Steady rains which began falling early Wednesday have thoroughly soaked this section. A total of 2.82 inches had been measured here up to Thursday noon.

The celebration planned here on completion of Highway 30 through Haskell County has been postponed because of the heavy rain. Present plans are to stage the event early next month. Mayor Menefee has announced. Congressman Marvin Jones was in Haskell Wednesday and

Thursday addressed a group of Haskell business men at a dinner held in the Tonkawa Coffee Shop Wednesday. Congressman Jones declared that old-fashioned economy will solve present day difficulties to a large measure.

Miss Eunice Huckabee and Mrs. Clyde Grissom and daughter Emily are visiting relatives in Fort Worth and other points this week. John E. Robertson went to Abilene Wednesday, to accompany his son, French, home. French recently underwent an operation for appendicitis from which he is recovering nicely.

Fields of this city was guest speaker at a meeting of the Missionary Society of the Cisco Presbyterian Church in that city Thursday. While in Cisco she was a guest in the home of Mr. and Mrs. T. C. Williams, former Haskell residents.

40 Years Ago—Oct. 28, 1911

M. O. Field of Rule has purchased the wagon yard on South Clark Street and has moved to Haskell.

Mr. Ballew of Rochester was here Tuesday with a load of fine melons. We saw several that had been weighed and they tipped the scales at 40 and 50 pounds and sold for a cent a pound.

Yesterday afternoon P. P. Roberts horse became frightened and ran away while hitched to a buggy. The animal crashed into a telephone pole at the Sherrill corner and the buggy was broken up, injuring Mr. Roberts and a niece, Miss Myrtle Roberts, who was in the buggy with her uncle. Mr. and Mrs. W. E. Dickenson of Crowell have moved to Haskell. He has accepted a position with the City Meat Market.

G. W. Bedford has made an interesting experiment with long staple cotton which may prove that it can be successfully grown here. Last spring he planted about a dozen seed given him by F. G. Alexander. Several stalks came up and matured, from which Bedford has secured about two pounds of seed. He will continue the planting in the hope to eventually cultivate a fairly large crop.

Mrs. F. R. Allison of Stamford returned home Sunday evening after a visit here with her sister, Mrs. R. V. Robertson.

The Conley-Corbett Piano Co. of this city delivered several handsome pianos this week to homes in Throckmorton and Munday.

N. I. McCollum spent several days in Cisco this week on business.

Plainview is being promised a \$655,000 sugar factory as the first result of experiments proving that sugar beets grown in that territory contain 17 per cent sugar against 15 per cent in beets

4-H Club Members Will Observe Achievement Week

Haskell County 4-H Club members, more than 175 strong, will join with the nearly 2,000,000 members in the nation to observe National 4-H achievement Week, Nov. 3-11.

Working toward their 1951 theme, "Working Together for World Understanding," 4-H youth have been a busy group during the past year. They have produced and conserved food, worked to make their homes more comfortable and attractive, helped to supply the extra labor needed to produce crops and livestock and furnished "know how" for making their farms more efficient and productive. During National 4-H Achievement Week, they will report to the nation on just what they have done. The local volunteer 4-H leaders and the outstanding members will be recognized for the contributions they have made to the welfare of their state and nation.

In the famed Wisconsin beet sugar county.

The Jury Commissioners for County Court met last week and selected jurors to serve in the County Court for six months. The commission was composed of Crawford Allen, R. Massey and C. B. Norman.

50 Years Ago—Oct. 26, 1901

A steady number of new settlers have been coming into Haskell County for the past year and a half. A ride over the country now in any direction shows more new houses and farms than old ones.

Revs. V. G. Cunningham and Sam Bristow have been elected by the Stonewall-Haskell Baptist Association to fill the position of missionaries in the territory served by the association in place of Rev. D. James, resigned.

M. S. Pierson advertised that he had 1,000 bushels of seed oats for sale at his farm at 60 cents per bushel.

Wednesday night about 8 o'clock Sheriff J. W. Collins received a phone call from a woman living in the southwest part of the county stating that her husband had just been shot by someone in an attempt to kill him and requesting the sheriff to bring a doctor and come at once. Sheriff Collins left immediately, taking Dr. E. E. Gilbert, Deputy T. J. Lemmon and Matt Walker as special deputy. When they arrived at the place, about 20 miles southwest of town on the Stamford and Rayner road, they found a man suffering from a wound apparently by a bullet from a Winchester rifle. The bullet passed through the left forearm shattering the shoulder. The bullet had lodged under the skin back of the man's left shoulder. The injured man and his wife said the shooting was done from outside the house, while they were both in a small store operated in one part of the house. They claimed to know who did the shooting and the officers made arrests. No examining trial has been ordered and the matter will probably be taken up by the Grand Jury Monday.

Rev. J. T. Bloodworth returned Wednesday from the Northwest Conference at Corsicana. He has been assigned for the coming year to the Methodist Church at Willow Vale, Greer County, Okla. Willow Vale is a new town on the Orient Railway being built southward through the Territory.

uary 26, 1905. Walter Cousins, Jr., editor and publisher of Southern Pharmaceutical Journal, was born on March 7, 1910. "In March, 1915, Mr. Cousins purchased Southern Pharmaceutical Journal, established in September, 1908, by the late Dr. Eugene C. Eberle, Dean of the Baylor College of Pharmacy in Dallas and later Editor and Editor-in-Chief of the Journal of the American Pharmaceutical Association. At this time he sold the Palace Drug Store in Wichita Falls, which he had operated from 1910 until 1915, and moved to Dallas.

"Mr. Cousins was appointed to the membership of the Texas State Board of Pharmacy in 1913, and in 1920 succeeded Robert H. Walkers of Gonzales, another distinguished early pharmacist, as Secretary. He remained as Secretary of the Board until he was succeeded by his son, Walter Cousins, Jr., in November, 1941. Among other important posts which he held were the Secretary-Treasurership of the Texas Pharmaceutical Association and the Presidency of the National Association of Retail Druggists. Elected to the latter post in 1918, he was the only Texan to hold that office. He held membership in the American Pharmaceutical Association, the National Association of Boards of Pharmacy, and the National Wholesale Druggists Association.

"A pioneer in a new and rapidly developing country, Mr. Cousins stood for progress and advancement in all fields of pharmacy. He was ever watchful of the standards of his profession and always a supporter of education. Successful in business, he was able to give of his time and talents to the needs of his associates in the pharmaceutical industry and to the citizens of his State.

Local Health Unit Termed Need of Every Community

"What the average community needs is a well organized health department which emphasizes five types of activities to protect the child's health," Dr. Geo. W. Cox, State Health Officer said. "These activities are: (1) The safeguarding of child health and motherhood; (2) control of contagion; (3) accurate recording of births and deaths; (4) support of public health laboratories; and (5) sanitary control of diseases spread from human waste and by vermin and insects."

"The full time local health unit gives due emphasis to each of the above mentioned activities. To illustrate how these 5 essential functions are interrelated, the interest of the various divisions in the new born baby, preschool and school child may be cited as an example. Child health is safeguarded by providing information and instruction to the mother. Through the use of vital statistics, complete and accurate birth registration is kept, as well as records indicating deaths which occur among children from preventable diseases.

"Contagion is prevented or controlled against further spread through the encouragement of immunization early in life, through reporting of infectious disease. Public health laboratories and sanitary engineers provide additional bulwarks of protection for child life.

Billie Jean Bowen Selected As Mattson Football Sweetheart

Miss Billie Jean Bowen, senior student at Mattson and the daughter of Mrs. Eulice Bowen of Weinert, was named 1952 football sweetheart of the Mattson Mustangs Thursday night, Oct. 18 at the Mattson-Pain: Creek game.

J. C. Daniels was selected by the Mustang Pep Squad as their football hero for the year. He presented Billie with a bouquet of beautiful scarlet roses, emblematic of the Mattson school colors. Also, Billie Jean will receive a Sweetheart Jacket later in the year when members of the Mustang squad receive their letter awards.

In keeping with their custom, the Pep Squad presented the football hero a sterling identification bracelet engraved with the lettering "Mustang '52."

Little Elaine Beard, daughter of Mr. and Mrs. George Beard, escorted by Jimmy Norman, son of Mr. and Mrs. Weldon Norman, carried the gifts to the honoree. Mattson lost the hard fought game to Paint Creek by a score of 43-24.

Many Important Dates For Voters Dot Texas Political Calendar For 1952

Applications Being Taken For Game Warden School

The Director of Law Enforcement for the Game and Fish Commission said applications may now be made for the next game warden school at Texas Agricultural and Mechanical College.

Applicants will be given an opportunity to demonstrate their qualifications by employment during the coming hunting season. Candidates for the game warden school will be selected from this group.

He said requests for information on the course beginning in February, should be addressed to him at the Game and Fish Commission headquarters in the Walton Building, Austin.

The Law Enforcement Director said applicants should be between the ages of 21 and 40 years, have at least a high school education and be in good physical condition. Salaries for game wardens in the field ranges from \$2400 to \$3600.

The approximately 15 men to be chosen for the four month course at A&M will, on graduation, be assigned to the regular state game warden force.

Since this course was established six years ago, almost 100 new men have been channeled into the regular warden forces to fill vacancies caused by retirement and other reasons.

The 1951 class of 19 was graduated last May. The Director of Law Enforcement said the course will be conducted in cooperation with the Department of Wildlife Management at A&M College.

One of the major phases emphasized by the Commission personnel with the annual classes concerns law enforcement.

ATTEND TCU-A&M FOOTBALL GAME
Mr. and Mrs. H. C. King spent the week end in Fort Worth where they attended the TCU-A&M football game. They visited Sunday with relatives in Gordon and Eastland.

Voters of Texas have several important party convention dates during the political year 1952, an Austin writer for the Associated Press points out.

They start May 3 when precinct presidential conventions are held. County conventions will be held May 6, and the state presidential conventions are on May 26.

These conventions — for both Democrats and Republicans — are held only in presidential election years.

The precinct meetings are held to select delegates for the county conventions. The county conventions name state convention delegates; the state convention sends delegates to the national convention where the party's presidential nomination is made.

Thus for the average voter, his best chance to have a word to say on his party's nominee, instructions, platform, etc. comes on May 3 at the precinct meetings.

National conventions of both parties are held in July. The state and local convention process is repeated late in the summer and early in the fall.

They are supposed to be of local or statewide import. In the case of the Republicans, they nominate their state office slate at a September convention. The Democrats nominate in primaries, but certify their candidates and adopt a platform in September.

The precinct conventions in this chain are held July 28, county conventions Aug. 2; state conventions Sept. 9.

There are many other important political dates in 1952. The first is Jan. 31 — last day for paying your poll tax or getting an exemption certificate.

June 2 is the last day for candidates for U. S. senator and state offices to file for a place on the Democratic primary ballot.

The first Democratic primary will be held July 26. The second or run-off primary is dated for Aug. 23.

"Gay Nineties" Fashion Show Highlights Program at Magazine Club Meeting

Autumn's brightest tints of orange and yellow were dominant in table decorations to give gay color to a Gay Nineties Fashion Show and tea when the Magazine Club met in the club house Friday, Oct. 19.

Mrs. J. U. Fields, president, extended greetings and directed a brief business session. Mrs. Fred Monke of Weisner was elected delegate to the Denton State Convention in November. As members of the TFWC state board, Mrs. Fields and Mrs. Robert Wheatley will attend the convention. Mrs. Carrol D. Bledsoe introduced Mrs. La Fawn Green of Abilene as fashion commentator, and Mrs. Martin pianist who played softly during the fashion show and tea.

Costumes of the nineties were supplied through Mrs. J. U. Fields, Mrs. Jack Merchant, Mrs. J. E. Walling, Sr., and Mrs. T. J. Ar buckle. Modeling were Mrs. Fields, Mrs. Carrol Bledsoe, Alton Middleton, Jane Holt, Wm. J. Kemp, Joe Thomson, Joe Harper, Hugh Watson, of Stamford and Mrs. Greene who modeled her great-grandmother's black evening dress and hat. Morning, afternoon, tea, evening and wedding dress were worn by the models. Ostrich feather and ivory fans,

capes, jackets, tiny parasols, gloves, muffs and hand bags were accessories for many of the costumes.

Most of the costumes came from Mrs. Jack Merchant's trousseau. They were very elaborate with lace, beads and embroidery. They were of the finest quality in materials and workmanship.

Mrs. Merchant's table display consisted of more fragile evening gowns, evening slippers, a white coat worn by her elder baby son, a Little Lord Fauntleroy suit worn by the younger son. The models were also lovely and graceful in the long ago costumes that flashlight group pictures were taken of them. The Fine Arts committee served refreshments to Meses. J. U. Fields, La Fawn Greene, Carrol D. Bledsoe, Fred Monke, K.H. Thornton, C. L. Lewis, John A. Couch, W. A. Kimbrough, S. Hassen, O. E. Patterson, H. F. Barnes, J. G. Vaughn, W. A. Lyles, E. M. Frierson, R. L. Harrison, A. C. Pierson, J. Kemp, W. I. McCollum, W. N. Huckabee, Jack Merchant, Mary Martin, Earl Atchison, Wallace Cox, Hugh Watson, of Stamford, Alton Middleton, Joe Thomson, Joe Harper, Jane Holt, J. M. Collins, Lucille Watson and Nettie McCollum.

J. W. Kennedy's Make Annual Hunt Trip to Colorado
Mr. and Mrs. J. W. Kennedy of Rankin, Texas, former Haskell residents, spent last week in Colorado on their annual deer hunting trip. Accompanying them was their youngest son, Weldon Kennedy, who is a senior in Rankin High School. They hunted in the region of Durango, Colo. Previously Mr. Kennedy had hunted in West Texas with employees of the Shell Pipe Line Corporation, but their trip to Colorado was planned as a family affair.
The Kennedys returned to Rankin Oct. 20, where Mr. Kennedy is district supervisor for Shell Pipe Line Corporation.

WTCC Reviews Provisions of Proposed Amendments To Be Voted On Nov. 13th

(Editor's Note—This is the first of a series of articles written to explain five proposed amendments to the constitution of Texas. Voters will decide in an election on November 13 whether these amendments shall become parts of the constitution. These articles are provided by the West Texas Chamber of Commerce as a public service.)
Raising Rural Fire Prevention District Tax Ceiling—Senate Joint Resolution (SJR) No. 8:
In 1949 voters approved a constitutional amendment providing for creation of Rural Fire Prevention Districts. It also provided that voters might create by election a tax not to exceed 3 cents per \$100. The vote of this amendment was 153,252 for and 145,298 against.
The amendment to be voted upon November 13 would make only one change in this Rural Fire Prevention District provisions. It would raise the tax ceiling from 3 to 50 cents per \$100.
Veterans Land Loans—House Joint Resolution (HJR) No. 2:
In 1946 Texas voters approved by majority of 80,022 to 29,935 an amendment to the Constitution known as Section 49-b of Article III.
That amendment authorizes the State to issue up to \$25,000,000 of bonds. Those bonds are to provide money that is loaned to veterans of World War II to buy farms or ranches. To operate this loan program the Veterans Land Board was created. It consists of the Governor, the State Comptroller and the Attorney General.
The amendment to be voted upon November 13 would make the following changes in the constitution's provisions affecting Veterans' Land Loans:
1. Increase from \$25,000,000 to \$100,000,000 the total amount of bonds the State could issue.
2. Make eligible for loans all men who serve in the armed forces as many as 90 days prior to December 31, 1952. The law now applies only to men who served prior to January 1, 1946.
3. Extend the life of the loan program from November, 1954 to November, 1959.
The legislature has enacted a law to put this amendment into effect immediately if it is approved on November 13.
To August 31, 1950 approximately one-half per cent of Texas' 800,000 veterans had obtained these loans. The veterans' land fund purchased land for veterans costing \$17,000,000 during the first year it operated.
Expense of administering the program is paid from the general revenue fund of the state—from taxes. This expense totaled \$106,479 in the year ending August 31, 1950. The legislature has appropriated \$150,000 for 1952 and \$140,000 for 1953 to meet operating expenses.
While three presidents have died in office, William Henry Harrison and Zachary Taylor are the only ones whose deaths occurred in the White House.

AUTOMATIC GAS RANGE

Sale NOW ON!

Cleanliness counts most

To keep her kitchen utensils mirror-bright and her kitchen walls spotless is every homemaker's goal. Ninety-six out of 100 homemakers in this area cook with a Gas range. It is no secret that many of them choose Gas on the basis of cleanliness alone.

CLEAN! Greasy steam from foods (which comes from the food) stays inside the pan with "waterless" Gas cooking. It doesn't escape to settle on kitchen walls. Only the ranges give exact control so necessary for this clean kitchen cooking. Why? Because Gas ranges give you dozens of heats to cook with—not just a few.

CLEAN! Greasy vapors are produced in broiling, but a Gas range gives cleaner-kitchen broiling. Why? Because a Gas range broils with the broiler door closed. Greasy vapors are locked in. These locked in vapors rise... right into the live Gas flame which consumes them.

CLEAN! Today's automatic Gas range burners give you stainless steel. And when spillovers happen, burners don't smoke up the kitchen by "burning-off" spilled foods. Instead they can be shut off instantly. Spilled foods are cleaned up with soap and water (the whole every homemaker agrees, there is no substitute).

Double Surprise for a lot of folks

EVERY time we publish the price of a Buick, it seems to surprise a lot of people, because they come in and tell us so.
They just can't believe that so little money buys such a lot of car — but it's true.
And that brings us to the second surprise — which is how much power and performance — how much comfort and room — what a long list of standout engineering features you get for the price.
Take power. You'll find that no other car at the price of the Buick SPECIAL pictured here delivers the horsepower you get from its high-compression, valve-in-head Fireball Engine.
Take comfort. The best thing to do is try the depth of its seats—their width—and the headroom you get in this Buick SPECIAL, and judge for yourself.
Take the ride. This Buick has big soft coil springs on every wheel, plus the solid firmness of a torque-tube keel—and the way this combination smoothes the bumps is something that's hard to match in cars costing a thousand dollars more.

"Smart Buick's Buick"

Take the way it steers. Buick engineers have given this light-handling beauty a special "front-end geometry" that almost does the steering for you—even brings the front wheels back to a straight line when you come out of a turn.
And you can add to all this Dynaflo Drive*—that puts magic smoothness into every mile you drive — and practically repays its extra cost by the way it protects the whole driving mechanism, and by the dollars it adds to trade-in value.
So if you have been hoping, some day, to own a Buick — what's holding you back? If you can afford any new car—better come in and see us now.

In our recent evangelistic labors in the Texas Conference, more than 10,000 new members were added to the Methodist Church. There are four other conferences yet to complete the work and report additions.

Many people are wondering why Methodism has entered into Visitation Evangelism. Thousands of people of our great nation do not attend any church, and have

Panels Named for County Teachers Organization

At a recent meeting of the executive committee of the Haskell County Local Unit of the Texas State Teachers Association, committee chairmen and members were appointed to serve during the current school year.

Supt. Connor Horton of the Weimer Schools, vice president of the county unit, presided as chairman for the meeting.

Chairmen and committee members appointed were: Auditing—James Reed, Haskell; Maybelle Foote, Paint Creek and Geraldine Pool, Rule.

Constitution—George Beard, Mattson; Haskell Stone, Haskell, and G. C. Herring, O'Brien.

Membership—Lavada I. Ray, Haskell; William R. Baker, Mattson, and Margie Lowery, O'Brien. Nominating—Robert R. King, Rochester; Pyeat McCollum, Haskell, and Dan McRae, Paint Creek.

Program—Mrs. Phil Simmons, Rochester; Mabel Derr, Weimer, and Irene Stewart, Sagerton.

Publicity and Public Relations—Jack Wester, Rule; Isla Corley, Rochester, and Mrs. Jim Byrd, Haskell.

Members of these committees will meet at 7:15 in the Activity Building of Haskell High School Monday evening, Oct. 29 for supper and a business meeting to make plans for this school year.

no commitment to Christ and His Church. These people are waiting for the church to come to them. Many of our members believe that the Christian Religion fills the need of human hearts, and gives peace of soul here and assurance of eternal life. Then, too, if we really believe in this Christian Religion, we will want to invite others to Come With Us To Christ.

In our local church, we have a training program teaching our people how to lead others to accept the Christ as Lord, and to unite with the church. We have two teams of laymen—men and women—who will do visitation evangelism. The "A" team will meet at the church at 6 o'clock on Monday and Wednesday evenings for their meal which will be served in the dining room of the church promptly at 6 o'clock. After the meal, there will be a 30 minute instruction given by Dr. A. Y. Brown. The workers will go immediately to visit those people for whom we are accepting responsibility for church membership. On Tuesday evening the "B" team will work following the same program as did the "A" team. The "B" team will work on Tuesday and Thursday evenings. There will be meals served at the church at 6 o'clock for all workers.

There will be church services at the church on each week night evening through Thursday at 7:30 o'clock. All of the people except the visitation teams will attend the church services. All visitation teams will return to the church not later than 9 o'clock each evening and give their report. We have about one hundred and fifty people who are prospects for Christ and the Methodist Church. This is not a high pressure proposition. We talk to people in a matter of fact way, trying to get them to accept Christ and become members of His Church.

Before 1800 there were 21 newspapers attempted west of the mountains and eight of these were in Kentucky.
