**16 Citizens . . .**  
Of Haskell have invested \$5,000 in our \$200,000 school system, an investment that will pay dividends for years to come.

**Others are Needed**  
TO INVEST AN ADDITIONAL \$15,000 IN THE SCHOOLS BECAUSE:

**DISASTROUS FIRES**  
1. Because of disastrous fires which have occurred in the past and the loss has been greater than anticipated, thus creating an unpaid balance.

**LOSS OF STATE FUNDS**  
2. Changes made in the rural school laws by the legislature kept the Haskell schools from receiving state aid the last two years, thereby adding to the financial strain.

**THE FUTURE . . .**  
makes a demand that approximately \$20,000 be raised by public subscription of future-minded citizens.  
The situation will also be aided by a change made in rural aid status whereby Haskell will now receive some additional funds.  
Under all of these conditions a meeting of interested citizens have decided that the logical thing is to raise the \$20,000 among our citizens.

**Therefore . . .**  
Letters are being mailed out to individuals this week asking their assistance, just as the 16 others have assisted, in this public undertaking to rid Haskell schools of debt. Checks may be left at either one of the Haskell Banks. Leave yours TODAY.

Starts 61st Year

Our congratulations to the Albany News "The Oldest Journalistic Venture West of the Brazos" on starting their 61st year of continuous publication last week.

The paper, first established at Fort Griffin and later moved to Albany, is a neat, newsy paper and has chronicled the history of Shackelford County so well that it is quoted freely by West Texas historians, and in history books of Texas.

And although the Free Press editor and the Albany News editor were sometimes at loggerheads back in those early days, there still existed a great respect even then for the News. One of the differences of the editors arose during the drought of 1886 when the News slammed Haskell County for a "dustbowl" and the Free Press editor, in typical early-day editorial fashion, indulged in some name calling.

John H. McLaughy is present owner of the paper, and is doing an excellent job of keeping up the tradition established 61 years ago in giving all

For The Gullible

Many campaign statements being made as the election nears are obviously designed to attract the gullible. Because many of the rash utterances would be labeled "poppycock" by anyone who exercises his privileges of thinking, even just a little bit.

However, that is the way to win votes. For the gullible, like the poor, are with us always. And it's a lot easier to be gullible than think at times; and takes a lot less effort to remain poor than to get rich.

Savage Texas

An evening Paris newspaper in a story about a WAC referred to her home as a village of 200 souls in the "half savage" state of Texas.

Without realizing it that paper paid Texas and Texans a compliment. For Texans can be half-savage when it comes to pounding the enemy—and they can be half civilized when civilization's veneer is needed.

In other words a Texan can be civilized in a half-hearted way and outside Paris pomp. Or savage in a half-hearted way and outdo the Japs and Germans.

No Kids In School

A Haskell man was heard to remark that he had received a bill for \$2 for taxes from the school district, "but damned if I will pay it, I don't have any kids in school."

And this while other Haskell men are investing \$100 to \$500 in their Haskell schools in addition to their taxes.

If our school taxes were only \$2, and we didn't have any kids in school, we'd still pay it—as soon as a loan could be arranged.

A Woman Thinks

A Haskell woman remarked that she "ought to write a piece for the paper on what I think would help Haskell."

Such letters are welcomed by editors—as well as communications on other subjects, when they are brief, signed by the writer and do not contain derogatory remarks about persons or things—and will usually find their way into print.

Christmas Street Lighting Ban

The Office of War Utilities of WPB is asking city officials, civic clubs, chambers of commerce, merchants and citizens to dispense with outdoor lighting this Christmas, as was done in 1942 and 1943. Object of the request is to reduce electricity consumption and coal requirements.

NOTES ON AGRICULTURE

PLANTED 4 TIMES

J. W. Brock, who has reduced his cotton acreage this year by increasing acres planted to maize, says that he has a fine crop of maize but should have as he "had to plant four times".

Brock also has a good cotton crop.

MORE COTTON YIELD

J. M. Crawford, cotton buyer and civic worker, says that Haskell has an excellent cotton crop in the west and north part of the county and that the yield should be greater than last year, although the acreage is smaller.

COTTON PICKERS STRIKE

A group of Mexican cotton pickers in the O'Brien community struck for higher wages Monday morning, were refused and left the job the same day. They had been pulling and hauling to the gin for \$1.75, wanted \$1.90.

CROCKER TO WICHITA FALLS

Robert Crocker, AAA secretary, attended a meeting of AAA secretaries in Wichita Falls Monday.

PRETTY GOOD COTTON

Mrs. W. A. Newberry was in Haskell Monday and said her husband had 60 acres of cotton which was pretty good, but they needed cotton pickers. Mr. and Mrs. Newberry live at O'Brien.

PICKER PROBLEMS

T. B. Austin who lives at Rochester, said the farmers with large acreage are not having as much trouble getting pickers as those with a small acreage in the Rochester area. He said that quite a lot of the cotton near Rochester would make a bale to the acre.

Austin arrived in Haskell 40 years ago in December and remembers well the "Road to Ruin" saloon, which was situated about where the Texas theater is now. He said the sign atop the saloon was one of the first things he noticed upon his arrival. He has been living at Rochester for a number of years where he is in the insurance business. Sunday he was in Anson on business.

BALE TO THE ACRE

Neighbors of Newt Cole report that he will probably make a bale to the acre, or near it on 300 acres he has planted to cotton. Cole lives three miles north-east of Rule.

Two years ago he had 155 acres in cotton, gathered 152 bales.

The Pirate Log

Paint Creek Wins Over Sagerton

Thursday night October 13, on the Stamford field the Paint Creek Pirates won over Sagerton by a score of 24-7. The game was interesting and exciting throughout. Both teams made some nice runs but did not have much luck with passing.

The night was a little chilly, which made it fine for the players but a little uncomfortable for the on-lookers.

This week, Paint Creek will meet Matton Thursday night on the Haskell field.

New Pep Squad Suits

The pep squad girls made their first appearance in their new suits at the Sagerton game at Stamford. The dresses are two piece with gored skirts and the blouse, being princess, with turned back collar, patch pockets and covered buttons. The material is gold gabertex. The leaders have suits of similar style, only their blouses have sleeves and the skirts shorter. Yellow sweaters are worn with the suit, the material being maroon spun rayon.

The girls are proud of their suits and hope to get much pleasure wearing them this season and in the future.

Home Making News

The girls are very glad to get moved into the beautiful new Home Making cottage. It consists of a kitchen, dinette, living room and fitting room with lavatory.

The kitchen is furnished with a nice built-in cabinet and tables with sink, triple mirrors, closets and vanity case are the furnishings of the fitting room. The girls remodeled tables, desks and book shelves to match the woodwork of the building. The walls are tinted cream with white woodwork.

The cottage is neon lighted throughout. The girls plan to upholster a divan and chair for the living room. Either glass curtains or drapes will be made for the windows throughout the cottage. All the small equipment has been bought.

V. A. News

The three V. A. classes met and nominated candidates for Aggie Sweetheart. The following girls were nominated: Freshman, Betty Jo Adkins; Sophomore, Ruby Mae Dean; Junior, Billie Raughton.

Texans Urged To Get War Jobs

The present emergency manpower situation is hindering the war effort was the conclusion reached by an area management-labor committee conference of the War Manpower Commission, in meeting at Abilene.

The committee, composed of Nib Shaw, Abilene; J. A. Deen, Brownwood; Harold Gettis, Ranger; and Verne W. Peterson, Ranger; have decided to ask West Texans to do all in their power to aid in the successful prosecution of the war by working at a war job, by staying on the war job and by stressing that the war is not yet over.

A war manpower priority committee has been organized for the Abilene area with E. J. Berry, war manpower commission area director, as chairman, and a committee meeting will be held within the next few days to investigate the area labor situation.

Pellagra Causes Many Deaths 'n Texas Yearly

Austin, Texas, Oct. 25—Pellagra, even though not a communicable disease, is of concern to public health officials in Texas since many people die of pellagra in this state every year. The disease is caused by the lack of certain essential foods and since it comes on slowly may not be recognized until the victim begins to have the more serious symptoms such as sore mouth, stomach trouble, and reddening and scaling of the skin.

"When these symptoms appear, the disease has been present for some time," says Dr. Geo. W. Cox, State Health Officer. "The longer a person has pellagra the harder it is to cure. Consequently it is well to watch for the early symptoms such as nervousness, indigestion, and burning of the hands and feet. In its advanced stage, pellagra may become so severe as to seriously affect the mind."

Pellagra is not contagious, Dr. Cox pointed out, and he emphasized that it can be prevented entirely by including the right kind of foods in the daily diet.

He says the spirit of the boys is splendid, and that all they hope for is to live another day and get home as soon as possible. He relates that all praise should go to the War Fund and Red Cross for the excellent work they are doing to help the GI's. Italian food is not edible he said.

There's a Shortage of Copies of The Dallas Morning News—But NOT of Our Desire to Serve!

The crucial shortage of newspaper paper has forced a curtailment of the supply of copies of The Dallas Morning News to our dealers in this county. Only a small part of regular shipments is possible until we are permitted by Government Authority to increase our consumption of newspaper.

Distribution for the present will be made from drug stores and newsstands, unless your agent can arrange otherwise.

We realize, with deep regret, that some of our old-time readers are not able to get copies of The News. We trust they will understand and bear with us while we're making every effort to restore service.

In the meantime, although many patrons will not have The News delivered to them temporarily, their names are still on The Dallas News' Big Book and we look forward to serving them again.

Thank you. The Dallas Morning News

**CITATION BY PUBLICATION**  
 THE STATE OF TEXAS,  
 To: Earnest R. Perkins, Greeting:  
 You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 13 day of November, A. D. 1944, at or before 10 o'clock A. M., before the Honorable District Court of Haskell County, at the Court House in Haskell, Texas.

Sad plaintiff's petition was filed on the 17th day of June, 1944. The file number of said suit being No. 7172. The names of the parties in said suit are Christine Perkins as Plaintiff, and Earnest R. Perkins as Defendant.

The nature of said suit being substantially as follows, to wit:  
 To the Honorable Ben Charlie Chapman, Judge of said Court:  
 Now comes Christine Perkins, who resides in Haskell County in the State of Texas, hereinafter called plaintiff, complaining of Earnest R. Perkins whose residence is unknown to plaintiff, hereinafter styled defendant and for cause of action plaintiff represents to the court:  
 That she is and has been for a period of twelve months an actual bona fide inhabitant of the State of Texas and has resided in the County of Haskell County for at least six months preceding the filing of this suit; that on or about the 9th day of September 1937 plaintiff was lawfully married to the defendant; that they continued to live together as husband and wife until on or about the 10th day of June 1943, when, by reason of cruel, harsh and tyrannical treatment, plaintiff was forced and compelled to permanently abandon the defendant since which time they have not lived together as husband and wife. Plaintiff further alleges that defendant is untrue to her. Plaintiff says the marriage relations still exist, but that defendant's actions and conduct toward her generally are of such a nature as to render their further living together as husband and wife insupportable the premises considered.

Plaintiff alleges that four children were born to this union, to-wit: Frankie Jo Ann Perkins, a girl about six years old; Caroline Sue, a girl about four years old; Jerry Earnest, a boy about two and one-half years of age; and Billie Ray, a boy, about one year old. Plaintiff says she is a proper person to have the custody of said minor children and it will be to the best interest of said minors to be awarded to her.

Wherefore plaintiff prays the court that defendant be cited to appear and answer this petition and for judgment dissolving said marriage relations, for costs of this suit, and for such other and further relief, special and general, as law and in equity that she may prove herself entitled to and in custody of said minor children and in duty bound will ever pray.

Issued this the 30th day of September, 1944.

Given under my hand and seal of said Court, at office in Haskell, Texas this the 30th day of September A. D. 1944.

**AN OPEN LETTER TO OUR FRIENDS IN HASKELL**

Dear friends:  
 We want to take this opportunity, through the courtesy of the Haskell Free Press, to express to our many friends in Haskell the supreme joy that has been ours in having the privilege of living among you for the past four years. In addition to the rare pleasure that comes in serving a church like the First Methodist Church, there have come into our lives so many warm and personal friends who belong to other churches in Haskell and surrounding communities. We have no way to tell you just how much this friendship has meant to us. Wherever we go we shall cherish and treasure, with affectionate memories, the many personal friends we have left in Haskell.

This spirit of cooperation and deep friendship between the members of various churches is a most gratifying Christian attitude. This spirit of unity will do much to bring the non-Christian into the fold. We are grateful for the friendship of the ministers of the other churches. To have worked with them has been a pleasure.

We wish for you and for our immediate successors in the ministry of the First Methodist Church peace abounding, and the joy of the Lord.

"The Lord bless thee and keep thee. The Lord cause His face to shine upon thee, and be gracious unto thee. The Lord lift up His countenance upon thee and give thee peace."  
 Your sincere friends,  
 The Kenneth Coplands.

## My Electric Bill is Always LOW!

No wonder you're pleased, lady! Far from going up, electric prices have been coming down—steadily! Within the last three years, while the cost of living has climbed about 22%, the average price of household electricity has dropped about 9%. The land is southeast of Haskell and in section 12 and 13 of H&TC survey and in the John Harvey survey. Lane already owns farmland in the area where he made the new purchases. One of the places purchased contained 578 acres, another 272 acres and the third had 57.5 acres.

**Baty Buys Tract**  
Sale of 145 acres north of Haskell was also made this week with ownership passing from Hardy Grissom of Abilene to E. A. Baty, Haskell. Baty had recently sold two smaller tracts of land. The property is in the I. Smith survey.

Lots 3 and 4 in the Bank addition to Haskell has been sold by Sally S. Swann and husband of Oklahoma to Leon Pearsey and wife of Haskell.

A small tract of land south of Haskell, in block 20 H&TC survey, has been sold by E. J. Henderson of E. Newton.

Mrs. E. J. Henderson sold a tract in the Brown-Roberts addition to J. L. Wolf.

**Buys 311 Acres**  
Two tracts of 311 acres have been sold by Odessa Margerite Tankersley to E. L. Tankersley. The land is in section 20 and 21 H&TC survey.

A business lot in Haskell, west of the telephone building, has been sold by M. S. Shook to C. P. Woodson, Haskell battery and radio shop owner. The lot is in block 24 of the original town-site.

**800 Library Books Received for County School**  
A shipment of approximately 800 library books for the first eight grades of schools in the county has been received by County Superintendent, Mrs. Iva Palmer, from the public library at Austin.

Mrs. Palmer said the books would be distributed to various schools of the county. The books are on science, biography, fiction, history and geography.

## Mail Christmas Packages Early Is Postal Plea

December 1 is the deadline requested by the Post Office Department for mailing Christmas gifts inside the United States. Every citizen who is playing Santa Claus for loved ones and friends in other towns is urged to get that present in the mail by that date to assure proper delivery. The reason, say postal officials, is that Americans are expected to mail domestically 25 per cent more gifts than a year ago—and at a time when the Post Office has fewer employees and less well-trained holiday help than ever before.

**Dallas Woman On Visit In Haskell**  
Mrs. Fred Schlee of Dallas is visiting friends in Haskell. She was accompanied by her father J. A. Ford of Fort Worth, who is at the bedside of his mother in Weinert, who is ill.

## Copeland

(Continued from Page One)

Copeland said that he regretted leaving Haskell and that he had enjoyed an abounding friendship with members of his congregation and with pastors and members of the other Haskell churches. The new pastorage will provide a promotion and a wider field for Copeland. The Stillwater church has 1,100 members and the town's population is around 11,000. The Oklahoma A & M College is located at Stillwater.

During the time he has served as pastor here 200 members have been added to the church, physical improvements have been made to the property and Copeland said, "most outstanding is the fact that the spiritual tone of the church has been greatly lifted, the church has a higher perspective, worldwide instead of local and those on the inside can observe these changes."

Copeland, in addition to his church duties, has found time to assist in all civic undertakings in Haskell. He and his wife and two daughters, ten and seven years of age, are moving to their new home Friday.
