Program Planned as County-Wide Event Before Gas Rationing Begins

Convention will meet at the First porated town in the county. Baptist Church in this city Sun-day Nov. 28 at 2 o'clock for an Meat program was expained to afternoon program of singing, and the community leaders and plans to singers and music lovers throughout this section to attend and take part in the program.

The singing Sunday afternoon will likely be the last ccouty-wide gathering of singers for the duration of the war because of impend. ing gasoline rationing and other attendance is expected for the

program Sunday,
Plenty of song books will
available for all who attend.

New Service of The F & M Bank

With rationing of gasoline now chants State Bank of this city has announced a new service for their friends and patrons with the setpartment to handle banking transactions by mail.

In announcing this added service for their patrons, A. M. Tur-ner, president of the F & M Bank, explained that facilities of the new department would permit their customers to handle any type of banking transaction by mail, receiving the same careful attention and prompt service as if they called in person at the bank.

Officials of the bank invite their patrons and the farmers and businessmen of this section to investigate the convenience of banking by mail. A request to the bank will bring any information desir-ed concerning the new service, Mr. Turner announced.

Pfc. Walton W. Nanny Writes From South Pacific Base

Mr. and Mrs. John B. Nanny of Haskell recently received a let_ ter from their son, Pfc. Walton W. Nanny who is in the U. S. Army and stationed at an undisclosed base in the South Pacific. It was the first news they had received from their son for some time. Walton has been in the Army about a year, and left San Fran-cisco last May for his overseas post. Mr. and Mrs. Nanny have

Indians and Stamford Bulldogs Meet on Indian Field Thursday

Traditional 'Turkey Day' Game Will Begin at 2:30 O'Clock

Winding up their 1942 football season, the Haskell Indians will meet the Stamford Bulldogs on Indian Field here Thursday after. neon Nov. 26 in the traditional Thanksgiving Day game for both

Back for the game as Indian Coach will be Corporal Sam Green, former High School athletic director who recently enlisted in the Army Air Force of Lubbock. For him it will be his final high school coaching assignment for the year, and for the Indians, possibly the last football game for the duration of the war.

Climaxing a season which has seen the ranks of the Indian squad thinned by injuries, the warriors can be depended upon to turn in a top performance in their traditional Turkey Day game against an equally determined squad of Bulldogs,

The game will begin promptly at 2:30. Officials will be Hays. Murph, and Addington. Probable

starters for both teams:

One Pound Is Set as Normal Coffee Supply

Haskell housewives were reminded this week that one pound of coffee is a normal supply, by the regional Office of Price Administration

Furthermore, the OPA declared all coffee in excess of one pound will be deducted from the ration book, Rationing of that commodity begins Nov. 29.

Allotments will be one pound for every five weeks for persons over 15 years of age.

The household coffee inventory will be as of midnight Nov. 28. but stamp deduction will not be made until application is made for war ration book No. 2 around the first of 1943, OPA officials

"When the consumer applies for this second ration book, he will be required to declare the amount on hand at the start of its rationing. The registrar will remove from the book stamps cover the excess supply," the DaL las OPA office announced.

Coffee stamps in sugar ration books for children who are ineligible to buy coffee will be left in their books and be surrendered when War Ration Book No. 2 is issued. OPA officials said.

Postoffice Will Observe Holiday On Thanksgiving

Made Bombardier and Navigator Adjutant

Cecil Cooper, son of Mr. and Mrs. J. F. Cooper of Haskell, who is stationed at an Army Air Base in Santa Ana, Calif., has been promoted to Bombardier and Navigator Adjutant. With this new rank he will have charge of several hundred men, with only one cadet officer over him. Young Cooper attained this premotion in rank because of the exceptional ability he has shown since enter-ing the Air Forces.

Zeldon Thomason of Grand Prairie where he is stationed with the Navy was here the first of the week. He was accompanied home by Mrs. Thomason, the for-

Three Registration Periods Are Designated By President

President Roosevelt has fixed three separate registration periods for youths who have reached or will reach their 18th birthdays the last half of this year.

By proclamation he set the week beginning Dec. 11 and ending Dec. 17 for draft registration of those who became 18 in July and Aug-

Young men who reached that age in September and October will register in the following week and those who became 18 in November and December will register in the week starting Dec. 26 and closing Dec. 31.

Mr. Roosevelt also provided for continuous registration on their birthdays of youths who become 18 on or after next Jan. 1. If the birthdays falls on a Sunday or holiday they must register next day.

This will be the sixth draft registration. The last, on June 30. covered young men who already were 18 or 19 and those who had become 20 since the preceding registration

Mr. Roosevelt's proclamation said the new registration and the others which had been held were "advisable to insure victory, final and complete, over the enemies of the United States

The new registration will take place simultaneously in the Unit ed States, Alaska, Hawaii and Puerto Rico, with daily registration hours fixed for 9 a. m. to 5 p. m. (local time)

COTTON GROWERS VOTE DEC. 12 ON MARKETING QUOTA

Government Loan on 1943 Cotton Will Depend On Voting

No government loans can be offered on cotton in 1943 if market. ing quotas are rejected in the nation-wide referendum Saturday. December 12, Frank Seale, state AAA committeeman, reminded cotton growers this week.

Seale, himself a Robertson coun ty cotton farmer, pointed out that the law prohibits the Commodity Credit Corporation from making loans on cotton in any year which quotas are rejected.

The government loan has served as floor under cotton prices ever since 1938, the first quotas were in effect, the committeeman declared Currently the basic loan rate of 16.97 cents a pound, 90 percent of parity, is supporting the price of cotton.

With our huge supply of cot. ton and with world prices equal to about half what we're getting for cotton, there is no telling what would happen to American cotton prices if the loan were remov Seale declared.

Cotton growers will vote for the sixth time on marketing que-tas December 12. Each year for the past five years they have vot. ed overwhelmingly to use quotas as a means of assuring each puducer his fair share of the averable cotton market.

Indians Knock Off Albany 19-0

Last Friday night the Haskell Indians piled up a three touchdown victory over the Albany

Quarterback Johnston personally accounted for two touchdowns . ett. All three scores were made on comparatively long runs. Wallace Johnson at safety, played a good defensive game and account. ed for our only conversion.

Haskell was decidedly the underdog, according to all news, years Rule two years and Albany papers With this victory the Indians were given new momentum that's going to be used to give Lakes, and later sent to New York Stamford something to think from where he came to Haskel about. Speaking of the game with Stamford here Thanksgiving Day it should really be a good game. Of course Haskell is the underdog but even in the professional and college games this year, there have been plenty of surprising upsets Remember this, and history could keep on repeating.

Freshman Contribute Red Cross to Library Fund

The sum of \$18.52 was recently contributed to the library fund by the Freshman class. This money was acquired by selling subscriptions of magazines published by the Curtis Publishing Company The class sold twenty-three subscriptions, totaling to \$46.50,

As will be remembered, the students had a contest to see who could sell the greatest number of subscriptions. This honor goes to Stella Marie Frierson. Her total number amounted to five

Latest Coach Leaves For Duty

After he officiated at the Albany game last Friday night the Indians' lost their fourth ceach of the season, Chief Petty Officer Gordon Wood, better known as "Babe" has been the coach and the third was made by Ever. Haskell High for the past two weeks. He gave us two weeks of his furlough and then was due to report to duty.

Mr. Wood attended Wylie High School and Hardin-Simmons Uni. versity. He coached at Spur two one year. He was in the Nava Training Station on the Great on his furlough.

Although his stay here was short, his work and contribution in winning the Albany game was greatly appreciated. Mr. Wood left for the Physical Education Division in Norfolk, Virginia.

Classes Donate To

The High School classes were called on, early last week for contributions to fill kits with needed articles for the soldiers of our armed forces. Mrs. A. A. Bradford presented this plan to the lass spensors, and they in turn presented it to their clasees. The treasurers of each class immefiately begon work on this project. At this writing the Junior class leads all other classes in the contributions, having donated \$5.02 The Sophomore class is second with \$3.60; the Seniors have contributed \$3.55; and the Freshmen \$3.11. This comes to a total of \$15.28 which will be enough to I about fifteen kits, and it will ring pleasure to each boy is one. Keep up the good work.

ISN'T HE WORTH IT?

Gypsy Ramblers Have Initiation Picnic

Last Monday evening the members of the Gypsy Ramblers assembled on the High School campus to go on a hike. The Senior Ramblers proceeded to initiate the new Ramblers, Preceding the hike to the park, where the main attractions were to take place, the new members in groups of two, were tied back to back and walked that way to their destination Upon arriving at the park they were untied and while the Senior Ramblers ate their lunches, they were highly entertained by numbers from the new members. They were then fed delectable sand. wiches made of bananas and lard, peanut butter and mineral oil They were then allowed to eat their own lunches.

On their hike back to town, the new members in groups of two, walked with ther legs tied together. When they arrived in town, they played leap frog around the square, All were very good sports and seemed to enjoy the outing.

What Does Your Stamp Money Buy?

Would you rather spend a dime for personal pleasure-and have it gone forever-or buy a War Savings Stamp and benefit the war effort, as well as yourself? Maybe you never thought much about what your money for a tencent stamp will buy now, even if you are going to get the money back some day. The following facts, released by the Treasury Department of the United States, tell what our stamp money can

One ten-cent stamp will buy 5 cartridges for a 45-caliber pistol, or 1 set of Army insignia. Two ten cent stamps will buy 1 cartridge for a 50 caliber anti-aircraft machine gun; 3 rubber balloons for measuring upper air currents in weather forecasting; or enough carbon dioxide to inflate on selfinflating life belt. Three ten cent stamps will buy 2 pairs of socks for a soldier; 2 sandbags; or 1 Army Air Force bag for oxygen for an aviator to fly at an extreme ltitude for 2 hours.

What will a twenty-five cent stamp buy? Watch this column next week, and remember this week's slogan: "Life, Liberty and the Pursuit of the Axis-Stamps and Bonds Buy Weapons"

Jimmy Wilde Jr. Boxes in Desert

The spirit of that famous old-time boxer, Jimmy Wilde, was hovering over the western desert of Egypt recently, when Jimmy Wilde Jr., son of the former world champion, boxed with another aircraftsman for the entertainment of their buddies. Jimmy Jr., who knows how to put up his dukes, by the way, is shown at the left.

Whats Cookin'?

Are we going to win this war' Certainly! But first Haskell High School, and all the other small schools must raise their quota of Defense Stamps per week. So Haskell High, let's go!

Weinert seems to be taking over some of our high school girls, and boys, too. I thought perhaps Rule, and Stamford were the most popular, but for ten days now I've heard nothing but Weinert from certain girls (especially one). Seems as if Rule and Stamford

are fading out of the picture Have some of our high scho girls gone horse crazy? From what I hear they went herse back rid ng twice last week. If you will just notice how Betty Jane ease herself into her seat in class, and how Marigene and Margaret lean when they try to walk, I think these things will verify my ru-

I suppose by now all of you have heard what five very crazy girls did Monday night a week ago. Carolyne and Doris really pride themselves to be night owls. Nance just had to have a little sleep and Marigene and Betty Jane were regular sleepy heads. Yes, you guessed it. They tried. and two succeeded to stay up all night. If you'd like to hear some of the tales they can tell just see them personally.

Wonder what distinguished service man will turn up to officiate at our Stamford game? Last game we had a chief petty officer of the Navy, Mr. Wood, and the game before we had a corporal in the Air Corps, Mr. Green. Let's phone the Chief of Staff and see f he won't come.

Burying the hatchets and endng all football fueds, the boys from Rule, Stamford and Haskell got along famously at the dance given by the Double S Club Sat. urday night. The Stamford Flying School was also well represented by the cadets there. We hear the dance was a big success and its rumored that other club activities are being planned. Watch out G. A. G's, or those "Double S'ers" will push you out of the

limelight? Top-most in the minds of all students of H. H. S. is the football game with Stamford (played Thanksgiving) not that turkey dinner. That team has got the reputation of being pretty tough, so our boys know they're going to have a fight on their hands. But time. we're not worrying; we know our team will do its best.

Speaking of High Schools—

Study halls are missed in Has-kell High School by Billie Jo Morperiods, and each student has at we couldn't wish him back

slips, the students are given de-merits. If a number of fifteen is

New Guinea Romance

Lieut. Lloyd Thompson of Troy. Texas, who has been in New Guinea for some time, gave nurse Maude friendly welcome on her arrival. They have known each other for some time, and shyly admit they might be engaged.

ten is accumulated the parents of number increases to fifteen, then he is dropped from the roll. As a new student in Hamlin, Billie Jo was impressed by

ward a new student. She stated that some of the teachers allowed the students to chew gum in class, and that students did in study hall as long as they could get by with it.

friendliness of the students

There was no time for physical education offered. However, a course in speech arts was offered. Billie Jo stated that the Juniors as well as the Seniors, present a class play each year.

(This is the second of a series of articles about other schools that will appear from time

Random Remarks

Norman Peavy, now of the Army Air Corps but back for a visit, was our biggest pieces of news for last week's Warwhoopand if we didn't miss putting it in! Norman was about the best gan, who has recently come here looking boy we've seen lately, in from Hamlin. It seems that school that spick-and-span new uniform; in Hamlin takes up at 9:45 a. m. and it looked pretty natural to and dismisses at 4:45 p. m. The see him hanging his cap and schedule includes eight 45 minute least for of these for study per- good, even if he didn't finish his to do a lot of good.

Instead of receiving detention quite happy with his new work and we're sure he's going to be able reached witin a six-weeks period, the student is expelled from Maybe it seems odd that the school. However, when a total of first visit of one of our students

who has left high school for the service of our country should go unmentioned in our school columns But it was really a wonder that we had any Warwhoop at all that week - so many conflicting things happened so that particular Monday that the staff didn't get to meet, except just two or three of them.

Yes, we have to got our copy finished up and turned in to the Free Press on Mondays, You reporters of classes and clubs please remember and you ought to get cur copy in by noon, too because you wait till classes are over, i's too late to get it typed. The staff meets every Monday morning at the activity period in Miss Vick's room, so if you have some meeting or social to report, you come at the same time and get it

Spanish Club To Present Assembly Program

Los Amigos, the Haskell High School Spanish Club, will present an assembly program in the high school auditorium, Friday morning, December 4 at 10:15 The public is cordially invited.

This is the Club's program for December on Mexco. It will inhe people found in Mexico by Los Conquistadores, some of the adventures of Hernando Cortez, Keep Pennies In as well as mention of some later historical events, and a final character sketch of Manual Avila Camacho, President of Mexico, Mexico is today, predominantly an Indian nation, and some of the Indian customs will be discussed. Also some of the things that are being done to promote goodwill between the United States and Mexico will be brought out.

Rev. Kenneth W. Copeland will sing a Spanish Solo, and will also direct the Club in a Spanish song.

all America gives Thanks for a bountiful harvest

in **WEST TEXAS**

You: Yes, West ... xas is contributing much to the war effort. Food, cotton and wool for clothing men in the fighting forces. The whole world can be thankful for a bountiful harvest in West Texas. But, what do you mean, Reddy, "on KP duty"?

Reddy: This: it's the first wartime Thanksgiving Day. Many people will observe it over the country by working, turning out the weapons of war. Our power plants will be on the job as usual, providing electric service for your home and business, and for Uncle Sam's Army camps and for war industries-

You: I see! On KP duty, too!

Reddy: Yes. Electric service is doing Kitchen Police duty EVERY day. And since the factories that used to make appliances now are doing war work, everybody should take good care of what they've got. Keep them repaired and in good working conditionYou: But suppose they break down...repairmen are hard to find and new parts are scarce.

Reddy: In that case, call the West Texas Utilities. Our service department has arranged to help out in emergen-

You: Thank you, Reddy. I guess we can be thankful for

Reddy: Well, we can ALL be thankful for the American system of FREE enterprise under which any man or woman is free to create a business that fills a particular need in this or any other community, just so long as they give the best possible service at the lowest possible cost to the most people, pay taxes in support of the government, and contribute to the growth and development of the com-

Cemetery Assn. Meeting To Be Held on Dec. 7

The regular monthly meeting of the Haskell Cemetery Association Tucker of this city will be the first Monday in Dec. ember which will be Dec. 7 in Holden Funeral Home at 2:00 o'clock p. m. At this meeting we will vote on reducing price of lots from \$100 and to strike out the clause in deed which takes away your lot if you fail to pay dues one year.

This clause reads as follows: "In this connection it is express. ly agreed and stipulated that the above lands are to be used for cemetery purposes only and that other use of the same or nonpayment of the above described sum of \$ for two year per-iod shall void this deed and the land and premises herein conveyed shall then and in either of said events revert to the grantor, his successors or assigns.

If you have paid your dues, and are interested in changing the price of lot and deed please be there at that time and bring someone with you. One vote only to a paid lot.

(Paid Avertisement)

Methodist Young People Meet Sunday

The Methodist Young People's League met Sunday night at 6:00 o'clock. We had a very interesting program. After the supper was served by Mrs. Burson and Mrs. Copeland we had some very interesting discussions.

CHRISTIAN SCIENCE SERVICES

Thank-giving Day services are held by The Mother Church, the First Church of Christ, Scientist, in Boston, Massachusetts, and its branches throughout the world. The order of service includes the reading a Lesson-Sermon on the opic of "Thanksgiving." Opportunity is also afforded those present to give testimonies of gratitude appropriate to the occasion.

The Golden Text is: "I will praise the name of God with a song, and will magnify him with thanksgiving" (Psalms 69:30). Among the citations which com

prises the Lesson Sermon is the following from the Bible: "Give his name, make known his deeds among the people. Give unto the Lord the glory due into his name: bring an offering, and come before him; worship the Lord in the beauty of holiness" (I Chronicles 16:8, 29).

The Lesson Sermon also in cludes the following passage from the Christian Science textbook, Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Gratitude is much more than a verbal expression of thanks. Action expresses more gratitude than speech" (page 3).

Announcing

An Added Service to Our Friends & Patron

Since Gasoline Rationing is a reality, it may been necessary for some of our friends and patrons to do bank business by mail. With this in mind, we have installed we call a "Transient Department" as a new service to patrons. This department will handle all banking trans tions handled by mail.

If you desire to avail yourself of this convenient ing service, just write us your needs, and they will have same careful attention as if you were in our office.

Remember, under this new plan, you can handle your banking transactions by mail, including the purch of War Bonds and Stamps.

Training is given in all types of metal work, forge work, acetylene and electric welding, all repairs on farm machinery, and general

conservation of tools. This course is especially offered to the farmer to recondition and build his farm machinery, trailers, plows, etc. Don't forget that you may not be able to buy these items for we have a war to win and this is vital material. This course is free. You paid for

For further information see F. W. Martin, teacher of vocational agriculture or John Simpson, shop

In 1940, the power industry in Texas supplied more than 4,520,and communities.

On Dr. Goebbels' calendar there's a circle 'round January 1

ON JANUARY 1 the Nazis are going to find out just how we Americans really feel about this war-whether we're all of us in it all the way.

For January 1 is the date set by Uncle Sam when everybody on a payroll ought to be enrolled in the Payroll Savings Plan-so that at least 10% of the gross payroll of every firm goes into War Bonds every payday.

And when we reach that goal by January 1-it's going to be painful news for Dr. Goebbels and his cronies!

At the moment there are many of us who ought to be on Payroll Savings Plans-and aren't. And though some of us are investing more than 10%, a lot of us are doing less than we can and should.

So it's up to you to see that we "Top That 10% by

New Year's." If you're not in on the Payroll Savings

Plan, sign up today. If you're setting aside less than 10%, get signed up for more-and fast! If you can afford to invest more than 10% do it-and be glad

For there's nothing that can end this war quicker, nothing that can shatter our enemies as completely as the knowledge that we Americans are all of us fighting this war with everything we've got! And doing it our own democratic way—because we know in our own minds we've got to do it to survive.

And in serving our country we serve ourselves-not only today, but tomorrow as well. For every \$3 we put into War Bonds comes back to us as \$4 when the Bonds mature-to buy the things we want and cannot get today.

Won't you put your name on the line today? Sign up on the Payroll Savings Plan for not 6% or 7% or 8% but at least 10% of your wages every payday.

WHAT YOU SHOULD DO:

If you are . . .

1. Already investing 10% of your pay in War Bonds through the Payroll Savings Plan-

boost that 10% if you can. Working in a plant where the Plan is installed, but haven't signed up yet-sign up

3. Working in a plant where the Payroll Savings plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away. The local

bank will be glad to help Unable to get in on the Payroll Savings Plan for any reason, go to your local bank, or wherever Bonds are sold. They will be glad to help you start a Plan of your own.

GEMS OF THOUGHT

It is a strange desire, to seek power, and to lose liberty; or to seek power over others, and to lose power over a man's self.

The Greatest Hoarder

"The Federal Government is the chief offender in the waste and hoarding of manpower," says Senator Byrd of Virginia, supporting his charge with some preliminary figures.

The Government had 2,906,300 civilian employes on Aug 31 (it has well over 2,700,000 now) at the end of the last war it had only 917,760 Civin lian personnel is still increasing at a rate of more than 3000 a day.

The War Department alone has 1,200,000 civil. ian employes, not including soldiers who do cleri-cal work. The Navy Department, with 500,0000 civilian employes, has almost five times as many as in 1918

There were 30 Government agencies on Armistice Day, 1918; there are 81 now. The Agriculture Department has 81,645 employes-four times as many as in 1919-plus 100,000 agricultural committeemen who get Government pay The Interior Department has 47,497 employes—three times the 1919 number. The Commerce Department has 24,-479-more than twice the 1919 number

There are 100 civilian employes on the Government payroll for every 175 men in the armed services. In 1918, the ratio was 100 civilian employes to 450 men in the armed services.

Apropos of Senator Bryd's charges, backed up by federal statistics regarding the alarming growth in the number of non-essential Government employes (the increase has been at the rate of 100,000 a month since Pearl Harbor), the following written by Herbert Spencer is inteesting:

'Take a pair of scale, with many shot in the one and a few in the other. Lift shot after shot out of the loaded scale and put it into the unloaded scale. Presently you will produce a balance; and if you go on, the position of the scales will be re-

"Suppose the beam to be unequally divided, and let the lightly loaded scale be at the end of a very long arm; then the transfer of each shot producing a much greater effect will far sooner bring about a change of position.

"I use the figure to illustrate what results from transferring one individual after another from the

structures. The transfer weakens the one and strengthens the other in a far greater degree than is implied by the relative change of numbers.

"A comparatively small body of officials, coherent, having common interests, and acting under central authority has an immense advantage over an incoherent public which has no settled policy and can be brought to act unitedly only under strong provocation.

"Hence an organization of officials, once passing a certain stage of growth, becomes less and

Spencer wrote that in 1884.—Fort Worth Press,

Mr. Maas and the Navy

It is a commentary on the United States Navy's news policy that the American press and public should give such serious attention to the dramatic charges Representative M lvin J. Maas has uttered regarding conduct of the war in the Pacific,

Mr. Maas, speaking with immunity from censcrship enjoyed by a member of Congress, and giving his assertions the weight of his own experience as a Colonel in the Marine Corps Aviation Reserve in the Solomons, renders a useful service in so far as he may win more factual and more timely information for the American people; but he veers on the dangerous when he suggests the prime strategy of the United Nations should be reversed so that American efforts could be for cused on first eliminating the menac eof Japan.

He bluntly asserts that when the Navy lost three heavy cruisers in Tulagi harbor the night of August 8, America suffered another Pearl Harbor." It is true that there are unanswered questions as to why, and how, the force was taken by surprise; but Representative Mass omitted to mention that on the day following or shortly thereafter, the American Navy "readjusted" the balance by sinking three Japanese cruisers and five destroyers in

A great many people feel the Navy has been unnecessarily slow in announcing its losses, and that the Navy has strained to offset bad news with an equal porton of good news. The Navy has lately made some effort to catch up, but it had a long ways to go and it has not yet arrived at the position where it enjoys full public confidence in its information. But that relates solely to news.

When it comes to fighting the enemy fearlessly driving in with all the steam and horsepower that the demands at other fronts will allow, the record of the United States Navy, despite its losses, has won the respect and admiration, and wholehearted support of Americans - Christian Science Monitor

Youth Prepares for the Future

During the next two weeks, millions of American school children will enroll for service in the American Junior Red Cross. In little one_room country schools and in city buildings, young people will sign their names on scrolls signifying their support of an Ameircan ideal.

Most of these young people will go a step farther, too, and work toward making that ideal a reality for to them, joining the Red Cross is only a beginning. For twenty-five years "learning by doing" has been Junior Red Cross doctrine. In twenty-five years many millions of Americans have contributed their time and effort to Junior Red Cross endeavors

Today the Junior Red Cross stands stronger than ever with 14,000,000 members working in every city, village and hamlet for our victory effort Small wonder that President Roosevelt has

I commend the American Junior Red Cross for so amply justifying the faith of those who were its founders twenty-five years ago. I am confident that the future achievements of organization will be ever increased. The needs of our nation at war are great. The American Junior Red Cross, because it has already proved its ability can be counted on to assist greatly toward meeting

"The Place for Everything"

Americans Today Have Greater Cause For Thanksgiving Than Pilgrims Had

America's Thanksgiving this year will be in gratitude for a record harvest from 360 million

acres of good land.
Like the first Thanksgiving day in 1621, the 1942 Thanksgiving will come in a time of great trouble when a boutiful harvest is good cause for rejoicing.

The Pilgrims at Plymouth proclaimed their first Thanksgiving day "as a day of thanksgiving to Almighty God for blessings received and at hand." Their "blessings at hand" were waterfowl and turkeys from the forests and the harvest from just 20 acres of cleared land!

Men and women in every corner of the free world will join this year in celebrating America's harvest, The lend-lease program permits millions of embattled people, civilians and soldiers alike, to take heart in the knowledge they will have food and fiber as they fight for freedom.

This, too, is in keeping with the world-wide tradition of thanksgiving at the harvest season. The pagan Indians were accustomed to express their thanks to the Great Spirit for a good corn harvest with dancing and ceremonies of wor-

ship. The harvest feast is an honored event in English life and almost all people give thanks at

The spirit of Thanksgiving is voiced in these words of grace by Robert Burns:

'Some hae meat and canna eat, Some has na' meat, but want it, But we has meat, and we can

And sae the Lord be thank't."

On October 1, 1940, Texas had 208 power plants with an installed generating capacity of 1,177,200 kilowatts or 1,569,000 horse-

FOOD FOR FREEDOM!

This Thanksgiving, the merchants of Haskell salute the farmers of America... the men who are heroes on America's fighting farm front. Quite fittingly, Thanksgiving Harvest has been chosen as the time to pay tribute to these men on the farms-men who have doubled and redoubled their efforts so that they may supply America's men at the front, in the factories and at home with Food for Freedom! Records show that 1942 was the greatest farm production year in history . . . that means what has been done can be done again . . Greater than ever!

Haskell is proud of the farmers of Haskell county . . they're backing them up 100 per cent to put Haskell county over the top in the fight for Food for Freedom. Farmers of Haskell county-we CAN make 1943, the greatest year ever!

Margaret

Margaret turned of the humstraightened the slipcovers of the armchair and the daybed that she had pushed up to go over the rug. Then she stood quite still in the doorway and looked at the small bedroom with its southern exposure. It was as neat and impersonal as a pin. It might never have been lived in. The door stood open on the clean, bare closet. There was not a pennant, not team picture, not even so muc

room it had Margare walls, the furni

lodgers with their own tri and pictures might occupy it, s would always see it the old wit It was the old way that she saw now. A pair of hard-worn pants lay on the floor where ball bats were stacked with a fising rod in the corner. A battered cap with a letter on it lay on the bed. And through the bed, as though it were transparent, Mar-garet saw another bed, smaller, and with high slatted sides.

She put the vacuum cleaner away and went down to her desk n the sitting-room. She took the fifteen dollars rent that the new lodger had paid that morning in advance for the room, and added to it, from her purse, three dol lars and seventy-five cents more. Then she drew out a sheet of paper and began to write on it, slowly, gravely.
"To buy a bond to help train a

RED TAPE IN THE WAR

By DR. GEORGE S. BENSON President, Harding College Searcy, Arkansas

(Editor's Note: Dr. George S. Benson is president of Harding College of Searcy, Arkansas, a co-educational in-stitution noted for having no unemployed graduates, Dr. Benson found himself catapulted into the headlines in 1941 when he appeared before the House Ways and Means Committee, and Senate Finance Committee, and offered a concrete plan for cutting nondefense expenditures by two billion dollars. Self-reliant Harding College students recently hit the headlines when they asked the National Youth Administration to accept the return of funds allotted to them, requesting that the sum be invested in "tools for Mac-Arthur's men."

The time has come when the tax paying, bond buying, soldier-son contributing public should rise up on its hind legs and demand that Congress place a fixed statutory limitation on profits on war contracts. refer to profits which remain after regular taxes have been paid There's a right way and a wrong way to do this. President Roosevelt in his September 7 speech point ed out the right way when he said: "We must recapture through taxation all war profits that are not necessary to maintain efficient war

I back that proposal and method one hundred percent. And by the same token I oppose by one hundred percent the wrong way we have adopted by which we seek to recapture such war profits. This wrong way is through the renegotiation provisions of Public Law No. 528 which was recently amended. Excessive profits can be recaptured under this law but it bungles the job by also starting a whole train of disorders and unbalances just as a bungling tinsmith does when he punches a half dozen new holes in a bucket while he fixes one old one.

I also am interested in ferreting out and recapturing excessive war profits in the right way because the wrong way now used may nullify everything I tried to do in helping cut the waste out of government. I went before Congress last year and pleaded with them to cut out or cut down on a lot of non-defense spending and then I made more than 75 speeches over the nation trying to rouse the people to join in this economy crusade. The result of all these efforts along with those of other like-minded citizens was that Congress did cut one billion three hundred million dollars out of non-defense spending. What gets me all riled up again are the plans of the government which may waste hundreds of millions that we saved by such hard effort.

There's no reason or excuse in the world for this new waste except that governments always seem to bungle and fumble along unless the people make too great a

held by from 20,000 to 40,000 contractors. The law permits the Army, Navy and Maritime Commission to renegotiate each of the 3,000,000 contracts (in cases where the contracts held by a contractor exceed \$100,-000) and eliminate excessive profits. Some have estimated that if the law is enforced it may require the services of as many as 200,000 new public servants. Think of what they will cost us taxpayers. Think of taking that many men away from productive war work to perform a job which the Internal Revenue bureau staff could do with little additional help!

Other Bad Points

This fact alone should force the w's revision at the earliest oppority. But this waste of taxpayers' useless ser ces of

possibly 200,000 men who should be helping win the war is not the law's only bad point, bad as is this waste and the confusion that comes from duplicated services. The really bad part of the law is that it creates three new bureaucracies, one each by the War and the Navy Departments and one by the Maritime Commission, and empowers them to make up their own rules and procedures as each sees fit. These arbitrary rulings in time may de-

moralize and thereby reduce output

of war materials. The American way of life and government means government by laws and not government by arbitrary rulings of several bureaucracies. We are grounded in that way of life and government. Let's not imperil its existence now by demoralizing war industry through the creation of layer on layer of bureaucrasy to do what established bureaus can do better!

It's about time for Americans, who want the war won, to demand that this law be changed so that the elimination of excess profits on war contracts be handled by the Bureau of Internal Revenue. Its regulations on what is allowable as an expense deduction are built upon years of experience and its staff is guided by court decisions. All business management is familiar with these regulations. Such a change would substitute procedure under recognized law for the present chaos.

Remember, the effect of all un necessary delay in war production as well as every dollar wasted will be borne by each reader of this article. I expect to write more on this

CARD OF THANKS

We wish to express our heart. felt thanks and appreciation to our many friends and neighbors and also Mr. Holden for their kindness and sympathy shown us in our bereavement over the loss of our dear Husband, Father, Son and Brother. Also for the beautiful floral offering. May God bless you all is our prayer. — Mrs. J. N. Gibbs, Dorthy Ann and Stella Barbara; Mr. and Mrs. G. R. Gibbs Mr. and Mrs. O. E. Gibbs; Mr. and Mrs. B. D. Gibbs and Pvt. Howard Gibbs; Mr. and Mrs. W. H. Reynolds; Mr. and Mrs. Tom Brown; Mr. and Mrs. J. A. Wier; Mr. and Mrs. Boss McGregor; Mr. and Mrs. Dee Andress; Mr. and Mrs. E. D. Geurin

Canadian Oil Reserve Harnessed by Science

Ten thousand square miles of prehistoric, mineral-rich oil sands in Alberta, Canada, will provide the United Nations with huge quantities of oil. Experimental production has been in effect for more than a year at Me-Murray, 300 miles northeast of Edmonton. Photos show (left) conveyor belts carrying oil sands to the separation plant where, through flotation, hot water washes oil free from sand. Right: "Black gold" flows freely through the pipeline after the separation process is completed.
