Haskell County History

20 Years Ago—Nov. 17, 1933
 An offer of a ride to a hitchhiking Negro man resulted in H. A. Burrow, Sagerton farmer, being shot and relieved of approximately \$40 Tuesday. A search for the Negro is underway by Sheriff Sarrels and deputies. Burrow picked the Negro up four miles from Stamford to give him a ride into town. After riding a short distance the Negro pulled a gun and demanded Burrow's money. When he started to jump from the car, Burrow caught hold of the Negro, who fired one shot from the pistol which struck Burrow in the leg. The Negro then fled on foot into a thicket beside the highway. Burrow drove to Stamford and notified officers, then went to the Stamford Sanitarium for treatment of his injuries.

Haskell voters registered an almost two to one vote to keep this city "dry" in the election held last Friday on the question of legalizing the sale of 3.2 beer. The vote was 181 against and 91 for the sale of beer.

Two automobiles, one belonging to Viars Felker of this city and the other to a Munday man, were stolen Sunday night while parked in front of a local church. Felker's car was recovered later by officers who found it abandoned northwest of town. Sheriff Sarrels said today that no trace had been found of the Munday man's car.

County Tax Collector Ed Fouts reports that he has issued 157 poll tax receipts to date.

The County Agent's office has received \$7,900 in checks for distribution to the 150 committeemen who served during the cotton plow-up campaign.

Action was started Monday by the Haskell County Relief Administration at the request of the national government, to place every unemployed man in the county to work as quickly as possible.

The men will be paid \$2.40 per day and will work four days a week. The Commissioners Court has been asked to list various work projects on roads, etc., and until these are ready, the men will work at cleaning up streets and alleys under the direction of Tom Donohoo, local administrator.

30 Years Ago—Nov. 16, 1923
 A 13-year-old Fort Worth youth who had been picking cotton near Rochester, became homesick last week and appropriated a horse and saddle for a return trip home. The missing horse and saddle were reported to officers, and the youth was stopped here Friday by City Marshal Holmes. Owner of the horse declined to press charges, and the boy was released to return home by train.

Frank Dodson and crew of men has been busy this week building new sidewalks to each entrance of the courthouse. Concrete benches are also to be built at four points on the lawn, adding much to the appearance of the court-yard.

J. W. Gholson, Fletcher West and M. O. Fields are in South Texas on a deer hunting trip this week.

The Western Produce Company here has purchased 3,690 turkeys for the Thanksgiving market up to Thursday morning, according to F. L. Culwell, manager of the concern. Growers received \$15,816 for the turkeys.

Rains which have been falling since Monday have made roads almost impassable. W. L. Ray of Jud, who is a member of the current Grand Jury, said he spent most of the morning Tuesday getting to town from his place. Others who had made out-of-town trips Monday in their cars, were compelled to leave their automobiles in neighboring cities and come home by train.

Miss Ruth Lewis returned Wednesday afternoon from El Paso where she visited her brother, Searcy Lewis.

Mrs. Hall Morrison of Graham spent last week end here visiting her mother, Mrs. J. S. Rike and other relatives.

Mrs. John A. Couch of Haskell and Mmes. Rayford Hill and J. D. Westbrook of Rule left Wednesday morning for Wichita Falls to attend the annual meeting of the State Federation of Women's Clubs.

Uncle Whitt Williams was in the city Saturday and reported that he had been busy sowing wheat. He thinks we have an excellent season for grain and believes the yield will be good next year.

50 Years Ago—Nov. 14, 1903
 Mrs. A. H. Tandy, who has been spending some weeks with her daughter, Mrs. S. W. Scott of this place, left Monday for her home at Woodward, I. T.

Mrs. J. W. Meadors and her

little son Virgil left Monday for Fort Worth where she will visit her brother, Jerald, for a few days, after which she will go to Austin to spend several months in the home of her sister and family. Mr. and Mrs. W. B. Anthony.

J. F. Vernon is assisting in the bank in the absence of Cashier Couch.

Miss Edith Sowell returned Saturday from Gorman, where she had been visiting relatives for a month or two.

Rev. Haley of Collin County has bought Uncle Dan Mooneyhan's place two miles east of town and has returned home to close up his affairs and move here.

W. T. Hudson and Booth Engle left Monday for Fort Worth with a shipment of eight or nine carloads of Lumsden & Hudson cattle.

Judge L. M. Buie of Samford was here Thursday and closed a deal with C. D. Grissom for his ranch of 1376 acres in the eastern part of the county.

County Health Officer E. E. Gilbert reports four cases of scarlet fever in two families in the northwestern part of the county. Both homes have been placed under quarantine.

Messrs. Dune Smith and Bill Miller of Munday were here Sunday on their way to Waco where they will attend school.

Solon Smith left this week on a visit to his old home in Missouri.

Roy Smith, a substantial stockman of Stonewall County, bought a large stock of ranch supplies here this week.

Proper Soil Cover In Winter Helps Prevent Erosion

Will expected fall and winter rains be beneficial or detrimental to the soil on your farm? If soil is unprotected, says M. K. Thornton, extension agricultural chemist, it needs weatherproofing by conditioning the soil to soak up rainfall or at least to slow the run-off rate.

viding a green blanket of protection. That blanket can be made of any closely woven cover of growing such as oats, winter peas or one of the other adapted legumes. Or if you do not prefer to plant legume, any compact growing crop like rye, barley or wheat will provide weatherproofing against damaging erosion, Thornton adds.

extension service demonstrators in all sections of the state. Corn following fertilized legumes produced 36 bushels an acre against 18 bushels where corn did not follow fertilized legumes. This same method of farming showed the following year a per acre increase of 71 per cent for cotton, 63 per cent for grain sorghum, 58 per cent for wheat, 65 per cent for oats and 129 per cent for sweet potatoes.

Cost-Price Squeeze Calls For Efficient Farm Management

Texas farms and ranches produce commodities for consumption, but due to declining prices farmers have been caught in a cost-price squeeze.

The purchasing power of farm prices for all products a year ago was 103 per cent of parity. Today, the national average is 92 per cent. With agricultural prices trending downward, C. H. Bates, farm management specialist, says it is more important today than before to avoid costly haphazard methods of production.

It is expected that production outlays including cost of machinery, fuel, feed, fertilizer and labor will gradually decline with farm prices, Bates says. But, while this adjustment is coming about, he adds, the state agriculturists are suffering a hardship and less efficient operators feel the pinch more than others.

What steps can farmers take to broaden the gap between outlay and production?

First, says Bates, study market reports and livestock information to benefit from wise selling and more profitable marketing.

Use moderate judgment and look for places to cut expenses. Don't overlook the use of machinery to save labor costs, but buy the design of machine suited to specific needs. Wages now are four times as high as in 1941. In comparison, he points out, farm machinery has only doubled in price.

Use credit to the best advantage, but use it wisely.

Don't operate your farm with too much labor and machinery. All too often lower unit costs can be gained by handling more land or keeping the maximum number of livestock that can be handled.

Take advantage of price supports where they are available.

Keep a complete set of records. Farming is a business and deserves the best managerial practices, Bates says.

"And don't be afraid to make changes," Bates concludes. "Don't be the last to accept new and improved agricultural practices."

CARD OF THANKS

I want to thank everyone for being so nice to us while I was sick. Especially I want to thank Dr. Kimbrough, Dr. Nail, Dr. Thigpen, all the nurses and every one who works at the hospital. We also appreciate the flowers, cards and the food brought to our home. May God bless each and every one who helped us in any way.—Mr. and Mrs. John L. McGuire. 46p

Mr. and Mrs. T. J. Brown and Elbert Brown of Weinert were in Idell Sunday where they attended the funeral of Mrs. Brown's uncle, Rube Waren.

Improved again! Now the **BEST** gasoline in Texas is even **BETTER!**

No. 1 in Texas

by a wider margin than ever

A few weeks after the Japanese surrender in World War II, the Humble Company introduced a vastly improved Esso Extra gasoline to Texas motorists.

At that time, the Company promised a policy of continuous improvement: Humble told motorists that Esso Extra would never take second place in quality.

That promise has been kept. Improvement of Esso Extra has been continuous. Statewide, Esso Extra has consistently led other Texas gasolines in quality. Statewide, Esso Extra has been No. 1 in quality every year.

And now, because Texas motorists driving modern automobiles have learned that Esso Extra gives them extra performance, Esso Extra is also No. 1 in sales.

The improvement in the quality of Esso Extra announced by this advertisement is substantial—it is a major improvement. It places Esso Extra far ahead of other gasolines in the qualities that are reflected by performance in your car.

Today, Esso Extra gasoline is No. 1 in Texas by a wider margin than ever before.

Tests prove Esso Extra's superior quality!

There are three qualities of a gasoline that are brought out in the performance of your car. In all these three qualities, Esso Extra leads.

Extensive and continuous laboratory testing of Esso Extra and other gasolines proves Esso Extra's superior qualities, and these laboratory tests have been confirmed by road testing in specially equipped automobiles.

Esso Extra leads in quick starting: In comparative tests with other gasolines, Esso Extra's quick starting characteristics were rated "Excellent," while those of other popular gasolines ranked from "poor" to merely "adequate." When you use Esso Extra your engine starts at almost the instant you press the starter button. But quick starting is more than a convenience. It saves gasoline, and it prevents gasoline dilution of the crankcase oil. If you use your car mostly for town driving, you will specially appreciate Esso Extra's quick starting qualities.

And for good measure, Esso Extra contains a patented solvent oil: This oil is not a lubricant. Its purpose is to dissolve the gummy substances that collect carbon on top of pistons and under valves, and thus help to prevent carbon deposits in the upper parts of the engine.

Esso Extra leads in anti-knock performance: In today's automobile engines, with their high compression ratios, anti-knock performance is the most noticeable quality of a good gasoline. There is no substitute for this quality. Only a gasoline with a high octane rating—that is, high anti-knock performance—burns so evenly and completely that it transfers all the usable energy from the gasoline to the pistons. When your car's engine pings or knocks, you're losing power. Esso Extra has the highest anti-knock performance in Texas.

Esso Extra leads in power: High anti-knock performance assures more power. Since Esso Extra has the highest anti-knock performance in Texas, it gives you more power than any other Texas gasoline. This

conclusion has been verified by special laboratory testing equipment which actually measures the power delivered by a gasoline burning in an automobile engine. Road tests by both Humble technicians and independent research facilities have confirmed the laboratory tests. Your car will develop extra power when you use Esso Extra.

See for yourself—test Esso Extra in your own car

Esso Extra will give you the same results obtained by researchers when you test it in your car. Its quality is so superior that you will notice at once that Esso Extra gives you extra quick starting, extra anti-knock performance, extra power.

You'll discover that you enjoy your car more, that it runs better, that you're getting—at last—the performance you expect from a modern automobile. No other gasoline can duplicate Esso Extra's performance in your car, because no other gasoline matches Esso Extra's quality.

Mr. and Mrs. V. W. Meadors, Jr., Wed In Dallas Oct. 28, On Caribbean Cruise

Following their marriage Oct. 28 in Dallas, Mr. and Mrs. Virgil Walter Meadors, Jr., are on a two-weeks cruise in the Caribbean, visiting in Havana, Cuba; Guatemala, Haiti and other points.

Mrs. Meadors is the former Georgette Claus, daughter of Mr. and Mrs. H. N. Claus of Munday, and Mr. Meadors is the son of Mr. and Mrs. V. W. Meadors, Sr., of this city.

Their wedding ceremony was solemnized at 5 p. m. Wednesday, Oct. 28, in the rectory of the Sacred Heart Cathedral in Dallas, with the Rev. Raymond T. Scott reading the single ring ceremony.

John A. Haddock of Dallas was best man, and Mrs. Haddock was matron of honor.

The bride wore a two piece brown wool dress with beige accessories and her corsage was of white gardenias. Mrs. Haddock wore a black suit and white gardenia corsage.

The bride attended NTSC at Denton, where she received her BA degree. She did graduate work at the University of Colorado in Boulder and Marquette, Milwaukee, Wis., and received her Master's degree from Hardin-Simmons.

The bridegroom attended Texas Christian University and Abilene Christian College. During World War II he served in the China-Burma-India theater. Since his discharge from the armed forces he has been engaged in farming near Haskell.

Mr. and Mrs. Meadors will be at home in Haskell after Nov. 20.

Carol Lane Certificate of Merit Presented Progressive Study Club For 1952 Program

National recognition was given the Haskell Progressive Study Club for outstanding contribution to traffic safety, Thursday evening Nov. 5, when George Caulfield of Lubbock, public relations executive of Shell Oil Company presented the organization a "Certificate of Merit" from the Carol Lane Award.

The award was made by the National Safety Council for outstanding achievement in a traffic safety program, and was based on the 1952 program of the Progressive Study Club, which stressed a safety theme through each program during the club year.

Mrs. R. A. Lane, 1952 president of the club, received the award for the organization. Others instrumental in planning and executing the award-winning program and given recognition were Mrs. W. H. Pitman, club safety chairman, and those who assisted her; and Mrs. Edith Wheatley, program chairman who planned the year's program.

In presenting the award, Mr. Caulfield read the following telegram to the club from the National Safety Council: "We are delighted to announce a Carol Lane Certificate of Merit for achievement in the field of traffic safety has been awarded to the Progressive Study Club of Haskell." Mr. Caulfield praised the club's program as being sufficiently good and the work toward safety sufficiently significant to earn the deserved recognition given in the award.

Art Contest Awards Announced Presentation of the Carol Lane award was the highlight of one of the year's outstanding programs of the club, which also included announcement of winners in the club's annual art contest for children in connection with American Art Week, a brief business session, and highly interesting talk

YES! WE ARE GOING TO SHOW THE PICTURE EVERYONE IS TALKING ABOUT!

THE MOON IS BLUE AN ADULT PICTURE NO CHILD TICKETS WILL BE SOLD!

WHY? BECAUSE - - -

First: It is probably the most delightful and amusing picture ever made and we have no right to deny our patrons such pleasurable entertainment.

Second: We believe mature adults enjoy an occasional picture spiced expressly to the adult taste.

Third: With due respect to the picture's critics, we vigorously deny that there is harm in it. True, it's a sprightly Male and Female tale, frankly and generously laced with sex-talk, but author F. Hugh Herbert has skillfully and delightfully created a story that is exasperatingly honest, hilariously funny, but which should offend no one. (Of course, we admit it is not for the kiddies, and no child tickets will be sold.)

Fourth: We believe ST. JOSEPH MAGAZINE, America's Catholic Family Monthly, hit the nail on the head when it published: "The Moon is Blue" will surely figure in any moviegoer's 'favorite' list as the brightest and most originally charming comedy of the year... It is hard to imagine a more irresistible entertainment piece..."

TEACHER OF THE WEEK

Mrs. Carolyn Mobley finished at Bogata, Texas in her first year. She attended Paris Junior College at Paris, Texas and at East Texas State College at Commerce, Texas. She is a member of the Baptist Church, Texas Teachers Association and the P-T-A. Mrs. Mobley has a member's specialty in education but an especial hobby but an especial hobby but an especial hobby but an especial hobby.

MRS. CAROLYN MOBLEY

People and animals live under the same roof.

The Chinese women make clothes by hand. They make their yarn on hand looms. Most of their clothes are cotton. When their clothes are worn out they take the rags and make shoes. The top part of their shoes are made of cloth and the bottom of cotton. Women once were not in style unless their feet were bound but this painful practice is not used anymore.

Wall
It took hundreds of years to build the Great Wall of China. It was built to keep out invaders. It is 1500 miles long, 22 feet high and 20 feet broad.

Customs
People in China do not celebrate like we do. New Year is the national holiday. They have a big parade with a dragon to head the parade. Children are given at an early age for marriage. In some sections of China the one who drinks his tea first is considered to be most polite.

Cities
Hong Kong is an island city, and Peking is the Capital City of China. Canton and Shanghai are

important cities, Shanghai being located in the section of China which is most advanced industrially and commercially. North China is almost as primitive as it was 500 years ago.

People
China is one of the oldest nations in the world. The people are yellow and are called Mongolians. Most of them are very poor in comparison with the standards of American homes.

The children gathered all the information they could find about China and this was used to make a booklet. Pictures were drawn to put in this and something was written under each picture. A Chinese flag was used as a cover to the booklet.

Some Chinese figures were carved out of soap and some were made out of clay. Several large posters about China were made, some large Chinese flags, and a large salt map of China. Pictures were also drawn on classified ad section of newspapers and on paper plates.

A story about China was dramatized by some of the children.

Geraldine Elkins Is Bride of Major O'Dale Cook In El Paso Ceremony

Lt. Geraldine Elkins, of the Army Nurses Corps and Major O'Dale Cook, both of Eglin Air Force Base, Fla., were united in marriage at 6 p. m. Saturday, Nov. 7, in El Paso. The ceremony was held in the home of the bride's uncle and aunt, Mr. and Mrs. J. N. Hollis in that city. Judge James L. Ashley officiated before an improvised altar at the fireplace where the mantel was banked with pink and white chrysanthemums and emerald greenery.

The bride is a former resident of El Paso, the daughter of Mrs. Audrey Elkins, Major Cook is the son of Mr. and Mrs. C. R. Cook of Haskell. His mother and Mrs. Floyd Cook, a cousin of the bridegroom, attended the wedding from Haskell.

Mrs. E. E. Fourmy played traditional wedding music before the service and during the reception which followed.

Mrs. Irene Burns was her sister's matron of honor and C. B. Hollis acted as best man.

The bride wore a white wool dress with rhinestone trim and a pert brown velvet hat. Her bouquet was of flame colored glamelits and golden brown velvet leaves.

Mrs. Burns wore a gown of royal purple velvet and corsage of gold feathered mums. Mrs. Elkins chose for her daughter's wedding a blue-gray

taffeta dress with sequin trim and white carnation corsage. The bridegroom's mother wore a violet crepe dress and white carnation corsage. The couple's happiness was pledged with champagne at the reception which followed. The bride's table was centered with a long arrangement of pink and white mums and a three-tiered cake. Mrs. Dred Wood and Mrs. Frank Gorman, Jr., assisted and Mrs. Charles Gaddy was in charge of the guest book.

PUZZLE: Who got the hundred million dollars?

He walked into our office seven years ago, sat down. We knew the customer. And a wonderful credit rating he had, too.

Said he wanted airplane engines. By that time blueprints were scattered all over the place.

He was taking no chances. Not one engine would he accept without testing first, stripping apart, building up again, and testing once more. Hmm!

And more. Every engine he bought would be overhauled after 15 running hours.

He didn't say so, but he must have known *we* would have ideas, too. (Lights burn all night when engineers at our place see ways to improve things we make.)

The climax was last August. The customer announced that he would allow 1,200 hours flying time from these G-E engines before an overhaul.

In other words, 80 times as many hours without overhaul as seven years ago. And today only every tenth engine is tested twice before delivery because of what has been referred to as the "perfection rate" of G-E jet engines.

Oh, yes. The hundred million dollars. With General Electric engines now giving extended service, not so many are needed. Improvements have saved the customer that much in five years.

P. S. Who's the customer? The U. S. Air Force. And what was the engine? The J-47 jet engine.

And who got the hundred million dollar saving? Who profits from more Air Force per dollar? The taxpayer, everybody. This story is one more example of what happens where research men and engineers are at work. Products gain in efficiency, do more. New products emerge, and the public is always the gainer.

Cattle Runs Lighter, Prices Steady To Strong On Cattle, Calves At Fort Worth

By TED GOULDY

Fort Worth—Cattle runs were much lighter all over the nation Monday. While some buyers came out Monday with lower bids, they soon changed their tune and prices were steady to strong on cattle and calves.

Good and choice fed steers and yearlings drew \$17 to \$23, two loads of 1238 lb. steers from Oklahoma County, Okla., at \$23. Late last week a load of 1005 lb. club steers topped at \$26.50 at Fort Worth, the highest price of the year here.

Common and medium grassy steers and yearlings bulked at \$10 to \$15.50 and some raminans sold from \$8 to \$10. Fat cows drew \$9.50 to \$12, some heiferish kinds to \$12.50 and above. Canners and cutters drew \$7 to \$9.50 and some higher. A few cows sold under \$7, but they usually were emaciated or had a blemish which may result in their condemnation. Bulls drew \$6 to \$12.50.

Good and choice fat calves cleared at \$13.50 to \$18.25 and some heavies of 600 to 750 pounds drew \$9 to \$20. Some of these big choice creeped calves that weigh around 700 lbs. are really calves for age, but due to weight sell at yearling beef prices.

Common and medium slaughter calves drew \$10 to \$13.50 and bulls sold from \$7 to \$10. Good and choice stocker calves washed at \$14 to \$18.50, with light weights to \$20. Stocker and feeder steers and yearlings sold from \$12 to \$17. Some fleshy coming 2-year-old cattle at \$17. Heifers and heifer calves usually sell for stockers at around \$2 under comparable steers. Stocker cows enjoy a steady demand at prices of \$8 to \$12.50.

Hogs were on the merry-go-round again. Butcher hogs are every more to the shippers and independent packers than they are to the big packers right now and was demonstrated by the Monday trade at Fort Worth.

This same pattern has been occurring for a long time here. Shippers and smaller packers bought choice butcher hogs of 190 to 250 pounds weight at \$21 to \$21.50. One major packer bought some good hogs at \$20.50, and another major packer bid only \$20.25 and got virtually shut out. Sows were 50 cents to \$1 higher, selling at \$18 to \$20. Under and overweight hogs sold from \$18.50 to \$20.50.

Lambs were uneven. Fat lambs were 50c to \$1.50 under last week and feeders were active and

strong to higher. Top lambs drew \$19, and feeders sold from \$17 down. Breeder ewes drew \$6 to \$10, and slaughter ewes sold from \$5 to \$6.50. Old bucks \$3. Yearling wethers \$10 to \$7.5.

Kill the grubs on your cattle and calves backs and it makes the stock worth from 50c to \$1.50 per hundred more.

While this column is primarily a market report, we feel that a few lines about cattle grubs (or warbles, or ox warbles) can be the best advice we can pass along to you.

There are a number of good remedies on the market which your veterinary or veterinary supply house can sell you. Or, your county agent can give you a formula for home mixing. (Some companies put it up in aerosol bomb-type containers).

The grubs damage the hides, but worst of all they damage the skin, the highest priced part of the animal. These grubs can be eliminated at small cost by starting ten days or two weeks before selling time.

Don't forget, the buyers take off from 50 cents to \$1.50 per hundred depending on the amount of infestation. This can mean as much as \$4 to \$6 per head on a 400 lb. calf.

Film On Life Of Martin Luther To Be Shown In Area

Lutherans as well as all members of Protestant Churches in this area will be interested in seeing the film "Martin Luther," which will be shown in theatres in this area soon. Lutheran pastors have been sent reviews of the picture and are urging their members to see the full-length feature film of the life of the great Martin Luther, which was produced by the Lutheran Church Productions, Inc., on location in West Germany.

It is the story of the work of Martin Luther, his efforts for reform, his excommunication, and the developments that led to the origin and growth of the Protestant Movement. Careful research of European and American documents of Roman Catholic and Protestant writers formed the basis for the script. His experiences as an Augustinian monk, his fight for the cleansing of the church at his time, his excommunication by the Pope, his banishment by Emperor Charles V, and his translating the Bible into the language of his people, all make a dramatic story.

HIGHLIGHTS AND SIDELIGHTS

**By VERN SANFORD
Texas Press Association**
AUSTIN, Texas. — Plotting against the Texas conservative Democrats was carried on when the state Young Democratic clubs were reactivated at a San Antonio meeting. As far as the official state Democratic organization is concerned, the San Antonio gathering had no

official status. But the group went head on, bent on furthering the interests of the loyal Democratic group, as opposed to the conservatives who strung along with Governor Allan Shivers and President Eisenhower last year. A speaker at San Antonio was Ralph Yarborough of Austin, who ran against Shivers last year and

who is expected to be a candidate for governor again in 1954. Yarborough will get the loyal-liberal Democratic support—plus perhaps, aid and comfort from a large number of teachers who are not happy with the way their salary increase proposals have been handled. Yarborough has stated publicly that he favors more money for the teachers. —tpa—

Shivers let it be known, meanwhile, that he is ready to serve again as leader for the conservative Democrats if they want him to function in that capacity. Whether or not he will run for a third term as governor is a matter of conjecture, but he has said privately that he does not intend to oppose Lyndon B. Johnson in his race for the U. S. Senate. That Johnson will have competition, however, is sure. In the first place, the Republicans have guaranteed that an opponent for Johnson will be in the running. In the second place, there is another movement on foot—reported in this column two or three weeks ago—to put a Democrat in the race against Johnson. This project is coming along smoothly, and the likelihood is that an announcement will be made before you hear Santa Claus's sleighbells. There is a possibility that the anti-Johnson Democrats and the Texas Republicans will get together on their choice of a candidate. —tpa—

There was a political flavor to the pleadings of Texas cattlemen and those of others states for price supports. A caravan of livestock people went to Washington — and got nothing. Each delegate thereupon vowed to go home and take up the problems with his senator and congressman. The Texas and Southwestern Cattle Raisers Association is opposed to beef price supports. In favor of supports is the United Livestock Producers Association of Dalhart. —tpa—

John C. White, Texas commissioner of agriculture who stuck with Adlai Stevenson last time, is pecking away at the Eisenhower administration in general and Secretary of Agriculture Benson in particular. In White's opinion, the Eisenhower administration is undermining the three keystones of American farm policy—rural electrification, soil conservation, and 90 per cent parity. Opposition to support prices said White in a speech at Giddings, is based on "calculated, deliberate untruth." —tpa—

Southern states will vote Democratic in local and state elections for a long time. But in national elections they will support the candidates standing for the best interest of the country. That is the prediction of J. Strom Thurmond, former Dixiecrat for president, who came to Texas on a speaking tour in the interest of the armed forces reserves. Thurmond, who is a former governor of South Carolina, said, "I'm a Southern Democrat. That's the kind of Democrat I think the people of the State of Texas are." —tpa—

Faster but safer—that's the way Texans are driving. Figures released by the State Highway Department reveal that all vehicles on Texas roads are hitting up higher rates of speed than they did last year. In 1952 only 15.2 per cent of the vehicles exceeded 60 miles per hour, but this year the ratio is 23.4 per cent. State Highway Engineer D. C. Greer said vehicles were checked over a measured distance by clocking devices placed in rural areas and near large cities. At the same time, the Department of Public Safety reported a drop of six per cent in traffic fatalities on Texas roads this year to date as compared with last year's toll. When it is considered that highway travel this year is up four per cent, that makes the fatality record even better, in terms of deaths per traveled mile. Through September of this year, traffic fatalities in Texas totaled 1,661. Nearly 36,000 persons were injured in the nine-month period this year, and property loss was estimated at \$104 million. What the traffic situation requires is more roads, or a limit on the number of vehicles using them, says Texas Highway Commission Chairman E. H. Thornton, Jr. Limiting vehicles is not a very good alternative, Thornton believes. It is, on the other hand, a "defeatist attitude," he said, adding: "Certainly it ought not to be invoked without first giving the people the facts and ascertaining

from them which of the alternatives they want. It is their decision to make, and if we proceed on this premise, I have no fear as to what their answer will be." —tpa—
Phillip B. Gilliam, judge of a famed juvenile court at Denver, said in a speech here that America may fall beneath a tide of juvenile delinquency. "Increasing delinquency is a greater threat to security than is Communism," the judge declared, "and possibly greater than the atom bomb. There is great danger that the nation could fall from within." These remarks were made at a meeting of Texas judges. —tpa—
Annexation laws of the state will be studied by the Texas Legislative Council. "Annexation has become a game of chess between the big cities and the small," said Representative Tom King of Dallas, member of the committee which will direct the study. Big cities, King asserted, have taken in territory without the consent of residents therein, and without a promise of city services. To protect themselves, small cities have taken in large areas, including farms and ranches, the legislator said. —tpa—
Labor constitutes "the greatest pressure group the world has ever seen" and wants to run the government of this country, Dr. Leo Wolman of Columbia University said at a personnel and management conference here. Labor and farm pressure is making the government nervous, the speaker said, "and a nervous government won't govern well." —tpa—

SHORT SNORTS: Byron Skelton of Temple, a liberal Democrat, was chosen as a member of the advisory council of the national Democratic Party. The oldest tree in Texas, "The Lamar Oak" at Goose Island State Park near Reckport, is estimated to be 1,000 to 3,000 years old, and a recent inspection indicates that it is in good health and may live another 3,000 years. Six whooping cranes were in the first flight returning to Aransas wildlife refuge from their summer breeding grounds somewhere near the Arcticle Circle. The whoopers are near extinction, only 21 of them having flown north last April.

Annual Venison Trek Begins
The annual army of Texas hunters soon will take to the brush and mountainside to seek the antlered buck both for the thrill of good marksmanship and the satisfaction of ultimately being served a juicy venison steak. A practical side has fallen, says R. E. Callender, extension, wildlife specialist, is the preservation of the meat. Don't waste an ounce of it, he says, because venison is a palatable substitute for domestic animals. Deer meat may be processed similar to beef or lamb. Immediately after the animal is shot in the field, bleed and quickly remove viscera, Callender says. The carcass should be wiped dry inside with clean rags and if the animal is badly shot up it may

A TRIBUTE TO MRS. R. S. EDWARDS
Thursday evening, Feb. 19, 1953 at 11:15 my precious wife went to be with the Lord. God never gave a man a more wonderful wife than I had. She was a woman of prayer, prudent and patient. She was the very essence of kindness and meekness. Her faith in God was unlimited. When she arrived in heaven, Jesus Christ was not a stranger to her. I agree with the one who said "a good mother is equal to a hundred school masters." My wife's nine children and husband and friends was all she lived for and thought of self last. The night was never too long and the day too hot for her to labor with her hands for her loved ones. When I was young her heart was my school room. As I grew older her spirit was my thought. And as I came to full manhood, she was ever the shrine in which I could see the lovely face of Jesus. My wife was only 66 years old, but she spent those years for her loving Savior. She had no degree from a worldly college but she was full of wisdom and loved by all who knew her. She was frail, but she put her trust in the One who could care for her. She was not known in the society circle of our city, but she was well known before the throne of God. She never played bridge or drank a cocktail, or smoked a cigarette. But the angels delighted in bearing her away to the Father's bosom; but she shouts among the redeemed today. The grandchildren, the in-laws and her children and husband, all call her Mommy. She was just that and more to all of us. She is survived by her husband, R. S. Edwards; one sister living; one brother, four daughters, five sons. With Lincoln I can say, All that I am or hope to be I owe to my dear sweet wife. Her precious memory, her unspotted life, her high moral code, her kind spirit, her fear of God's will always abide with us as a guiding light. It was always Mommy's desire to go suddenly—she never wanted to linger in sickness, so we went to Mrs. West's at 5 o'clock at Lubbock and passed away at 11:15. May God bless all who read this, is my prayer.
Husband,
R. S. Edwards.

It is necessary to wash the inside with water. In any case, dry the carcass promptly. The prize possession should remain dry and be cooled immediately. If cold storage is unavailable, prop open the carcass and hang it from a tree to chill at night and during the day wrap it in a tarp or blanket and move to a shady spot. Transport the fallen buck inside the car or in the trunk. This, Callender adds, is better than on the fender next to the warm engine. The buck should be wrapped for protection, especially from flies. Deer meat is successfully cured, but the thick, plump rounds process best. The most satisfactory method is to have the carcass cut into the desired pieces and placed into a freezer locker. Callender points out. He says the shoulder, neck and lower portion of the ribs when boned make good sausage. Two parts venison and one part pork fat is a favorable mixture, but for a dryer product use three parts deer meat and one of pork fat Season with 14 ounces of black pepper to 50 pounds of meat before it goes into the grinder. Some, Callender says, prefers to season with salt only at the time the meat is ground. Other seasons are added later for meat loaf, hamburger or chili. If the meat must be transported

Weinert, Munday Farm Families Chosen For Progressive Farmer Magazine Award

Lt. Cecil Gholson Honor Graduate At Army School

Lt. Cecil Gholson, son of Mr. and Mrs. J. W. Gholson of this city, was named Department of the Army honor graduate from Class 35 of the Adjutant General School at Fort Benjamin Harrison, Ind., recently. Lt. Gholson made 953.2 points out of a possible 1000. The class was welcomed at the beginning of the three months course by Colonel Irene Galloway, Commander of the Women's Army Corps. The graduation speaker was Colonel Leonard S. Smith, Commander of the school.

After graduation, at Fort Benjamin Harrison, Lt. Gholson returned to his base at Fort Jackson, S. C.

The Melvin C. Josselet family of Route 1, Weinert, and the B. E. Smith family, Route 2, Munday, are among eleven farm families in Texas selected by The Progressive Farmer magazine to receive the "Master Farm Family" award. This is one of the highest honors that is given working farm families in America. The award is based upon distinguished accomplishments in farming, homemaking and community service.

"For a great many years The Progressive Farmer has had the conviction that we could render no greater service to Texas Agriculture than to seek out and honor farm families of outstanding merit," says Eugene Butler, vice president and editor. "In almost every line of human endeavor distinguished accomplishments are recognized and publicly honored. This has not always been the reward of farmers. Many notable farm families have gone unnoticed, unhonored regardless of their splendid records. It was to honor at least a few of our finest farmers that inspired The Progressive Farmer to make the Master Farm Family Award."

"The Master Farm Family program is not a contest," he pointed out. Families compete only against the Master Farm Family standard. There are certain minimum requirements. The family must take good care of the land, while making it pay a reasonable profit on farming operations. There must be a good house with attractive surroundings. The family must take an active part in community life. And they must show an interest in leadership in good schools, farm organizations, Voc Ag., 4-H clubs, soil conservation, and all those group activities that are so vital to a happy, prosperous farm life.

Being selected a Master Farm Family was another milestone for the Melvin Josselet Family. Starting farming in the depression as renters with six wild horses to break for work stock, the Josselets have come a long way. They now own a sizeable acreage of farm land. They have taken droughts and other hardships in their stride and have land, a home, and a family to be proud of.

The B. E. Smith family is a good example of a Master Farm Family. They have one of the

Rule Youth Given Role In McMurry College Play

Abilene — (Special) — Henry Salley, son of S. H. Salley of Rule, has been given a leading role in the 3-act mystery-comedy play, "Arsenic and Old Lace," to be presented Nov. 23 and 24 by the drama department of McMurry College, Abilene.

The play is the story of two old maids who have homicidal tendencies and get special enjoyment out of arsenic-flavored elderberry wine. Salley will enact the part of Officer Klein who thinks maybe the whole family is crazy.

Salley attended high school in Loraine, and graduated from Rule High School. He was treasurer of Future Farmers, played in the band, and played football and basketball.

He is a freshman in McMurry with plans to major in history.

nicest and most completely equipped farm homes in the state, built by efficient farming and hard work. Mr. Smith has a well-balanced farm program that includes both crops and livestock. He has more than doubled his farm output over the years, not by adding land, but by making his acres produce more by use of irrigation, legumes, fertilizers, etc. He also saves time and labor by having his barns efficiently arranged and making use of various labor saving devices. The Smiths and their children are active in church and agricultural activities.

The Josselets and Smiths will be honored along with the other Master Farm Families at a State Award Dinner in Dallas next January. Also, their story will be told in a well-illustrated article in The Progressive Farmer magazine sometime in 1954.

Square Dancers Of Area Invited To Abilene Party

Abilene members of the Westerners Association will be hosts and hostesses to a square dance and barbecue to be held at Abilene's Fair Park Nov. 14 at 8 p. m.

The dance is an annual affair and callers and dancers from all over West Texas, Oklahoma and New Mexico have been invited, according to Fay Moore, publicity chairman.

The Westerners is the oldest Square Dance Association in the entire Southwest and has as its purpose the preservation of the old time square dance which is the traditional dance of West Texas.

Until recently its members included some of the pioneers who danced at such notable affairs as the Cowboy's Christmas Ball at Anson.

Plans for the dance are being completed by numerous committees headed by Jane Van Hook, general chairman. Mrs. Van Hook reports that reservations from out of town members have already passed the 200 mark and many more are expected before Saturday night. Mrs. Van Hook further reports that the public is invited to attend the colorful event as facilities are provided for spectators.

A special square dance band will be on hand to provide the tempo and style and music required for square dancing. This band has been awarded numerous prizes for championship fiddle performances and plays for dance clubs throughout this area.

As a further attraction, Les Gotcher, world famous square dance caller and instructor, will be on the program. This will be one of his few appearances in Texas this year.

News From Sagerton

BY MRS. DELBERT LE FEVRE

Mrs. B. Hess entertained the members of the Stitch and Chatter Club in her home Wednesday afternoon, Nov. 4. The ladies worked on a quilt for Mrs. Hess. Present were Mmes. Cliff LeFevre, Henry Laughlin, G. A. Leach, R. N. Sheid and M. Y. Benton, and the hostess. The next meeting will be Nov. 18 in the home of Mrs. Leach.

Grady Laughlin went to Dallas last week end after he received word that his father, Henry Laughlin, had fallen from his hospital bed after an operation and broken his hip. Mrs. Laughlin is in Dallas also.

John Clark is a patient in the

Haskell Hospital recovering from a heart attack he suffered Tuesday of last week while on his way home from Sagerton. His son, Whit, whose home is in Benavides was with him at the time. Mr. Clark expects to come home this week.

Mr. and Mrs. Glyn Quade and sons visited in Aspermont Sunday with Mrs. Quade's mother, Mrs. Lawrence.

Mr. and Mrs. Pete Lusk spent last week with Mr. and Mrs. Jim Darden in Haskell. Mrs. Lusk has been on the sick list.

Leslie Cobb of Midland visited here and in the Haskell Hospital with the John Clark family Sun-

day while on his way home from Fort Worth.

Mr. and Mrs. Charles Clark entertained the members of the Intermediate Sunday School class of the Sagerton Methodist Church and their friends with a party in their home Thursday evening of last week. Because of the bad weather several of the young people could not come. Those present were Patricia Summers, Sandra Ross, Winston Ulmer, Billy Tabor, Carl Kainer and Fred Wendeborn, and the host and hostess.

A group of young people accompanied the Rev. and Mrs. Zucker to Albany Sunday afternoon for a rally of the West Texas Division of the Walter League of the Missouri Synod Lutheran Churches.

Mr. and Mrs. H. C. Neinast and their daughter, Mrs. Paul Dick and her daughter of Haskell, visited in the home of Mr. and Mrs. Oscar Neinast Sunday afternoon.

Mrs. F. W. Stegemoeller who has been staying with Mr. and Mrs. F. A. Stegemoeller has moved to the home of Mr. and Mrs. Will Stegemoeller for a visit.

Guests in the home of Mr. and Mrs. Barney Ross last week end were Mr. and Mrs. M. D. Ross of Dublin and Mr. and Mrs. Roy Macon and son of Stamford, and Mr. and Mrs. Bill Ross.

Louie Havermann, who lives on his farm east of Sagerton, has been on the sick list.

Patricia Kupatt of Midland, spent last week end with her parents, Mr. and Mrs. B. Kupatt.

Mr. and Mrs. Jack Monse who have been living in Mrs. Lizzie Helm's house here in Sagerton, are moving to the farm of Mrs. Herman Rappelt near Old Glory. Mr. and Mrs. Harvey Hahn and family have moved into Mrs. Helm's house.

Mr. and Mrs. R. T. Lambert, with their family, Gerald, Taft and Jeanel, spent the week end here with their parents, Mr. and Mrs. G. A. Lambert. They all went to Haskell to visit with John Clark in the hospital there. Mrs. Lambert received word that Mrs. Frank Pilley in Abilene is improving and that there are hopes that she will retain partial sight of one eye. The news was gladly received here by her old friends.

The Ladies Mission Circle of St. Paul's Lutheran Church met Sunday afternoon for their annual business meeting. Officers elected for the coming year are, President, Mrs. Viola Rinn; vice president, Mrs. Herbert Vahlenkamp; secretary, Mrs. A. N. O. U. Tietzelmann; and treasurer, Mrs. Herbert Nierdieck.

Friday afternoon of this week the ladies plan to pack Christmas packages for servicemen overseas and the Lutheran Home at Round Rock and Muscatine, Iowa, and to make a quilt.

Soil tests can be used to determine the fertilizer needs of a particular field if the samples are properly taken. The testing of soil is a wise practice regardless of the season but is especially beneficial at this season.

Mozart's wife kept him awake with amusing stories, while he composed an overture to an opera to be performed the following day.

Mahon Warns Farmers To Keep Abreast Of Acreage Control Developments

Congressman George Mahon warned farmers and businessmen this week of the importance of keeping abreast of acreage control developments. He feels that many adjustments are going to be necessary to meet the shock of the forthcoming programs. He points out that by reason of the anticipated drastic reduction of cotton plantings, overall cash farm income will be down. Mahon made for the press the following statement over the situation.

"Farmers and businessmen can do a better job of planning if they have a general knowledge of what to expect by way of government controls. Of course, no controls will be imposed unless they are first approved by the farmers themselves. A majority of two-thirds of those participating in a referendum is required. The object of controls is to reduce production, prevent excessive surpluses, and make possible relatively high government supports.

"The vote on cotton acreage controls is set for December 15. Secretary Benson has announced that, under existing law, if controls are approved, cotton farmers as a whole will be given a national allotment of 17,910,000 acres. This is 16% below what farmers were able to plant in 1950, the last year when acreage controls were in operation.

"There has been a shifting of cotton production toward the west, particularly to California, and these western states will share in the national allotment. This means that in most cotton counties of the nation sharper reductions will be made because of the shift of cotton production westward, and because of the overall 16% cut below the 1950 control program.

"Under the anticipated control program, farmers in cotton-producing counties will be privileged to plant a certain percentage of their cropland to cotton. Generally speaking, within the county the percentage factor for each cotton farmer would be the same. The factor would differ from county to county which had been planted in cotton during the past five years. However, the five-year period upon which allotments for the next year would be based would not include 1949 and 1953. The law specifies that abnormal weather conditions must be taken into account in arriving at allotments.

"In the 1950 program in the 19th District cotton factors ranged from a low of 12% in Yoakum County to a high of 58% in Dawson County. The factor represents the percentage of cropland that the average cotton farmer in the county could plant in cotton under the program. The average factor in the 25 counties was 38%. This was by far the highest av-

key five-year period.

"In my opinion, the announced national cotton acreage allotment is too low, and I believe that the chances are about fifty-fifty that Congress, when it reconvenes, will raise the national allotment to about 22 million acres. However, the farmer cannot be sure of future developments. The House of Representatives passed a bill in June raising the national allotment to 22½ million acres, but a controversy on the matter arose in the Senate and final action was not taken.

"Secretary Benson has announced that controls may be established on corn production next year. If this develops, a control

program on combine milo could be announced. Yet, as of this date, there is no regulation which would limit milo and sorghum plantings in 1954. For example, a producer in a county with a 30% cotton factor could plant 30% of his land in cotton and 70% of his land in milo. The Secretary has already announced a support program on milo next year at 85% of parity.

"The wheat control program is

already in operation. However, it has now been specifically announced by the PMA in Washington that a non-wheat farmer without an allotment can, without penalty, plant, harvest, and sell the wheat production from 15 acres of wheat or less. He would not be eligible for a loan on the wheat, but this would not throw the producer out of compliance on other farm programs."

U. S. Navy Band To Play At McM College

Abilene—The United States Navy Band has been contracted to appear at McMurry College Nov. 17, 1954, according to Raymond T. Bynum, director of the McMurry College Band. This will be the second appearance of the Navy Band at McMurry, the first having been about two years ago, Bynum said.

The U. S. Navy Band was created March 4, 1925 by President Coolidge, and made its first tour the fall of that year.

Composed of nearly 100 individual artists, the band contains within itself, a complete symphony orchestra, an ultramodern "swingphonette," and a number of musical groups.

Lt. Commander Charles Brendler, who has conducted the band since 1941, is the first Navy musician to attain the rank of lieutenant commander in the regular Navy. He has conducted the band before audiences throughout the United States, Canada, Puerto Rico, Panama, Jamaica, Haiti and the Virgin Islands.

The Navy Band will play at two matinees and one night performance during its visit to the McMurry College campus.

Stamford Soldier In Korea Promoted To Corporal

With The Korean Military Advisory Group—Elvis C. Vest, 111 E Davenport St. Stamford, was recently promoted to corporal while serving with the Korean Military Group (KMAC).

American military personnel assigned to KMAC advise Republic of Korea Army units in training and in the field. The group played an important role in the rapid build-up of Korean military forces.

Corporal Vest who arrived overseas last January, holds the Korean Presidential Unit Citation Badge and the UN and Korean Service Ribbons.

A graduate of Stamford High School, he entered the Army in March 1952.

McM Ex-Lettermen To Be Honored At Homecoming

Ex-Lettermen athletes of McMurry College in all sports since 1923 will be recognized and honored in a special half-time program at McMurry's Nov. 14 Homecoming game with the Howard Payne Yellowjackets. Wilford Moore, McMurry's athletic director, has announced.

Special invitation letters have been mailed to all ex-lettermen on whom the college has records, Moore said, and anyone not contacted is hereby invited through the press and radio.

The ex-lettermen will be sideline guests at the McMurry-HPC game of Abilene's Indian Club, backers of the McMurry Indians.

When you really like us

You buy insurance because you're smart — not because you get a kick out of it at the time.

When we deliver an insurance policy, nobody ever says: "Oh boy, what a beautiful policy!"

But when somebody has a fire or a robbery or a lawsuit or a loss of some other kind, and we deliver a check from the insurance company —

—THAT is when people really like us. It happens frequently.

Bear with us when we try to get you to carry the insurance you should—but love us when we help you meet your loss. That's all we ask.
