## Haskell County History

20 Years Ago—Oct. 20, 1932

Fire starting in the burr conveyor of the Sanders & Crawford gin late Saturday night caused considerable damage to the boiler room at the gin, but was kept from spreading to the main section of the gin through prompt work of firemen and gin employees.

ginned in Texas to Oct. 1 this year, shows 6,162 bales from the crop of 1932, compared to 11,481 bales ginned to the same date last year.

Mr. and Mrs. George Connell of Stamford spent Wednesday in the home of the latter's brother, Mr. and Mrs. Ralph E. Duncan.

The 8th annual Haskell County Fair opened this morning, and the streets were thronged early today with hundreds of visitors here for the opening day events. Feature attraction today will be a barbecue at noon, immediately following the opening parade.

Night attractions during the Fair will be a Western Rodeo under the auspices of the Haskell post of the American Legion.

Orville Bullington of Wichita

Falls, candidate for Governor on the Republican ticket, will speak in Haskell Saturday afternoon, Oct. 29.

The Home Demonstration Council will sponsor a Cotton Dress Style Show Saturday afternoon at the Christian Church. Miss Eileen Partlow, County H. D. Agent, has announced. Dresses and children's clothing exhibited at the Fair will be displayed in the show.

40 Years Ago—Oct. 19, 1912

Last Monday Master Virgil Christian, son of a farmer living two miles west of town, found a pocketbook on the streets of Haskell that contained a cashier's check for \$60 and \$50 in currency. This boy was honest. He took the purse and money to Sheriff Dan Faulkner, who began a search and found the owner, a traveling man who had gone to Rule in an auto and had noticed his loss after leaving Haskell.

The weather has been damp and a little unfavorable for cotton picking this week, but the farmers have been able to keep the gins busy.

F. P. Bupp of Granbury delivered three cars of cattle to Earl Cogdell at the Haskell Oil Mill this week. The cattle will be fed meal and hulls at the mill's feed lots and shipped to market after having been fed out.

J. Johnson of this city shipped some hogs to Fort Worth and topped the market with them Saturday, getting \$8.90 on the lot.

Chas. McGregor was in town this week from his farm in the northwest part of the county. He showed us a collection of products he was taking to the Cotton Palace in Waco. Included was a stalk of cotton from one of his fields that had on it 60 open bolls. He has 7000 acres in cotton this year on his 1200-acre farm.

T. L. Montgomery, president of the Farmers National Bank here, has returned from Chicago and will spend the winter here with his son, R. C. Montgomery and Mrs. Montgomery.

Misses Anilda and Lucile Hughes left Wednesday night for Dallas to attend the State Fair.

Rev. and Mrs. R. W. Thompson are visiting their children at Waco and Bartlett.

K. D. Simmons has purchased the livery business and stable of his brother, Jack Simmons, and will continue the business at the same stand.

50 Years Ago—Oct. 18, 1902

A Mr. Tucker was here this week from Louisiana and bought 31 unbroken horses and mares from J. C. Bonannon at \$17 a head. He shipped the stock to Louisiana.

We understand that our former townsman, W. L. Hills, has resigned his position with the First National Bank at Stamford and has accepted a position with a commission company in Fort Worth.

Cotton is beginning to come in a little more steadily, but farmers say the crop is about a month late and that it will probably be around Nov. 1 before the staple begins rolling to any appreciable extent.

Mrs. J. S. Rike and daughter, Miss Lillie went to Graham this week to visit Mrs. E. H. Morrison of that place.

T. G. Carney left Thursday on a business trip to East Texas.

Mrs. A. C. Foster and children left Tuesday on a visit to relatives at Belnap and Graham.

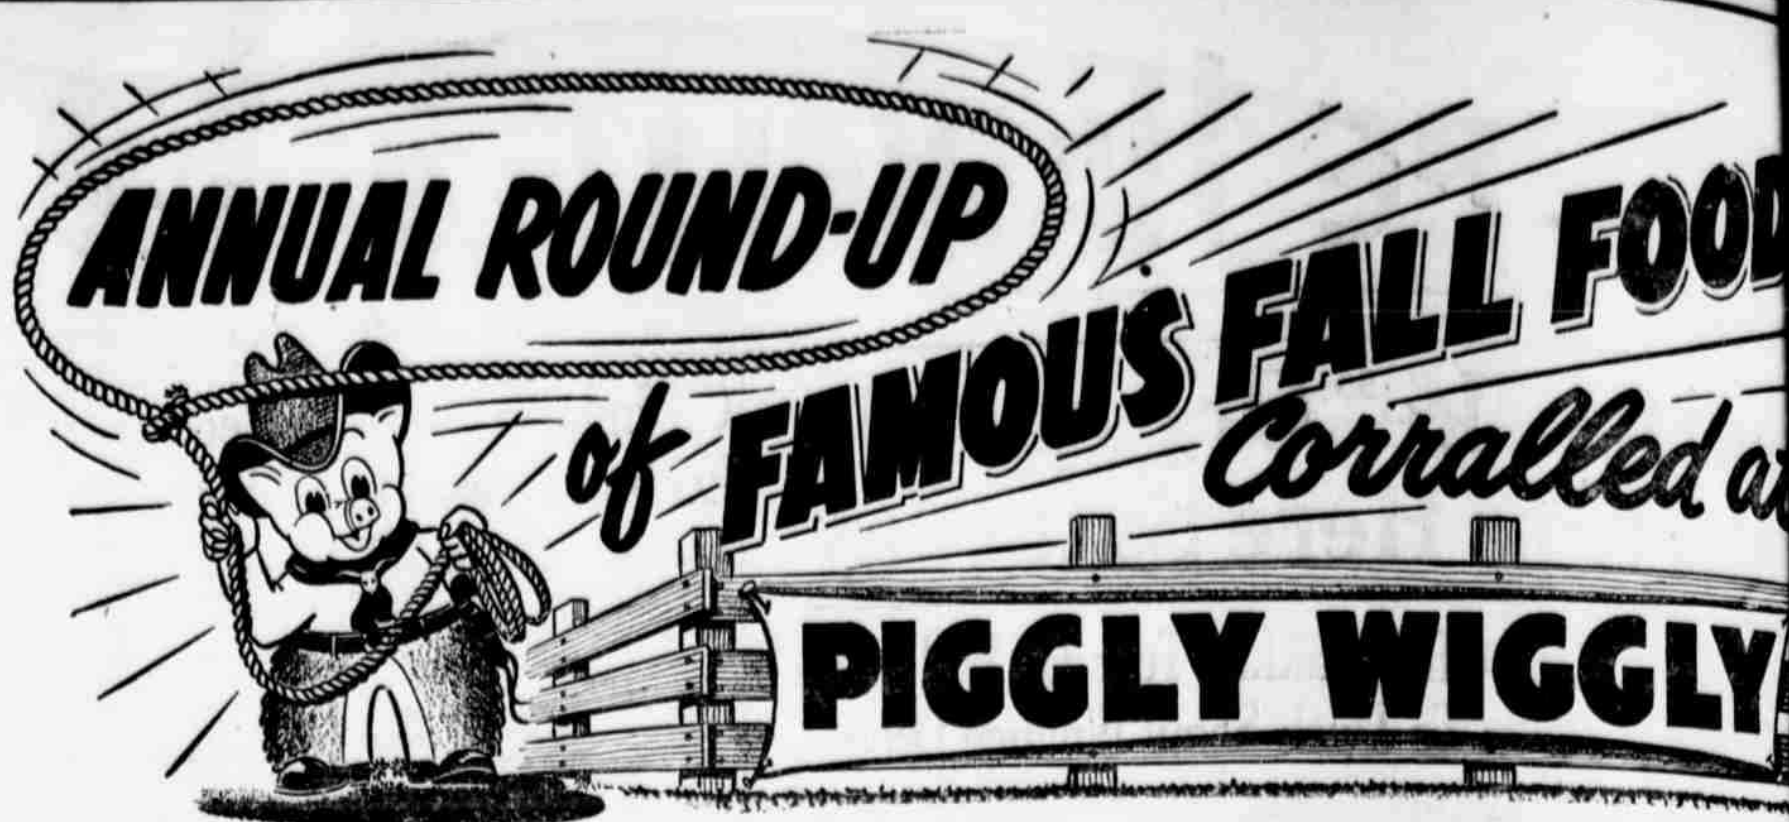

F. G. Alexander & Company shipped 16 bales of cotton yesterday, bought on the local market.

Capt. W. W. Fields, W. H. Parsons and son Charlie, and Hollis Fields went down on the Clear Fork Wednesday to spend several days hunting and fishing.

W. A. Pidcock, a former resident here who now lives in New Mexico, is here this week trying to dispose of some of his property interests in this section.

A fellow who evidently dislikes walking, and who in all probability is a fugitive from justice, passed through the country last week. He is supposed to have come up on the train Friday evening to Stamford, where he took a saddle horse tied to a hitching rack and rode it to the ranch of Burwell Cox in the north part of the county Friday night. He turned it loose there and appropriated one of Mr. Cox's horses which he rode to near Goree and turned it loose and threw the saddle in a field. Both the Stamford man and Mr. Cox recovered their horses but no clue as to the identity or whereabouts of the self-accommodating whelp has been found.

### Well Proportioned, Easily Built Home

HOUSE PLAN No. 33

The maximum for the minimum in home attractiveness, comfort, and convenience, the minimum in cost and in construction work.

The usually spacious kitchen is conveniently located. The pantry and home freezer will be ideal for storing the family food supply.

If your family spends a lot of time in the kitchen, as do most farm families, you'll appreciate the cheerful spot for the breakfast table near the refrigerator and a front window.

By the back door is a closet where boots and outside clothing can be kept. The extra lavatory by this door can be installed for little more than the cost of the fixture itself because it is so near the drain from the bathtub.

The bedrooms are convenient to the bath, and offer a maximum of privacy. Yet they are easily accessible from the living area or the kitchen.

The living room is large enough for pleasant family living and for entertaining small groups. If you need more space, you can use the dining room and porch very nicely for group entertainment.

being a disturbance to party guests.

If you do not care for the porch adjoining the living room, it is an ideal spot for a library or study.

You can obtain blueprints for this Haskell Free Press-Farm & Ranch House Plan No. 5033 and a handy list of materials by which you can figure your construction cost accurately.

### Hunters Show Vast Increase In Past Decade

Austin, —The Executive Secretary of the Texas Game & Fish Commission said the number of hunters and fishermen in the state has more than doubled since World War II.

He made the announcement in a speech before the International Association of Game Commissioners in Dallas.

The executive secretary added: "It cannot be said that the wild life population has improved to meet this demand. So far it has been met by lower bag limits and shorter harvest periods.

"The problem of the ever increasing number of sportsmen who go afield and cause an additional pressure on the wild life resources has as yet no answer. Everyone is encouraged to go

### Chili Popular Cool Weather Dish

Chili is a favorite dish for many families in this country. A nourishing, tasty food that can serve as a main dish for an important meal, or an item of delicacy for special treats, chili has as many different recipes as there are people who cook.

Louise Mason, foods and nutrition specialist for the Agricultural Extension Service of Texas A&M College, says people's taste for chili differ as much as their methods of cooking.

The specialist suggests for nutritive value in chili, the use of one-third or one-fourth as much pork as beef. If you prepare your

# Vote Just Like You Pray

When in the course of common events we reach the national election year it is good that we discuss with our neighbor and the man on the street the issues involved so that each of us may vote more intelligently.

We have found that there are two sides to every question; (our side and the wrong side). It is our sincere purpose to persuade every one we may to beware of the wrong side.

In the issue of The Haskell Free Press of Sept. 18th Mr. R. C. Couch, Sr. offers us, in a paid Pol. Adv. a discussion by Mr. T. Glenn Doss, Editor of the Whitewright Sun. In this Mr. Doss is severely criticizing our congressman, Sam Rayburn for his efforts to convince the voting farmers that their financial status of today and their prosperity of recent years is the result of the policies of the Democratic administration of the last twenty years. In his efforts to persuade you to take another taste of the "Republican elixir" Mr. Doss quotes some prices paid for farm commodities under the Hoover administration. Mr. Doss emphasizes that he is a "Stickler" for the truth and says "Now let's have the facts," but he fails to give us the facts of farm commodity prices as of March 4, 1929, the beginning of the "Hoover belt-tightening Reign," but he prefers to quote prices as of Sept. 1930, being some eighteen months later. In this period he tells you that Mr. Hoover had had a Republican majority in congress. He says nothing of the decline in prices for this unmolested time—but I find from the records here that farmers received 20-60c per pound for cotton and \$36.00 for seed at the beginning of this period. Mr. Doss begins his quotations of prices with 10.50c per pound for cotton and \$27.00. It just seems that the "Stickler" don't like anything but truth and he don't relish all the truth. In Haskell, cotton declined from twenty cents per pound to five cents and seed from thirty-six dollars to seven dollars per ton. We believe that every farmer, every rancher and every merchant has a vivid memory of that educational program.

It is folly that we "Boys wearing long pants" get consolation charging our errors and losses to some one else. No man will hire a manager past sixty years old to direct a business in which he had no practical experience and no technical training. Yet we vote without regard for these qualifications. In history we have no record of a President of greater humane feelings, higher honor or purpose or more trustworthy on his integrity than was Herbert Hoover. Yet we had "fits" under his administration because he was not fitted for the job.

Today we are considering hiring an executive for perhaps the most responsible position on earth. We have two applicants. Each of them outstanding in their chosen professions. Each of them brilliant intellectual men. Let's consider their qualifications for on what we know about them and what we know about life.

1. We know that no man knows anything except he has been taught.
2. One of the applicants is "Tops" in military affairs. The other is a highly efficient business executive.
3. A soldier must believe that might is right and war is fair.
4. A soldier has no practical conception or use for economy.
5. We abhor war. We believe that a civilian knows more reasons why he should avoid war than does the soldier whose delight has been in winning the battle.

The candidate which we elect in November will be controlled by Congress and his Political Platform.

#### THE DEMOCRATIC POLICIES OF RECENT YEARS HAVE:

- Helped the farmer toward fair prices.
- Helped the farmer with soil conservation.
- Helped the farmer toward home ownership.
- Helped the farmer to get REA and telephone service.
- Helped the farmer by research programs.
- Helped the farmer to get ample credit at reasonable rates.

#### THE REPUBLICANS HAVE FOUGHT THE DEMOCRATIC PROGRAMS.

- They have reduced the number of commodities on which a definite price support was assured.
- They have reduced price floors by putting in a sliding scale of sixty to ninety per cent of parity instead of 90%.
- They have reduced parity calculations for several basic crops.
- They have reduced effectiveness of commodity loans by taking away CCC rights to acquire new storage facilities.

### Harmony Club Opens Fall Season With Dinner Oct. 9

The Haskell Harmony Club opened the fall season with a 7 o'clock dinner in the club room of the Texas Cafe Thursday evening, Oct. 9, honoring its president, Mrs. A. C. Foster, Jr., State President, Mrs. Ina Wooten Jones of Abilene and the first district president, Mrs. Cliff T. Dodson of Stamford.

Mrs. Foster gave the welcoming address and extended greetings to guests and new members. Mrs. J. F. Cadenhead, Sr., gave the invocation and read a poem in tribute to the memory of the late Mrs. Oscar W. Tooley, long time member of the club.

Stressing "Federation" as her theme, Mrs. Ina Wooten Jones gave the club constructive material presenting phases of federation work of interest to first district. She stated that the Harmony Club is a service organization among five thousand national federated music clubs of America.

Mrs. Cliff Dodson was another featured speaker on the program using Texas maps with colors marking the twenty-one counties comprising first district. Mrs. Dodson gave an interesting discussion on the "Duties of a New President."

Tall red tapers in crystal holders, pycantha berries and large wicker baskets of fruit and fall flowers were used in profusion to decorate the white linen covered tables, where places were laid for 33 members and guests. Places were marked with miniature umbrellas and cards. Also at each place was a directory of the first district Texas federation of music clubs and a copy of the Haskell Harmony club's new Yearbooks.

A display of antique fans and umbrellas was noted at the end of the room on either side of a garden scene that marked the setting for a musical program presented by Mrs. Marcus Helber, Mrs. Tom Coyle, Mrs. Cecil Gregory, Mrs. Floyd Cook, Miss Doris Chapman and Miss Martha Meadors with Mrs. O. E. Patterson at the piano.

Mrs. Will Gilmore presented several members of her dancing class in a hit parade of fast moving to dance numbers. On the program were Linda Lane, Sandra Hadaway, Robbie Lou Robertson, Sandra Sue Roberson, Mary McMilling and Madalyn Gilstrap. Guests present were Mrs. Ina Wooten Jones of Abilene, Mrs. Cliff Dodson and Mrs. C. G. Keese of Stamford; Mesdames C. V. Payne, John W. Pace, J. U. Fields, Pat Lewis and Miss Beryle A. Boone.

Members attending the initial meeting were Mesdames Tommy B. Hawkins, Bob Harrison, Claude Reid, W. I. Scoggins, Betty Bettis, James F. Cadenhead, Sr., M. E. Helber, C. L. Lewis, Jack Cox, Mart Clifton, O. E. Patterson, John Barry, G. F. Mullino, J. W. Medley, Tanny H. Squyres, Floyd Cook, A. C. Foster, Jr., V. W. Meadors, Cecil Gregory, J. B. Thompson, Jetty V. Clare, Gertrude Robinson and Thomas Coyle; Misses Doris Chapman and Martha Meadors.

### Rev. John Barry Is Speaker at H. D. Club Meeting

"Man has learned to fly through the air like a bird, swim under water as a fish, but hasn't learned to walk the earth as a man," said Rev. John Barry to members of the Fannie Smith HD Club United Nations program Friday Oct. 10 in the home of Mrs. Hamp Harris.

In the business meeting Mrs. Paul Cothron, president-elect for 1953, appointed her committees for the coming year.

The hostess served a refreshment plate of sandwiches, olives potato chips, cookies, and Cokes to, guest, Rev. Barry; members Mmes Haskell Stone, Paul Cothron, Buck Calloway, Hollis Pittman, Rice Alvis, Thelma Adams, Jesse B. Smith and the hostess Mrs. Harris.

# The Texas Story

## How Texas Has Benefitted From TWO DECADES OF NATIONAL DEMOCRATIC ADMINISTRATION

The people of Texas have shared greatly in the nation's tremendous advances of the past 20 years.

The last Republican administration left us with dying economy. Today, thanks largely to progressive Democratic leadership, nearly everybody in the land is far better off than he has ever been.

The material progress has meant an immense growth in our feeling of human dignity and security. It has meant the greatest freedom from economic fear that man has ever known. That is the human meaning of the following three facts.

Today nearly 62,000,000 Americans have jobs.

High employment and improved production methods have boosted the value of total national output, AFTER all price adjustments, to more than three times the level of twenty years ago.

Americans' personal incomes, after all taxes and after allowing for increased living costs, have on the average, almost doubled since 1932—and are 42% higher than in 1929, the peak of Republican prosperity.

## AS IN THE NATION, SO TOO IN TEXAS:

The people of Texas have gained with everyone. They stand to lose with everyone if the national Democratic policies that have brought us so far were to be reversed. They stand to gain from continuation of the kind of government which provides the American people with the opportunity to achieve an ever-increasing standard of living.

## Where Texas Stands Today Is Described In the Following Chapters

Life Is Better and Richer Than 20 Years Ago  
Business Is Sound and Prosperous  
Veterans Are Getting the Help They Need

Workers Have Higher Wages and More Security  
Farmers Have Made Tremendous Gains  
U. S. Tax Dollars Benefit Texas

## LIFE IS BETTER AND RICHER THAN 20 YEARS AGO

Do you want to keep it that way? If you do, VOTE THE DEMOCRATIC TICKET, VOTE IT STRAIGHT, don't listen to the paid for propaganda that has been put out the past four years knocking on the Democratic administration. The same Republican special interest groups that have tried the past 8 years to wreck the Democratic party, are now trying to buy the presidency; they are spending multiplied Millions to carry Texas; they have been successful in taking over some of our leaders who never were Democrats at heart, but have accepted election on the Democratic ticket, and have now double-crossed the Democratic party, sold us down the river, because the BIG Corporations who furnished them the money to be elected, and now determined to wreck the Democratic party.

It is the duty of every American citizen to VOTE, that is the only way you can have voice in your Government. A ll Democrats must vote November 4th, your failure to vote, is a vote for the opposition; your failure to vote lessens your County vote in Democratic State Conventions.

## BEFORE YOU VOTE NOV. 4th ASK YOURSELF THESE QUESTIONS:

1. How were you living in 1932, the last year of the Republican Administration?
2. Can you remember when cotton was 5 cents a pound?
3. Can you remember when wages were one or two dollars a day—for men 'lucky' enough to have a job?
4. What were you worth in 1932, after 12 years of Republican rule?
5. What are you worth today, after 20 years of progressive Democratic leadership?

## KEEP TEXAS PROSPEROUS

Vote Democratic, vote the ticket straight and we will surely win.

OCT-12-18 THIS IS OIL PROGRESS WEEK

**Progress 1952**

Texans have a natural interest in the oil industry, which is so important in our State, and in the progress made since Oil Progress Week was last observed. Here are a few quick facts:

**New Wells**—During the twelve months ending August 31, 1952, the Texas oil industry drilled 17,000 new wells, at a cost of over \$700 million. Most of the heavy expense of drilling these new wells was paid from earnings plowed back into the development of the State's oil resources.

**Production**—Production has reached a record level. Texas currently is producing about 46 per cent of all the crude oil produced in the U. S. In the year ending August 31, Texas production totaled about 1,015 million barrels. There are now 133,800 producing oil wells in Texas.

**Refining**—The Texas refineries will have a big year. They now employ, in round numbers, 46,000 Texans, and process about 28% of all the oil refined in the U. S. The daily refining capacity of all Texas refineries exceeds 2,000,000 barrels. A program to expand and improve these facilities has been general throughout the industry.

**Reserves**—Proved oil reserves in Texas of 18 billion barrels represented 57 per cent of the U. S. total at the beginning of 1952. During 1951, the last year for which figures are available, proved reserves increased two billion barrels. These are developed oil reserves and the figure is important: developed reserves supply our needs currently and provide reserve capacity that is immediately available when we need it.

**Taxes**—The Texas oil industry continues to be the largest tax-payer in the State. Through the year ending August 31, gross production taxes alone on Texas oil and natural gas amounted to more than \$137 million; in addition, the industry pays large amounts in other taxes.

In brief, the Texas oil industry during the past year continued to do its part in meeting the demand for oil. It has expanded pipelines to provide low-cost transportation. It has improved facilities for making more and better petroleum products for your use. Today, two gallons of gasoline do work that required three gallons in 1925; and the gasoline costs no more than it did then.

**THE MAN IN THE MASK MEANS MONEY TO YOU**

The efficiency of the petroleum industry has reduced the cost of gasoline. Excluding taxes, it is 1.8 cents per gallon less than 25 years ago. (A U.S. Average)

The petroleum industry has improved the quality of gasoline. Two gallons go as far as three did 25 years ago.

The Man in the Mask builds pipe lines, and pipe lines, through economical and efficient transportation of crude oil, have played a major part in bringing you better petroleum products for less money.

**Supervisors Of Soil District Tour Area Farms**

District supervisors of the California Creek Soil Conservation District toured zones 1 and 2 of the district recently to observe grass plantings and irrigation work. The first stop was made on the Noah Lane farm southeast of Haskell. Mr. Lane is irrigating 40 acres of grass mixture with an overhead sprinkler system. He was the outstanding farmer in the district in 1951. Irrigation farms between Haskell and Rule were included in the next stop. A recently completed level border system was inspected on the Norman Nanny farm. Alfalfa on the Buford Ghoson and J. B. Reneau farms interested the supervisors a great deal. Dr. Reneau's Blue Panic grass also looked good.

The last stop was on 3 acres of irrigated Buffalo grass at the Harold Partridge farm northeast of Knox City. Over a thousand pounds of seed have been harvested off this 3 acres this year. The supervisors making the trip were Hiram Olson, C. E. Lantrip, Bruno Kupatt and Albert Thane.

Joe Cuberson, farmer from Hamlin, has received 820 pounds of Madrid clover seed for planting during February and March. He plans to seed over 120 acres for grazing, soil improving and seed production.

The following district cooperators ran terrace lines recently: S. A. Olson of Avoca, Tom Poer of the Lakota community and Ben Mayberry from south of Hamlin. Terraces will be used to prevent further erosion and to better distribute water over the land. These farmers had the assistance of Soil Conservation Service.

**Sagerton Soldier In Korea Earns Promotion**

With the 25th Infantry Div. in Korea—Leo Monse, Jr., whose parents live at Sagerton, was recently promoted to private first class while serving with the 25th Infantry Division.

His unit has been in Korea longer than any other American division. It entered the fighting in July 1950 shortly after the Communist attack on South Korea.

Pfc Monse, winner of the Combat Infantryman Badge, is an assistant automatic rifleman in Company A, 27th Infantry Regiment, a part of the 25th Division. He entered the Army in October, 1951, and arrived in Korea last May.

**Better Roads One Of Farm Bureau's Major Objectives**

One of Texas Farm Bureau Federation's major objectives for a number of years has been "to get the farmers of Texas out of the mud."

Haskell farmers should lend wholehearted support to the organization's program, R. C. Couch, Jr., president of the Haskell County Farm Bureau, said, because the task grows harder and the need greater each year. The 1950 census showed that 638 of Haskell county's farm families lived on dirt roads a mile or more from a paved road, it was revealed by Couch.

Viewing the situation on a wider scope, Couch said there are 120,000 miles of dirt roads in the State of Texas, 66,000 of which are school bus routes.

A road program is one of the big jobs on which Farm Bureau will be working until a plan is adopted that will build adequate roads for school buses and for farmers to get their products to market, Couch said.

Farm Bureau sponsored the Sewell Bill in the last session of the legislature which proposed a tax of one cent per thousand cubic feet on natural gas, the major portion of which is shipped out of the state. A token tax was levied on natural gas, but sponsors of the bill failed to get any portion of the funds earmarked for building roads. The greatest opposition the Farm Bureau has yet encountered on its road fight is looming in the next session Couch declared.

**Modern Stable Completed for Dr. T. W. Williams Attracts Comment of Visitors**

Built principally as a hobby because of his love for horses, a modern stable recently completed on acreage adjoining the home of Dr. and Mrs. T. W. Williams on the north outskirts of Haskell has attracted considerable comment from visitors for its completeness and modern facilities.

Fireproof throughout, the main structure is an iron-clad Quonset type building with overall dimensions of 32x60 feet. Three skylights in the roof provide ample natural light throughout the building. Modern electrical installations give all additional light needed.

Interior arrangement of the building includes 10 individual stalls for horses, and two saddle rooms. Each stall is provided with water and feeding facilities. Floor of the stalls and throughout the building is white river sand.

Adjoining the main stable building is an exercise pen, 240x70 feet, enclosed with bull wire fencing. A large grazing area is also available on the property.

Two nearby barns are used for storing feed and for stabling Dr. Williams' personal horses. The entire installation represents an expenditure of between \$5,000 and \$6,000.

Scott W. (Scotty) Greene of this city is in charge of barns and stables, feeding, and general supervision of horses. Dr. Williams has made facilities of the stables available for boarding saddle horses whose owners have no facilities for properly caring for their animals.

**Additional Deep Oil Test Slated In County**

Locations for two additional deep oil tests for Haskell County were announced Monday, one in the Rochester area and the second in the extreme southeast part of the county.

Lester & Duffield, Inc. and T. C. Billups, Abilene, will drill No. 1 W. L. Glover as a 5,900-foot wildcat two miles south of Rochester.

Location is 2,084 feet from the south and 467 feet from the west lines of Section 2, A. Greer survey.

Kendrick, Lucan & Kendrick and Moutray-Moore Drilling Co., Abilene, will drill No. 1 R. J. Fox as a deep wildcat 15 miles southeast of Haskell.

Location for the 5,000-foot test is 5,280 feet from the north and 660 feet from the west lines of S. T. Blakeley Survey, A-621. That puts it 660 feet east of the northeast corner of Section 4 H&TC Survey.

There is still time to plant crops for winter grazing.

# TEXAS DEPENDS ON OIL & GAS DEVELOPMENT

The industrial growth of Texas has paralleled the progress made by Texas oil and gas producers. The success of their search for more oil — always against great odds — has underwritten the economic present and future of Texas.

Texans with a clear eye to the future of their state will encourage and promote this fundamental industry. They will rejoice with the operators in new wells and new techniques which make the state's petroleum output greater and longer lasting.

**Rochester Steers Lose 9B Conference Opener To Woodson**

The Woodson Cowboys blanked the Rochester Steers 19-0 Friday night in a District 9B battle. The Cowboys opened the scoring in the second period when Roy Oliver went around end for four yards and paydirt. Try for extra point was no good. Later in the second quarter Gerald Mahan climaxed a Woodson drive by plunging over from the two-yard line. Hollis Karl added the point after. In the final period Henry Jones went six yards for the final TD. Karl's try for extra point was blocked.

**Munday Moguls Blank Knox City Greyhounds 18-0**

Tommy Gage, speedy halfback for the Munday Moguls, scored three times Friday night to shut out the Knox City Greyhounds 18-0, in a non-conference affair. In the first period Gage took a hand-off from quarterback Chas Ratliff and went 10 yards for his first tally. Gary Offutt's kick was no good. In the second quarter the Moguls drove beyond the Greyhounds 10 yard line twice but failed to score both times. Bob Killian intercepted a Greyhound pass on the Knox City 30 yard line in the third period. Ratliff passed to Haynie for 20 yards and Gage made 5 through the line. Gage went over on the next play and again try for extra point was no good. Gage intercepted a Greyhound pass and carried it to the Knox City 10. Weaver moved the ball to the 2-yard line and Gage went over on the next play for the TD. Point after try was blocked.

**Indian-Bulldog Tilt At Spur Nets \$458 For Haskell**

Haskell's share in the net receipts from the Indian-Bulldog football game at Spur Friday night, Oct. 3 amounted to \$458.87, financial statement received last week by Supt. S. H. Vaughter shows. Gross receipts from the game amounted to \$1,029.25. Expense of officials was \$111.15, leaving total net receipts of \$917.73 for division equally between Haskell and Spur.

**Price, Davis, Ammons to Play For McM Against ACC Sat.**

**BOBBY JACK PRICE**

**BILLY DAVIS**

ABILENE, Oct. 14—Bobby Jack Price, Ed Ammons and Billy Davis, three McMurry footballers from Haskell are due to see plenty of action when the Indians tangle with the Abilene Christian College Wildcats in a traditional cross-town grudge game on Oct. 18.

Price and Ammons are end while Davis is the Tribe's start- ing fullback. Davis, too leads in Indian ground-gaining and scor- ing. He collected 284 yards and scored two McMurry tallies. The 22-year-old rivalry will be set this year amidst the McMurry Homecoming and the Indians will be "on the spot." It is normally considered a good grid season on the Reservation if the Tribe beats the Wildcats.

Coach Garvin Beauchamp's Wildcats hold an edge in the 19- game series. The cross - town Christians have been victorious eleven times to the Methodists eight. ACC mangled McMurry 58-13 last season and 24-14 in 1950. The Redskins last scalped the Fel- lines in 1949, when Little All- America Brad Rowland was ramblin' for McMurry.

When the two rival colleges meet, also the individual rushing leaders of the Texas Conference will clash. In individual rushing, three of the highest four men will be playing. Davis is second in the conference with a total of 289 yards for an average of 4.4 yards per carry. Right behind him is ACC's Jerry Mullins who has ac- cumulated 200 yards for a 3.7 average. Elroy Payne of McMurry is fourth with 200 yards for a 3.4 average. These three are top- ped only by Reggie West of A&I who is leading the pack with 354 yards for a 6.1 average.

Also, Davis is among the lead- ing scorers of the small college conference. He has scored two touchdowns for the McMurry In- dians Grouped with Davis is Jerry Mullins and Jimmy Hirth, both of ACC.

Davis was the leading scorer of this district during his high school career. The conference then was known as District 9A before the high schools were regrouped. He led the district in 1949, when Haskell won the championship with a total of 108 points chalked up through touchdowns alone. He tallied 99 points for the Indians in the 1950 season.

Earlier in the afternoon, boost- ers of the two teams paraded a- round the court house square along with bands from Seymour Munday, Stamford, Knox City, Rotan and led by the Haskell High School band.

Preceding the contest, the combined bands opened the even- ing's ceremonies with the nation- al anthem then formed the letters "TEXAS" and played "Deep In The Heart Of Texas." They then paid tribute to Oklahoma and formed the letters "O K L A" and played the Frederick fight song. The pre-game activities were concluded as the bands for- med a Stairway to the Stars which symbolized the joining of the two states in the intersec- tional contest.

# Haskell, Throckmorton Lead District 8-A After First Tilts

Haskell's Indians and the Greyhounds of Throckmorton took the lead in the District 8A race this week by winning their first conference engagements Friday night.

Throckmorton has been the surprise of the season this year and has been crowned the "giant killer" of Central West Texas Class A football, having knocked off 5AA Rotan, 19-7, a week ago and returning last week to upset the heavily favored Albany Lions, 20-14.

Haskell got into the upper berth with the Greyhounds by making good two extra points at Roby and edging the Lions, 20-18.

Albany, defending district champion for the past two years took their defeat from the Grey-

hounds as their third of the season and were put at the bottom of the conference standing with the Roby Lions.

Munday and Roscoe are the only two teams who have not begun conference competition. The Plowboys will swing into action this week when they come to Haskell for their initial conference encounter. Munday will not play their first district contest until the following week. This week they will be resting, preparing for the rugged Albany alignment.

The Moguls have the best record of the season, 4-1, having suffered their only loss to the powerful Seymour eleven by a 40-0 shellacking. In second place for the season's first five games is Haskell's Indians and Throckmorton who both have three victories against two losses. Haskell lost their inter-sectional games to Stamford, 20-0, and to Anson 39-6. Both are still undefeated and will probably battle for top honors in the District 5AA race this year.

**District 9-B**  
In the District 9B race, Woodson is on top after winning their initial conference tilt last week from Rochester, 19-0, the only district game played in the 9B play.

Rule is leading in the season's standings having lost only one

game, a 12-0 defeat at the hands of Class 8A Munday. The Bobcats have four triumphs on their record for the season. They will open their conference play against hapless Knox City which is winless in their first year of eleven-man football.

Woodson is unbeaten this season but has been tied twice. They stand a good chance to fatten their average against Strawn, the doormat of District 8B.

Rochester and Luaders are also in the losing column with Knox City and all are looking for their initial victory of the year.

### Rule Bobcats Wallop Flying Tigers To Tune of 32-13

South Taylor's Flying Tigers bit the dust Friday night for the first time this season, bowing before the Rule Bobcats, 32-13.

The Flying Tigers ran up a 13-0 lead over the Bobcats in the first period of play. Then Rule took over in the second and scored two TD's. The Cats scored once again in the third and twice in the fourth.

McMillan of South Taylor scored both touchdowns in the opening stanza, one on a 38-yard run and the second from the one yard line following a Rule fumble recovery.

The Bobcats came back in the second with Fullback Bobby Kitley going over from the 14. Kainer kicked the point. Kitley scored again on a 50 yard scamper and Gibson kicked the extra point.

In the third period Kainer went over from the ten after a 35 yard run by Kitley.

In the fourth quarter Rhodes went over from the one, and Kitley carried from the nine to end the scoring. Tries for extra point following the final three TD's were no good.

## Survey Shows That Fire Hits Four Farm Buildings Every Hour In United States

Four an hour, that is the number of farm buildings burning somewhere in the nation. Experience shows that only about 50 per cent of the loss is covered by insurance and the remainder is a complete loss to farmers.

With replacement costs for buildings, machinery and equipment high and in some cases in short supply, agricultural producers, says F. W. Martin, County Agent, cannot afford to let fire hazards go unnoticed on their properties. Martin points out that 90 per cent of all farm fires can be traced to one or more of the following hazards: improper storage and use of gasoline and kerosene, unsafe wiring, overloaded electrical circuits, failure to replace worn cords and defective electrical appliances, defective stoves and furnaces, careless smoking habits; spontaneous ignition of hay or other stored materials, sparks from chimneys or bonfires falling on flammable roofs, defective chimneys and failure to protect building with lightning rods.

Fire prevention is the job of every member of the family and to be most effective community action is needed. Martin suggests that much can be accomplished through community organizations. He points out that good fire prevention program will supplement a farm accident prevention program because many of the same hazards that cause fires also cause accidents.

More fire fighting equipment is needed in the rural areas and organizations already in existence are urged by Martin to consider undertaking projects that will eventually result in the securing of the needed equipment and trained leaders to operate it. He says it can be done because such equipment is already in operation in some areas.

Fewer destructive fires and accidents on the farms and ranches of the state, says Martin, will leave more dollars that can be used for further improving rural living and agriculture.

Periodic checks of all farm buildings should be made, says Martin, to make sure that the stage isn't being set for a destructive fire. Finding the hazards, however, is not enough, they must be removed.

Prevention should be the number one item in any program aimed at reducing the number of fires but despite all human effort fires may strike and provisions should be made for these emergencies, says the county agent. Fire-fighting equipment should be available and in good working order. Such equipment as hand extinguishers, water containers, ladders, hose, swatters, rakes and the power sprayer if it is portable, all should be kept in readiness. Make sure, says Martin, the water pumping equipment isn't put out of commission by a fire in the wiring of a farm building, and have plans for utilizing the water supply stored in tanks or ponds when located near buildings.

**Health Program Is Definite Need In Every School**

Every school should have a definite school health program. Situations such as, the kind of drinking water, arrangements of the school lunch, the lighting, seating, ventilation and cleanliness of the school room, and the personal practices of the teachers and children are the basis of the school health program, said Dr. Geo. W. Cox, State Health Officer.

Every school has tremendous opportunities to promote the health of its pupils and of its community. From early childhood to early manhood and womanhood, most children are enrolled in schools and are under the supervision of school staffs for a substantial part of the day for approximately half the days of the year. The conditions under which they live in school, the help which they are given in solving their health problems, the ideals of individual and community health which they are taught and the information and understanding that they acquire of themselves are factors which operate to develop attitudes and behavior conducive to healthy, happy and successful living.

Parents have a prime responsibility. Physicians, dentists, nurses, social and welfare workers organizations, such as medical, dental, nursing societies, and voluntary health agencies should all lend their support to local and state health departments in their effort to secure better health not only for school children but the community as a whole.
