LITTLE LEAGUE FIELD

NUMBER TWENTY-SIX

LL All-Stars Named

By GENE LONG
Due to an oversight and mix-up last Monday night, I failed to mention Ramon Andradra, our Player-Agent, who has worked and worked, when he didn't even have the time, for Little League Baseball.

His job is second to none and he has done it well. He has been my right arm and a personal friend to every Little Leaguer. I apologize to Mr. Andradra and to the League for my error in failing to give credit to our Player Agent.

Before announcing the names of the all-star team for 1973 I would like to express—on behalf of all spectators and parents—a sincere thanks to every manager who has given his time, his talent, to teaching our boys not just baseball, but also sportsmanship and citizenship.

For the Minor League—Mr. Ronnie Hise, BEARS; Mr. Jim Pace, CATS; Mr. Bill Lane, RED HORSES; Mr. Claude

Payne, CROWS; and the Crows were the Minor League winners for 1973.

For the Major League: Mr. David Frierson and Mr. Troy Schwartz, EAGLES; Mr. Bobby Medford and Mr. W. O. Nanny, HAWKS; Mr. Jerry Hadaway and Mr. Tommy Patterson, RAMS; Mr. Jerry Sorrells and Mr. Jerry Weatherly, CUBS; and of course, the managers of the final game's teams, Mr. Sammy Larned and Mr. J. W. Wallace, TIGERS; and Mr. Lonnie Hise and Mr. Bobby Roberts, LIONS. The Tigers were winners of the 1973 Haskell Little League contest.

I also would like to express to Mr. Clyde Harper and his umpire team—"thank you, men"—we cannot play baseball without your volunteering to umpire our games. It's a tough job, a thankless job, with lots of pressure. But we do appreciate you—perhaps you have not been perfect—none of us are—I just wish everyone could

try this job.

A special thanks to Gaston Tidrow, our secretary; to Mrs. Frierson, our chief scorekeeper.

X-Ray Mobile In Haskell Today

The Mobile X-Ray Lung Detection Unit of the North Texas Lung Association (formerly the North Texas Tuberculosis and Respiratory Disease Association) will be in Haskell on Thursday, June 28, 1973.

The unit will be operating at the Courthouse from 12:00 noon until 6:00 p. m.

The North Texas Lung Association is dedicated to the eradication of lung diseases such as tuberculosis, emphysema, asthma, lung tumors, chronic bronchitis, and air pollution.

All persons 21 years of age and over are urged to take advantage of this service.

er) to all the men who announced the games; and especially to our mothers who made several hundred snow cones; popped buckets of popcorn, poured Cokes and made hot dogs in the concession stand. These ladies kept us going financially. A special thanks to the Ladies Auxiliary and their president, Mrs. Barbara Roberts.

A big THANK YOU to Olen King—he is Mr. Big to me—always willing to help.

I wish we could put every boy on the All Star team. There are boys who did not make it, not because they weren't good enough but simply because only 14 boys could be there representing our league.

Sportsmanship, poise, citizenship, teamwork, attitudes both on and off the field, along with playing good baseball—these are the things considered when choosing the All-Stars. There were many hair-line decisions and here are the results:

THOMAS MCADAMS, Lions—A boy who can play any position, quietly he beats you before you are aware of it.

ECKY DRINNON, Cubs—A young man who takes command of his team, a pitcher, a hitter.

DANIEL RILEY, Lions—A young man who took command of centerfield for his team.

JEFF FRIERSON, Eagles—A friendly young man who has been enemy to many batters this season, and he can hit, too.

MARK WALLACE, Tigers—A boy who plays all sports well, who has respect of all his friends and the respect of many batters this year as a pitcher.

MONNIE HISE, Lions—A young man, when his team needed a short stop, even though he was left-handed and it was awkward for him to play the position, he played it, and played it well.

RANDY HARPER, Hawks—A young man who played the game with all his heart, even when sick a short while ago. He would have liked to have played because his team needed him.

JOSEPH MCCOY, Tigers—A young catcher. His mother tells me at home or at ball practice, he likes to be behind a plate. And, he can hit, too!

GREG GIDEON, Eagles—A pitcher; to some playing sports is so natural, to others they

have to work hard at it. This young man is a hard worker.

EDDIE KLOSE, Tigers—A young man who acts like centerfields belongs to him, catching anything that flies out there. He never gets shook up—Mr. Calm!

GABRIEL CAPITILLO, Rams—A young man who is a real competitor, if he's on the other team you'll know him well before the game is over.

KEN HERRING, Tigers—A young man with poise and confidence—two things a short stop needs.

ROGER BRYAN—A young man who wins well, but even in defeat he can still smile and does.

THOMAS LONG, Lions—Last but not least, a young man who, like others, has had to struggle for every bit of improvement he made. He likes first base and he likes to put out runners, and he dares a pitcher to put one in his range.

There are your All Stars for 1973. I think we are well represented.

We've had a great season. Some of you will be back next year to play the game, to win and to lose, too.

Some of us will not be back, to SERVE, but we'll always have Little League with us for it has meant so much.

Thank all of you for allowing me the opportunity to serve these boys.

It's been great—I'll never forget it.

—Gene Long, President

Haskell Little League, 1973

you make trips up and down the glassed-in elevators, people hide their faces so that they won't have to look out and see the 'park' inside the lobby of the hotel swiftly diminish in size as you go higher . . .

And that elevator may be the most enlightening event of all. The hotel is built in a pie shape with all rooms opening both outside, and inside around the park which is full of trees and blooming plants. The 'roof' to the park is 30 stories high, and it takes a pretty long electrical cord to hold the huge chandelier that centers it. Eight glass front elevators speed silently up and down, and in them at all times you can either look out onto the street, or out into the hotel lobby and park.

Now I have claustrophobia—and Bill does not have this problem. Close me in an elevator with four walls and I turn green till I get out. So, with glass walls, I suffered from no problem—as long as I can see out, I enjoy myself. Bill in the reverse—one glance out that glass, and HE turned green. So . . . we blithely sailed up and down as the need arose, to change clothes, or to go from a meeting room on one floor, either up or down to the next one on another. And each trip, Bill got a little greener . . . and looked a little harder for the stairs. His only consolation was that, from the lobby to the first and second floors, escalators were in operation.

So, a lot of our meeting attendance decisions rested on whether or not you could get to that meeting on the escalator.

Anyway, we're both glad to be back home out of Houston's traffic, and Bill's glad to be back in the land of one-story buildings.

BIG BALL GAME SLATED TONITE

Another big treat is in store for Haskell area residents tonight—Thursday—as the Minor League Cats play their mothers in a fast game at 8 p. m. at the Little League field.

The mothers play their son's positions, and it's a lot of fun to watch! Everyone is welcome. There will be no admission but donations to the Little League will be accepted.

H-M-M just figured out something this week. The more Haskell people travel and visit... the harder it is to get news items for this column. That doesn't sound logical? Well, for the past two weeks, HFP secretary Lois Redwine has gathered news for this column for me, and with what comes in and is called in, along with her phone calls, she was snowed under with items. So this week, about 50% of her phone calls were not answered—people were gone traveling... it was harder to compile the column. So, to all of those of you who have been traveling, vacationing, or just visiting over the weekend... just give us a call when you get home, so that we can tell our subscribers what's going on in Haskell.

Tips on using NATURAL GAS properly.

There are many ways you could be adding to your gas bill, and not be aware of it. Take a few minutes and

Check:

- Fireplace damper for tight fit.
- Insulation, weather stripping and/or caulking around doors and windows.
- For holes and leaks around window air conditioning units and roof-top ventilators.
- For clean filters regularly.
- Gas appliances periodically for proper adjustments.

Do:

- Close drapes on sunny days and open them on dark ones, when using gas air conditioning.
- Leave thermostat at comfortable setting, and raise it 5 degrees at night.
- Drain approximately one bucket of water per month from water heater to prevent mineral deposits from building up.
- Repair leaky hot water faucets.
- Use lids for pots and pans to reduce need for higher flame.

Don't:

- Run partial loads in dryers, washing machines or dishwashers.
- Block air conditioning vents.
- Cool unused rooms.
- Use higher flame on range than required.
- Pre-heat the oven any longer than necessary.

These are tips that will help you reduce your gas bill and save you money.

LETTERS TO THE EDITOR

718 Woodlawn St. Abilene, Texas

Dear Sir:
My wife and I are now living in Abilene where we have a house. However, we shall always consider Haskell as the 'hometown' place we have ever lived.

Your town is blessed with good old-fashioned (but certainly not out-of-date) wholesomeness and values not evidenced everywhere. The eight short months that we were privileged to call Haskell home seemed altogether too short, but circumstances made it more fortuitous for us to be at Abilene where my wife will attend college. As long as Haskell has people such as the Benfros, Chambers, Sells and Connells, it will always be an excellent town.

Thank you all for making us outsiders feel like Haskellites. We will never forget you.

Sincerely,
Floyd and Wanda Maddox

Let us show you HOW LITTLE IT COSTS to air condition your home!

DPS Reports 11 Accidents In May

The Texas Highway Patrol investigated 11 accidents on rural highways in Haskell County during the month of May, according to Sergeant Frank Jirek, Highway Patrol Supervisor of this area.

At Rule High School, Calvin participated in junior and senior class plays, lettered in track 3 years, basketball 4 years, football 4 years, secretary-treasurer of his senior class, vice-president of the FFA his senior year, member of the Beta Club both years in the top 25% of his class, and runner-up for Mr. Rule High School during his senior year.

Calvin is an active member of the Lutheran Youth and Zion Lutheran Church, in Abilene and plans to enroll in Texas Tech in Lubbock in the fall.

While the number of students chosen for this award varies from school to school, on a national basis less than two per cent of the students from the nation's 24,000 public schools are selected.

These crashes resulted in no persons killed and six persons injured.

The rural traffic accident summary for this county during the first five months of 1973 shows a total of 37 accidents resulting in one person killed, and 23 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region 1 for May, 1973 shows a total of 559 accidents resulting in 21 persons killed and 318 persons injured as compared to May, 1972 with 517 accidents resulting in 25 persons killed and 329 persons injured. This was 33 more accidents, 4 less fatalities, and 11 less injured at the same period of time.

The 21 traffic deaths for the month of May, 1973 occurred in the following counties: Gray, 5; Lubbock, 4; Bailey and Hartley, 2 each; Castro, Knox, Montague, Palo Pinto, Randall, Swisher Wise and Young, one each.

Paint Creek . . . Community News

Mrs. Gene Overton

Paint Creek crops look so pretty. The farmers are all busy either replanting cotton, planting maize, cultivating cotton, breaking stubble or harvesting grain. Some had to wait for a combine, so there is still oats and wheat combining going on. This is a year for good gardens and one can't get Paint Creek wives on the phone early in the morning, because they are gathering garden, hoeing garden, or watering garden.

The weather is nice — the ground is in such good shape, and it is nice to be so busy. It would be good to be able to get rid of most of the grass and weeds before the real hot weather. Farms in the north part of our country are still too wet to be planted, and those poor farmers are going to be late, late. However, some years the late crops are the best and some years the early crops are best. It is all a gamble, anyway. A farmer just has to plant and guess what the weather will do to him.

Mr. and Mrs. Allen Isbell spent Sunday in Lubbock visiting their daughters, Janice and Jeannine who are attending Texas Tech.

Members of the Paint Creek Home Demonstration Club were invited to attend the Fandangle with the Haskell County Home Demonstration Clubs. Mr. and Mrs. J. R. Perry and Mr. and Mrs. Hoyt Perry attended last Thursday's performance.

Ray Overton Sr., is a patient in the hospital at Vernon. Mrs. Overton and Ray Jr., were in Vernon Monday to visit.

Paint Creek's new Agriculture teacher is 25-year-old Van Wilson from Graham. I believe Mrs. Wells said he received his degree from East Texas State. He is married and will live on campus.

Mrs. Arlon Kinnibrugh of Goree and her baby son, Kelly, visited her parents, Mr. and Mrs. E. R. Schaafe last Wednesday.

Gene Fischer underwent surgery at Hendrick Hospital in Abilene Monday morning for removal of a bone fragment from an arm injury he received several months ago. He hopes to be home Thursday. The little Fischer girls are staying with their grandmother, Mrs. Bertha Humphry in Haskell while their mother and grandmother, Mrs. Bertha Humphry is in Haskell.

Mr. and Mrs. Fred Buerger, their daughter, Mrs. Dan DeFevre, and her daughter, Debbie, were spending a month in Germany visiting Mr. Buerger's sisters and brother. Mrs. LeFevre had to come home early when Dan became ill.

Mr. and Mrs. Hoyt Perry were in Abilene Friday for an ice cream supper and to visit their daughter, Mrs. Wayne Blacklock. Mr. Blacklock and their daughters, The Blacklocks live in Austin but were in Abilene visiting Wayne's mother, Mrs. Ben Blacklock.

Mrs. Glen Cobb suffered a serious heart attack last Friday. She is a patient in the Haskell Memorial Hospital.

Mr. and Mrs. Jodie Earles have as their guests this week their daughter, Margie, Mrs. Frank Daniels, and son, Jodie, of Nashville, Ark. Mr. Daniels returned home, Margie and Jodie will get to visit until July 2nd.

Miss Janice Rainey attended the Methodist Church Sunday morning, a guest of Danny Isbell.

Mr. Ed Bingham of Electra, parents of Ron Bingham, and Mr. and Mrs. Tom Hewett of Midland, parents of Mrs. Ron Bingham, were recent guests of Mr. and Mrs. Gene Overton and Wallar. Mr. and Mrs. Hewett were Haskell visitors the weekend of the 9th and the Bingham's came the weekend of the 16th.

Mr. and Mrs. Russell Grand and Mr. and Mrs. John Grand helped Mr. Bill Reed celebrate his birthday Sunday in Haskell.

Hey Day Plans Made For 1973

Plans are well underway for the 1973 Miss Hey Day Pageant and the Little Miss Hey Day show, with this year's dates set for August 9 and 10.

In a planning meeting Tuesday evening in the Community Room, Hey Day Chairman Opal Adkins and her workers lined out committees, set dates for rehearsals, teas, practice sessions and shows.

CITIZENS OF RULE
Effective July 1, 1973, I must resign as City Marshall of Rule. The expenses (insurance, gas, upkeep) on my personal car used in this position are so great, I feel by remaining, an injustice would be done to my family.

This decision was made with deep regrets. The support and help shown by most people has been tremendous. To these people I wish to say a heartfelt Thank You. Sincerely, Art Halliburton.

CARD OF THANKS
We wish to express our great- est gratitude to everyone for the flowers, cards, food and their time that was spent with us in a time of sorrow. May God bless each one in His own way. The family of Jasper J. Tennon, Jr. 26p

CARD OF THANKS
At a time like this, it's hard to find just the words to thank our many friends for all the nice and wonderful things that you did for us in the loss of our wife, mother and grandmother. We want to thank the doctors and the entire hospital staff. We thank you for each dish of food and for each lady that helped to serve. We want to thank Mr. McCauley and the funeral home staff. We wish to thank Rev. L. D. Reagon, Rev. H. H. Sego and Rev. R. D. Williams for their comforting words. We thank you for the beautiful floral tribute that was given in her memory. Thank you for each card we received, and for every prayer that was said in our behalf, we felt there were many. If and when such sorrow should come to you, may you be comforted with just such sweet friends as we have had. Our prayer is: May God in His infinite mercy watch over you. In our loneliness, we covet your prayers.—E. W. Andrews and family. 26p

CONSERVATION NEW POINTS

District Conservationist
C. YEARY, JR.

Recent heavy rains can we initiate action which will benefit all parties concerned in the least amount of time. One such group of interested landowners and operators with a common problem met with Soil Conservation Service personnel, J. C. Yeary, District Conservationist, and Jim Boykin, Soil Conservationists from Haskell; Harry Smith, Agricultural Engineer from Abilene, and W. L. "Knott" Ballard, District Director of the Wichita-Brazos Soil and Water Conservation District from Rochester, to discuss the many aspects involved in planning and engineering a waterway in the portion of Wildhorse Creek from State Highway 283 to Farm-Market 2163. The Haskell County portion of this watershed has been mapped and was used in the discussion of the damage caused by the floodwaters. Assistance available through the Wichita-Brazos SWCD and the SCS was discussed with the group along with various types of government cost-share assistance, administered by the SCS. The group was vitally interested in the waterway project and

requested SCS assistance in surveying the water course and designing a waterway which would carry subsequent floodwaters through the farms in an orderly fashion. These interested people along with SCS personnel will be contacting other landowners and operators in the watershed, not present at the meeting, to get their views on the project. Also, the plan will be discussed with other governmental agencies which might be effected.

All interested parties are encouraged to contact Mr. Ballard of Rochester or any of the SCS personnel at the Haskell Field Office, not only to find out details of the project but also to help us in the planning with their viewpoints. Landowners east and north of FM 2163, having the same problem, are encouraged to contact us of their viewpoints of carrying the waterway through their farms eventually to a suitable outlet.

We are open to suggestions and will provide all assistance possible in alleviating the problems not only on the Wildhorse Creek watershed, but also Lake Creek and others, but keep in mind, many can do more than one.

60-Day Freeze May Cause Shortage

The President's 60-day freeze on retail food prices is a "stopping measure that carries with it some real dangers for consumers as well as farmers," J. T. Woodson, president of the Texas Farm Bureau, said today.

"There is a real possibility that we may soon see shortages of milk, eggs, and meat if prices are too low for farmers to make a profit," the head of the state's largest farm organization said.

"Although farmers appreciate the President's exemption of prices of raw agricultural products, the freezing of prices at the retail level does affect prices all the way back to the farm," Woodson said.

Commenting on the cost-price squeeze, Woodson said that some producers have absorbed all the increased production costs they can handle.

"Farmers will not produce for very long when their prices are at or below the cost of production," he said. "When producers feel the pinch badly enough, it won't be long before the consumers, too, in the form of empty grocery shelves and meat counters."

The farm leader said the only way that consumers can be assured of a bountiful supply of food at reasonable prices is to have adequate production and that this can only come from price incentives in the marketplace.

Woodson said that food prices are not out of line.

"The American consumer spends only about 16 percent of his take home pay on food," he said. "This is lower than any other nation on earth and lowest of any time in our history."

The Farm Bureau leader said that the "real culprit behind inflation is still wasteful and deficit spending by government."

"Until we cut out spending beyond our means, we will continue to have our pocketbook robbed by inflation," he said.

VBS Ended Friday

Vacation Bible School at the Central Missionary Baptist Church was reported very successful at the closing exercises Friday night.

Wilma Bartley served as superintendent for the school; Ruby Mae Isbell was pianist; James Norrell was song leader; Alice Wooten was junior teacher; Reta Norrell was primary teacher; Maudie McFadden was kindergarten teacher; and Cindy Norrell helped in the

kindergarten class. Refreshments were furnished by the ladies of the church, including Stella Howell and Doris Butler, who served each day. Attendance was not large but the presence of the Lord was in each class and the fellowship was enjoyed by all who attended. Homemade ice cream and cake was served in Fellowship Hall after the closing exercises Friday night. Appreciation was expressed to all who put an effort into this phase of the Lord's work.

4-H Recipes

Joanne Cloud of the Sager-ton 4-H Club won first place in the Junior Breads and Desserts in the County Show and competed in the District Show at Wichita Falls. Other than Foods Joanne carries a Clothing project. She is the daughter of Mrs. Joe Cloud of Rule. Her adult leaders were: Mrs. Delbert LeFevre and Mrs. Fred Kupatt.

JOANNE CLOUD
Apple Dumplings

1-1/3 pkg. (4 oz.) cream cheese softened at room temperature
1/3 cup confectioners sugar
1 pie crust recipe*
4 large baking apples, pared and cored
2/3 cup sugar
1 egg yolk
2 tsp. water

Combine cream cheese and confectioners sugar in a small bowl until blended. Chill. Prepare pie crust and divide into 4 pieces. Roll 1 piece to a 7 inch square on well-floured board. Coat 1 apple with sugar; place on center of pastry. Spoon cream cheese mixture into center of apple. Moisten edges of pastry up and over apple. Pinch seams that form at right angle to apple. Trim off pastry seams, leaving 1/4 inch seams. Press seams firmly against apple. Repeat with remaining pastry and apples.

Heat oven to 425 degrees. Roll pastry scraps to a 7x9 inch rectangle. Cut into eight 1/2 by 9 inch strips with pastry cutter or knife. Place 2 strips over seams of each apple, crossing at top. Press to seal. Place apples on foil-covered jelly-roll pan. Blend egg yolk and water; brush on apples. Bake 25 minutes or until golden. Cut out 4 leaf shaped pieces of pastry; brush with egg yolk; bake 5 minutes. Insert into top of apple dumplings. Serve warm.

*Pastry
2 1/4 cups sifted flour
1 tsp. salt
3/4 cup shortening
5 to 6 tbsp. water

Sift together flour and salt into mixing bowl; add shortening. With pastry blender or two knives, cut shortening into flour until all particles are the size of rice grains. Sprinkle cold water over the mixture, a little at a time, press dampened particles together with a fork. Continue until all flour is dampened using just enough water to form a dough which leaves the sides of the bowl clean. Turn dough out onto wax paper. Wrap in wax paper and chill for at least 1/2 hour before using.

Tamara Sorrell of the Haskell 4-H Club won a blue ribbon with the following recipe. Tamara is the daughter of Mr. and Mrs. Jerry Sorrells of Haskell. She will be in the 7th grade at Haskell Junior High School in the fall. For a cool main dish for the summer months this would be perfect. FROM the Groom to the Best Man: America's finest, Cross Pens.
