George Littleton of the War Finance division of the treasury department has written the Free Press the following thanks from the treasury department to the merchants of Haskell.

"Please express the appreciation of the treasury to your local business organizations who have cooperated so unselfishly with the war bond program to help push the sales of bonds."

"We again ask your help and that you back up the boys at the front by helping put the sixth war loan drive over the top. The Nation needs your help more in the coming drive than ever before."

Chaplain and Captured Nazi

Henshaw Wipes Out Machine Gun Nest

With The Third Infantry Division of Seventh Army in France—Technical Sergeant Otis H. Henshaw of Haskell, equipped with a carbine, recently bucked a Nazi machine gun. The odds ran about 60-1 with Henshaw on the short end.

The battalion had been in the attack for over an hour when enemy fire halted the unit of the 3rd Division of which Sergeant Henshaw was a member. Hellish crossfire prevented any further advance.

However, Sergeant Henshaw gambled on a longshot and rushed ahead 70 yards to the gun which was causing the most trouble. Some 15 yards from the gun emplacement he tossed in a concussion grenade and then started pumping away as fast as he could with his carbine. A magazine of 15 rounds of ammunition was sufficient to put the Nazi gun out of commission.

Returning to his platoon, Sergeant Henshaw reorganized them and the rest of the Kraut opposition fell before their onslaught.

Haskell Defeats Luaders By Score 13 to 6

Again Haskell has overcome a first half lead to win a ball game. This is the third game this year that this has happened.

Luaders won the toss and elected to receive. They showed a fine power team sparked by Onion Brown. They made three first downs and finally charged over for a touchdown. The try at conversion was blocked. The game was even during the rest of that half with the score 6-0 for Luaders.

In the third quarter there was stubborn fighting, but neither team was able to score. Then in the fourth quarter Kenneth Toolce, a substitute end for the Indians completed a pass and raced the remaining twelve yards for a touchdown. The try to run the extra point was stopped short.

When Luaders received the ball they couldn't break the Indian defense. The ball went over on downs. In the next play "Dodgin' Dobber" scored a touchdown on a spread right end run. Tommy Harrell drop-kicked the extra point. Again Luaders was stopped short. They kicked out on their own twenty-five yard line on a fourth down. Again the Indians started for the goal. They were stopped however by penalties and failed to tally before the end of the game. It ended 13-6 for the Indians.

Praising the officers and enlisted men of Co. A, Texas State Guard, for the excellent progress made since the local unit was organized six months ago, Lt. Col. Ballard, U. S. Army, Eighth Service Command, declared at the close of his official inspection of the Company Tuesday night, that "the Haskell unit is one of the best units I have inspected in recent months."

With an overall quota of \$420,000 and an E series bond quota of \$165,000 Haskell County sixth war loan drive committeemen are all set for the start of a strenuous campaign beginning Monday to raise the quota assigned to the county in the shortest possible time.

R. C. Couch who will head the drive in the county, said: "Haskell County, on this date, has the greatest bank deposits of any year since the county was organized. These bond sales should be made with the same ease and pleasure that the neighbors exercise when they meet to plough the field of an unfortunate neighbor. For the home front our next point of attack is the sixth war loan drive."

The sixth war loan drive starts Monday and each town and community in the county has been assigned a quota of bond sales, as follows:

PRECINCT 4	\$ 12,000
O'BRIEN	29,400
HASKELL	122,000
NEGRO COMMUNITY	1,000
ROCHESTER	63,000

MATTSON	12,600
IRBY	4,200
PRECINCT 3	16,800
PRECINCT 1	14,700
ROCKDALE	4,200

With an open pocketbook and a heart full of gratitude Haskell County residents should meet the beginning of the war loan drive.

Dates for the drive are November 20 extending into December, with a nationwide quota of fourteen million dollars.

Because of the labor shortage and the fact that the bond drive comes at the busiest time of the year war bond committeemen have urged residents to buy their bonds NOW so that the campaign will be over in the shortest possible time.

Couch has appointed the following members of the war bond drive committee over Haskell County:

A meeting of all committeemen for the sixth war loan drive will be held Saturday at 3 p. m. in the district courtroom in Haskell. All commit-

teemen have been mailed notices of the meeting by Miss Verna Lee Matthews, secretary of the Haskell Chamber of Commerce.

Couch hopes that all committeemen from each community in the county will attend the meeting so that full details of the drive can be completed at this meeting.

Couch reminded committeemen that "we have not called on you until we had to do so, hoping that you are making every effort to clear the way so that you can give this drive your full weight to insure the prompt raising of your quota."

Mrs. J. U. Fields is chairman of the Women's division of the county bond drive.

These Didn't Wait for a Bond Auction to Go Into Action!

Haskell County quota is \$420,000.00. E Bond quota is \$165,000.00. The least amount we have ever had, except one.

Haskell County, on this date, has the greatest deposits of any year since the County was organized.

These bond sales should be made with the same ease and pleasure that the neighbors exercise when they meet to plough the field of an unfortunate neighbor. We have the financial ability to do just that. Do we have the patriotism?

For the home front, our next point of attack, is the SIXTH WAR LOAN. We should meet it with confidence and honesty. It requires an unselfish effort and real bravery in some cases. Cowardice never won a battle.

The willing, responsive generous citizen is always appreciated. The opposite never is. You should be willing to do your part, and more.

Render every possible aid to your Committee. You are obligated.

Meeting of the full County Committee is urged for Saturday the 18th at 3 P. M. in the County Courthouse.

War Finance Committee of Haskell County.

Gift Packs For Men At Sea

Make Christmas less dreary for men aboard ships at the season when it is hardest to be headed away from home is the plea of the Red Cross camp and hospital committee for Haskell county, by seeing that they receive gifts.

Mrs. Carl Power, chairman of the county camp and hospital service, has been assigned a quota of 100 gift kits for these men at sea and asks that Haskell residents donate the necessary items to fill the packages, such as paper

backed novels, pads and pencils, handkerchiefs, cigarettes, soap, camphor ice. The items should be left at the chamber of commerce office between now and December 1 and they will be gift wrapped and sent to some boy at sea.

This is the first time that packages have been prepared for men at sea through the facilities of the Red Cross and Mrs. Power would like to see that Haskell County exceeds its quota.

Once there was a man named Bill

Bill was with the first Marines who went to the Pacific. For three years he fought Japs.

Then at Saipan, Bill had a quick decision to make.

He saw a job he thought should be done. He couldn't be sure it would help. He couldn't be sure he'd come back if he tried it. But it seemed worth trying.

He went ahead with the job. And it did help. And he didn't come back.

Perhaps there's a lesson in this story for some of us at home.

Bill had already done quite a bit for his country. But when the time came, he didn't stop to think about that. He didn't look around for someone else to take the risk for a change. He knew his work wasn't finished.

The same thing is true about buying War Bonds. Don't waste time wondering whether or not you've done your share.

As long as there are men like Bill still fighting—your job isn't finished yet—your job is to back them up. So keep on buying War Bonds.

SIXTH WAR LOAN DRIVE

The sixth war loan drive will be launched November 30. Fourteen billion dollars is the total quota, with five billion to be raised from individuals.

With the accumulated successes of our military operations, some people seem to have become complacent, feeling that a relaxation in our financing operations would not prove harmful.

This is a most dangerous attitude as the sale of war bonds is more important now than ever before. The boys haven't quit fighting, why should you?

And besides while they are giving, you are just leading—and drawing interest.

BUYING FARMS

The U. S. Department of Agriculture, alarmed over rising land prices, has denied reports that the department plans a "Don't-Buy-A-Farm-Campaign" but does admit that it is wheeling out the publicity guns to discourage inflation and uninformed land buying.

Designed for wide circulation pamphlets have been issued from three different governmental agencies telling the same story: make a careful choice; pay only what the land is worth on the basis of long-time earnings; and keep debts in line with payment capacity in poor years.

All of which are excellent ideas in buying land—or other real or personal property.

CHURCHES AND GARAGES

"There is perhaps too much denominationalism in religion," a visiting minister stated Saturday in Haskell.

"Garages and churches are alike, all of them offer protection," he added.

He has there the nucleus for an excellent sermon. In fact, the two statements that he made were far better than some lengthy sermons we have heard.

"PILL-ROLLERS"

While pharmacy week has passed it is not too late to tell your pharmacist how much you appreciate his efforts.

Like the doctor, his ministrations are sought when physical ails are present, and he is always more than willing to do his bit. He is the right-hand assistant to overworked doctors, assisting them in seeing that the doctor's prescription is accurately compounded.

Few people realize the many calls made on the pharmacist for help, at all hours of the day and night.

Haskell is fortunate in having four modern drug stores, where gradu te pharmacists are on the job to see that you get correct service.

Deadline On Canning Sugar Set

Deadline for the issuance of canning sugar has been set for November 23 by the OPA and persons who will need canning sugar are asked by the local ration board to apply not later than November 20.

The Haskell County board members said those who have already received 20 pounds will not be eligible for any more sugar, and that sugar coupons and sugar stamp 40 in ration book four remains valid until February 28, 1945.

Mr. Dock Morgan, the popular liveryman, has gone to Weatherford.

Mr. Sherrod's team ran away with him the other day and he was considerably bruised.

Mrs. John L. Robertson left on Wednesday to visit relatives in eastern Arkansas and Tennessee.

Oscar E. Oates, bond as county judge was approved, as were bonds of the following other county officials: C. D. Long, district clerk; J. W. Collins, sheriff; R. D. C. Stephens, county treasurer; S. E. Carothers, tax assessor; H. M. Rike, surveyor; W. S. Potts, commissioner precinct 1; W. F. Watts, precinct 4 commissioner; J. T. Knowles, justice of the peace; R. E. DeBard, constable; W. T. Jones, public weigher; H. C. Cousins, commissioner precinct 2; bonds of S. J. Shy, commissioner precinct 3, had not been filed.

Deep in the Heart of Taxes

You've heard the song "Deep in the Heart of Texas." Most people today are deep in the heart of taxes. A bad pun to make a good point. Last year America's tax-paying electric light and power companies footed a tax bill of more than seven hundred million dollars. One-fourth of the electric dollar goes for taxes of one kind or another.

Still, taxes are necessary in modern war, and seven hundred million dollars or any fraction thereof will buy a lot of planes and guns, medical supplies, tanks and ammunition.

The business-managed companies which pay the taxes are glad to contribute to this fight for freedom. But a lot of people say: How can the electric companies pay these increased taxes and other wartime costs and still keep the price of our household electricity so low? For the truth is, if you're the average user of home electricity, you're getting about twice as much electricity for your money as you were getting, say, fifteen years ago. To do this takes the utmost operating efficiency and economy, and constant engineering research under sound business-management. You can be sure that experienced business management will keep your electric service dependable and low-priced.

Weeds were cut and raked, all mesquite sprouts cut and stacked and all rocks, bricks and loose trash piled for moving.

On Wednesday a trailer tractor pulled and manned by the F. A. boys were out early moving all weeds and trash off the grounds to be burned.
