the present and future of farming in Texas are given by Victor H. Schoffelmayer, agricultural editor of The Dallas News, in an article in the current issue of Texas Parade.

"Probably the most significant movement destined to have a favorable effect on agriculture is that of farm chemurgy," writes Mr. Schoffelmayer. "Its aim is to provide new sources of income for farmers from sale of agricultural raw materials to industries. Since many of these raw materials are imported from abroad there might be employment for millions of acres of land now standing idle.

"Especially applicable is the chemurgic movement to Texas and the South because of the wide variety of farm products which the region may produce annually from cotton, corn, grain sorghums, rice and pines, to cattle, hides, wool, mohair, sulphur, natural gas, petroleum, lignite and limestone. All these might well be integrated in a comprehensive chemurgic program which will revolutionize Texas agriculture and balance its rural economy with new industries.

"Just as the past development of the state has been characterized largely by the growth of agriculture and stock raising, the next century will concern itself greatly with industry and manufacture. That does not mean agriculture and livestock will fall into decay. On the contrary, they can be greatly aided by wise planning which will encourage needed industries based upon the logical use of the products of farm, ranch, orchard and forest.

"The time is here for a realignment of all factors which bear upon the commerce of Texas whether at home or abroad. Economic forces set loose by the World War have reshaped international relations and embody a challenge for a broader approach to national and state planning.

"Loss in the last four years of approximately \$420,000,000 in outlets for the principal Texas crop may be traced to the steady alarming expansion of cotton culture in competing foreign nations. Similarly Texas, through-out the years, has lost foreign markets for its surplus wheat, cattle, lumber and grain sorghums.

"Low cost production of cotton, wheat and other grains, sweet potatoes and other sources of sugar and starch, of cattle, sheep and goats and their products, of pine and hardwood, of petroleum and natural gas, lignite and other cheap fuels, gives Texas an advantage

over high-cost states which alone should attract industries. Texas ideally fits into a program of steadily increasing domestic manufacture based upon agricultural raw materials.

"Texas to a large degree can avail itself of this new opportunity if it acts promptly. Many states in 'what is known as the 'deep South' have acted and today point to new chemurgic industries which utilize the cellulose of pine forests to make kraft paper of every variety and, perhaps, newsprint and ultimately may attract that Northern industry to the Gulf region. Other Southern industries are using the sweet potato to make starch of which the United States annually imports 300,000,000 pounds, still others recover turpentine, resin and pine oil from millions of acres of cut-over-land pine stumps.

"In the light of the research chemist and physicist and of the wide-awake industrialist seeking new cheap raw materials and markets for new products, the industrial development of Texas should steadily increase in accordance with market demand. Texas should play one of the leading roles in this new industrial drama because of its unchallenged possibilities to produce the raw materials heretofore enumerated. There is every reason that Texas will be in position not only to attract new chemurgic and related industries but to supply them in perpetuity with the raw materials they require.

"A Texas, Southwestern and mid-Western market embracing a population of some 25,000,000 can well absorb a large volume of such new goods as will come into existence from a closer union between agriculture and industry through science and research."

### ICC Official Asks Consolidation of Rio Grande Valley

WASHINGTON.—An Interstate Commerce Commission examiner has recommended the consolidation of the Denver & Rio Grande Western and four affiliated railroads for unified operation and management.

The affiliated companies are the Denver & Salt Lake Western, the Denver & Salt Lake Railway, the Rio Grande Junction Railway, and the Goshute Valley Railway.

The Denver & Rio Grande Western and the Denver & Salt Lake Western are being reorganized under Section 77 of the Bankruptcy Act.

The consolidation of the five railroads would be in line with the Commission's plan for grouping the nation's carriers. The Com-

mission's plan also would include the Western Pacific in system No. 18, but Examiner S. M. Jameson said the record before him was not complete enough to determine the question of merging the Western Pacific with the reorganized Denver & Rio Grande.

Mr. Jameson said holders of the Denver & Rio Grande's common and preferred stock had no equity, and that these holders not entitled to participate in the reorganization.

The Western Pacific and the Missouri Pacific each own 50 per cent of the Denver & Rio Grande's common stock. They also own small amounts of preferred stock.

Under Mr. Jameson's plan, the Western Pacific and the Missouri Pacific, along with other present stockholders, would be wiped out.

The examiner recommended that new voting stock be distributed to the present Denver & Rio Grande bondholders.

Mr. Jameson recommended a capitalization of \$154,000,000 for the reorganized company, compared with a present capitalization of well over \$200,000,000. Fixed interest charges would be \$2,276,699 compared with present fixed charges of \$5,835,39.

### TEXAS GOVERNOR HONORS ACTOR FOR FILM WORK

Just call him "Colonel!" That's Randolph Scott's new title, given to him by Governor James V. Allred of Texas for his part in glorifying the Lone Star State in Paramount's new epic, "The Texans," which will open next Wednesday at the Texas theatre. This is no mere honorary title, for by it Scott has actually become a member of the Governor's personal staff.

The actor was presented with his commission by Governor Allred himself, who flew from Austin to the La Mota Ranch, between San Antonio and Laredo, where the Paramount company was on location.

"The Texans" tells a story of life in the Lone Star State during one of its most dramatic and colorful eras, the decade immediately following the War Between the States. The plot concerns the struggles of a war-weary people to recover the control of their government from corrupt carpet-bag officials and to build a new life in the great cattle country of the Southwest. Besides Scott, the cast includes such popular players as Joan Bennett, May Robson, Walter Brennan, Robert Barrat and Robert Cummings. It was directed by James Hogan, who brought the Technicolor sensation "Ebb Tide" to the screen.

BOB HERKEN, Manager

#### SHERIFF'S SALE

THE STATE OF TEXAS County of Haskell.

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Haskell County, on the 9th day of August 1938, by Roy Ratliff District Clerk of said Court for the sum of Six-hundred and Thirty dollars and Thirty cents and costs of suit, under a Judgment, in favor of George Ruppert in a certain cause in said Court, No. 4717 and styled George Ruppert vs. Mary L. Morrison and husband J. F. Morrison, placed in my hands for service, I, Giles Kemp as Sheriff of Haskell County, Texas, did, on the 9th day of August, 1938, levy on certain Real Estate situated in Haskell County, Texas, described as follows, to-wit:

All that tract and parcel of land located in Haskell, Haskell County, Texas, and being a part of Out-Lot No. 83 which is a subdivision of the Peter Allen Survey, and bounded as follows:

Beginning at a stake in the West boundary line of said Block No. 83 which is 265 feet West from the Northeast corner:

Thence West 176 feet;

Thence South 135 feet;

Thence East 175 feet;

Thence North 135 feet to the place of beginning, and being the same line described in a certain deed now on record in the office of the County Clerk of Haskell County, Texas, in Book No. 129, pp. 119, of the Deed Records of said county, to which record reference is here made.

and levied upon the proper "of Mary L. Morrison and J. F. Morrison and that on the first Tuesday in September, 1938, the same being the 6th day of said month, at the Court House door of Haskell County, in the city of Haskell, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Mary L. Morrison and husband J. F. Morrison.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Haskell Free Press, newspaper published in Haskell County.

Witness my hand, this 9th day of August, 1938. GILES KEMP, Sheriff Haskell County, Texas. By Mrs. Pauline Kieke, Deputy.

Mrs. R. L. Mansell and sons, Robert of Wichita Falls and Roy of Chattanooga, Okla., have returned from a visit in Austin, Houston, Galveston and other points in the south.

## Importance of Dairy Industry Grows In State

Texas' growing importance in the dairy industry is strikingly illustrated in the new "MILK FACTS" booklet issued by the Milk Industry Foundation, New York. "MILK FACTS" shows that Texas with \$46,541,000 cash farm income from milk in 1937 heads the list of South Central states. Charts show that the United States is one of the ranking nations in the consumption of dairy products. With per capita consumption of fluid milk at 133 quarts a year, America tops all other countries except Switzerland with 232 quarts.

Annual per capita milk consumption in quarts for other nations is: Denmark—144; Czechoslovakia—136; Netherlands—120; New Zealand—112; Great Britain, France and Germany—92; Australia—88; Belgium—68 and Italy—28.

"Milk in one form or another, comprises over 25 per cent of the 1,500-odd pounds of food used each year by the average American," says the booklet. "It requires about 10 1-2 quarts of milk to make a pound of butter and 4 1-2 quarts to make a pound of cheese. Approximately 350 million new milk bottles are purchased annually."

The booklet contains pictorial charts and figures showing the importance of the milk industry to the country's economic picture. Diagrammatic charts illustrate how the United States utilizes its milk supply of some 48,777,000,000 quarts of milk a year. Fluid or fresh milk, which provides the farmer's highest cash return, accounts for 29.2 per cent of the country's yearly production. Creamery butter takes 31.6 per cent, farm butter—10.5 per cent, while 12.1 per cent of the milk is used on farms where produced. In making cheese 5.9 per cent of the total milk is used ice cream—2.3 per cent and canned milk—4.3 per cent, according to charts.

Another chart shows a breakdown of the distributor's milk dollar based on recent certified accountants' figures prepared for the New York legislature. This shows that 44.03 per cent of the dollar goes to dairy farmers for milk; 26.16 per cent to labor; 8.75 per cent for supplies—bottles, cases, trucking, etc.; taxes—2.24 per cent; depreciation—2.40 per cent; profit—2.98 per cent; salaries—less than 1-2 of 1 per cent.

"Within less than fifty years," says the booklet, "the production and utilization of milk have so increased in this country that today we are the greatest of dairy nations. Milk is our most widely used food. The farmer's largest source of cash income and the basis of an industry which for service and volume has few equals."

"Basic data about the nation's milk supply, the producers and the ways which create the supply, the distributor; whose safeguards and efficiency have made wide usage possible and the consumers of this 'most nearly perfect food' are of wide interest. Around 25 million cows are milked daily on three quarters of the nation's six million farms—more than 45 million quarts of milk are delivered to homes and stores. Milk, cheese, butter, ice cream and other dairy products create an estimated annual output of 3 1-2 million dollars."

"The statistical background for this vast industry of wide ramifications should lead to a clearer understanding of milk economics."

## Terrell Gaining Wide Support In West Texas Area

F. M. Robertson, Haskell attorney returned here Wednesday afternoon, following a tour of 17 surrounding West Texas counties in the interest of the re-election of Judge C. V. Terrell, present chairman of the State Railroad commission. As director of Terrell forces in a 20-county territory with headquarters at Abilene, Robertson during the last two weeks has visited hundreds of towns and rural areas, postponing his activities in the Haskell vicinity until this closing week of the campaign.

Conferring with local Terrell supporters Wednesday afternoon, Robertson declared that Judge Terrell's strength has shown tremendous gains since the first primary, and that he will carry West Texas by a record majority. He asserted independent oil men are 100 per cent behind Terrell, and that the present commissioner also has strong support of ranchers, farmers and thousands of housewives of this area.

"The oil men are behind Judge Terrell, because his stabilization program, resulted in higher prices for crude oil and brought tens of millions of dollars to West Texans," Robertson said. "Ranchers, farmers and housewives appreciate the freight and utility rate reductions by which Judge Terrell's administration saved millions of dollars for the shippers and consumers. Now that Judge Terrell has been called upon to play a prominent part in helping to provide the revenue needed for promised early payment of full \$30-per-month pensions for the aged, his re-election is of utmost importance to all Texans."

Judge Terrell, who won a commanding lead over each of his five opponents in the first primary, now has the active support of John Wood and R. A. Stuart, opposing him in the first primary, and has been endorsed by the nominee and practically all of the recent candidates for Governor.

## Science Conquers Diphtheria Threat In Childhood Age

"Few conquests of science have been so spectacular and complete as those relating to diphtheria. Science has firmly established the value of serum treatment in both its preventive and curative phases. However, toxin-antitoxin or its successor, toxoid for immunization and antitoxin for cure, are serums of which the general public is even yet not fully aware," said Dr. Geo. W. Cox, State Health Officer.

"As indicated, toxoid is the immunizing or preventive agent now actually employed. However, three or four months are required for the body to develop immunity. At that time the Schick test can be applied to determine the results of the preventive treatment. Children should receive diphtheria immunization as early as possible, preferably as soon as they are six months old. The necessity for this immunization is recognized when it is known that two-thirds of all deaths from diphtheria occur in the age group under six years."

"It cannot be too strongly emphasized that to deprive children of this protection science has made possible is to subject them to unwarranted and unnecessary hazards that can easily turn into a tragedy. Parental interest in immunization must be more widespread, if the Texas death rate from this disease is to be decreased from the 1937 total of 257. When a child has taken ill with diphtheria, antitoxin is the only treatment that will save its life. Also, to be effective, it must be given early in the illness and in large doses. Delay is usually caused by parents failing to realize that any sore throat may actually be diphtheria."

and from an excess of irrigation water and allows it to absorb air. The resultant organic matter adds humus. Large quantities of foreign flaxseed have been imported in recent years because of the decline of flax production in the country. It has always been grown as a spring and summer crop and never as a winter crop. Best yields to date have been obtained at Beville, Texas, where in 1935 Yellow Argentine flax yielded 34 bushels per acre and never fell below 19 bushels. Bison and Rio, an Indian variety brought to the Imperial Valley, California, some years ago and later introduced into the Texas Gulf Coast region, also have given exceptional results.

## Survey Lists 'One Crop Farming' As Problem In South

The editor of this paper has received copies of the recent report of the National Emergency Council, which tells why the South has become what President Roosevelt calls "the nation's number one economic problem." Copies will be available as long as they last to any one who desires them, at the office of this publication or at the office of the Farm Security Administration in Haskell. The report shows that the South's chief problem is caused by one-crop farming, and by southern farmers producing only one-fifth of the things that they eat and wear. In this connection, R. E. Skipworth, county supervisor for the Farm Security Administration, invites attention to the fact that FSA is promoting a program under which farmers financed by FSA work out a diversified plan that gives every member of the family work every day in the year. FSA also requires that each family which it finances grows first of all food for the family and feed for the livestock.

Under the usual program, the supervisor said, a cotton farmer has employment for only ninety days of the year, and the Farm Security Administration asserts that this is the chief reason that the average income of the southern tenant is only \$73 per person, for a whole year's work. The richest state in the South ranks lower in per capita income than the poorest state in other regions, according to the N. E. C. report, which shows how the one-crop system has affected all classes, not farmers alone.

**CARD OF THANKS**  
We take this opportunity of expressing our sincere thanks of appreciation to our many friends and neighbors for their kind words of sympathy and deeds during the illness and death of our darling papa and grandpapa. Especially do we thank those who were so nice to visit and cheer him in his suffering. Also those who untiringly set up and to Mr. Fuller for his service of securing those for that service. We thank those for the beautiful floral offerings. Thanks to Rev. Russell Cooney, to Mr. Floyd Gault for his service and for the beautiful songs. We assure you this kindness shall never be forgotten. May each of you find this same comfort and assistance in your time of need.—Mr. and Mrs. Jim Reeves and family, Mr. Afton Murphy and family, Mrs. Winnie Alexander, Mrs. Addie Fothergill.

## Curry Chapel

We are having some dry hot weather. Some of the farmers are poisoning their cotton for worms. Maize heading is going fine. Our meeting closed Sunday night with ten additions to the church and several reinstated. We had large crowds and some real good preaching. Rev. W. T. Priddy of Whiteface did the preaching, assisted by Rev. H. G. Hammer, the pastor. We were glad to have so many Weaver folks with us Sunday and invite them back. Also the goodly number from Weinert Sunday night. We are always glad to have visitors out our way.

The people of the church and community are meeting Wednesday night for prayer meeting at 8 o'clock. Hope to see a good crowd present. Mr. and Mrs. Frank Spencer and children visited relatives and friends in Tennessee, Florida and New Orleans a few days ago. They report a delightful trip. Mrs. Elmer Gossett of Abilene visited Mrs. L. W. Hill last week. Mrs. S. B. Jeter who has been on the sick list is improving. Mr. W. Turnbow has returned from a trip to Denton county bringing a new wife with him. We wish them much happiness.

Sunday school will be held Sunday morning at 10 o'clock. All who do not attend Sunday School some where else come to Curry Chapel. Sunday night there will be singing here. Everybody invited. Miss Myrtle Orr and Billie Louise Holt returned Sunday after spending the week with Mr. and Mrs. B. O. Hall of Littlefield, Texas.

**Health-Wrecking Functional PAINS**  
Severe functional pains of menstruation, cramping spells and tangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines! Thousands of women have found it helpful to take Cardul. They say it seemed to ease their pains, and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods. Try Cardul. Of course if it doesn't help you, see your doctor.
