FHA Clients Hold All-Day Meeting Here Friday

The annual meeting of the Farm Ownership Borrowers of the Farmers Home Administration was held Friday, February 9th in the American Legion Building in Haskell.

The meeting opened with a recording of an address made to the borrowers by Dillard B. Lasseter, Administrator of the Farmers Home Administration in Washington. The address was recorded in Washington for this meeting and sent to William E. Lawson, local supervisor, for the occasion.

Following the opening address by Mr. Lasseter the regular business meeting was conducted by Mr. Lawson. Highlighting the business meeting was the fact that in 1947 there were 40 active loans in Haskell County on farms. These were 100 percent loans where the FHA had advanced the entire purchase price of the land plus money for improvements for a term of 40 years. There remains now only 14 of these loans and they average over \$2000 per farm ahead of schedule on their repayments.

Following Mr. Lawson's summation of the 1950 business there were a few remarks to the group by Mr. Lawson, local supervisor for the FHA in Haskell County, by Mr. Wallace W. White, District Supervisor for the Rolling Plains and West Cross Timbers Section.

The group spread a basket lunch at the noon hour and after lunch a very profitable discussion on cotton insects was led by County Agent, Frank Martin.

Those borrower members attending were: Mr. and Mrs. Willie Farrel; Mr. and Mrs. Austin New and daughter; Mr. and Mrs. R. V. Earles and son; Mr. and Mrs. Vernay Howard and son; Mr. and Mrs. L. B. Jones; Mr. and Mrs. Cecil Jetton; Mr. and Mrs. Ira Short; Mr. and Mrs. Glen Caddell and son; Mr. and Mrs. Paul Grinstead and daughter; Mr. and Mrs. R. T. Landess. FHA County Committeemen and their wives attending were Mr. and Mrs. Herman D. Gammill and Mr. and Mrs. J. W. Brown.

Other guests were County Agent, Frank Martin; District Supervisor, Wallace White, of Dallas; Farm Management Specialist, Lawrence Smith, of the

Pvt. Charles L. Miller, 18, of Haskell, one of the 496 Texans who arrived recently at Camp Cooke, Calif. began his basic training last week with the 40th Infantry Division.

He is among a group of 4,000 men from all parts of the country who were assigned to the former Southern California National Guard division. The 40th, which was called to active duty last October and is now receiving additional men to train.

Pvt. Miller, the son of Mr. and Mrs. Felix Miller, was employed as a truck driver before he volunteered for duty in the Army.

Area Farmers to Attend Soil Parley In Oklahoma City

More than 2,000 farmers and ranchers will meet in Oklahoma City February 20 for a three-day conference devoted to the one interest common to them all—conservation of the nation's soil and water resources.

Jack Idol from Benjamin, chairman of the Wichita-Brazos Soil Conservation District and Clay Grove from Munday plan to attend the convention, representing the local Wichita-Brazos Soil Conservation District.

Former Knox City Officer Freed In Murder Trial

A jury in District Court at Seymour last week acquitted Lee Wampler, 60, Knox City night watchman, of a charge of murder in the fatal shooting of Juy Milford, former Knox City cafe operator.

Milford was shot to death at Knox City Feb. 23, 1950. Wampler pleaded self defense.

The case was moved to Seymour from Knox county on a change of venue.

Growers Assured 30c Lb. for New Cotton Crop

In an announcement from Washington Wednesday, the government assured growers they will get an average of at least 30 cents a pound for this year's cotton crop.

The agriculture department said the base price support rate for 1951 crop cotton will be at least 29.68 cents a pound for middling seven-eighths inch cotton. This compares with last year's base rate of 27.90 cents. Better grades will be eligible for higher rates.

This promised price floor is considerably below current market prices. The department reported that in mid-January farmers were receiving an average of nearly 42 cents. Prices advanced sharply because of last year's unusually short crop. The department has asked farmers to produce at least 60 per cent more cotton this year to meet needs under the defense program.

Certified planting seed from fields that were inspected during the growing season and were properly handled at harvest time. They have been cleaned, tested for purity and germination and properly stored. The extra cost is cheap insurance so far as stands and yields are concerned.

Rev. Kenneth W. Copeland Speaks Over CBS Network

One sermon among those preached by 25,000 Methodist pastors Sunday, February 18th in launching the denomination's Week of Dedication, was, through the cooperation of the Columbia Broadcasting System, more widely heard than any other. It was preached by a former Haskell minister, the Rev. Kenneth W. Copeland of San Antonio on the subject "Disciplined Dedication."

The message originated in the studios of KTSA and was carried over the CBS network, in a sustaining program, from 9:30 to 10 a. m., Central Time, as the second of its two regular Sunday morning "Church of the Air" services.

Dr. Copeland, one of Methodism's younger ministers, was pastor of the First Methodist Church here from 1940 to 1944. He came into national prominence two years ago when he was made minister of Travis Park Church, San Antonio, one of the five largest churches in the denomination. He had previously been pastor of the church in Stillwater, Okla., which ministers to 3,000 Methodist students in Oklahoma A & M College, going there from Haskell.

There Is A Reason

And You Will Agree
Once You Have Tried Our Service

When we bought the Hattox Humble station we knew we were stepping into a field of keen competition. We knew there were many good stations and good station operators in Haskell. Also our station was doing a volume of business which we felt might be hard to maintain. But in spite of these facts our business has increased every month since we started operating it. The sales are now the highest in the history of the station and we have the honor of being among the leading in our district in sales. THERE IS A REASON FOR THE INCREASE IN SALES—VISIT US AND LEARN FOR YOURSELF.

Hours Increased

In order to take care of our increased volume we have added another employee, Merle Weaver, who has had a number of years experience in the business and are increasing our hours, remaining open now until 10:30 each evening. We feel that this will enable us to handle the increased volume in a more satisfactory manner.

Over 80 Years Experience

The combined experience of our personnel exceeds 80 years, Buck King, 25 years, John Crow 16 years, Charlie Brown, 16 years and all are Humbled trained men, having attended Humble schools. John Robison, 20 years, Merle Weaver several and Harry Fred Sims a beginner. When you bring your car here you can be sure it will be serviced by men who have the know how and are eager to give you the very best service to the last detail.

Now! Clothes dried faster than you can wash 'em!

Gas course, cause gas is fast!

FASTER than any other clothes dryer. Lightweight fabrics are ready to iron in 15 minutes... dry in 20. Compared with old haul-hang-and-pin way... a Gas dryer is 15 times faster.

LESS & EASIER IRONING. Gas clothes dryer damp-dries; no sprinkling. Also, towels, sheets and knits come out so unwrinkled you do not have to iron them at all!

SAFER, MORE SANITARY. Gas dryer does not over-dry and weaken fibres. It sweetens, purifies better than sunshine... without danger of sun fading and clothes pin rips.

NO WEATHER WORRIES. Ice fingers, mud splattered sheets, laundry mildewing... you'll never have these. With a Gas dryer you can wash any day... even at night if you want to!

COSTS LESS per load than any other dryer. What's more, you don't have to keep such a big supply of children's clothes. A Gas dryer makes it easy to wash more often.

FASTER FOR WATER-HEATING, TOO. Gas is only fuel fast enough to keep up with hot water demands of any washer... yet flexible enough to give right temperature water for any job.

Why wait? See new automatic Gas clothes dryers at Gas Appliance Dealers or Lone Star Gas Company, today!

GEORGE WASHINGTON

"First in war, first in peace, and first in the hearts of his countrymen." These words were written at the time of his death, describing public opinion held for him at that time and still holds for him.

Washington's death was due to exposure while riding over his estate, Mount Vernon.

He was born February 22, 1732 in Westmorland, Virginia, and died December 14, 1799. George Washington's parents moved to Mt. Vernon in 1735. He entered the military service of Virginia. Washington took command of the Continental Army in Cambridge, Mass., July 3, 1775. After winning the Revolutionary War he took leave of the officers of his force, December 4, 1783 at Frances Tavern, New York City, and formally resigned to Congress December 20th.

The life of Washington is much intertwined with the forming of our country, the United States of America. The capitol, Washington, D. C., was named in honour of him and it was the first and only city ever planned exclusively by a country for its seat of government.

Communism is making an effort to control the world, and as our country is a part of it, the citizens of today must recall its heritage, that our forefathers fought and died for so that our form of government would live.

Washington was one of these forefathers we revere so dearly and that is one of the reasons we pay homage to him on his birthday.

KITCHEN MEMO

GREAT grandmother was right when she fed her family old fashioned Molasses Pie for the iron and calcium in molasses are important daily needs in anybody's diet. Combine 4 slightly beaten eggs, 1/2 cup molasses, 1 cup corn syrup, 1/2 tsp. salt, 1 tsp. vanilla, 1 cup melted butter or margarine. Mix well and pour into a 9-inch unbaked pie crust. Bake 35 mins. in a gas oven set at 350°F. For Molasses-Pecan Pie, add 1 cup chopped pecans to mixture before pouring into pie crust.

Grease may splash onto the wall behind your range. Cut a sheet of plastic to fasten on the wall. Then a quick wipe with a soapy cloth will keep it clean.

Quilted coverlets are precious possessions and need to be washed and dried with care. The sagging weight of a wet coverlet causes uneven drying on the line and distorts its shape. If you haven't an automatic gas dryer, borrow the use of one for drying your coverlets. Set the dial at high temperature to completely dry for 20 to 25 minutes and the coverlet will be soft, fluffy and perfectly shaped.

To prevent the flowerettes from breaking off as you lift cauliflower from the pan, put the vegetable into a clean cloth tied to form a bag. Cook, of course, over a low gentle simmer flame.

Spill your pins and needles? A dime-store magnet in your sewing box will pick them up in a flash.

If food is burned on the bottom of a pan, soak with baking soda and water overnight. When you're in a hurry to use the pan, bring cold water and soda to a boil over a high flame until burned residue falls off.

Did You Know?...

There were 840 cases in Home Service alone in the Haskell County Chapter of the American Red Cross, according to James A. Byrd, Home Service Chairman. These services were for active servicemen, veterans, and civilians and included verifications for emergency furloughs, extensions, allotment claims, and applications for discharge; claims service, financial assistance, and welfare reports.

Theron Cahill, Water Safety Chairman, reported that 131 Haskell County Youths were registered in the 1950 Red Cross Learn-to-Swim program and certificates were issued to 91 of this number.

A grant of \$3601.11 was made by the National Red Cross for the victims of the tornado in the Rochester-O'Brien-Weinert area, according to B. C. Chapman, Disaster Chairman.

There are two currently authorized Red Cross First Aid Instructors in Haskell County; Goodson Sellers of Rule, and Ray Lusk of Haskell, and courses are available to any organization or individual upon request.

These are among the many services in your chapter. Every day millions of people turn to the Red Cross—once a year the Red Cross turns to the people.

Bridal Shower In Rochester Home For Miss Hutchens

The beautiful home of Mr. and Mrs. Ira Grinstead in Rochester was the scene of a lovely bridal tea Wednesday afternoon, Feb. 24, complimenting Miss Floy Mae Hutchens of Rochester, bride-elect of Winfred Jenkins.

Mrs. Grinstead greeted the guests as they arrived. In the receiving line were Mrs. Floy Hutchens, mother of the bride-elect, Mrs. Jenkins, mother of the groom-to-be, Floy Mae Hutchens, and her sister, Florene Hutchens.

Mrs. Kenneth Russell presided at the bride's book.

Gifts were shown by Mesdames Lewis Hester and Floyd Knox.

During tea hours, Mrs. Bob Speck, Mrs. O. R. Cox and Mrs. E. Hob Smith rendered piano music.

Mesdames Billy Guy Hist, Donald Ray Jones, Kenneth Newberry and Miss Bobbie Johnston alternated in pouring hot spiced tea and serving cookies, mint hearts, and cheese spread Ritz crackers topped with olives.

The lace-laid table was centered with a large red heart made of styfoam, encircled with a row of lemon leaves and white carnations.

Gift from the hostess to the honoree was a set of dishes with peach blossom design.

Approximately 75 guests called or sent gifts during the afternoon.

Miss Doris Monse and Norvell Lehrmann Wed In Candlelight Service at Sagerton

Standing before an altar marked with baskets of white gladioluses a candlelight service was read uniting in marriage Doris Monse, daughter of Mr. and Mrs. Leo Monse of Sagerton and Norvell Lehrmann, son of Mr. and Mrs. Otto Lehrmann of Sagerton, Sunday evening, February 18, at the St. Paul's Lutheran Church at 8:30 o'clock. The Rev. O. E. Oelke, pastor, read the double ring ceremony.

Miss Doris Franke, church organist, played the traditional bridal music on the church organ. Candlelighter for the occasion was Willie D. Lehrmann, brother of the groom.

The bride, who entered the church on the arm of her father, wore a gown of white silk marquisette over white taffeta with a square yolk of lace bordered with ruffle and a fitted bodice with an inserted belt lace at the waistline. The gathered skirt ended in a long train at the back. Her veil was gathered with two gardenias in the headpiece. For something old she chose her mother's wedding ring and for something blue she wore a blue garter. She carried a white Bible and her bridal bouquet was gardenias and white carnations with white satin streamers.

The bride is a 1936 graduate of Rule High School and the groom is a 1949 graduate of Sagerton High School.

Out-of-town guests were: Mr. and Mrs. Franklin Mrazek and children and Doris and Dorothy Mrazek of Driscoll, Mr. and Mrs. Joe Hilscher of Rule, Mr. and Mrs. George Monse and family of Stamford, and Mr. and Mrs. Holland Weaver and family of Rule.

Miss Eudora Hawkins Is Guest Speaker At Meeting of Magazine Club

Through the courtesy of the West Texas Utilities Company, members of the Magazine Club were fortunate in having as guest speaker at the regular Club meeting Friday, Miss Eudora Hawkins, chairman of Sixth District, Rules and Procedure, Texas Federation of Womens Clubs.

Slides were shown depicting the homes and haunts of English Lake Poets, Wordsworth, Colledge, Keats and Byron. As the speaker repeated lines from these favorite

writers, the accent, enunciation, and rhythm of her voice was in keeping with "Daffodils", "Rhythm of Ancient Mariner", and "To a Daisy."

The speaker gave the time, place and by whom written of each Spring program as outlined in the course of study, "Education for Better Living."

The program director, Mrs. Wallace Cox gave a resume of Literature, stressing English and American poets.

Following the "television" trip to England, Scotland and New England States, Mrs. C. V. Payne directed the singing of Auld Lang Syne, Comin' Through the Rye, and Seeing Nellie Home.

V. F. W. Womans Auxiliary Is Formed Here

Kindergarten For Pre-School Age Children Planned

Elsewhere in the paper will be found an announcement by Mrs. Bill Dean requesting the mothers who are interested in a kindergarten to contact her by Monday the 26th, at her home just across the street from the high school cafeteria.

Mrs. Dean states if there is enough interest manifested that she plans to start a kindergarten for pre-school age children.

Mrs. Dean is a Baylor University graduate with a B. A. degree in education and has had two years experience in teaching.

Spring Meeting Of FHA Chapters Set March 3rd

Eighty-one affiliated chapters of the Future Homemakers of America will have their spring meeting at Levelland, Saturday, March 3rd. Miss Watson, Haskell High School Homemaking teacher, Mrs. J. V. Clare and Mrs. R. W. Herren will leave Friday afternoon, March 2, with fifteen girls representing the Florence Fields Chapter of Haskell.

Miss Betty Herren, daughter of Mr. and Mrs. R. W. Herren, was chosen by the area executive council as one of the nine girls to be voted upon at Levelland for an area office. Miss Watson says she is quite happy for Betty to be chosen as a candidate and that this is a nice honor for Betty and for Haskell. Miss Watson is hopeful that Betty will be elected, but says that competition with some of the larger schools will be strong.

HHS Pep Squad Cheer Leaders Elected

Haskell cheer leaders for 1951 were elected February 14, by the Pep Squad of Haskell High School. Elected were the following: Betty Joy Redwine, head leader.

Jo Ann Bryan, Senior leader. Eva Adkins, Junior leader.

Patsy Camp, Eileen Rueffer, and Jeanne Redwine, co-leaders. These leaders will attend a school at Huntsville so they will be better qualified to lead the fans in the 1951 football season.

RED CROSS IN KOREA

When the first American troops landed in Korea, a Red Cross field director was with them, and throughout the Korean war other field men continued to serve our fighting forces — providing emergency communications with their families, distributing comfort articles, offering guidance and cheering counsel often work-

ing counsel— often working around the clock when the going was rough. With our expanding armed forces more and more such workers are needed. Your contribution to the 1951 Red Cross Fund Campaign will help provide them. Bring your shirts and khakis to the Service Cleaners. We guarantee to please you. 7-9p

Infiltrating Texas May Change California Division To Lone Star Outfit Any Day

CAMP COOKE, CALIF.—What happens to the nation's defense establishment when the sovereign state of Texas answers a call to arms?

The 40th Infantry Division, which is as California-ish as the sunshine for which its native state is noted, came up with one answer today.

When the last of 4000 new draftees from all parts of the country have passed through the 40th Replacement Company, one out of every eight will hail from the Lone Star State. Exactly 496 Texans passed through for processing last week.

The Texans figured the eight-to-one odds were about equal.

The Californians figured the ratio of Texas to non-Texans was not unreasonably low, in view of the Texans' frequent claims to having the biggest and the best of everything.

The new group of Texans is in addition to another large group that was sent to Camp Cooke last October to help fill the ranks of the 40th Division, a former National Guard unit called to active duty.

Nor were the October arrivals the first Texans to be sent to California for service with the 40th. The migration began as early as World War I days, and among this first group of Texans was Maj. H. Miller Ainsworth, who now commands the 36th Infantry Division, Texas National Guard.

Since its recall to active duty, the division has acquired men from every state in the union and from territories and possessions.

If a Californian says California grapefruits are larger than Texas grapefruits, there are 96 men from Rio Grande Valley communities to counter the claim.

If a man from New Orleans says the Crescent City is the largest in the South, there are 77 new arrivals from the Houston vicinity to tell him different.

If a man from Laguna Beach says he is from a famous resort town, there are 27 men from Galveston to tell him about a famous island resort town in Texas.

If a man from the nation's capital brags about his home town, there are 32 men from the Austin vicinity who will probably say that the Texas capitol dome stands higher than the Washington Monument.

If anyone doubts that Texas has a navy, there are 496 men to tell him about the Battleship Texas, which is now a state shrine.

If anyone doubts that Dallas is a famous fashion center or that Fort Worth is a famous aircraft center, there are 41 men from the Big D-Ft. Worth area to tell him otherwise.

If a man from New England says he is from an industrial center, there are 187 men from the industrialized, oil-rich Texas Gulf Coast to match the claim.

If anyone should sound the battle cry, "Remember the Alamo," there are 28 men from San Antonio who will probably reply, "Remember it? Why, I've been through it—hundreds of times."

But the little town of Kenedy (pop. about 3000) set somewhat of a record for per capita representation in the 40th. Its contribution—seven men.

Farmer Near Haskell Has Novel Plan for Re-Seeding Pasture

Noah Lane, prominent farmer two miles southeast of Haskell, has an excellent plan of his own for re-seeding a large acreage of better grasses. Last March, assisted by Soil Conservation Service technicians of the California Creek Soil Conservation District, he re-seeded a 6 acre field between his house and barn to King Ranch bluestem. He is using this field both for grazing and a seed source.

The K-R bluestem was mowed in September, 1950 and the hay, with seed and all, was sacked. The actual seed yield was estimated at approximately 100 pounds of seed per acre. This seed-hay has been saved and this spring Lane plans to begin re-seeding a 385 acre pasture which has been cleared of mesquite trees. The seed-hay will be scattered over the pasture. By using this method Lane has eliminated the dusty job of running the hay through a combine and the hay serves as a mulch to protect the seed when the seed-hay has been scattered in the pasture.

Lt. Robt. Austin On Destroyer In Korean Waters

Lt. (jg) Robert W. Austin, USN, husband of the former Jean McFarlin of Haskell, is serving aboard the destroyer USS Stickell, now operating in the Far East.

The Stickell became the first Naval vessel to be fired on by Communists, when she sailed in company with the destroyer USS Anderson on a good-will cruise to Saigon, French Indo-China.

The incident took place before the outbreak of hostilities in Korea, after two days in which the Stickell fired 163 rounds of ammunition honoring His Majesty Bao Dal, various French Naval officials, U. S. Naval officials and other dignitaries. The "saluting ship" in the Navy, as her crew referred to her, came under the rifle and mortar fire of Viet Na's rebel forces.

Ancient Indian Figurines Secured For Texas Museum

A display of ancient Indian figurines is a new attraction to Texas Memorial Museum visitors at the University of Texas.

The Huextec Indians of Mexico, northernmost of the high culture groups, made the clay miniatures of faces and animals more than a thousand years ago, Museum Assistant Director Glen Evans said.

The Huaxtec region of Mexico extends along the Gulf Coast from the towns of Tampico and Valles to Victoria.

Science Will Aid Improvement of Range Grasses

The University of Texas Plant Research Institute is well into its program to lay a scientific base for improving Texas range grasses.

Dr. W. Gordon Whitley, Institute director, reports that:

A general survey of the characteristics and distribution of 254 Texas range grasses will be published this summer, and a new survey to summarize reproduction and breeding data on Southwestern grasses is underway.

Several basic nutritional studies of Texas grasses have been completed or are in final publication stages, including two projects which may improve phosphorus fertilizer practices.

Four studies of grass reproduction have been started, including one to produce mutations and other inheritable changes in grasses by radiation, and another to attempt to produce superior grasses by doubling their chromosome numbers through exposure to the drug colchicine.

Other investigations underway include a study of what constitutes drought resistance in Texas grasses and a general project to discover and study natural hybrid plants and attempt to reproduce them artificially.

Want more THRILL per dollar?

WHAT are the things you hope some day to have in an automobile?

Is it power that rises to every challenge?

Is it the satisfied feeling of being a very important person there at the wheel?

Is it day-long comfort and ample dimensions that make every trip a pleasure?

Is it the durable goodness of sound construction—the sturdy strength that will outlast the years?

Well, sir, the time has come for you to take to heart these three words of sensible advice—"SMART BUY'S BUICK."

Every Buick has Fireball power—an exclusive combustion principle that makes each drop of fuel do extra duty.

Every Buick has coil springs on all four wheels—that add to your comfort and never need service.

Every Buick can be had with Dynaflo

Drive,* which lends extra smoothness to all the miles you drive and saves wear on tires, engine and transmission for long-run economy.

Every Buick sparkles with added conveniences, refinements, appointments that lift these 1951 beauties far above the "utility" level and make them a special joy to own.

And when it comes to price—we ask you to compare Buick with the field. Come see us soon. Lots of folks are comparing and finding there's no buy like a Buick.

**Standard on ROADMASTER, optional at extra cost on other Buicks. Standard equipment, accessories, trim and models are subject to change without notice.*

"Smart Buy's Buick"

NO OTHER CAR PROVIDES ALL THIS:

DYNAFLOW DRIVE—saves strain on driver and car • **FIREBALL POWER**—high-compression, valve-in-head engine gets more good from every drop of fuel • **PUSH-BAR PORRFRONT**—combines smart style and unsurpassed protection • **WHITE-GLOW INSTRUMENTS**—greater clarity at night • **TORQUE-TUBE DRIVE**—steadies ride, improves driving control • **4-WHEEL COIL SPRINGING**—cushions ride, saves servicing costs • **DUAL VENTILATION**—outside air fed separately to right or left of front compartment • **SELF-ENERGIZING BRAKES**—hydraulic—multiply pedal-pressure five times at brake drum • **DREAMLINE STYLING**—tapered, car-length fenders, gleaming sweepers on most models • **Plus!** Self-locking luggage lid, Stop-On parking brake, two-way ignition lock, Safety-Ride rims, Hi-Polced engine mounting, Body by Fisher

R. W. Merchant Equipment Co. Named Authorized Quonset Building Dealer

Appointment of R. W. Merchant Equipment Co. as an authorized dealer for the famous line of Quonset buildings in Haskell and vicinity, was announced today.

The announcement was made by John F. McComb, President of the McRan Company, Houston, Texas, distributors of the economical all steel arch-shaped structures for farms, industrial and commercial use.

"The appointment of R. W. Merchant, owner of the local concern is being made to add sales and erection service facilities to meet an increasing demand for Quonsets throughout this area. To take care of this demand and supporting the organization of R. W. Merchant Equipment Co. will be adequate stocks from which prompt delivery can be made, an engineering staff and fabricating facilities to make Quonset building adaptations to whatever extent may be desired," Mr. McComb said.

Quonset buildings are manufactured by the Great Lakes Steel Corporation, Stran-Steel Division, Detroit, Michigan and their amazing versatility was first shown in World War II. After V-J Day their fast erection and economy of materials helped speed the quick return to peace time prosperity. Today, all steel Quonsets offer the ideal solution to the fast growing need of farmers, ranchers and industry for quick, economical construction.

According to the manufacturer Quonsets are described as an achievement in design and production that for the first time

enables a building buyer to obtain a quality, fire-safe structure at the cost of ordinary type construction. Streamlined design featuring high tensile alloy steel applied to the framework of Quonsets provide savings by minimizing material, parts and labor required without sacrifice in size, strength or durability.

The N-A-X high tensile alloy steel used for principal support members of Quonsets give an additional advantage to the building owner. This benefit is a marked resistance to corrosion as compared with carbon steel ordinarily used for framing manufactured metal buildings.

In all Quonsets the steel members have the patented Stran-Steel nailing groove. Nails driven in this groove are deformed and clinched many times tighter than that of ordinary building materials. In addition to being a big time-saver in erecting the building, this feature enables any handy man to apply common interior lining materials to the steel framework as simply as to wood.

On the farms and ranches, the buildings are used for feed and implement storage, hay barns, dairy barns, grain storage, stock sheds, poultry houses and utility buildings of all kinds. Industry and commerce use these for manufacturing plants, stores, offices, warehouses, garages, welding, paint and machine shops, and many other uses too numerous to mention.

The basic sizes of the Quonset building range from the Quonset set 20 - 20 feet wide, length variable, in 12 to 20 foot sections, through the Quonset 24, 32 and 40 to the Quonset Multiple with variable widths in sections of 20 feet, 6 inches and variable lengths in sections of 20 feet. (Adv.)

LUNCH AT OUR SPOT-LESS SNACK BAR

Christian Workers' School at First Methodist

By T. G. Craft, Pastor

Our Christian Workers' School will begin at 2:30 Sunday afternoon, February 25. This School will be conducted from Monday evening through Thursday evening from 7:30 to 9:30 with 20 minutes intermission between classes.

This school is for all church members; Certainly no teacher or officer in the school will fail to take one of the following courses:

1. MYF Handbook for our young people from fifteen to twenty-three years of age. Intermediates also, are invited to sit in on this course, but credit cannot be given those under fifteen years of age. Miss Barbara Lowery, conference director of Young People will be here and teach this course. Our young people will enjoy this privilege and rare opportunity.

2. GUIDING KINDERGARTEN CHILDREN, will be taught by Mrs. S. H. Vaughter. This is a course every mother should take who has small children, in particular. Mothers need this course in order to be good mothers toward their children in the home as well as in Sunday School. No one with small children should neglect to enroll in this course. It will be rewarding down the years.

3. CHILD'S APPROACH TO RELIGION, will be taught by Mrs. H. M. Secord. This course is especially designed for teachers in the Primary and Junior Departments of the Church School. It is important that mothers and young women who may become teachers and workers in the Church School acquaint themselves with this course.

4. TEACHINGS OF JESUS, taught by T. G. Craft, Pastor. This is a New Testament study of the teachings of Jesus. This course is designed to throw light on the study and interpretation of the Gospels. Men and Women in our adult Bible Classes should enroll in this course.

Attention is called to our Easter meeting from March 18 through the 25th. May we make the Easter a time of worship and deep renewal of our souls in the graces of God. New members will be received and infants dedicated to the Lord. No one can do a better thing than to dedicate their children to the Lord in early life. On Palm and Easter Sunday we will welcome new members and will be happy to Christen our babies. See your minister and arrange for these services.

WEEK-END VISITOR
John Henderson, former Haskell electrician who is now employed in San Diego, Calif., was a week-end visitor in Haskell in the home of his parents, Mr. and E. J. Henderson.

Dedication Week
By Nancy Pence Painter

The writer makes no claim of the following thoughts or facts. The Prayer Manual written by A. W. Wasson has so ably covered this Week of Dedication throughout the Methodist Churches.

Mr. Wasson so states in the manual that, this custom was started in the Methodist Church by the General Conference of 1948. If it is faithfully observed it will bring timely re-enforcement to the hard pressed forces of peace and righteousness throughout the world.

The week begins on the second Sunday in Lent and reaches its climax on the Sunday following. The Week of Dedication is called to take account of their stewardship. What are we doing with the five talents or two or one which God has entrusted to us?

The proportion of Christians in the world's population has not increased. The growth in population has far outstripped the growth in number of Christians. It is like a car going 50 miles an hour trying to overtake one going sixty. At present over two-thirds of the world's people are without any form of the Christian religion.

The whole world is suffering because the custodians of the gospel of Christ have been lukewarm in their efforts to share it with others for whom Christ died.

The Project of this Week of Dedication is a worldwide community of loyal followers of Christ large enough to establish world peace.

The writer has merely chronicled a few highlights from the

C-C Banquet—
