## November Draft Call In Texas To Be For 2,336 Men

The state draft call for Novemher dropped below the October quota, although the national call for the two months is identical Brig. Gen. Paul L. Wakefield of Austin. State Selective Service director, pointed out this week. State Selective Service head-

quarters received a November quota of 2,336 men. The October quota for the state, previously announced, is 2,733. The national call for both months is 47,000.

The Texas share of the November national quota is 4.97 per cent while the state share of the October quota for the nation is 5.81 per cent. "Such factors as enlistments

credited to the state and the number of men in various age and classification groups have an effect on the way we share in the national quota," General Wake-

A comparison with November 1951 shows how draft calls have risen this fall. The state call for induction in November 1951 was only 665 men. In November 1950 shortly after the beginning of the Korean conflict, the state quota was 3,400.

General Wakefield said state draft headquarters expected to issue local board quotas for November about October 6. Only men 20 years old and up will be inducted, with the exception of volunteers and delinquents, who can be younger.

"Right now it looks as if will be able to fill a fourth of our November call with men 21 years old and older," General

Wakefield commented. Present plans at State Selective Service headquarters call for preinduction physical examination of around 8,000 men in November These also will be men 20 years
