House Plan No. 31

House With A View

Farm and Ranch House Plan No. 31 has a pleasing modernistic touch. The masonry on the front with the white wood trim, gives it an unusual texture and beauty.

All the bedrooms are near the bath, and each has an abundance of closet space and is of comfortable size. The sliding doors for the closets make economical use of space and also economical use of labor and building material.

Opening into the bedroom hall are two closets which provide space for storage of linen and other items that do not fit into the bedroom closets.

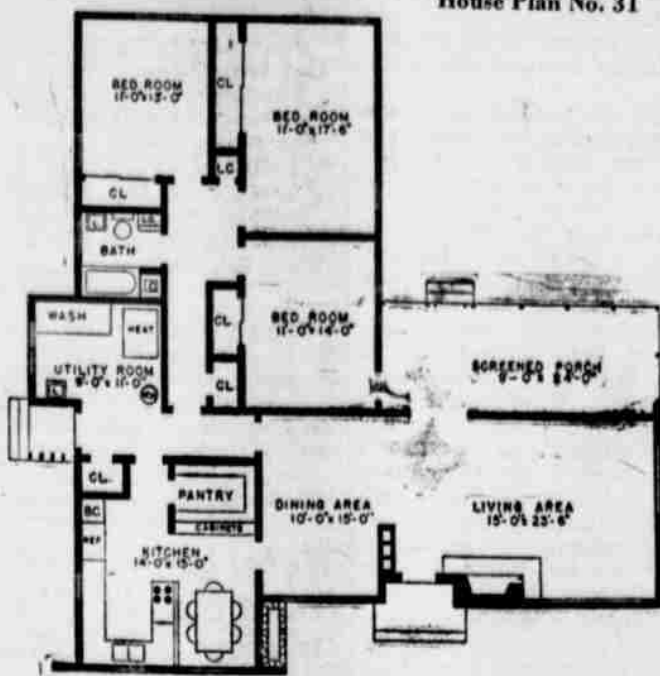

The living - dining area will appear very spacious. The two rooms are separated only by a built-in box for plantings, which has storage space below. The space can be used as a bookcase in the living room or china storage in the dining area.

The large screened porch opening off the living room with double French doors extends this area for summer use and will be delightful at almost any time.

In the kitchen, there is an abundance of counter space with storage cabinets above. The maximum distance of travel between refrigerator and stove or sink does not exceed 7 feet. On every side there are windows, which will give an abundance of light and ventilation. The cabinets by the pantry are designed with 12-inch shelves for the storage of dishes. The pantry itself is of ample size. Meals for six people can be served easily in the kitchen.

The utility room has ample space for the laundry, the water heater, a lavatory, a central heating plant. It is conveniently located to the kitchen and bath so that plumbing costs will be small. This is a very desirable location for the heating unit, because the duct work to serve the major portion of the house will be short.

You can obtain blue prints for this Haskell Free Press-Farm &

Ranch Plan No. 5031 and a handy list of materials by which you can figure your construction cost accurately. Send \$1 to Building Editor, Farm & Ranch-Southern

Historian Reveals That Buffalo and Indians Left Mark on Texas Capital

Those vanishing Americans, the buffalo and the Indian left their mark on the Texas capital, a University of Texas historian reveals.

Dr. H. Bailey Carroll, Texas State Historical Association director and University history professor, has collected extensive data on early Austin.

Buffalo probably made a trail which the earliest explorers found leading to the original fording place on the Colorado River, Dr. Carroll says. The trail was used by Spanish explorers, Mexican traders, Indian peace and war parties, and freebooters before the area was settled by Anglo-Americans.

Mirabeau B. Lamar, second president of the Republic of Tex-

as, is said to have killed a buffalo near the site of the present Capitol. The French Embassy, which still stands, was built in 1841 by Alphonse de Saligny, after the French representative had recommended recognition of Texas by France. "The count did not spend much time in the legation," Dr. Carroll comments. "Indians, frequent and unfriendly visitors to Austin, affected the poise of the Old World representative." In April, 1844, a large herd of buffalo traversed the principal streets of Austin, going north, and several were killed near the present Capitol grounds. Never before or since have buffalo stampeded up the main thoroughfare of the regular designated capital of a nation, Dr. Carroll said.

Chrysler Builds Pilot Model of New Heavy Tank

A pilot model of a heavy tank of entirely new design has been completed in the Chrysler Delaware Tank Plant in less than a year from the date that the company took on this defense assignment and started to build the plant, it was announced today by Robert T. Keller, general manager of the plant.

The first Chrysler-assembled pilot model of the new heavy tank, designed by Army Ordnance and Chrysler Corporation, was completed recently — in less than 11 months from the date the tank-building contract was announced and only 16 months after ground was broken for construction of the tank plant.

While details of the tank are still under security restrictions, Army Ordnance officials have declared that the new heavy tank will outslug any land-fighting machine ever built.

Madam Curie was the first woman appointed to the French Cabinet.

News From Sagerton

The Stitch and Chatter Club met in the home of Mrs. Henry Laughlin Wednesday afternoon, March 19, for a regular meeting. Mrs. Laughlin served tuna sandwiches with potato chips and cherry pie topped with ice cream and coffee and Cokes to the following members: Mmes. Cliff LeFevre, M. Y. Benton, John Clark, Chas. Clark, Anna Hankins, R. N. Sheid, G. A. Leach and a guest, Mrs. Grady Laughlin.

The next meeting will be April 2, in the home of Mrs. George Leach.

Mr. and Mrs. Henry Bredthauer of Olney visited with Mr. and Mrs. C. C. Bredthauer and other relatives here last Wednesday.

Mrs. Leslie Cobb of Midland brought her little son, Johnny to stay with his grandparents, Mr. and Mrs. John Clark Sunday. Mrs. Cobb was en route to Dallas. Mr. Cobb, who is seriously ill, was moved to Dallas from Midland by plane Monday.

The Pioneer Birthday Club entertained with a luncheon in the home of Mrs. Ben Hess Thursday, March 20. It was in honor of Mrs. Hess whose birthday was Saturday, March 22. The members present included Mmes. J. W. Martin of Haskell, Ewell Kittley, John Clark, Pete Lusk, R. N. Sheid, Anna Hankins, R. O. Gibson, Sr., and the hostess, all of

Sagerton and Miss Fannie Kay of Haskell. Dr. and Mrs. J. C. Davis of Rule and Mrs. Charlie Conner of Haskell were guests.

Mrs. Davis was admitted as a new member. Members of the Pioneer Club are the women who were friends and lived in this community 35 years ago. The luncheons are held on the members' birthdays. Two other members could not be present. They are Mrs. W. P. Caudle of Whiteface and Mrs. Dick Gibson of Lockhart.

The April meeting of the club will be in the home of Mrs. Ewell Kittley.

Mr. and Mrs. Carl Opitz and son Danny, of Corpus Christi who are visiting here with Mr. and Mrs. Otto Lehrmann and other relatives, were dinner guests of Mr. Alvin Holle Thursday of last week. Other guests were Mr. and Mrs. Clancy Lehrmann and Gail and Mr. and Mrs. Norvell Lehrmann and Sara, all of Sagerton.

Mr. and Mrs. Don Oelke of Cassville, Wis., are visiting with Rev. and Mrs. O. K. Oelke and Luther.

Mr. and Mrs. F. A. Stegemoller, accompanied by their son, Kenneth and Mrs. J. A. Hertel, visited in Winfield, Kans., last week end where Harvey Stegemoller is an instructor in the Lutheran College there and Kenneth Hertel is a student.

Since next Sunday is the fifth Sunday of this month, Rev. R. L. Kirk, pastor of the Sagerton Methodist Church, announced that there will be special services here Sunday morning and dinner will be served at the church at noon. In the afternoon there will be singing. The people of the Tuxedo Methodist Church are invited to come and spend the day.

Mrs. Sammy Laughlin and son, Gary, Cecil Wayne Shelton and Warren Fletcher of Matador and Mr. and Mrs. Van Laughlin of Rule were guests in the Cliff LeFevre home Sunday night.

FORMER SAILOR VISITS PARENTS IN WEINERT
Mr. and Mrs. Marion E. Owens and two sons were visitors last week in the home of his parents, Mr. and Mrs. E. M. Owens of Weinert. Marion was released this month from active duty in the U. S. Navy, after 18 months service as Aviation Storekeeper, 2nd class. Mr. and Mrs. Owens will make their home in Fort Worth.

RETURN FROM CALIFORNIA
Pete Nichols and Mrs. Raymond Tidwell of Throckmorton have returned this week from San Diego, Calif., where they visited in the home of Mr. and Mrs. Calvin Brown.

"Hero" Will Be Presented at High School Group April 1

Accidental heroine, but finds that she must go against her father's platform in his campaign against the "Frills" of the school. Jim the prompter, played by Billy McGuire, considers himself the most important character in the play.

Other members of the cast are: Jerry, ticket salesman, Sam Adams.

Joe, assistant stage manager, Harold Forehand.

Bob, who is "little brother," Delton Smith.

Jean, who helps with the tickets, Joann Winchester.

Marilyn, the school reporter, Carolyn Draper.

Eugene, stage manager, with Harold on his hands, Harley Reeves.

Harold, the bell ringer and electrician, Kenneth Brockett.

Helen, reporter, Frankie Stephens.

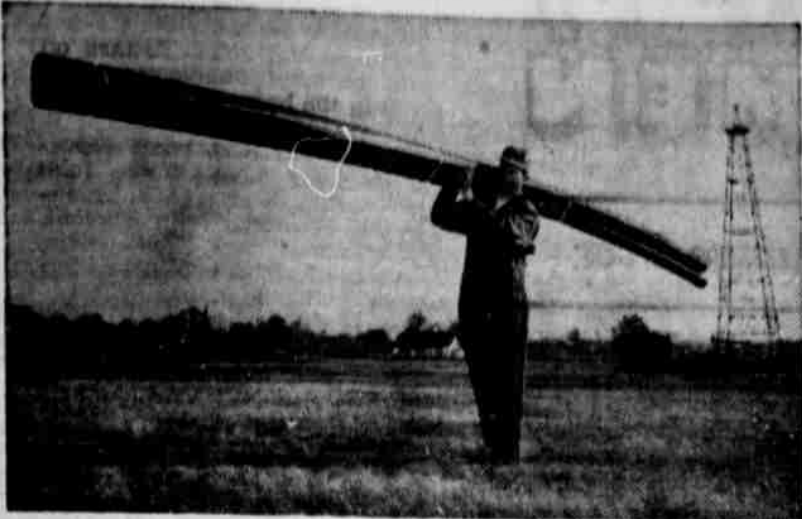

Mr. Wheat, school principal, Wayne Phemister.

Mr. Change, interested in the coach, Vernon Hargrove.

Jonsey and Smith, furniture haulers, Lester Hutchinson and Scotty Oman.

Mr. Shell, Kitty's father, candidate for the school board, Don Vaughn.

Plastic Pipe Proves Boon to Oil Industry

Light weight of this new butyrate (Tenite) plastic pipe for the oil fields speeds installations, cuts costs. Worker in picture carries three 20-foot lengths—about 60 pounds—with ease. Equivalent in cement lined steel pipe would weigh approximately 720 pounds. The butyrate plastic pipe is corrosion resistant when used for oil gathering, salt water disposal and repressuring lines. Paraffin does not accumulate and obstruct passage of oil through the pipe according to Tennessee Eastman Company, manufacturer of the plastic.

Drouth and Livestock Numbers Make Bigger Feed Crops Necessary

Livestock numbers, except cattle and chickens, on Texas farms and ranches at the beginning of 1952 were lower than a year ago. For the entire nation cattle numbers were 7 per cent larger than on January 1, 1951, while for Texas the increase was only 2 per cent. The severe drouth over the state has seriously hampered livestock production and has hit hardest the sheep and goat producing sections, says C. H. Bates, farm management specialist for the Texas Agricultural extension service.

Stock sheep numbers in Texas showed a slight upturn in 1950 but were down 10 per cent on January 1, 1952 compared to a year earlier. There was 6 per cent fewer goats than a year ago and 5 percent fewer hogs.

This means that livestock numbers have been kept relatively low, during a period of favorable returns, because of reduced feed supplies. Even now, Texas farms and ranches have almost 9 million cattle, over 6 million stock sheep and 1.6 million hogs. Also, at the start of 1952, Texas farms had about 23 million chickens and a half million turkeys, which was an increase over the year before. In specialized broiler areas, Texas growers raise about 50 million broilers annually, says Bates.

Feed reserves have been depleted because of the abnormally heavy feeding during the past few months and feed supplies per animal unit are now the lowest since 1947, Bates points out. Unless weather becomes extremely favorable for the production of large feed crops this year, reserves are likely to drop still further, he adds. So it looks like higher feed costs are ahead, unless stockmen plan wisely and get a better break on the weather.

[With moisture conditions in some areas improved by recent rains, farmers should plan to produce adequate feed crops this season. The highest yielding varieties should be planted. Plant for a good stand and use fertilizers whenever possible to produce the maximum yields, says the specialist.]

Another important item is to plan for increased feed storage on the farm. Prices of feed grains and hay tend to drop at harvest time and with proper storage the surplus can be held until the temporary "glut" is relieved. If plans for bins are needed, farmers should see their local county agent for blueprints. The local Production and Marketing Administration provides facility loans to farmers who need financial aid on constructing storage facilities.

And finally, Bates suggests that all livestock producers put into operation a complete forage, production and storage program. This will include supplemental pastures, improving the permanent ones and storing enough forage and grain to take care of such situations as now exists. Forage, says Bates, can be stored for years in a silo and he recommends that silage crops be included in this year's program.

Auction Sale Of Farm Machinery Slated Saturday

Next in a series of auction sales inaugurated by Haskell Auction Sales at Marlow Tractor & Implement Company house west of the square, will be held Saturday, March 29.

Farm machinery, tractors and trucks comprise the major items handled in the auction, they ex-

WEEK END VISITORS

Miss Marjorie Whiteker of Dallas; Mr. and Mrs. J. C. Davis, Jr. and children of Austin; and Mr. and Mrs. Edward Wolcott of Winters were week end visitors in the home of Mrs. B. M. Whiteker.

Listings have been unusually large, permitting prospective buyers a good selection in these lines.

Saturday's auction will begin at 1 p. m., and Bill White, well-known auctioneer, will be in charge of sales.

VISITING IN HASKELL AND ROCHESTER

Mrs. Dalmon McNair, daughter of Mr. and Mrs. W. H. Carothers of Rochester, has been visiting her grandfather, Dr. L. F. Taylor of this city, and with her parents in Rochester. Mrs. McNair is expecting her husband, Radioman 3/c Dalmon McNair to receive his discharge from the Navy soon. He has been stationed in Guam recently, and she plans to meet him in California when he receives his discharge.

VISITS PARENTS

Don Perry, student at Tarleton State College, Stephenville, visited last week end in the home of his parents, Mr. and Mrs. Hoyt Perry and other relatives and friends.

A lunch-packing center in the kitchen will save time and make the daily lunch packing there easier for the homemaker.

Sarah Bernhardt continued her career during her old age with only one leg.

Amonett Wins Both Hurdles For Top Honors at Bluebonnet Relays

Eldon Amonett, with an injured foot, broke the tape for the second time in one day to win individual honors, while the Amarillo Golden Sandies took the team championship at the 6th annual Bluebonnet Relays in Brownwood last Saturday.

Amonett won both the low and high hurdle events to capture

high point honors with 10 points to top the field of 650 high school athletes. He was the only Haskell entry to place at the annual Brownwood track carnival.

The Haskell timber-topper leaped over the 120-yard high hurdles in 15.4 seconds and skipped through the 180-yard high hurdles in 20.5 seconds. His 20.5

in the lows will go down in the books as a record in the event which was put into the high school calendar only this year.

Amonett was leading the pack by a good 5 yards on the 180-yard lows and as he went over the final hurdle his arch slipped out of place. But the lone Indian placer did not let the injury af-

fect his winning the race and he hobbled across the finish line only a few feet ahead of his nearest opponent. Amonett had a good chance of setting a better time, possible 20 seconds flat, but the foot injury cut his speed and almost caused him to take a second place in the event.

The team title was the second straight for the Amarillo cindermen, edging the strong Austin Maroons for the crown. The winners managed for only one first place—in the mile relay—but they finished with a total of 247-12 points. Austin had 19, Forest of Dallas was third with 16 and Sunset of Dallas came in 4th with 13.

Rascal Cagers Trip Knox City Five, 58-42 for Consolation Prize at Rule

The Haskell Rascals captured the consolation prize of \$5.00 at the Rule Independent basketball tournament last week end by defeating Knox City, 58-42.

The Rascals lost their first game Thursday night to Rule, 58-56, and had to go to the consolation route. They only had to play Knox City Friday night to secure the consolation honors, after the same bracket by losing to Rochester, 32-31, on the opening night.

Another team from Knox City won the tourney by edging Rochester by one point in the finals Saturday night. Also, Saturday night Aspermont handed Rule a 49-46 decision to win third place.

Thursday night Aspermont whipped Knox City 36-33 while Rochester was beating the other Knox City quintet and Rule downed Haskell. Friday night, the Rascals won their victory over Knox City. Rochester gained the

finals by pouncing on Aspermont, 52-43, and Knox City edged Rule, 62-59, for the privilege of playing in the finals.

The Rascals had a rough time beating the Knox City contingent and missed about 80 per cent of their shots. Knox City led at the end of the first period, 9-6, but the Rascal quintet gained an 11-10 advantage by halftime.

For one of the few times this year the Rascals played excellent second-half ball and made 19 and 22 points, respectively, in the last two quarters. Charles Lankford was high point man of the game and for Knox City with 20 points. Jack Medford was tops for the winners with 18.

With Rule the Rascals lost their fire in the second half and dropped a 39-32 midway lead to lose by a two-point margin, 58-56.

The Rascals scored only 17 points during the last half while Rule managed 26. The score was deadlocked at the end of the third

period, 47-47, and with only a few seconds to play it was tied at 56-56. Malcolm Hertenburger's long push shot from the corner won the game for Rule.

Medford took the high point laurels with 28 points. Team-mate Kenneth Tooley was second with a total of 14 points. Dish Bryan was high for the winners with 13 points.

 Broad jump—Wayne Wash Stamford, 20 feet.

Stamford Trackmen Take 4-Way Meet; Indian Thinlies Place 2nd

Stamford's speedy trackmen garnered a team victory in a four-way track meet on the Haskell cinder path last Thursday. But they did not take all the honors as Haskell's classy hurdler, Eldon Amonett, captured three first places to win the individual high point laurels for the day.

The Stamford contingent won the meet by better than 20 points as they took 8 first places out of the 14 track and field events. The Indians captured five firsts while Throckmorton had only one. Monday did not have a first place winner in any of the events.

Stamford cindermen racked up a total of 67 points. The Indians were second with 42, Throckmorton had 17, and Haskell with Monday managed 15 for the fourth place.

quartet of Larry Simmons, Jerry Pruitt, Raymond Maxwell and Humphrey.

Manuel Mullins placed second in the 880-yard dash, running a time of 2:21.7, nine tenths of a second behind the winner, Forrest of Stamford, who won the event with 2:20.8.

Craft placed fourth in the 440-yard dash and Clarkson took a fourth in the 180-yard low hurdles.

Throckmorton's only winner was in the high jump. Hulcy cleared the bar at 5 feet, 7 1/2 inches for the winning mark.

Monday had only three second places, the rest of their points coming on third and fourth places. Pattison placed a second in the mile run with a time of 5:30.5. Qualls was second in the discus throw and Offitt threw the shot 41 feet for a second in the event.

The meet winners took five second places, six third and five fourths.

Amonett had no trouble in totaling his 18 points for the individual honors. He annexed first places in the 180-yard low hurdles, the 120-yard high hurdles, and the 220-yard dash. Along with the top honors in the three events he placed third in the broad jump with 18 feet, 9 inches, and fourth in the 100-yard dash with a time of 10.5.

The Indians also won first in the mile relay with 4:06, the team consisting of Truett Craft, Manuel Mullins, Charles Flanary and Frank Clarkson. Flanary was on the third leg and was behind when he handed the baton to the anchorman, Clarkson. Clarkson then turned on the steam and pulled ahead of the Throckmorton anchorman to win the event.

Jimmy White was the only other Haskell entry to grasp a first place. He took top honors in the pole vault with 9 feet, 1 inch. Clarkson was second and Mabry Brock tied for fourth with Gober of Throckmorton.

The Haskell 440-yard relay foursome of Clarkson, Walter Holley, Wayne Harris, and Donald Dickey took a second in the event with a 48.9 second time. Stamford won the event with a time of 46.4 seconds with the

With details blacked out against the setting sun the skyline at the Chrysler Delaware Tank Plant where it was built. Designed by Army Ordnance and Chrysler Corporation, this first pilot model rolled from the new tank plant only ten months from the date when ground was broken to build the plant at Newark, Delaware.

Cost of Irrigation Wells Shown In New Bulletin

Farmers and landowners in the Knox Prairie area of Haskell and Knox Counties, where the possibility of developing underground water for farm irrigation is being considered, will be interested in the results of a recent study made by the Texas Agricultural Experiment Station.

It costs between \$4,000 and \$5,000 to develop and equip a new irrigation well on the High Plains of Texas, according to a study just published by the Texas Agricultural Experiment Station.

These averages are based on installation and operation costs reported during 1947, 1948 and 1949 in a study of a yearly average of 176 wells in Lubbock, Hockley, Hale, Floyd and Swisher counties. Present costs may be somewhat higher than during the period of the study.

Installation costs included the drilling, casing and spillway for the well, which averaged \$1,272. Purchase and operating costs are given for four types of power units used to pump irrigation wells. These were electric engines, small and large automobile engines and industrial engines. Respectively initial costs during the period of this study were \$720, \$782 and \$1,320.

An average of 126 acre-feet of water was pumped per well each year of the study. The cost per acre-foot varied with the type of power used and whether the unit was operated with electricity, butane, gasoline or natural gas. Prices ranges are shown for each kind of fuel.

The study, reported in Bulletin 745, briefs the historical development of irrigation from wells on the Texas High Plains. About 1,860,000 acres of Plains land were irrigated in 1950 from about 14,000 wells. Most of this development has taken place since 1934, with the greatest expansion since 1945. Well drilling continued at a rapid rate during 1951.

Cooperating in the study were the Department of Agricultural Economics and Sociology of the Texas Station and the Bureau of Agricultural Economics of the U. S. Department of Agriculture.

Copies of Bulletin 745 may be obtained from the Publications Office, Texas Agricultural Experiment Station, College Station, Texas.

What's Your Notion of Magnificent Motion?
WE'LL admit that we're taking in a lot of territory when we use a word with the definition shown above.
But no lesser term can do justice to all the things that make a Buick such a joy to drive and to own.
Splendor and sumptuous adornment you'll certainly find in its rich interior—grandeur you'll certainly find in the mighty flow of its power.
But this is only background for what is justly termed its Million Dollar Ride.
Yes, sir, magnificent is the word for this majestic beauty in motion.
There's such an earth-hugging, mile-skimming feel to it, as it bullets along the highway.
It holds a straight course without weave or wander—seems to snug down to the road on curves.
A massive X-braced frame gives it solidity. A torque-tube firms its keel. End-sway and side-roll are neutralized. The engine is Hi-Poised mounted on rubber pillows—and big, soft-acting coil springs on all four wheels soak up the jars and jolts, float you over road-ripples, "washboard gravel" or weather-pocked macadam as if they weren't there.
Even its Dynaflo Drive* contributes to the smoothness of its forward motion by cushioning the transmission of its power.
How about taking one of this year's Buicks—SPECIAL, SUPER or ROADMASTER—on a cruise of discovery all your own?
Touch off its Fireball 8 Engine that's a gas-saving high-compression valve-in-head—head it out for the roads you know by past experience—and let it speak for itself. Even the price tag is eloquent proof that this is the car for you.
Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Buicks.
Sure is true for '52
When better automobiles are built
BUICK
will build them

Picnic Given For Seventh Graders In Weinert School

The room mothers of the Seventh Grade in the Weinert school sponsored a picnic and theatre party Thursday night. The picnic was held at the roadside park near Weinert and the group later attended a theatre at Munday. An added feature was a movie of Munday school children and teachers.

Class members attending were: Bill Guess, Richard Hix, Bob Walker, Eddie Ray Swanner, Roy Glenn Stewart, Don Owens, Temple Lewis, J. D. Skiles, Roberta Raynes, Lora Lois Rainey, Becky McGuire, Delores Dunnam, Patsy Lain, Margaret Yandell. Sponsors were Mmes. Ila Moody, Chester Lain, Russell Rainey, W. B. Guess; guests were Danny Lain, Christine Hutchinson, Ruby Joyce Rainey.

Three infectious diseases cause most of the trouble in young turkey poults. They are pullorum, hexamitiasis and coccidiosis.

Business to doughnuts done by telephone

Business is being done today by telephone more than ever before in history. Progressive men everywhere have found the answer to be a real time and money saver. The tremendous increase in business calls is one of the main reasons for today's huge local long distance telephone traffic.

Recognizing the importance of telephone service to our national prosperity, the telephone company is working constantly to maintain peak service at peak efficiency. Our local program ties in directly with the national effort.

Donna Kaye Williams, Texas 1952 Easter Seal girl, surveys the more than a million envelopes containing sheets of 1952 Easter Seals which are being sent to homes throughout Texas this week as the annual Easter Seal Campaign for crippled children gets underway.

Donna Kaye was chosen as typical of the states crippled children who are benefitting from treatment received at the cerebral palsy centers financed through Easter Seal funds.

A victim of cerebral palsy due to a birth injury, Donna Kaye, two and one half year old daughter of Mr. and Mrs. J. H. Williams of Dallas, is learning to stand alone with the help of braces and physical therapy. Donna Kaye is only one of the thousands of children helped by the Easter Seal Societies.

The nationwide Easter Seal Campaign will continue through Easter Sunday, April 13. Contributions can be made to "Crippled Children" care of your local post-office.

NEW FRIGIDAIRE MODELS BEING SHOWN HERE

New models of the 1952 Cyclamatic Frigidaire food freezer and refrigerator combination, styled by Raymond Loewy and featuring advanced designs incorporating convenient Roll-to-you shelves and a new kind of cold called Levelcold, have been received here.

Every shelf glides out full-length on nylon rollers, bringing food within easy reach. In addition, there are three shelves on the door for handy storage of small items.

Through development of the new Cyclamatic system, Frigidaire engineers have made possible constant, safe cold automatically under all conditions, whether on the coldest night of winter or the hottest summer afternoon. This is assured by thermostats inside the refrigerator. There is also a built-in Food Safety Indicator.

Emphasizing the importance of constant, low temperature in the middle of the safety zone, engineers pointed out that tests have shown that in some foods there is 776 times more bacteria growth in four days at 50 degrees, the top of the Safety zone, than there is at 40.

The Cyclamatic system is found in the three Imperial models of the 1952 Frigidaire refrigerator line. Each of these models has a separate food freezer completely insulated and sealed from the refrigerator portion of the cabinet. There is no defrosting device in the food freezer, and temperatures are maintained at a constant zero-zone safe level for preservation of frozen foods for months.

Levelcold temperatures are maintained in the refrigerator section by concealed cold-wall chilling coils and a Refrig-o-plate on the back wall compartment.

Spring Season Is Critical Period For Range Plants

Pasture plants in most sections of the state have taken a beating from the weather during the past several months. Rain and more rain is badly needed before the hard hit range plants can even begin their comeback. A. H. Walker, range specialist for the Texas Agricultural Extension Service, says even under normal conditions the spring season is the most critical period for range plants.

He says pasture plants need a rest period to regain their vigor and to allow them to produce a seed crop. He encourages livestock producers to graze supplemental pastures, if available, to give ranges a rest for a month or six weeks. This spring rest will give vigor to native growth stunted and over-grazed plants. He points out that the usual practice following a drouth is to start grazing the range just as soon as the first plants appear and this is not good for the range vegetation.

Such practice may reduce annual forage production by as much as 40 per cent. Such a reduction means that a ranchman could only run 60 head of cows instead of 100 head on an annual basis if he had used better management during the spring season.

A spring to fall deferment program may be needed in the most critical areas. Such a practice will give the plants a chance to make a seed crop that will be ready to insure a stand of the desirable species, says Walker.

A rotation plan for deferring different pastures on the ranch should be worked out and at least one pasture should be deferred each year. Walker points out that range demonstrators have proved that deferred grazing is not only an effective aid to a range recovery program.

NOW - THE CAR THAT Challenges You to Challenge It!

- NEW WIDER RANGE OF MODELS
- NEW CENTRALIZED "HIDE-AWAY" GAS CAP
- NEW EASE-AIR VENTILATION
- NEW "SPACE-PLANNED" INTERIORS
- NEW POWERFUL BRAKES WITH "FLOOR-FREE" PEDAL
- CHOICE OF 3 GREAT TRANSMISSIONS
- NEW "FORERUNNER" STYLING—YEARS AHEAD
- NEW SEA-TINT GLASS
- UP TO 17% GREATER VISIBILITY
- NEW "MONOPANE" WINDSHIELD
- NEW "JET-SCOOP" MOOR
- NEW "QUICK-SHIFT" INTERCEPTOR INSTRUMENT PANEL

THIS is the car that's asking for your approval. This is the double-dare-you powerhouse that asks you to give it the works—tackle the steepest hill you can find, the tightest S-curve, the bumpiest roads, the busiest traffic. Find out what this beautiful 1952 car's got that the others wish they had.

Its pick-up gives you complete control in traffic; its hug-the-road stability makes it almost steer itself; its space-planned comfort makes a sixsome never troublesome. New horsepower, new live weight construction—new visibility—everything changed but its respect for a gallon of gas. See the most challenging new car of the year at our showroom now.

3-WAY CHOICE! Mercury presents three dependable, performance-proved drives: Silent-Case standard transmission; thrifty Touch-O-Matic Overdrive; and Merco-Matic, greatest of all automatic drives.

NEW HIGHER-POWER V-8

This year even more horsepower, even higher compression (7.2 to 1). It's the successor to the famous V-8 which for two straight years won top class honors in official economy tests. It's got to be good; it's by the builder of more V-8's than all other makers combined.
