Through enemy action more than two thousand sacks of U. S. mails carried on United Nations ships and destined for American soldiers overseas in recent weeks have been lost, the Army postal service reports. In making this announcement, the War Department said that the loss of these mails was a striking illustration of why V-mail should be more fully utilized in communicating with soldiers overseas since 30,000,000 pieces of such mail have been handled thus far without the loss of a single letter. This is made possible by holding the originals at the ports of embarkation until the duplicate copies arrive safely at their overseas destinations.

Your Country and mine has called upon Haskell County during April for a loan of \$263,000.00. No gifts are asked for. Your money will be paid back with interest. Your Country's credit has always been good. If permitted to stand, it will continue good. Are you willing to help?

weakness we admit one of three things—Either inability, lack of patriotism or cowardice. We are counting on you to make no such admission. No one is being asked to do a thing he cannot do.

The war made you money with high prices. The good Lord has made you happy with big crops. If you answer every demand made upon you, liberally, you will have more left than you would have had, had the war not started. This statement is made from simple common reasoning. We have not even touched the idea of sacrifice, patriotism or Homeland. This demand is the biggest we have ever had. Next year it will likely be bigger than this. We must grow as the demands grow that we might meet every one. If we dodge, make excuses, evidence

Let Haskell County be the first in the state to raise its quota. Make it April 12th to the 18th, no longer. The longer we stretch it out the harder it will be. Some of the bonds you can borrow money on and help pay for them. Some you cannot. Some pay in every six months. Some do not. You must not think of buying a \$50.00 Bond when you can buy \$100.00. You must not think of buying a \$100.00 Bond when you can buy \$500.00.

You must not think of buying a \$500.00 Bond when you can buy \$1,000.00. You must not think of buying a \$1000.00 Bond when you can buy \$2,500.00. You must not think of buying a \$2,500.00 Bond when you can buy one for \$5,000.00. You must not think of buying \$5000.00 in Bonds when you can buy \$7,500.00. You must not think of buying \$7,500.00 in Bonds when you are able to buy \$10,000.00. There are many in the county who can, with greater ease, buy \$10,000.00 in Bonds than others can buy the first mentioned amount. Remember... The conscience still remains after the witnesses are all gone.

Magazine Club Has Regular Meeting

The Magazine Club met at the club house April 2nd. After the business session a program was given on Spring Festival — The Open Road.

Mrs. J. R. Coody, hostess for the afternoon had decorated the room very appropriately, placing miniature trees along an improvised highway, using the same springtime theme for the table decoration.

Mrs. Earl Atchison directed the program. Mrs. Atchison opened the program by tracing on the map, "The Pan American Highway". This highway which commences at Fairbanks, Alaska, and traverses the entire American continent, to Buenos Aires, Argentina and to Valparaiso, Chile.

This highway, when completed, will be noted for its scenic beauty, for it will be one of the most colorful and most beautiful highways in all the world.

The club enjoyed two readings given by Nancy Coody.

Mrs. B. C. Chapman interestingly told about the "Alaska-Canadian Highway". This military highway is now in use. It goes across Canada, joining the United States with Alaska. It was built at the rate of 8 miles a day. The Alcan (for short) is 1670 miles long. It goes through thick forests and uninhabited wilderness. The work was done by 12,000 men. Most of them were American soldiers. Bridges were built across 200 rivers. Hundreds of hills had to be crossed, some of them leveled off, also swamps had to be filled. The building of this highway was one of the greatest achievements of the United States. In the past few months many trucks have rumbled over it carrying soldiers and war supplies to Alaska.

Mrs. Wallace Cox subject was "The Spiritual Highway of the Americas." This is the highway that is to promote brotherhood, and a mutual understanding of these countries.

The following club members were present: Mmes. Coody, Nancy Coody, Atchison, J. C. Davis, Ed Fouts, W. N. Huckabee, W. D. Hellums, H. M. Smith, J. U. Fields, H. S. Wilson, B. C. Chapman, C. L. Helen Bagby Circle Meets for Bible Study

Monday evening, April 5th, the Helen Bagby Circle of the Baptist W. M. S. met in the annex Crawford at the piano we first sang I Need Thee Every Hour, followed with prayer by Mrs. Taylor. Mrs. Yantis then taught our Bible lesson from the book of Isaiah, beginning with the fourth chapter which was very interesting indeed, telling us of the distress of the times and God's judgment upon various sins. In the 5th chapter we find these words, Therefore my people are gone into captivity, because they have no knowledge and the mean man shall be brought down and the mighty man shall be humbled and woe unto them that call evil good and good evil, that put darkness for light and light for darkness. Woe unto them that are wise in their own eyes, and prudent in their own sight. Therefore as the fire devoureth the stubble, and the flame consumeth the chaff, so their root shall be as rottenness and their blossom shall go up as dust because they have cast away the law of the Lord of hosts and despised the word of the Holy One of Israel. Therefore is the anger of the Lord kindled against his people and he hath stretched forth his hand against them and smitten them. For all this his anger is not turned away, but his hand is stretched out still.

Mrs. Yantis gave the closing prayer and ladies present were: Mmes. Crawford, Yantis, DeBard, Bailey, Norman, Paxton, Taylor and Miss Ida Crawford.

Senior Boys Take Army-Navy Exams

An examination to qualify for officers training in the Army and Navy was taken last Friday by eleven of the students and one ex-student of Haskell High School. The boys were asked to state their preference for the Army or the Navy. The test lasted for two hours and contained four divisions with one division on each of the following subjects: chemistry, physics, algebra and word study. The boys all agreed that the test took up every bit of their time and was "plenty rough".

The following took the examination: Jerry Cahill, Gordon Johnston, Jesse Fagan, Kenneth Kirby, Sonny Reynolds, Albert Holcomb, Tommy Davis, Charles Reeves, Carroll Scheets, Lynn Williamson, Frank Smith and Billy Tinkle.

T.O.Q.'s Practice Debating

On the negative side were Bonnie Fay Edwards, Anna Deen Batey and Mary Fay Fowler. The majority of the class thought they should sit together, but Loyd Tankersley seems to have an entirely different point of view.

Gypsy Ramblers Play Successful

"Jessica's Journey" the play presented by the Gypsy Ramblers proved to be highly entertaining and enjoyable. It was presented Tuesday night of last week to a large audience.

Quite a bit of hidden talent was discovered in the play. All of the girls were very good, but "Inky" Pearsey almost stole the show with her lip and endless bowing. Bessie Belle Morrison looked quite dignified as "Aunt Charity". Carolyn Williams as "Jessica" and Marigene Sellers as the French maid were both charming.

Approximately \$40 was cleared on the play. The girls have decided to put all of it into an additional payment on the piano they purchased for the school last fall.

Jam Session

By "Jivin' Jenny"
 Lets get in the groove kids, 'cause here's your "ole Jam Session" back in the swing. It's hard to get hep after the holidays but here's to trying.

What's this we hear about Marigene changing the old saying "In the spring a young man's fancy turns to love" to "In the spring a young girl's fancy turns to love"? Jerry Cahill can give a little light on the subject to anyone in doubt.

Gordon J. has been centering his attention on a certain little member of the Senior class. Shirley can tell you about it. Tough luck, Ruby.

Bessie Bell really showed her versatility when she played the part of the old lady in "Jessica's Journey". Why didn't we know she was an actress?

Speaking of Jam Sessions. Friday night was the occasion of hilarious entertainment. We never saw so many "Jivin' Jacks and Jills". Just between you and me and the fence post (don't think I'm telling off) these girls really set the boys an example—but good! Deen was really giving Dan Mc the rush. You remember the old saying—while the cats away the mice will play—Oooops! sorry Asna Mae.

Come on kids, let's show a little of that good old H. H. S. cooperation on the field when we march. Let's make it look like the real stuff.

Douglas Smith seems to be Doris Holmes's man of the hour. Is V. A. slipping, or is this business of going steady just tiresome?

Hartsill has that far-away look in his eyes all too much lately. Settle down, Hartsill; remember going to Stamford all the time won't conserve tires and gasoline.

It looks as if the worm has really turned. Not literally, of course. However, Jimmie Lou was sporting a brand new "feller" at the dance. Seems Sonny's doing all the good.

Jerry Johnson was quite "it" at a recent shindig. He was really cutting a rug with Jane Richey. Why do all the girls get that adoring look on their faces when the name "Kelly King" is mentioned. Can't blame you though girls—if I were about 20 years younger, I'd go for him myself. Marigene says she's not interested. Jerry again!

Wylene and Faye don't tell us any more about Mattson. Could it be their interest is waning?

Lela Ruth has been going around in a trance lately. Is V. V. the reason? Could he be? Mildred Chapman is sporting a brand new "Olds". It's a beauty Mildred.

What a shame Sarah Beth had to leave over the holidays. She really missed a lot of fun.

Well, children (oops, what am I saying) hep-cats, I'll be seeing ya. It's time for old "Jivin' Jenny" to go get in on the dirty work. See ya soon.

Former Secretary To Work With WAAC

Betty Blake who was Mr. Breedlove's secretary until recently was in Haskell last week after spending several days in Dallas and Denton. While in Denton she was offered a job as secretary to an officer in the WAAC training center at T. S. C. W. Betty accepted the position, but came home over the week end before going to work on Monday of this week.

Since she cannot join the WAAC yet, being too young, Betty is happy to get work that is associated with them.

Spring Vacation Is Becoming Traditional

The annual spring vacation which the school had last week is the sixth of its kind, and might be explained now as having become a fixed custom. Schools in certain other states have a whole week off in the spring, just like having a week off for Christmas, and people think nothing unusual about it. Also a number of schools in our own state follow the same custom, although they may take only two or three days.

But since it may still seem a little unusual to some people for a school of this size, in this section of the country, to have a spring vacation we are giving explanation again as to the beginning of our custom, and the reason for continuing it.

The school formerly had class picnic days, and that was a custom that started farther back than anyone now in the school knows anything about. Six years ago the spring vacation was adopted by the school board to take the place of these class picnic days, in order to avoid having interruptions in the school routine for four different days in the spring.

The first two or three of these annual vacations were set to begin immediately following County Meet. That affair always came the last week-end in March, and hence the holidays lapped over into April. The vacation was set into April. The vacation was set into April. The vacation was set into April.

Now that there would be only one interruption in the school routine, and not "because the kids played hockey on April Fool, and they couldn't do anything about it," as has frequently been stated. Now that the schools do not have a day off for County Meet any more, it still seems a good time to have it, because it is the date we are used to having it, and also because it usually comes just about the middle of the term when we haven't had a single holiday since Christmas, and won't be having another before the close of school.

The 2nd War Loan Starts April 12

13 billion dollars must be raised

And We've Got to Buy More War Bonds!

The Government of the United States is asking us to lend it 13 billion dollars in the next few weeks. We can do it. And we must do it. Every American must realize the truth:

In this, our toughest war, we've made a good start. We've trained a lot of men—made a lot of weapons—built a lot of ships.

But it's only a start. No man or woman among us would contend for a single instant that we're doing enough now to win this war!

We've Got to Build More!

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year still won't be enough!

We've Got to Fight More!

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into actual battle. Our losses have already begun to mount—and they will not grow less.

GEMS OF THOUGHT

If one would be successful in the future, let him make the most of the present. —Mary Baker Eddy

No Choice

When the specter of food shortage looms over the family dinner table, the immediate conclusion is now drawn that something is wrong at the production end of the food industry...

However the problems of processors and distributors of food are equally critical.

Retail food distribution is in danger of collapse. Retailers have reported that employee turnover has reached 500 per cent a year.

It would be tragic indeed if food, once produced, failed to reach the tables of consumers. Yet, that is exactly what will happen if the distribution industry is crippled.

There is no choice. The food industry, from farm to merchant, must be freed of red tape and given the necessary skilled manpower to get food into American homes—or American homes will go without food.

The Price of Freedom

Everybody wants freedom. "Freedom" is a popular word. But, as Eric Johnson recently pointed out in an article in Reader's Digest entitled "Your Stake in Capitalism," you cannot have freedom unless you also have "capitalism."

It has long been good political strategy to talk about freedom and damn capital in the same breath. Under such inconsistent reasoning our lawmakers have enacted much social legislation designed to enhance the freedom of the individual by establishing wage and hour standards and other economic safeguards...

Capital is accumulated savings which, put to productive use by private citizens, supplies jobs and opportunities. When private citizens are prevented from accumulating capital and using it to create jobs, private jobs in free enterprise gradually cease to exist.

As Mr. Johnson observes: "... A great many people—in polling booths and in legislative bodies—have thought that you can tax business just as much as you like and still have 'free enterprise' and the 'American way of life.' You cannot. Just suppose that you taxed all new savings and all new profits and all new capital out of private hands into the public treasury. What would you have left to be the creator of new jobs? Only the government. Only the totalitarian state..."

Freedom will be lost unless we recognize the truth of Mr. Johnson's words.

It Must Not Happen Here

Tragic stories of death from starvation and exposure in Europe are so commonplace that their horror has lost significance to many of us. But it should never be forgotten that lack of production is not the sole factor in the plight of Europe's millions.

Retail distribution in America is scientifically organized. Its principles are comparable to those of mass production. The core of modern retail distribution is the chain stores and voluntary groups of independent merchants...

Fair and adequate distribution can be accomplished. The record of retail merchants gives strong reassurance of that. However, they will need the utmost cooperation from the government and from the public.

The tragedy in Europe should spur us on to help our producers and distributors in every possible manner. We want no recurrence of that tragedy, in this country.

LOOKING AHEAD by GEORGE S. BENSON, President, Harding College, Searcy, Arkansas

Sales Taxes

Casting about for ways to raise money with which to pay America's huge war bill, the United States Treasury has steadfastly held "thumbs down" on retail sales taxes.

It is only natural for the administration to go slow in its consideration of a sales tax...

Systematic Savings. A big advance toward making a general tax acceptable to the public has been made already by Senator John A. Danaher of Connecticut.

The Poor Must Pay. Frankly I am in favor of the Danaher Plan or something very much like it, for several reasons.

They Are Willing. People of small income want to help. They are anxious to do their part and it is my opinion that they are entitled to pay their share...

On The Home Front

As the first week of meat rationing drew to a close, complaints about "excess" stock of meat were coming in from many different points in the region.

There were evidences that many types of meat were moving slowly, some markets reporting that they were fearful that stocks would spoil.

Regional War Labor Board Chairman Floyd McGown has sounded a warning to employers engaged in seasonal operations that they must obtain WLB approval if they wish to pay wage rates at the beginning of a new season...

Of great interest to Southeastern housewives and legitimate retailers this week is the announcement by OPA that specific dollars and cents prices will be established April 15 on beef, veal, lamb and mutton.

OPA spokesmen were quick to point out that rationing books do not produce meat—they merely insure equal distribution of the supply available.

Provision should be made for the return, in cash, after the war, of a part of the present high taxes.

A sales tax should be 100% returnable because it is the man of small earning who is hit hardest by any sales tax.

My third reason for favoring the Danaher plan is the main one. The chief purpose of tax legislation this year is to combat inflation.

Besides, there is an honest and patriotic way to escape any sales tax. It is by saving money; the tax is on spending.

D stamps, worth 16 points, became valid April 18 and expire April 30.

It should be remembered that the red stamps are also used for edible fats and oils (including butter), cheeses and canned fish.

Everyone should know by now that civilians may expect less meat this year than they ate last year.

Rationing has been instituted to assure that each American gets what he needs out of our reduced civilian supplies, but it will be difficult to guarantee adequate diets unless black markets are suppressed.

For black markets not only deprive the average citizen of his fair share, they cut sharply into the utilization of extremely valuable parts of carcasses since black market operators are likely to use only the most easily marketable cuts and throw the rest away.

The farmer may feel that Federal meat regulations as they apply to him are foolish, they are part of a definite program aimed at starting out the black market operator and aimed at getting meat to move through normal, legitimate channels again.

The provision that all dealers in live animals must have a permit to buy and sell will do much to stop the black market mischief.

If a farmer gets an order from a dealer with whom he is not familiar, and if the offer is above the level of legitimate dealers, there is a good chance that he is talking with a man connected with a black market.

So the wise and patriotic thing to do is to ask the dealer to show his permit.

Regional War Labor Board Chairman Floyd McGown has sounded a warning to employers engaged in seasonal operations that they must obtain WLB approval if they wish to pay wage rates at the beginning of a new season which are in excess of those they paid at the close of the preceding season.

Seasonal operators, such as sugar refiners and canners, were advised that the War Labor Board's cost-of-living formula will be used in considering applications for wage hikes.

Weekly Health Letter

By Dr. Geo. W. Cox, State Health Officer

Austin, Tex.—Commending the patriotic spirit shown by thousands of Texans who are enthusiastically raising victory gardens, Dr. Geo. W. Cox, State Health Officer, declared today that health insurance is included in the crops which will be harvested.

"Point rationing will not be too much of a hardship for the family with a garden," Dr. Cox said. "Using greater quantities and varieties of fresh vegetables in the menu will make for better health conditions in general."

Dr. Cox stressed the fact that under such controls. With these new ceilings posted at each meat counter or store, every American housewife will know the top price which she may be charged, when she surrenders to her butcher the necessary red stamps from War Ration Book Two.

Effective April 15, no retailer can charge more for the 102 cuts of beef, veal, lamb and mutton in five officially established grades of beef and veal, four grades of lamb and three grades of mutton than the ceiling prices named by OPA. However, the retailers may at any time charge less than these new ceilings.

Official copies of the price lists will be distributed through local War Price and Rationing Boards, which will announce locally when copies are available.

Maternity care for wives of service men and care for their infants soon will be available throughout the country to those who apply to the state health department. In making the announcement, Katherine F. Lenroot, chief of the Children's Bureau of the Department of Labor, said the care will be available to the wife or infant of any private, private first class, corporal or sergeant in the Army and comparable grades in the Navy, Marine Corps or Coast Guard.

malnutrition can lead to illness, such as beriberi, scurvy and pellagra. It will certainly result in a loss of vitality and work.

"Carrots, beets, lettuce, greens, and all other vegetables supply needed vitamins in the daily diet," Dr. Cox said. "In addition to the benefits of exercise resulting from gardening, every individual victory garden can be a healthful, well balanced diet."

"You can supply all your vitamin requirements with a healthful diet, but you need not suffer, supplement your diet with a pleasing and healthy variety of fresh garden vegetables."

Caution—Wrecked Plane Being Repaired

Surprised? So were we to learn that the two seemingly peaceful rural scenes depicted above really masked the repair and restoration to service of a wrecked U. S. air force plane. Members of the service group at Greenville, S. C., are taught to rescue, salvage, and repair wrecked planes in a battle area subject to air and ground attack at any time. At top, plane is covered by a screen which blends it into the disguise and makes it unrecognizable from the air. The "farmhouse" and "silos" in the background actually are engineering installations. Below, a realistic touch is added to the camouflage installations of the service group by these cows.

King Strawberry Has His Day

Whether you live in the South, the West, the East, or the North, strawberries will have an important place in your victory garden. Persons On Assistance Rolls Should Notify Department of Address Changes

Austin—Every month many old people and others who are on the state's assistance rolls fail to receive their checks on time because they have moved without notifying the State Department of Public Welfare of their new addresses. D. E. Frazer, supervisor of the department in the Eastland area, said today. In most cases the checks are returned to the welfare department's state office in Austin where they are held until the recipient's new address can be learned. Some checks are lost or destroyed and forgeries occasionally result when checks are received at old addresses from which the recipients have moved. Mr. Frazer pointed out that forwarding of state assistance checks from one address to another is against the department's regulations. Checks should be remailed only from the state office of the department. The envelopes are plainly marked, "do not forward or mail to another post office." If the recipient is not living at the address to which the check

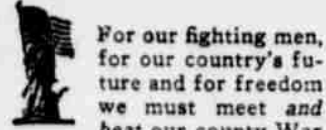

is sent, people at that address, according to the regulation must return the check to the sender. Checks are mailed out of the state office during the first part of every month. The local office should be advised of changes well in advance of the mailing period, the supervisor stated. "The purpose of this department is to serve the eligible needy people of Texas," Mr. Frazer emphasized. "We cannot serve the thousands on the Old Age Assistance, Aid to the Needy Blind, and Aid to Dependent Children rolls promptly unless we are able to locate them and to reach them at all times by mail. Speaking for myself and for all the workers in this area, I want to assure each person receiving or applying for state aid that we will try to help you in every way possible, and that our efforts will be more successful if you enable us to have your correct address on record at all times."

Mrs. Ed Wilson of Rule donated a quilt and 1 top, Miss Fannie Kay 2 quilt tops, Mrs. A. Vaughn one quilt top, Mrs. Wyche 1 quilt top, Mrs. Sherrill the cotton and the ladies of the First Presbyterian Auxiliary quilted.

Mrs. G. F. Mullino donated \$1.00 and scraps for several quilts. Mrs. Stock donated 1 quilt top. Mrs. W. M. Cass pieced a quilt from blue and green wool scraps and furnished lining and cotton. Mrs. R. A. Stone furnished the thread and the quilt was quilted in her home. She was assisted by Mrs. Kemp Morgan, Mrs. Timan Stone, Mrs. W. M. Cass and Vera Cass.

We received a letter from the Superintendent of the Camp Barkeley Hospital complimenting the afghans and lap robe which were sent from this chapter.
