Cutting Still Caged.
 Latest from the Front.
 Special to the Gazette.
 El Paso Tex. Aug. 12.—There are no new developments today in the Cutting case. There is nothing to do but to wait for the appeal of Cutting at Chihuahua, and see if the supreme court will not revoke the decision of the Paso Del Norte court, and liberate Cutting. The Chihuahua authorities are pushing the trial as rapidly as possible and the appeal will be decided by Tuesday, 17th inst. J. R. Field, a prominent citizen, who owns extensive mines in Mexico, came up to day, and was asked if the thought Cutting would be set at liberty. He replied that he did not know. "Then will there be war?" "I know no more than any other private citizen, and having been at Chihuahua for months, don't know as much of the Americanside of the case as gentlemen on this side of the Rio Grande, what enlightened Mexicans think of the affair is all that I can say. They do not talk much about Cutting being paroled, but they say that the United States acted too hastily and will recognize the injustice of their demand and ultimately allow cutting to serve out the sentence passed upon him. They say the law of Chihuahua is as old as the Latin race. Age does not sanction wrong, but the Mexicans believe the law all right, and I do not think they will submit to it being abrogated under existing circumstances. They claim that although Cutting published his second attack upon Medina in the El Paso Herald, the issue of the paper was circulated in Paso Del Norte, and to demand the prisoner's release, they claim, is as unreasonable as it would be to ask the release of a man who has stood upon the Texas side of the river and shot across and killed a Mexican and then went over to Paso Del Norte and was there arrested."
 How do American property owners in Mexico express themselves relative to the Cutting matter?
 "They say that the government has acted hastily; that the Mexicans have the best side of the case, and that the whole matter will be fixed peacefully by diplomacy."
 "Do you think property interest has anything to do with making them talk thus?"
 "I do," said Mr. Field; "it is natural."

Laredo is Uneasy.
 Special to the Gazette.
 Laredo, Tex., Aug. 12.—The American citizen in this city now sleeps with his pistol handy, although there has been no demonstration whatever on this side of the river. Yet the readiness of our neighbors in Mexico causes no small amount of uneasiness here. It is said that Mexican troops at New Laredo are ready at any moment's notice to leave their barracks, and we are kept in readiness night and day.
 Prominent merchants in Laredo say war cannot be averted unless the United States take war, and they claim to have received reliable information that in case of a struggle with this country, Mexico can call for aid, and receive it indirectly from foreign powers who are not particularly friendly to the United States.

Resolutions
 of Summer Normal Institute.
 Cisco, July 31st.—86.

Whereas; there has crept into the profession of teaching, a class of incompetent persons holding certificates of low grade, and Whereas; such persons have no desire or intention of rising in their profession as is evinced by their habitual absence from the Summer Normal School, and by their retention of low grade certificates without making an effort even to submit to an examination with a view to obtaining higher grade certificates.
 Whereas; such incompetent persons retard the educational progress of the age, and cast a stigma upon the honest teachers and workers in a community.
 Whereas; in this matter we are actuated solely by a desire to elevate the standard of the profession, therefore,
 Be it resolved; that we respectfully and earnestly request the different Public School Boards of this senatorial district to require of their teachers, and applicants to teach, holding 2nd or 3rd grade certificate, an attendance upon the Summer Normal School proceeding or following their appointments as teachers. We further request the County Judges of this district to refuse to renew, except upon examination, 2nd or 3rd grade certificate, when such certificate shall have been in use for two years.

Resolved; that our Secretary be directed to send a copy of these to each of the new papers in the district with a request for their publication

In Bed With Wasps.
 A gentleman from Kingston stopped over night recently with a farmer. He was treated to the best of everything in the house. Milk and honey flowed in profusion for him, and the charming daughters of his host sang and played for his entertainment. He was in the seventh heaven until bedtime, and then he reached the fourteenth by the way of the best bedroom in the house.
 It was a single bed-room reserved for the exclusive use of "company." It had not been used for some time. The night was cold, so the farmer started a fire in the room below so the pipe which ran through the room upstairs would take the chill off. But, unbeknown to the farmer's wife, a swarm of wasps had managed to get into the room and fairly loaded the ceiling and windows. The gentleman did not fancy the presence of the bees, but, of course, was too timid to complain to the farmer, who was entirely ignorant of their presence.
 The supposed bees were quiet enough until warmed up by the fire below, when they commenced to drop in bunches. The farmer, utterly undressed, "saw and shot" were the prayers that he said, and blowing out the candle he started for the bed. A bundle of wasps fell on his feet, and giving a bound he jumped through intervening space, landed on the head-board and pillow, and covered himself, head and all, with a quilt.
 During the night the wasps continued to drop and he got quite a lot on the bed and floor. He finally fell asleep and dreamed. He thought he was beside the ocean on which the farmer's two daughters were making delightful music, and their big brother was prodding him with a pitchfork from behind, but he must not move, he said to himself, or he will be teased to death. Still, the buzzing went on, and with a morning dawned he found his room with a pillow, scented the posts from his side, and made his escape to the regions below.
 At the breakfast table he was served some hot coffee, and he said that he never slept better in his life. The country air had a good effect on him, and he had a grand breakfast.

BLOODSHED IN CHICAGO.

Battle Between Pinkerton's Detectives and the Lake Shore Strikers.

Three Strikers Killed and Several Wounded. Strikers Capture a Train, More Bloodshed Expected.

Anarchists Trials in Chicago--DeMorse on the Stump--Boycott--Poison--Robbery.

CHICAGO, June 28.—The public are growing tired of the anarchists' trial. A week has already been passed in examining jurors, and as yet there have been only four secured. In consequence the court room, which has been heretofore crowded with spectators, was to-day almost deserted.

The friends of the accused men were on hand as usual, and listened to the questions put to the jurors, which have been reiterated time and again during the week, as though the lives of the prisoners depended on them. Juror after juror was examined this morning, but all were of the opinion they could not give the accused a fair trial and were excused, and only a few were challenged peremptorily. Up to 12 o'clock not another man had been selected.

INJUNCTION ISSUED.

CHICAGO, June 28.—Judge Shepard in the Supreme Court this morning issued an injunction against several of the strikers on the Lake Shore road on an affidavit signed by General Superintendent V. P. Wright. In the affidavit that gentleman charges that on April 22, 1886, defendant made a request asking for the discharge of eight men who were objectionable because they remained in the employ of the company during the strike of 1871. The company refused to grant the request on the ground that, with one exception, the eight men had been in their employ from ten to eighteen years. The affidavit goes on to say the company cannot discharge the men without sending them out of the state which is impracticable, as all have families. It is then charged that the strikers were interfering with the company in its capacity as a common carrier; that the company is ready to pay the strikers what money is due them; that they have no right of premises of the company except to collect what is due them, and that they can get the amount through the cashier in Chicago. The injunction restrains the men from interfering with trains, pulling out coupling pins or persuading employes from doing their work. It seemed to have a depressing effect on the strikers, for up to now, although there were small crowds congregated, no violence was reported. The railroad officials remain quiet regarding their intentions, but it is claimed an attempt to send out on a train will be made this afternoon.

CHICAGO, June 28.—Shortly after noon an engine started out from the round house and as it passed the crowd of strikers cries of rage were rent up and hundreds of stones and cinders were sent flying at the officers who covered the lake shore engines. In a few moments a nickle plate engine came along, it was surrounded and captured by the strikers. They boarded and pulling upon the throttle started in pursuit of the lake shore train. Then ensued a wild race, both engines fairly flying along the track for about three miles when the strikers came within ten feet of the company's train. Detective Matt Pinkerton and his posse opened fire on the strikers. At least three were shot and fell from the engine, while others were knocked off by the wounded strikers falling. Several detectives were in turn wounded by a shower of stones. Finally the train was captured by the strikers and taken back. There is great excitement and fears of more bloodshed.

ROBBERED.

HOUSTON, June 28.—H. McConnell, of Liberty, Tex., was robbed of \$65 at the Capitol Hotel while sitting asleep in a chair. Detective Hennessey worked up the case and traced the robber by means of a torn \$20 bill. Isaac Lyle had passed the bill at a Preston street saloon. The knife and balance of the money were found in a negro gambling dive, where Lyle had been playing dice. Lyle is a short stout negro employed at the Capitol Hotel. When arrested he admitted the theft and was jailed.

In the case of August Schaper for killing his stepfather, Judge Edgemoor, two weeks ago, the jury returned a verdict of not guilty.

PITTSBURG, Pa., June 28.—The nailers' strike, after a year's contest, has been brought to a close by compromise at a conference of manufacturers and employes. The following is the schedule agreed upon:

Seventeen cents on a \$2 card, with an advance of 1 cent for every increase of 25 cents in the selling price. The difficulty being settled work will likely be resumed throughout the country. Mills which have been running the Mingo compromise will come down to the new schedule.

DISGUSTING REVELATIONS

At the St. Louis Work-House--The State Encampment.

ATTEMPTED SUICIDE AT AUSTIN.

AL COHEN'S TRIAL.

FORT WORTH, June 26.—Al Cohen, a butcher, indicted for inciting the riot here last April, which resulted in tragedy, was tried to-day and fined \$175. It was not proven that he did more than stop trains and urge others to do likewise.

A negro woman named Ellen Terry was put in the calaboose, in default of payment of fine. She asked her husband to get her some morphine to make her sick, so she could be released. He did so, worked all night to secure her release, but all wrong for the woman, who died this morning from the effects.

ST. LOUIS WORKHOUSE REVELATIONS.

ST. LOUIS, Mo., June 26.—An afternoon paper to-day publishes a long sensational article, which claims to be a faithful report of the inward management of the St. Louis work-house. The gist of the publication is as follows: Nominally a prisoner is allowed 50 cents per day for his work, but by arbitrary means of deduction this is reduced to 40 and 39 cents. For instance no pay is given for Sunday, and the half Saturday's pay is deducted to sustain the expense of alleged superior food which is furnished the prisoners on that day. Once a week all the white prisoners, numbering about 200, are required to bathe in one tank, 6x5 feet, from which the

WATER IS NEVER DRAINED

until the whole number have washed themselves in it. Not a few of them are afflicted with loathsome disease while others are covered with ulcers and running sores, which, by means of the bath are easily communicated to the unafflicted. The 250 negroes are required to bathe in the same manner, though in a fresh supply of water, and the whole 250 are furnished with but forty towels. The cells in which the prisoners are confined when not at work are 12 by 15 feet in size, into each of which are crowded eight men. In case of sickness the patient is placed in a cell of inferior accommodations in which are also confined.

INSANE PATIENTS.

and those of the new-comers for whom room cannot be found, is made in other cells. The food is inferior in quality and insufficient in amount, the bread being too hard to eat and the coffee too weak to taste. The water given the men to drink while at work is dipped from a cattle trough, and the stone-workers in the quarries are required to drink from the

SAME BUCKET AS MULES

and horses. One of the worst features of the management is the laxity of discipline and the indifference of the warden and guards as to what prisoners say and do while unemployed at the noon hour. For instance, instead of being returned to their cells, they are hurried promiscuously into the corridors, where they remain until called to work. Here they eat that portion of food which they are allowed to carry from the dining-room. They throw the

REFUSE AT EACH OTHER.

and play cards and craps, smoke, swear, fight, indulge in disgusting language, all unrestrained by any guard. In regard to the punishment of offenders against the work house rules, the writer says: "A prisoner may be either confined in a bull-pen or a dark cell, or is strung up. The latter punishment consists in hanging the offender up by his wrists and keeping him in that position until obedience to the rules is promised."

THE LAMPASAS DRILL.

LAMPASAS, Tex., June 26.—After a battalion drill to-day, in which the Houston Light Infantry, the Bonner Rifles, the Austin Grays, the Douglass Rifles, the Decatur Rifles and the Houston Light Guard participated, there were ten guns fired in honor of Gen. D. S. Stanley.

The competitive drilling was opened by the Houston Light Infantry, followed by the Bonner Rifles.

Capt. Thomas Scurry, H. C. Davis and D. J. Ranbough were selected as judges.

The Houston Light Infantry drilled very well considering the short length of time they have been organized, though some of their movements were faulty, especially in fixing bayonets, and they did not get through in the prescribed forty-five minutes.

The Bonners were next in field and formed in line for the manual. The captain made a bad break by ordering the manual before the inspection of arms. This will hurt them. Their firing was very good, both by file and company and kneeling and they were warmly applauded. There were many regrets expressed at the captain's mistake. He fainted from the excessive heat after the drill was over.

The Fourth Regiment band of Tyler, accompanied the headquarters after the dress parade this evening. The governor thanked them very cordially for the compliment.

The Galveston county convention unanimously instructed for the re-election of Congressman Crain.

The senatorial convention to nominate a senator for the 20th district will meet in Weatherford, July 30.

"MURDER WILL OUT."

SAN ANTONIO, June 26.—Frank Mandrilla, was struck with a gun and killed at St. Hedwig last Saturday by Michael Lickowski, a Polisher. Lickowski buried the murdered man somewhere and search is being made for the body. The murderer is under arrest, but refuses to divulge the whereabouts of his victim.

The Hosts Fighting for Food Aided by the Lord.

How the Ravens Ministered to the Prophets--Not the Slightest Need of Dependence on Matter How Dark the Present May Seem--Trusting the Lord Always.

Special to the Kansas City Times.

BROOKLYN, N. Y., June 30.—As a report had been published in many papers that the Rev. Dr. T. DeWitt Talmage was in poor health, he told his congregation in the Brooklyn tabernacle to-day that he had in the thirty years of his ministry missed but one Sabbath through ill health, and that Sabbath twenty-four years ago. He said that he had never been in as robust health as at present.

The ordinary state of things at the Brooklyn tabernacle on Sunday morning is that 6,000 people assemble inside and multitudes are not able to get in. At a recent meeting of the session thirty-eight new members were received, making the communicant membership of that church about 3,490.

The opening lesson to-day was: "Though troubles assail and dangers afflict, Though friends should all fall and foes unite, Yet one thing assures us, whatever betide, The Scripture assures us, 'The Lord will provide.'" OINTHOLOGY OF THE BIBLE.

The subject of the sermon to-day was, "The Battle for bread," and the text was taken from I. Kings, xvii, 6; "And the ravens brought him bread and flesh in the morning, and bread and flesh in the evening." Dr. Talmage said:

The ointology of the Bible is a very interesting study. The story which knoweth her appointed time, the common sparrows teaching the lesson of God's providence, the ostriches of the desert, by careless incubation, illustrating the recklessness of parents who do not take enough pains with their children, the eagle swooping down to take its prey, and its way, the pelican emboweling its side, the bat a flake of the darkness, the night hawk, the osprey, the cuckoo, the lapwing, the osprey, by the command of God in Leviticus, hung out of the world's bill of fare. From a Young Wife's Diary.

George said last week that we must economize, for trade seemed to be paralyzed. It is funny that trade should have waited till we got married and then get paralyzed.

At first he laughed a low, bitter laugh, such as we sometimes hear on the stage when the villain sticks a large red stab knife into a casual acquaintance.

I also know how to eloquence some, but that does not help us now. What does a poor man want of a wife who can recite "Curfew shall not ring to-night," and who cannot throw any hope into a low spirited hunk of bread?

Yesterday I bought a little red receipt book of a young man who called at the door. His eyes were so deep and dark and his voice so pleading that I would have purchased the book if I had had to borrow the money.

Yesterday our landlady gave me a slip of omelette and I have planted it in a cute little pitcher in the window, where it is slowly growing as I write.

There would be far less conubial unhappiness if wives would study their husbands' wants, and supply them, I think. — Hill Nye.

RELIGIOUS STATESMEN.

Fervid Piety of the Senators from Georgia—Deacons in the House. As far as appearances go the most religious men in either branch of congress are the two senators from Georgia, writes a Washington correspondent of The Philadelphia Times.

His colleague, while not so much of a missionary, exhibits a great deal of piety on occasions. He is a regular delegate to all the Baptist conventions and does a considerable amount of lay preaching.

There is one more senator who is particularly noted for his scrupulous discharge of church duties. This is Warner Miller, of New York. He is a regular weekly communicant at the Methodist church on G street.

Anderson, of Kansas, is another religious man. He was once a Presbyterian preacher and a chaplain in the California volunteers. Being an ordained minister, his political position does not exclude him from the pulpit.

Among the well-known church deacons in the house of representatives are Pettibone, of Tennessee; Forney, of Alabama; Iron, of Louisiana; McCree, of Kentucky; Tucker, of Virginia; and Ellsberry, of Ohio.

He Knew What That Meant. A Congressman's daughter had been receiving a young man's attentions until the father thought it was time he was knowing something about it.

Haskell Cotton.

Mr. Stephen Harvey was in our sanctum the 16 inst. and showed us a stalk of cotton which he said was only an average stalk of one acre of cotton grown on his farm in Haskell county. The specimen shown us was about three feet high and was heavy with fruit.

When we consider the circumstances under which this cotton grew, we are convinced of the fact that this county cannot be surpassed by any country in the world.

Mr. Harvey says that when he planted his cotton there was just rain enough to bring it up, and after it was about eight inches high the drought set in, and on account of there being no grass the grasshoppers took to the cotton and cut it down, but it put out and had regained its present height by the time of the rains in June and it was well fruited about the middle of June when the rains came, and, contrary to his expectations the cotton held all its fruits.

Jackson: _____: Texas.

This is the first cotton ever planted in Haskell county, and as it is a well demonstrated fact that this is a fine cotton country, we expect the farmers will plant a heavy of the fleecy staple crop next year.

This cotton has gone through a drought which sorghum could not stand. Haskell is bound to come to the front as an agricultural county.

Jackson, Stonewall Co. Aug 18 -86

Editor Haskell City FREE PRESS.

Dear Sir: Having leisure at present I improve the opportunity to comply with your request for a short description of Stonewall county. The wide awake citizens of this county, not wishing to be behind their neighboring counties in any thing pertaining to improvement and development of the county, have already taken steps toward the organization of their county at an early day. A town has been laid out near the center of the county under the proprietorship of Mr. Hodges, who is, a courteous gentleman of fine business qualities and never allows an enterprise, to which he has put his hand, to languish for want of proper support.

Mess. Hale and Grey, both of whom are men of long experience in the surveying and land business, have been appointed agents for the sale of town property. Under the management of these gentlemen and with the support they are sure to obtain from the proprietors, Jackson, which is the name of the new town, is certain to have a rapid growth.

The lands of Stonewall county is certainly equal to any county in Northwest Texas for agricultural and grazing purposes. The county is watered by the Salt Fork and the Doublemountain Fork of the Brazos River, beside several smaller streams and numberless springs which make it one of the best if not the best watered counties of the Northwest.

Recent discoveries have established the fact that Stonewall county is rich in Minerals - Silver and Copper having been found in sufficient quantity and richness to warrant the exertion of machinery for working the same, which is now being done. With all of these advantages there is no room to doubt that Stonewall county has a glorious future before her.

A year has not yet passed since the first colony of actual settlers, consisting of ten families that energetic and gentlemanly Surveyor, Mr. C. K. Benson, formerly county surveyor of Young county, yet in that short space of time the number of families have increased to one hundred and fifty.

Churches and Sunday schools have been organized and are in active operation. Singing classes and debating societies have been formed and have a large attendance. Society has thrown aside the rough manners of the Frontier and is now putting on all the airs and styles of more thickly settled countries.

himself known and felt as a permanent institution and a power in the land. The shriek of the iron horse can be heard in the distance faintly, it is true, at present, but it will grow louder and stronger, as the days pass by; and the day is not far distant when the people of this county will be confidently talking of having a "Railroad soon" just like other folks.

NEW MARRIAGES

A Missive Dear to Some of the Odd People He Has Joined Together.

The Rev. D. R. Lowell, of the Ash Grove Methodist Church, in this City, read a paper before a small but attentive gathering yesterday morning in the lecture room of the Hudson Avenue Methodist Church. He dwelt upon the different ways that people present themselves for marriage, the sad results of some marriages and the amusing incidents that occur. Mr. Lowell said "All that pertains to the work of the ministry is of interest and profitable to us as we exchange our thoughts in conference. Every minister has various experiences in starting people in their life. Sometimes these experiences are pleasant, sometimes sad and amusing, and oftentimes very annoy ng.

"One of the strangest cases was where a colored man had become enamored of an Irish girl, and they finally presented themselves for marriage. After the ceremony had been performed they left, apparently happy. On the day following the man returned and wanted the marriage undone, but all that he could do was simply to refer them to a lawyer. Another case that is amusing, and yet sad, is where I once married a young couple, and when I had pronounced them man and wife the young man paid me \$1, and explained he was unable to pay more, as he had just lost what little money he had possessed. A short time afterward his wife died and the young man came to borrow \$2 from me, promising to return it in a day or two, but instead of returning it he went to a neighboring minister and was married on my money. I was once called to a house to perform the rites of marriage, having the certificate, all made out with me. At the house the friends were all waiting. The table was spread with a bounteous supply. When it was time for the ceremony the bride came forward, not leaning on the arm of the groom, but, on the contrary, she was supporting him. He was so much under the influence of liquor as to be unable to walk. At my request he was seated, and I had a talk with the intended bride, and learned that she was the daughter of rich and respectable parents. Her father was to shower a dowry of \$10,000 on her at the time of her marriage, and she insisted on marrying this poor drunken wretch who did not own a dollar. I flatly refused, and left the house, taking the certificate with me, as I did not deem it right to marry a man that did not know what he was about.

"These are some of the few cases that have come to my notice. Oftentimes I am compelled to turn couples away that present themselves for marriage for various reasons. The fees of ministers vary for performing the ceremony. Sometimes they receive as high as \$20 and more, and range from that as low as \$1 and nothing. Oftentimes some ask to have the fee trusted, which is always done. Some frequently agree to pay more, and others never pay at all." - Albany Express.
