Permit granted the City of Stamford by the State Board of Water Engineers to appropriate 10,000 acre feet of water annually from Paint Creek in Haskell county for domestic, municipal and industrial uses, has been filed for record in the County Clerk's office here.

Granting of the permit to Stamford was opposed by Haskell city officials, acting in behalf of the city and a number of neighboring towns which would be deprived of a source of domestic water in allocation of the stream's waters to Stamford.

The State Board gave little consideration to Haskell's claims, and granted the permit on July 10, one day after a member of the Board, James S. Guleke, had met with Haskell city officials and told them the two cities would be given 30 days in which to try to work out a solution of their differences.

In the new permit granted Stamford, the Paint Creek water grant is contingent on that city agreeing to cancellation of an existing permit No. 1448 held by Stamford to divert water from the Brazos River.

The permit recorded here, authorizes the City of Stamford to impound 60,000 acre feet of water by means of a dam located on Paint Creek at a point which bears North 20 degrees, 30 min. West 3,120 feet from the Southeast corner of the S. Booker Survey A-22, Section 23. This point is approximately 11.7 miles southeast of Haskell.

Height of the proposed dam would be 75 feet and length 6,640 feet, creating a reservoir having an average width of 7,000 feet, average depth of stored water 11.7 feet, and length (shoreline) of impounded water 32,000.

Point specified in the permit as site for the dam is in what is known as the west pasture of Scott's Ranch, owned by the Estate of the late Haskell County attorney who established the ranch in the late 90's.

According to preliminary estimates of engineers, the reservoir would require purchase or leasing of approximately 3,500 or more acres of land.

Stamford officials are reported to have instituted steps toward purchasing the lands needed, but no instruments of sale or lease on any tracts in the area have been recorded to date.

Estimate by local real estate men as to the current value of ranch lands in the area range upward from \$40 with mineral rights retained. Some farm tracts in the area have sold recently at \$75 and \$85 per acre, it was reported.

Lions Given Review of Haskell County Scouts' Trip To World Scout Jamboree

Members of the Lions Club, at their noon meeting Tuesday, heard an interesting report from Boy Scouts who attended the World Jamboree of Scouting in Valley Forge, Penn. last month, and were shown a film depicting highlights of the trip and activity scenes at the Jamboree.

Dr. T. W. Williams and A. M. Turner were introduced by W. O. Holden and given recognition for their work and leadership in Scouting in Haskell county. The program was then turned over to Postmaster Harold Spain, who introduced Haskell Scouts who attended the Jamboree: Sammie Vaughter, Ernest Strain, Abe Turner and Temple Williams.

Other Scouts attending the Jamboree from Haskell County were David Counts of Rule; Wallace Cox, Paul Gothard, John Grindstaff, of O'Brien.

A film made by A. A. Cox of O'Brien, who accompanied the county group to the Jamboree, was shown, with Temple Williams as commentator.

He told the Lions that 47,173 Scouts from all states in the U. S., and many foreign countries were in attendance at the international event, and told of many interesting points visited on the trip to Pennsylvania and return. The Haskell group left July 25 at 1 p. m., and returned July 11 at 7 p. m., the young Scout related.

He gave in detail some of the highlights of their stop in Washington, D. C., where the Scouts were taken on a conducted tour to many points of interest, including Arlington National Cemetery. Also at the national capitol they were met by Congressman George Mahon, who accompanied them to the Senate Chamber in Congress.

Clay Kimbrough, Sr., Returns From 3600 Mile Trip Through Deep South

The opinion held by Clay Kimbrough, Sr., that Haskell county and this section is the "best country in the world" was given added emphasis during a recent trip of the prominent Haskell county farmer and landowner to his old home state of Alabama and through Mississippi and Louisiana.

Mr. Kimbrough made the 3,600 mile trip by automobile, and his leisurely tour gave ample time to observe general farming and agricultural conditions in that area of the South. His primary destination was Wilcox County, Ala., where he was born and reared. He recalled that he bought and sold cattle there when he was 14 years old, leaving when he was 20 to come to Texas.

Miss Balch Is New Home Economist For Lone Star

Appointment of Miss Billy June Balch as home economist for Lone Star Gas Company in this territory has been announced by Joe C. Darrow of Abilene, Division Superintendent. With headquarters in Sweetwater, Miss Balch will serve homemakers in the twenty-one towns comprising the Sweetwater, Stamford and Colorado City districts. Mr. Darrow said. These are Colorado City, Lorraine, Sweetwater, Roscoe, Snyder, Merkel, Trent, Stamford, Avoca, Leaders, Tuxedo, Hamlin, Colton, McCaulley, Royston, Sylvester, Haskell, Rule, Rottan, Roby and Anson.

Miss Balch, a native of Tahoga, Texas, recently completed a course of training in the gas company's home economics department in Dallas under Miss Julia Hunter, home economics director and in Abilene under Miss Marthe Ritter, home economics supervisor for this area.

The new home economist will be available for consultation on recipes, menu planning, party planning, laundering and household problems. Mr. Darrow pointed out. She will also be a source of information on how to produce balanced meals at a minimum cost and will counsel with home builders planning modern gas kitchens. She will hold cooking schools and give demonstrations on the care and use of gas equipment.

Miss Balch graduated from New Home High School in Tahoga and Hardin - Simmons University where she received a home economics degree. She is a member of the First Baptist Church in Abilene. Her hobby is making scrap books.

Farm Field Day Planned For Sept. In Wichita County

Continuing the Soil Improvement program inaugurated four years ago, Burlington Lines in cooperation with the Texas A. & M. Extension Service, the Soil Conservation Service, the Wichita County Water Improvement District, and a committee of leading farmers and business men are sponsoring a Field Demonstration meeting in Wichita county on September 15th.

Approved methods of seeding alfalfa and legumes, land leveling and the distribution of irrigation water will be observed in practical operation on different farms. A big barbecue and speaking program at the State Department Station at Iowa Park to complete a full day of events.

Organization for the demonstrations has been under way for some time with the Soil Conservation Service and the Irrigation District, re-organizing farm irrigation systems and leveling fields which will be planted to alfalfa and grasses on this eventful day. Iven D. Wood, Denver, Colo., irrigation specialist of the Soil Conservation Service is working with the local groups and will be on the program at the mid-September meeting. A. K. Kepperley, Burlington Lines agricultural agent, has been meeting with the committee through which plans for the Balanced Irrigation Farming Demonstration Day were completed.

Everett McCullough, Wichita Falls, heads up the steering committee composed of business men and farmers who are interested in making farms in their territory as productive as possible. The September meeting is another step in the community's active agricultural program, which already includes 4-H and FFA projects developing dairy herds, the Driedwell Soil Builders Awards and the Melabar Farm Project. The demonstration actually will show the answer to the acreage conversion problem which Texas farmers now are facing because of the Government's cotton and wheat acreage control program.

Goodwill is as fragile as an orchid, but as beautiful; as precious as a gold nugget, but as hard to find; as powerful as a giant turbine, but as difficult to build; as wonderful as youth, and as hard to keep.

Fall Ideal Time For Many Vegetables In Home Gardens

In most sections of Texas, there are from 60 to 90 days of good growing weather during the fall season and that is sufficient to grow a good fall garden. Today's high prices may mean, says John Hutchison, extension horticulturist of Texas A. & M. College, that if we don't grow our vegetables, we may not have them.

He says in most areas of the state there is more art to growing a fall garden than a spring garden when nature may be in a more cooperative mood. He points out there is real satisfaction in having cool, crisp, tender fresh vegetables on the family table for the vitamins and minerals they supply not only add that fresh color to the cheeks but are just naturally good for everyone. Then there is another very important item, that fall garden will cut dollars aplenty from the family's food bill.

August weather is not always well suited for outdoor work but now is the time to begin operations. It is best, says Hutchison, to start with some of the old spring vegetables provided they can be rejuvenated and made to produce on into the fall. Tomatoes, okra, peppers and egg plants if properly cared for, will make good production records in the fall.

The soil around each individual plant should be worked and at the same time an application of about a half teacup of some complete fertilizer like 5-10-5 should be made. Work it into the soil, then put a two to three inch mulch of hay or similar material around the plant. The mulch will help to conserve moisture and to keep the ground cool. They should be irrigated every 5 to 7 days.

In the case of tomatoes, Hutchison says it is best to select two or three suckers or sprouts that are growing near the base of the old plant and then remove the parts of the old plant which have lost their vigor. Give them the same treatment recommended for rejuvenating other plants.

Before new plantings are made, the garden area should be cleaned up. Remove all trash, weeds and grass and if barnyard fertilizer is available, broadcast a three or four inch layer over the plot and either spade or plow it under. In areas where commercial fertilizers can be used, he recommends the use of three or four pounds of 5-10-5 for each 100 feet of row space. It should be applied prior to planting.

Dry weather complicates the seed bed building process but a thorough irrigation will help solve the problem. He says you'll be wise to use from 20 to 25 per cent more seed than you do in the spring and to cover the seed a little deeper.

Hutchison cautions against over-planting and says the wise gardener is one who plants just what he can properly take care of. Prepare the rows so irrigation water can be run down the middles and at the same time make the beds high enough to keep the vegetables from drowning out when the heavy rains come. Check your seed catalog or with your local county extension agents for the varieties that can be planted now and later.

The big job is to get the gardens started, concludes Hutchison.

Better not tell a restaurant man you're hungry enough to eat a horse. You're liable to eat just that.

Some would rather speak ill of themselves than not to speak of themselves at all.

Maybe it isn't a disgrace to be poor, but it's mighty inconvenient.

They say he would have lived to a ripe old age if he hadn't eaten so many cherries—from the bottom of his cocktail glass.

RAMSEY THANKS TEXAS VOTERS

BEN RAMSEY, run-off candidate for Lieutenant Governor, thanked Texas voters this week for the vote they gave him in the July 22 primary election. Ramsey, shown here in his San Augustine law office, said his heart was "filled with humble gratitude," and asked his supporters to continue the fight and elect him Lieutenant Governor in the Aug. 26 second primary. Ramsey is the only experienced candidate in the race.

ber 2-10 Set As Dates for Annual Antelope Hunt In Big Bend Region

Executive secretary of the Fish and Oyster Commission announced details of the antelope hunt west of the Pecos river to be inclusive of October 2 to 10, inclusive. Priority will be given permit for the 1948 hunt who for their names in time for the antelope shooting permit. The 1948 permit have number three pri-

The number of permits for this fall will not be set until the results of the 1950 antelope census is completed. The executive secretary indicated that the total permits allowed may be less than during the last open season in 1948.

Texans with a first priority rating are being notified and are being sent applications blanks. Other hunters may receive the blanks by writing the game department. Their names will be placed on the eligible list when they return the filled-out blank along with the \$5.00 special license fee.

The official regulation follows:

Regulations for 1950 Antelope Hunt

"Prong-horned Antelope—Open season shall be from October 2 to October 10, both days inclusive, in the following counties: Brewster, Jeff Davis, Pecos, Presidio, Hudspeth and Culberson. There shall be three separate hunts; the first to be October 2, 3, and 4; the second to be October 5, 6, and 7; and the third to be October 8, 9, and 10. Said open season shall be available only to those persons who hold a Prong-horned Antelope hunting permit. These permits will be issued by the Game, Fish and Oyster Commission on and after September 1, 1950, and shall cost \$5.00 each. Permits shall not be transferable or refundable. Each landowner shall be permitted to charge each person not more than \$40.00 for the privilege of hunting on his premises. Applications for permits may be postmarked not later than midnight August 31, 1950. The Game, Fish and Oyster Commission will designate on which ranch each permit holder may hunt, and he may not hunt elsewhere. Successful applicants will be notified within a few days after September 1. All hunting of antelope shall be under the direction and supervision of representatives of the Game, Fish and Oyster Commission. Camping shall not be permitted except on remote ranches and only then in cases where a game warden can be assigned to camp with hunter groups. Hunting shall not be allowed before sunrise or after sunset. Antelope may be stalked from, but not chased by an automobile or fire into moving herds of antelope. No hunter shall be permitted to carry a gun afield

after he has killed an antelope. Every effort must be made to kill any antelope wounded. Hunters shall not be permitted on the hunting range before sunrise of the opening day. Shooting of game, other than antelope, shall not be permitted during the antelope season, on ranches to which antelope hunters are assigned. Before starting to hunt, each hunter shall report to the State Game and Fish Warden on the ranch where he is assigned. He shall also have his permit signed by the warden in charge, before leaving the ranch with an antelope. Each hunter shall contact the landowner or the landowner's representative and make any required payment, not to exceed \$40.00, prior to any hunting. Any hunter who fails to check in on a designated ranch by noon of the second day of hunting there, or to make suitable arrangements with the landowner or landowner's representative, shall forfeit his place, such place to be filled by another applicant. No antelope hunting permit will be issued to non-residents of this State, or to residents of this State under 18 years of age, until all resident applicants over 18 years of age, who filed for same, having obtained a permit. If surplus applications are received and a drawing is necessary, preference will be given applicants who were not issued licenses for the 1948 hunt, or who withdrew early enough to permit the assignment of an approved alternate applicant."

When he asks for our daughters hand, we are going to urge him to take the one that is always in our pocket.

Blue Bonnet H-D Club Meets With Mrs. Chas. Davis

The Blue Bonnet Home Demonstration Club met Thursday, July 20 in the home of Mrs. Chas. Davis at Rule with nine members answering the roll call with assigned subjects. The president, Mrs. Raymond Astin, appointed Mrs. Less Lewis to work with Mrs. A. C. Denson in planning a program with the Sagerton club to make money for the council. The council delegate, Mrs. A. C. Denson, gave the council report, reporting that Mrs. Raymond Astin was elected as a delegate to the state THDA meeting to be held at Big Spring August 24 and 25. Other delegates to the meeting are Mrs. Calloway and Mrs. Garrett. Home demonstration agent, Mrs. Vee J. Howle gave a demonstration on making master mix. The measuring of dry ingredients, sifting three times and blending of fat was done all at one time for several future bakings. "The mix cost much less than ready mixes on the market" said Mrs. Howle and comparative cost charts were given on the mixes. Copies of the recipes for using the mix were given each member. Nut bread was served on the refreshment plate by Mrs. Howle. There will be an all day meeting at Mrs. Astin's in Stamford Aug. 27, to practice the skit and show films made at the 20th anniversary.

Shower In Weinert Home Compliments Recent Bride

The home of Mrs. Mac Boykin in Weinert was the scene of a bridal shower honoring Mrs. Leroy Hix, the former Dorothea Forehand. Guests were met at the door by Misses Jackie and Jimmy Jetton and presented to the bride and her mother, Mrs. C. B. Forehand, and mother-in-law, Mrs. Coyt Hix. Guests were registered by Miss Lola Sue Phemister. Refreshments were served from a beautiful lace covered table. Mrs. Clyde Walker presided at the punch bowl.

Later the guests were escorted to the gift room where the many lovely gifts were shown by Miss Mary Walker. The silver and china in the brides chosen patterns were completed. The party rooms were decorated in cosmos, zinnias and greenery.

The hostesses were: Mmes. Ted Jetton, Grace Hutchison, Robert Hutchison, D. I. White, Ben Redwine, Marvin Phemister, Glenn Casell, Mac Boykin, Clyde Walker and Jack Walker.

May Fields Bible Class Has Supper In Royall Home

The May Fields Bible class of the First Baptist Church met Monday evening, July 31, in the home of Mr. and Mrs. S. M. Royall for a picnic supper.

The devotion was given by Mrs. V. W. Meadors, after which the supper was served, followed by a business meeting, then all present enjoyed a social hour.

Those present were: Mrs. Guy Collins and Julia, Mrs. T. B. Langston and Sheila, Mrs. W. P. Botiff and Leah, Mrs. Henry Atkinson and Judy, Mrs. Ione Menefee and grandson David Wyatt of Wichita Falls, Mrs. V. W. Meadors, Mrs. Alonzo Pate, Mrs. Roy Ratliff, Mrs. George Neely, Miss Madalin Hunt, Miss Martha Meadors, Mr. and Mrs. Royall and daughter, Christy.

They were accompanied by Mrs. J. W. Meadors, after which the supper was served, followed by a business meeting, then all present enjoyed a social hour.

The mother of the bride wore a dress of navy crepe and taffeta with navy and white accessories and a corsage of white carnations. Mrs. Cobb, mother of the groom, wore a black dress with pink and grey accessories. She wore pink sweetheart roses.

A reception was held immediately following the ceremony in the Magazine Club. The bride's table was covered with a lace cloth and centered with a three tiered wedding cake topped with a miniature bride and groom. The attendant's baskets also adorned the table.

Leaving for a honeymoon trip to Colorado and other points, the bride wore a lime green, faille two-piece suit with natural accessories. Her corsage was the orchid from her bridal bouquet.

The bride is a graduate of Haskell High School. The groom, a graduate of Mattson High School, served 32 months in the Navy during World War II. The couple plans to make their home in Haskell, where both are locally employed.

Local Auxiliary Asks Report From Persons Using Legion Wheel Chairs and Crutches

Persons who are using wheel chairs or crutches furnished by the American Legion Auxiliary, were requested this week to contact Mrs. Floyd Rich at White-Auto Store, in order that the Auxiliary may bring records up to date on location of the equipment.

Mrs. Rich, head of the woman's division of the local Legion post, explained that they now have out 10 pairs of crutches and 8 wheel chairs, and that calls are received frequently from people needing the articles for emergency use.

Mrs. Rich said that persons still needing either the chairs or crutches may keep them as long as needed, but that it would be appreciated if they would report the articles they have in order that accurate records may be kept of the equipment.

Persons having equipment no longer needed, will be helping someone else by returning the chairs or crutches after they are through with them, Mrs. Rich pointed out. There is no charge for use of the equipment.

Even Wiser than He Seems

PLAINLY, here travels a man wise in the ways of fine motorcars.

You know that, by the four Ventiports and the rich sweep of chrome which mark his car as a ROADMASTER.

You know it, should you trail him on the highway, by the smooth lift of the big Fireball

power plant at his toe's command, by the obvious levelness of the ride he enjoys, the swift ease with which Dynaflow Drive solves his traffic problems.

What is not so plain from what you see is that here also is a man very wise in what today's dollar should buy!

For this man has all that a fine-car owner can ask for—brilliant performance, a ride without equal for gentle softness, finger-easy handling, abundant room all around him, styling that is easily the most distinguished on the highway.

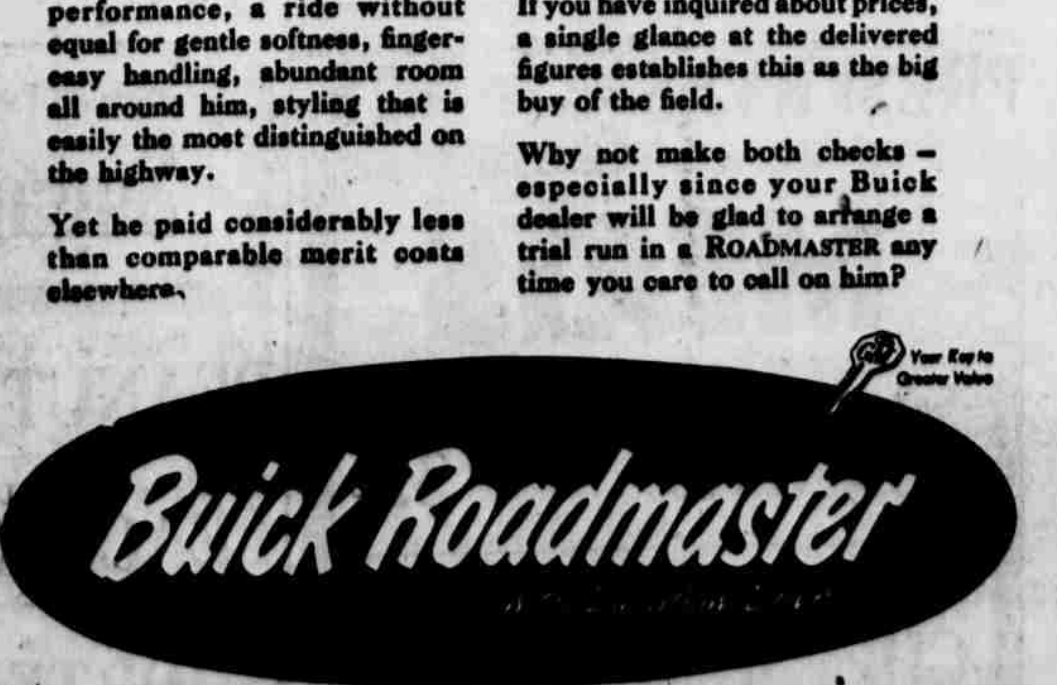

Yet he paid considerably less than comparable merit costs elsewhere.

He found fewer extra charges in his delivered price, with such things as Dynaflow Drive, foam rubber cushions, windshield washers, electric clock, even non-glare rear-view mirror included in the price.

If you know fine cars, it won't take fifteen minutes behind a ROADMASTER wheel to see that here is one of the finest.

If you have inquired about prices, a single glance at the delivered figures establishes this as the big buy of the field.

Why not make both checks—especially since your Buick dealer will be glad to arrange a trial run in a ROADMASTER any time you care to call on him?

Mrs. J. P. Rogers of Rule visited Mr. and Mrs. R. N. Sheid Sunday.

Experiment Station Studies New Plants Suitable to Texas

The Texas Agricultural Experiment Station has launched a "new plants" program and already more than 2,000 foreign introductions and collections from wild flora are included in the program.

Plants have been collected from practically all corners of the earth, except Russia and her satellites. Many have come from Central and South America, Africa, India, Turkey and the Philippines.

The purpose of the program is to find out if the crops under investigation can be grown commercially in Texas or if they can be used in the plant breeding work being done by the Station. Many of these plants may be resistant to diseases and the plants breeder will try to breed this resistance into new or improved varieties of our basic crops.

The program is being handled by a committee composed of Dr. R. G. Reeves, professor of agronomy and genetics, who is chairman; Dr. R. C. Polts, department of agronomy; Dr. O. E. Sperry, department of range and forestry; E. Mortensen, horticulturist, Winter Garden Experiment Station and Dr. H. T. Blackhurst, department of horticulture.

Substations and field laboratories of the Texas Station are studying each crop and the specialists feel may be adapted to the area in which the substation is located.

At Texas A. & M. College, the departments of agronomy, horticulture, range and forestry and floriculture and landscape architecture all have work underway under the program. Field units at Chillicothe, Sonora, Westaco, Winterhaven, Stephenville, Montague and Yoakum are conducting investigations with crops that may be adapted to those areas.

Under study are many species of oilseed crops that have not previously been produced commercially in Texas. Among the horticultural crops are new peaches, cucumbers cantaloupes, avacados and other tropical and sub-tropical fruits. Many of the

introduced plants consist of new types of old crops while others are either uncommon in Texas or entirely new. Some are obviously not adapted to Texas agriculture, but are being studied because they may have characteristics

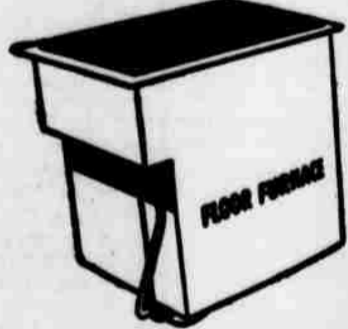

that will prove valuable to the plant breeders. This new crop research program in the United States is organized on a national, regional and state basis and Texas was the first state in the Southern re-

gion to get its project as Station, is the administrative adviser for the Southern. Read the bargains in the Press Want Ads each

You're a *Man Alive...*

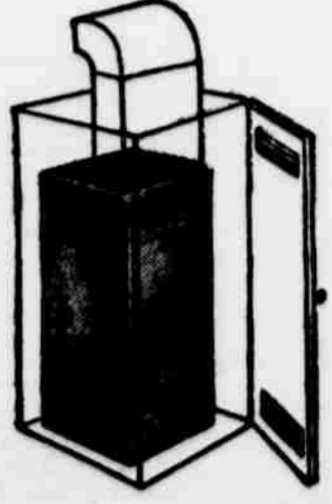

...when you've slept in the comfort of Forced Air Central Gas Heating!

Owners say that *man alive* feeling early in the morning is a stirring experience, after modernizing their present home or building a new home with a forced air central gas furnace.

As you climb into bed a forced air central gas furnace drops room temperature to a fuel-saving, comfortable sleeping level. No windows to open. No heavy bedcovers necessary. Your entire family is snug under light covers in the chill-free, fresh from the out of doors air the furnace circulates all night.

When the alarm goes off, your home is luxuriously warm again—automatically. You've rested better. You're invigorated. Man, you're alive.

And you will agree when you read the facts below, forced air central gas furnaces are practical! Why not see your heating contractor or Lone Star Gas Company, today?

...so practical!

... Forced air central gas furnaces like the one shown here are installed in a small closet. Other types are installed in the attic, under the floor, in walls.

... Planned as part of a home, forced air central gas furnaces add two or three dollars to monthly payments—so little difference from a house with no heating equipment.

... For your present home you can get a forced air central gas furnace installed for a small down payment. Convenient monthly payments up to 36 months are available.

... Don't delay! Get your equipment now to avoid delay, discomfort and inconvenience which will occur if you wait until winter.
