Haskell Bounces Monday

Up their bid for the district 11-A, the Haskell took an easy win in the Monday Muggles 25-0 in the field Friday night. The largest crowd of fans to the grid contest this season, led by Dobber Dodson, Ingerback, and Welch, eluded fullback, the entire team lined up in championship reel off ground-gaining every quarter of the game kept the visitors in the red from the start. Monday's kick-off on the 50-yard line, and Welch alternated as

Richard O. Fagan Writes Of High Prices In Italy

Sgt. Richard O. Fagan, who was with the first troops that invaded Africa, has written his mother Mrs. R. O. Fagan, Haskell, of some of his experiences in Italy, where he is now stationed. Excerpts from his letter: "I guess Jessie was glad to get his wings. I am glad he did too. Would like to see him but don't want to see him over here. I still haven't seen anyone over here from home. I met a boy from Stamford last week but I did not know him as he had moved there about the time I left. But we both knew the same people and he seems like someone from home." "Mom, I want you to stop writing V-mail letters and write regular air mail letters as I get them just as quick and you can write a lot more. In V-mail there is just about three lines and then it's all over." "Everything is so high over here and there is nothing here that is very good. Things that would cost \$1 in the states cost \$20 over here. There is a lot of junk but very few presents that are any good."

Ban Lifted On Service In Cafes

In a move designed to further the spirit of the "good neighbor" policy and at the same time assist the farmers of the county in obtaining itinerant cotton pickers, Haskell cafes have all agreed to serve Latin-Americans, many of whom are citizens of the United States. It was pointed out by a chamber of commerce committee and cafe owners that farmers of the county have been losing helpers because of refusal of some to serve itinerant laborers and since the cotton season is now opening and labor is seriously needed, the new policy has been decided upon in an effort to assist the farmer. The chamber of commerce directors and a committee discussed the problems in a meeting Monday morning and with the cafe owners decided upon the new policy. Both the committee and the cafe owners ask citizens of Haskell County not to become offended if they find a cafe crowded with itinerant laborers but to consider it their patriotic duty to help the farmers and the war effort in this manner. The conditions will not last long, just until the cotton crop is gathered, which it could not be were it not for the new policy. Upon recommendations of numerous farmers and ginners who have been losing pickers because of the policy which has been discarded the chamber of commerce passed a resolution asking citizens to be considerate of the cafes, and not to become offended at any cafe owner, who has voluntarily agreed to help in the labor crisis by relaxing his rules.

Haskell Countians are paying their taxes in large numbers in the last few days, with \$13,663.99 collected in the first five days of tax paying time according to R. J. Paxton, assessor-collector. First person to pay their poll tax in the county was Mrs. Arthur Edwards, Haskell, who listed her occupation as housewife. Others who paid poll taxes, in the order named were: E. J. Hunt, Rule, painter; Mrs. Tisher McAdoo, Rule merchant; Mrs. Lela Cox, Haskell housewife. Payment of taxes during the opening day for payments amounted to \$1,016.32. Payments on succeeding days were: \$2,200.34; \$3,693.55; \$3,785.49 and \$2,968.29. Paxton said it was impossible to tell who was the first to pay taxes as several payments were received by mail prior to the opening date for payments. Those who pay their taxes this month are allowed a three percent discount; those paying next month get a two percent discount and those paying in December receive a one percent discount.

HASKELL NEARS WAR CHEST QUOTA

Haskell Federated Clubs, one of 48 fighter planes in the Nation named for federated clubs of towns. The plane was named because of the sale of \$175,000 worth of bonds by and to members of the Federated Clubs in Haskell.

Several communities in Haskell County have already reported they have exceeded their quota in giving to the war chest fund and Haskell had passed the \$2,700 mark Thursday on a quota of \$3,000. The drive started Tuesday at 8 a. m. and the first \$1,000 was reported one and one-half hours later, according to J. M. Crawford, drive chairman. Crawford said that a number of community leaders had reported their quotas obtained and he felt certain others had also gone over the top in their drive. At noon Wednesday the \$2,500 mark had been reached and some communities in Haskell have not turned in complete reports. Total quota for the county is approximately \$9,000. The following are preliminary reports of drive results: Haskell \$2,734.46 Precinct 3 236.00 Mattson 71.00 Precinct 1 204.00 Rockdale 20.00 Precinct 4 50.00 Non-residents 67.00 Crawford said that the precinct 3 report, which is from Paint Creek, was an early one and that the community had reached its quota on Thursday.

Haskell Boy Sees 3 Invasions In 5 Days

After 15 months service in the Pacific, during which he participated in three landings in five days, Winton Palmer is now in Haskell on leave visiting his mother, Mrs. Iva Palmer. Palmer is a pharmacist mate third class and was a company aid man, going in with Marines in the front waves of landing parties and attending to the wounded in the front lines. During the attack on one islet Palmer was going after two wounded men during a vicious battle and had carried them back to safety for treatment when a Jap sniper shot him in the neck. "I wasn't much good during the rest of that battle." He was later awarded the Purple Heart. These invasions he participated in during the five-day period were in the Marshall Islands, one of which, Engebi, he captured in the record time of six hours and five minutes and thus secured a fine airfield. "The Japs had 30 pillboxes on the island, or did have" he said, along with five or six dual purpose artillery pieces. "The Marines," he said, "did a bang up good job in capturing those islands." Captures Fear Capturing the pillboxes was a hard job, but not without some compensation, such as the one they were pouring rifle fire into (Continued on Page Eight)

Grandson Haskell People Kills 30 Japs In 10 Minutes

Harold L. Christian, grandson of Mr. and Mrs. John McGuire of Haskell, piled up 30 dead Japs in a 10 minute period on Peleliu Island in the Pacific, according to press releases received here. Christian killed the Japs with his automatic rifle during a dawn attack and more than a third of the number killed exploded as they died for they had tied around their waists capped demolition charges which were set off by Christian's bullets. He had set his rifle sights between two rocks and everytime a Jap would pass between them I would crack down. Christian's mother is the former Jewel McGuire, daughter of Mr. and Mrs. McGuire. The McGuires have two more grandsons in service, Edward J. Christian who is in the Navy and Weldon E. Hill who is in the Air Corps. A son-in-law, Roy E. "In other words," said he, "the pupils that are capable of doing more work will be given more work to do and will be advanced faster in their grades, while those who require more time will be given classwork in accordance with their needs." One new member, J. Cleo Scott, was admitted to the club as a cub. The program was arranged by John A. Couch and Kenneth Copeland. Next week's program will be in charge of Courtney Hunt and W. O. A handful of Yanks with T. Sgt. Otis Henshaw of Haskell as one of the leaders, and aided by the bluff of Pfc. Carl Staundecker of New Jersey, have captured 120 Germans in one group in France. The group with Henshaw as one leader, attacked a German held house when a Jerry machine gun opened up and knocked out the gun and some 50 Germans romped out from nearby bushes, apparently anxious to escape the hail of fire. Pfc. Staundecker then yelled, "come out or you'll all be killed as you are outnumbered." Then outwalked more than three times the number of men surrounding the house, with the six officers who were also inside.

Rule Schools Close For Cotton Picking

Rule schools have closed, possibly for three weeks, to permit school pupils to assist in gathering an excellent cotton crop. Sufficient labor in the community to gather the crop necessitated the closing. The schools were to have closed last week but rains completely halted cotton picking and school work continued until this week. J. B. Lawson is superintendent and Fred Neasper is principal. With this week's closing of the schools the cotton is now ready for picking again and it is estimated that two or three weeks' work the pupils will enable the growers to catch up with their harvest.

Rochester school work is "moving smoother than in several years," Superintendent S. H. Vaughter told Mrs. Iva Palmer, county superintendent, Monday. NOTES ON AGRICULTURE

Feed Fighters

"Let's feed our food to fighters instead of fires," Carlton A. Williams, FSA supervisor urged Tuesday in connection with national fire prevention week. Williams pointed out that farm fires are costing the nation more than 100 million dollars a year. See Tech Experiments

A group of Haskell men went to Lubbock Tuesday and visited lamb and steer feeding experiments.

One of the experiments carried on by Tech is that of field harvesting of grain by lambs. In the Tech trial 16 lambs were being run to each acre but the number depends on the yield of the crop

and one lamb should be allowed 135 pounds of grain.

After the lambs graze the feed they are given added rations of three-fourths of a pound of alfalfa hay and one-half pound of cottonseed cake daily. Those so fed showed an average gain of nearly one-half pound per day.

The steers were grazed on stalk feeds in the winter, then switched to native pasture, later to sudan and then to grain for about 90 days. When fat they are sent to market and the experiment over four years showed profits above all feeding costs ranging from \$2.11 to \$37.

Bale To The Acre

Crops all over Mitchell community are very good.

Of Haskell have invested \$5,000 in our \$200,000 school system, an investment that will pay dividends for years to come.

Others are Needed

TO INVEST AN ADDITIONAL \$15,000 IN THE SCHOOLS BECAUSE:

DISASTROUS FIRES

1. Because of disastrous fires which have occurred in the past and the loss has been greater than anticipated, thus creating an unpaid balance.

LOSS OF STATE FUNDS

2. Changes made in the rural school laws by the legislature kept the Haskell schools from receiving state aid the last two years, thereby adding to the financial strain.

THE FUTURE . . .

makes a demand that approximately \$20,000 be raised by public subscription of future-minded citizens.

The situation will also be aided by a change made in rural aid status whereby Haskell will now receive some additional funds.

Under all of these conditions a meeting of interested citizens have decided that the logical thing is to raise the \$20,000 among our citizens.

Therefore . . .

WHAT LANGUAGE IS THAT?

Shoo-fly Clumb some Gandidancer How eye Snoble goble

Prof. Tsk is a philologist. Words are his meat: Chinese, Sanskrit or Aztec. He can even understand his freshman daughter and soldier son!

But the talk he's hearing now has him baffled.

You, too? ... Well, it's simply the everyday speech of the line crews who keep your home and community supplied with electricity—come what may.

A "shoo-fly," for example, is a temporary line built around a tree fall, washout or construction job.

These men don't coin curious words just for the fun of it. They use them, as a kind of oral shorthand—to speed their work and help bring you better electric service.

Lots of folks take the linemen's work for granted. But they are an essential part of the industry which—under experienced business management—has met every war demand for electricity—without shortage or rationing—at low prewar prices.

That's an accomplishment in any man's language.

"A 'clumbome' is an apprentice linemen. A 'gandidancer' is a laborer. A 'how eye' is a dead-end tye. 'Snoble goble' is anything you can't remember by its name.

One Bushel Basket

One bushel basket of "news" releases from various government and state agencies and other organizations seeking publicity were received and filed—in the trash barrel—by the Free Press in one day's mail.

Among items that required much paper to be discussed were: "fires often run thousands of miles with nails or tacks causing slow leaks"; another discussed the fact that next to girls soldiers preferred ice cream while still another used page after page of print to relate the proper method of harvesting garlic.

Contributed to this paper, the releases are in turn contributed to the scrap paper drive, about the only way in which most of them can be used.

Postoffice Carpets

A soft carpet covered the postoffice floor the

other day, a carpet of crushed cardboard, which had apparently been mailed to all boxholders. On each was printed the advertisement of an out-of-town picture show.

The owner of that show spent numerous dollars on his advertisements, without avail, as most of them went into the postoffice trash box, which soon overflowed onto the floor.

Haskell's own theaters are up-to-date and present excellent shows, which the citizens realize and are not interested in out-of-town shows, at least not interested in their mailed-out "calendars".

Keep Those Bonds

Some bonds have been cashed in Haskell, some of them for sufficient reasons, others because, and only because, they could be cashed in without inconvenience.

The Nation's leaders say it will be necessary to continue the war financing program for a considerable time even after victory in the Pacific. Our boys are not returning home yet and won't be for some time after victory and they must still be financed until their work is finished.

So hold on to that bond — and buy more of them.

Enterprising Merchants

Haskell is fortunate in that the town has a number of up-to-the-minute shops and stores—and some shops that are seldom found in towns of this size—and the two combinations, plus friendly service, are enabling the merchants to ever widen their trade territory.

In fact, Haskell merchants in numerous instances have drawn trade from much larger towns in the area, because those customers found the merchant advice wanted, the courteous treatment appreciated, plus reasonable prices.

Complaints are numerous of larger town's treatment of customers during the war, with the excuse that the war caused it, a lame excuse indeed. Customers will remember their treatment in Haskell and will continue to trade where they were well treated when peace comes.

County AAA Says: Increase Wheat Acreage In 1945

Haskell, Rule Women Weekend In Abilene
Virginia Hutchens of Haskell and Madge Gary and Mrs. Virginia Sel, of Rule spent the weekend in Abilene where they visited Emma Mae Smith.

Mr. and Mrs. Hassen Go To Dallas
Mr. and Mrs. S. Hassen are to leave Sunday for Dallas where they will spend several days shopping for merchandise for their store here.

Farmers of Haskell County should increase their wheat seedings for 1945 harvest above seedings for 1944 to help meet the state wheat goal of 4,600,000 acres according to John W. Brock, county AAA chairman. The 1945 wheat goal for Haskell county is 38,000 acres.
The state goal, established recently by the state USDA War Board and other farm representatives, will contribute to a national 1945 wheat goal of 68.5 million acres, which is slightly above seedings for this year. According to preliminary survey by the Bureau of Agricultural Economics, there were approximately 4,628,000 acres planted in Texas this year.
In view of the improved wheat supply situation, the War Food Administration is advising farmers not to exceed the goals set by the states.
Brock also pointed out the need for balancing production of wheat with other needed crops and for sound land utilization.
The War Food Administration will continue in 1945 to support wheat prices, Brock said. Currently, loans are being made on the 1944 crop which reflect 90 percent of parity. The 1944 Haskell County rate is \$1.35 per bushel.

Hundreds Of Haskell Packages Mailed Overseas

Shorts, shirts, shoes and snuff and hundreds of other items have been mailed in over 1,500 packages sent from Haskell in the last month to soldiers overseas, according to Mrs. Mildred Newton, who has been wrapping packages for those desiring the service at the chamber of commerce office.

Mrs. Newton was told by one customer "You is ain't smart" after she had taken a fruit cake out of a package and rewrapped it so that it could come within the weight limit. "If you'd been smart you would have let me cut off one slice of the cake which would have put it in the weight limit, and you'd have got the piece I cut off."

Deadline Saturday
Deadline for mailing the packages is Saturday and Mrs. Newton and Miss Helen Lowrey, who has addressed the packages, say that during the period in which it has been permissible to mail packages overseas that many people have sent the limit of one

package a week. Most of the packages contained candy, gum, cakes and cookies, but a wide variety of things have been mailed. One package contained five pounds of snuff and went to India. Packages have gone to soldiers and sailors all over the world.

WAC Package
Only one package was wrapped by the chamber of commerce for mailing to a member of the WACS; it contained shoes and other things. One package mailed Wednesday contained a twelve-inch knife. The majority of the packages had to have articles removed from them to come within the weight limits. Only two out of all the packages were addressed to Seattle, according to Miss Lowrey.

One Is Returned
One package was mailed, properly addressed, and arrived back in a few days, because the boy to whom it had been sent arrived home unexpectedly on furlough.

Stationery was another item included in numerous boxes, because those sending the boxes said it had been requested as the boys in some theaters of operation were finding it impossible to buy. Canned chicken, too, was included in most of the packages.

One package was mailed to a prisoner of the Germans, another to an internee.

Son of Haskell People
Awarded Bronze Star

M. Sgt. Kermit R. Howard, 32, son of Mr. and Mrs. John Howard, Route 1, Haskell, has been awarded the Bronze Star medal for "meritorious achievements in connection with military operations against the enemy."

Sgt. Howard is chief of a crew of ground mechanics at a Flying Fortress base in England and had been previously cited by the commanding general of his division for outstanding service.

North Ward P-TA To Conduct Membership Drive Oct. 16 to 21

The North Ward P-TA will conduct a membership drive during the coming week, October 15 through 21, which has been proclaimed as Parent-Teacher membership week by Governor Coke Stevenson.

On October 19 the P-TA will complete 35 years of service. The North Ward P-TA had the largest membership last year in the history of the organization and the membership committee has hopes of securing enough members this year to surpass last year's record number of 184.

Mrs. Alton Middleton, president, will appoint committees to secure new members for the organization during the coming week and pointed out that accomplishments of the organization were well known in Haskell.

Officers in addition to Mrs. Middleton are Mrs. W. E. Woodson, vice president; Mrs. S. Has-

sen, treasurer; Mrs. John Ivy, secretary; Mrs. Carl Power, parliamentarian and Mrs. E. M. Frierson, historian.

CAMP FIRE GIRLS WELCOME VISITOR

The Cahasi Camp Fire Girls are very happy to have our National Leader, Miss Dively with us part of this week.

Miss Dively made a very interesting talk to the girls in assembly Tuesday morning.

We plan to have a Council Fire before Miss Dively leaves.

We will be sorry when she leaves, but we hope she will return soon.

There are a lot of things to learn about living that many do not learn until it is too late.

It's a wise girl who "noes" what she really wants.

Mattson Baptist Sermons Slated

When Right and Wrong Clash at Armeddon will be the subject of pastor Scott W. Hickey at Mattson Sunday morning and at night he will preach on "The Folly of Human Leadership", an illustrated sermon.

At 4:30 p. m. ten candidates secured in the recent revival are to be baptized at the Haskell First Baptist Church.

Face powder is known to have caused explosions — when found on men's lapels.

As a candidate spreads his bunk, so will he lie.

Football

(Continued from Page One)

With the game on ice, the Indians came back with another counter in the second quarter, with Dodson carrying the ball from the fifteen yard line. Failing to convert for extra point, the score stood 18-0 at the half.

In the third frame the Moguls put up their strongest offensive of the game, advancing in their most serious scoring threat of within ten yards of pay dirt, but were held on downs by the Indians.

In the fourth period, the Indians again went on a scoring rampage, with Harrell, Welch and Henshaw sparking the offensive, which wound up with Welch powering his way through the Mogul line for eight yards and the pay zone. Line plunge by Henshaw was good for the extra point to salt the game away 25-0 for the locals.

Sees Invasions

(Continued from Page One)

through the slits, covering one Marine who sneaked up with a charge of dynamite to push in with a stick through one of the slits. The Marine eased his charge of dynamite into the hole and just before dropping it took a hurried glance into the pillbox, to discover no Japs but case after case of beer, a grand prize.

Palmer said he saw only two Jap prisoners during the entire 15 months service "and they were two Jap doctors who had been educated in America."

Capture One Jap
On another occasion they had a pillbox surrounded and the Japs inside "were whimpering and moaning, they had no food or water for five days, we told them to come out and one did, stripped and with his hands over his head." This Jap was turned over to a Marine to guard and he evidently did not like the looks of the Marine for he made a dash for freedom and found death.

Palmer said many of the Marines collected Jap bridge work and some of them had quite a bit of gold. "I saw one Marine who had a string of Jap ears."

Asked about Jap Saké wine he said it seemed to be a mixture between tequila and Russian Vodka.

The Japs on the islands thought they were winning the war, had all of Pearl Harbor and part of California already captured.

Fight To Last
"The Japs," he said, "fought to the last man on the islands and from over there it doesn't look like an early end to the war."

"The flame throwers were one of our best weapons and the Japs feared them, they had a right to."

Palmer entered service in June, 1942, when he was a student at the University of Texas and received his boot training in San Diego. Upon completion of that training he served for six months in the Marine Corps base hospital there before going to the Pacific.

It takes 1500 nuts to hold an automobile together, but one at the wheel can scatter them all over the landscape.

It's a mighty good thing to be able to forget the things you want to remember.

SENIOR SLAUGHTER
From now on in Texas history, Alfred, keep one eye on Mrs. Odell while you are flirting.

What caused Mr. Foster to get out of the old rut Saturday night? Huh, Ruby!

Say! Have you seen that brace that Margaret Scholl is sporting? October 5th, Ex-Senior!

The Senior Class extends their early greetings to Sue Radtiff, welcome to H.H.S.

Advice to fellow students:
Early to bed,
and early to rise;
and your gal goes out
With other guys.

"JUNIOR JAZZ"
"Jazz" is not a frazzle
Not a thread but wool
Altogether, altogether,
That's the way to pull!
Is this still echoing in your ears
from that Hamlin game? No fooling,
boys, it was super, and HHS
is really proud of you.

Com on kiss, let's congregate
For here is all the news of late.

The Junior class is extremely proud of their Student Council representatives this year. They are none other than Lora Jean Scruggs and Rice Alvis.

Have you seen that rock gleaming on our glamour girl's third finger on her left hand? We mean, of course, Maxine Culberth, whose smart goes bumpity bump, whose teeth go knockity knock over the Ivy boy. We hear his love, love, love.

The correct answer to "hat's cooking?" Is Hitler's Goore! !!

WHAT WOULD WE DO IF:
W. J. was an Eve and not Adam.
Bertis was a Black instead of a White.
Tulia was a nut and not an Ammon.
Charles was a speedway and not a Greenway.
Marion was a boulder and not a Stone.
Curly was a cat and not a Bird.
Joan was a fruit and not a Wood.
Louise was married instead of a Spencer.
Mary Dell was a stand-still instead of a Turner.
Lillie Mae was a creek and not a Meadow.
Lora Jean was a tree and not a Scrugg.

What's going on?
A terrible fight, or is it just a "battle?"
It sounds like a bomb going off in the night.
Or the noise of stampeding cattle.
I look about and gaze in wonder,
As I see the room being torn asunder;
Erasers flying, breaking glass;
You think it's war—
It's the English Class! !!

SOPHOMORE SOUP
Wonder who Dorothy was running around looking for Saturday night? You should know Nolan.

Say, Nelle. Why was you beating Joan and Kathryn up with that tablet the other morning at Homemaking? Couldn't be because of a certain note they read?

Wonder why Huey is called "Adolph" and Giles is "Mussolini." Does Dewey have something to do with it.

Hey, Patsy and Maggie! Those grapes sure were good the other morning! "Why don't we do it more often."

It seems as if Edward is a lady's man. Well, come on Edward, who's your lady?

Why was Minnie Lee and Patsy walking around the square so much Wednesday afternoon? Couldn't be because certain Mattson boys suppose to be in town, could it?

Seems as if Kathryn Harrell had to go to town every day to see if a certain car which license is V70-971 is there. We all agree with you Kathryn, Curtis is really cute.
