

Organization of Weinert C. of C. Is Perfected at Meeting Tuesday

Organization Adopts Broad Work Program For The Coming Year

Organization of the Weinert Chamber of Commerce was perfected at an enthusiastic meeting of businessmen and farmers of that enterprising little city Tuesday night, when officers and directors of the organization were elected and a progressive program of work outlined for the coming year. Groundwork for the organization had been laid at a series of community meetings held during the past three months, and approximately forty business men and farmers of Weinert and surrounding territory are listed as charter members of the organization.

Officers elected were Ernest Griffith, president; Payne Hattox, vice-president; and H. T. Sullivan, secretary. Directors in addition to these officers, were named as follows: Claude Reid, Raymond Liles, Dr. J. F. Cadenhead, Ralh Low, C. F. Oman and W. D. Hinson. A membership drive is planned in the near future, when an intensive effort will be made to enroll every civic-minded resident of Weinert and surrounding territory as a member of the Chamber of Commerce. Regular meetings of the organization will be held on the first and third Thursday nights in each month.

Program of work adopted by the organization for the coming twelve months envisions broad-scale community improvement and development and full cooperation in worthwhile county projects. Outline of the program includes the following objectives:

Agriculture and Livestock—Render all possible assistance to agricultural and livestock interests and in the general development of these resources; sponsor FFA spring project show; lend full cooperation to the Central West Texas Fair; and endeavor to establish better farm and market prices in the community.

Schools—Lend every possible aid to the Weinert school district; assist in the promotion of a band hall, lunchroom, sound equipment for the school, and library improvement.

Civic Development—Encourage gravelling of streets and sidewalks, promote year round "clean up" campaign, sponsor better traffic control and safety programs, organize advisory council to study needs of the community.

Trade Development—Promote trade development program, create board of three members to investigate requests for donations among the people of the community, and assist in all worthwhile community efforts.

Roads—Carry out a continuous program of developing lateral roads in the Weinert school district.

Industry—Investigate the possibility of securing establishment of a bank in Weinert and a community and school newspaper.

NEW FIRE TRUCK IS DELIVERED TO CITY THIS WEEK

Second Truck Ordered By City Expected About October 1st

First unit of the city's new fire-fighting apparatus ordered several weeks ago—a five hundred gallon pumper and booster truck—was delivered Monday afternoon by a representative of the American La France corporation and the new truck was given an initial try-out Monday evening by members of the local fire department and city officials.

The truck, a Ford V8 has a pumping capacity of 500 gallons per minute from city water mains, and carries a 300-gallon booster tank and 200 feet of small hose in addition to 2,000 feet of regular fire hose, ladders, fire extinguishers, and other equipment and meets all standard specifications for fire-fighting equipment.

The second truck ordered by the city, a standard American La-France pumper, will be shipped from the factory about September 24 and is expected to arrive here around October 1. When the second unit is received, this city's fire-fighting apparatus will be completely modernized and will earn a sizeable reduction in fire insurance rates, fire department officials said.

1940 COTTON CROP BEGINS MOVING TO GINS DURING WEEK

Receipts at Local Gins Total 150 Bales At Noon Thursday

With prospects bright for their busiest season in almost a decade, Haskell gins began humming this week as the county's bumper cotton crop began to move from the field to gins and markets in a steadily increasing stream.

At noon Thursday, six Haskell gins already in operation for the season had turned out a total of 150 bales of cotton from the 1940 crop. This figure will likely be doubled by the end of the week if favorable weather conditions prevail, and within a fortnight local gins expect to be running at peak capacity.

Yield from this year's crop is expected to be exceptionally heavy despite reports of damage by bollworms in many parts of the county. From some fields farmers are predicting a "bale to the acre", but mostly the predictions are more conservative but conveying the opinion that the yield will be the best in years.

Marriage License Total for August Lists 21 Couples

Demand for marriage license in Haskell county increased during the month of August to exceed the total for each of the three previous months, according to records in the office of County Clerk Roy Ratliff. Twenty-one couples were issued license to wed during the past month.

Two couples requested their names be withheld from publication, and the remaining 19 couples securing license were shown on the County Clerk's records as follows:

- Ben F. Roberts and Miss Martha Ann Pace.
- Benford D. Wolsch and Miss Margaret Knippa.
- Thos. C. Walker and Miss Flossie Hester.
- Vernon P. Terrell and Miss Alma Joechet.
- Bill Barton and Miss Earnestine Johnston.
- Jack Jarred and Miss Alta Johnson.
- Ralph Weaver and Miss Oweida Treadwell.
- Wm. E. Peiser and Miss Erna Pueschel.
- A. B. Cave and Miss Frances Taylor.
- Marvin E. Jones and Miss Ethel Mitchell.
- Joe J. Grace and Miss Dorothy Pieratt.
- Oran E. Darden and Miss Ruth Anderson.
- G. W. Jones and Miss Ethylene Parchman.
- Virgil L. Hodges and Miss Mildred Davis.
- Sam J. Fought and Miss Mary Leck.
- Osbie J. Bartley and Miss Bernice Woolridge.
- Werner F. Teichelman and Miss Ruby Lowack.
- Clim W. Webber and Miss Dorothy Richardson (colored).
- Edmond Robertson and Miss Elizabeth Adams (colored).

NEW DEPARTMENT STORE TO OPEN AT EARLY DATE

Stock and Fixtures Being Arranged This Week for New Store

Newest business establishment to locate in Haskell is the Jones Dry Goods Company, a modern department store which will occupy the Grissom building on the north side of the square, former location of Lively's Department Store.

Stock and fixtures of the new store are being arranged this week in preparation for the formal opening of the establishment within a week or ten days. George Neely, formerly of this city, but who has been connected with department stores in Odessa and Pecos, Texas, for the past several years, will be manager of the new Haskell store.

Mr. Neely stated that the new establishment would feature a complete merchandise stock, including special departments of clothing for men, women and children, shoes, millinery fabrics, etc. New merchandise purchased for the Haskell store is expected to arrive the latter part of this week.

Many Books Are Donated During Book Week Drive

In response to a call made by the Library Board for donation of books to the municipal library, and coincident with the observance of National Book Week in Haskell, many worthwhile books have been donated this week, members of the library board said Thursday.

Despite the gratifying response, however, it was pointed out that a pressing need for still more books exists, due to the fact that the municipal library will of necessity take the place of the High School library which was destroyed by fire last summer.

With observance of national book week continuing through Friday and Saturday, it is hoped that many additional books will be donated this week. The library will be open each day to receive books or their equivalent in any individual wishes to contribute in that manner.

Haskell Man Hurt In Accident At El Paso Last Friday

Bob Gilliam, former resident here and the son of Mr. and Mrs. Leon Gilliam of this city, was severely burned about the face, arm and left side and may lose the sight of his left eye as the result of an explosion of a mixture of unslacked lime and water which occurred in El Paso last Friday afternoon. Mr. Gilliam was employed on a building project and was mixing the lime and water when the mishap occurred. Attendees at an El Paso hospital, where Mr. Gilliam is under treatment, said early this week that the injured man was recovering nicely. His parents went to El Paso Saturday upon being advised of the accident, and returned to Haskell Monday.

Free Watermelon Feast at Mattson On Friday Night

Students and patrons of Mattson Rural High School are invited to attend a free watermelon feast at the school house Friday evening, at 8 p. m. The students and teachers will present a short program preceding the feast. It is hoped that every student and patron in the community will be present.

\$53,000 INSURANCE SETTLEMENT AGREED ON SCHOOL BUILDING

Officials and Insurance Companies Announce Claim Settlement

Announcement was made this week that an agreement had been reached between the board of trustees of the Haskell Independent School District and various insurance companies carrying policies on the high school building which burned July 7. The matter was worked out between the board, the local agents, and the two adjustment companies handling various policies. Proof of loss was filed with the last of the companies this week and payment is expected within a very few days.

The amount agreed upon in settlement was \$53,000 on the building and attached equipment. This was covered by \$60,000.00 insurance which was estimated to be 100 per cent of the value of that property above the foundation. The \$53,000 settlement was agreed upon by the adjusters and the board as the amount necessary for complete replacement of the loss.

Various fire insurance companies carrying policies ranging in varying amounts from \$18,000 downward were:

- Fireman's Fund \$7,300.00; Aetna \$7,000.00; American \$6,200.00; St. Paul Fire and Marine \$6,800.00; Republic \$2,700.00; Firemen's \$4,000.00; Liverpool, London & Globe \$4,000.00; Gulf \$18,000.00; Great American \$4,000.00; Total of all the policies was \$60,000.00.

Local insurance agents contracting the policies were Menefee and Fouts, T. C. Cahill and Son, and F. L. Daugherty. Adjusters handling the matter for the insurance companies were the Fire Companies' Adjustment Bureau of Abilene and the Murrell Claim Service of Abilene.

In addition to the above, there was \$1750 insurance on unattached equipment, such as tables, movable chairs, movable desks, typewriters, sewing machines, laboratory equipment and various other supplies.

School officials expressed particular appreciation for the local agents who worked diligently to secure a fair settlement, to the adjusters, and to the insurance companies standing the loss. The settlement reached is considered satisfactory, officials of the local school district said.

Fire Department Called to Small Gin Plant Blaze

A small blaze in the engine room of the Harrison-Herren gin Thursday at noon resulted in a call to the Haskell fire department when it appeared the blaze might spread throughout the plant. The fire was quickly extinguished, and no damage to the plant resulted. Ginning operations were resumed before fire department apparatus had left the scene, firemen reported.

Misses Bonnie Cathey and Ramie Lee Bradford were in Knox City visiting friends Wednesday night.

Enrollment Period for Hospital Service Plan Is Given Extension

Low-Cost Hospitalization Is Available To All Residents

M. E. Reichert of Wichita Falls, area manager for Group Hospital Service, Inc., spent several days in Haskell this week in connection with the "Community Coverage" hospital service program now being offered the people of Haskell. Mr. Reichert said the plan was meeting with widespread response wherever offered, and he announced Wednesday that the enrollment period would be extended for one more week to permit every person in the community to investigate this plan of hospitalization and to enroll in the community group.

In explaining the "Community Coverage" plan, in which the Haskell county hospital is co-operating and which has the endorsement of leading business and professional men of this city, Mr. Reichert said:

"This plan of hospital service is now available to individuals and their families for the first time. The only plan that is endorsed by the Texas Hospital Association giving you nation-wide coverage, any hospital of your choice (Continued On Page Eight)

1940 TEAM OF HHS INDIANS WINDS UP TRAINING SCHEDULE

Team Faces Disadvantages In Both Experience and Weight

Toughened by an intensive training period which has sent them through field work-outs twice daily during the past two weeks, thirty eager but inexperienced youths make up the 1940 football squad of the Haskell High School Indians. In the squad are only five lettermen from last year's team: Charles Reeves, guard; J. M. Gay, end; and "Snort" Patterson, Otis Henshaw and Albert Holcomb, backs.

Around this nucleus of veterans Coaches Mason and Dean have built the 1940 edition of HHS Indians who will get their first test Friday night when they meet the Weibert Bulldogs in a regularly-scheduled non-conference game on Indian Field. The season opener will likely determine the strongest contenders among new squad members for a place as regulars for the remainder of the schedule and should indicate to some extent, the potential strength of the 1940 Indians.

Coaches Mason and Dean, after directing the training schedule during the past week were strong in praise of the team's fighting spirit, but freely admit this year's team faces one of the toughest schedules in years. Regardless of the personnel of the 1940 regular squad, the team will have heavy odds in weight and experience against every opponent in District 10-A. Average weight of both line and backfield will only be 140 pounds, Coach Mason figured.

Complete schedule for the 1940 season, with (x) denoting conference games, follows:

- Sept. 13—Weinert at Haskell.
- Sept. 20—Spur at Haskell.
- Sept. 27—Rule at Haskell x.
- Oct. 4—Munday at Munday x.
- Oct. 11—Anson at Anson x.
- Oct. 18—Baird at Haskell x.
- Oct. 25—Seymour at Seymour.
- Nov. 1—Hamlin at Hamlin x.
- Nov. 8—Albany at Haskell x.
- Nov. 29—Stamford at Haskell x.

First Trades Day Wednesday Draws Sizeable Crowds

Trades Day events and special values offered by Haskell merchants attracted a sizeable crowd Wednesday, with most stores reporting a small but noticeable increase in the volume of business for the day. This week's observance was the first in a series of Trades Day events to be held on Wednesday of each week during the coming months.

Between forty-five and fifty retail establishments are co-operating in the plan, which is sponsored by the Trade Extension committee of the Chamber of Commerce.

Next Trades Day will be observed Wednesday, Sept. 18th, and all co-operating stores will offer outstanding values in addition to the special events to be staged for the occasion.

Scout Program Is Explained At Lions Meeting

Members of the Lions Club at their regular meeting and luncheon Tuesday at noon, welcomed one new member and heard an interesting explanation of plans to extend the Boy Scout program in Haskell and Jones counties, given by L. C. Haugness, scout executive of the Chisholm Trail Council. Introduced as a new member of the club was R. L. Burton, well-known businessman and automobile dealer.

A proposition to sponsor the sale of season football tickets was discussed but no action on the matter was taken at the meeting. F. L. Daugherty read a communication from an official of the FW&DC railway granting a rate of one-half fare for the transportation of a Haskell child, victim of infantile paralysis, and her parent to a Dallas hospital.

Jack Johnson of Abilene was transacting business in Haskell the first of the week.

Plans for Rebuilding High School Are Announced

Haskell Indians and Weinert Bulldogs To Meet Tonight In First Grid Game of Season

SITE PURCHASED FOR NEW CHURCH BUILDING HERE

New Building Is Planned For the Fundamental Baptist Church

Site for a modern new church building for the Fundamental Baptist Church of this city was purchased this week by Rev. C. Jones, veteran West Texas minister and pastor of the church since it was organized in March, 1938.

In a deal closed this week, Rev. Jones purchased the Carlisle lot one block south of the square, on which was located the old Carlisle blacksmith shop. The shop building and equipment was bought by W. W. Hise, local blacksmith, who will move the building from its present site.

The lot, 67 by 140 feet, is the southeast corner of the block, and provides a convenient location for the church building. Tentative plans for the building, on which construction will be started about the first of the year, call for a rock veneer structure approximately 40x90 feet, fronting east.

CLUB GROUPS, PTA SPONSOR CAMPAIGN TO AID LUNCHROOM

Seek Donation of Dishes and Tableware for School Project

To replace school lunchroom equipment lost when the high school building burned early this summer, PTA organizations, The Magazine Club and the Senior-Junior Magazine Club are sponsoring a campaign for the donation of needed dishes, glasses, forks, spoons, etc., to provide proper facilities for the lunchroom during the coming school term.

Many Haskell housewives have discarded or unused china and tableware for which they have little need, and these articles will fill an important need in the school lunchroom project, sponsors of the campaign pointed out. Principal need is for plates, cereal bowls, tea cups, glasses or goblets, and forks. Donation of these articles will be a decided contribution to the success of the school lunchroom and will be doubly appreciated by the agencies sponsoring the drive to re-furnish the project. In connection (Continued on Page Eight)

Regular Meeting of City Council Is Held Tuesday

At the meeting of the City Council Tuesday night, Aldermen decided to discontinue the summer water rate which has been in effect for the past three months. The regular water rate will be in effect for the current month.

The Council also voted to furnish water free of charge on the School Lunch project which will be set up in a vacant downtown building with the beginning of the school term. The project is supported by voluntary contributions, city officials explained, in announcing the free water service.

The Council also granted a permit to the Farmers Co-Op Gin No. 1 for the construction of an approved type burr burner at the gin plant.

Will Seek To Have Building Designed as WPA Project

Non-Conference Encounter Expected to Reveal Team Prospects

Blasting open the 1940 football season for eager fans of this section, the Haskell Indians will meet the Weinert Bulldogs in a non-conference game Friday night on Indian Field. The contest is the first on the 1940 Indian schedule. The game will start promptly at 8 o'clock. Admission price for adults is 50 cents, while the usual reduction will be allowed for school students. The regular charge was made necessary because of the recent loss of all laying equipment and uniforms of the Indians when the high school building burned.

The game promises to be everything but a set-up for the locals, and advance reports from the Bulldogs camp indicates tough going for the Indians before they can scalp Coach Davidson's heavier squad, which includes several veterans from the powerful 1939 eleven.

With Ray Brock, Dan Oates and "Snort" Patterson practically cinched in the respective slots as left tackle, quarterback and full-back, starters in Friday night's game will be chosen from the following additional prospective regulars: Archie Henshaw, Neil Littlefield, Charles Reeves, Bud Pace, Carrol Bledsoe, Sam Hugh Smith, J. M. Gay, Frank Smith, Jerry Carr, Gordon Johnson, Albert Holcomb, Carl Lane.

Prospective starters for the Bulldogs include: Sparkman, Marsh, Booe and Ammons, ends; D. Low, R. Lowe and Medley, guards; Kreger, Zahn and Strickland, tackles; R. Ammons, Sanders, Toliver and Jenkins, backs.

Father of Haskell Man Dies Suddenly at Home In Byers

Dr. H. D. Vaughter, 73, prominent Byers physician and the father of Dr. J. G. Vaughter of Haskell and S. H. Vaughter, superintendent of the Rochester schools, died in Byers of a heart attack Tuesday night at 9:30 o'clock, a few minutes after he had delivered a welcome address to school teachers at a reception at the Byers Methodist Church.

A practitioner for 40 years, Dr. Vaughter had resided at Grandford, Mineral Wells, Megargel and Seymour before moving to Byers 23 years ago. He was a native of Georgia, coming to Texas when 5 years of age. As a young man he taught school in the Indian Territory.

He was a steward in the Byers Methodist Church, superintendent of the Sunday School, and was a Mason.

Funeral service for Mr. Vaughter was held at 2 o'clock Thursday afternoon at the First Methodist Church in Byers, with Rev. J. Allen Harvey-Brooks officiating. Burial was in the Byers Cemetery with Masonic rites conducted by Mayor Frank Bunting of Henrietta.

Surviving are the widow; four sons, S. H. Vaughter of Rochester, J. G. Vaughter of Haskell, J. V. and H. D. Vaughter, Jr., of Byers; two daughters, Mary Nelda of Spur and Mrs. Herschel Miller, Grand Falls, Texas; a brother, Tom Vaughter, Oklahoma City; and two sisters, Mrs. W. E. Davis, Riverland, Texas, and Mrs. Bessie Smith of Munday.

Special Judge Is Named In Morton Estate Will Case

Governor W. Lee O'Daniel this week notified A. C. Foster of Rule of his appointment as special County Judge to preside in the Kate F. Morton estate case now pending on the county court docket. County Judge J. C. Davis, Jr., was disqualified to act as judge in this case and certified his disqualification to the Governor, whereupon Governor O'Daniel appointed the Rule attorney as special judge in the case.

TOTAL OF \$246 IN FINES ASSESSED IN TEN COURT ACTIONS

Following adjustment of insurance on the high school building, plans for rebuilding have been announced by the board of trustees. David S. Castle, Abilene architect, is drafting plans and preparing an application to be filed with the Works Project Administration for government aid in the work. Representatives of the board have conferred with the district office in Fort Worth and have received assurances of hearty cooperation from the administration in the project.

The proposal contemplates reconstruction of the building as it was on the old foundation with some rearrangement of interior partitions. This rearrangement will reduce the number of class rooms by one, but will enlarge others, bringing them all to standard or larger than standard high school class room size. All the building except the auditorium will be of fire proof construction. The entire floor will be oak laid on a concrete slab. All corridor walls will be of brick or tile. No wood will appear above the top of the walls. Roof framing will be entirely of steel with steel sheet decking. On top of this will be laid fibre board to which will be applied standard roofing. Ceiling will be plaster on heavy metal lath securely fastened to the overhead steel framing.

Preliminary estimates lead the board to believe that approximately 25 to 30 per cent of the cost of reconstruction may be saved by building through the WPA. If this can be done, it is planned to use the surplus to construct a home economics cottage. It is felt that more room is needed for high school work and this cottage can be constructed as cheaply as additional rooms could be attached to the main building.

The board has received assurances from the district office that every effort will be made to expedite the project. The application is expected to be ready for filing by October 15 and it is hoped that presidential approval may be secured some time in December, if no unforeseen delays are encountered.

Everything possible will be done to complete construction in time for the opening of school in September 1941.

Four Defendants Enter Plea of Guilty When Trials Are Called

Fines ranging from \$100 to \$250.00 and costs for an aggregate sum of \$246.40 were assessed four defendants in cases cleared from the criminal docket in County and Justice court Tuesday of this week. Pleas of guilty were entered by the defendants in all cases, and minimum fine of \$100 and costs were assessed in all but one instance, when the levy of \$25 and costs was assessed against a Stamford man charged with aggravated assault. Also charged with affray, the same defendant was fined \$1 and costs in the second case.

One defendant entered plea of guilty in six cases—five for drunkenness and one for defacing a public building.

Mr. and Mrs. Paul Pruitt of Munday visited Miss Bonnie Cathey Wednesday.

Season Football Tickets Are Placed On Sale Thursday

Season tickets for all home games of the Haskell High School Indians were placed on sale at local drug stores Thursday of this week, affording football fans the opportunity to save 50 cents on the series of five games scheduled on Indian Field during the current season. The book of five tickets is priced at \$2.00. Regular admission charge at the gate for each of the games will be fifty cents. Only 100 season ticket books will be sold.

ANOTHER DRY HOLE?

In the constant search for new oil reserves in Texas, even the dry holes benefit the communities in which they are drilled.

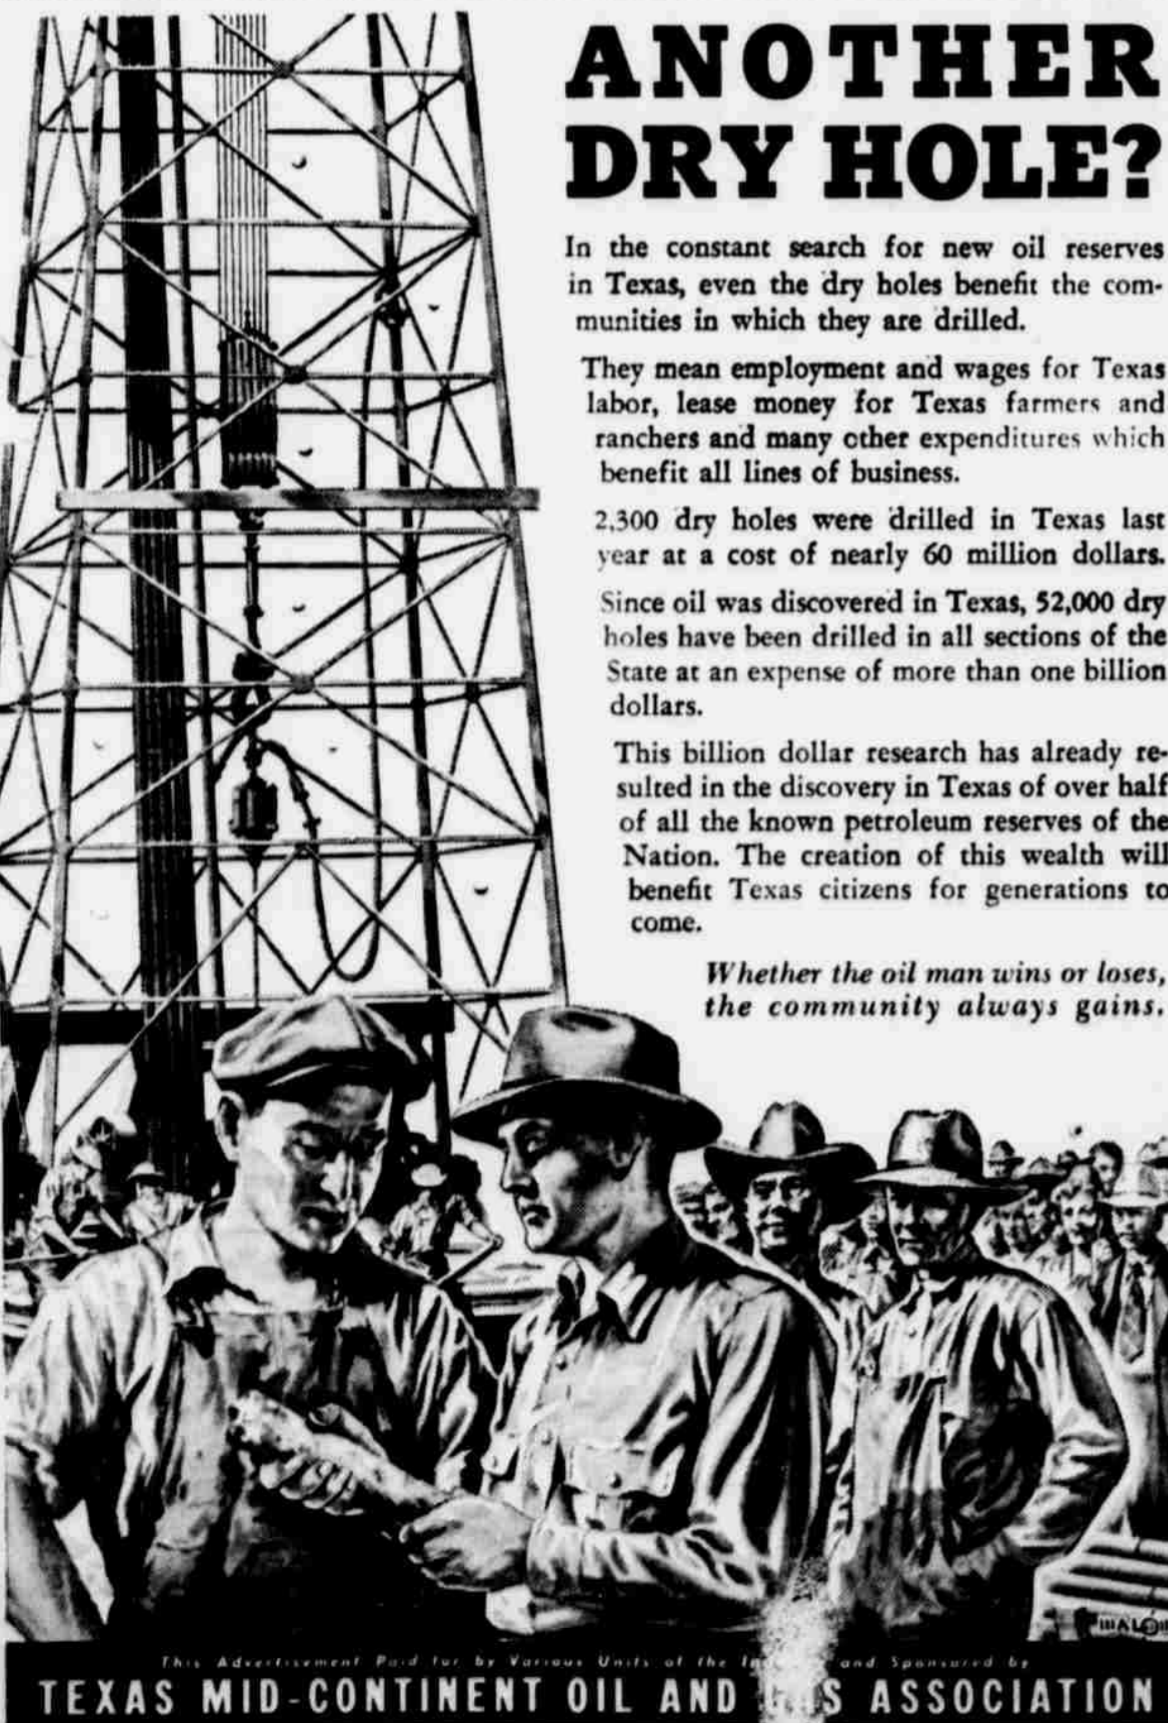

They mean employment and wages for Texas labor, lease money for Texas farmers and ranchers and many other expenditures which benefit all lines of business.

2,300 dry holes were drilled in Texas last year at a cost of nearly 60 million dollars.

Since oil was discovered in Texas, 52,000 dry holes have been drilled in all sections of the State at an expense of more than one billion dollars.

This billion dollar research has already resulted in the discovery in Texas of over half of all the known petroleum reserves of the Nation. The creation of this wealth will benefit Texas citizens for generations to come.

Whether the oil man wins or loses, the community always gains.

SOCIETY

Methodist Missionary Society Has "Disbanding Service" Monday

On Monday September 9th the W. M. U. met in the "disbanding service." At this time we bade farewell to our old Missionary Society and on next Monday we enter into the new organization as "The Woman's Department of Christian Service."

The September 9th service was opened by the organist, Mrs. Patterson presenting a program of old church hymns, the singing of "Faith of our Fathers" concluded the musical program.

Mrs. J. U. Fields was director of the program and had chosen as her subject "The History of Methodism in Texas." For the scripture lessons verses from the book of Isaiah were read and very interesting comments offered. Mrs. French offered a prayer. The director whose great grandfather, the Rev. Wynne, was one of the early Texas preachers, read extracts from a book of sermons left by this much revered author.

Mrs. Fields told some very interesting incidents connected with early Methodism in Texas. The first M. E. Church in Texas was founded in 1816. In 1833 the McMahon Chapel just east of San Augustine was founded. This historic church is still standing and was visited by the director. During this visit Mrs. Fields met and visited with Mrs. R. S. Noble who we might say, was the self-appointed custodian of this much loved chapel. Mrs. Fields paid a most glowing tribute to this sainted woman.

Mrs. P. D. Sanders told of the old time camp meetings at Buffalo camp ground in South Texas.

This, the last meeting before the reorganization was one of the most splendid of the entire year. We are proud to be a part of the great church that is the result of the merging of the three branches of the Methodist belief, but fond memories of the old M. E. Church, South, will always linger.

Next Monday is "Charter Day." Each woman of the church is urged to enroll in the new society and thus be known as a charter member. New officers will be elected and Rev. French will conduct the installation service. Be on time at 3:30. Reporter

Helen Bagby Circle Meets With Mrs. John Ellis For Mission Study

Monday, Sept. 9th the Helen Bagby Circle met in the home of Mrs. John Ellis for a mission study of Royal Service. We first sang "How Firm A Foundation" with Mrs. Ellis at the piano. Mrs. Paxton gave the first prayer and Mrs. DeBard was leader for this lesson and topic for this month, "To The Jew First." Mrs. Paxton gave the devotional, Our Great High Priest, following with prayer. We then sang "Guide Me Oh Thou Great Jehovah."

Ladies giving parts on the program were: Mesdames Cates, Couch, Taylor and Miss Crawford. Prayer by Mrs. Reynolds that we may win the Jews for Christ. The Home Board employed Rev. Jacob Gartenhaus as Missionary among the five hundred thousand Jews in the southland and for many years he has been the true, faithful, lone Missionary to his people. The Texas W. M. U. is supporting Miss Mollie Cohen who is doing effective work among her people in New Orleans. We also have some other workers over the state that are doing great work.

"Go then and bend your knee to pray
For Israel's ancient race
Ask the dear Savior every day
To call them by His grace
Go, for a debt of love is due
From Christian Gentiles to the Jew."

Thirteen ladies were dismissed with prayer by Mrs. Cates. We will meet with Mrs. Paxton next Monday evening in a Bible study by Mrs. Reynolds. She will teach the book of Deuteronomy.

Jossett Home Demonstration Club Has Regular Meeting

The Jossett Home Demonstration Club met August 10 at the club house with fifteen members and one visitor present. The president and vice-president being absent. Mrs. S. G. Perrin presided as president. House was called to order and our club song was led by Miss Mildred Norton.

Mrs. S. G. Perrin gave the council report and all business was attended to. The program was then turned over to Miss Vaughan, which was on a very interesting subject "Fruit Phase."

Refreshments were served to the following: Mesdames Cliff Ammons, J. L. Tolver, Clay Kimbrough Jr., J. L. Grindstaff, L. M. Bass, C. A. Thomas, S. G. Perrin, J. V. Perrin, Frank Spencer, Lawrence Hill, Slover Bledsoe, Misses Mildred Norton, Margaret Tolver, Eloise Edwards, Mildred Vaughan and the hostess, Mrs. Clovis Norton. Assistant Reporter

MayBelle Circle Meets In Royal Service Program Monday

The MayBelle Circle of the Baptist W. M. U. met Monday afternoon in the home of Mrs. Joe Maples in a Royal Service program with 12 ladies present. Those taking part on the program were: The Jew Today, Mrs. Travis Everett; That Israel Might Be Saved, Mrs. H. R. Whitley; The Jew Next Door, Mrs. V. A. Brown; Israel's Gifts To The World, Mrs. Jesse Jossett; Encouraging Experience, Mrs. V. A. Brown.

The circle prepared two sunshine boxes, one for Miss MayBelle Taylor and the other for Mrs. Hattie Carter.

After a short business meeting with the chairman, Mrs. H. R. Whitley in the chair, we were dismissed with a prayer by Mrs. Jim Crawford.

The following ladies were present: Mesdames Jim Crawford, Floyd Lusk, Raymond Lusk, Jess Jossett, V. A. Brown, D. A. Jones, H. R. Whitley, Travis Everett, Jim Tyler, Charlie Quattlebaum, Merle Davis and Joe Maples.

Sunshine Sewing Club Meets With Mrs. Tyler Last Week

The Sunshine Sewing Club met last week in the home of Mrs. Jimmy Tyler with six members present. As several members were out of town, the afternoon was spent in sewing and enjoying a social hour.

Refreshments of ice cream and cookies were served to: Mesdames V. A. Brown, Jack Ratliff, Hallie Chapman, Sam Parks, L. D. Jones, the hostess and her mother, Mrs. Tettler, a visitor.

The next meeting will be in the home of Mrs. Sam Parks on September 17.

Marcy H. D. Club Meets In Home of Mrs. Horace Pointer

The Marcy H. D. Club met in the home of Mrs. Horace Pointer September 3rd at three o'clock. The County Home Demonstration Agent gave a very interesting talk on fruits and vegetables for winter use. Roll call was answered by five members appointed by the president on cost of frame garden.

Those present were: Mesdames Pat Martin, Marabel Martin, P. P. Martin, Horace Pointer, Chalmers Harris, Julian Hinton, Ivan Moore.

IN MEMORY OF J. C. CALLAWAY

A prayer in honor of little J. C. Callaway who has gone to make his home in Heaven:

As we weep we trust his promise, for He sends the healing balm, we will trust our darling to the keeping of Him who bade the waves be calm.

Yes, beneath the sod we will keep thee, where the little body lies, Yes, we know that thy pure spirit, winged its way to paradise. But away beyond the planets, in the mansion of the blest, With the Savior and the angels, he has entered into rest.

Amen, Mother Weaver

CARD OF THANKS

We wish to extend our heartfelt thanks to the many kind friends, neighbors and acquaintances for their faithful and loving sympathy of kindness extended to us during the illness and death of little J. C., our son, brother and grandson.

While our hearts are deeply bowed in sorrow we realize you have made our loss easier for us to bear.

We appreciate the beautiful flowers so much, with their messages of love and cheer.

May God's richest blessings rest upon each of your dear friends and comfort you as it has us in your time of sorrow is our prayer.—Mr. and Mrs. E. C. Callaway and Clarence; Mrs. J. C. Lewellen.

METHODIST REVIVAL WILL NOT BE HELD BECAUSE OF LATENESS OF THE SEASON

The revival meeting which was to have started at the Methodist Church next Sunday has been called off because of lateness of the season.

Our pastor, who has been ill, is able to occupy his pulpit again and will preach morning and night and insists that the membership come to hear him and invite at least two people to come with them. The Board of Stewards joins him in this request, and urges all members to come to all services until October 15th, as the pastor hopes in these services to, in a measure, make up for lack of regular revival.

Mrs. W. B. McMillin has returned home from a month's visit with her daughter and family, Mr. and Mrs. J. T. Johnston and baby of Zelma, Calif.

Mr. and Mrs. Paul Dennis and Mrs. C. A. Threet of Albuquerque, N. M., are visiting their daughters and sisters and other relatives.

Schoolwork Causes Heavy Strain On Eyes, Report Shows

Of all the activities carried on in the home under artificial light, schoolwork causes the greatest strain on the eyes if the home is improperly lighted.

This is the opinion of many hundreds of men and women interviewed in an extensive survey conducted in eight midwestern and southern states including Texas.

In discussing the survey, H. C. King, local manager of the West Texas Utilities, said that seven persons out of 10 named reading or schoolwork when asked what activity in the home calls for the best lighting.

Sewing and mending ranked as a strong second in the survey, while cooking, shaving, and similar tasks were considered by others to impose a considerable strain on the eyes in poorly lighted homes.

"Our lighting department," he said, "is glad to make free lighting tests whenever requested. It often is impossible to improve light at little or no expense. Our lighting advisors are equipped with a slight meter which scientifically determines the proper candle-power needed for study, reading, mending or any of the various eye usages made in the average home."

Former Resident of This City Is Buried at Lubbock

Friends and relatives in this city were deeply grieved to learn of the recent death of Mrs. H. E. Gray of Clovis, N. M., the former Miss Thelma Collins of Haskell.

Death occurred in Magdalena, N. M., following a brief illness of pneumonia. Deceased was the daughter of Mr. and Mrs. W. W. Collins of Lubbock. She was born in Haskell March 11, 1914, and lived here until the age of ten, when the family moved to Lubbock. She was married to H. E. Gray in Tennessee April 24, 1936, and to this union was born one son, Bill, age two and one-half years.

Funeral service for Mrs. Gray was held at the Cavalry Baptist church in Lubbock and interment was in Lubbock Memorial Park Cemetery. Surviving are her husband and their son, parents, and four sisters—Lucille Naden, Geneva Dean Collins and Mrs. Jack Blair of Plainview, and one brother, Quinton Collins.

Relatives who went from Haskell to meet the body in Lubbock were G. W. Piland and daughters Maggie Lee and Mrs. Doyle Norman; Mrs. W. H. Parsons and Mrs. Nancy Jeter.

Debt-Burdened Farmers Asked To Conference

Farmers who are handicapped in their farming operations by debts which are beyond their ability to pay were asked by FSA Supervisor R. E. Skipworth to attend a conference of the Haskell County farm debt adjustment committee to be held on Friday, September 20 at the FSA office at 10 a. m.

"This committee will help debt-burdened farmers work out a fair agreement with their creditors that will benefit both parties," Mr. Skipworth stated. "Creditors will gain because the agreement will help them realize the major part on obligations which otherwise they would have a big loss in, and the farmers will be permitted to operate more profitably and eventually pay their debts."

The supervisor said he had found most creditors willing to be lenient with farmers who had the proper attitude. "There is no reason," he said, "why a man should hesitate to sit down with his creditors and in a friendly manner try to work out a solution to their problems."

PUTTY FAILURE OFTEN DUE TO POOR APPLICATION

When you see the putty cracking away from your windows in big chunks, don't be too quick about blaming it on the putty. The chances are the putty failure is due to the way the putty is put on.

In the other sketch is shown the proper way to apply putty. It is known as "bedding". Notice here the layer of putty on all sides of the glass. It actually is resting in a "bed" of putty. Wood and glass do not come in contact with each other. Notice also the putty groove which anchors the putty.

GEMS OF THOUGHT

Excellence is never granted to man but as a reward of labor.

Old-Time Firemen

Early fire-fighting companies in the nation were composed entirely of volunteers and often included the most prominent personages in their respective communities, according to a writer in the National Republic, who notes that the first company in Princeton, N. J., had Revolutionary War generals, professors and members of Congress among its members.

The equipment was crude, consisting of buckets, ladders, axes and a small hand-pumped engine, but the company's organization was quite thorough and composed of four classes of firemen. The first had the duty of salvaging property from the fire; the second worked the fire engine; the third used the ladders, fire hooks and axes, while the fourth looked after the water supply, which was drawn mostly from wells in the town.

Rules for the company were strict, especially with respect to answering alarms, attending meetings and the care of equipment. The two ladders possessed by the company could be loaned out to members, but it was required that they be returned to their place by sundown. Records still in existence show that a Dr. Beatty, who was a member of the Continental Congress, was once fined 10 shillings for a violation of that rule.

A fine of one shilling was imposed on members for failure to attend meetings or for other minor irregularities, while the fine for not answering a fire alarm was seven shillings.

The old-time firemen performed a most valuable service, although poorly equipped as compared with the facilities possessed by modern fire fighters.

Gen. Pershing at 80

General John J. Pershing, one of the world's greatest living soldiers, and one of the few surviving officers who exercised high command during the first World War because 80 years of age on September 13.

Incidentally it may be mentioned that Pershing was born on Friday the 13th, and his 80th birthday will also fall on a Friday. In his case the jinx date does not appear to have been unlucky, although his life has been marked by one great tragedy. His wife and three young daughters were burned to death at the Presidio of San Francisco in 1915, one son surviving.

A native of Missouri, General Pershing was graduated from West Point in 1886, and was engaged in the campaign against the Apache Indians the same year. He served in the Sioux war of the '90's and in the Santiago campaign of 1898. He so distinguished himself in a successful campaign in the Philippines that he was promoted from captain di-

rectly to brigadier general in 1906. In 1916 he commanded an expedition sent into Mexico in pursuit of the noted bandit, Pancho Villa.

Upon our entry into the World War he was placed in command of the American Expeditionary Force in France, and for his distinguished services was made General of the Armies of the United States, a rank created especially for him by Congress in 1919. He was retired from active service in 1924.

The nation will extend congratulations to its first soldier on his 80th birthday, and wish for him many more years in which to enjoy his well-earned honors.

Health Racketeers

Medical quackery, which for several years gradually lost ground because of the growing tendency of newspapers to reject quick advertising, seems to have found a new and potential aid in the radio.

Much advertising which no self-respecting newspaper would print is freely broadcast over the air, evidently with some success in attracting suckers, because it is being continued in undiminished volume.

Those who prey upon the public by fraudulent cashing in on the universal desire for health are characterized by Dr. E. P. Lyon, dean of the medical school of the University of Minnesota, as "health racketeers."

He says of this type of faker: "His health patter is pseudo science. His eye is on your check book. In these days especially he prostitutes the radio to his uses. Quacks and quackery, fakers and fakery of all kinds appeal to a bewildered public between jazz and the nasal tenor, with blatant advertisements that no reputable journal will print. Oh, health, what crimes are committed in thy name!"

Even some of what appears to be legitimate advertising is very deceptive. The doctor says further: "Brushing the teeth is a nice habit; but no one has proved that it saves teeth, and all the flamboyant advertising about tooth pastes is rottenest tommyrot."

Refuge For Scholars

Since Hitler began driving the best brains out of Germany through persecution or fear of it, many famous authors, scientists, artists and others representing the highest culture have sought refuge in America. As Nazi oppression has been extended to other countries, many of their most capable scholars in various fields have come here also.

By this month, the Committee in Aid of Displaced Foreign Scholars had already helped to bring about 200 eminent Europeans to the United States, but some 3,800 more were on its waiting list.

Perhaps the most famous German to come to our shores as a result of his hatred of Hitlerism is Dr. Albert Einstein of relativity fame who recently became a full-fledged American citizen. Almost as famous is German-born Thomas Mann, the author, who will shortly complete his American naturalization. Both Einstein and Mann are Nobel prize winners.

Heinrich Bruning, former German chancellor, is now a teacher at Harvard; Physicist James Franck, another Nobel prize winner, is a professor at the University of Chicago, as is former President Eduard Benes of Czechoslovakia. The long list of refugees includes virtually the cream of former European scholarship.

Some fear has been expressed that this influx of foreign-born scholars might tend to displace American educators, but in most cases special professors have been provided for the eminent refugees.

The governor of Arizona actually rules over only about 14 per cent of the state's area, the rest being composed of Indian reservations, national parks, national forests, military reservations and other lands owned and controlled by the Federal government.

Fifth Column Move Spreading, says Hoover

"FIFTH COLUMN methods have penetrated into every walk of life," declares J. Edgar Hoover, chief of the Federal Bureau of Investigation. "Their insidious propaganda has even gained entry into some of our churches and many of our schools. Unless we unite to resist these efforts, America will regret the day when it let down the bars."

The foregoing quotation is from an article appearing in the October issue of Cosmopolitan Magazine, entitled "Inside the Trojan Horse" and written by Donald E. Keyhoe and John Jay Daly, both well known Washington correspondents. J. Edgar Hoover is not given to making hysterical statements and such writers as Messrs. Keyhoe and Daly are not alarmists. In a foreword to their piece in the magazine, Robert H. Jackson, Attorney General of the United States, says in part:

"These are times which require strict discipline. It becomes the duty of every citizen to maintain individual discipline and the discipline of his community if our American democracy is to stand."

More than 350,000 known members of the Fifth Column have been placed under direct orders from Europe. Hundreds of foreign agents have entered the United States, legally or illegally, to train the hidden army in tactics which was so successful abroad. Federal agents estimate that more than half a million persons have been drawn into this network including the 350,000 already known. Five cases of sabotage were discovered in aircraft plants in the factory producing the huge four-motored Flying Fortress, heart of our air-defense force. Airplane controls crafted by an unknown spy caused the crash of a new Navy plane, killing its crew.

These and many other results of the careful, methodical infiltration in this country of agents under orders from Nazi Germany and Soviet Russia, are not guesswork on

J. Edgar Hoover

the part of the authors but proven facts.

The writers say Nazi propaganda has tripled in the past two months. A vital decision will soon have to be made in this country. Following are the three most potent arguments on the question of appeasement of Hitler or challenge of his attempts for world supremacy. They were released in this country by Nazi propagandists after careful preparation in Berlin.

(1) (Wishful thinkers) Germany can't rule the whole world. She can't even police the countries she's captured—etc., etc.

(2) (Business Men) Hitler'd rather make a business deal with the United States than go to war. Why? In business with huge taxes.

(3) (Stiff Resistance) The Nazis are invincible. Better not antagonize Hitler. It will only bring him into this hemisphere sooner—etc., etc.

OUR DEFENSE

The Army of the United States

The Cavalry

Yes, there still is Cavalry. The Cavalry is very explicit on that subject. The Cavalry is usually what gets the fight first. They may come on horses, as there are some territories where a horse is still the best means of going places. But a lot larger number gallop up in armored cars and in combat cars, that look, and—if you are on the receiving end, feel just like tanks. In fact, they are tanks. Tucked away in the Cavalry are even men mounted on motor cycles. The Cavalry is still the fastest moving ground-fighting arm.

The Cavalry stays out in front of the main army, exploring the ground ahead. Because of his ability to move far and fast it is supposed to spend a good portion of time in the enemies' rear lines making a mess of things. To move being its prime function, a cavalry regiment needs the wherewithal to get places, and the job devolving on the National Defense Advisory Commission, in respect to the Cavalry, is to tell the Army where, and when, and how, it can procure that transportation.

When it comes to horses for the horse cavalry, the Commission bows to the army. They have been buying and raising horseflesh for so many years that they know the name, address, and personal history of every type of horse they need. Sturdy half or three-quarter bred for hell-for-leather riding purposes, and heavier types for pack purposes. The American Cavalry is fitted out with heavy machine guns, mortars, and howitzers, which can be taken apart and up into several suitable one-horse loads. Just for information, the Cavalry, when it gets to a fight dismounts and sends the horses back.

Mechanized Cavalry

A mechanized cavalry regiment is made up of four combat car troops of about 100 men each. These are the striking power of the mechanized cavalry. Many of these may shortly be transferred to the new Armored Force.

There is a service troop which provides for transportation and maintenance. The reconnaissance troop is used by the regimental commander to find out where the enemy is at any given moment. Like the combat cars, all the command cars are equipped with machine guns, and two-way radios.

Local cattle inspector T. J. Lemmon has been pretty busy of late inspecting bunches of cattle in this, Stonewall and Fisher counties whose owners were desirous of moving farther west or into the Panhandle.

We met Mr. J. S. Fox, who is running a steam threshing machine, the other day and he informed us that up to that time he had threshed 84,000 bushels of grain. He said the wheat yield had ranged from 10 to 40 bushels per acre.

Prof. Litsey informed us that the enrollment in the public schools this week was 181 pupils. According to the last census, there should be considerable more than 200 enrolled, and it is probable that the demand for cotton pickers is keeping some of the young people out of school.

so that the companies are set up to give orders to their units whether they are moving or waiting to move. So it is that every part of a mechanized cavalry regiment is able to roll, and it has a tremendous fire power, which makes it hell-on-wheels.

For weapons the mechanized cavalry has pistols, rifles, 30 caliber air-cooled machine guns, 30 caliber water-cooled heavy machine guns, 50-caliber machine guns and 37 mm. guns (both used as antitank guns) and a 4.2-inch mortar to fire smoke shells. These shells are used as protection against enemy anti-tank guns. And to add a typically American touch, the Cavalry is supplied with the famous "Tommy Gun", beloved of the prohibition wars.

A cavalry division also has all the units of the infantry division. For example, it has a field artillery unit, drawn by six-horse teams in a horse cavalry unit and by trucks in a mechanized unit. The distinguishing mark of a cavalry division is that it contains no one who habitually walks.

Keeping The Cavalry Rolling

Now to keep all the rolling stock of a cavalry division able to roll takes considerable organization. There have to be men able to make a gasoline or diesel motor purr when the motor may want to quit. There have to be others who know where the proper supplies of fuel are located and how to get that fuel into the gas tanks no matter where those gas tanks happen to be. And that's no easy job when you realize that mechanized cavalry can get up in the morning, break camp, eat a hearty breakfast, get moving, and by nightfall be some three hundred miles and several thousand gallons of fuel away. And if the boys are to the rear of the enemy, the enemy undoubtedly will persuade the local filling stations not to sell them fuel. The fuel has got to go with the forces. Also the supply service must be ready to fix flat tires, tired tanks, jammed guns, and give relief to the soldiers whose brains have been jarred into a splitting headache after rattling around inside a tank.

The problem in the horse cavalry is about the same. There must be hay for the horses, as a horse won't run without fuel any more than a tank. And the modern horse has learned not to be scared of himself in a gas mask, and has to be kept supplied with one. It takes a wonderful supply organization in the Army to see that all the thousand and one articles necessary to keep a cavalry division in the running are handy when and where they are needed, even if a day's run may put them any place in 270,000 square miles of territory. But behind the Army there must be another organization ready to find the supplies in the necessary quantity and get them to where the Army can take them over. That is the job of the National Defense Advisory Commission. And it has to be done, not only for the Cavalry, but for every other branch of the Army and Navy as well. That is why the Commission, for instance, has recommended that supplies of strategic materials be tucked away for future reference.

Mr. A. A. Bradford and daughter Jane spent last week end with relatives and friends in Sweetwater.

CCC Boys, Ignorant of Combat, Can Perform Vital Battle Work

By HAROLD MARTIN in The Atlanta, Ga., Constitution

Keep no more because the boys of the CCC have not been trained in the manual of arms and close-order drill.

They have learned other things that make them more vital cogs in the system of national defense that make them in fact, men too valuable to be handed a gun and sent into the front lines.

If war comes, the men of the CCC will be specialists in a dozen fields, masters of noncombatant technique as vital to the carrying on of conflict as firing a rifle or machine gun.

Here are the things they know that make them soldiers already, in fact if not in name:

They know how to live together in barracks, under discipline that is as rigid as that of an army camp even if punishment is less severe. Any psychiatrist can tell you this alone is an important factor in the making of a soldier.

Thousands of them know minutely the workings of engine, and how to tear them down and rebuild them in a hurry. Modern war travels on its machines, and the CCC mechanic would fit perfectly into the personnel of a mechanized division. A tank is only an armed and armored tractor and the CCC mechanic who knows the workings of a caterpillar will find the motive machinery of a tank no puzzle.

Many of them are expert drivers of heavy tractors. There is little difference in the process of driving a tractor and driving a tank.

Many of them are expert drivers of transport truck. It is the same truck, loaded and handled by the same military rules, as the truck a soldier driver would handle.

Many of them are expert welders. There is no difference in patching the steel flanks of a tractor torn by a landslide and patching a steel flank of a tank torn by a shell.

Many of them are expert telephone men. There is no difference in laying an emergency line from a CCC camp to a fire-fighting crew in the woods and in laying a line from a command post to an observation outpost in no man's land—no difference except the danger of death, and not even the army can train its men under actual battle conditions.

Many of them are expert woodworkers, and there is no difference in the tools and techniques used in making wooden frames for truck cabs and the tools and techniques used in making wooden pontoons for bridges.

Many of them have better than a fundamental knowledge of the use of surveyor's instruments and the techniques of throwing a temporary span across a stream. There is no difference in their talents in these lines and the talents of the German "pioneers" who kept the mechanized troops of Hitler moving even though bridges were down in their path.

Many of them know the operation of field radios, having been trained in this task by fighting fires. There is no difference in their knowledge here and the knowledge of the signal corps man in the army.

There are even parachute experts among them. In the far northwest CCC men have been trained to jump from planes to fight small isolated fires in backwoods areas where no truck trails lead. They are supplied by planes dropping equipment packs and keep in touch with headquarters by portable radios.

There are expert photographers among them, and mapping a forest area by photography is little different from mapping a battle terrain.

Know First Aid
They all know first aid. There is no difference in patching the leg of a comrade struck by a splinter of shell and in patching the leg of a comrade gashed by a falling rock.

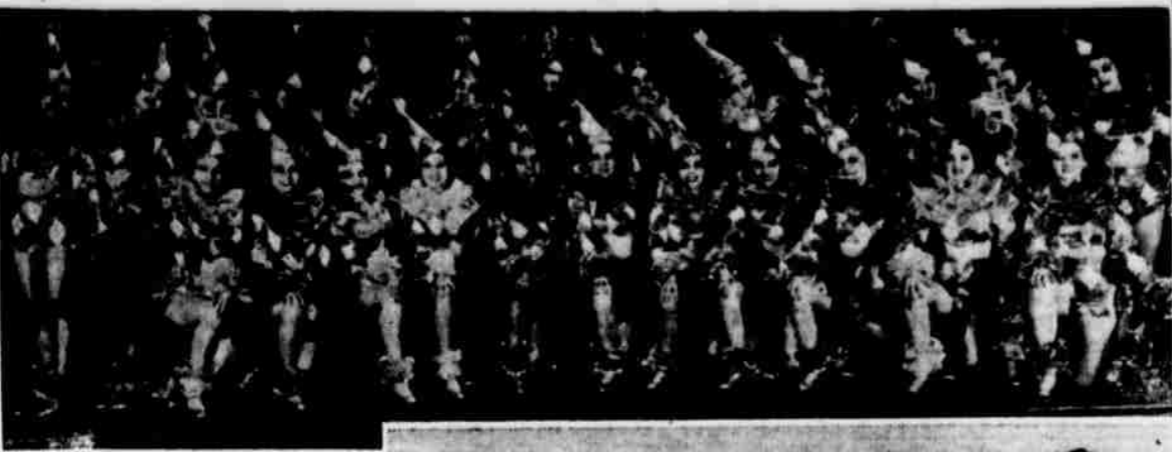

Some of them are expert carpenters. The barracks they build for themselves are no different from the barracks they might be called upon to build if war came.

There are expert cooks among them. They cook the standard army ration on the standard army range, with the standard army utensils. They observe the army standards of cleanliness and order at table.

They have been soldiers all along, whether they knew it or not. They are soldiers now—trained in everything but the techniques of slaughter.

The day of a CCC enrollee, followed from dawn to dark, shows clearly how close their lives parallel the life of a soldier in camp. They rise at 5:30 to the notes

Huge Revue Will Present Musical Numbers

The Garo Neilsen girls in "Circus Revels," one of the production numbers in "Americana," the huge outdoor revue which will be presented twice nightly in front of the grandstand at the State Fair of Texas, Oct. 5 to 20.

Lower picture shows the Twelve Aristocrats six boys and six girls, who sing and dance and are presented in the production numbers of "Americana." The Twelve Aristocrats are among the best known radio and concert stage artists of the present day. They present an adagio number and a waltz number which have proved the sensation of the "Americana" tour.

of a whistle instead of a bugle. They dress in the same fatigue clothes that a soldier would wear. They go through the same calisthenics that a company of soldiers would go through.

As engineers they have built 114,000 miles of roads over the roughest terrain in the United States. They have spanned streams with 7,000 bridges. As communications men they have laid 79,000 miles of telephone wire through rough country.

They have been trained in short wave radio operation until now there are 18,000 of them who know this important wartime technique. There are 26,000 photographers among them.

Let there be no feeling the nation has failed to help defend itself by not training the CCC in the manual of arms and close-order drill.

Woody's Gap Camp
Go up, instead, of afternoon to camp F-1 at Woody's Gap. Look at 200 men lined up in

company formation while Camp Commander Lieutenant F. A. McCartney conducting an inspection rigid as any army inspection, barks a quick command at sight of a loose button, a dusty pair of shoes, an untrimmed neck.

Look at them standing there in the khaki uniforms of soldiers jaunty overseas caps cocked over one eye, rigid at attention, tough as whale-bone from hard work under the stern eye of Forest Service Project Supervisor Claud B. Boynton.

Watch them as, at word of command, Old Glory comes down from the tall flagstaff, and the jaunty overseas cap comes off to be held over the heart in the CCC salute to the colors.

Soldiers? No. For they don't know the technique of killing. But specialists who, if the time comes, can keep the motors of war roaring, the wheels of war turning, the fighting men moving up to the lines in trucks, the communications flowing between units by telephone and radio—who can repair the broken tanks, rebuild the blasted bridges, perform the thousand noncombatant duties without which an army cannot ply its trade.

Foster H. D. Club Has Regular Meeting Friday

The Foster H. D. Club met in regular meeting in the home of Mrs. W. H. Harrell on Friday, Sept. 6th.

The chairman called the house to order and the opening exercise was the group singing "God Bless America." Roll call was answered and after a short business meeting the program was turned over to the home demonstration agent, Mildred L. Vaughan, whom I quote as saying, "Now is the time to look forward toward fruit and vegetable plans for winter."

She also states that "cooperative buying" is a plan that will be of value to each family in looking forward toward an efficient diet for winter. Inadequate food supplies will be a hindrance to the health as well as the temperament of an individual.

A refreshment plate was served to the following: Mmes. J. O. Yarbrough, J. E. Adams, W. H. Harrel, G. M. Wade, L. G. Servier, J. T. Sego, Mrs. Bill Dunmon, visitor, Misses Frances Hamilton, Dorothy Kate Watson, Margaret Sego, Nettie Loyal Harrell and Inez Adams. Reporter

TEXAS OUT-O'-DOORS

Chukars May Have One Chance

AUSTIN, Texas—After experimenting with the Chukar Partridge for more than two years in all sections of Texas, State Game Department biologists have reached the conclusion there is but one area in Texas in which the birds have a good chance to spread and populate the countryside. That is in Brewster and a few surrounding counties of high altitude.

The Chukar was imported from India and attempts to adapt them to the United States is being made by more than a score of states. Birds were planted in many areas in Texas and various methods of propagating them attempted. However, in most sections they disappeared. A few times they appeared forty to fifty miles from where they were liberated.

Plantings in Brewster County were made fairly near ranch houses and the birds have gradually spread until they are now in areas two to three miles from the ranch houses and are apparently prospering. Biologists, while now believing this is the only area in which the bird may do well, are withholding final opinion for at least another year.

Coyote Lassoed By Pipeline

The strangest method of trapping coyotes ever disclosed has been found in Texas! And there is a picture of the event to prove it! A pipe line recently broke on the Howell lease near San Diego in Duval County. Fore of the explosion caused a piece of the pipe to curl in a circle—and in this circle, held so tightly it could not escape, was a coyote. It has not been determined whether the pipe choked the coyote to death or the force of the explosion killed it, according to J. L. C. Beaman, newspaper owner in San Diego, who ran a picture of this strange occurrence. It is said that the pipe was twisted so tightly around the coyote's neck and with no tool marks on it, that it would have been impossible for anyone to have played a practical joke.

Be Careful Hunters

With the hunting season under way in Texas officials of the CCC have issued their usual appeal to sportsmen to be very careful while in the fields or woods near CCC camps. Hunters are asked to refrain from shooting within rifle range of camps. There have been

comparatively few accidents in the past due to the excellent co-operation of sportsmen, and CCC officials hopes that it may continue.

Beavers Are Reported

Evidence of a considerable number of beaver inhabiting the hills surrounding Buchanan Lake in Central Texas has been uncovered by a game manager of the State Game Department. The few beaver which remain in Texas generally are welcomed by land owners. They destroy some trees, but their building of dams has aided many landowners and helps some streams from a fishing standpoint.

Winter Food For Quail

This is the time of the year when landowners should start thinking about feeding quail during the rugged days of winter and the time when sportsmen should urge the owners of their favorite quail shooting grounds to

help the birds. With a marked increase in Bobwhites being reported from many sections of Texas, it is more necessary than ever to leave food standing for these birds, it is pointed out by the executive secretary of the Game Department. A few rows of grain left standing at the field edges, close to natural cover, is the best insurance possible for carrying over the game and insectivorous birds into next year.

Emergency feeding is not nearly as effective as proper preparation against food shortages, the executive secretary pointed out. One of the best plans is that of leaving small grains near the edges of fields. Hundreds of farmers in Texas are building shelters for quail under supervision of the Game Department.

School Lunch—

(Continued from Page One)

with the lunchroom project, sponsors will also accept gifts of used clothing, including shoes, coats, sweaters, etc., suitable for mending and which can be used by some school child during the coming winter months.

A community-wide canvas will be made Friday, Sept. 20, by committees from the three PTA groups and the two Magazine Club organizations to gather up all donations of dishes, tableware and clothing contributed in response to this call, and donors are asked to have their donations ready on that date. If preferable, articles to be donated will be called for at any time during the coming week provided members of the sponsoring organizations are notified of the request.

Heads of the various organizations sponsoring the campaign are: Mrs. Leo Duncan, president South Ward Parent-Teacher association; Mrs. Clay Smith, president North Ward Parent-Teacher association; Mrs. J. L. Littlefield, president High School Parent-Teacher Association; Mrs. C. L. Lewis, president Magazine Club; Miss Ethel Frierson, president of Senior-Junior Magazine Club.

Hospital—

choice. "A large percentage of this community have already enrolled and more are enrolling every day. This is your chance to prepare for future emergencies and not have to worry about the hospital bill."

The benefits include the following: 35 day room service each year, \$5.00 per day meals, etc., operating room may be used as many times as necessary, anesthetic, drugs, dressing and laboratory service, emergency room in case of accident, X-ray service in case of accident, one-half allowance on maternity cases. This is the protection your hospitals have provided for you and yours if you accept their non-profit program. This plan meets the requirements laid down for approval by the rating bodies of organized medicine and of the hospitals. It is the safest, surest, most economical and most equitable plan devised. There will be no excuse for anyone not being able to meet the hospital expense if you will accept Group Hospital Service membership.

"The time is limited and will positively close Saturday week, and no one will be accepted for six months or more. What would you do if confronted with a large hospital bill? Full details can be had from your local hospital."
