Show awards have been underwritten by the Haskell Chamber of Commerce, which is sponsoring the show.

New parking regulations worked out by the City Council for the business section of town went into effect this week and will be enforced as a means of eliminating the dangerous and haphazard practices of parking cars and trucks which has created a serious traffic problem in the past, city officials said.

Double parking on all sides of the square will be restricted to a 30-minute limit, but double parked cars must be left unlocked with the ignition key in the car so that it can be moved if necessary during the 30-minute period.

All cars parked at the curb around the square must be parked inside the diagonal lines painted on the curb, at an angle. Cars parked on streets leading from the square for a distance of one block, must be parked parallel to the curb.

Regulations also prohibit the parking of trucks and trailers around the square.

SENIOR SPOTLIGHT

The Spotlight reflects on Harwell Chatwell this week. Harwell is the quiet, studious son of Mr. and Mrs. W. C. Chatwell of Haskell. His favorite hobbies are coin and stamp collecting. His plans after finishing this year, includes a business course at Draughon's Business College at Abilene. Good luck to you Harwell in all you do.

Dick Bischofhausen, a popular and outstanding student, is another senior we are all proud of. His willingness to work and his "stickability" make him a good bet for any class or club activities. During this year he has been

helpful to both the Warwhoop and Chieftain staffs.

But Dick's real interests turn toward sports — and his favorite sport is football. He has lettered in football for the past 3 years and is now a member of the "H" Club. Basketball and track won his attentions in '42 and he was active in tennis in '44 and '45.

Other than fishing, singing is this red-head's hobby. He was in the boys quartet of '44. And he spends a lot of his time crooning to that favorite girl of his, Sue Ratliff.

Dick's plans for the future are to attend N.T.A.C. at Arlington, Texas, where he will study to become a petroleum engineer. He is the son of Mr. and Mrs. R. W. Rischofshausen of Haskell.

He has been active in sports all his

years through high school. He was president of his class last year and president of the student council this year. He is also president of the "H" club.

Abilene Girl Is Bride of Lt. Marvin Gholson

Sibyl Glass, instructor in the speech department at Hardin-Simmons university, and Lt. Marvin Gholson of Haskell were married Thursday night in the home of the bride's mother, Mrs. S. C. Glass, in Abilene, Dr. Milford A. Jenkins, pastor of the First Baptist church, officiated at the double-ring ceremony.

The bride, given in marriage by her brother, Alex Glass of Fort Worth, wore a light gray Charles Kupersmith suit with a corsage of sweetheart roses. Her blouse was rose net and her hat was of rose petals with a veil. She was unattended.

Vows were exchanged before the fireplace in the living room. Standards and white stock and snapdragons and white candles in wrought iron holders amidst ferns provided the setting for the ceremony.

Traditional wedding music was played by E. Edwin Young, dean of the HSU school of music, and Herbert M. Preston, professor of violin. Among the numbers played before the ceremony were Liebstraum (Mendelssohn), Love Thee (Grieg), The Swan (Saint Saens) and the Sontata No. 4 (Haendel).

At the reception, the buffet table was decorated with a tiered white cake and centered with a cluster of white sweet-peas and white snapdragons.

Claudine Olsen and Mrs. W. A. Stephenson served punch. The bride's sister, Nell Jean Glass cut the cake. Assisting with the reception were Inez Darden, Frances Hunter, Velma Walker, Evelyn McKenzie, Etta Jane Stephenson and the bride's other sister, Tommy Sue Glass.

Dean W. A. Stephenson of H-SU, the bride's cousin, and Pfc. Buford Gholson, the bridegroom's brother, lighted the tapers.

Lieutenant and Mrs. Gholson were classmates in Hardin-Simmons, graduating in 1936. While in Hardin-Simmons she was a member of Alpha Psi Omega, dramatic organization; Pi Kappa Delta, oratory and debate society. Delta Kappa Phi, scholarship fraternity. She did graduate work at Colorado State college, Greeley, where she received her master's degree in 1942. She taught in the Abilene city schools before joining the Hardin-Simmons faculty last fall.

Lieutenant Gholson, veteran of two and a half years foreign duty, is the son of Mr. and Mrs. J. W. Gholson of Haskell. After his graduation in business administration from H-SU he did graduate work at Southern Methodist university. He was employed as a cost accountant with the Atlantic Refining company at Dallas when he entered service March 4, 1941.

After receiving his commission from the Quartermaster Officer Candidate school at Camp Lee, Va., in July 1942, he was attached to the air service command and sent to England. He took part in the initial landings during the North African invasion and was on duty in that area for 17 months. His unit was then moved to India where he was stationed in Assam until his recent return to the United States.

Following the reception the newly-weds left for Santa Monica, Calif., where he will report Feb. 8 for new assignment.

Early American Craft Theme of Club Meeting

On February 2 the Magazine club had an unusual program on "Early American Craft." Mrs. E. M. Frierson was the director.

The History of Glass Making was discussed by Mrs. W. E. Woodson. Mrs. Wallace Cox told of the history and romance of Early Day Silver Smiths of the United States. The development of Pottery and Ceramics was given by Mrs. O. W. Maloy. Mrs. Earl Atchison gave a discussion on the weaving and designing of Coverlets and Spreads.

The club rooms were artistically arranged with many objects of art both new and antique, which proved to be of great interest and beauty because they so aptly illustrated the subjects discussed on the program. Many of these articles belong to citizens of Haskell and it was most gracious of the owners to loan them for the display.

BACK THE BOY SCOUTS

The work of the Boy Scouts is one of the most important activities carried on for the youth of America.

To help this generation of boys grow into healthy manhood, it is necessary that they have proper training to strengthen their bodies and enrich their minds. A respect for law and order, a spirit of unselfish service to others, are a part of good citizenship.

Self-reliance and resourcefulness are as essential in time of peace as in war. Here in America we shall continue to need men trained to appreciate our heritage and to put into practice in their home communities all that we think of when we use the word democracy.

The Boy Scouts of America are observing their thirty-fifth anniversary. The training they give to the youth of America is one of the finest ways we know of to assure the perpetuation of good citizenship and American

ideals. The Scout membership is now 1,800,000. We wish that every boy in America who wants to be a Scout has an opportunity to be one. They could be, if men of character and institutions and groups interested in youth would get behind the movement.

LOAFERS AND HOARDERS

The Mead Committee has made public glaring examples of loafing on the job and labor hoarding.

Stories of a similar nature from unofficial sources have long been common knowledge. Private citizens can recount from their own experience, disgraceful examples of deliberate loafing on war jobs. Many conscientious workers have quit war jobs because they could not stand the waste of time they were required to endure.

The answer to criticism of labor loafing and labor hoarding is always, "We have produced the goods." That may be true, but at

what a price! How much more could have been produced otherwise! We have now reached the point where both money and man-hours are growing scarcer. Let us hope that if the Mead Committee is not able to penalize or punish labor loafers or labor hoarders, that revelations which it can make will arouse the nation and shame the offenders into a correction of their ways.

OUTDOING ALADDIN

The most common things in life are often the most essential, although few people realize it. The war has brought this fact out in bold relief and proved that our everyday necessities are more valuable than gold.

For instance, a sack of flour, a ham, a quarter of beef or a ton of coal, have a value far beyond gold—they will sustain life, gold will not.

Bituminous coal, for example, means power and heat—primary necessities in sustaining life. Coal has become such a dramatic part of our nation's welfare that a motion picture has been cast of it, titled: "Power Unlimited."

The wizards of modern chemistry have created more magic from a lump of coal than Aladdin ever dreamed of. Coal dust has been turned into diaphanous gowns. Soot has been transformed into a major ingredient of the most delicate perfume. Drugs, cosmetics, dyes and countless daily necessities now stem from the lowly lump of bituminous coal.

No greater testimonial can be offered as to the genius and initiative of American enterprise, than the metamorphosis it has worked in the production and use of coal.

Tom Hughes has returned to his home at Grand Prairie.

E. Bivins, pioneer farmer of Haskell county, died recently after a long illness. He moved here from McLennan county more than 25 years ago and purchased a farm on Lake Creek, one of the first farmers to settle in that part of the county.

Whit Williams has 100 loads of feed put up, but says he does not want to sell it. He also has about two cars of maize for which he was offered \$8 per ton. He brought to town this week 172 bushels of wheat and sold it for \$1.21 and \$1.22 per bushel.

A bill has been introduced in the Senate at Austin to raise the pay of County Commissioners to \$5.00 per day.

Every family having available grounds should plant and cultivate for home use an orchard of peaches, plums, apricots, blackberries and grapes, all of which have been proven to thrive here when properly cultivated.

T. W. Coker, who lives in the northeast part of the county, had the misfortune of getting his left leg broken when his horse fell on him while driving some cattle to water last Tuesday morning.

Dr. Taylor of Paint Creek recently sold Messrs. Tandy and Hudson seventy head of fine beef steers. T. E. Ballard also sold to the same parties fifty head of steers.

Mr. Fox of Haskell and J. E. Davis of Willow Point finished building the bridge over Timber branch on the Haskell and Anson road last week.

Because of the heavy snowfall last week, school was suspended for the entire week at Paint Creek and several other rural schools in the county.

L. B. and John Agnew and Riley Stephens returned yesterday from an attempted camp hunt in the northwest part of Stonewall county. The big snow struck just as they had set up camp and knocked out their hunt and made it a pretty rough trip for them.

On account of the weather, work has been suspended for two weeks on the buildings being erected by Messrs. Draper & Baldwin and Keister & Hazelwood.

F. G. Alexander left Wednesday morning for Chicago where he will buy a big stock of goods for his store here.

Improved Uniform International SUNDAY SCHOOL LESSON

JESUS AND THE TWELVE

LESSON TEXT—Matthew 10:1, 5-8; 11:1, 25-30.
GOLDEN TEXT—Ye are my friends, if ye do whatsoever I command you.—John 15:14.

Service for Christ has not always been as impressive and effective as it should be because it has lacked conviction and spiritual power. God did not intend it to be the weak and faltering thing that it often is, because of our failure to go God's way. The sending out of the twelve had special significance, and yet it brings forth principles which have a bearing on the service of every believer in Christ.

The Servants of Christ— I. Have a Divine Commission (10:1, 5-8).

The twelve disciples had already been called into the Lord's service. Now they were to be prepared for the service which was ahead. It was a time of commissioning and empowerment for service.

God calls men today to serve Him. In fact, there is a very real sense in which every Christian is called to serve. Let no one try to excuse himself from that responsibility and privilege.

To some comes a special call to leave their accustomed daily work and launch out into a broader service for Christ. When that time comes, we may go forth with the assurance that the power of a divine Saviour goes with us. The twelve disciples had some special powers which we do not have and do not need. God suits the power to the need, and that means that in every circumstance we may look to Him with assurance, and go on.

One of our difficulties in dealing with such matters as spiritual power is that we interpret the things of the realm of the spirit by physical standards and measurements. We are so quick to say "I cannot" on the basis of our logical human reasoning, when an appreciation of the power of God which is operative on our behalf would make us say with confidence, "I can." But, sadly enough, having left God out of our reckoning, we find that it is indeed true that we cannot.

Serving Christ means doing so in His power, and with His grace upon us. Nothing less will do! Nothing more is needed!

II. Declare a Divine Revelation (11:1, 25-27).

The messenger's responsibility and importance are largely determined by the nature of the message he has to convey. Particularly is that true where the message must pass through his personality and thus be proclaimed. The nations of the earth choose their most able men to be their ambassadors and grant them full power.

The glorious thing about being a messenger for God is that we carry no ordinary communication. What we have to present is far above the most important message any earthly ambassador could possibly have to carry.

We, the children and servants of God through Jesus Christ, have something direct from the throne of God. He has revealed it (v. 25), and it seemed good in His sight to give it to those who had the childlike faith to believe Him.

God's revelation is hidden from those who are wise in their own conceits, who are too proud to come by way of humility and faith. Thank God, some of the wise and mighty of this world have been willing to become as little children and learn at the feet of Jesus.

The encouraging thing about it is that the door is open to the simplest believer to trust God, to take

LUNCH ROOM OPENED

We are all enjoying eating the hot lunches served in our lunch room now. The room opened officially Monday, Jan. 29, and fed only the grammar school, then on Tuesday the High School started. We look forward each day now to eating time.

A hot water heater and another butane cook stove have been installed and Mrs. Vernay Howard has been hired as an extra helper.

The revelation of God's truth in His Word, and give it out with grace and power.

III. Extend a Divine Invitation (11:28-30).

"Come"—what a blessed word for the needy and sinful! They are not to be shut out by their sin, nor to be hindered by their weakness. The door is open, and the invitation is to come. Why not respond?

To whom are they to come? To Jesus. There are times when men can help us, when friends or church officers or the pastor can give us an uplifting word of counsel and encouragement. But for salvation, for a real lifting of the burden from the shoulders of those "that labor and are heavy laden," there is no one like Jesus.

We are privileged to invite people to Jesus, knowing that if they "learn" of Him (v. 29), they will not only have their loads lifted and find rest, but will enter into a blessed yoke, fellowship with Him in life and service.

His is a wholesome or a kindly yoke. That is the meaning of "easy" in verse 30. It is not always easy to serve Christ, but being yoked with Him in a kindly fellowship of service makes the burden light. The world is full of tired and discouraged people. We who know Christ have the adequate answer to their needs. Shall we not go in His name to present the truth to them and invite them to come to Christ?

MID-TERM TESTS

Last week we had mid-term exams on Wednesday and Thursday and then on Friday we had a holiday except the teachers, who had plenty of grading to do. Some of our grades don't look so bad, but we are hoping it do better this semester.

BALL GAMES

On Jan. 30, Woodson came to Paint Creek only to get beat 27-26. The game was exciting to the end. Both teams played a real game.

On Feb. 1, Rochester came over to beat us a couple of games. The juniors lost by one point 10-11 and the seniors lost 17-40. The games were interesting and we hope to play them again.

Then on Feb. 2, the Paint Creek girls and boys journeyed to Lueders. The boys entered the tournament and played Lueders only to get beat 41-20. The girls played their first game of the season and although they lost also 58-24, the game was a good one. Helen Baker made 21 of the 24 points. The forwards were: Helen Baker, Doris Nell Darden, Marjorie Coleman, Betty Jean Blackwell and Ouida Hammit. The guards were: Johnnie Raye Davis, Billie Raughton, Geraldine Pierce and Ruby Mae Dean.

MRS. FOOTE BACK

We're all glad to see Mrs. Foote back on the job even though she is walking on crutches. We hope it won't be long until she will be as good as ever.

MEET THE SENIORS

(BETTY JO TOLIVER)—Betty Jo is the tall, dark haired Senior girl who is very quiet in disposition. She is friendly though, and has a smile for all. She seems to have a habit of writing V-Mail letters. Could her brother be getting all of them?

Betty Jo deserted us last year and did her junior year in Rule; but came back to finish with us and we are glad that she did.

She was an active member of the pep squad and contributed her part of the yell.

She is the oldest daughter of Mr. and Mrs. D. O. Toliver.

WHAT WE SEE FROM THE BALCONY

Tick keeping score and Othella calling the games.

Coach playing with his hat.

Raymond doing some good guarding since his foot got well.

Wilda being a regular member of the squad and a good one too.

Gene helping Coach to keep the bench warm.

Ruby Mae, Mary Lu and sometimes Frances cheering from the side line.

It took a week of Father's wages

But it wasn't so extravagant as it seemed. Hats were bigger then—and also fewer. Mother's hand-made mauve velour was good for several seasons.

Today, Mother's hat bills may total as much or more than the price of that quaint old velour. But she gets many more hats for her money.

It's much the same with electric bills. If yours seem about the same as they did years ago, it's because you are enjoying so many more electric conveniences now. And you're getting far more electricity for your money than you ever did before—about twice as much today as you did 15 years ago.

Not only has the price of electricity come down steadily through the years, but it has stayed down while war sent other costs climbing.

Hard work and good business management by your friends in this company will continue to make electricity dependable, cheap—one of the big bargains of all time.

PITMAN MOTOR CO.
appointed new
DODGE-PLYMOUTH DEALER
in Haskell

IT IS with deep personal pride and a recognition of my responsibilities to owners that I announce my appointment as new Dodge-Plymouth dealer in Haskell.

In this new affiliation I am realizing a long-standing ambition, developed during my residence in Haskell since 1909.

Since my 16 months' service in the U. S. Navy in World War I, my years of experience in parts and service activities, in dealer management and my recent operation of an independent garage, have qualified me especially to guide motorists in upkeep of their vehicles.

It will be my foremost duty to help everyone now owning Dodge and Plymouth Cars and Dodge Job-Rated Trucks to keep their transportation rolling in trouble-free, economical operation while the nation is at war.

All my life experience has taught me the importance of servicing the product a dealer sells. With this object in view, I will maintain a complete stock of factory-

engineered and inspected parts, and factory-approved tools and new equipment.

Drive In Soon . . . Meet Our Staff

Come in and visit our shop at your first opportunity. I speak for my staff and for myself when I say we'd like to meet you personally. It will be my No. 1 job to see that Dodge and Plymouth Cars and Dodge Job-Rated Trucks are properly serviced when brought to the Pitman Motor Co.

WE ARE PROUD TO DISPLAY THIS FAMOUS SIGN OVER OUR NEW SERVICE ENTRANCE
