HASKELL county is situated in the southern part of the panhandle on the line of the on . adredth Meridian west from G.tet.wich. It le 1500 feet above the sea, and has mild winters and summers. It is 30 miles square and contains 576,-000 acres of land. It was created in 1858 from a part of Fannin and Milam counties, and named in honor of Charles Haskell, a young Tennesseean, who fell at the mas-

eacre at Goliad in 1836. It remained unsettled until 1874 established. Other ranchmen followed and in 1880 the county could boast of 15 or 20 inhabitants. There was no further development antil early in 1884, when the town of Haskell was laid off and by donating lots a few settlers were induced to build residences, and in

with a polled vote of 57 electors. Up to 1884 the soil had never been turned by a plow, and the people depended upon raising cattle, sheep and horses as the natural grasses furnished food both winter and summer for immense herds. The poorer people made money by gathering many thousand tons of Buffalo bones and shipping them
