#### Majority of County Voters Back Corry In "Write-In" Campaign

Haskell county voters turned out in record numbers compared to previous national elections, to poll a total of 4,050 ballots Tuesday in endorsing the Democratic ticket from top to bottom with one exception—the office of Commissioner of Agriculture—in which Bill Corry, write-in candidate, was given heavy majority over J. E. McDonad, Willkie-Democrat.

In State voting, however, McDonad polled a total of 216,496 votes to 141,679 for Corry to win the office.

Corry received a total of 2,183 votes to 1,027 for McDonad. The write-in candidate carried eighty-eight voting boxes in the county, with McDonad given a majority in three boxes, based on unofficial tabulation of returns made to County Clerk Roy Ratliff.

County returns also indicated voters favored three of the four proposed constitutional amendments, disapproving the bill to authorize legislative appeal. Vote on the amendments in Haskell county was:

No. 1, Haskell—Roosevelt 496; Willkie 9; Corry 390; McDonad 130.

The festival will be held as early in the month of December as possible, and will mark the opening of the holiday business season in Haskell.

Tentative plans for the event include a Santa Claus parade, retail store decorating contests, window display contests, and a holiday window unveiling for local stores. #### Substantial Increase In Patronage During First Year's Operation of The Haskell County Hospital

Average of Two Patients Admitted Daily To Institution

The Haskell county hospital during its first year of operation has experienced a steady and substantial increase in patronage, while additional facilities have been added to the modern institution to make it one of the best equipped in this section, according to statistics in the first annual report of Mrs. Verna Harwell, superintendent of the hospital.

The institution, opened to the public Oct. 23, 1939, was built and equipped at a cost of approximately \$100,000. Laboratory, operating rooms are furnished with every modern facility, and the hospital has accommodations for between thirty-five and fifty patients.

The annual report shows that an average of two patients daily were admitted to the hospital during the past twelve-month period.

#### Drive for Members Will Begin Nov. 11th, Ends Nov. 30

Declaring the American Red Cross will seek its greatest peace-time membership to support growing national defense obligations, Rev. Clifford W. Williams, Roll Call chairman for the Haskell county Red Cross chapter announced Thursday that all plans were in readiness to inaugurate the annual Roll Call membership campaign in Haskell county Monday, November 11. The annual Roll Call will be observed throughout the nation from Nov. 11 to Nov. 30.

"With Europe and Asia at war and America facing tremendous responsibilities, there never before in times of peace has been a greater need for the Red Cross," he said. "If the American Red Cross is to meet the mounting obligations that have come in recent months, it is imperative that the invitation to join must be extended to every patriotic man and woman."

In order that the Roll Call may be extended to every town and community in the county, Rev. Williams and Miss Ruth Nunnally, chairman of the county chapter, expected to complete Friday the appointment of sub-chairmen in the various communities, including Rule, Rochester, O'Brien, Weinert, Mattson, Paint Creek and Sagerton. In turn, sub-chairmen will enlist volunteer workers to assist in the campaign.

W. P. (Bill) Ratliff, Haskell attorney, was named as sub-chairman for this city. Rev. Williams stated.

The minimum membership in the Red Cross is \$1.00 a year. Of this sum, one-half remains with the County Chapter, and one-half goes to the national chapter.

National defense obligations have resulted in increasing the manifold activities supported by the American Red Cross, and these include both military and civilian welfare service, medical and health service, disaster relief in civilian areas, home hygiene and of the sick special civilian volunteer workers for home service and civilian relief work, and a score or more additional activities in the interest of national defense and safety.

Chapter officers, sub-chairmen and volunteer workers plan to complete the county-wide Roll Call as quickly as possible, but the drive will be continued until the end of the month if necessary to reach all the people in the county.

No goal has been set this year for the county membership total. Rev. Williams said. He pointed out that every membership that can be obtained will be needed in widening Red Cross services.

## Indians Lose to Hamlin 37-0

Last Friday night the Haskell Indians went to Hamlin to play them on their own field, and a large crowd from Haskell went to the game. The boys put up a good fight, but they were definitely out played. Hamlin has the best team of several years, and is in the running for District Championship.

**Will Meet Albany Friday**  
 The Haskell Indians play the Albany Lions on the Indian field tonight. This is the first time in several weeks that Haskell has had a game on their own field, and we are looking forward to having a large crowd out to support the team.

## Faculty Birthdays Are Numerous

The last week of October turned out to be quite a siege of birthdays of the high school faculty. Comparing notes they discovered that Mr. McCollum's came on October 24, Miss Vick's on October 26, Mr. Mason's on October 28, Mr. Ramsey's on October 30, and Miss Breedlove's on October 31. These facts were not generally known until Miss Breedlove (whose birthday came last) began displaying a lovely wrist watch which she received as a gift. Then the subject of recent birthdays came up among the teachers. All were of the opinion that a general celebration should have been held, but it was then too late.

Another singular fact about these last-of-October birthdays is that Miss Vick's comes on her mother's. Also it will be noted that the teachers who have been named lack just one of comprising half the high school faculty.

## Students Assume Reporting Duties

For various reasons the high school has not been represented very frequently this year in the school news of the Abilene Reporter. Such will not be the case from now on, however, since two senior students have agreed to be our reporters for that page. These students are Fatsy Pate and George York. They intend to have some report from our school in every Tuesday's issue of the Reporter.

## FFA Sweetheart Is Named

The Dave Persons Chapter of Future Farmers of America, have selected Betty Jo Hester as their sweetheart for the year 1940-1941. The race has been more exciting than in previous years, and some of the boys were interested enough to make campaign talks in assembly. The other nominees were: Frances Chapman, from the third year class, and Billie Jack Spear from the first year class. It may be interesting to know that all these girls were from the Junior class.

**MRS JINKS McGEE**  
 of Abilene, Texas, writes:

I have had my SERVEL ELECTROLUX refrigerator for five years. In that time, the SERVEL has needed no repairs. Operating for a few cents a month, it has always given dependable service.

I used mechanical refrigerators for ten years previous to buying a SERVEL ELECTROLUX. None of these began to compare with my SERVEL in economy of operation.

Its silence, solid construction, beauty, and economy prove to my satisfaction that the SERVEL ELECTROLUX cannot be bettered for perfect refrigeration.

- NO MOVING PARTS TO WEAR in its freezing system
- PERMANENT SILENCE
- CONTINUED LOW OPERATING COST
- MORE YEARS OF CAREFREE SERVICE
- SAVINGS THAT PAY FOR IT

Chevrolet Dealer Meeting Held In Dallas Recently

The largest Chevrolet dealer meeting in the history of the Southwest was held at the Baker Hotel, Dallas, Texas, October 30. Over 550 dealers, from the state of Texas, Oklahoma, New Mexico, Arizona, Louisiana and Mississippi, attended this meeting.

This great Chevrolet meeting was in celebration of the seventh birthday of the present M. E. Coyle and W. E. Holler administration and was one of their scheduled nation-wide meetings to be held in all Regional headquarters cities throughout the country. Seven years ago Mr. M. E. Coyle assumed control of the Chevrolet Motor Division, as President and General Manager, and Mr. Wm. E. Holler was appointed General Sales Manager at the same time.

Under the leadership of Mr. Coyle and Mr. Holler in these seven years Chevrolet dealers have sold retail over seven million new Chevrolet cars and Chevrolet trucks and more than twelve million used cars and trucks and maintained Chevrolet in first place in the entire automobile industry and, during the last ten years, they have been in first position nine times. The annual dollar value of merchandise sold retail by the 8,600 Chevrolet dealers throughout the United States has averaged one billion dollars per year.

At this meeting Mr. Coyle outlined Chevrolet's production plans for the new 1941 models and advised the dealers the position that Chevrolet occupies in the automobile industry today and the viewpoint and plans of the officials of Chevrolet for months and years to come.

Mr. Holler outlined distribution plans and announced that the goal for 1941 of 1,100,000 new and 2,200,000 used cars and trucks was well within the reach of Chevrolet dealers nationally whom Mr. Holler called the greatest selling organization in the country. To back up this viewpoint he called attention to the Defense program

## TEL Class Holds Monthly Social and Business Meeting

The TEL Sunday School Class of the Baptist Church met Tuesday afternoon in the home of Mrs. John A. Couch in their monthly social and business meeting. To open the meeting, the song "All Hail The Power" was sung by the group followed by a prayer by May Belle Taylor.

A business meeting followed in which many good reports were given by the group captains. Mrs. R. C. Couch brought the devotional asking first that the class sing Count Your Blessings. Afterwards she read the 100th Psalm and talked on Thanksgiving. She enumerated many of the blessings that as American people have for which to be thankful. Her talk was very beautiful and caused us to think back and recount the many blessings of the past year which we have received from the hand of our bountiful Father. Mrs. John Ellis offered a prayer and Mrs. J. M. Littlefield favored us with a solo It Pays To Serve Jesus.

It was a joy to have present our own missionary, May Belle Taylor who talked of her work in Brazil. ## CHURCH OF CHRIST

J. G. Malphurs, Minister

We urge every member to be present next Lord's day, at which time we shall begin checking the register for the fall and winter attendance. In the Parable of The Lost Sheep (Luke 13-7) the owner was more anxious for the one that had gone astray than over the ninety-nine who had not gone astray. He must have been in the habit of counting his sheep when he herded them into the fold.

The Christian that esteems lightly the message of Revelation is liable to be "overtaken as a thief". (2 Thes. 5:4-8). Our Lord urges every servant of his: "He that hath an ear, let him hear what the Spirit saith to the churches". (Rev. 2:7). The subject for our sermon Sunday night at 7:15 will be: "The Two Witnesses in Sackcloth." (Rev. 11:3-4). The reception of these sermons is good. Come and study with us.

The church is glad to be a distributing agency of usable clothing to the poor. A good collection has been brought in, and the ladies will see that they are clean and ready for use. They will be given to anyone who needs them, irrespective as to church affiliation. If you have discarded clothing that can be used by someone, and would like for us to distribute them, please call—phone 200.

**Hallowe'en Carnival**

"Wait 'til I catch him! I'll fill his mouth full of confetti!" "Vote for our queen, she's the prettiest!" No, you are not at a hog-calling contest, you're at the high school carnival. If you were not there you really missed a good time.

A good old-time Hallowe'en carnival—where one could do anything he was big enough to do. When one got tired of throwing confetti, he could take a walk, or something, and, oh yeah, one had to have his fortune told. I'm told Harlan didn't like the "Cake Walk" because he couldn't win all the cakes. If you were in the House of Horrors, I'm sure you were afraid to go home.

Wasn't the coronation a lovely feature? Well, all of our classes couldn't win. We are really proud of our queen! And what do you think of our king? Not bad, huh?

**The Ex-Seniors**

There are five ex-seniors taking post graduate work this year, one boy and four girls, a grand class if you ask us. We expect to have a year of study and fun.

**The Junior News**

Our queen, Jewel Norman, got third place for the Hallowe'en carnival, which was sponsored by the home economics club.

We wish to offer the following corrections from last week's issue of the Bulldog Growl: (1) F. C. Gordy and John Allen Williamson should have been included as showing calves at Haskell. R. **Attendance Good After Cotton-Picking Holidays**

It is hoped that this good attendance will continue and that students will not suffer loss of interest from their vacation in the cotton patches.

**Busses Are Repaired to Meet State Requirements**

Due to the increased strictness this year in bus requirements it was necessary for extensive repairs to be made on the three Chevrolet busses. The bodies came from the factory without emergency doors and ventilators in the roofs. Mr. McCarty arranged to take the busses back to the factory at Wichita Falls to have these installed. The work was completed during the time school was dismissed for cotton picking. In addition to emergency doors and ventilators, first aid kits, fire extinguishers, and handrails were installed as required. All of the requirements have been met and Mattson busses will conform to all safety provisions in the law.

**Throckmorton Game**

The Mattson football boys went to Throckmorton to see Holiday and Throckmorton play. The teams fought hard, but the Holiday boys were getting knocked out very fast by the Throckmorton boys. At the half the scores were six and nothing in favor of Throckmorton. One Holiday player got his neck broken while trying to plunge the line. The game ended six and nothing in favor of Throckmorton.

A club for high school students who are interested in writing is to be organized very soon. The members are to write stories and at each meeting, twice a month, the members will be required to read their best stories. At the end of the year a booklet will be made of each one's masterpiece.

**Straw Vote Indicates Democratic Victory**

Tuesday being general election day, the civics class undertook to hold an election of its own. Ballots were issued to high school students. When the returns were counted, it was found that 47 students favored the election of President Roosevelt while only seven were for Wendell Wilkie. As students usually have about the same political views as their parents, it was thought that this probably indicated the trend of the election in this community and perhaps the state and nation.

Machine Tools Needed
In connection with the building of war weapons the scarcity of machine tools has been stressed, and this is really one of the shortages which is causing delay in actual production. For the benefit of those who do not have a clear idea of the matter, it may be stated that a machine tool is a master machine used to make parts for other machines, including other machine tools.
Ordinarily we think of a tool as an instrument used by hand, such as a hammer, chisel, wrench, saw and the like, which are more specifically designated as hand tools. But machine tools are often massive affairs, sometimes weighing 50 tons, and requiring much time to build. A machine tool for fashioning armor plate, for example, may cost up to \$250,000.
The principal uses of machine tools are to shape metals for the building of all kinds of machines, by milling, planing, turning, boring, grinding and other operations. Not all machine tools are of large size, but some of the smaller ones must be built with such precision as to make their rapid production difficult.
Even before the tool itself is begun, it is often necessary to know precisely what the size and shape of its product is to be. In other words, the specifications of the airplane, tank or other instrument of war must be determined before machine tools can be designed and built to produce its special parts.
Although the United States is a country of immense machine production, the machine tool industry itself is not large, having had only about 250 plants, with not more than 50,000 workers, at the time the new defense program was started.

Denny, Jr. (standing), Town Meeting of the Air, who served as moderator; Mr. Sloan; Dr. Harold G. Moulton, president of Brookings Institution, and Dr. Sumner H. GEMS OF THOUGHT
Gentility is the ability to ignore in others those faults or blemishes we will not tolerate in ourselves.—Anon.

The Battle for Oil
In his invasion of Rumania and taking control of that country's oil fields, Hitler has done what most observers expected him to do, for it seems probable that Germany's oil reserves may be getting low. The bombing raids on England are taking enormous quantities of gasoline daily, in addition to other consumption.
But Rumanian oil alone will not solve the gasoline problem for Germany and Italy, according to the Oil and Gas Journal of Tulsa, Oklahoma, which states that Rumania produces only 125,000 barrels of crude oil a day, while her domestic consumption is about 50,000 barrels a day.
Italy produces no oil, while Germany's production is mostly synthetic, and it is not believed that Russia will have much oil to spare, even if Stalin and the Axis remain on friendly terms. The next nearest large source of supply is in the Near East, but this is principally controlled by Britain.
Experts declare that these great oil fields, in Persia and Iraq, are hardly within Germany's reach, especially if Turkey should resist Germany's move in that direction. In the unlikely event that they could be taken, the difficulties of transportation would be almost insurmountable. The output of these fields is transported to the sea which Britain still controls, by pipe lines and railroads which could be easily destroyed if their capture seemed imminent.
The final outcome of the war may hinge on this battle for oil, in which Britain appears to have the upper hand at present.

Marriage Customs
Modern brides, even though they have the promise to "obey" omitted from the marriage ritual, nevertheless submit to ceremonial customs which originally signified the woman's complete subjugation to her husband.
The method of obtaining a wife has passed through three distinct stages—capture, purchase and consent.
Originally the groom's attendants aided him in capturing his bride and making his getaway with her. Later on, although the brides had consented to wed, they liked to pretend that they were being captured, and they and their bridesmaids fought a mock battle with the groom and his groomsmen, in which the latter were, of course, victorious.
A relic of marriage by purchase is seen in the custom of giving away the bride, and in that of throwing old shoes, the latter being an ancient symbol of the transfer of property.
The bridal veil is itself a sign of the woman's subjugation, and the wedding ring originally signified that she was bound to her lord and master.
Now tell all this to a prospective bride—and see if she cares.

With its vast untapped resources of men and materials America has an economic potential of sufficient reserve power to take the defense program in its stride and emerge stronger and greater than ever before in its history.
This was the ringing challenge issued recently to 500 of the nation's leading industrialists and business men in New York at a forum discussion of the subject "Mobilizing America's Economic Strength."
As guests of Alfred P. Sloan, Jr., Chairman of General Motors, the luncheon gathering heard two prominent economists, an industrialist and a research engineer, join in urging industry not to curtail unnecessarily the normal flow of goods and services in this period of emergency but to mobilize its strength on all fronts.
A strong right arm and a rugged constitution to back it up was the prescription recommended by these authorities. Defense has first call on the country's resources, they said, but America has sufficient reserves of power to build high its defense ramparts without having to neglect those foundations of normal productivity which underlie both the ramparts and the way of life behind them.

CITATION BY PUBLICATION
THE STATE OF TEXAS
To the Sheriff or any Constable of Haskell County, Greeting:
R. W. Herren, Jr., administrator of the Estate of R. W. Herren, Sr., deceased, having filed in our County Court his Final Account of the condition of the Estate of said R. W. Herren Sr., deceased, numbered 951 on the Probate Docket of Haskell County, together with an application to be discharged from said fiduciary capacity as such administrator.

Superstition saved a chicken owned by J. E. Wats of Xenia, O when a thief who raided the pen took a dozen fowls, leaving the 13th behind.
Although twice wounded, Dewey, a 6-year-old dog, routed two gunmen who tried to rob his master, Martin L. Edward of Sioux Falls, S. D.

Two New York youths stole two coffins from an undertaking establishment, but were caught when they tried to pawn them.
Charged with attempted robbery, a Newark, N. J., man told the judge he had felt an uncontrollable desire to steal ever since a horse kicked him in the head 38 years ago.

member of the Texas Game, Fish and Oyster reports.
One of the doe's fawns was picked up in the woods by a ranch hand several months ago and taken to the ranch house. It was not long before the mother appeared, jumped the fence of the enclosure where her baby had been placed, and nursed it. She has continued to do so daily every day since. She returns to the woods immediately after nursing the fawn held in captivity, which is extremely wild. The captured fawn is very tame.
Not only does the mother deer continue to defy civilization in feeding her tame fawn, but any time a dog gets anywhere near the wild fawn she gives battle.
Defends Mourning Doves
Mourning doves have been accused of pulling young corn, especially after it has just shot up out of the ground. However, investigations by Game Department biologists have shown that the mourning doves do very little, if any harm to young corn. Not a grain of corn was found in any of the crops of fourteen mourning doves taken in and around the corn fields in Robertson County in April and May. Croton, Johnson grass and a variety of other seeds were found. Farmers had claimed depredation.
Raccoons Help Coyotes
Raccoons in Hotley County have in at least one instance, helped an enemy of theirs, coyotes, to get meals. A state game warden, after hearing noises in a wild turkey roost of tall cottonwood trees, investigated and found raccoons in the trees. The turkeys took flight. At least two of them were caught by coyotes after being forced off their roost by the raccoons.
Biologists believe, and can prove, that practically every bird, or animal has a place in the balance. Mother Nature attempts to maintain against the influences of man's depredations, but in this instance they have recommended control of the number of offending raccoons.
