GINNER OF THE YEAR

Lloyd Graham has a wide smile as he displays the plaque awarded him recently at a meeting of Texas Cooperative Ginners. Lloyd was named Texas cooperative ginner of the year at that meeting. (STAFF PHOTO)

Texas Coops Name Graham Top Ginner

Olton Co-Op Gin's Lloyd Graham has been named Texas Cooperative Ginner of the year. He was given the state honor recently at a Co-Op ginners meeting in Austin.

Mr. Graham has been manager of the Olton gin for the past five ginning seasons. He moved here from Ferris, where he had managed a Co-Op gin, in 1953.

Olton Co-Op Gin was in a building program when Mr. Graham came here. His offices were then at the gin which now is known as Smith Gin Co.

He saw the present twin battery owned by Olton Co-Op Gin rise from the ground.

During the five seasons Mr. Graham has been manager here, Co-Op Gin Company has handed out more than \$750,000 in cash dividends and has actually netted more than a million dollars.

The firm processed more than 22,000 bales of cotton during the 1958 ginning season. It was among the top twin batteries in the country in this respect.

The plant for which Mr. Graham is responsible is valued at about \$400,000. It has three year around employees. At peak employment in the fall about 50 people work there.

Mr. Graham grew up at Wellington and went to work for the Co-Op gin there in 1933 and has been in the ginning business ever since. His principal duties have been in the office and had to do with management but there's not a job at his twin battery that he cannot perform well from run the section to operate the stands.

He moved to Ferris in 1943 and became manager of the Co-Op Gin there the following year.

Mr. and Mrs. Graham have one daughter, Gayland, who is a student at Olton High School.

As well as being a good ginner, Lloyd is a good citizen in his community. He is a Baptist deacon, treasurer for the Baptist

Public School Week Planned

Olton Lions Club members will eat lunch at the school cafeteria Tuesday as a part of observance of public school week here.

School patrons are invited to eat at the cafeteria Wednesday.

School principals said school patrons will be welcome to visit the school anytime during the week.

HAS AMPUTATION

Elmer Fite, brother of Dr. Lynn Fite, underwent surgery this week in which his foot was amputated. Dr. Fite was at the bedside at Baylor Hospital in Dallas.

Double Cuke Production This Season

Olton farmers have indicated they will more than double their cucumber acreage this year.

Producers Tuesday night signified that more than 500 acres of cucumbers will be grown in the Olton community during the 1959 season.

Four representatives from the Brown & Miller Company of Texarkana spoke at the meeting Tuesday night. Also at the meeting there was a general discussion of best methods to be used in cucumber production.

Insecticides, planting date, fertilization and watering came in for discussion.

Attending the meeting from Texarkana were Lemuel Coleman, George A. Klumb, Tom Wells and Obry O. Breland.

Mr. Coleman brought with him several jars of pickles produced in the Olton area last year and handed them out to the audience.

Olton grew about 235 acres of cucumbers in its first year of production and grossed about \$60,000 on the crop.

City May Seek Expert Advice On Equalization

Expert advice on tax equalization and a city paving program was recommended by the Olton Chamber of Commerce and Agriculture Civic Affairs committee Tuesday night.

The recommendation was made to the city council at a special meeting of that group. Head of the Civic Affairs Committee is Louie Mack Hardy.

There was considerable discussion on cost and best procedures for accomplishment.

Present at the meeting was Bill McMorris, city engineer, who is now engaged in computation of cost per front foot of paving here.

City council appeared receptive to a plan to hire an independent tax equalization authority to survey the town. No action was taken on the matter.

Lunsford Baby Rites Slated Friday At 2:30

Twin babies, a boy and a girl, were born to Mr. and Mrs. Bill Lunsford at 4:01 and 4:17 Thursday morning.

The little girl died at noon Thursday. Graveside rites for her will be held at 2:30 o'clock Friday afternoon at Olton Cemetery. She was named Jeanette Gay.

The little boy, named Johnny Wade, was reported to be doing just fine.

DICKIE FLAYS FARM BUREAU

Right To Bargain Asked By Farmers Union Chief

All we want is the same right to bargain that is enjoyed by other major segments of business in our American economy.

This statement came Tuesday somewhat bitterly from Alex Dickie, president of the Texas Farmers Union, as he spoke before Olton Lions Club.

He pointed to steel, automotive and banking businesses as controlled industries. He accused steel and automobile manufacturers of pre-determining price before production.

Others Protected Protective tariff was the second bill ever passed by the American Congress, said Dickie. "And that is a form of subsidy."

Some of the people who wall the loudest about farm subsidy have themselves always been subsidized, declared the lanky, rather handsome Dickie as he bore down on his subject.

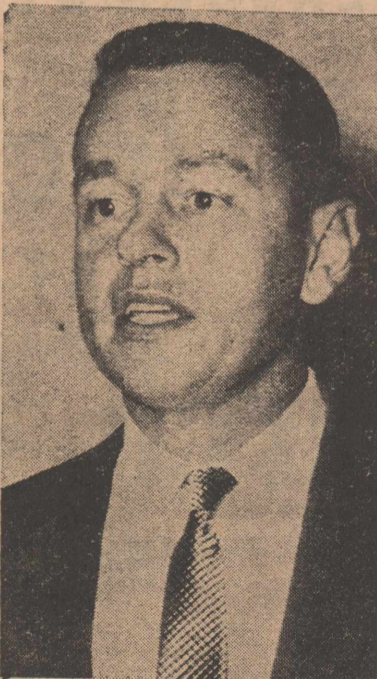

He said that only a fourth of the products grown by the American farmer have ever been protected by 90 percent of parity. "And for the past six years there has been an all-out effort to destroy the farm program as we have known it," he said.

"We only seek for the family type farmer the same protection enjoyed by other phases of the American economy," he went on.

Blasts Farm Bureau Dickie scored the American Farm Bureau. "Ezra Benson told me that his program is not his own but the program of the American Farm Bureau," Dickie expounded bitterly.

He branded Benson's efforts at solving the farm surplus problem a dismal failure.

The Farmers Union president proposed that farm production be regulated on a pound, bushels and bales basis. He warned that unless something is done to give the

ALEX DICKIE

American Farmer what he termed "equal bargaining power," American agriculture as we know it is doomed. He said young people already are leaving the soil and the average age of the American farmer is 57.

He predicted a day when farming will be done by large corporations with the farmers of today toiling in the soil as wage earners in much the same manner as the peasantry of medieval Europe.

Dickie did not clearly define a family type farm but privately said it is one on which a man may decently support his family from its produce.

Dickie was on a swing through the Plains in connection with Farmers Union membership drives in the area.

Dickie's speech here came on the heels of a 31 cent decrease in the government price support on milo.

DOANE FUND DRIVE BEGINS

Olton farmers and businessmen were in the process of raising money this week for a Doane Agricultural Service survey of this school district.

About 65 persons Friday night heard Russell Kruetzman of St. Louis outline the four-pronged program of the proposed study to develop agricultural resources here.

Raymond "Cotton" Lewis was named head of a 25-man committee to raise funds for the \$4,800 study.

With Kruetzman at Friday night's meeting was Doane's Hugh T. Lorimer of Fort Worth, Southwestern sales representative.

The two Doane men spoke here under auspices of Olton Chamber of Commerce and Agriculture but Chamber officials were quick to point out that if a survey is run it will not be through the Chamber.

The group authorizing the survey will be a separate organization with its own name its own board of directors and officers.

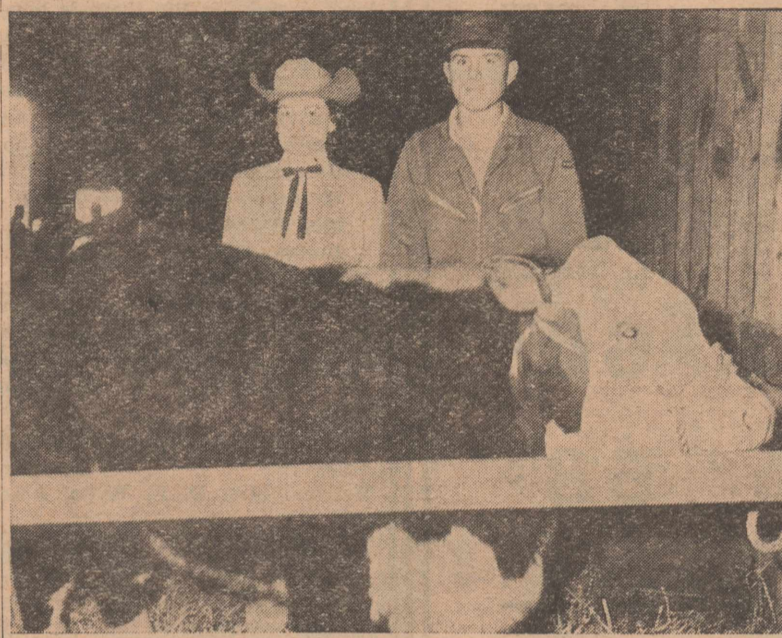

Kruetzman said a survey can be started here by mid-March. Major James, president of Olton Chamber of Commerce and Agriculture, suggested a three-week deadline for the fund raising campaign to finance the program.

Fund raising officials said more than \$400 was contributed by Saturday morning.

The first thing to be studied will be existing farm resources and potentials. This phase will be conducted by farm management specialists, the object being to determine the livestock and crop enterprises which could be

Fourteenth Annual Stock Show Getting Under Way At FFA Barn

STOCK SHOW VIPs

Homemakers Boast Record Number Entries In FHA Show This Year

Twenty prize-winning cakes and pies will be auctioned to the highest bidders in a public auction at the stock show barn Saturday morning at 11:00.

The pastry will be that which was awarded prizes in the FHA part of the stock show. Proceeds will be given to the FHA.

Ellen Jones, Stock Show Superintendent, reported Thursday morning that approximately 264 entries in the clothing, canned goods, cake, pie, cookie, candy and miscellaneous divisions had been received.

Entries will be judged Friday by an area home economics teacher and two Texas Tech home economics students. Ribbons and prize money will be awarded at 11:00 Saturday morning.

All entries are on display in the FHA Building at the stock show grounds. The building is a green army barrack and is located just east of the show barn.

Judy Moore, Charlotte Gibson and Nell Smith are in charge of the FHA concession stand which is also located in the FHA building.

The stand is to be open from 7 AM to 7 PM both Thursday and Friday and from 7 AM to 3 PM Saturday. It will be selling sandwiches, soft drinks, ice cream novelties, coffee, doughnuts, French fried potatoes, candy and cookies.

Gayland Graham is FHA president and assistants to Miss Jones are Sue Witten, Nancy Bryant and Nancy Critchfield.

Also in connection with the stock show, the FHA is serving the Stock Show Board Directors and judges both Thursday and Friday at noon.

Homemaking III girls are preparing the Thursday meal and Homemaking II girls are in charge of the Friday repast.

Homemaking III girls are Judy Moore, Nell Smith, Linda Clark, Peggy Sluder, Francis Presley, Charlotte Gibson, Shirley Cherry, Maenette and Sharon Dennis.

Animals Weighed In Thursday; Sale Set Saturday Afternoon

Olton's Fourteenth Annual FFA, 4-H Club and FHA Stock Show began to unroll early Thursday morning as youngsters began to weigh in animals.

The show proper was to start Friday morning and continue through Saturday. Exhibitors will be showing some 90 barrows, 17 lambs and 18 fat calves.

In addition to fat classes there will be breeding gilts, rabbits and poultry.

Olton boys have won honors in shows this spring from Amarillo to El Paso and also at San Antonio.

Judges for this year's show include L. M. Hargraves of Texas Tech, who will judge all livestock entries, and Elmo Hall who will judge rabbits and poultry.

Fat animals were sifted Thursday afternoon.

Annual Sale

Highlight of the show will be the annual auction sale which will be held at 2 o'clock Saturday afternoon. Handling the auction will be Raymond Aiken and Gene Harris. J. W. Brown and Bill Dickenson, Jr., will handle the cake sale for the FHA.

Banners and trophies will be given to all grand champions and reserve champions in fat classes. Banners only will awarded in breeding classes. Trophies will be given by Olton Farmers Unions.

Plaques will be awarded in each division for the most attractive exhibit and also for showmanship. These will be sponsored by Olton Chamber of Commerce and Agriculture. In order to be eligible for these an exhibitor must be exhibiting his own animal.

Swine superintendents are Don Spain, William DeBerry, Howard Hall and Henry Mathis. Sheep superintendents are Laus Hair and Owen Jones.

Beef superintendents are Tom McGill and Brent Burrow. Paul Hukill will be charge of poultry and rabbits.

General superintendent for the show is Doyle Pinson. B. C. Cooner is president of the stock show board of directors.

FFA president is Mack McGill. FFA sweetheart is Gayle Machen.

Mary Scribner Is Honored By School Faculty

MARY SCRIBNER

Mary Scribner, outstanding Olton High School senior, has been named "OHS Future Teacher of the Year" by the school faculty.

Announcement of the honor for Miss Scribner was made today through The Enterprise by a member of the faculty.

Miss Scribner is the daughter of Mr. and Mrs. Albert Scribner. She plans to attend the University of Texas next year and will major in education.

She is editor of the yearbook and is a member of the National Honor Society. She is an officer in the local Future Teachers of America Association and is secretary of the district FFA. Teachers say she is outstanding in all student activity.

Miss Scribner rates scholastically in the upper brackets of her class.

She was chosen on the basis of character, personality, cooperation activity participation and promise as a future teacher.

Homemaking II girls.

Mrs. H. B. Maxey, Jr. and Mrs. Archie Sorley, homemaking teachers, are sponsoring the FHA activities.

OLTON PTA WILL STAGE ANNUAL PRODUCTION HERE FRIDAY NIGHT

Bykota Fashion Show Predicts Return To Figure-Flattering Lines For Spring

Summery white frocks from Bentley's of Plainview, and home-sewn garments captured the favor of the audience as the Bykota Study Club presented a preview of spring clothing fashions in the School Lunchroom Saturday night.

Missing from the parade, which took place in a flowery setting suggesting the eminence of Spring, were the chemise, barrel, trapeze and empire lines which have shocked men and women alike for about two years.

Welcomed back to the fashion forefront were the softly feminine shirtwaist and natural waistline, and dignified accessories of black patent leather. Perhaps the "newest" things shown were full-length coats in shimmering pastel leather with fur collars.

Mrs. Douglas Owen, modeling two of her own made-at-home dresses, narrated the show. Mistress of Ceremonies Mrs. Basil Johns wore a lady-in-waiting garment from Bentley's.

The elaborate garden setting was created by the club members, directed by Mrs. Eld Lynn Burrus. Models were framed at their entrance by an archway entwined with yellow flowers. They walked around the flower-bordered garden, partially covered with grass. Two lovely lily ponds were assembled within, and a swing covered with garlands of flowers added atmosphere. Flimsy butterflies hung about the scene, and the narrator performed in comfort from white wrought iron terrace furniture. Completing the setting were baskets of spring flowers and a bough of fruit blossoms.

Entertainment during intermis-

sions consisted of readings and songs. Judith Chester read, "The Touch of the Master's Hand." The high school sextette, composed of Gayland Graham, Joyce Curtis, Karen Smith, Marilyn Jones, Johnny Crawford and Gayle Machen, sang "Smoke Gets In Your Eyes" and "On the Street Where You Live," accompanied by Judy Price.

A humorous reading, "Ma At The P-TA" was presented by Terry Gale Hooper.

Proceeds from the show—which amounted to about \$110.00, will supply the annual scholarship presented to an Olton High School graduate by the club.

General show chairman was Mrs. R. V. Alcorn. Women whose made-at-home clothing were modeled were Mesdames Vance Estes, Wilbur Schreier, Era Mae Walthall, David Maxey, H. M. Langford, Douglas Owen, M. E. Haddad and Miss Willena Gordon.

Spotlights—an innovation for this year's presentation—and speaker system were furnished by Southwestern Public Service Co. Contributing to the garden setting were Parsons Funeral Home and the House of Flowers. Mrs. O. B. LaFrance lent the lawn furniture. A former member, Mrs. Freddie Burgess, now of Colorado, attended the recordings of background music.

Farm Bureau Leader Shocked At Milo Break

"Shock and concern" was expressed Tuesday by J. H. West, president of the Texas Farm Bureau, in a telegram to Secretary of Agriculture Ezra Taft Benson in connection with the recent drop in grain sorghum price support.

Mr. West is visiting in this area and will be in Olton at 3:30 o'clock next Tuesday afternoon.

Following is the text of his message to the secretary. "Cut in price support to 75 percent of corn came as a shock to sorghum growers in Texas. Farmers are hurt. Sorghum growers realize that milo must compete with corn and that adjustments have to be made when prices are out of line. However this cut in support price in one year makes adjustment difficult to producers and imposes several hardships on him. It also fails to take into account the past policies of the department. It will encourage the production of corn in un-economical acreage which is contrary to your philosophy. Also it will reverse the normal flow of corn from the corn belt. I urge you to reconsider this action."

Said H. L. "Hub" King, district Two Farm Bureau head, "If Farm Bureau's recommendation had been adopted this cut in price support for grain sorghum would not have occurred. Farm Bureau recommended that price support for all feed grains be tied to corn, taking into consideration the relative feeding value, the normal price relationship and storability."

Staked Plains Associational Workers Conference, which was held in Olton First Baptist Church, had an attendance of approximately 90 persons from the area Tuesday. Church music was emphasized at the conference.

no coach is available, call the Superintendent.

This announcement came this week from the school administration.

School authorities pointed out that the school was forced to spend \$400.00 for repair to the gym following volleyball season last year when teams availed themselves of unrestricted use of the gymnasium for practice.

"We regret that it is necessary to limit the use of the gymnasium for volleyball practice," said the school official, "but also we feel a responsibility to the taxpayer who foots the bill for repair and to the children who must use the gym regardless of its state of repair"

Milo Responds To Fertilizer Say Researchers

One hundred and twenty pounds of nitrogen applied to grain sorghum produced a yield of 6,056 pounds per acre at High Plains Research Station while the non-fertilized plots showed a yield of 3,623 pounds.

The net return after paying fertilizer cost was \$30.05 per acre from the application of 120 pounds of nitrogen over the non-fertilized plots. One hundred and sixty pounds of nitrogen produced a net profit of \$30.71 per acre. D. T. C. Longnecker, Head of the High Plains Station, reported these results on the 1958 grain sorghum research this week.

The tests were made on 4-row plots 100 feet long with each

fertilizer application repeated four times in different parts of the field. Fertilizer treatments were made with nitrogen and phosphorous alone and in combinations. Nitrogen was applied at rates of 40, 80, 120 and 160 pounds per acre and phosphorous at three rates of 40, 80 and 120 pounds. Phosphorous at 40 and 80 pounds with higher amounts of nitrogen showed some increase in yield but not enough to pay for the added cost of the phosphorous.

The yield data on preplant and side-dress applications on grain sorghum indicated there was no difference between the two methods of application for the same amount of fertilizer. The same results were obtained in combinations of preplant and side-dress applications.

Tailored HEAT AT REDDY MADE PRICES

That's the nice thing about ELECTRIC heating—there's an electric heating unit to do the exact heating job you want done... from complete house heating, either warm air or radiant, to small spot heating with a simple, screw-in-socket heat lamp. And, like it says above—**AT REDDY MADE PRICES.** You see, you get the fit (like a tailored suit) at prices you pay for a ready made garment (good looking, functional and lower cost). If you've a cold spot you want to warm up, then stop in and talk to your Public Service manager—he has the solution for you.

SOUTHWESTERN PUBLIC SERVICE COMPANY

There's a new, low heating rate for full electric house heating. Find out about it from your Public Service manager.

Brownfield, Tex., Man Reports—

2 3/4-Bale Cotton

L. H. (Howard) Wheeler, prominent Texas farmer, says: "I farm 1,840 acres. With that much land I have to maintain high yields, year after year. Phillips 66 Ammonia helped me to do that. This past year we watched our cotton carefully, then when conditions looked right, we went in and side dressed it with Phillips 66 Ammonia. The cotton came right on along, setting a high count of squares—and of course that meant a good yield, averaging 2 3/4 bales per acre. I use Phillips 66 Ammonia with excellent results on my maize, too." Other successful Southwestern farmers have discovered that they make more profit per

acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain and ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be applied pre-plant or as a side dressing. It can be easily applied either by you or your distributor. See us today about your supply of Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Cotton Fertilizer Test Results Are Given At Halfway

Fertilizer tests on cotton at the High Plains Station at Halfway in 1958 indicated that with favorable weather for cotton production applications of fertilizer can be very profitable. In these 1958 trials two fertilizer treatments returned over \$100 per acre above fertilizer cost, these were 120-40-0 and 120-80-0. Yields were increased as much as 418 pounds of lint per acre.

No response was obtained to phosphate alone and there was no consistent response to phosphate along with nitrogen. Although there was little evidence of increase in yield or quality from phosphate in 1958, there was more indication of this in 1957. It is believed that phosphate can assist in producing earlier maturity in a season like 1957.

Lint samples were obtained from each fertilizer treatment, the results indicate that the kind or amount of fertilizer applied had no measurable effect on any fiber quality.

Based on the results obtained under the two extremes of weather conditions in 1957 and 1958, the following nitrogen fertilizer program can be suggested: If planted before May 1, 100 to 120 pounds N, May 1 to May 10, 70 to 100 pounds N, May 10 to May 20, 40 to 70 pounds N, May 20 to May 31, 20 to 40 pounds N, after June 1, no N. Forty to 80 pounds of phosphate is suggested regardless of planting time.

Experiments showed that similar yield increases were obtained if all nitrogen was applied before planting all sidedressed, or in split applications. Because of this, it is suggested that the preplant application consist of not more than 40 pounds of nitrogen along with the required phosphate. If the cotton is planted early additional nitrogen can be sidedressed any time up to the first irrigation.

Chevy panel steps lively in Florida...runs day and night, delivers 19.3 miles per gallon!

This '59 Chevy panel is on the go, morning, noon and night; it covers as much as 587 miles a day . . . runs so constantly that its engine never cools off completely. Yet Mr. Clark Farber, the Tampa Tribune's circulation manager, reports that the truck is delivering 19.3 miles per gallon!

Take the panel pictured above, for example. Powered by the '59 Thriftmaster 6 with new economy-contoured camshaft, it's building a sensational economy record, despite the sizzling pace of its work. That's typical of the way Chevies of all sizes are turning to on the most challenging jobs in America. The way they're made, with tough-built truck components, they make the hardest hauls look easy!

If you have a job that puts a truck on its mettle, see your Chevrolet dealer!

G. Cisneros Dies Of Heart Attack At Pinson Farm

Guadalupe Cisneros, 54 years old, died Friday morning following a heart attack while he was working on the Doyle Pinson farm.

He was pronounced dead by Dr. Basil Johns. F. L. Burrow returned a coroner's verdict of death by natural causes.

Mr. Cisneros was born Feb. 9, 1905. He had been employed by Mr. Pinson a year and a half.

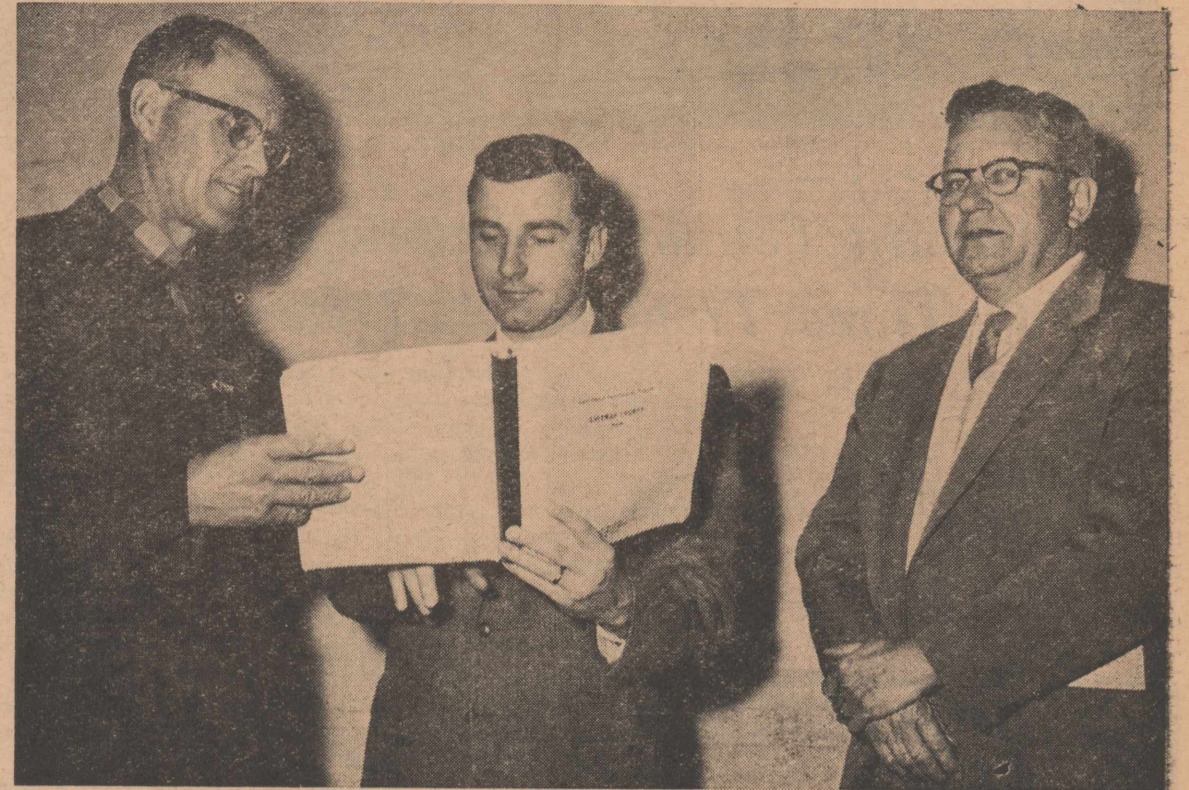

Mr. Cisneros joined the Sunday School of Trinity Baptist Mission only a short time ago. He also was an associate member of the church brotherhood.

Pallbearers were Ricardo Alcora, Embodio Perez, Marcelino Torres, Martin DeLeon, Manuel Rodriguez and Luciano Cortez.

Funeral services were held Saturday afternoon in Trinity Mission Baptist Church with Rev. Glen Godsey, pastor, officiating. Burial was in Olton Cemetery under direction of Parsons Funeral Home.

Survivors include the wife, Mrs. Blasa Cisneros; a son, Avelino Cisneros of Laredo; and four daughters, Mrs. Gnovena Morales and Mrs. Carolina Gonzales, both of Kress, Guadalupe Cisneros of Olton and Mrs. Alicia Cervantes of Old Mexico.

RESEARCHERS

Looking over the Sherman County report of Doane Agricultural Service is E. D. Harper, left, vice-president of Olton Chamber of Commerce and Agriculture; and Russ Krutzman and Hugh T. Lorimer, both representing Doane's. These two men were here last Friday night to investigate the possibility of making a Doane Survey for Olton Independent School District. (STAFF PHOTO)

SMITH & STRUVE

OLTON

TEXAS

Olton is the busiest it has been in the eight years we've been in the newspaper business here.

Here are a few of the things that are happening this week. A meeting was held Tuesday night to discuss means of raising money to finance a Doane Agricultural Survey of the school district.

As an out of town newspaperman somewhat enviously put it, "You guys are starting out to prove some of the things you've been bragging about for ten years."

The Doane Survey is not designed to dictate to any farmer what he can raise. It will merely act as an advisor. Doane will try to provide markets for crops we already are raising as well as for new crops it recommends.

We feel that it will be one of the biggest steps forward for the agriculture of the Olton community since we started using commercial fertilizer.

A cucumber meeting to get an increase in the acreage of cucumbers to be grown here was called for Tuesday night and an Olton group is studying the possibility of more paving for the town.

In addition to this, Olton merchants are sponsoring a free show for the kiddies each Saturday afternoon. The town is just bubbling with progress. New houses are going up, and down on the school yard brick is going on as Olton's half-million dollar school improvement takes shape.

Last week was rugged for folks in the small grain business. Though the smoke hasn't cleared away good yet, it appears certain that we won't be getting much more than \$1.32 a hundredweight for our September milo.

This is about a 31 cent drop from last year and then the margin of profit was paper thin.

This could cause any or all of a number of things to come to pass.

We almost certainly will see more diversification of crops here next year. We're going to see more corn grown, more sesame, soybeans and possibly castor beans than in the past.

We also may see more livestock on the High Plains than hitherto.

Several Plainview boys who told officers they formed an impromptu vigilantes committee and came to Olton to "recover some hub caps" got their come uppance last week.

As is the case with most mobs a number of innocent people were involved. Some of the members of the group said they had no idea what was going to take place when they joined the outfit. They said they thought they were just going to "ride around" a while and then wound up in Olton.

The Plainview boys said they thought some Olton boys had taken

some of their hub caps recently. They said they came over to "get them back." Just like any mob, they soon were molesting innocent people. One person here was reported to have been mauled by some of the "visitors."

Anyway, the Plainview boys soon were rounded up at City Hall. Six of the ring leaders were fined \$20.50 each. "You could buy a lot of hub caps with that," observed City Police Chief Vernie Head.

Head called the Plainview Chief of Police who in turn called several of the boys' parents. Some of the lads are taking their meals standing up this week, according to reports from Plainview.

A motto we heard recently: "Evil is as evil thinks."

WATER-SOLUBLE

AMMO-PHOS®

Gives Full **GROW** POWER!

SOILS AND CROPS

Water-soluble PHOSPHATES

Knowing the water solubility of the phosphate can mean more profits from the money you spend on fertilizer this year. The tag on the fertilizer bag tells you what per cent available phosphate (P₂O₅) is in the fertilizer. However, this may be a kind that is not available very quickly.

Plenty of phosphorus is important in establishing stands, as pointed out in Jan.-Feb. page 101. However, if a high per cent of it is not in a water-soluble form, you may not get the best results. For this reason, make sure that starter fertilizers have at least 50% of the available phosphates in water-soluble form.

How it's applied may determine how much real advantage you get from using the high water-soluble fertilizer. Advantage is usually greatest when it is put down in bands. Where it is broadcast and worked into the soil, most tests indicate there is less difference in the crop effect between the high and low water-soluble fertilizers.

High fertility soils show less increased crop effect from water-soluble material than lower fertility ground. Soils high in lime, such as calcareous soils, usually show greatest advantage for high water-soluble phosphates. There is no fertility loss by using high water-soluble phosphate fertilizer. Agronomists say they will not teach out of the soil.

Keep these facts in mind in deciding whether or not to use the more water-soluble types of phosphate fertilizer. All phosphate fertilizers will do a good job in their place. Check with your fertilizer dealer on price and water-solubility.

Farm for a profit—use water soluble AMMO-PHOS fertilizers. AMMO-PHOS will give you a better payoff in the high lime soils of the high plains. The ammonium phosphate in AMMO-PHOS is the most efficient and available phosphorus on the market. AMMO-PHOS gets your crops off to a faster start with con-

tinued growth and early maturity for a high yield—high quality crop. Don't use inefficient fertilizers with lower percentage of usable water-soluble nutrients. You can reap full profits with AMMO-PHOS because you get full grow power! The payoff is better with AMMO-PHOS from—

WIN DISTRICT 3-B TITLE

Longhorns Terminate Victorious Season With Three Trophies, 23-7 Record

Hart Longhorns were winners of the district 3-B tournament held last week at Happy.

The tourney was a single-elimination affair. Tuesday night, Hart beat Happy by a score of 54-42. Ronnie Farris was high point man with 19.

Thursday night, the Longhorns defeated Nazareth 62-33. Thomas Holster was high point man with

24 points. Friday night, the Longhorns met and defeated the Lazbuddie Longhorns by a score of 36-31 to win the tournament.

The Longhorns of Coach Bill Shelby ended the season with a fabulous win-loss record of 23-7. Of the seven losses, four of them were one-pointers.

The Longhorns averaged 47.7 points per game, while allowing

their opponents only 39.5 points.

Ronnie Farris, a 5'8" senior, was the Longhorns' scoring threat. He tallied 545 points during the season for an average of 18.2 points per game.

Participating in three invitational tournaments, the Longhorns brought home a trophy from each: consolation trophies from Kress and Happy, and the championship trophy from Amherst.

The Longhorns were undefeated on their home court for the season.

Teams and scoring for the season as follows:

Two Longhorns Named For All-District

Hart Longhorns placed two boys on the all-district basketball team of conference 3-B.

Ronnie Farris, the Longhorns' outstanding floor man, received this honor, along with Thomas Holster, the Longhorns' big center.

Ronnie, a 5'8" senior, has been a stand-out for the Longhorns the past two seasons. He was not only a playmaker, but also a scorer, ending the season with an average of 18.2 points per game.

Thomas, a 6'4" senior, came to Hart from Dimmitt last year. Ineligible last year, he came along this year and did an outstanding job in the rebounding department. Thomas ended the season with an average of 9.2 points per game.

Complete listing of 3-B basketball all-district team is as follows:

Ronnie Farris Hart
Darrell Jennings Lazbuddie
Ronnie Isham Bovina
Thomas Holster Hart
Dub Oler Happy
Gary Bowe Happy

Glenda Hardy Makes Team Of All-District

Glenda Sue Hardy, guard on the Hart girls basketball team, was named on the all-district team by opposing coaches.

The Hart girls wind up the season with 19 wins and 10 losses. They placed first, second and third respectively, in the Amherst, Happy and Kress invitational tournaments.

Average score for the season was 45.86 points per game, with 40.0 for their opponents.

Sandy Johnson leads the high scores for the season, with 15.69 average per game. Mary Benight is next with 13.36; Lawanda Brooks tallied 11.45 and Janice Bass, 3.48 average.

Lions Hear Testimonial

Hart Lions Club heard an inspirational talk from Clyde MacDonald of Happy at their meeting last week.

At the same time, the club was presented an award for having reached its goal in enrolling new members during the recent membership drive.

Mr. MacDonald is a blind piano technician. He told the story of his life, and testified that a "handicapped person can make his own way if he wants to."

Mr. MacDonald told the group of the help he had received from the Lions in securing training in his field and in obtaining for him a "seeing eye" dog.

They were several other out-of-town visitors present.

Beavers Pair Donates Lots For Future Clinic

Two city lots have been donated to the City of Hart for potential building of a medical center or clinic.

Mr. and Mrs. O. L. Beavers are the philanthropists. The lots, located across the street west of Casey Jones Drug, are 22 and 23 in Block 127. Provisions state that in event the lots are not used for housing medical buildings after a period of 99 years, they will revert to the estate of Mr. and Mrs. Beavers.

District Crown Evades Cagers

In a sudden-death play-off for the district championship, Hart's Longhorns were defeated by the Bovina Mustangs, in a heart-breaker staged Saturday night at the Dimmitt High School gymnasium. The score was 47-35.

A play-off was necessary because Hart and Bovina had ended their regular season with a two-way tie for first place. Bovina had won the round robin play with a 6-2 record. Hart, with a 5-3 record, had won the district tournament.

A capacity crowd witnessed this crucial game, as Hart's valiant Longhorns went down under the superior height of Bovina's Mustangs. It was the fourth game that week for the Longhorns, who were plagued with illness.

Special Prayers Are Said For Heart Patient

A special prayer service was held one day last week by Hart teachers and pupils for Glenda Beeson.

The nine-year-old daughter of Mr. and Mrs. Jehu Beeson was undergoing heart surgery in Dallas at the same hours.

Rev. Jack Johnston directed the service in the school gymnasium. Homer Garrison led the group in singing, "What a Friend We Have in Jesus." Prayers were led by Rev. Lyman Wood, Fred Butler, Darris Egger of Dimmitt, and Rev. Johnston.

The service ended with a solo by Lawanda Brooks, "The Lord's Prayer."

May Establish Masonic Lodge

Hart Masons are studying the possibility of organizing a Lodge here.

All Masons who have not been contacted on the subject may leave their name at Casey Jones Drug.

List Taxation Sources To Improve Schools

(Editor's Note: The following is the conclusion of an article written by a member of the public relations committee for the Hale-Aiken group. Part I was published in The Hart Beat February 19.)

We all know the finances of the State of Texas: in order to secure more services from the State of Texas, that it will be necessary to enact further tax provisions for raising the income to support our better public schools.

The legislators have listed some of the sources of taxation which, in their opinion, are the means by which additional revenue could be levied. Some of the major possible sources are:

1. A tax on manufacturers which estimates could raise \$200 to \$300 million per year.
2. A general sales tax with exemptions of feed, food and fertilizer which would raise \$67 million per year.
3. A tax on natural gas which could raise from \$20 to \$100 million per year.
4. A sales tax on selected items such as liquor, tobacco products, soft drinks, gasoline, etc., which could raise \$50 to \$100 million per year.

There are several other ways of raising revenue which have not been mentioned. The State of Texas has always levied less taxes on its citizens than any of its bordering states. Raising taxes is not a popular subject to discuss but when we have the future of our children at stake, we must face the issue with a realistic view.

The general sales tax listed above, with the exemptions, is a tax which will touch all of the people, yet would not be a burden to the smaller income group. As for the taxation of natural gas, I feel this a source of income which has been neglected for several years.

The gas leaving our state has never been taxed. I feel that this has been a "give-away" of Texas resources. The other tax proposals above are self-explanatory. The extra services which we ask of the State of Texas for schools makes the enactment of further taxes necessary.

The above-mentioned proposals by the Hale Aiken committee and the suggested sources of revenue we know are not the complete answer. There is always room for suggestions or plans submitted by an awakened citizenship that will face the issue squarely—on the job that is to be done in the education of our children, betterment of our community, and for

NOTE OF THANKS

We wish to thank all our many friends for every expression of kindness and sympathy during the loss of our husband, daddy, son and brother. For the beautiful flowers, the cards, the visits and the prayers. To those who brought food and served it, a special "thank you."

May God bless each of you. Mrs. Charley Sanders, Bob, Bill, Brent and Brad Mr. and Mrs. Frank Sanders Mr. and Mrs. Furche Riley and family Mr. and Mrs. Robert Sanders and family Mr. and Mrs. W. T. Sanders and girls Mr. and Mrs. Dean Sanders and boys.

the welfare of the State of Texas. I wish to commend the Hale-Aiken committee on their understanding and would also invite the readers of this article to transmit their view points directly to the state legislators. Many of these proposals will not be acted upon unless there is a strong support from the people at home. They need to hear the voice of the people so that they can enact laws which will better suit the needs of the majority of the people in our state.

The legislators you will contact for this area are Senator Andy Rogers, Austin, Texas, and Representative Jesse M. Osborn, Austin, Texas.

Am sure you will see elsewhere in this paper that Mr. and Mrs. O. L. Beavers have given two lots to be used in the future for a Clinic or Medical Center.

Mr. and Mrs. Beavers have been in and near Hart for 27 years and have seen the town grow more than once, only to take a backward step and business leave and the houses moved away. They were here during the drought and depression days, but are surely looking for BETTER days in the near future. They are going to HELP KEEP THE HART GROWING. With just a bit of help and PULLING together WE CAN AND WILL BE A CITY TO

BE PROUD OF.

Mr. and Mrs. T. B. Cox gave the lot our CITY HALL is built on, and for them and their gift we are MOST GRATEFUL.

If you have not contributed in any way to help make our town, am sure there are any NUMBER of MEANS you may do so. Congratulations to you, Mr. and Mrs. T. B. Cox and Mr. and Mrs. O. L. Beavers.

A Friend Is A Present You Give Yourself.

Remember, it is the little things we do that counts. Will soon be time to put out flowers and plants and if you have more than you can use, please find a neighbor to share with. We have any number of new homes and new people here that would love to have them. Mrs. Pete Brown will soon have flower plants to give or divide. Let's be NEIGHBORLY.

CAKE RECIPE

One package white cake mix
One package strawberry jello
Cup salad oil
Cup water
4 eggs
Save strawberries for icing
Mix other ingredients and bake at 350 degree until done.

ICING

Cup strawberries mixed in powdered sugar until thick, and pour over warm cake. You may add a bit of lemon juice if too sweet.

Since their founding, the Gidions have placed 38 million Bibles and Testaments in hotels, prisons, hospitals, army camps, trains and airplanes in 30 different countries.

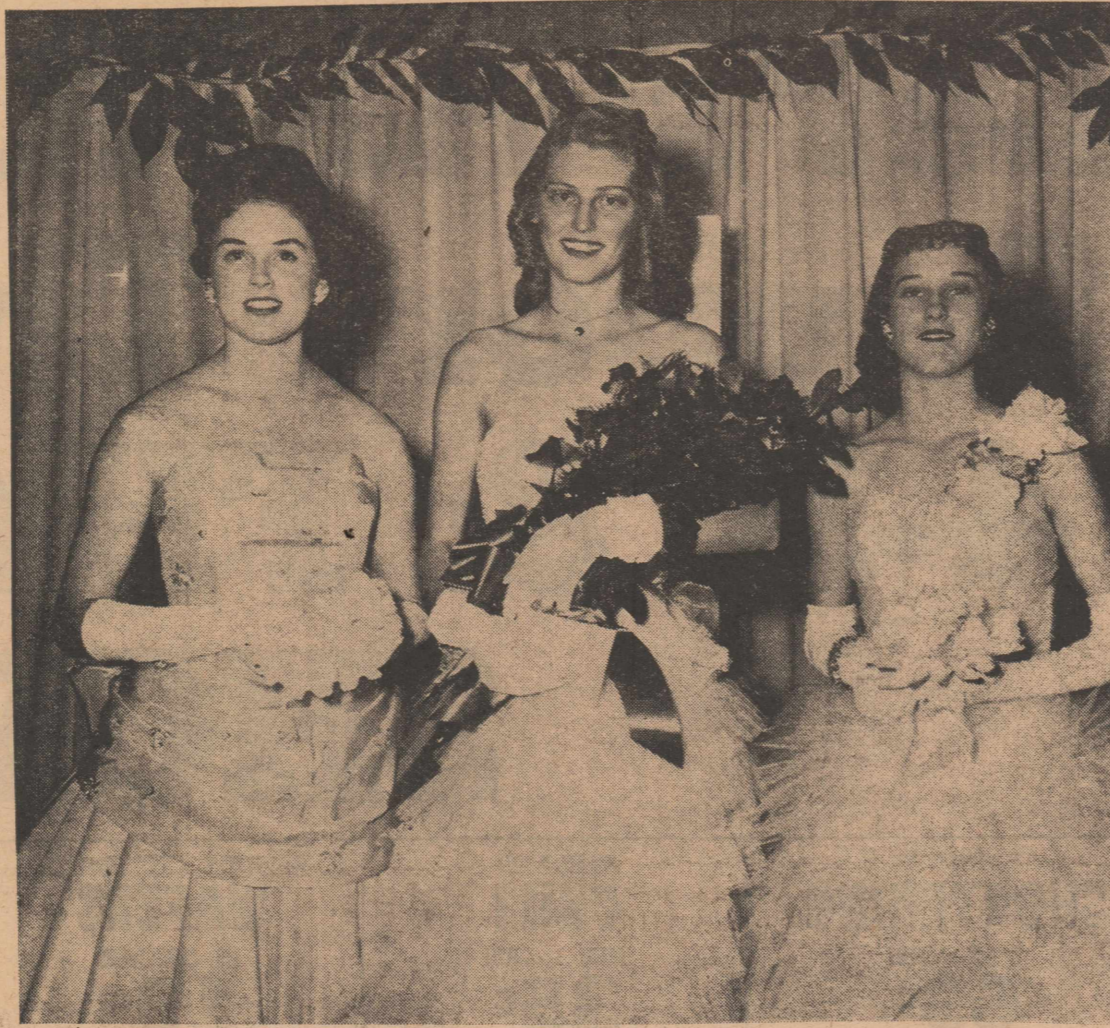

Could not something be done about our stray dogs in town? Seems some of them have no home or owners. It is garden and flower and yard work time and some of the housewives are now complaining about the dogs in their yards and have said they plan to take things in their own hands to stop the trespassing. You would not appreciate a neighbor's dog coming through your yard and destroying your plants, or vegetables. Let's fasten our pets up and see if we cannot get rid of the homeless or find homes for them. Let's be to our neighbor as we would like HIM to be to us.

Are there many parents as lucky as Mr. and Mrs. Ray Bennett to have three sons to marry as sweet girls as their sons have. They are not only sweet in-laws, but are just PLAIN SWEET.

WHEN YOU BUY

Humphrey ALUMINUM AWNINGS

Humphrey Awnings make your home more attractive and prevent the rays of the sun from striking directly against your window panes. The unobstructed rays of the sun conduct heat into your rooms like a radiator. Increase the efficiency of your air-conditioning system by eliminating unnecessary over-loads from unprotected openings. Use Humphrey Awnings to make your rooms 8 to 20 degrees cooler.

Ample ventilation and circulation of air, eliminating heat pockets, has been engineered into the design of the awning ends and top cover; warm air is drawn out through protected vents at top and on sides.
