### Apples, Pears and California spent the week end in Irish Potatoes Off Rochester with his parents. Mr. and Mrs. O. D. Poole. They left Food Stamp List Monday for Kansas where they

Blue stamp foods available durng June to families taking part in the Food Stamp Program in Haskell County were announced today by David G. Guthrie, Jr., Acting Area Supervisor of the Agricultural Marketing Adminis-

The foods for June are the same as those listed for May except for fresh apples and fresh pears, removed because of a seasonal short supply position, and Irish potatoes week. Mr. Smith died suddenly of until December. He plans to refavorable price position no longer warrants additional market sup-port. With these changes the com-in Plainview is here for the sumplete list, as issued by the Agricultural Marketing Administra-tion for the period June 1 through June 30 in all stamp program areas, is as follows: shell eggs. butter, fresh oranges and grapefruit, sweet potatoes, fresh vegetables (does not include Irish potatoes), corn meal, dried prunes hominy (corn) grits, dry edible beans, wheat flour, enriched wheat for several days. She will also (Graham) flour.

The Food Stamp, Mr. David Guthrie said, helps to assure far- Tech is visiting her parents, Mr. mers a fair return for those pro- and Mrs. V. E. Newton and famiducts which they are being asked ly. to produce in greatly increasing quantities to meet the food needs of the United Nations.

### short visit with her parents at \$3,500 In Awards Offered By Cowboy Reunion This Year

for San Diego, California where Stamford - Approximately \$3,she will spend several weeks with 500 will be given in cash prizes and premiums in the various events in the thriteenth Annual Texas Cowboy Reunion to be held here July 2, 3 and 4. Entrants in the rodeo events last year totaled almost 200 cowhands.

The Quarter-Horse show which is the official show of the American Quarter-Horse Association, and which has proved very popular the past two years will again be held. Prize money totaling around \$600 will be awarded in this exhibit.

In addition to daily cash prizes. special premiums will be given the champions in the bronc riding. calf-roping, and cow milking contests. A valuable premium will also be presented the winning cowgirl sponsor, the winner in the cutting horse show, and the champion steer rider.

Best entries in the grand parade and winners in the old fiddler's contest will also be included in the cash prize list.

Tentative plans are being made to enter the cutting horse show as part of the regular rodeo events of each afternoon and night performance, with finals to be held at one of the shows on July Fourth This unique feature of the Texas Cowboy Reunion is judged on the ability of the horse and the performance and ability of the rider.

Three performances will be held daily in the arena, a matinee at 8 o'clock each morning and the regular shows at 2 p. m. and

rodeo contests, will include trick and fancy riding and roping and the rodeo clown who is always popular with the crowds.

Billie Rae Martin Chosen All-Around Girl

The selection of the best allround girl of the year 1941 and 1942 was made here at the close of the school by the teachers of the Sagerton high school. She is Billie Rae Martin, daughter of Mr. and Mrs. Bill Martin, and assistant editor of the school paper 'The Eagle."

With pleasure the faculty chose Miss Martin because of her sincerety, her thoughtfulness others and for her magnetic smile as well as her determination for getting things done on time.

Billie is also a member of the 4-H Club being secretary for that club, and she was reporter for her class. She plans to continue her education and her ambition is to be a successful business woman.

### Sagerton Walter League Entertained

## From where I sit.

by Joe Marsh

Every Friday night a bunch of us fellows get together over at Bill Webster's place. We wouldn't miss those weekly get-togethers for any-

There are seven in the group -Bill Webster, Judge Cunningham, Pete Swanson, Old Doc McGinnis the dentist, and young Doc Mitch-ell the M.D., the government man Bob Newcomb, and myself.

We don't play cards. We don't sing or carry on.

We just sit quietly and talk and drink a glass or two of beer.

I guess we discuss just about everything under the sun-politics, business, family affairs, music, farming, hunting, fishing, and what not.

But mostly we like to chew the fat about life's experience and a man's philosophy in these times.

To sort of help out the conversation, we've found mellow beer particularly relaxing. Every one of us likes the tangy taste of beer ... and now and then Judge Cunningham insists on ale for everybody.

You mightn't think the settin' and talkin' would much fun. But it is, Part when a man begins to get to the age of reason. Lite

And it's wonderful how glasses of good beer help by good talk and good sens men get together. There thing peaceful and friend human about beer that bee the best in a man.

They call beer the "beve moderation." That "mode idea is good philosophy...that's why good beer an fellowship go together so

Seems to me there outh of beer. It sure straighten man in his thinking.

Anyhow, men ought to gether and be friends. The way we were made. Why not more often-all of you?

No. 37 of a Series

Copyright, 1942, Brewing Industry For

Supt E. L. Tabor and his wife left Saturday for Eastland. Mr. Tabor recently received word from ceive temporary employment until that time.

Mrs. Melvin Lewis visited her husband at Sheppard Field in Wichita Falls last Saturday. She accompanied Mr. and Mrs. R. L. Summers to Abilene Sunday to celebrate the birthdays of Mrs. McArthur and Mr. Summers.

Since 1834, members of the Pilgrim Predestinarian Regular Baptist Church have held continuous worship on the site of their pre-sent church building one mile west of Elkhart, Texas

Although Texas showed a larger percentage of gain in popula-tion from 1930 to 1940 (10.1 percent) than the United States as a whole the gain was smaller than any in Texas history.

# Time Marches On

DO YOU REALIZE that more than one-third of 1942 is gone-and go beyond recall? The early days and months of 1942 are now mingling with the eternity of the years. We might feel very sad about it all-but mourning would be futile. Repining will not bring back a single moment.

The intelligent thing to go is to use the days right now as they come along one after the other.

But how?

Certainly not in frivolity-because there is no place in this country if frivolity today. Men and women must work, young people must learn-must ge ready to take the responsibility that is moving in their direction with the speed of light. (If you are between 17 and 20 years old, has it ever occurred to you that within the next twenty years you'll be having your part in the management of the affairs that are now being directed by your father and mother and the adults around you?)

The other day somebody said, "In twenty years there will be more bosset than there are today and I intend to be one of them." Here's something worth writing in your little book-worth impressing indelibly upon your memoryworth bringing to the forefront of your thinking a dozen times a day. In twenty years from now you are going to fill some sort of place in life and certainly you'll be either a leader or a follower-either a boss or bossee; and right now is a good time to get ready for one job or the other.

"The way a man makes his living has much to do with the kind of life he leads."

### 'Taint So

Because the Legislature passes so many new game and fish laws at each session, many sportsmen are continually wondering what they can do and cannot do in field and stream

And one of the latest questions fired in to the Game Department was this: "May a hunter kill deer in season when the deer are at or near water holes?

The answer of course was yes. It seems that someone had heard someone repeat a rumor heard by someone and repeated by someone else, to the effect that deer at or near water holes could not be shot even if all other laws were complied with Well, answering such questions is one duty of the Game Department. When in doubt ask the Department and it will do its best to supply the answer.

Impressive Ceremony Held At Willow Cemetery Saturday

Williamson, Jake Whiteker and

The memorial service at the Willow cemetery Saturday impressive and significent of ccasion Arranged by the Haskell emetery Association, the program was given by boys and girls f the Intermediate Department of the First Baptist Church under the direction of their superintendent, Mrs. Ed Fouts.

Eddle Bess Fouts gave a few introductory remarks telling the origin of Memorial Day. Carrying a white cross she offered tribute to the Risin Lord.

Eight children held wreaths of flowers spelling the term. In Memory. Each gave a reading with the closing remarks. 'I dedicate the cross in memory." Prayers, hymns and a vocal solo by the Rev Kenneth Copeland were also on the program.

This program paid tribute to soldiers in the past war and in the present one Included were tributes to all christian mothers who have made sacrifices, and all hristian martyrs.

As the group marched to graves marked with flags, sprays of flowers were placed on each

Posters of Last War Serve Today

Posters that helped win the first World War are at work again on the campus of Texas State College for Women. Nearly a hundred typical war posters, collected by Dr. Jessie H. Humphries, associate dean of the college, while she was doing volunteer war work and attending Columbia University in 1917-18, are stirring up interest among students in the war effort. The brightly-colored posters with catchy slogens all painted by leading artists who donated their talents show that the same battle for freedom is being fought today.

cocoanuts and the girls love it) We have two small rooms, one on

each floor, where the girls may go with their pray-mates to pray. This year we have 36 Training of all denominations, in the dormitory. They are all lovely girls. All are required to attend morning worship at 6:15, with the Training School girls directing the program. Mildred and I take time about directing on Sundays. Our classes start at seven in the morning and run until four in the afternoon. Music, Home Economics Bible classes and all religious subjects are taught here in our building, but the girls take their other work in the College which From Southern Baptist is on the same campus separated by a wall.

You would rejoice with us it you could see our church full every time the doors are opened There has never been a time when the people are asking so many questions and are as interested in the gospel. Please join us in prayer, that this may be a great year for His work in Brazil. Best wishes to all.

Sincerely, MAYE BELL TAYLOR

## CHURCHES

FIRST METHODIST SETS NEW EVENING SERVICE HOUR

Rev. Kenneth W. Copeland, Minister of the First Methodist Church, announced Sunday evening services through the month of June, and perhaps through the entire summer will be at 6:00 o'clock instead of the regular King hour. Sunday evening will be the first in this new series of Sun- land. day evening worship hours. The minister will speak on "What Price Discipleship?" The Youth Choir will sing. These evening services will be 50 minutes in length, Junior and Hi School Leagues will be conducted at 7:00 o'clock, following the service in he auditorium.

The public is cordially invited to these services. The church will be cool and comfortable.

Sunday morning, 9:45 A. M. The Church School convenes. There is a class for each member of the family. The morning Worship Service, 10:50 A. M. will present as Guest Preacher, Frank L. Turner, president of McMurry College, Dr. Turner is a forceful preacher, and he will have a good message for us. The minister will direct the choir and present a special anthem for this service.

> FIRST PRESBYTERIAN CHURCH

### GEMS OF THOUGHT

The cultivation of the moral judgment is the crucial need of civilization.

### Output of Ships On Huge Scale Required For Mounting Needs

So tremendously important does War Produc-tion Chief Donald M. Nelson consider our shipbuilding program that he has come out with a statement that "the shipbuilding program has just got to come through. The whole nation is at stake." He was giving voice to the fact that the obstacles in the way will not automatically take care of themselves. Every effort must be made to eliminate bottlenecks, bureaucratic red tape, labor stoppages and other causes of delay

Lack of ships has caused the United Nations to lose Java and, without an adequate supply of ships, we cannot send tanks, guns, planes and other supplies, as well as manpower, to Australia and India If this is not done these two countries are likely to fall also

The battle of the Atlantic is also calling for ships in abundance in order that equipment can reach Russia in its offensive against the armies of Hitler and to strengthen Great Britain against invasion or starvation, or both.

Mr Nelson pointed out with satisfaction the promise of full support given him by both Philip Murray, C. I. O. president, and William Green. A. F. of L. head, in his effort to raise production of all war materials by 25 per cent. Events have moved so rapidly that what was once thought a stupendous program for 1942 is now looked upon

### The Battle of Production

The battle of production has been won," wrote Paul Mallon recently "American industry went over the top in April, out of the preparatory organizing phase, and into the great American stride of mass production which no one can equal anywhere From now on the production line in our charts will go nearly stroight up."

That is an incredible achievement, and it takes incredible statistics to describe it. In April, our war production was at the rate of \$40,000,000 a year. The June rate will be about 25 per cent greater. And by the end of this year, the economists confidently predict we will be producing at the rate of \$70,000,000,000 a year

In time to come, many a learned book will be written telling just how private industry did this job-a job which is unprecedented in world history Two years ago we were totally unprepared for war. Today we are outproducing nations which devoted most of their resources war for a decade or more in Mein Kampf, Hitler says time and time again that the democracies are weak, spineless, unwilling and unable to fight. The Japanese also pinned abundant faith on that sup-

nd the past term.

dution. This country, along with the other United Nations, is showing Hitler how tremendously wrong

American industry has done far mere than turn its plants from the production of the necessities and luxuries of peace to the production of the instruments of war. It has boldly pioneered new techniques. It has thrown old production prejudices to the four winds It has worked on the basis that nothing is impossible. The skeptics said, for instance that the assembly-line principle could never be successfully applied to the manufacture of fighting airplanes Ford, Boeing, Consolidated and other plants have proved otherwise-in Seattle, San Diego. Willow Run and elsewhere some of the finest military airplanes the world has ever seen are being made almost as swiftly as automobiles were made in the old days. Skeptics were certain forecasts of tank production were fantastically high Chrysler and other makers, to the contrary, are today well ahead of the forecasts and are going farther steadily

All over the country plants, little as well as big are setting new production records in a hundret war-material fields. Delays still occasionally occur because of lack of materials, labor difficulties, etc. But those delays grow fewer.

There is only one dark spot-merchant ship output. The ship-builders have done an excellent job in the face of staggering technical difficulties but the fact remains that United Nations' losses are somewhat ahead of replacements. For some time delivery of steel plate was behind schedule However existing yards are steadily upping their output, and some gigantic new yards, on both the Atlantic and Pacific Seaboards, will shortly go into operation In this as in other war fields, some revolutionary changes are taking place in production methods. In the last war, it took close to a year to make the 8,800 ton Liberty ships we used then. A Portland, Oregon, yard recently produced a 10,800-ton freighter of the standard type we are building now in 60 days. And it is believed certain that still faster production will soon become commonplace.

The warship building program is reported ahead of schedule. Special emphasis is laid on the production of the destroyers which are needed for convoy duties, and for protecting ships of the line in paval squadrons. And the U. S. submarine fleet

is growing satisfactorily. Not until the war is over and the information is of no use to the enemy will it be possible to tell the whole story of America's production effort. What can be said now is that no nation or group of nations ever did so much in so short a period of est of divisional weapons. The 75time. At the end of the last year, Von Ludendorff wrote, in bitter admiration, that the United States knew how to wage war. The cold production figures show that the United States understands it better still today.

### Eat The Same Bread

No country on earth has as many automobiles per capita as the United States. In no country is the automobile such a necessity in the daily life of the people. We have used it so universally that steam and electric railroads long ago discontinued the bulk of their interurban service throughout the country, and interurban tracks have been generally abandoned and torn up. Now, as a war necessity people are required to give up, to a large extent this basic means of transportation

When gasoline rationing went into effect many Congressmen and Senators who regulate the acts of private citizens, signed up for "X" cards giving them unlimited amounts of gas, on the theory that drivers was essential to national defense. Probably nowhere else in the world is a private car for a public official less needed than in Wash- Bonds. If you do your share and ington, D. costing poultry farmers of the United States \$15,000,000 annually. This money would buy 15,944 Browning Machine Guns or 857 guns of the 155 m. m. class for the army. Let's stop these losses by removing all male birds from the flock and produce only infertile eggs.

Caring for Eggs

1. Keep a good clean litter in the nests.

2. Provide one nest for each five

3. Gather eggs at least twice

daily during the summer. 4. Keep eggs in a wire basket and in a cool place-recommendation M. S. 443 degrees-Iceless Refrigerator for holding eggs to check evaporation and reduce temperature.

5. Market eggs at least twice each week

Confine Broody Hens

Broody hens left on nest reduce egg quality, break eggs and cut into the profits.

Shell Texture

Keep clean oyster shell or ground limestone available in open hopper. If shells are thin, sprinkle a handful of oyster shell on top of the feed every few days until condition is corrected.

### SWINE PRODUCTION

Board's goal has possed the preliminary stages and is in full ed on farms but in most sections, swing. An increae of 183,406 mar-only enough to take care of curket hogs over the 1941 production rent needs. Most of the hogs of 1.834,056-or a total of 2,017,-462-has been asked and Texas from grain planted and harvested farmers pledged production of in 1942. 2,676,694 hogs. Apparently they are going to overshoot both the goal and the pledge by a considerable margin

### This Digest Tells The Story

Here is a digest of the USDA Agricultural Marketing Service pigs are farrowed. report on swine: As a result of the larger fall (of 1941) pig crop the number of hogs under 6 months on January 1, 1942, was 22 percent above the number for January 1, 1941. The number of cows and gilts was increased nearly 50 percent over that of a year ear-

More sows were farrowed on Texas farms during the 1941 fall farrowing season than June intentions indicated. The number is the demand is usually at its peak. Provide shade, clean drinking water, a concrete hog wallow and plenty of good pasture.

Rebreed sows in May so they nor estimated at 207,000 sows will farrow again in September of compared with 167,000 farrowed 1942. will result in more first time since 1934 that the number of sows farrowed in the fall of 1942.

Save the best gilts farrowed in the fall of 1941 to breed in May of 1942. exceeded the number farrowed in

If the 1942 spring farrowing inentions are realized the number of sows farrowing will be increased 47 percent above spring farrowing of 1941 and will be 12 per cent above the previous record set n the spring of 1939.

The largest percentage increase apparently will come from the Plains region; around a 100 per cent increase in spring farrowing over the spring of 1941. The increase in teh Eastern and Coastal counties where 1941 feed crops were short, is indicated as from 5 to 20 percent. The indications for Central and South Texas are for 47 percent increase in spring farrowing, or about the average for the state.

### Warning-Warning-Warning

According to the report quoted bove, it is possible that Texas will increase her hog production by a million head during 1942 Approximately 16 bushels of grain are repuired to feed out a hog to market weight. If Texas produces an extra million hogs in 1942, it will be also necessary for Texas to produce an additional 16 million bushels of corn or other grain feed.

And this additional 16 million bushels of grain is for hogs alone, and does not include the grain that will be needed to insure increased production of milk, eggs, and mutton, increased marketing of beef, and the usual feed for

ivestock Texas has no great reserves of corn under the Ever-Normal Granary plan, as have the corn-hog states. Texas farmers have under loan approximately 19,012,326 bushels of wheat, 1,226,392 bushels of barley, and 121,321 bushels of grain sorghums. And no corn.

PRIVATE PEANUT GOES TO WAR

I'm Private Peanut and I'm plenty tough! My hitting power is in terms of oil. From 12,000 pounds of peanut oil, can be made 3,000 pounds of soap and enough nitro-glycerine to fire a 16-inch gun on a battleship. One blast from that gun sure could mess up a lot of Japs! Many other things needed by our fighting men and civilians can also be made from peanut oil, such as cooking fats and oleomargarine. Huge supplies of these things will give the United Nations the power to bury the hatchet in the Axis' neck. Uncle Sam has asked farmers to mobilize five million acres of boys like me. And they're doing it!

Mr. and Mrs. D. H. Parsons and

Wheat will not be fed to hogs at the present price, so the amount daughter Ruby Sue went to Ausof barley and grain sorghum un- tin Sunday. Miss Persons received Hog production by Texas far- der loan would feed out a mere her degree from Texas University mers to meet the USDA War 84,234 hogs.

There is considerable feed storcoming on will have to be fed out

### Suggestions for 1942 Swine Production

All shoats and pigs should be on full feed on a balanced ration for economical gains and to get them off to market by the time spring

Pregnant sows should be on balanced rations to develop large litters of strong pigs.

Spring farrowed pigs need adequate shelter.

Full feed 1942 spring farrowed pigs on balanced rations so they will reach market in September when the demand is usually at its

Breed all sows and gilts to the best available medium type boars.

# What You Buy With

The Aerial Camera for use or Scout and Observation and Reconnaisance planes is essential to both the Army and Navy air forces in planning battle formations and in obtaining information on enemy fortifications and movements. They look something like a cannon, and cost

The aerial cameraman can plot wide territories in bold relief so that Army or Navy Intelligence can make accurate measurements of enemy territory. We need many of these cameras so necessary to the air arms of the Army and Navy. You can help buy them with your purchases of War Bonds. Invest at least ten percent of your income every pay day, and help your county go over its War Bond Quota.

# A Lump Gets Into Our Throat...

We have seen the Flag floating in front of the post office, watched our boys and girls pledge it allegiance. We remember it on many a Fourth of July picnic in the long ago. All our peaceful yesterdays we have taken it for granted. Today it is fiercely and proudly at war.

Now many of us are really seeing it for the first time. We know that we may lose all it has ever stood for; suddenly, it has become the most precious thing in the world. There it goes, fluttering over the khaki lines. A lump gets in our throat and we cannot speak because we love it so much.

Only now are we beginning to know the tremendous task before us. We watch dear friends depart and we know that some of these faces we shall never see again. We know the price we shall pay in wrecked bodies in silent grief and in gold stars. It makes no difference. We are ready.

Through our long years of dream and illusion we had almost forgotten our beginnings and what it means to be free. Our heritage lay neglected while we followed false prophets and feared little fears. Only yesterday we cherished ease above liberty; only yesterday we felt ourselves divided on little things.

Today we stand united against the common enemy who would destroy us all.

We know now what we never knew in the days of our illusion, that this last great test had to ! come. Long ago it was written that those who would keep their freedom must ever stand ready to die for it, and that some day the battle must be joined. Such, sooner or later, has been the destiny of every free people and it was too much to hope that with us it could have been otherwise.

Now have come the days of grim decision. They are also days of hope. Once more the faith and idealism of our fathers are working in our hearts. Once more we marrh with our brothers of Bunker Hill and Valley Forge, of Gettysburg and the Argonne.

Once more the Flag moves forward, hope of the world, light of the oppressed and downtrodden everywhere, a promise to our children, the living, magic symbol of all that we once were, all that we still can hope to be.

The Haskell Free Press
