AMATEUR BOXING TOURNAMENT SLATED HERE APRIL 14TH

Regular March term of District Court was convened in Throckmorton Monday, with District Judge Dennis P. Ratliff presiding. Grand jurors for the term were impaneled Monday morning, but their work of investigation into recently reported law violations was hindered to some extent because of inability to summon several needed witnesses due to condition of roads after heavy rains Sunday.

Fire Department To Sponsor Series of Events This Spring

Date for the first of a series of amateur boxing tournament to be staged this Spring under auspices of the local fire department has been set for Thursday night April 14th, sponsors announced this week.

Workmen are busy this week completing improvements to the arena, including several additional tiers of seats that will provide accommodations for approximately 1,000 persons.

Card of events for the season's opening program is now being arranged, and several outstanding amateur boxers of Haskell and surrounding counties will be featured in addition to a large list of preliminary bouts in several divisions. A negro "Battle Royal", favorite attraction with boxing enthusiasts will also be arranged, sponsors said.

Ladies of M. E. Church Sponsor 'Country Store'

The ladies of the Methodist Missionary Society are to hold an Advertising Auction Sale or "Country Store" in their church basement on Friday, April 8, at 8 p. m.

Those who have merchandise which they desire to donate in exchange for the advertisement of their name and products are enabling the ladies to help raise their part of the church debt fund which they assumed in January.

A variety of goods is being received including staples in groceries, canned goods, flour, country products, bed spreads, a quilt, dishes, extracts, bread, oils, hair and scalp tonics and beverages.

Notice To All Farmers

In order that cotton acreage allotments may be established as soon as possible the county agent's office will be open during the hours 9 a. m. until 4 p. m., until said allotments are established. Please realize that this is for your benefit, as all want their allotments as soon as possible. Your cooperation in this matter will be greatly appreciated.

Senior Class Play "Don't Ever Grow Up" Is Comedy of Youth

Is the younger generation going to the dogs? This is a question which, like the disputed point about the hen and the egg, may always be depended upon to start a warm discussion. History does repeat itself, and it is possible for any person alive today, no matter how old, to remember the time when some elder wasn't viewing with alarm the misdeeds of a precocious younger generation. They might have taken a much calmer view of things if they had understood that it's only normal and human for a youngster to want his little fling before he settles down to the responsibilities that come with maturity.

Final Date for Entry Will Be May 1. Contest Ends October 1st

Applications to enter the beautification program can be made free of charge beginning Monday, April 4th, by filling out the printed entry blank that appears elsewhere on this page and mailing or sending to either of the following members of the civic committee of the Senior-Junior organization, Miss Ethel Frierson, chairman; Mrs. Ed Day, Miss Elyse Bradley.

A Man's Enlightenment

A man arose one morning—it might be any man and it might be any morning—with a feeling of discouragement. He felt like his burdens were unreasonably heavy, his opportunities too limited, his efforts unfruitful and unappreciated. As he lay quietly for a time before arising his thought searched here and there for a way out of the dilemmas which seemed to hem him in, but he found little to encourage him.

Rather mechanically than otherwise he went through his accustomed morning routine, more or less mesmerized by the thought of the ills with which he had to contend and the poor weapons with which he had to meet them. His resources seemed almost nil in comparison with his liabilities.

With a sense of futile groping he went into another room of his home, which was exposed to the rising sun—and at first he thought a light had been left burning in the room, so brightly was it illuminated. But the light was not of man's devising—it came from no electrical current but it proceeded from the great light which God set in the heavens when creation was at its dawning.

Then came into the thought of this man—it might have been any man—the divine command, "Let there be light," and the recollection that the writer of the sacred story of creation said, "And there was light."

And the man opened his Bible to the Nineteenth Psalm and read again the words, "The heavens declare the glory of God; and the firmament showeth his handiwork. Day unto day uttereth speech and night unto night showeth knowledge."

On the man read through that majestic psalm of the shepherd who became king of a mighty people. "The law of the Lord is perfect, converting the soul," he was reminded; "the testimony of the Lord is sure, making wise the simple. The statutes of the Lord are right, rejoicing the heart; the commandment of the Lord is pure, enlightening the eyes."

The thought came into his consciousness, that the sun, up there in the heavens by God's commandment, was flooding his room with light, and that in the same way, the commandments of the Lord were set in the mental firmament for his enlightenment, as surely as the rising of the sun.

The mesmeric spell was broken, the fog was fighting the man's consciousness, as he read again those old, old words that "the judgments of the Lord are true and righteous altogether," and "Move to be desired are they than gold yea, than much fine gold: sweeter also than honey and the honey-comb."

As he pursued the stately prayer of David to its conclusion he was refreshed in mind and body, and he resolved that the concluding verse of the psalm would be his prayer throughout the day: "Let the words of my mouth, and the meditation of my heart, be acceptable in thy sight, O Lord, my strength and my redeemer." — Frederick Leader.

An Unwise Boycott

Impulsive action is always ill-advised, even when taken conscientiously. A case in point is the attempt of certain groups to wage a boycott or silk as a means of expressing disapproval of Japan's campaign in China. If disapproval is to be expressed,

it should be through our wise and able State Department. Private boycotts would have little if any effect upon the distressing situation in Asia. But a refusal to use silk would bring unemployment and misery to some 120,000 workers in our American silk mills.

The silk in a dollar pair of stockings costs only from 8 to 15 cents, the rest going for American wages, manufacturing costs and distribution. Much the same is true of silk ties and underwear.

Japan is our third best customer, outranked only by England and Canada. We sell one and a half times as much goods to Japan as we buy from her. In 1937 Japan bought about \$290,000,000 worth of our goods, including more than \$65,000,000 worth of cotton and about \$40,000,000 worth of oil products.

Any direct action by private citizens against Japan will not only hamper our State Department in its efforts to accomplish what we want without plunging us into war, but it will disrupt another important American industry without obtaining the results which honest and sincere people desire.

Some Fancy Figuring

Recently a very sort item in a trade journal caused us to marvel at the calm assurance with which statistical sharps report their findings concerning this, that and the other. It read:

"For every dollar spent on control in 20 grasshopper states the past year, an average return of \$51 in crops was saved."

We wonder how many readers of that statement of less than two dozen words stopped to consider the amount of expert figuring required to obtain that interesting result. For counting the grasshoppers in all that territory, as well as estimating how many more there would have been, and how much they would have eaten, if not "controlled", was no light task.

But that was not all. It must have been necessary to check what each farmer expended in his control efforts, and what the unweaten crops brought at the prevailing market prices.

How many experts, field men, bookkeepers, statisticians and others were employed on this job? And how many adding machines were worn out in computing the results?

We are skeptical about the whole business. We think the writer of that item was just spoofing.

News reached here early this week of what appears to have been an unprovoked and diabolical murder in the neighboring town of Stonewall. On Friday the 20th inst., the body of an old and inoffensive German named Sadick was found in a field where he had been working. He had apparently been shot with a 22 caliber rifle and his skull had been crushed with an axe. There were no witnesses to the brutal murder, but circumstances surrounding the slaying has led to the arrest of three men in connection with the killing.

On Thursday evening at 3 o'clock the Baptist church was the scene of one of the prettiest wedding ceremonies that has been celebrated in Haskell in years. The contracting parties were Miss Hazel Hudson, charming daughter of Mr. and Mrs. W. T. Hudson, and Mr. Robert Reynolds, one of our enterprising young business men. Rev. J. T. Nicholson officiated for the ceremony.

Mr. E. P. Elkins was in one day this week and told us the first snake story of the season. He said while at the mouth of the little Rocky creek fishing last week he came upon two rattlesnakes, one of which he killed while the other escaped to his den. He said the one he killed measured six feet in length and was two and one-eighth inches between its fangs, which were very large, and it had 19 rattles.

There were no witnesses to the brutal murder, but circumstances surrounding the slaying has led to the arrest of three men in connection with the killing.

One night last week the store of Spicer Bros., at Sagerton was

burglarized. Thursday of this week deputy sheriff Lagrone arrested two men in connection with the burglary, the officer recovering a part of the merchandise stolen from the store.

On Thursday evening at 3 o'clock the Baptist church was the scene of one of the prettiest wedding ceremonies that has been celebrated in Haskell in years. The contracting parties were Miss Hazel Hudson, charming daughter of Mr. and Mrs. W. T. Hudson, and Mr. Robert Reynolds, one of our enterprising young business men. Rev. J. T. Nicholson officiated for the ceremony.

Mr. E. P. Elkins was in one day this week and told us the first snake story of the season. He said while at the mouth of the little Rocky creek fishing last week he came upon two rattlesnakes, one of which he killed while the other escaped to his den. He said the one he killed measured six feet in length and was two and one-eighth inches between its fangs, which were very large, and it had 19 rattles.

The Haskell Light, Ice & Water Company is making extensive improvements and additions to its plant. Chief of these is the addition of a 35-ton block system refrigeration.

News reached here early this week of what appears to have been an unprovoked and diabolical murder in the neighboring town of Stonewall. On Friday the 20th inst., the body of an old and inoffensive German named Sadick was found in a field where he had been working. He had apparently been shot with a 22 caliber rifle and his skull had been crushed with an axe. Girls Make Good Showing In County Meet

Scholastic League meet held last Friday for literature and the following high school girls won places in the county meet. High school senior boy, first place; high school junior boy, Stanley Smith, second place; high school junior girl, first place; high school senior girl, second place. The one-act play contest was held at Breckenridge Friday to compete for district prizes. The girls' team did not have a chance in the County Meet. The boys' team, however, will go to Breckenridge District Meet. Ruby Sue and Olive Sloan are the girls' team, and Paul Crawford and Paul Crawford are the boys' team. They were coached by Miss Riley. Prizes were given to the girls' team, and the boys' team. The girls' team, however, will go to Breckenridge District Meet. Seniors Continue Practicing Play

The poor Seniors are still laboring over their play. When Mrs. Wimbish calls a senior in an announcement period, he knows she wants him to announce senior play practice. But we don't mind because, as you know practice makes perfect and our play is going to be perfect (we think). We all hope that the cast will not forget about the play during the holidays and will work hard on it. So, members of the play, let's do work very hard and all know our parts by Monday and surprise Mrs. Wimbish when we come to practice.

Congratulations To Another "Ex"

In the one-act play contest which was held at Rule last Thursday night, the play presented by the Mattson High School won second place.

place. Eloise Couch graduate of the class of '32, was the coach of this play, and we extend her our congratulations for her success. Those who were present saw a "spang-up" good production of a well chosen play. Another point of interest to us is the fact that one of the characters in this play was Thomas Brite who was a student in Haskell High last year.

Apropos to Nothing

(By Request) Wanted: Nice neighbors who know when to cut off the radio. Ah, such is the price of comfort!

Come you reporters and writers of ye 'ol Warwhoop, get your pens and pencils busy and start parading out a few more para-graphs.

"—And know every word of Act III." Really now, those seniors are only amateurs at the wheel. (Oops, wrong figure).

Marion J. thinks the person who said "Marion will be needing a baby carriage soon" is rather indiscreet (he doesn't know it). Anyway, quit cradle-snatching, Marion, or down will come cradle, the occupant and Marion!

A Gold Medal, orchids and everything that's nice to Mr. George V. W. for leaving off formal schooling for three days. Formal is said because we still get educated by going fishing maybe? Or loafing?

Here's hoping the uncut diamonds don't get too rough for you. If they do, try polishing them. (This was meant for those little wild daisies who never fail to push and jab you in the halls, and come to class late to boot.)

Girls To Display Dresses on Tuesday

The Lillian Peck Chapter of Future Homemakers of Texas will be hostess to parents and friends on Tuesday evening April 5 at 7:30 p. m. for a style show of the work done in Clothing II. Refreshments will be served following the show by the Foods I class. A movie in technicolor will be made during the evening, and shown later at the Texas Theatre.

The Future Homemakers will go to Stamford on Saturday, April 2nd for a district meeting. This district includes schools in Jones, Knox, Stonewall, Fisher, Throckmorton and Haskell counties.

Introducing The Seniors

Zug Phelps Moved to Haskell when a Junior — Joined the Haskell Band later — now plays a clarinet — Has many ambitions, the chief one to be a musician — Was elected by Scout Troop last summer to go to Washington to attend World Jamboree — In H. H. S. only two years but an all-around Indian — really named "Zug" — immune to the wills of the fairer sex.

Marvina Post Very important senior — age 17 — brownish-black hair, dark eyes, friendly smile, gracious manners, complexion "you love to touch" — dependable — cheerful — everybody's friend — good natured — neat — not interested in boys "much" — knits for pastime — president of Gypsy Ramblers this year, treasurer last year, four years a member — Junior class officer — first three years member of pep squad — member of Choral Club two years — high in scholastic rank.

Bill Pogue Formerly "Billy" Pogue — present name appropriated after entering high school — Haskellite for seventeen years — Excellent student, never failing to make the honor roll — Came out for debate his Junior year — Friendly helper of classmates with lessons and other problems — Pleases students on arriving at school on time, a rare incident — Hobbies hunting and reading — Ambition — to be figured out later.

Marjorie Ratliff One of the most active Seniors. Has been a Gypsy Rambler four years, on the pep squad three years, Home Economics club three years, Spanish Club one year, Choral Club for two years. Pianist for school, and for anybody who wants one on short notice. Her hobby is reading, and her best boy friend is Lynn.

'Tis Said

Frances Merie seemed to be having a good time Sunday afternoon in all that rain. May it was because she was with—well, Christine. — And then there are those high school boys who like to skate. — Why was it that Jack Simmons was acting sort of worried Sunday? You don't suppose that he was dodging Madge, do you? — Six girls really had a good time Thursday night when they were supposed to be sleeping. — Elizabeth has developed a sudden crush on one of those ex-senior blondes of about four year. We don't blame her, he's very cute. — Muddy weather is rather hard on Professor Banks. We know how to appreciate him after he's been absent. — There's to be a Senior play in the near future, so save your nickels and dimes. — By time this is read, everyone will probably have forgotten that there is such a thing as school with spring here and the holidays too. — There are 510 blocks in the ceiling.

Teachers Judges In Knox County

Last Thursday night Mrs. Wimbish was one of three judges who went from Haskell to judge the one-act play contest at Knox City. Mrs. R. O. Pearson one of our supply teachers, was also a judge in the contest. On Friday Miss Vick and Miss Ann Taylor of North Ward accompanied Mrs. Mason of Weinert High to Knox City to judge the speech events in the Knox County Meet. Miss Vick says the worst thing about having to judge the seventy-seven speech numbers and twelve essays was that she had to write out her decisions with a blunt pencil.

Spring Comes Only Once Each Year

Spring holidays! Doesn't that sound good! Although each class isn't going to get to have its picnic, everyone is glad that we are going to have spring holidays, and maybe we can have some of our picnics then. Perhaps they will help even more than we think; because the students will be rested (maybe) and can do their work better. There has been some complaint about the holidays coming so early that no one can go in swimming; but don't you boys worry, if it keeps on raining, you can swim in the ditches in front of your homes, and water won't be very cold. So, let's all have a big time during the holidays and resolve that when we come back to school, we are going to study that much harder.

Shrinking Heads!

JIVARO headhunters of inner South America are also master head shrinkers. The master of them all, a crafty old fellow who worked in complete seclusion, shrunk the man and wife shown here. The big jawed man and the narrower faced woman had been killed many miles away by another tribe, and their heads sold to the shrinker for ten yards of red cloth. No modern taxidermist could do a job like this. The Jivaro can take a human head, work over it patiently until, through the neck, they have picked out every piece of the skull and head without damaging the facial skin or features, and then, with frequently heated sand and little hot pebbles, gradually shrink the skin and tissues to the size of an orange. Strings through the lips keep the heads from "talking back." Tourists in Peru and Ecuador buy them.

Certificate of Health Necessary to Food Handlers

For the protection of the public a law was passed in 1921 making it mandatory for every person who is employed in any public eating place, bakery, meat market, dairy or candy factory to secure a health certificate from a reputable physician. This law is intended to eliminate all persons having any communicable disease from handling any foodstuff. These certificates must be renewed every six months.

Typhoid fever, diphtheria and amebic dysentery carriers have been found numbers of times working in dairies, cafes, and other places where food is prepared or offered for sale. It is not too much for the consuming public to demand that those who sell them food shall be free from communicable diseases. If the examinations for food handlers are properly carried out, much good will be accomplished in protecting the health of the buyer as well as giving the applicant for a certificate accurate information as to his physical condition.

The Texas State Department of Health has repeatedly advocated periodic physical examinations for the general public, as it is during these examinations that many incipient diseases may be discovered and treatment begun in time to stop its developing to such a degree that treatment will not be helpful. Many deaths and much suffering would be eliminated if everyone would have this periodic check. In the case of food handlers, only the diseases that are communicable will withhold the issuance of a certificate. The cost is money well invested and the consuming public should demand that those they buy from have this evidence of good health.

Sebo Britton Gives Summary of His Record

To The People of Haskell:

With only a few days remaining before the City Election is held, I wish to again place my candidacy before you for a second term as your City Marshal, and to ask for your continued support. In doing so, I want to express my appreciation for the liberal support given me two years ago, and for the splendid cooperation of the citizenship that has been extended to me at all times in the office.

In asking for re-election to a second term, I am basing my campaign on the record that I have made in the office, with the belief that the experience of the past two years better qualifies me to make you an efficient officer during a second term.

In this connection I wish to present the following brief summary of my work as your City Marshal, as taken from the court records that are open for inspection of any citizen. This summary is not presented boastfully, but merely as indisputable proof that I have tried to stay on the job as an officer.

The Record 52 arrests for drunkenness, fined \$1.00 and costs in each case. Total \$728.00.

2 cases of habitual drunkenness, fined \$60.00 and \$100.00, and costs for a total amount of \$188.50.

15 cases of gaming, fine of \$1.00 and costs in each case for a total of \$210.00.

8 vagrancy cases filed, conviction and fine of \$10 and costs in each case. Total \$192.00.

4 cases of affray, fined \$1.00 and costs each. Total \$56.00.

1 car theft case. Defendant convicted and given 5 year penitentiary sentence.

2 shoplifting cases. Defendants convicted and given 90 day jail sentences.

1 attempted theft case. 5 persons implicated in attempt to steal truck convicted and each fined \$60 and costs.

1 escaped convict apprehended. Filed complaints resulting in conviction of 8 persons charged with violating Occupation Tax ordinance.

Assisted in 6 raids with Sheriff's department.

Have also established a Junior Highway Patrol at both schools and can truthfully say that not a child has been injured in a traffic accident since this organization has been established.

I have at all times made it a point to be on the job during times calling for emergency handling of traffic, especially funerals. There have been numerous times when traffic has been unduly congested, but I am proud that even minor traffic accidents have been held to a minimum.

In consideration of my efforts to serve you dependably and efficiently, I respectfully ask at this time your favorable support of my candidacy for a second term.

Yours to serve, SEBO BRITTON.

W. H. (Bill) Hall Enters Race For Constable Prec. 1

We are authorized this week to announce the candidacy of W. H. (Bill) Hall of this city as a candidate for the office of Constable of Precinct No. 1, subject to the action of the Democratic Primary in July.

Mr. Hall, a resident of the precinct for 19 years, states that he has decided to make the race after before the election is held, and will sincerely appreciate any consideration and support given him in his campaign for this important office.

Mr. Hall states that he will try to place his candidacy personally before every voter in the Precinct before the election is held, and will sincerely appreciate any consideration and support given him in his campaign for this important office.

Miss Ann Maud Taylor is visiting friends and relatives in Dallas this week.

Final Statement To City Voters By Al Cousins

TO THE CITIZENSHIP OF HASKELL:

"I have submitted my name as candidate for City Marshal to be placed on the ballot, to be voted in the nearby City election. I have contacted many of you personally, while there is a number of you I have been unable to see as I work twelve hours a night, seven nights a week. I have little time to canvass. I hope all of you I fail to see personally, will recognize this announcement as a solicitation for your consideration.

"I have two opponents for whom I have no criticism. If they have merits, their merits are not my platform. All candidates for public office will be criticized by somebody. As I am not a stranger to the most of you, recommendations and criticism will not be taken seriously.

"In this feeble appeal to my friends for their support in this campaign, I will not attempt to tell you that I am a perfect officer or that I am superior morally or otherwise to my fellow man from any walk of life. It has been said today, that I had drunk liquor and for that reason the temperate people would refuse to support me. I will say in answer, if I receive any support, it will come more from the meek and lowly temperate, than from the loud mouthed boasting kind of drunks that made the statements referred to.

"I will submit to being stoned, if a perfect man will cast the first stone. I will admit my mistakes have been many. However, they haven't cost any one anything except my family and myself. We paid the price that was high. I have never in my life and do not at this time, offer myself as a Critterion. If you would turn back the pages of time to complete the record, we could all be weighed in the balance and found wanting. I believe my long experience and clear observation of both sides of life will render me capable of caring for and administering to the boys and young men that will follow in some man's foot-steps. It will not be dispute that I am interested more in the boys of the community, than all other things together, for proof, see the boys.

"I will promise during the campaign not to loose my temper over

the statements made by the feeble minded or the bragging remarks of the illiterate. If elected, will render a fair and impartial administration to all concerned. "Respectfully yours for law enforcement. AL COUSINS."

Mart Clifton Tells Voters of Candidacy

"After careful thought, and after being solicited by numerous friends I have decided to enter the race for the office of Sheriff of Haskell county.

"On the first day of January, 1935, I was employed as your first Deputy Sheriff. I continued in this capacity until March 5, 1938. At this time I resigned my duties in order to campaign for the office of Sheriff. During the time that I was Deputy Sheriff of Haskell County, I, at all times, put forth every possible and conscientious effort to enforce not only the laws of our county but those of our state and nation. I have at all times endeavored to maintain peace and order for the citizens of this county, keeping constantly in mind the welfare of our citizenry in general.

"The record that has been made by the Sheriff during the past three years and few months is without doubt an exceptional and creditable record. This meritorious record is one any county would be proud of. And may I, with all sincerity of purpose, state that I have helped to make that record what it is.

"During my stay in the Sheriff's office I have become informed as to the general and specific duties of this office. I have tried at all times to serve you well, and in a commendable manner. I have consistently and faithfully cooperated with all of the policies and principles governing this office.

"I sincerely believe that with the experience I have had as your Deputy Sheriff, I will be qualified to make you a more capable and efficient officer in the future.

"This campaign will be made wholly upon my own record and upon my own merits. I was born and reared in Haskell County. This county has always been my home. I am married, and I have a family of five children.

"Before the first primary in July I will try to see every voter,

however to you whom I am unable to see, please earnestly request for your support and influence of me as Sheriff.

MART CLIFTON

BIBLE RIDDLES

God made Adam out of dust. But I thought it best to make me first; So I was made before him. According to God's plan. My whole body God made complete. Without arms or hands. My ways and acts did I control. But in my body he put a soul. A living being I became. And Adam gave to me the name. Then from his presence I drew. For this man Adam I knew.

All my Maker's laws I followed. And from these laws I strayed. Thousands of me you may fear. But I seldom on the law appear. Later, for a purpose, I was made. So he placed a living soul in me. But that soul of mine I claim. And from me took it back. And when this soul I had fled I was the same as was made.

Without arms, legs, feet I travel on from pole to pole. My labors are from day to day. And to men I owe a light. Thousands of people, both old and young, did by my death behold. No right or wrong can I receive; The Bible and its laws can't believe. The fear of death does not trouble me; Pure happiness I will have. And up to heaven I will go. Nor in the grave or hell. So get your Bible and read it with care; You'll find my name there.

A Typical Scene Around the Square Each Wednesday

"The All American Choice" Free Movie To Show Here

"The All American Choice", a free movie of special interest to all farmers, will be shown here Wednesday afternoon, at 2 p. m., at the Hallie Chapman Implement Co. Admission is free to all farmers and families.

According to Mr. Chapman, local Minneapolis-Moline dealers, this interesting movie tells a story of a young married couple who are starting out on their honeymoon. Their first stop is at the Minneapolis-Moline office where they see the new MM Universal "Z" tractor on display and are shown a movie "Pioneers of Progress."

This movie traces the development of civilization down through the ages, and the important part that farming methods have played in our progress. Many old implements are shown, also the first all-purpose tractor with electric lights and self starter and a complete line of implements. The fast-moving historical scenes carry the story up to the present-day farming methods. Many action scenes of the MM tractors and Harvestors are shown doing difficult work with the greatest of ease. After the young married couple see the fine fast work that is being accomplished with modern farm machinery, they decide upon buying a new MM Universal "Z" tractor. Previously the father had planned that should his son and daughter-in-law decide upon

Every farmer is cordially invited to attend free of charge. The show is sponsored by the Minneapolis-Moline Power Implement Company and Hallie Chapman, local MM dealer.

Examination for Marine Recruits Now Being Held

Examinations for entrance in the United States Marine Corps are now being held at 822 Alke Building, Dallas, Texas. It has been announced by the Officer in Charge.

Young men between the ages of 18 and 25, white, unmarried and without dependents, of good moral character, not less than 64 inches nor more than 74 inches tall and with a fair education are eligible to take the examination. Those under 21 years of age must have written consent of parents or guardian, sworn to before a Notary Public, or your local Postmaster.

On completion of the initial recruit training at San Diego, California, many men are selected for technical schooling in aviation, radio, motor mechanics, etc. All men in the Corps have an opportunity to enroll in the Marine Corps Institute where they may learn free of charge some trade, art or science. Those seeking travel and adventure may request duty on board ship or in some foreign land where Marines are stationed, it was stated.

Further information about the U. S. Marine will be furnished on request by your local Postmaster or by applying direct to the U. S. Marine Corps Recruiting Office, Dallas, Texas.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Major League Teams To Play At Sweetwater

Baseball fans of West Texas are to have the rare opportunity of witnessing a major league game next Thursday afternoon, April 7, when the Chicago White Sox of the American league and the Pittsburgh Pirates of the National league meet at Sweetwater under sponsorship of the Sweetwater Board of City Development.

Because of the big name players on the rosters of these two famous clubs and because of the hunger of sport fans in this section for a game of this calibre, advance ticket sales have far exceeded the fondest hope of sponsors. It was reported in the Nolan county capital yesterday. More than half of the 500 grand stand ducts had been sold and preparations were being made to accommodate around 2,000 on bleacher seats. Another 1,500 or 2,000 are expected to be standing room only fans behind the first and third base lines.

The game is scheduled to begin promptly at 2 P. M. Pittsburgh is due to arrive in Sweetwater over the Santa Fe from San Bernardino early the morning of the 7th and the White Sox will arrive over the Texas & Pacific from Pasadena at 9:30 this same morning. It will be their first meeting in Texas enroute home from their spring training grounds in California.

Sunshine Hard On House Paint

Strong sunshine is usually a major factor in the deterioration of paint, hence those parts of the house or other buildings, frequently on the south side, that receive direct sunlight determine the durability of white paint and paints of light colors may be somewhat longer than 4 or 5 years on heavily shaded houses and somewhat shorter in climates that combine sunshine with long periods of either extremely high or extremely low humidity. The nature of the wood painted likewise has a bearing on durability. The cedars, redwood cypress, and the true white pines, in grades practically free from knots, can be expected to hold white paint and paints of light color intact for 4 or 5 years under normal conditions. Edge-grain boards having narrow annual growth rings and of light weight in ponderosa pine, the spruces, and the hemlocks hold paint intact nearly as long as the woods just mentioned but the flat-grained boards that have wide annual rings or are very heavy lead to early breakup of paint coatings.

Strong, heavy softwoods, such as Douglas fir and southern yellow pine, ordinarily cannot be relied upon to hold white and light colored paint intact beyond 3 or 4 years but by priming them with exterior aluminum paint before

the first white paint is applied the durability of the coating can be raised more nearly to that of the softwoods of lighter weight.

Where more than 4 or 5 years may elapse between repainting, dark colored paints of great durability are particularly suitable. Experience has shown that many paint jobs have been unsatisfactory because of changing the kind of paint each time the house is repainted. It will be advantageous to the home owner if he keeps a record of the paint used when repainting and continues to use the same kind of paint each time he applies a new coating.

CHURCHES

CHURCH OF CHRIST REVIVAL CONTINUES

The revival, now going on at the church of Christ, is drawing a fine attendance. The day services, which are at ten-thirty in the morning, prove to be a fast of spiritual food, and many are taking advantage of them.

Mr. McDonald, the evangelist from Berger, draws a fine attention from the audience. His sermons are abbreviated, and to the point. He never holds the audience long enough to tire them.

The meeting will continue through the night of April the 3rd, including a sermon Saturday night and eleven o'clock Lord's day. If you have not heard Mr. McDonald, be sure to do so before the meeting closes.

Here From Oregon Henry F. Collier of Portland, Ore., is in Haskell this week. While in this section Mr. Collier stated that he was desirous of finding a favorable business location. He is a native of Haskell, son of the late Killebrew Collier, who will be remembered as a pioneer resident of this section.

Rhythm Band Takes Top Honors

The Rhythm Band, composed of thirty-five children from the first three grades, walked off with first place at Rally Friday. This event was preceded by much work and worry on the part of Mrs. Palmer, Mrs. Duff, Miss Williams and Mrs. Hinson. The band looked cute in their costumes and we were justly proud of them.

Watch Out For The Darkies!

Have you ever been to Weimer when it rained? Then you will admit we need cement walks. Really we need any kind of walks. The P. T. A. is going to give a negro show to help raise money for good cement walks.

school faculty will cavort as darkies with a number of ward teachers too. Mr. Wigley is taking a part and he knows how badly we need walks. Mr. Hawkins is to be a professor.

The date for this show has not been set. But remember it is coming and plan to see it. We know you all want a part in helping get the much needed walks. Don't Miss It!

F. F. A. News

Royce Teaff is planning quite an unusual project. He is going to plant an acre of tomatoes. He plans to plant more than one variety so as to have one that makes the best in this section. Tomato growing is not unusual but not on any commercial scale.

Edgar Kelso is reporting success in raising plants in a hot bed. He has already transplanted tomatoes to a cold frame and expects to transplant his peppers and other plants soon.

The Weimer chapter has six more Future Farmers. This brings the total to thirty-six.

Poultry keeping has been the class room discussion for the last week and some of the boys are getting ambitious in this line and plan to start long time projects

by getting baby chicks now and raising them until grown for egg production.

Dog House Gossip

This is a deep dark secret but we wonder if Raymond still goes with Wanda Jean?

We wonder where Dorothy Black was Saturday night? I wonder especially.

Has W. T. ever broken a date to go with Elizabeth M. and why were they going down the road so fast Sunday, and who was riding in the back seat?

We wonder why A. V. comes to see Miss Wade every Saturday night?

We wonder how Alton and Inez are getting along lately?

Why are they having so many parties lately in the Lake Creek community?

Why is Ernest Spinks always reading a book? (Is it so he can get an education?)

Who was Aletha sitting in the car with the other Saturday night?

We wonder why the Freshmen never have any parties? (Is it because they have no president? How about it David?)

We wonder how Edgar K. and Joyce C. are getting along lately?

Sid has a gun! We wonder if rabbits died from fright or from a bullet?

We wonder who is this mysterious girl at Breckenridge W. T. is writing to.

We wonder if Edward is still fussy in class?

"The Mummy Steps Out" Staged At Rule

The casts in the interscholastic play entitled "The Mummy Steps Out" journeyed over to Rule Friday and put on their play. Although they did not win they feel that they have not "fooled" away their time.

Grammar School Boy Wins Essay Contest

Bernard Cooley took top honors in ward school essay writing. We are proud of this.

Annual Senior Class Play Selected

Last week the seniors selected their class play. It will be the first royalty play ever presented in Weimer. The title of the play is "The Whole Town Is Talking".

Miss Wade, the senior class sponsor will direct the play. Characters have been selected and Helen Thomas and Edward Havran in the role of Mr. and Mrs. Simmons will play the leading parts. Mattie Louise Chatwell will be a movie actress and will play the part which the plot is hinged on.

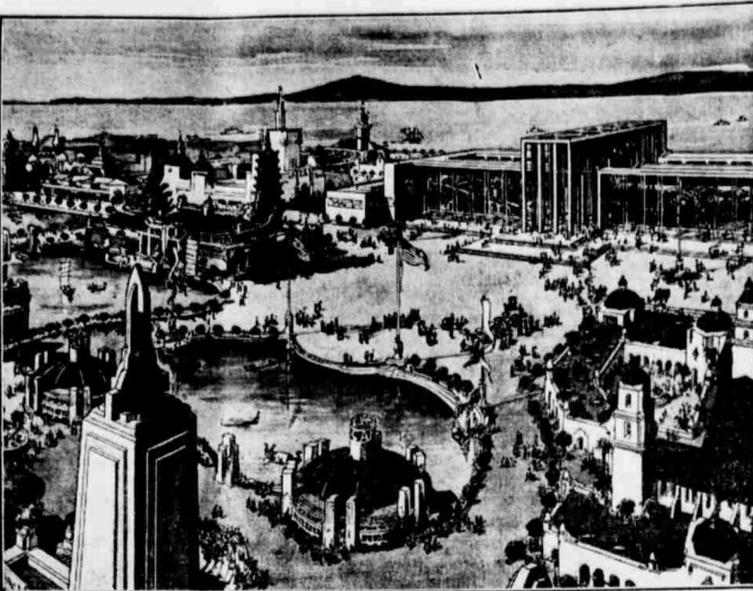

The seniors also plan to hold a reception for the visiting seniors of other schools after their play.

Spring Football Training Starts Soon

The Weimer Bulldogs are going to try their luck this year with football. As soon as track is over they will start spring training. Several boys are planning on entering although many have never played before.

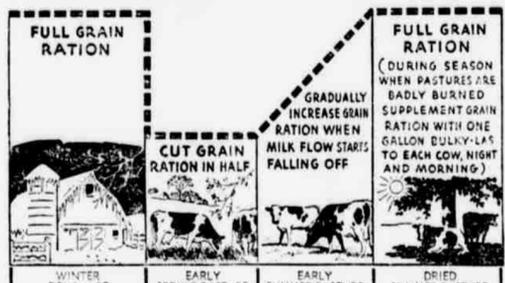

Mr. Hinson will be the coach. So come on folks and back the boys with that "Bulldog spirit."

WISE DAIRYMEN ADJUST AMOUNT OF GRAIN RATION TO TAKE EVERY POSSIBLE ADVANTAGE OF PASTURE

When dairy cows were still more or less in their "original" state, and gave only enough milk to feed their calves, pasture met their entire needs. Not much was expected of them so little feed or care was required.

"While not considered sufficient feed for the modern cow, grasses and good pasture still play an important part in our present-day plan of dairy feeding," says W. R. Arends of the Dairy Department of Purina Mills, in giving his recommendations for handling cows on pasture. "Nature has put important vitamins and health-giving materials into grasses and no dairymen can afford to overlook the advantages and benefits of good pasture."

Modern Cows Highly Bred
 "The cow has come a long way since the time she gave only enough milk to raise her own calf. Man has taken the original dairy cow and, through breeding, management, and feeding, has developed her natural instinct to produce milk to a level where grasses alone cannot give her all the nourishment she needs for making milk and keeping up body condition. If forced to exist on a ration of various grasses such as her ancestors did the modern dairy cow with a 12,000-pound milk record bred into her would break down completely," Arends says.

Loss of Weight Costly
 "At the Purina Experimental Farm, every advantage is taken of grass in season. Green grass, as every dairymen knows, stimulates a heavy flow of milk. But the bulk, palatability, and juicy freshness of green grass causes the heavy milking cow to over-work. This invariably leads to a falling off in flesh and milk flow later in the season," Arends points out. "Loss of weight means the dairymen must spend extra money in the fall to build her back to normal weight for winter production."

"Loss of weight on a grass diet is easy enough to understand," Arends explains, "because over stimulation takes more out of the cow than it puts back in. Additional feed along with pasture is an absolute necessity if cows are to come through the summer in healthy condition and give a full flow of milk through the cold months."

Pasture Must Be Supplemented
 "Our experiments at the Purina Experimental Farm show the neces-

sity of supplementing pasture to keep cows in good condition. It seems that little attention need be paid to milk production when cows are first turned out on grass. The chief concern is keeping up the herd's body weight. Feeds for supplementing pasture should be high in body building materials, very palatable, and bulky.

"On lush pasture the regular winter grain ration should be cut in half," Arends recommends. "Holsteins and Ayrshires should get about one pound of grain ration for every seven pounds of milk when pasture is good. Guernseys and Jerseys should be fed one pound of grain ration for every six pounds of milk."

Grasses Become Like Hay
 "Chemical analysis of pasture grasses shows that early season samples contain more moisture, and nearly twice as much protein as those cut later in the season. Crude fiber content increases as the season advances, and there is more calcium present. These are the chemical causes of the milk stimulating properties of early spring pastures," says the Purina dairymen, "and explains why milking cows do well on half the usual amount of winter grain ration when first turned out. As the pasture season advances grasses become more like hay. Gradually the amount of grain ration should be increased until the herd is back on the regular winter feeding schedule."

Grain Increase Necessary
 "Start working back on to the winter feeding schedule as soon as milk begins to fall off," Arends advises. "When pastures become burned and dried up the regular winter grain ration should be supplemented with one gallon of Bulky-Las to each cow, morning and evening. This feed is palatable, laxative, and supplies the nutrients that dried-up pastures lack."

"Planning pasture programs to get increased grazing yields is a problem to which state experiment stations and county agents have given a great deal of attention. Dairymen should contact these dairy specialists and secure their help in building profitable pasture improvement programs."

Freshman Class News

The freshman class is at last becoming interested in "The Lady of the Lake." We are still worried over the points we are supposed to get in the prose and poetry this last half.

We had our pictures taken last week. There were several different group pictures made. We hope the seniors have good annuals this year.

Everyone in the class that went to Rule Friday reported a nice time. Those who did not go surely missed a good time. Everyone was proud of the Rhythm Band.

The freshman class along with

several other classes had a new teacher Tuesday of this week. It was Brother Duff as we all know.

Barks

Carl J.—Somebody give me a cigar. (No one offered him one so he said) "Well I guess I'll have to smoke my own."

Miss Perrin—Vernon, can you tell me what time it would be if it were 13 o'clock.

Vernon (after studying a while)—Well it must be time to get a new clock.

Clyde Hunt—Mr. Henson, I know a good line of poetry.

LETTERS From Our Readers

Haskell, Texas, March 25, 1938 To The Haskell Free Press:

We have two good citizens running for the Legislature. Both of them are good men. But neither of them have issued his platform or has told us what he stands for. The people want to know what a man stands for before election. We do not want them to make the race without telling us what they propose to do if elected to the office which they seek. Especially is this true with reference to the Old Age Assistant. About 25 percent of the people are right at, or over the age of 65 years. The people of Texas overwhelmingly voted to pay each person over 65 a stipulated amount unconditionally to each one of them. Are our candidates for the Legislature in favor of this, or are they opposed to it. Let us know how you stand Mr. Candidate for the Legislature, you have the legislative authority if elected to do something for us, will you do it? Some candidates say they are in favor of economy. This is all right in its proper place, but are you in favor of economy as against the persons who are entitled to the money voted by the people? Do you think the present law is a good one? Are you in favor of a change? The simple statement that you are in favor of everything that is right and against everything that is wrong is too broad and not specific enough. If you think we ought to have the assistance voted by the people, where if elected do you propose to raise the money, by a sales tax or what have you? Please let us hear about this now.

(Signed) M. H. HARRIS.

Mr. Henson—A good verse of poetry, my son? Let's hear it.

Clyde—The man stood on the burning deck, His fleece was white as snow, Twinkle, twinkle little star, I remember the alamo.

Carl—Judge, you asked for the Lord's Prayer today in church. I'll bet you two-bits you don't know it.

Judge—It's a bet. Now they lay me down to sleep.

Carl—Here's your money. I didn't know you knew it.

Annual To Be Published Soon

From reports by the Bow-Wow staff the annual will be ready to be sent to the publisher in a few days. All the pictures have been taken and prepared also the necessary writing is all finished. The book lacks about one page of advertising, but this has been all promised so the senior class is fairly on their way to putting out the best annual that any school can put out at the price.

Seventy copies of the annual have been ordered. The Bow Wow of 1938 will include thirty engraved sheets. It will include a individual picture of every person in high school and a picture of every club that is a part of the school. Although the books are costing a piece they are being sold at the low price of one dollar each and about eight more of the books are left so those that are planning to get one should get their money to Helen Thomas or Miss Wade.

O'Brien Home Demonstration Club News

The O'Brien Home Demonstration Club met in the club house Wednesday afternoon, March 23 at 2:30 o'clock.

The roll call was answered with "How I Prolonged the Life of My Towels." Mrs. R. T. Carney gave a talk on Bath Towels. Mrs. Carney stated that the Turkish towels are more practical. When buying bath towels look for a closely woven, firm foundation fabric, and you will get more material for your money and better satisfaction. Mrs. Carney also stated that a good firm selvage on both sides of the towel gives the best all-around service. The larger towels should be chosen for adults and the smaller towels for children.

Center Point H. D. Club Has Discussion on Bath Towels

Center Point H. D. club met at the home of Mrs. Whatley March 17 at 2:30 p. m. House was called to order by the president. Meeting opened with song and prayer. We had an interesting discussion on kinds, colors, and sizes of towels to use. Mrs. John Fouts said we should always look for a towel with good hems, well stitched and of a strong woven foundation.

She also brought a collection of towels for members to see and judge quality. We all got several good ideas on how to buy good towels.

The club then had parliamentary
