To Meet Albany Friday

Greyhounds Skin 'Cats In Season Opener, 32 - 0

The 1979 edition of the Knox City Greyhounds made its debut in winning style Friday night in Greyhound stadium with a 32-0 win over the visiting Rule Bobcats.

The game was played with the usual amount of mis-cues and jitters most always associated with the first game of the year.

Knox City received the opening kickoff and Ricky Gonzales returned the ball 17 yards to the 37. Tim Roberson carried four straight times picking up 20 yards and two first downs. Two incomplete passes and a short run caused the Hounds to punt.

Dwayne Johnson, who is doing the punting for the Hounds this year, only had the opportunity to kick three times and each time did an excellent job of placing the ball. The first two were not long but effective making Rule start deep in its end of the field.

After an exchange of punts, on the Hounds' third possession they started on their own 31 with Roberson and Terry Watson alternating carrying the ball. Aided by a face mask penalty against Rule and a recovered fumble by Andy Barnard, Roberson scored on an eight yard burst over the right side. Gonzales kicked the extra point. The touchdown came on the second play of the second period.

The next time the Hounds got the ball, they moved deep into Bobcat territory highlighted by runs of 17 yards by Roberson, 18 yards by Watson and excellent blocking by offensive line lead Kyle White.

With first and goal on the Rule five yard line, the Hounds suffered two penalties, completed one pass, one run and two incomplete passes before turning the ball over to the Bobcats on their seven.

The Hounds' defense held a good runback of the Rule punt by Roberson put them in position for Johnson to pass 13 yards to Sammy White for a touchdown with 1:55 playing time left in the half. The point after was no good. Score: 13-0.

The second half opened with Rule receiving the kickoff. On the third down play, the Bobcats fumbled and the Hounds recovered the ball on Rule's 41.

The first offensive play, Roberson ran wide to the left side behind a wall of blockers led by Kyle White 41 yards for the score. Watson was rushed in as the place kicker since Gonzales was having leg cramps. The kick failed however, and the score remained, 19-0.

Following the kickoff and an exchange of punts, the Hounds started on their 45. On the tenth play of the series, Scott Lynn scored from the one. The drive was highlighted by a 13 yard pass from Johnson to Adam White, running by Greg Whitten, Watson and Lynn. Roberson then kicked the extra point. Score: 26-0.

The defense of the Greyhounds controlled the game. They continually kept the pressure on the Bobcats. The defensive effort was rewarded when Sammy White recovered a fumble in the Bobcat end zone for the final score.

Coach Jimmy Rogers' second team played all the fourth quarter of the game.

Statistics revealed that the defense did indeed have an excellent game.

In Plant Materials Center

Stenholm Urges Reconsideration

WASHINGTON, D.C. - Seventeenth District Congressman Charles W. Stenholm has urged reconsideration of a USDA study aimed at shifting administration of the Knox City Plant Materials Center from the Soil Conservation Service to non-federal control.

"This is a program that works with a minimum of federal funds and personnel and works well," Stenholm said in a letter of protest to Agriculture Secretary Bob Bergland. "Any disruption in the work now in progress at the Center would be a loss not only to the farmers and ranchers who benefit directly from its research, but also for the many sportsmen and members of the general

public who indirectly enjoy benefits through improved wildlife nutrition and habitats."

The Center is one of 22 such research facilities in the United States under a directive from the Secretary's office to consider plans to either phase out the centers or transfer them to non-federal sources.

"Proposed cuts in the funding of successful programs such as this one is a good example of the reasons people in my part of the country have begun to lose confidence in the federal government," Stenholm said.

Lions Club Drawing Is Successful

By Z.I. SMITH
The Lions Club raffle drawing to raise funds to repair and improve the Little League ball park was a huge success on Friday night.

Many Lions were asking donations on a last minute basis at the field Friday night and then the drawing was held at halftime. Sweetheart Angelia Reid assisted with the drawing and winners were announced by Lion Bill Baker over the speaker system.

Winner of the shotgun was reported to be Mrs. Roy (Jerri) Day Jr., the 75 gallons of gas by a ticket holder from Abilene, and the hair dryer by Bobby Vasquez of Knox City. Donations totalled approximately \$1400 and when prizes are paid for, it will provide a big boost to the money needed for repairs.

Miracle Services To Return To Foursquare

Pastor Stuart Miller of the Knox City Foursquare Church announces the return of Paula Kilpatrick for a week of Miracle Services.

"Sister Kilpatrick was here several months ago with outstanding results. Many had the opportunity to see a miracle first-hand. Many miracles are not observable but we had a number of short legs grow out which allowed the people who had never seen God work a miracle to see one," states Pastor Miller.

"Paula Kilpatrick received the Baptism in the Holy Spirit in 1973 and was miraculously healed of two 'incurable' diseases. Since that time God has called her to minister to the needs of the church. She is greatly anointed by God and

operates the gifts of the Holy Spirit such as Prophecy, Healing, and Word of Knowledge. The power of God has worked through her ministry to heal incurable diseases such as M.S. and cancer. Her ministry is 'Not with enticing words of man's wisdom, but in demonstration of the Spirit and of Power', I Cor. 2:4. Legs have been lengthened, deaf ears have been opened, barren women have conceived, and many inner healings have been experienced.

"Absolutely everyone is welcome to attend these exciting services. The Miracle Revival begins 10:45 a.m. and 6:00 p.m. Sunday, September 16, and will run 7:00 p.m. nightly through September 21," Pastor Miller said.

EMS REPORT

The following reports were filed by John Turner of the Knox City Emergency Medical Service for the week of September 3 through September 8.

Monday, September 3 - Clara Walton transferred from Knox County Hospital to Methodist Hospital in Lubbock. EMT's were John and Ilene Turner and Cyle Clayton.

Tuesday, September 4 - Maggie Hord transferred from Knox County Hospital to Wichita General Hospital. EMT's were John and Ilene Turner.

Thursday, September 6 - Emergency - Pat Handley was taken from a residence in Truscott and brought to Knox County Hospital suffering chest pains. EMT's were Glen Rumley and John and Ilene Turner.

Saturday, September 8 - Emergency - Billy Panell picked up three miles south of Rochester and taken to Haskell Memorial Hospital, passed out. EMT's were John and Ilene Turner and Roland Marion.

Saturday, September 8 - Vera Denton transferred from Knox County Hospital to her residence in Knox City. EMT's were John and Ilene Turner and Roland Marion.

A HEAD-on collision Monday afternoon about 4:30 near the intersection of East Main and Avenue C involved two high school students, Henry Lerma and Jeffrey Quintana. Lerma, driver of a 1969 Plymouth struck Quintana's 1962 Chevrolet, and according to City Marshal John Turner who investigated, both vehicles were total losses. In addition to the drivers, two passengers were in each car. Four of the boys received minor injuries and two required medical attention from local doctors.

Officials Join Forces To Collect Bad Checks

On September 1, the offices of the Knox County Sheriff and the Knox County Attorney joined forces in an effort to more effectively collect bad checks.

The law has been amended and officials are now allowed to collect a fee, with the amount variable according to the amount of the check. This fee will be paid into the county treasury and should prove to be an additional deterrent to bad check writers, officials said.

As of September 1, 1979, all checks will be processed through the County Attorney's office. However, officials are asking that before turning a check over to them, the following procedures be complied with:

1) Before placing a check marked "insufficient funds" in the hands of the Sheriff or County Attorney, one should send a letter to the person's last known address requesting payment of the check. This letter must be sent by certified mail, return receipt requested. It is not

necessary to send this letter if the check was returned marked "no account."

2) Never accept partial payment on a check.

3) When turning over the check to them for collection, one should make a notation of what property or service was obtained in exchange for the check. For example, if the check went to a gas station for \$20.00, \$10.00 of which was for fuel and \$10.00 for cash, it is essential that they be advised of this fact.

4) If the check paid off a pre-existing debt, i.e., payment on an open charge or credit account, do not turn the check over to them for collection because they have no jurisdiction over this type of check. If they attempt to collect it for you, they place themselves in danger of being

charged with false arrest.

5) Most importantly, one should obtain accurate identification and a correct address of the person from whom he or she accepts the check. If there is any doubt in one's mind whatsoever, he or she should require presentation of a VALID Texas Driver's License and note the license number on the check. If the person cannot present a Texas Operator's or Commercial License, one should not accept a check from him. They have in their files many checks that are simply uncollectable because the person who wrote the check moved away, and with no driver's license number it is impossible to locate him. One should impress on his or her employees that there is no substitute for the driver's license identification, and it must be a Texas license and not that of another state.

County Sheriff James E. Redwine and County Attorney Bobby D. Burnett said they would appreciate cooperation on this matter and they hoped by everyone's working together that losses could be cut down considerably due to bad checks.

Tickets For Opry Show Selling Fast

Advance ticket sales for the Grapevine Opry show in the Benjamin Memorial Center on Thursday, September 27, are going exceptionally well.

Seating will be limited and with still two weeks to go until showtime, a sellout crowd is likely.

Opry owner Chisai Childs, along with her sidekick, Johnnie High, will get the fast-moving two-hour variety show underway at 8:00 p.m. A half-time intermission will give fans time to visit the concession stand, which the Benjamin ex-students will have well-stocked with sandwiches, brownies, soft drinks, coffee, and other 'goodies'.

In addition to Chisai and Johnnie, the award-winning Grapevine Opry will perform, along with special guest stars, The Master's Four, Davis Brothers, Doug Poteete, Joey and Jill, Joy and Joe Roper, Valerie Price, John Kirby, the Tri-County Cloggers, and The Angle Sisters.

Leah Boone Wins At WT Fair

In the Open Youth Horse Show held Sunday morning at Abilene's Taylor County Coliseum, eleven-year-old Leah Boone won the poles in the 13 and under division and split a fifth and sixth in barrels riding Feather Lite. Showing Teddy Bear, Leah placed fifth in showmanship and sixth in both western pleasure and western horsemanship in the 13 and under division of the Open Youth Show.

In the Saturday American Quarter Horse Show, also held in conjunction with the West Texas Fair, Leah tied for sixth in 13 and under barrels riding Jay Nip.

Leah, a sixth grader at O'Brien Mid-School, is the daughter of Mr. and Mrs. Joe Boone.

Couple Say Vows In Ranch Home Wedding

Trenna Erwin and Kynn Patterson exchanged wedding vows before a few friends and relatives of the couple Friday evening, August 31, in a western setting of the front yard of the Beavers Ranch headquarters home of Mr. and Mrs. Donnie Ryder.

Parents of the couple are Mr. and Mrs. Jim Cash of Gilliland and Mr. and Mrs. O.L. Patterson Jr. of Benjamin.

Local Methodist pastor, the Rev. James Patterson, officiated at the sunset ceremony.

The bride chose a floor length apricot dress trimmed in lace. She carried a bridal bouquet of spring flowers accented with colors of apricot and blue. An apricot daisy also adorned her hair.

Shannon Ryder was maid of honor and she wore a floor length light blue dress which was also trimmed in lace. She carried a long stemmed blue and white carnation.

The bridegroom wore a blue denim western cut suit. Best man was the bride's cousin, Donnie Ryder, who was also in western attire.

A reception was held in the home of Donnie and Jimmie Kay Ryder. The bride's and bridegroom's cakes were made and decorated by the bride's mother in colors of apricot and white. The bride's tiered cake was topped by two doves, and small doves were placed on the bridegroom's horseshoe-shaped cake.

The bride, a graduate of

Crowell High School, is now attending Vernon Regional Junior College School of Nursing. Her husband is a graduate of Lyndon B. Johnson High School in Johnson City. He attended Southwest Texas State University in San Marcos and Tarleton State University in Stephenville, where he received his bachelor of science degree in agriculture.

The couple, along with little Jason, will make their home in Crowell where Trenna will continue her nursing course and Kynn will continue farming and ranching with his father east of Benjamin.

The heat pump

"THE ELECTRIC SAVINGS MACHINE"

Stretch your energy dollars - install an energy-efficient electric heat pump

A heating system that's more than 200% efficient may seem like something out of the future. But it isn't. It's yours today, with the electric heat pump. Because when correctly installed in a properly insulated home, the heat pump produces two units of heat for each single unit of electricity it uses. It transfers heat that's always present in sun-warmed outside air into your home during the winter. And reverses the process, pumping heat outdoors during the summer.

If you have plans to buy, build, or remodel, or are looking for a new heating and cooling system for your home, call a local FACTORY TRAINED heat pump dealer or talk with WTU. We will arrange for a WTU heating and cooling specialist to contact you. Learn more about the easy-to-install, economical electric heat pump - your most energy-efficient heating and cooling system buy.

Brunch Opens New Study Club Year

A Pioneer Brunch opening the new year of the Knox City Study Club was held Thursday morning, September 6, at ten o'clock in the Community Center and those attending heard four local women discuss "Federation."

Twenty-six visitors and club members enjoyed the delicious brunch. Among those present were Mary Beth Smith, Mae Bradley, Opal Hutchinson, Ruth Denton, Louise Burnett, June Kane, Tommye Adams, Jessie Roberts, Birdie Propps, Myrtle White, Ervalene Beason, Charlotte Patterson, Elizabeth Wilson, and Clara Smith.

Also, Ilene Turner, June Norton, Zoanne Felts, Winifred White, Gladys Reed, Sudia Cash, Sammie Carpenter, Lillian Logan, Deborah Hubbard, Lena McGee, Yvonne Harrison, and Wretha Fitzgerald.

Refreshments of sausage links, rolls, sausage balls, cookies, strawberries with powdered sugar, coffee and punch were served from a lace-laid serving table holding a red carnation arrangement. Appointments were of crystal and silver, and Mrs. Harrison and Mrs. Cash shared serving duties.

The club house was decorated with interesting hats of every size, shape, color, time and place. They were displayed on wigs and wig heads and were grouped in various collections.

President Winifred White called the meeting to order and Sudia Cash led the group in the club collect. The ladies also repeated the "Pledge of Allegiance" led by Sammie Carpenter.

Guests introduced themselves and told an interesting fact about themselves.

Roll call was answered to "A Pioneer Memory" which brought many interesting revelations about club members and guests.

Minutes were read and approved and Mrs. White introduced Charlotte Patterson and Elizabeth Wilson, who

provided musical entertainment. Mrs. Patterson sang "Memories" and was accompanied by Mrs. Wilson at the piano.

Mrs. White then introduced the first speaker, Lena McGee, who is Mesquite District president. She discussed Mrs. Jane Croly, who organized or founded General Federation because her husband refused to let her attend (March 1869) a club meeting simply "because she was a woman." She started her own club with women and they built their club on the motto: "Unity and Diversity." One thousand, nine hundred fifty-seven Federation clubs adopted this motto as the official motto of Federation. Mrs. Croly also organized "The Woman's Press Club" since she was a newspaper reporter and her pen name was "Jenny June." She called her club, "The Sorosis Club." Mrs. Patterson sang "Unity and Diversity" as a conclusion to Mrs. McGee's thoughts.

Mary Beth Smith discussed "When Texas Joined The General Federation" (May 1897). The federation flower, Bluebonnet; bird, Mockingbird; tree, Pecan. Permanent headquarters, Austin. The oldest club in Texas Federated Club is "The Shakespeare Club" in Abilene, which was organized in 1884. The Knox City Club is a unit in the Great Federation.

Winifred White discussed "Districts In Federation." Districts were first organized or created in 1901, now Texas has 15 districts. Marie Ward of Aspermont was first president of the Mesquite District with Mrs. McGee as the current president.

Wretha Fitzgerald gave the "History of Knox City Study Club," which was organized in 1924. First president of the Knox City Study Club was Mrs. O.L. Jamison. Mmes B.B. Campbell, Effie Branton, W.J. Masters, E.Q. Warren, and J.C. Reeder were other officers. Wretha gave an interesting account of workings of the KC Study Club and the 1946 Study Club through the years.

Finance club chairman Gladys Reed suggested the Study Club sponsor a garage sale, and it was held last weekend in the old Fabric Shop building all day Saturday.

Hostesses Lena McGee, Sammie Carpenter, Winifred White, Wretha Fitzgerald, Gladys Reed, Yvonne Harrison, Lillian Logan, and Sudia Cash wore long skirts, pioneer blouses, and some of the ladies also wore hats.

Daniel Named Tarrant Co. Agent

Jackie W. Daniel has been named County Extension Agent for 4-H for Tarrant County effective September 1, 1979, according to Tarrant County Judge Mike Moncrief and Dr. Thomas Woodward, District Extension Agent for District 4 of the Texas Agriculture Extension Service.

Daniel, a native of Foard and Knox Counties, grew up on the Alexander and J Y ranch of Truscott. His family is presently in the cattle, farming, and real estate business. He is the son of Mr. and Mrs. R.C. Daniel of Truscott.

A 1972 graduate of Crowell High School, Daniel was active in 4-H and FFA. He was an officer for his class and FFA chapter for two years. He was also Mr. CHS. He graduated from Vernon Regional Junior College in 1974 as the most outstanding agriculture student. Daniel was vice president of the

student government for one year, along with being charter member and officer of five student organizations on campus.

In 1976, he received his degree in agriculture education from Texas Tech University on the Dean Stangle Scholarship. He was an honor student and was active in collegiate FFA, and on the Texas Tech Aggie council.

He has also been a vocational agriculture

teacher for two years and served as Assistant County Extension Agent in Young County for the past 1½ years.

Daniel is married to the former Diane Green, also of Knox County. She is the daughter of Mr. and Mrs. Van Green of Benjamin.

"SAVING ME MONEY?"

HOW?"

Lone Star has the lowest distribution costs of the 4 major gas utilities in Texas.*

We've done a better job of controlling our operating costs than any other major gas utility in Texas three years in a row: 1976-1977-1978. * And we plan to do it again in 1979, because it's one way we can save you money.

Lone Star's operating-distribution costs include wages and salaries, the leases on our offices and facilities, taxes, supplies, maintenance, repairs, depreciation on our equipment, and scores of other things.

Gas is naturally efficient, naturally economical. Our low distribution costs make it an even better value for you.

Feeder/Cleaner Can Remove Cotton Trash

Cotton can be a cleaner product when it reaches the textile mills, thanks to a new discovery made by engineers at Texas A&M University and Cotton Incorporated.

While watching a high-speed movie of cotton modules being fed into a module feeder at the gin, the engineers noticed something unusual. The dispersing cylinders were actually separating the cotton and the trash that's common with stripper type harvesting.

From this observation came a new machine called a feeder/cleaner. It removes up to 70% of the dirt and trash from seed cotton before it ever enters the gin. This increases gin efficiency and, in some cases, saves producers 20-25% of the total per bale processing costs. Just as important, it can improve the grade of cotton by as much as \$10 a bale, according to one farmer.

The movie-going engineers were Lambert H. Wilkes and Gary Underbrink of Texas A&M and J.K. "Farmer" Jones of Cotton Incorporated, the research and marketing arm of cotton producers.

Jones explained how the feeder/cleaner works. "Actually, the cleaner is nothing but channel saw-type cylinders. They actually catch the cotton in mid-air and let the already separated trash go over the grid bar."

An oversimplification, perhaps, since it took over two years to perfect the feeder/cleaner, which was field tested in the Texas High Plains and in the Coastal Bend area of Texas.

Wilkes, professor of agricultural engineering at the Texas Agricultural Experiment Station in College Station, and Underbrink, research associate, worked out the design in cooperation with Jones, Cotton Incorporated vice president and director for processing and handling research. This is the same team that

developed the module builder and gin feeder system.

The project was funded jointly by Cotton Incorporated and the Texas Agricultural Experiment Station and is another example of the producer's per bale checkoff at work.

The feeder/cleaner has potential especially for stripper-harvested cotton, which is gaining wider acceptance across the belt, even though the stripper means more trash in seed cotton. For instance, in West Texas, it commonly takes 2,200 or more pounds of seed cotton to produce a bale of lint. Of that 2,200 pounds, the smallest portion is lint, with seed about 925 pounds, trash about 775 pounds, and the lint about 500 pounds. In the Lubbock test, the feeder/cleaner removed 400 to 550 pounds of trash per bale from the cotton before it entered the gin.

"This increases the amount of cotton you can process in a given unit of time," said Underbrink, "since overhead cleaning capacity is a limiting factor in many gins."

Wilkes added, "It also reduces the amount of energy required to handle the trash. You are looking at 700 to 1,500 pounds of trash per bale in some stripped cotton and it takes a tremendous amount of energy just to move it from one place to another."

The feeder/cleaner was also tested in Corpus Christi, to see how it would work with high moisture cotton, the condition that exists in the rainbelt areas.

According to Wilkes, it removed 40% to 42% of the trash in the Corpus Christi test.

"The feeder/cleaner will work in high moisture cotton," he said. "This has been one of our concerns. This becomes increasingly important as stripper harvesting moves into the high rainfall areas."

Depending on how trashy your cotton is, the

feeder/cleaner can improve cotton by as much as two grades, says Lloyd Morris, operator of the Victory Gin in Corpus Christi, where the test was held.

"You could go from zero to maybe \$20 a bale, depending on how rough your cotton is," said Morris.

"We like the part of keeping the trash and dirt out of the gin plant," he added. "It was very noticeable that the dust went down and we probably picked up two grades at the press. But we had some very rough cotton."

Morris' cotton had a 25% moisture content.

"If it's any worse than this we will just have to quit," he quipped. "So if the feeder/cleaner did any good in this country, it should work like a charm anywhere else."

Approximately 90% of the Texas and Oklahoma cotton was harvested with strippers last year.

Underbrink explains why: "The stripper is a cheaper method of harvesting than the picker. It's faster, more economical, and there is less loss of seed cotton. However, on the negative side, it takes 1,600 pounds of seed cotton to make a bale of cotton in picker areas. Whereas, with stripper harvesting, it may take from 2,000 to 3,000 pounds to produce that same 500 pounds of lint. Most picker-adapted gins can't handle that much trash."

"The feeder/cleaner, however, offsets the disadvantages of having more trash in your cotton," he added. "With the feeder/cleaner it's not necessary to modify the complete gin plan when converting from picker to stripper cotton. And you don't lose capacity."

Another advantage of the feeder/cleaner is that it removes trash with very little seed cotton loss.

"Anytime you clean cotton you are subject to an amount of seed cotton loss," says Underbrink.

"And that's like throwing away money. We have been able to maintain a seed cotton loss elow 1% and still do this high efficiency cleaning."

The unit is designed so it can be used as a complete feeder/cleaner, as was done in the Lubbock test, or the cleaning unit can be attached to some already existing feeders.

"I think we have got to put one in a gin and run it for a year under all conditions to really advise the farmers and ginners on the total economics involved," concluded Jones.

Dear Billye Bess:

I would like to subscribe for *The Knox County News*.

Reading it is like getting a letter from home. We lived there for many years, before moving to Amarillo, then Canyon.

My late husband Chester Yates and I lived there so long we had lots of dear friends at Knox City, O'Brien, and Munday, and the Knox City paper is one way keeping in touch with everyone.

Thank you so very much.

Stocker Calf Health Discussion Tonight

Dr. Whitney Rounds, Extension livestock specialist, will be on hand tonight, Thursday, in the Courthouse Assembly Room at Benjamin at 8:00 o'clock to discuss health problems, new medicines, and various treatment programs for stocker calves.

According to Knox County Extension Agent Tommy Antilley, the time is here to purchase stocker calves and get them shaped up and ready to go on small grains and one of the major concerns will be sickness and treatments.

For this reason Antilley feels the meeting should be very beneficial to producers in making decisions concerning health problems and marketing of stocker calves.

Also on hand will be Norman Britts, Extension economist who will discuss price outlook for both small grains and stockers.

Senior Citizens Van Available For Opry

For those senior citizens who do not like to drive at night, the Knox County Senior Citizens van will be available for the trip to the Grapevine Opry show at Benjamin on Thursday, September 27.

Mrs. Lillian Logan, coordinator for the Knox County Aging Services program, said the van could accommodate 11 passengers plus the driver, and will be on a "first come, first serve" basis.

Persons who would like to make the trip on the van should contact the News office immediately as a list has been started.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS OF PROPOSED
CONSTITUTIONAL AMENDMENTS
SPECIAL ELECTION
NOVEMBER 6, 1979

PROPOSITION NO. 1 ON THE BALLOT (H.J.R. 108)

House Joint Resolution 108 proposes an amendment to the Texas Constitution relating to the appointment and terms of notaries public. The proposed amendment would: —Require the Secretary of State to appoint a convenient number of Notaries Public for the state; and —Authorize terms of office of Notaries Public of not less than two years nor more than four years.

A temporary provision of the proposed constitutional amendment provides that the amendment would take effect January 1, 1980; that each person who was appointed a notary public before January 1, 1980, would continue to serve as a notary public for the term for which the person was appointed; and that this temporary provision would expire January 1, 1982.

PROPOSITION NO. 2 ON THE BALLOT (H.J.R. 133)

House Joint Resolution 133 proposes an amendment to the Texas Constitution to provide for legislative review of the process of rulemaking by agencies in the executive department. The proposed amendment would allow the Legislature to enact laws:

- To provide for legislative review of the process of rulemaking by agencies in the executive department;
 - To prescribe conditions for rules to take effect;
 - To provide for suspension, repeal, or expiration of rules;
 - To prescribe procedures; and
 - To delegate powers to either or both houses or to committees of either or both houses.
- The proposed amendment will appear on the ballot as follows:

the process of rulemaking by agencies in the executive department."

PROPOSITION NO. 3 ON THE BALLOT (S.J.R. 13)

Senate Joint Resolution 13 proposes an amendment to the Texas Constitution authorizing the Legislature to provide for the guarantee of loans used to purchase farm and ranch real estate for qualified borrowers. The proposed amendment would allow the Legislature to provide for, issue, and sell general obligation bonds called "Farm and Ranch Loan Security Bonds" of the State of Texas not to exceed 10 million dollars. All money received from the sale of such bonds would be deposited in a separate fund with the State Treasurer and administered by the commissioner of agriculture without further appropriations. These funds would be used to guarantee loans for the purchase of farm and ranch real estate. The commissioner of agriculture would use these funds, under provisions to be prescribed by the Legislature for the purpose of guaranteeing loans used for the purchase of farm and ranch real estate, to acquire real estate mortgages or deeds of trust on lands purchased with guaranteed loans. These funds would also be used to advance to the borrower a percentage of the principal and interest due. The Legislature may also authorize the commissioner of agriculture to sell at foreclosure any land acquired in the manner authorized by this amendment. The commissioner of agriculture would be required to charge at least 6 percent interest on such loans. The proposed amendment appropriates an amount that is sufficient to pay the principal and interest on the bonds that mature or become due during the fiscal year less the amount in the interest and sinking fund at the close of the prior fiscal year.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the guarantee of loans for purchase of farm and ranch real estate for qualified borrowers by the sale of general obligation bonds of the State of Texas."

Perdue Is New IIAT Executive

AUSTIN - Tom Baker, president of the Independent Insurance Agents of Texas, announced August 28, the appointment of David N. Perdue as IIAT executive director.

Perdue joined the IIAT staff in 1968 and has served as director of governmental affairs for the last eight years. He holds bachelor's and master's degrees from Stephen F. Austin University and has been awarded the Certified Association Executive designation by the American Society of Association Executives.

IIAT has a membership of 2,900 agencies, making it the nation's largest association of independent agents.

Perdue is the son of Mr. and Mrs. Neil Perdue of Knox City.

PROPOSICION NO. 3 EN LA BOLETA (S.J.R. 13)

La Resolución Conjunta Senatorial #13 propone una enmienda en la constitución de Tejas para autorizar a la Legislatura para que provea una garantía de préstamos, a las personas calificadas, para la compra de bienes raíces agrícolas y ganaderas. De esta manera, la enmienda propuesta podría permitir a la Legislatura el proveer, emitir y vender bonos de obligación general llamados "Farm and Ranch Loan Security Bonds" (Bonos de Seguridad Para Préstamos Agrícolas y Ganaderos) del Estado de Tejas, sin exceder la cantidad de \$10 millones de dólares. Todo dinero recibido de la venta de estos bonos sería depositado en un fondo diferente en la Tesorería Estatal y sería administrado por el comisionado de agricultura, sin más apropiaciones. Estos fondos garantizarían préstamos para la compra de bienes raíces agrícolas y ganaderas. El comisionado de agricultura usaría estos fondos bajo las provisiones prescritas por la Legislatura, con el propósito de garantizar préstamos para la compra de bienes raíces agrícolas y ganaderas; para adquirir hipotecas de bienes raíces o escrituras de bienes raíces compradas con préstamos garantizados. Estos fondos serían usados también para adelantar un porcentaje del principal y del interés debido en esos préstamos, a la persona que califique para el préstamo. La Legislatura también podría autorizar al comisionado de agricultura para que venda cualquier terreno adquirido mediante esta enmienda. El comisionado de agricultura requeriría al menos un 6 por ciento de interés en dichos préstamos. La enmienda propuesta apropiaría la cantidad suficiente para pagar el principal y el interés de los bonos que vayan adquiriendo más valor, o que se venzan durante el año fiscal, menos la cantidad del fondo de interés y amortización al final del año anterior.

La enmienda propuesta aparecerá en la boleta como sigue:
