THANKSGIVING WILL BE OBSERVED HERE ON TRADITIONAL DAY

Nov. 30th To Be Observed By Churches, Schools, Merchants

Citizens of Haskell will follow traditional custom in observing Thanksgiving Day on the last Thursday in November, a poll of merchants, church leaders, city and school officials indicated this week.

At the Chamber of Commerce breakfast meeting Tuesday, Haskell merchants voted to observe Thanksgiving on Nov. 30th with a business holiday.

In their monthly meet Monday, the Haskell Ministerial Association adopted plans for Union Thanksgiving Services at the First Methodist Church on the morning of Nov. 30.

Mayor F. G. Alexander also announced that he favored the traditional date for Thanksgiving observance.

Supt. C. B. Breedlove of the Haskell schools stated last week that Nov. 30th would be observed as Thanksgiving, both in keeping with custom and for the further reason that school activities, both scholastic and athletic had been planned early in the year around the "last Thursday in November" observance. Traditional football game between Haskell and Stamford is scheduled for Nov. 30, ending the 1939 season.

SANTA CLAUS PARADE AND OTHER FEATURES ARE EVENTS PLANNED

EMERGENCY CROP AND FEED LOANS NOW AVAILABLE

Loans Available Immediately In Areas Hit By Drought

Emergency crop and feed loans for 1940 are now available to farmers in Haskell and a number of other West Texas counties, and applications for these loans are now being received by Marvin P. Bryan, Field Supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

Mr. Bryan is Field Supervisor for the counties of Haskell, Stonewall, Throckmorton, Knox, King, Baylor, Foard and Young. He explained that this early opening of the loan program in this section is part of a plan recently announced by the Farm Credit Administration whereby emergency crop and feed loans are being made available immediately in all areas where farming conditions are seriously affected this year by drought.

These loans will be made, as in the past, only to farmers whose cash requirements are small and who cannot obtain a loan from any other source, including production credit associations, banks, or other private concerns or individuals. As in former years, the money loaned will be limited to the applicant necessary cash needs in preparing and cultivating his 1940 crops or in purchasing or producing feed for his livestock.

Borrowers who obtain loans for the production of cash crops are required to give a security a first lien on the crop financed or, in the case of loans for the purchase or production of feed for livestock, a first lien on the livestock to be fed. The Field Supervisor also announced that no fee for filling out loan applications would be charged in Haskell county, but explained that in counties where the applications were filled out by notaries a small fee would be charged.

Sheriff Dotson and District Attorney Ben Charlie Chapman said that three forgery complaints had been filed against Lem in Haskell county. Similar complaints are pending against the defendant in Throckmorton county, officers said.

Davis, Street Commissioner, were accepted by the Council on basis of submission, with work of the retiring Aldermen highly praised by all city officials. National Book Week Is Observed

As this week is National Book Week, Mrs. Koehl, the librarian of Haskell High School, has arranged a very fitting display in the front of the study hall. In carrying out this year's theme, which is "Books Around the World," she has placed a world globe in the center of the table, with several of our newest books of foreign lands grouped attractively around it. Blue and silver crepe paper is used as an effective base and background. We the students and teachers, are very proud of this display and appreciate Mrs. Koehl's efforts and interest.

Pep Squad Goes To Albany

Thursday afternoon at 5:30 a joyful crowd of pep squad girls started to Albany. As on our other trips we gave yells and sang all kinds of songs. However the song "Little Rubber Dolly" still holds its own among songs that were sung most often. Though we lost everyone enjoyed the trip—and boys WE ARE STILL FOR YOU ONE HUNDRED PERCENT.

Government Class Gives Program

An Armistice program was presented to the student body last Thursday by Mrs. Wimbish's government class. This was to commemorate that day 21 years ago when the Armistice was signed. With T. R. Odell giving the introduction and acting as master of ceremonies, the following program was rendered:

Roy Pittman blew the "Call to Colors" as the curtain opened. The student body then stood at attention as Doyie Martin gave the "Allegiance to the Flag."
 Nettie Lowell Harvell led the student body in singing "America The Beautiful" accompanied by Mary Lou Josselit. "Significance of the Flag" was given by Ethel Reba Couch. A trio made up of Gerry Akins, Emma Pearl Graham

Who's Who In The Senior Class

GERALDINE AKINS
 Without Gerry, our senior class would be incomplete. Her outstanding beauty and friendliness shines on cloudy days like a light-house, with the beams flooding her upon those around her. Her "Highness" is a title fitting her perfectly as she was queen of the freshman class, sophomore queen, junior queen and Gypsy Rambler queen this year. Besides these high ranking honors, she was an attendant to the Junior Queen at the Central West Texas Fair.

Last year she was secretary and treasurer of the junior class; and now she holds many coveted offices as a senior. Gerry is vice-president of the Gypsy Ramblers, one of the pep squad leaders, and social editor of the War Whoop.

During her high school years she has been a member of the Gypsy Rambler Club four years, pep squad three years, Home Economics Club two years and the Spanish club two years. It seems as if one can never stop when naming her many qualities. The fact that she is a member of the Haskell High School trio proves that she is also talented in singing.

But, alas! We cannot take up all the space that we would like to describe her remarkable personality; however, words are not needed—everyone already knows her and because of this fact may we say to you, Gerry Akins— "If someone wants a friend who

ASSEMBLY PROGRAM HELD FRIDAY

Paint Creek met for assembly Friday morning November 10, 1939. Mr. Cowan had charge of the assembly program. It was an Armistice Day program. It was based upon war and peace. Several comical pieces were also given. About the best one was William Prewit imitating a young lady. He was dressed in a very short skirt. His cheeks and lips were very red. He had a very bright yellow scarf around his blonde curls. He danced a little and then told the young ladies in the audience how not to get fat, or if they were already fat how to reduce. We had a few visitors. We wish that more of the parents would come to see our school and our assembly programs each Friday morning at 9 o'clock.

GEMS OF THOUGHT

Out of the lowest depths there is a path to the loftiest height. —Carlyle

An Empire of Unbounding Wealth

Wherever told, the story of marvelous Texas heroic and sublime, challenges wonder and admiration. From 1540 when Coronado, in search for the fabled cities of the southwest, unfurled the royal banner of Spain near what is now Ysleta, and there proclaimed the ownership for Spain; from 1685 when La Salle, probably the first European to set foot upon the soil of Texas, planted a colony of French along the waters of Matagorda Bay—a colony that was destined to a brief and tragic fate; from 1689 when Ponce de Leon, with a Spanish expedition, visited the ruins of La Salle's fort, and then returning by the San Antonio River, founded San Antonio de Bexar, through the period of colonization, beginning in 1825, through the revolution and independence gained in 1836, to statehood in the Union in 1845, and to the present—a story is replete with a valor, a faith and a patriotism, of a citizenship whose history had tinted the flag with a new glory and ennobled the stirring annals of American enterprise.

The souls of Texans rise to inspired heights when they remember that "Thermopylae had her messenger of defeat while the Alamo had none."

Bankers Abhor War

Among the large business and industrial groups which have publicly gone on record as being unalterably opposed to participation of the United States in the present war is the Investment Bankers Association, whose view was expressed at its recent annual convention in Del Monte, Calif.

Jean C. Witter, the retiring president, declared in an address: "I wish to state in unequivocal terms that investment bankers abhor war and will work unremittingly to keep this nation at peace."

He also said that since industries fundamental to the security of the country will need funds for bringing their equipment up to maximum efficiency, it is vital that the capital markets be relieved of burdensome impediments.

The new president, Emmett F. Connelly of Detroit, advocated a flexible program for the association in view of unpredictable conditions ahead and warned against allowing our philosophy of democratic government to become endangered.

Recommendations made for opening the capital markets included revision of high income taxes and capital gains levies, and amendment of the unnecessary technical requirements of the Securities Act.

Haskell County History

As Revealed by the Files of the Free Press 20, 30 and 40 years ago.

40 Years Ago—Nov. 18, 1899

Carl Ferguson is in the sheep business again with a flock of 1500 animals.

Messrs. W. M. Townes and John Agnew are off on a hunt in the breaks of Stonewall county.

T. C. Owens of Anson is here buying mules for the English army in South Africa.

Frank Smith has gone to Comanche county to bring up his cattle and the remainder of his household effects.

We understand that J. C. Jones is sending 2,000 mutton sheep over to Throckmorton county to be fed for the market.

Messrs. J. W. Johnson & Son have bought the Yoe & Gullatt live stable. Mr. Gullatt is taking a half interest in Mr. Johnson's mill, which he will attend to.

Prof. T. D. Evans informs us that the average daily attendance in the Haskell public school during the month just ended was 171. It ought to reach 200 next month.

A bunch of stock horses, estimated at about fifty head were sold here Wednesday, range delivery, at public sale under a chattel mortgage on a bid of \$75.00.

Messrs. Wat Fitzgerald and Tom Owens left Thursday with 60 head of saddle horses belonging to Messrs. Fitzgerald and Anthony, which they will ship by rail from Seymour to Arkansas.

Capt. Bogart and Walter Tandy went hunting on Paint Creek on Wednesday and bagged a nice string of quail and ducks.

Mr. DeLong who purchased the DeBard place some time since brought up seventy-five head of cattle this week to put on the place.

The Sensible Way

Championing the cause of cotton and cottonseed products, the National Cotton Council has set up a new section on trade barriers and penalties.

The principal activity of this new section will be to increase the use of cottonseed oil, with major emphasis being placed upon efforts to free margarine from its present unjust burden of taxes and restrictions.

Margarine manufacture in 1938 consumed 170,000,000 pounds of cottonseed oil. Reliable estimates indicate that use of cottonseed oil in margarine would rise as much as 33 1-3 per cent if state restrictions were lifted. If federal taxes were removed it is estimated that margarine sales would treble.

The Cotton Council is going about this battle against trade barriers in the only sensible way. While successfully combatting 29 legislative attempts to further restrict margarine sales during the past year, it has laid a groundwork of economic research on the subject of margarine. Now it has established a new department headed by a widely known authority on the margarine problem.

An educational campaign is about to be launched, telling of the true virtues of this wholesome nutritious food product. The story will be brought home to the consumer.

The injustice of the present scheme of prohibitive restrictions and trade barriers will be shown to the people and their law makers.

It will be a long campaign and a hard one. But only through such a program as the Council outlines can we hope to broaden and to hold this valuable market for American cottonseed. It is too valuable to risk through slipshod methods and hurried schemes.

Big Scale Mining

What is described as the most spectacular mining operation in the world today is under way in Arizona, where an estimated 74 million tons of earth must be stripped from a copper ore deposit, as a preliminary to mining the ore itself.

This excavation work is going forward at the rate of about 28,000 tons a day, using power shovels that lift two tons or more of earth at a bite. The earth is deposited in special trucks and hauled away to fill a nearby canyon.

Under the surface of the ground, at an average depth of about 420 feet, lies the vast bed of ore, ascertained by diamond drilling to be approximately a mile long, half a mile wide and 800 feet thick. It is estimated that 250 million tons of ore ultimately may be taken from the mine. It is of low grade, however, and contains only about 10 pounds of copper to the ton.

Such "lean" ore could only be mined at a profit by mass production and with the most modern equipment. Naturally, an enormous amount of capital was necessary to undertake the development of the mine at all.

But through American initiative, capital and courage the difficulties attending this amazing operation are being overcome and another hitherto unproductive natural resource will be added to the nation's wealth.

Newsweek reports a great boom being experienced by plants manufacturing wood type, used for extra large headlines in newspapers and for posters. The orders of one such firm is said to have increased 300 per cent during the first week of the war.

One World War hero still occupies the same position he held in 1914. He is Adolphe Max, burgomaster (mayor) of Brussels, Belgium, who was imprisoned for defying the Germans when they entered his city. He is now 79 years old and still active.

At the recent international convention of the Loyal Order of Moose, held in Philadelphia, the title of "dictator" was abolished and "governor" substituted. The change was made because the word dictator "has fallen into disrepute," according to a resolution unanimously adopted.

Quail hunters who moan because Texas has a bag limit of twelve birds per day and a possession limit for one week of thirty-six should examine the plight of a bobwhite shooter in North Dakota. There state laws forbid the hunter using pointer or setters. Retrievers may be used, but NO POINTERS OR SETTERS.

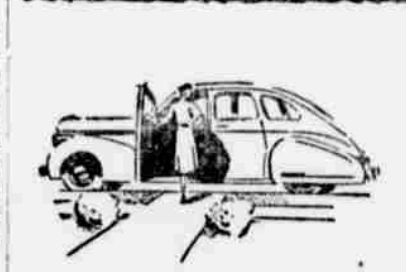

The first snow-white dove reported in Texas was seen in Gillespie county recently by the state game warden with headquarters in Fredericksburg. The warden got within thirty yards of the dove and examined it closely through his field glasses. The dove appeared to be a pure albino, having pink eyes. It was not killed by the warden.

An argument as to which was the best shot proved costly recently for a couple of prominent young Beaumont attorneys. To settle the argument as to who was the best shot they drove their car to a side road near Beaumont to shoot it out. They had driven only a short distance before they saw a couple of doves sitting in a tree. Two shots were fired by the driver of the car and he missed. Then the other lawyer stuck his gun out the car window, but when he looked down the barrel of it he was face to face with a state game warden. In court the lawyers paid

off \$72. Moral—don't choose public roads and shoot from a car to settle a bet as to who is the best shot—or for any other reason.

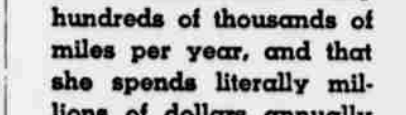

Dame Nature has a lot of ways of aiding her children, but one of the most unusual is what she arranged for the prairie chicken. The prairie chicken is nature's best ventriloquist. Its call can be heard two miles away and far more clearly than by anyone within 300 yards of the birds.

WOMAN'S PLACE

You hear a lot—from men!—about woman's place. but the consensus of opinion is that her place is just about anywhere she elects to make it. . . . We know, for example, that throughout the United States she drives automobiles many hundreds of thousands of miles per year, and that she spends literally millions of dollars annually for motor fuels, motor oils and automobile maintenance. . . . So, quite naturally, we make a special point of pleasing the ladies; we do everything we can to make driving an automobile pleasant and comfortable for them. . . . This service is so well organized with conveniently located, completely equipped, capably staffed, clean Humble Service Stations, that many Texas women have shifted the entire care of their cars to Humble's shoulders; the nearest Humble Service Stations remind them when their cars need lubrication, when oil needs changing, when batteries should be refilled. As a result, their cars run right and look good. . . . So can yours—if you, too, will shift the care of your car to Humble's shoulders. Begin today—stop for service at the nearest Humble sign!

NOV. 12 TO 18 BOOK WEEK

Schools, libraries and book stores are celebrating BOOK WEEK. Read more books. Urge your children to read more books. But when they read, be sure that they have Better Light for Better Sight.

TRY THIS SUGGESTION

An I. E. S. study lamp equipped with at least a 100-watt bulb.

... it's foolish when GOOD LIGHT is so cheap!

You can help to protect the precious eyesight of your children—and all the family—by giving them plenty of good light for study and reading. A good lamp doesn't glare into the eyes, as in the picture above. It diffuses the light throughout the room, dispels black shadows, yet throws a flood of soft light on the book.

Never before has good light cost so little, so it doesn't pay to run the risk of eyestrain. Make sure that you have at least 100 watts in every reading lamp in your home—properly shaded. A 100-watt MAZDA lamp costs only 15¢ and the added cost of electricity is only a fraction of a cent an evening.

Remember: EYESIGHT IS PRICELESS—LIGHT IS CHEAP!

ONE OUT OF EVERY FOUR ADULTS HAS—

Sinus Disease

According to leading doctors "sinus trouble is one of the most prevalent diseases of today. This dreaded and severely painful disease is caused by and follows the COMMON COLD." All kinds of serious complications besides sinus infection follow the common cold. America's Public Health Enemy Number One, the common cold germ wages its attack to pave the way for such serious illnesses as bronchitis, pneumonia, tuberculosis and other serious health-wrecking diseases. Frequently cold infection extends into the ear or mastoid.

HEAT YOUR ENTIRE HOME FOR YOUR HEALTH'S SAKE

DURING the common cold months, or winter season, it is especially important to take every precaution to protect your health. Quick changes of temperature should be avoided. Sudden changes of temperature, such as occur when going from a warm room into a cold one, make it easy for you to "catch cold." For your health's sake, and to obtain the greatest value from the fuel you use, heat your entire house and provide adequate ventilation during the short winter season.

FUTURE HOME MAKERS HAVE MEETING

The Esther Sorenson chapter of the Future Homemakers met in the Home Economics cottage here last Wednesday, November 8, 1939. The club meets twice a month for a program and business meeting. The subject for the "round-table" discussion was Characteristics of a Good Personality. For a Girl and Boy. Three Future Farmer boys were invited to the meeting to help out in the discussion. Some of the topics for discussion were problems that every modern boy and girl have to solve—correct dress for all occasions, smoking, chewing gum, dancing, and conventional courtesies. The discussion proved interesting and helpful to all.

LIBRARY NEWS

As the week of November 12-18 has been set aside as National Book Week we have tried to make an attractive display in our library in honor of it. Almost everyone seems to think the most interesting thing in our library this week is the miniature house covered with book jackets and white ink. The back and top of the house is covered with book jackets and the front and sides are painted with black enamel. To make it more attractive we wrote the names and authors of our most popular books on the front and sides with white ink. We also have a poster to let everyone know what this display is for. Too, we have a small globe for the theme of this week: "Books Around the World."

WOLLEY BALL TEAM PLAYS VERA

Mrs. Brunnon's volley ball girls played Miss Alice Palmers' volley ball girls from Vera Friday afternoon. The girls played three games and Weinert won all three of them. The Vera girls played well but were not able to defeat the Weinert girls. Good sportmanship was shown by both teams. Since this was the first volley ball game played this year there was much excitement shown by the spectators.

WEINERT DEFEATS RULE SATURDAY

In a game filled with excitement and boners pulled by each team that made the fan's spine freeze the Weinert Bulldogs defeated the Rule Bobcats 4-6. The Rule team scored early in the second quarter by recovering a Weinert fumble behind the goal line. The Bulldogs scored their first touchdown on the last play of the half with a twenty five yard pass, Josselit to Marsh. The ball was in the air when the half ended and Marsh froze to the ball. Owens plunged for the extra point. The last Weinert touchdown came in the final quarter on a short line plunge by Josselit. Weinert and Luaders play for the championship of the east half next Thursday night at Haskell.

THE FRESHMAN CLASS

The freshman boys are getting a football team up to play the Haskell eighth grade. The boys will practice the rest of the week and play Haskell Friday Nov. 17. We expect to beat Haskell.

Adopt Nov. 30th Thanksgiving Date

Other business conducted during the meeting included unanimous decision to observe Thanksgiving Day in Haskell on Nov. 30th with all stores agreeing to close that date. A motion was also adopted designating the following business holidays for Haskell in the future: Thanksgiving, Christmas, July 4th, Armistice Day, and a half-day holiday on opening day of the Central West Texas Fair each year. This plan, it was explained, would obviate the necessity of circulating a "petition" for the closing days.

WEINERT DEFEATS RULE, 14-6

Rule made their first score in the second quarter on an error made by Weinert. Just before the half, Weinert scored on a series of plays which carried them from deep in their own territory to pay dirt. The try for the extra point was successful. The Bulldogs' second touchdown was made midway on the fourth period when Rule received a fifteen yard penalty for roughing which put the ball on our four yard line. After three failures to penetrate the Rule line, they changed tactics and finally on the fourth try, they were successful.

WHO'S WHO IN THE FACULTY

This week in Who's Who we want to honor our coach, Rob Simmons. This is Mr. Simmons' second year as coach of the Rule Bobcats and we are very proud of him. Last year, under his supervision, Rule had a very successful year but this year hasn't turned out so well for him. However we have a promise of a very good team next year.

Mr. Simmons' record is very good. He played football for the Haskell Indians several years ago and he lettered three years at Howard Payne as a guard. He also was a good student in both high school and college.

The whole student body likes Coach very much and we hope he will be with us many more years at old Rule High.

THE STUDENT'S PRAYER

My teacher is my study hall keeper. I shall not study. She grippeth my soul to the lowest degree; She leadeth me a cat's life in the study hall; She standeth over my desk constantly. Yea, though I study the lessons assigned me, I will still have fear; for my teacher standeth near; My pals and my friends they comfort me. She walketh up to me in the presence of my friends and embarrasseth me; She putteth into my head nonsense and into my hand a book. Surely to goodness she will soon find out that I am tired of all that; And I shall not dwell in her study hall forever.

SADIE THE SNOOPER

Dear Katie,
Well, dearie, how are you and "ours" after the grand and glorious celebration? Quite a few things happened in this little city. For instance:
Fred Barr and Tommy Grace Hitt really enjoyed the picture show Thursday night as well as Yater Benton and Arra Mae Fullbright; and Elbert Bush and Armitie Benton. (In fact they enjoyed all the celebration.)

What is Terrell going to think about Lavelle going with Carl Hitt Friday night? Whoa!

And say Katy, did you see Jon Roger sitting around in his car amidst all this? It looks like he might be growing up after all. Let's hope so anyway.

Texas Tech was really represented over the week end by Margaret Smith, Jerrene Verner, J. E. Townsend, Edward Lewis, Evelyn Morgan, Howard Perry and John L. Morris. We're sorry Emma couldn't make it. We were also glad to see Guy Sprous.

These out of town lads seem to be taking away our fair damsels. Jeanne White, and Helen Crockett spent most of their time with James Waggoner and R. F. Harrison of Haskell. Almince was seen stepping out on Friday and Sunday nights with W. B. Harrison. Then, too, Lois Yates, Edna Mae Dominey and Mary Belle Allen were spinning wheels with a few Knox City boys Saturday night.

What about your futures' girls? Come on, when will the nine days be up.
Olin, Jane and Tommye and Vernad had their little escapade on Saturday night. All the troubles are straightened out, eh what? Ruth had several callers this week end, Paul Roberts of NTAC and Raleigh particularly.
Judy sorta went for a new one

Four New Eagle Scouts

They're getting along fine these days, it seems.

The talent was really shown in Rule during the holidays over the electric kitchen. And most of it came from Rule school.

Jean and Foy, Frances and Tommy and Ruth and Raleigh triple-dated for about two nights. How was church, Raleigh?

We wonder why Jenny skates so much these days. It couldn't be a certain little buckle boy could it?

Homer Turner skated several rounds with a cute unknown girl Saturday night. Why keep it a secret, Homer?

Zena Day and Desmond were seen together again—at last! We hope it stays that way.

Another skating twosome was La Verne and Curtis Saturday night. And we hear Maxine and Chid aren't hitting it off so well. We wonder?

If you notice an Old Spicy, Copy, Evening in Paris, Carday, Coping Night, Summer Time, Antique and Lilac fragrance, just smell toward the senior section and rest assured that it's Mildred Hills. (Sunday was her birthday.)

June and Scott are still making the round together and enjoying it, too!

That's enough of this nonsensical talk until next week when you'll hear more about this "Rule Hi Bunch".

Your affectionate correspondent, Sadie

P. S. Oh yes, we wonder why Jack hasn't written Judy a letter yet? At any rate it certainly has Judy worried plenty—and waiting!

JUST IMAGINE—

Jean Cooper not flirting with some boy.
Tommye Milstead not helping her.

Foy McKennon two-timing Jean. Helen without R. F.

A long session without the "Barrel Polka".

What W. A. would be if he couldn't dance.

What Judith would be if she wasn't in love.

The study hall being quite at least one period a day.

Ruth Cole not getting letters from some other towns.

One of those "Four Freshmen" without the others, or vice versa.

What would happen if Vernon Townsend couldn't pass a football.

Jolly Barnes without Jack Westbrook.

Millard Dyer with a girl. Me writing a sensible column.

Zena Da McMinn and Dorothy Lee Benton for adding to the beauty of the school float.

Miss Butler for her sense of humor.

Doris Baker for arousing the interest of some senior boys.

Mr. Hill for making part of the student body study.

"Doc" for being such a jittersbug.

Charley for rating a date with Mildred.

Mr. Lawson for not intercepting the many notes passed in the study hall.

Miss Wilson for helping the pep squad make so much money.

Certain members of the pep squad for staying with it.

Jenny Bounds for keeping us so well entertained on all occasions.

Lumber Dealers—

(Continued From Page One)

introduced Sam Milstead of Burton-Lingo lumber company, Fort Worth, as principal speaker. Theme of Mr. Milstead's interesting and salient talk was "Ethics in the Lumber Business" in which he stressed closer cooperation between dealers as a prime need in furthering the interests of the industry and declared that if dealers would meet often to discuss their problems that solutions could be readily worked out. The speaker deplored unethical price cutting and consequent marketing of low-quality materials as a major problem facing lumber dealers.

Following Mr. Milstead's talk a round table discussion was led by Mr. Deffebach in which dealers and manufacturers joined with interesting talks and comments.

Concluding the business session was the selection of Abilene for the next meeting of the association on January 9, 1940.
