FHA Plan of Home Ownership Will Be Outlined At Meeting

Many Haskell Residents Can Own Homes Under FHA Plan, Official Says

A step by step explanation of how residents of Haskell can buy or build their homes under the Federal Housing Administration plan will be made Wednesday night, August 28, at 8:00 o'clock in the District Court Room of the Court House in Haskell, it was announced today by P. S. Luttrell of Dallas, State Production Manager for Texas of the Federal Housing Administration. He announced that Forest W. Gregory, Field Representative of the Northwest Texas FHA District will be in charge of the meeting. In addition to the explanation on the FHA plan of home ownership, there will be 36 slides, in color, of houses ranging in price from \$1600 to \$5400 which have been built and financed under FHA during recent months in Northwest Texas.

All business firms in Haskell will be advised of this meeting in order that they might acquaint their employees with plans for the Wednesday night meeting and it is expected that a large number of salaried people will be present.

"I feel sure," Luttrell said, in connection with the meeting, "that many of your people can buy or build homes on the FHA system and pay for them with money they now spend for rent. A good many of these people, however, do not know how easy it is to own homes and how little it takes to buy or build on the FHA terms."

"The Haskell meeting is a timely one and FHA officials will be here for the express purpose of explaining the simple steps necessary to buy or build your own home. The showing of slides will be practical evidence that attractive small homes can be built in this community at a cost that many of your residents can afford. It follows, of course, that home building brings a measure of prosperity to all business in the community."

Pampa Man Is New Manager of Haskell Bakery

A. H. Fleming of Pampa, Texas, has taken over management of the Home Town Bakery in this city formerly operated by Mrs. Allie Ford, and name of the establishment will be changed to The Fleming Bakery, it was announced this week.

Mr. Fleming, who is an experienced baker, having spent sixteen years in the business, took over active management of the Haskell establishment last week. The new owner has in mind several improvements for the local establishment including a more widespread distribution of the local bakery's products.

The new owner expressed his appreciation for the support promised the local establishment by Haskell grocers.

LEADERSHIP COURSES IN SCOUTING SLATED HERE AUGUST 26-27

Purpose Is To Further Work of Scouting In County

A series of scout leadership courses was inaugurated this week in the seven-county area of the Chisholm Trail Council, for the purpose of developing adult leadership interest in promoting Scouting, and to encourage Scout organization of additional Scout troops in a number of communities of Haskell and adjoining counties composing the Chisholm Trail Council.

Announcement of the scheduled leadership courses to be conducted was made this week by L. C. Haugness, Boy Scout executive of Abilene, who with Jack Vogel, field executive, are to conduct the training programs. They will be assisted by other leading Scout workers of the area. "Although

Fair Sponsor

Miss Jo Annice Cornish of Graham, official sponsor of the North Central District Fair and Rodeo is inviting young ladies from this section to take part in the Harvest Queen Beauty Revue, a spectacular feature of the Graham exposition, which will be held Sept. 17-21.

MORE THAN SEVEN INCHES RAIN FELL DURING PAST WEEK

Downpour of 2.30 Inches Received In Hour's Time

In the wake of rains earlier in the week which amounted to three and one-half inches, this section received one of the heaviest downpours in years late Thursday afternoon of last week, when rainfall of near-cloudburst proportions swept practically all of Haskell county. Between 5 and 6 o'clock Thursday evening precipitation amounting to 2.30 inches was gauged here, flooding streets in several sections of the city and halting all traffic for a brief period.

The downpour was accompanied by high winds, which caused some light damage to small outbuildings in sections of the town and in several instances trees were uprooted, but no serious property loss resulted.

Continued rains during Thursday night had raised the total to 2.91 inches Friday morning, followed by hard showers which brought an additional .61 inches of moisture. Total precipitation here for the week amounted to 7.02 inches, the largest amount to fall in a similar period since June, 1930.

Farmers and ranchmen are faced with the brightest outlook in years, with a bumper cotton and late feed crop assured, while the rainfall came in time to promote excellent growth of ranges and provided ample stock water for months to come.

LEADERSHIP COURSES IN SCOUTING SLATED HERE AUGUST 26-27

Purpose Is To Further Work of Scouting In County

The Council has shown remarkable gains, recent surveys prove we are but half done. There are hundreds of boys in our council area who need Scouting," Haugness said in announcing the training program.

The leadership courses will be conducted in Haskell on Monday and Tuesday, August 26 and 27th, and the Abilene Scout executives will be assisted by local Scout leaders.

With adequate adult leadership, Scout troops can be organized and fill a definite need for the youths in nine communities of Haskell county, a recent survey shows. These communities are: Mattson, O'Brien, Sagerton, Rule, New Cook, New Mid, Sayles, Hutto and Irbly.

Men interested in furthering the Boy Scout program are urged to attend the leadership courses to be conducted in Haskell.

C. E. BOYD WINS TRI-COUNTY GOLF MEET AT SEYMOUR

Haskell Champion Takes Out Munday Player In Final Match Sunday

C. E. Boyd, superintendent of Paint Creek Rural High School, is the reigning champion of the Tri-County Golf Tournament, including players in the counties of Baylor, Knox and Haskell. Boyd won out handily in the finals at Seymour Sunday, finishing 7-6 over the 36-hole route. His last opponent was the southpaw Sheffy Mahan of Munday, who had held the championship to a one-hole for the morning 18. Boyd had the following impressive scores for his four rounds, 6-5, 6-7, 6-5 and 8-7. He qualified with an even par 72, and played par golf over practically the whole route. It was the first Tri-County win for Boyd, but he came perilously near it once before, when the Tri-County was held at Haskell four years ago, and Jarrel Davis beat him one up on the 37th hole. Boyd won a beautiful trophy as the result of his skill.

The event this time was played between rains, although Sunday was a beautiful day. The sand greens of the Seymour course had been freshly oiled, making the short game a special hazard. However in spite of every difficulty there was some pretty good golf.

Haskell will be the scene of the Tri-County Tournament next year, with John A. Couch and Raul English of this city as president and secretary, respectively. W. H. Atkinson of Munday, Bryon Bae of Truscott and Charles Richmond of Seymour are vice presidents. Truscott was a new representative in the tournament this year, and sent several good players.

Legion Official Urges All 'Vets' To Record Papers

War veterans who served in the Army and Navy during the World War and who have not had their service discharge placed on record with the County Clerk, were advised this week to see that this important recording is made, according to A. C. Chamberlain, official of the Press Rogers Post of the American Legion.

Proper recording of the discharges is imperative to the interest of war veterans, Mr. Chamberlain explained, in proving war service and in proving claims for disability payments or insurance adjustments to which a veteran may be entitled. Frequently the original discharge papers are lost or misplaced, but if they are a matter of court record no hindrance is encountered in veteran claims.

All veterans of the World War, whether they have claims pending or not, should have their discharges properly recorded in the County Clerk's office, Mr. Chamberlain said.

New Shoe Repair Shop Is Opened Here This Week

Opening of the "W-O Boot and Shoe Shop" in this city was announced this week by W. C. Murphy and W. Atkins, proprietors. The establishment is located on the east side of the square, in the same building with the clothing store operated by R. L. Lemmon.

Modern machinery and equipment has been installed in the new shop, which will specialize in boot and shoe repairing of all kinds. Mr. Atkins, an experienced shoe repairman and bootmaker, formerly operated a shop in this city several years ago. Mr. Murphy has been a resident of Haskell for many years. They invite the public to visit their establishment.

Vacationing In Yellowstone Park

Mr. and Mrs. James W. Kennedy and family, accompanied by Miss Frances Gilliam of Hollis, Okla., left Sunday morning for a vacation in Colorado and Yellowstone Park. They will be away for ten days or two weeks.

Will Speak Monday

Gerald C. Mann, Attorney General of Texas, will visit Haskell Monday on a speaking tour that will carry him to all sections of the state. He will speak at the courthouse in this city Monday night.

GERALD C. MANN WILL SPEAK HERE ON MONDAY NIGHT

Attorney General Will Give Report of Stewardship As An Official

Gerald C. Mann, who is making a month's tour over the State to render a report of his stewardship as Attorney General of Texas, is expected to visit Haskell Monday, August 26, and will speak at the courthouse Monday night, it was announced from Austin this week.

Attorney General Mann plans to reach every section of the State during August to give a report on the conduct of the activities of his office since he assumed the position of Attorney General on January 1, 1939, and upon completion of his tour, he shall again devote my full time to my official duties."

In announcing plans for the trip here recently, Mann declared:

"When I assumed the responsibilities of this office I felt it was my duty to render to the people of the State of Texas the highest service of which I am capable. It has been necessary for me to remain in Austin in order to properly administer the affairs of the Attorney General's Department."

"Since this is election year and I am again offering for Attorney General, I am going to make a speaking tour into every section of the State and report to the people on the conduct of the activities of this office. As soon as the tour is over, I shall again devote my full time to my official duties."

Five Visitors Are Guests At Lions Meeting

With the largest attendance in several months, members of the Magazine Club were hosts for the regular meeting and luncheon of the Lions Club Tuesday at noon in the Magazine clubrooms. In addition to the large turn-out of lions, five guests were present: R. L. Burton, Guy Collins, J. A. Bynum, John A. Willoughby, and Judge A. H. King of Throckmorton.

Club president C. B. Breedlove presided at the meeting, and gave interesting remarks concerning plans for replacing the high school building which burned early in July.

A program on "Patriotism" was directed by Courtney Hunt, in which he made an interesting and pertinent talk on Americanism and allegiance to the principles of American freedom. He was followed by S. E. Lanier, who discussed citizenship, taking for his theme "What We As Citizens Owe Our Government."

Election Returns Will Be Posted On Board Here Saturday Night

4-H CLUB AND FFA JUDGING CONTESTS NEW FAIR FEATURE

Event Will Be Staged On Second Day of 1940 CWT Fair

With the most promising outlook in years for the annual Central West Texas Fair, plans for the annual exposition to be held the week of October 14th are going ahead rapidly. Homer Neal, secretary of the fair association, said Wednesday in announcing that several departments and features would be added to the 1940 exposition.

Principal added feature will be the 4-H Club and FFA Judging Contest to be held on the second day of the fair, with competition open to all 4-H Club boys and FFA chapter members in Texas. Classes in Beef Cattle, Dairy Cattle, Poultry, Swine and Sheep will be judged and banners will be awarded to the winning teams in each class. Awards also will go to high scoring individual in each class. The contest will be under supervision of W. B. Cowan, Jr., vocational agriculture teacher in Paint Creek rural high school.

Mr. Neal also announced that G. W. Pritchard, official judge in the American Poultry Association had been secured to judge the poultry division of this year's fair. Mr. Pritchard served in a similar capacity last year.

A large Art Exhibit is in prospect for this year's fair, and to this department a Hobby Exhibit will be added. Premium list in the art department will be materially increased over that of last year. Miss Eva Belle Pippen had been named superintendent of the art department, with Mrs. Walter Bunkley as assistant superintendent.

MATTSON RURAL HIGH SCHOOL TO OPEN SEPT. 2ND

Enrollment of 200 Students Expected for the 1940-41 School Term

The 1940-41 term of Mattson Rural High School will begin on Monday, Sept. 2nd, Supt. F. M. McCarty announced this week. An enrollment of approximately 200 students is expected in the grammar and high school classes.

With the beginning of the current school term, Supt. McCarty will begin his second year, as head of the accredited rural high school. Under his supervision the 1939-40 term was the most successful in the history of the school.

Faculty of the school remains unchanged for the coming school year with one exception, Mrs. S. E. Lanier having resigned as English teacher and she will be succeeded by Miss Betty Ann Hanceck former member of the faculty of Paint Creek Rural High School.

Four buses will be operated on regular daily schedule in furnishing transportation facilities for students of the Mattson school during term, school officials announced.

Singing Will Be Held at Mattson On Sunday Night

Singers of this section have been invited to attend a program of singing at Mattson Sunday night, August 25th. The program is sponsored by singers and music lovers of the community, and plans have been made to entertain a large crowd. Some of the best-known singers of the county and several from adjoining towns have been invited and are expected to have a part on the evening's program.

Miss Irene Martin of Tucuman, New Mexico is the house guest of Miss Elise Henson this week. Miss Hazel Fondren of Ranger was a guest in the Henson home last week. She was a club sister of Miss Henson in TWC last year.

Early Report from All Boxes Expected Because of Short Ballot

Arrangements were completed this week for receiving and posting returns from the second primary Saturday on the large bulletin board on the south side of the courthouse, in a similar manner to that followed when the first primary was held.

In addition to posting returns on the bulletin board, a public address system will be used and returns will be broadcast as quickly as they are received. Election officials in all voting boxes of the county have been asked to cooperate by bringing or phoning the results of Saturday's election to the County Clerk's office as soon as possible after closing of the polls.

Besides the returns on county and precinct races, returns from other counties in the State Senator's and State Representative's race will be announced as available here.

Because of the short ballot, it is expected that returns from some of the voting boxes can be announced within a few minutes after the polls close at 7 p. m. Saturday.

WATER FACILITIES PROGRAM WILL BE CONTINUED IN '41

FSA Loans Available For Soil and Water Conservation

The Water Facilities Program will be continued another year, according to available information, it was announced this week by County Agent G. R. Schumann and J. M. Bird, Soil Conservationist of the California Creek Watershed project.

This program is available to farmers and landowners in developing small water systems such as stock ponds, wells, springs, water-spreading dikes and the construction and installation of windmills, overhead storage tanks, stock troughs and small irrigation systems. Trained personnel of the Soil Conservation Service will assist the Cooperators in installing a complete coordinated program of soil and water conservation, which includes terracing, strip cropping, contour cultivation, crop rotation, contour furrowing and controlled grazing as part of the program.

Eligible to participate in the water facilities program are landowners who occupy and operate their farms or whose land is worked by tenant, or tenants who hold lease or contract on land for a period that will hold for the term of the loan. Loans are made for a period of one to twenty years at 3 per cent interest.

Full information can be secured or application made for the Water Facilities Program, at the office of County Agent Schumann, the local Farm Security Administration office, or the Stamford office of the Soil Conservation Service.

Virgil O. Stamps, Well-Known Song Leader, Is Dead

Virgil Oliver Stamps, 48, known widely over the Southwest as leader of the Stamps Quartet, died Monday of a heart ailment in a Dallas hospital. He had been seriously ill for about one week. Mr. Stamps was well known here, and had visited Haskell county on several occasions.

In his early boyhood Virgil O. Stamps, attending a singing convention, heard a quartet for the first time. He resolved to learn to sing. That resolution was later to make his name one of the most widely known among lovers of quartet singing.

In 1924 he published a book of his songs, which still is in print. In 1926 he took as a partner one of the country's outstanding musicians, J. R. Baxter. They formed the Stamps-Baxter Music Company.

Maintaining a staff of well known composers and publishing more than 50 song books of their own, the company's songs are for interdenominational faith and have been translated into many foreign languages.

GASOLINE BURNS CAUSE DEATH OF 12-YEAR-OLD BOY

Son of Mr. and Mrs. John Tinkle Succumbs Early Tuesday Morning

Edwin, 12-year-old son of Mr. and Mrs. John Tinkle, died in the Haskell Hospital at 12:30 Tuesday morning from burns sustained Saturday morning at his parents home on the George Herren farm seven miles northwest of Haskell. The youth had filled the tank of a gasoline cooking stove, and some of the fluid had spilled on his clothing, which was ignited when an older brother struck a match to light the stove. The youth was burned severely on his right thigh, his right arm and about the body. He was brought to the hospital here and was given a slight chance to recover following a blood transfusion. His condition became worse late Monday evening and he died several hours later.

Edwin Tinkle was born June 13, 1928 in Dallas county, Texas, and came with his parents to Haskell about two years ago. He was a student in the Haskell Public Schools and completed his fifth grade classwork during the 1939-40 term.

He is survived by his parents, a sister, Mrs. Jay Lackey, and three brothers, John, Billy and Nathan Tinkle, all of Haskell.

Funeral service for the victim was held at the First Baptist Church in this city Wednesday morning at 10:30 o'clock, with Rev. W. T. Priddy officiating.

A special song tribute "When They Ring Those Golden Bells" was given by Mrs. J. M. Littlefield, with Mrs. A. C. Pierson accompanist.

Interment was in Willow Cemetery, with arrangements in charge of the Holden funeral home.

Pallbearers were Edwin's friends and classmates, Henry Harris, Wyaborn Oates, Collins Welsh, Charles Reeves and C. W. McKelvain.

Nominees for 14 Offices Due To Be Selected Saturday

With balloting expected to be considerably below the total of 4,500 votes polled in the first primary, Haskell county voters Saturday will make their final choice in naming Democratic nominees for fourteen state, district, county and precinct offices where candidates failed to secure a clear majority in the first primary.

The ballots lists the following candidates:

For Railroad Commissioner — Olin Cuberson of Jackson county, Pierce Brooks of Dallas county.

For Chief Justice of the Supreme Court — H. S. Lattimore of Tarrant county, James P. Alexander of McLennan county.

For State Senator, 24th District — Omar Burleson of Jones county, John Lee Smith of Throckmorton county.

For Representative, 113th Legislative District — A. H. King of Throckmorton county, Mike B. Watson of Haskell county.

For County Attorney — Walter Murchison, John A. Willoughby.

For County Commissioner, Precinct No. 1 — T. L. Roberson, Elmer (Rusty) Turner.

For County Commissioner, Precinct No. 2 — Jno. S. Rike, R. N. Mathison.

For County Commissioner, Precinct No. 4 — W. E. Bland, Bill Fouts.

For Public Weigher, Precinct No. 2 — Mike H. Ethridge, Eddie Sanders.

For Justice of the Peace, Precinct No. 6 — R. L. Vick, John A. Lee.

For Public Weigher, Precinct No. 7 — W. A. Bryant, W. G. (Bill) Johnston.

For Public Weigher, Precinct No. 5 — Ocie McGuire, Pat Martin.

For Justice of the Peace, Precinct No. 5 — H. P. Findley, J. H. Cooper.

For Constable, Precinct No. 5 — L. G. Hall, W. S. Dunlap.

Principal interest of voters apparently has been centered on the race for State Representative, in which Mike B. Watson, present Tax Assessor-Collector of Haskell county and A. H. King of Throckmorton, are candidates for the nomination. Growing interest also has developed in the County Attorney's race between the incumbent, Walter Murchison, and John A. Willoughby, district court reporter.

Contests for the post of Commissioner in three precincts is also expected to claim interest of a considerable number of voters. Absentee voting for the second session will be held.

AMERICA is busily engaged in building a defense of her freedom.

This freedom of ours—freedom of action, freedom of thought, freedom from fear and oppression, freedom of enterprise—is the most precious thing in the world to protect.

Electric service will play a big part in this great program of strengthening our defenses. Your electric company is ready NOW to do its full share in any task this community may be called upon to perform.

We're ready because for years we have planned far in advance in order to meet your ever-increasing demands for electrical service. Because of this we have built power capacity in advance of any demands in the community.

To assure constant power under all conditions our several sources of electricity are linked together so that the switch at your finger-tip controls power from many sources. If one should fail, it is but a split second until a new source of power is at your bidding.

The highly skilled and trained staff of people who have built up your electric service, and who are serving you from day to day, are eager for any new task.

It is through these people, and this marvelous system of interconnected power plants and distribution lines they have built, that we are ready to do our part. Meanwhile, we have not forgotten that our job in the future, as in the past, is to improve our service and its usefulness to you, and bring more of the good things of life to more people at less cost.

Vegetable Laxative Has Important Points

This laxative does three important things for most users. If simple directions are followed, it usually sets punctually, thoroughly, gently. You will like spicy BLACK-DRAUGHT'S way. Chief of its all-vegetable ingredients is an "intestinal tonic-laxative" which helps tone azy bowel muscles. Next time, take BLACK-DRAUGHT. Economical, too: 25 to 40 doses, 25c.

Let's have less talk and more action. Let's open wide the door of opportunity to the young folks. Let's promptly and fully meet our obligations to the aged, teachers, and blind. Let's encourage home owning. Let's prevail on our Congressmen to cut the Land Bank interest to 2 per cent and thus give the farmers renewed hope for the future. Let's make the highways safer by moving the whiskey shops and honky-tonks into town in wet territory so that the police can make them obey the laws. Let's stop extravagance in State Government and fill up a thousand ramified rat holes in Austin where your tax money is poured. I earnestly ask for your consideration in the Run-Off Election August 24th. I promise honest, faithful service.

Respectfully, A. H. KING.

To the Voters of Precinct No. 4:

With the second primary campaign nearing its close, I want to express at this time my sincere appreciation for the encouragement and support given me, for the splendid vote I received in the first primary, and to present this final solicitation for your continued support and vote in Saturday's election.

Because of the heavy rains last week, I have been unable to see all of the voters and citizens in the Precinct, and to those of you whom I have failed to see in person please accept this as a sincere and personal solicitation for your vote.

I am asking for the office as your Commissioner believing that I am qualified to render an efficient, satisfactory administration. Living almost in the center of the Precinct has enabled me to become fully acquainted with the needs of all sections of the precinct, and if elected I promise you that Precinct 4 and Haskell county will receive 100 cents of value for every dollar of tax money spent.

W. E. BLAND

Candidate for Commissioner Precinct 4

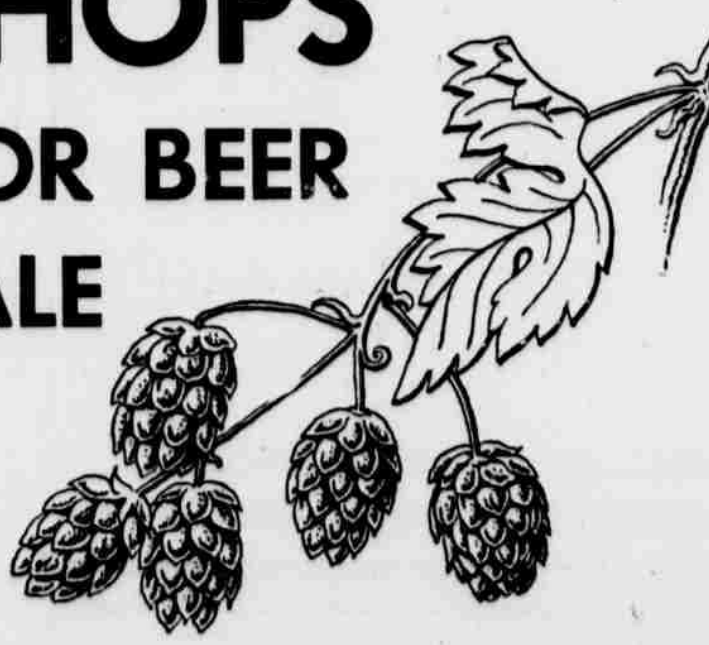

To the Citizens of Precinct 4:

Friends, this is my last appeal to you for support and influence in my race for Commissioner Precinct 4. Let me thank you again for the splendid vote I received in the first primary and hope that you give me another majority in the second one which comes Saturday, August 24th.

WHAT HOPS DO FOR BEER AND ALE

Hops are for flavor. They give to good beer and ale their lively, appetizing flavor, their pleasant, aromatic tang. Brewers select and blend their hops with extreme care. In fact, every step in making beer and ale is conducted with masterly skill—to give you better-tasting, more wholesome beverages. Now the brewing industry wants to do one thing more. It wants to protect your right to drink good beer

and ale—by keeping the places where beer and ale are sold wholesome, too. We want undesirable, anti-social establishments "cleaned-up or closed-up." A plan of action has already been put into effect in a number of states. This plan is being extended. We'd like you to know about it. Send for interesting free booklet. Haskell Couple Is Wed In Saturday Home Ceremony

Before a background of gladiolas and rosebuds, Flossie Hester, daughter of Mr. and Mrs. J. T. Hester, and T. C. Walker, son of Mrs. G. L. Walker of Weinert, were married Saturday morning in the home of the bride's parents.

The Rev. Clifford Williams, pastor of the Haskell Presbyterian church, read the ceremony. Sweet Mystery of Life was sung by Velma Frierson and Frances Chapman, accompanied by Mrs. Roy Wiseman, who played soft music throughout the ceremony and also gave the recessional.

Betty Jo Hester, her sister's maid of honor, wore a redwood stitched dress, with black accessories and a corsage of Peruvian lilies.

After a wedding trip the couple will live between Haskell and Weinert. The bride's going-away dress was of gray wool with a button-on yoke of black velvet.

Mrs. Walker was a graduate of Haskell high school, where she was an active member in musical circles. Mr. Walker is a graduate of Weinert high school.

Will Trap More Deer

Mr. and Mrs. Bob Graham visited her sister, Mrs. Kelsie Nelson and Mr. Nelson in Albany this past Sunday.

AUSTIN, Texas—Trapping and distributing of wild deer by the Texas Game, Fish and Oyster Commission next winter is expected to keep pace with other progressive moves made by the Department. A total of 100 deer traps have been ordered built. Twenty-two were constructed and used with great success last winter in the Hill Country.

Mr. and Mrs. Leroy Anderson of Lamesa visited in the home of Mr. and Mrs. C. F. Graham this week.

The Department despite a late start with the new traps captured more than 100 deer and transported them to regions depleted of big game. With a total of 122 traps operating next winter the Department hopes to trap and transplant several hundred deer.

Mrs. John Lee Smith of Throckmorton was a business visitor in Haskell Tuesday.

Few deer were trapped in past years due to the lack of a trap which operated successfully. However the trap now being used, which catches one deer at a time, was developed.

Mrs. C. H. Breazeale and little daughter visited Sunday in the home of Mrs. Breazeale's parents, Mr. and Mrs. John Ellis of Haskell.

The executive secretary of the Department, highly pleased with the way the traps operated last winter ordered the additional 100. In the past many of the deer distributed have been tame or semi-tame deer which were picked up by ranchers as fawns. Those will still be collected and distributed, but the executive secretary has high hopes of far more rapid and successful restocking due to both the increase in number of animals trapped and to the fact that they will be wild deer, better adapted for restocking purposes.

The Hon. and Mrs. Clyde Grismond and children of Eastland visited relatives and friends in Haskell this week.

OLIN CULBERSON

FOR Railroad Commissioner

ELECT OLIN CULBERSON YOUR RAILROAD COMMISSIONER

He is qualified and experienced, having served as Chief of the Oil and Gas Division of this Department, and was the official responsible for bringing the oil business out of chaos in the depression by setting up the Allowable System.

Olin Culberson as a public official saved the Gas Consumers of Texas hundreds of thousands of dollars by reducing rates. He is the plain everyday citizens candidate. He is honest, honorable and will clean up the present intolerable situation at Austin, where greed and personal privilege runs rife. Olin Culberson will run the Railroad Commission, with proper cooperation, as a sound honest business should be run, and not as a political, selfish interest enterprise.

Help Texas by helping place Olin Culberson in this Important Office of Railroad Commissioner. (Paid for by Haskell County Friends of Olin Culberson)

Mahon Returns to Washington After Brother's Funeral

Congressman George Mahon of Colorado City returned to Washington by plane Tuesday after having been called to Loraine Sunday by the death of his brother, Thomas Marion Mahon, 42, on Saturday.

The congressman, who represents the 19th district, spent Monday visiting his father, J. K. Mahon and other relatives in Loraine. His brother's funeral was held Sunday. He boarded a plane at Abilene for the return to Washington.

Mahon said before leaving Colorado City that he believes congress will adjourn in about six weeks. As a member of the special defense appropriations subcommittee of the house appropriations committee, he returned to Washington last week after an air tour of Alaska defenses.

Judge Alexander One of Most Able Jurists In the State

In the runoff primary Saturday the voters of Texas will have an opportunity to elect one of the ablest jurists of our time, Judge James P. Alexander of Waco, to serve as Chief Justice of the Supreme Court of Texas.

Judge Alexander was born of humble parents in a log cabin near Moody, Texas. By his own efforts he worked his way through State University and received his law degree there in 1908. For the past 10 years he has served as Associate Justice on the Court of Civil Appeals at Waco.

Judge Alexander has a wonderful record as Appellate Judge. He has passed on more cases than both of the other Judges on the 10th Court of Civil Appeals and has the lowest record on reversals. His record is 98 per cent perfect. Judge Alexander is a brother of our neighbor, the famous Hereford Breeder, F. W. Alexander, owner of the Diamond Ranch at Albany, Texas.

British Taxes

An illustration of the sacrifices a people must face to carry on a modern war is seen in the present taxes levied on the people of Great Britain. There the base income tax rate is 42.5 per cent, while in the United States it is still only 4 per cent for individuals in the lower income brackets.

British corporations pay 42.5 per cent of their net income, besides an excess profits tax which takes 100 per cent of their income above that earned in an average pre-war year. In the case of individuals, income exempt from the income tax is only \$500, and surtaxes run to 90 per cent of all income above \$80,000 a year.

On top of all this, Britain imposes a sales tax of 12 per cent on all goods except food, and a 24% sales tax on luxuries. The total tax on a package of cigarettes is 29 cents.

The British government has figured that if it confiscated all individual incomes over \$8,000 it would collect only about 280 million dollars a year more than it does now.

The foregoing will give some idea of the burdens the British are bearing in their efforts to save civilization from Hitler, to say nothing of their losses of life and limb, or the mental anguish which they suffer day and night. They are really fighting our battle as well as their own. Surely the United States should give all possible aid—except manpower, which they do not ask or need.

Peiping's Many Names

Many of the world's capitals and other important cities have seen their names changed in recent years, and it would take much space to enumerate them all. But perhaps no city in the world has had its name changed so often as Peiping, China, formerly known for 519 years as Peking.

Peiping is not really a new name for the city, but an old one restored, for it was known as Peiping before it was called Peking. The many changes in the city's name were made by conquerors who ruled the city at various times during its long, and largely unrecorded history.

Long before the Christian era there was a city on its site called Ki, and it has been known at different times as Chung-tu, Yen-shan Fu, Yen-king,

and even once as Nanking, which is now the name of the later capital far to the southwest.

Coming down to the Middle Ages, Peiping was called Khanbalik, or Cambaluc, when it first became known to Europeans in the 13th century, shortly after its capture and rebuilding by the conqueror Kublai Khan, founder of the Mongol dynasty in China. In the following century the Ming dynasty came to power and the city was first called Peiping, according to some authorities, the name later being changed to Peking.

Hay Fever Victims

Millions of Americans look with dread upon the hay fever season—a season of sneezes, wet eyes and blooming noses. In the peak period August to frost, the glamorous movie star can match sneeze for sneeze with the wayside tramp, for hay fever is no respecter of age, sex or social position.

Response to treatment has been gratifying in recent years, say medical experts at Battle Creek sanitarium, and victims who cannot seek out lands of partial immunity have increased the roll of sanitarium patients.

Daniel Webster, who endured severe attacks yearly, called hay fever a "depressing and near-greatly discouraging disease." Other great and near-great have used more picturesque language in describing the malady, about which public misconception is widespread.

Many think the 125 pollen-shedding species of goldenrod are the only plants causing it, but the experts say the homely dust-covered ragweed causes some 85 per cent of the late summer hay fever attacks east of the Rockies. Other willows are timothy grass, corn, cocklebur, sagebrush, sunflowers and various trees. Most early spring hay fever is said to be caused by the pollen of trees, in a few instances by dandelions. Later in the season it is generally caused by the pollen of grasses and certain weeds.

Medical records show that the hay fever cavalcade begins moving toward places of treatment in July and swells to full force by mid-August.

The thief who broke into W. R. Maheffey's home in Tulsa, Okla., stole \$6, his trousers and his "lucky" rabbit's foot.

When his automobile was tagged for a parking violation, City Attorney M. McCoy of Longview, Wash., prosecuted himself in police court and paid his fine.

Miss Catherine Fellmeth of the Chicago Park Hurricane tossed an 8-lb. ball 38 feet 3 inches to win the Women's National AATU track and field championship and also retained the discus title.

Dewey Comstock of Boise, Ida., repairing a parking meter, found a washer in the coin slot and an attached string which would enable it to be pulled out and used again.

Police found \$36,970 near the body of Mrs. Rashe Silverman of Brooklyn, who for years had lived in a cheap flat and made a living salvaging junk from ash cans.

Stanley Gronski of Springfield, Mass., was convicted of drunkenness after a policeman testified he was walking along the main street at two o'clock in the morning tearing up five dollar bills.

Rin Tin, pet dog belonging to Mrs. Gretchen Aney of Chandler, Ill., was presented a silver medal by the Congregational church for ten years regular attendance at Sunday school.

1 bale of cotton gives

218 hours of work to a cotton farmer
Making this cotton into 2,270 yards of cloth gives

126 hours of work to a textile-mill operative
Making this cloth into 13,600 5-lb bags gives

106 hours of work to a bag-factory employee

In these hours of work American labor earns its wages, builds up its purchasing power, increases its effective market for the retailers who sell their product in bags, creates business on which the income of many related American businesses depends. The cotton dollar, whether it goes to farmer or mill hand, is cash on the barrel head, spent quickly, spent powerfully—guides the economy of not only the Cotton Belt but also the sections who sell to the Cotton Belt.

OUR DEFENSE

The Army of the United States

The Constitution of the United States gives Congress the power to raise and support armies, and designates the President as Commander-in-Chief.

The Army is divided into three main sections. The Regular Army, the National Guard, and the Organized Reserves. Under the President, the Secretary of War is responsible for running the Army. Under him is the Assistant Secretary of War, responsible for getting the military supplies for the Army, and for adequate provision for mobilizing materials and industrial organizations essential to wartime needs. It is the blueprint and general outlines laid down by the Assistant Secretary of War over a period of years that form the basis of what are known as War Plans. To facilitate the carrying out of these plans, the President appointed the National Defense Advisory Commission.

The soldier head of the Army is the Chief of Staff. He is responsible for planning, developing and executing the Army's program for national defense. He has to train a million new men, to make an army of them. There are five Divisions under the Chief of Staff, each responsible for a separate function.

The Personnel Division takes care of the fighting men of the Army. It enlists, classifies, assigns, promotes, pays, transfers, retires, and discharges. It is responsible for making the best use of our manpower. The Military Intelligence Division is responsible for furnishing all kinds of military information.

The Operations and Training Division handles the training of men from the time they join until they are ready for duty, and beyond that carries out the vocational and educational work to fit the men for new duties and new techniques.

The Supply Division provides for all equipment, buildings, storage, transportation, and distribution of supplies, care of the sick, and for keeping track of army equipment.

The War Plans Division is responsible for the use of our armed formations, and for the general strategy of defense.

Directly under the Chief of Staff comes the Regular Army, which is the full-time professional part of our land forces. It is always ready, at the drop of a bomb, to go into action as the spearhead of our initial protective force. It is designed to be augmented by the Organized Reserve and the National Guard in time of need. Together these forces make up our initial protective force. This force, with the Navy, would act to defend the national while we prepare additional units needed for subsequent action.

The success of this plan depends on equipment for the initial protective force, and having material ready at once for additional forces. That is why the President has asked for the additional material for 800,000 men over the standing Army of 1,200,000 he requested.

The Fighting Arms
The arms, the fighting units of our Army, are the Infantry, Cavalry, Field Artillery, Coast Artillery, Air Corps, Corps of Engineers and the Signal Corps. At the present time the mechanized forces in the Cavalry, the Infantry, and some Field Artillery have been transferred to a new armored force, just experimentally organized. If the force performs as expected it may become a new fighting arm, including several armored divisions of the type of the now famous "Panzer" divisions of the German Army. These divisions, comprising about 10 per cent of the German Army, are what made the "Blitzkrieg" possible.

The Infantry is the main fighting part of the Army. In a battle the Infantry slugs it out with the enemy. In order to understand what the nation has to do, let us take John Smith, the average recruit, and see what happens to him when he joins the Army, and see what we have to provide him with to make him a soldier.

John joins the Infantry today. He raises his right hand and takes the oath of allegiance, and by doing that, he sets in motion a long integrated chain of activities to supply him with the wherewithal to fight.

Clothing An Army
First come clothes. Shoes, socks, pants, underclothing, shirts, hats, helmets, blankets, tent, gas mask, trenching tool, reserve rations; in fact, everything that makes him a self-supporting man of war. 2,000,000 John Smiths need two million times as much material—and the proper material has to be ready as each John Smith raises his right hand.

In order to be sure that it is ready, the War Department breaks down these requirements into so many yards of wool cloth for pants, so many hides for shoes, so many tons of steel for trenching tools, hob nails, etc. Then the National Defense Advisory Commission goes to work.

It finds the cloth for the uniforms, which will have to be specially woven, but there are more than enough factories ready to do the job and deliver the goods before the men are ready for them. America's shoe suppliers are already at work on the shoes that won't bite the foot that fills them. The National Defense Advisory Commission tells the Army how the orders should be distributed to get the best and fastest results without interfering seriously with other necessary production, without causing transportation delays, and without causing local labor shortages. This job is not only done for today, but for next week and next year, so that the whole process can run

smoothly while we ready two million men for arms. This means that the Defense Commission must look behind the manufacturer who supplies, let us say the blankets, and see that he is assured of an adequate wool supply, and that the manufacturer of looms have enough replacement parts on hand so that repairs can be made at once, that there are enough dyes to produce regulation olive drab, so that there will be no breakdown in the whole long chain.

That is all merely the first step necessary to see that John has the proper equipment to exist as a soldier. But a man can't fight without weapons. And that is the next step—to provide the Army with the tools of its trade.

WALLS IN HOME ONLY PART OF INSULATION PROBLEM

Heat Escapes Between Wall and Window Frame
Heat Escapes Between Window Frame and Sash
Heat Escapes Right Through The Glass

Many a home is being built today that is only half insulated. Yet the man who is spending his money to build the house doesn't know a thing about it. These people, when they build, won't hesitate to spend \$150 to \$200 to make their walls weather-tight. They will buy the best insulation, the best moisture barrier, and use the best construction methods, but they overlook completely the fact that the walls of their homes have from ten to thirty great big holes in them that are filled only with windows.

These holes must be filled with good windows—windows that do more than harmonize with the architecture of the home. For a window is not only an architectural feature. It is also a mechanical feature.

Windows are just as permanent a part of the wall as insulation. Just as it is wise to spend those extra dollars for insulation—so it is wise to spend a few extra dollars to see that a window frame makes a permanent weather-tight joint with the wall, that window sash are precision fitted to the frame, that an efficient job of weatherstripping is done, that storm sash or double glazing is provided, and that the equipment used will give of trouble-free operation.

'Mother Shipton's Prophecy', Classic of World War Days, Makes It Return

Troublesome world times never fail to bring back oft-told stories true and untrue, prose and poetry; and one of the favorites of world war days, "Mother Shipton's Prophecy", was recently reprinted in the Wichita Falls Daily Times for the benefit of the younger generation and to refresh memories of those who have read it.

Mother Shipton, so the story goes, was born in Norfolk, England, more than 300 years ago and died in 1449 after writing into verse a series of remarkable prophecies, many of which have been fulfilled.

Historians are not in accord as to the genuineness of the works attributed to Mother Shipton, and the "Prophecy" is reproduced here with no attempt to authenticate it.

Mother Shipton's Prophecy
A carriage without horse shall go. Disaster fill the world with woe; In London Primrose Hill shall be. Its center hold a Bishop's See; Around the world men's thoughts shall fly, Quick as the twinkling of an eye.
And waters shall great wonders do. How strange and yet it shall come true. Then upside down the world shall be. And gold found at the root of tree; Thro' tow'ring hills proud man shall ride. No horse or ass move by his side.
Beneath the water men shall walk; Shall ride, shall sleep and even talk; And in the air men shall be seen. In white, in black, as well as green. A great man shall come and go, For prophecy declares it so.

In water iron then shall float, As easy as a wooden boat, Gold shall be found in stream or stone. In land that is as yet unknown. Water and fire shall wonders do. And England shall admit a Jew.

The Jew that once was held in scorn, Shall of a Christian then be born. A house of glass shall come to pass, In England — but alas, alas! A war will follow with the work, Where dwells the pagan and the Turk.

The States will lock in fiercest strife, And seek to take each other's life; When North shall thus divide the South, The eagle builds in lion's mouth, Then tax and blood and cruel war, Shall come to every door.

Three times shall sunny, lovely France, Be led to play a bloody dance; Before the people shall be free, Three tyrant rulers shall she see; Three rulers in succession be, Each sprung from different dynasty.

Then, when the fiercest fight is done, England and France shall be as one. The British olive next shall twine, In marriage with the German vine. Men walk beneath and over streams, Fulfilled shall be our strangest dreams.

All England's sons that plow the land, Shall oft be seen with book in hand. The poor shall now most wisdom know, And water wind where corn doth grow; Great houses shall stand in far-flung vale, All covered o'er with snow and hail.

And now a work in uncouth rhyme, On what shall be in future time; For, in those wondrous, far-off days, The women shall adopt a craze, To dress like men and trousers wear, And cut off all their locks of hair.

They'll ride astride with brazen brow, As witches do on broomsticks now, The love shall die and marriage cease, And nations wane as babes decrease. The wives shall fondle cats and dogs, And men live much the same as hogs.

In nineteen hundred twenty-six, Build houses light of straw and sticks. For then shall mighty wars be planned, And fire and sword shall sweep the land, But those who live the century through, In fear and trembling

Judge Lattimore Endorsed By His Former Opponents

They say: Dallas County: "I shall vote for Judge H. S. Lattimore because of his record as a Judge and as a man. He is a superb lawyer and an experienced and learned judge who works hard and writes clearly and forcibly. His life as a man proves him to be a good citizen who upholds the ideals of Texas." —Richard B. Humphrey of Dallas.

Harris County: "I am voting for Judge H. S. Lattimore because as a man, a lawyer and a jurist I believe him to be the better equipped man in the race for the high position of Chief Justice of the Supreme Court." —John O. Douglas, of Houston.

Hidalgo County: "There are four particular reasons which determine my course in supporting Judge Lattimore." (The first three deal with Judge Lattimore's opponent). Fourth: "Your vote came primarily from the intelligent, responsible, uncontrolled, independent voters of the State. I find upon investigation among a great many of the men and women who voted for me, that most of them favor you over your opponent." —Gordon Griffin, of McAllen.

Travis County: "The State Supreme Court needs a lawyer with democratic ideals, naturally endowed to be Chief Justice, and H. S. Lattimore is that in full." —Jefferson G. Smith, of Austin. (His friends filed his name but he withdrew it before election date.)

JUDGE LATTIMORE LED FIRST PRIMARY \$2,000 VOTES OVER FIVE OPPONENTS

Terry Roberson of O'Brien was in Haskell Tuesday in the interest of his candidacy for Commissioner of Precinct 1.

Fatalities from farm accidents still number about 4,400 a year. The country's total cash loss from accidents, including death, injury, loss of time, etc., has been estimated at 2 1-2 billion dollars annually, with from 27 percent to 35 percent of this loss on farms.

This will do. Flee to the mountains and the dens, to bog and forest and wild fens, For storms will range and oceans roar, When Gabriel stands on sea and shore; And, as he blows his wondrous horn, Old worlds shall die and new be born.

To the Citizens of Precinct No. 1:

With only a short time remaining until the second primary is held, I want to again thank you for the fine vote given me for Commissioner in the first primary and to solicit your vote Saturday, August 24th

I have endeavored to see as many of the citizens and voters of the Precinct as possible during this final campaign, but it has been impossible for me to see each of you. For that reason I respectfully ask and will greatly appreciate it if you will consider this as my personal solicitation for your vote in Saturday's election.

Sincerely,

"Beauty Revue" To Be Feature of Graham Fair

The Harves Queen Beauty Revue has become one of the brightest spots on the program of the annual North Central District Fair and Rodeo in Graham. This year, the entertainment committee has decided to open the Fair with a brilliant revue from which will be selected the reigning queen for 1940-41. The Queen selected will be the Fair's representative at the Statewide contest held at the State Fair in Dallas.

Young ladies from the twelve counties served by the Fair are receiving invitations from Miss Jeannette Cornish, Graham's official sponsor. Miss Cornish was selected from twenty girls nominated this spring by the students of the Graham High School, and will be hostess to the visiting sponsors. Miss Christine Tucker, teacher of physical education in the Graham schools, is chairman of the Revue committee.

In the letters of invitation being sent out by Miss Cornish, the recipients are being reminded that the winner last year, Miss Ruth Evelyn Foote of Abilene, won the State contest at Dallas and was given an all-expense trip to Hollywood with extensive screen tests. Miss Foote and Miss Cornish will preside at the revue and will be assisted by Miss Betty Hulise and Miss Lillian Burns and 20 other Graham young ladies who will be selected on a personality basis.

From Tree to Desk In NYA Farm Shop

From East Texas tree to typewriter desk, dining table and chairs—that is the way National Youth Administration Resident Centers in the Houston District cooperate in obtaining equipment facilities to train out-of-school Texas youth between the ages of 18 and 24, inclusive for private employment.

NYA's Full-time Resident Center for Boys at Woodlake, Texas, includes, as a part of its shop training, the complete processing of lumber. These NYA boys cut the trees, haul them to the mill, operate the sawmill, and stack the lumber. When it has been properly cured, they process it in the woodshop into tables, office desks, typewriter desks, beds, kitchen tables, dining tables and benches.

In establishing the boys' Full-time Resident Center at Woodlake, surrounded by picturesque East Texas pine trees and located in Trinity County, it was the desire of the National Youth Administration and the Farm Security Administration to give employment and related instruction to rural boys who wanted to make farming their life work.

Woodlake proper consists of some 2,000 acres of land. Although Woodlake is operated by the Farm Security Administration, fifteen acres of the project houses and thirty acres of land were turned over to the National Youth Administration in November, 1938, for this work experience program. The training program is divided into two sections—farm shop work and agriculture. Each section is alternated, with the boys spending one-half of each day doing shop work and the other one-half in the agricultural division. Each morning three-fourths of the boys attend classes while one-fourth work. A reversal of these figures is made in the afternoon.

Woodlake Resident Center as a

farm project teaches sixty boys better farm methods, soil conservation, stock raising, practical farm shop work to enable would-be farmers to construct furniture for their homes and barns, fences and other articles needed in running a farm. For the project itself they have constructed beds, lockers, dining tables, chairs and fences.

The boys are taught to do practically everything that might be required of them on a farm. During their work periods, they clear land, repair roads, build bridges, repair fences, run the sawmill and do general shop work. On their own time they farm the thirty acres of land on the project and raise their own cabbage, corn, sweet potatoes, onions, pinto beans, greens, English peas, Irish potatoes, tomatoes, radishes, parsley, strawberries, and oats for pasturage.

Through these facilities the National Youth Administration and the Farm Security Administration are offering East Texas youth work experience and job training that will prepare them to return to their own farms with confidence and ability to operate them on a proven, sound basis.

Oh, John — if we could only afford a home of our own...

We can, Mary, now that I know about the FHA financing plan...

IT'S TRUE! YOU CAN BUILD

FHA TERMS AT LOW INTEREST RATES MAKE IT CHEAPER TO OWN YOUR HOME THAN TO PAY RENT!

A step by step explanation of how residents of Haskell can buy or their homes under the Federal Housing Administration plan will be Wednesday night August 28, at 8 o'clock in the district court room of courthouse in Haskell. Mr. Forest W. Gregory, field representative of Northwest Texas FHA district will be in charge of the meeting. In addition the explanation of the FHA plan of home ownership, there will be show slides in color, of houses ranging in price from \$1600 to \$3500 which have been built and financed under FHA during recent months in Northwest Texas.

Every man and his wife who do not own their home in Haskell are invited to attend this meeting and learn how easy it is to own homes and how it takes to buy or build on the liberal FHA terms.
