Peacock and Swenson half time.

50 Years Ago—March 11, 1905

We are informed that the school house at Marcy, which has one of the largest public schools in the county, was set on fire and came near going up in flames Saturday night. It is said that Mrs. E. D. Garner was looking out her door and saw a match lighted at the schoolhouse and seconds later she saw the building on fire. She promptly gave an alarm and a crowd at the Baptist Church service nearby ran to the school building and extinguished the fire before much damage was caused. Examination showed that kerosene had been poured on the building in places, and a thorough investigation is to be made.

W. D. Dickenson has returned from his sheep ranch near Del Rio.

Sheriff J. W. Collins left today for Chickasha, I. T., to return a man who was indicted here for theft of a horse from Mrs. Alston.

A. G. Lambert and E. L. Northcutt say they made a pretty good record last week plowing in oats, having turned in 24 acres in five days.

W. T. Hudson made another shipment of cattle to Fort Worth this week. He says cattle generally are in fine shape and that

the losses during the winter will not amount to more than two per cent.

T. P. Hughes of Georgetown was here this week looking after his ranching interests southeast of town.

J. W. Johnson and son have sold their herd of Hereford cattle to Cum Hudson.

A. M. Allen of the north side, an all around farmer, chicken and hog man, was in town this week and placed an advertisement in The Free Press.

J. E. Irby of the east side spent two or three days in town this week. He said that as a result of the heavy rain he was afraid to tackle the roads. This country's getting to be worse than Arkansas, he said.

School Teachers!

Before in history, the school teacher is the builder of tomorrow's America. Frequency increasing space, and sweeping into our school books, it is a growing tribute was paid to these women who instruct our young. Let's remember that teachers are human beings, not machines. Let's give them the support and confidence they deserve. Let's attend P-TA meetings. Let's do something more than children. This is our responsibility in having such fine schools. Let's applaud their work. Let's appreciate American achievements.

U. S. Senator Strongly Denounces News Suppression

Senator Sam J. Ervin, U. S. Senator from North Carolina, denounced arbitrary suppression of news by public officials when he addressed the North Carolina Press Institute recently.

"As one who believes that the America which we know and love cannot endure without an informed electorate," he said, "I deplore all unjustified efforts on the part of occupants of public office to withhold from the people basic facts about current events in governmental matters."

Sen. Ervin described various ways some public agencies use to avoid telling the public what they are actually doing.

He listed executive sessions, press handouts which distort the news, gagging employees, and abusing censorship imposed in the name of national security.

"Despite the important roles played by the radio, television and news magazines," Sen. Ervin said, "newspapers remain the most important media for the dissemination of information to our people."

"This country has over 10,000 daily and weekly newspapers with circulation exceeding 70 million," the senator said.

"It seems at first blush," he continued, "that newspaper readers would glean from these publications all the truth about happenings in the world at large, in our national affairs, in our state affairs, and in our local affairs. But this is not true.

"Many of those who occupy public offices at the will of the people entertain the strange notion that the people are not to be trusted with the possession of the facts relating to governmental matters."

During the institute the North Carolina Press association adopted a statement defining the responsibility of the press to society.

"The final test of every story every headline, every editorial in every newspaper," said the last paragraph of the statement is whether it is "honest, fair and accurate."

LANDOWNERS REAP DOLLAR HARVEST

Last year thousands of landowners cashed in on royalties totaling more than 900 million dollars. Thousands more throughout 38 states received lease bonuses and rental payments on 249 million acres not yet proved productive, and they'll keep on getting checks every year until their leases terminate. The income generated by petroleum exploration and production is an important factor in the nation's prosperity.

Time Proves That New Machines Create New Jobs

WASHINGTON—Fear of competition with machines is as old as the Industrial Revolution, the Chamber of Commerce of the United States recalls. At one time, workers smashed machines.

Today, this fear has arisen again due to the new automatic machines, popularly lumped together under the term "automation." It is true, the Chamber says, that these new machines will replace some workers. But the Chamber is convinced they will create more jobs than they replace.

For example, the new automatic machines will bring an increased output of products requiring additional workers in the distribution and service industries. These new jobs will be more interesting and challenging than the routine operations performed by many of today's factory workers, the Chamber says.

There will also be a big demand for skilled workers, engineers and designers in the manufacture of automatic machines themselves. Further, many will find skilled work in maintaining the machines, the Chamber points out.

Checks of some fully automated factories have shown that the working force required was the same size before installation of automatic machines. The number of machine operators was reduced, but the number of maintenance men increased.

Record Number of Students Enrolled At Texas Tech

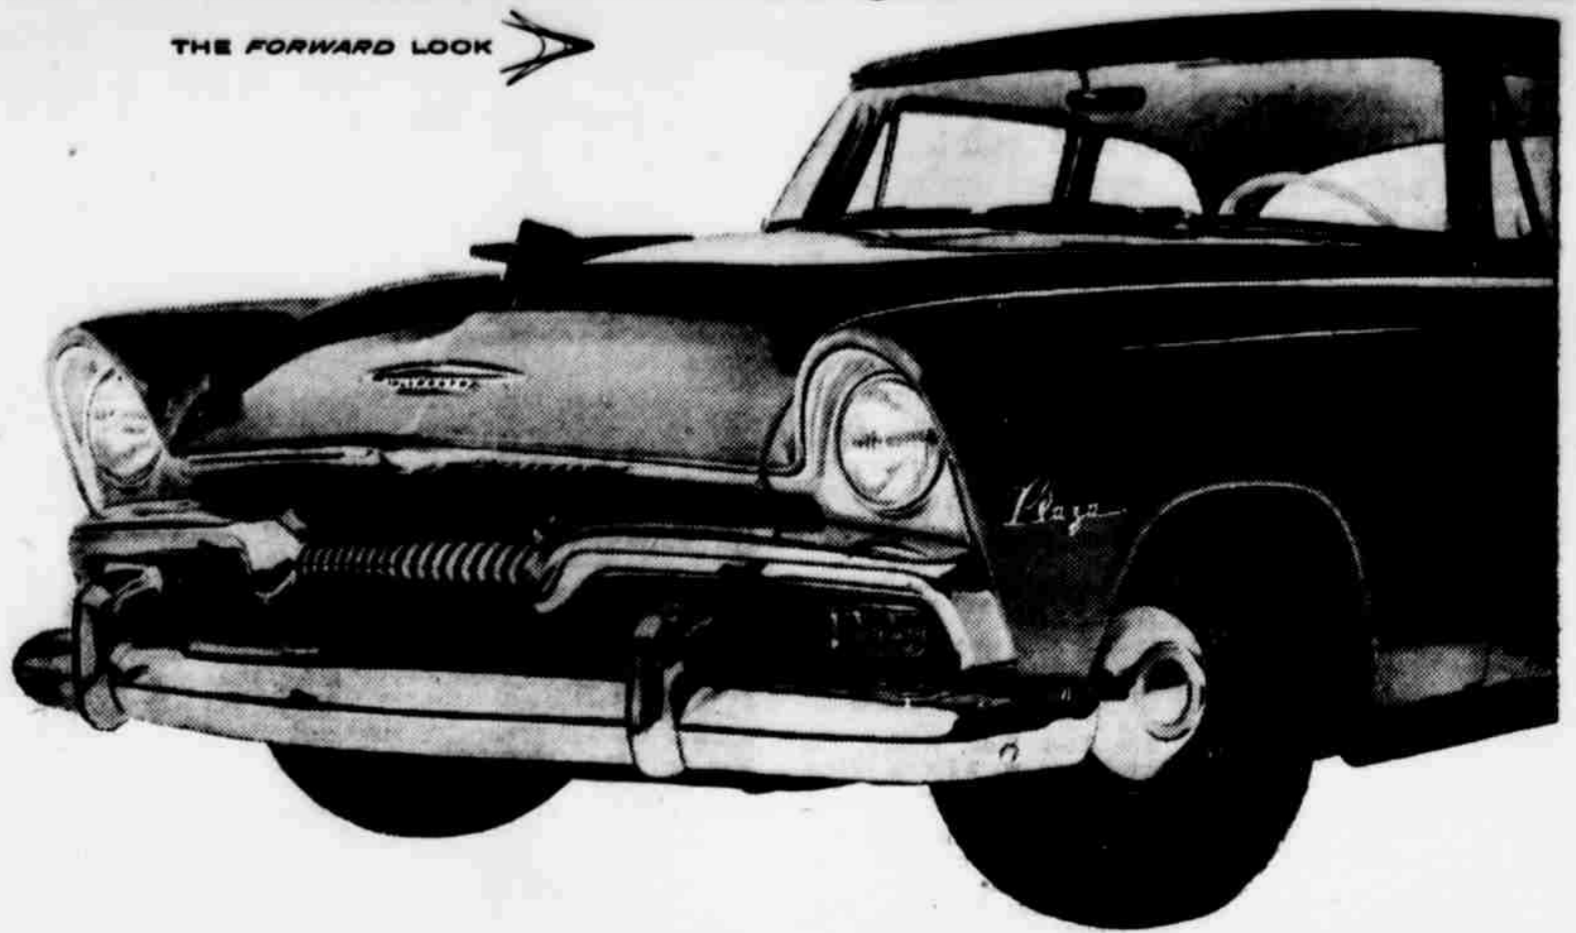

LUBBOCK—It's a record year for Texas Tech—enrollment wise. Registrar W. P. Clement has announced that enrollment for the spring semester is 5,840, the highest second semester total in the 29-year history of the school. This figure is almost 800 higher than last spring and almost 100 higher than the previous spring record 5,760, which was set in 1949.

Enrollment last fall at Tech set an all-time record when 6,257 students registered.

Tech continues to be a coed's dream this spring, if ratios are any indication. There are 4,264 men registered, compared to 1,576 women, just about the same proportion as during the past fall.

Arts and Sciences is the largest academic division with 1,801 students, followed by Engineering with 1,355. Business Administration has 1,285 enrolled; Agriculture 652; Graduate School, 477; and Home Economics, 290.

St. Patrick's Theme Highlights Meeting Of T.E.L. Class

Members of the T. E. L. class of the First Baptist Church met Tuesday afternoon in the annex. The meeting was called to order by the president, Mrs. O. O. Akins. Prayer was offered by Mrs. Rosa Glenn. I Love To Tell The Story, and Bring Them In were sung by the group.

Mrs. D. B. Massey brought the devotional, reading the 34 Psalm. Mrs. S. G. Perrin read the minutes and the monthly class report. Seventy-five members made 100 per cent during the months 230 per cent during the months and 230 chapters were read in the daily Bible readings.

clever poem, "Make-Believe Coffee." Mrs. A. W. Cox, entertainment chairman made each one conscious of the approaching St. Patrick's Day by pinning on realistic shamrocks made of green felt. A lovely blooming plant of narcissus and a bowl of cut flowers were further suggestive of the festive occasion.

Mrs. Cox explained that to reach the Blarney Castle in Ireland, one must go through hazardous bog of mud, but being provided with stepping-stones, members were not deterred in reaching their destination. Much merriment followed the efforts put forth. A small box of candy was given the winning team and a smaller one to the losers.

Mrs. Walling's group served an attractive plate of raisin cake, hot spiced punch and small appetizers. Members enjoying the meeting were Mmes. O. O. Akins, D. B. Massey, Ella D. Cox, Rosa Glenn, Foney Graham, John Couch, B. M. Whiteaker, John Ellis, J. E. Walling, Sr., Jack Merchant, J. M. Martin, Will Welch, S. G. Perrin, Laila Norman, Annie Lane, May Branch, Joe Mayfield and Sam Roberts.

Special prayer was offered for our friend and member, Mrs. Geo. Herren, who is ill in the hospital. A card was also sent to Mrs. Herren with the signature of each member present attached.

Friendly Blue Birds Meeting Held March 3

The Friendly Blue Birds met at the First Baptist church March 3. The meeting was called to order by the president, Donna Kay Holter. The minutes were read by the secretary, Jo Helen Elliott. The Blue Bird wish was repeated. The girls enjoyed games and refreshments were served to Ruby Kay Alvis, Jeanean Branch, Karen Brown, Judy Collins, Jo Helen Elliott, Hazel Hodze, Donna Kay Holter, Sandra Isbell, Beth Nanny, Dollie Norton, Betty Pittman, Paula Sue Urban, Beth Vaughter, Judy Sego and Mrs. Hodge.

Fidelis Class Has Regular Business, Social Meeting

The Fidelis Class met in the Educational building of the First Baptist Church Monday night, March 7 at 7:30 p. m. for their regular business and social meeting. The class president, Mrs. F. McCurley, called the house to order. The meeting opened by the members singing their class song, Love Lifted Me, with Mrs. Cadenhead at the piano and Mrs. Ashley led the song. Mrs. Cadenhead gave the devotional which was taken from the 3rd Psalm. She also read a poem. Mrs. Bertha Humphrey led in prayer. Another song, What a Friend We Have in Jesus, was sung. After the short business session, the members were entertained by some comical readings by Mrs. Jenkins, Mrs. Ashley and Mrs. Cadenhead. A game of pitching the bean bags into a bowl was played. Some proved they could really put the bean into the bowl! The hostess, Mrs. Effie Jenkins and Mrs. Allie Kendrick served a refreshment plate of pineapple cup cakes, coca and an assortment of toasted nuts to the following members: Mesdames J. F. Cadenhead, Sr., Delia Ashley, Lucille McCurley, Effie Jenkins, Bertis Chamberlain, Tillie Chapman, Allie Kendrick, Bertha Humphrey and a visitor, Mrs. M. D. Rexrode.

Progressive Study Club Names Delegate To District Meet

The Progressive Study Club met in the Homemaking Cottage Thursday, March 3. In the absence of the president, Mrs. J. E. Ferguson, vice president conducted the business meeting. Roll call was answered with a Texas landmark in keeping with the program theme, "Voice of History." "The past is only the present become invisible and mute—mute, that is, unless some one keeps a record." Two new members were elected to membership in the club, Mrs. J. D. Weaver and Mrs. Wilda Medford. Mrs. O. J. Curry, president-elect for next year was chosen as delegate to the district convention in Vernon. Selected as alternate was the current president, Mrs. Wm. E. Lawson.

Mrs. Lynn Waldrip, director of the program for the evening introduced Mrs. Frank Martin who led the group in singing, "Have You Ever Been to Texas in the Spring?" "Texas, Pride of the South," and "Texas, Our Texas." Mrs. Waldrip then introduced Mrs. Jack Pippet, granddaughter of Mrs. Sherrill, author of "The History of Haskell County" which reviewed the life of Mr. Sherrill and his compilation of Haskell County's history. Mrs. Pippet told club members that Haskell County was first settled by buffalo hunters, then eventually cattlemen. "The old pioneer cowman was a type peculiar to himself," Mrs. Pippet stated. The interesting discussion was led through settlement of the town, organization of a county government, the coming of the railroad, the birth of the Haskell Free Press, the establishment of churches, banks, schools, etc. In 1886, cotton was introduced to farming in Haskell County. "What of the future?" Where is the seer and what saith the prophet? Watchman, tell us of the night. The night is passed; the light of the stars is fading into daylight; the long dark days of the depression are over; the morning cometh; we now face the future with hope and ambition.

Magazine Club Plans Pre-Easter Fashion Show March 17

Mrs. C. V. Payne, president of the Magazine club was host to officers and executive board in her home Saturday, at 1 p. m. Arrangements of yellow juncos, and blue candles in silver holders was centerpiece for the dining room table. Other spring flowers were used throughout the house. Following the luncheon the members made future plans for the pre-Easter Fashion Show, which the Magazine Club will sponsor and be presented by the Personality Shoppe, March 17 at the Elementary school auditorium at 8 p. m. Tickets may be secured from any member of the club. Members present were Misses Beryl Boone and Nettie McColium, Mesdames A. C. Pierson, Hill Oates, C. L. Lewis, C. O. Holt, J. G. Vaughter, B. B. Gilmore, K. H. Thornton and Earl Atchison.

Club Leader Plans To Organize Home Business Center

Mrs. Bill Penick is now serving as a family economics demonstrator for the year. She is a member of the Lucky Home Demonstration Club.

Mrs. Penick has recently made plans for the years work. She plans to get her birth certificate and other important papers. She is going to use a desk she already has and organize it into a business center for her home. Her business center is going to include equipment, supplies, and a family file. The family file will be in one large drawer and will be divided according to the needs of the family.

One might want to follow Mrs. Penick's example and get one's birth certificate. At one time Will Rogers said "If I see a kid playing in a field, I don't need any certificate to tell me he was born." After some study he learned a birth certificate is needed as proof of age, to settle when a child starts to school, establish eligibility to vote, to be legally responsible for one's acts, such as marrying, holding property; it sets dates of liability for military service, for collecting endowment insurance, for social security, and extra income tax exemptions. A birth certificate too, is proof of family connections and it establishes national and local citizenship rights. It is more than a scrap of paper. Will Rogers later said: "When I see a kid playing in a field, I don't need any certificate to tell me he was born—but I do need it to tell me when, where and who to."

Health Primary Objective in Supt. Allen Tells P-TA Members

"Let's look at our health program," stated Supt. C. D. Allen who was director of the Elementary Parent-Teacher program Wednesday afternoon March 2, in the Elementary auditorium.

Continuing, Mr. Allen said "Health is the primary objective of education. Even in early education as far back as 1918, one of the cardinal principles decided a person had to be healthy in order to learn. An educated person realizes the importance of their own health as well as that of the community in which they live. Our school should have an adequate health and physical education program that would be the best for the health of the child."

In conclusion Mr. Allen talked of our own school in that children received glasses that needed them but could not afford to buy them. Hearing tests were made. Patch TB tests were given as well as immunization tests, proper and adequate diets were served, and the teacher conferences were held. All can improve our health program by getting more people concerned.

Mr. Allen introduced Mr. Sam Spratt, Junior High coach, by saying he was qualified as a health coordinator since working with the Hogg Foundation. "What is health? This is a question asked many times," Mr. Pratt said. He said that was where a lot of our trouble in health occurred for everyone has a definition which is interpreted with entirely different meanings. Health, he said, means this to me: "Health is that in a human being which lives most and serves best." There will be five new health books next year and also the state has set aside 5 million dollars to be applied to the health program of our schools.

All three of the fifth grade rooms under the direction of Mrs. Roberson, and Mrs. Johnson had parts on the program. Mrs. Rob-

News Suppression Strongly Denounced By U. S. Senator in Talk to Newsmen

Senator Sam J. Ervin, U. S. Senator from North Carolina, denounced arbitrary suppression of news by public officials when he addressed the North Carolina Press Institute recently.

"As one who believes that the America which we know and love cannot endure without an informed electorate," he said, "I deplore all unjustified efforts on the part of occupants of public office to withhold from the people basic facts about current events in government matters."

Sen. Ervin described various ways some public agencies use to avoid telling the public what they are actually doing.

He listed executive sessions, press handouts which distort the news, gagging employees, and abusing censorship imposed in the name of national security.

"Despite the important roles played by radio, television and news magazines," Sen. Ervin said, "newspapers remain the most important media for the dissemination of information to our people."

"This country has over 10,000 daily and weekly newspapers with circulation exceeding 70 million," the senator said.

"It seems at first blush," he continued, "that newspaper readers would glean from these publications all the truth about happenings in the world at large, in our national affairs, in our state affairs, and in our local affairs. But this is not true."

"Many of those who occupy public offices at the will of the people entertain the strange notion that the people are not to be trusted with the possession of some of the facts relating to governmental matters."

During the institute the North Carolina Press association adopted a statement defining the responsibility of the press to society.

"The final test of every story, every headline, every editorial in every newspaper," said the last paragraph of the statement, is whether it is "honest, fair and accurate."

Traffic Accidents Take Heavy Toll Of Servicemen

A tragic two-car crash on a Texas highway over a recent week end, involving a young serviceman who had just been offered a lift, only serves to point up the problem of GI crashes, not all of which can be attributed to recklessness or carelessness on the part of the GI, today declared a spokesman for Southwestern Insurance Information Service of Dallas.

According to recent survey, the Army, Navy, Marines and Air Force suffered 18,000 highway casualties in one 12-month period. Last year the Navy lost enough personnel to man two destroyer crews as a result of traffic mishaps.

"The problem," declared F. Darby Hammond, executive secretary of the Service, "is not confined solely to the serviceman, but is one that needs and deserves the understanding cooperation of the civilian motoring public." The practice of giving the serviceman a lift is both thoughtful and commendable, but to turn the wheel over to him can result in dire consequences if it is not disclosed. "Remember, he may know how to drive, but he may be unfamiliar with your particular make of car," warned Hammond.

In an effort to reduce the toll of GI crashes, SIIS will seek the cooperation of civic and service clubs and other organizations throughout the state in focusing attention on this serious problem.

Parents, wives and sweethearts of GIs can also help reduce the dreadful toll of death and destruction it was pointed out. Do not urge your GI to make unnecessarily long trips home during a brief week end leave, and insist that he start back in ample time to report for duty, was the advice to those who wish to help

this needless tragedy on the highways. Southwestern Insurance Information Service, pointed out that traffic accidents in this nation have already claimed more lives than have been lost in all wars in which this country has engaged since the Declaration of Independence.

HOTTEST BUICK IN HISTORY
No wonder you see so many 1955 Buicks on the highways—they're rolling up bigger sales than ever before in history—topping the popularity that has already made Buick one of the "Big Three" in total national sales.

Who says you can't have getaway and gas saving too?

(maybe you'd better try Variable Pitch Dynaflow!)

As any automotive engineer will tell you, the goal in automatic transmissions has long been a design that would give top acceleration and top gas mileage—and still be absolutely smooth.

Well, it's easy to step up acceleration, or gas mileage—but tough to do both together—unless a lot of gearshifting takes place, which cuts down on smoothness.

So Buick engineers looked to aviation for the answer—and brother! what a wondrous new magic they came up with!

They took a leaf from today's plane propeller—which switches the pitch of its blades one way for quick take-off—and another way for better gas mileage aloft.

They brought the same principle to Dynaflow Drive*—to the twenty propeller-like blades in the Dynaflow "stator." They engineered these blades to swivel like the blades of the plane propeller—and with the same results.

Thrill of the year is Buick

Flocks of Wild Geese Make Inroads On Wheat and Oat Fields Near Lake

Farmers in the vicinity of Lake Stamford on Paint Creek southeast of Haskell, have reported in recent days that flocks of wild geese are becoming a problem and causing damage to oats and wheat.

The geese feed on the tender green shoots almost as fast as it comes up," declared one farmer who has a field of wheat bordering the lake.

Geese by the thousands have flocked to the lake during the past few weeks, evidently attracted by the large body of water and convenient feeding places in wheat and oat fields.

Although wild, the geese can be approached fairly close in an automobile while they are feeding, and do not take flight until the car is

within 100 yards and sometimes less. The big birds are bothersome and keep considerable areas of grain clipped as if it had been grazed, but farmers haven't figured out how to cope with the nuisance. Most of the grain growers take the optimistic view that a few Springlike days will send the big waterfowl further north on their annual migration.

PARENTS OF DAUGHTER

Mr. and Mrs. C. F. Hunter of New Orleans, La., are the parents of a daughter, Margaret Sue, born Sunday, March 6 in Baptist Hospital in that city. The little girl weighed six pounds, 4 ounces. Mrs. Hunter is the former Ruby Sue Persons, daughter of Mr. and Mrs. D. H. Persons of Haskell. Mr. and Mrs. Persons will go to Dallas Saturday, and Mrs. Persons will go by plane from that city to New Orleans to visit her daughter and family.

CORRECTION

In a recent article concerning the death of the late Carl E. Sims, the name of the widow was erroneously listed as a former Haskell resident Mrs. Sims. She is the former Bebe Firestone of Henrietta, Texas, and is the daughter of Mrs. F. I. Pearsey of this city.

HERE FROM WACO

Mr. and Mrs. J. E. Burleson of Waco were guests in the home of Mr. Burleson's grandparents, Mr. and Mrs. John A. Couch during the week end.

MORE PEOPLE BOUGHT FORD CARS IN 1954 than any other make.

Ford passenger-car sales to customers outnumbered those of any other make by thousands*

AND IT'S EASY TO SEE WHY

Ford is the leader in styling

Motorists know that Ford has set the style trend in the industry for years. And now, with styling inspired by the fabulous Thunderbird, Ford is farther out front than ever.

Ford is the leader in V-8 power

Ford was first in its field (by 23 years) to provide the advantages of V-8 power. Since that time, Ford has had 14,000,000 V-8 engines—more than all other makers combined. For 1955, Ford offers two new and mighty V-8's, as well as the most modern Six—all with the split-second response of Trigger-Torque power!

Ford is the leader in ride

Ford was first in its field to introduce Ball-Joint Front Suspension—the greatest advance in chassis design in 20 years. And, for '55, it's even better. Springs are set at an angle to smooth out even the tiniest bumps. It's the new Ford Angle-Poised Ride.

LEONA BENDER, popular radio star of KTSA says, "Every woman knows light Karo is best for cooking... and on the table..."

it's Karo for me, the best-tasting waffle syrup of 'em all'

Yes, indeed... biscuits go like hot cakes when you pour on plenty of delicious Karo waffle syrup. There's nothing like it for good eating. Satisfyin' flavor. So rich it stands right up on top of biscuits (keeps 'em light and fluffy). Keep Karo on your table morning, noon and night... it tops anything!

Ask your grocer for Karo waffle syrup, in pints and quarts

There's even more to Chevrolet styling than meets the eye!

This is beauty with a bonus... for Chevrolet styling is designed to add safety and comfort while you drive, and to return greater value when you trade.

Truly modern lines are shaped by usefulness. You can see what we mean in the deep crystal curve of Chevrolet's Sweep-Sight windshield... a dramatic style note, certainly, but one that stems from the need for wider, safer vision. Or take high-set taillights—they add to the impressive length of line... but they are up where they can be seen for safety's sake.

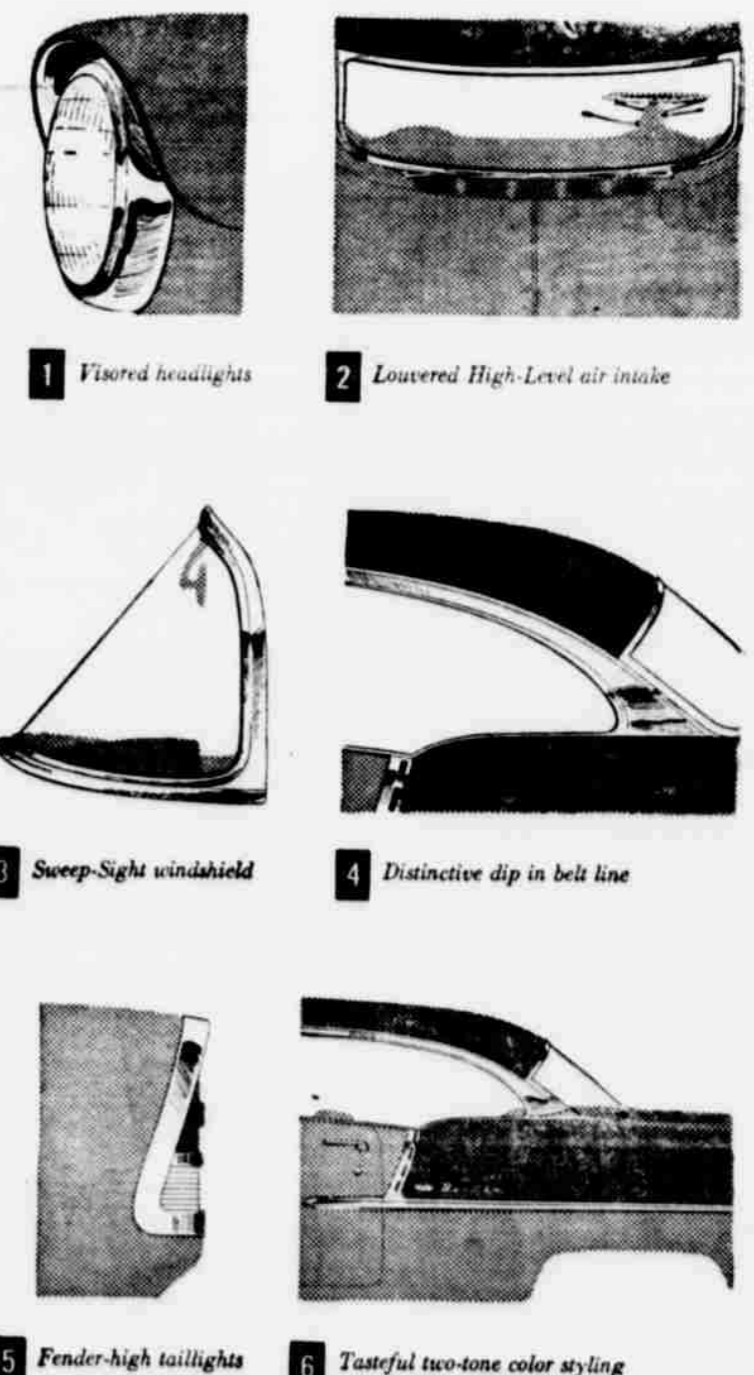

The smart louvers across the hood aren't just decoration... they mark the intake for the High-Level ventilation system for cleaner, fresher air. And the whole shape of the body—its lowness, the dipped belt line—is merely a reflection of a lowered center of gravity, the added stability.

This is truly functional styling that serves you better every mile, and preserves its value against the distant day when you trade. This is Body by Fisher—another Chevrolet exclusive in the low-price field. Come in and let us demonstrate that this new Chevrolet is just as exciting to drive as to look at!

Check of All MOD Collections to be Made This Week

The final tabulation of the 1953 March of Dimes will be made this week, and all coin collection boxes left in Haskell stores should be turned in for checking, directors of the campaign said today.

A number of the coin collection displays were placed in stores throughout the business section at the start of the drive. Most of these have been picked up, but some likely have been overlooked.

Circular Available On Prospecting For Uranium

A circular on uranium prospecting in Texas is available through the University of Texas Bureau of Economic Geology and State General Land Office.

The two agencies published the bulletin because of many inquiries about uranium occurrences in Texas and regulations covering prospecting and mining of uranium in the state. University Bureau Director John T. Lonsdale said.

The circular includes discussions of Texas geological provinces from the prospecting standpoint, information sources, and methods of prospecting, assaying and marketing. Known occurrences of radioactive minerals in Texas are described and shown on a map. The circular may be obtained from the University Bureau or State General Land Office without charge.

CARD OF APPRECIATION
I wish to express my sincere thanks to my many friends for their love and financial help they have given me, through the illness of my children.
May God's blessings be upon you is my daily prayer.

1st Lt. Jas. Strain Home from Korea, Given Release

Former First Lt. James H. Strain and Mrs. Strain arrived home last night from Fort Bliss, El Paso, where the young Army officer received his release from service Tuesday.

The officer, veteran of fifteen months service in Korea with an Artillery unit, arrived in the U. S. last Thursday. He came from the Far East on the transport General Howze, which docked at San Francisco.

Drilling Crew Lose Clothes in Fire At Oil Rig

Several members of the drilling crew on an oil test near Old Glory lost their work clothes and other belonging Wednesday morning when fire broke out in the "dog house" of the rig.

Members of the morning tower crew, working on the rig at the time, lost their everyday clothes. Work clothes of other two crews left in the small house while they were off work also were lost.

The fire was at the L. P. Rowan rig, on the Abernathy No. 2 oil well about five miles west of Old Glory. Most of the crew members live in Haskell and Stamford.

Tests Show Sewage Water Safe To Use For Irrigation

University of Texas tests show sewage waters can be used successfully in irrigation.

Minute physical and chemical changes in different soils indicate they are neither benefited nor harmed by sewage substances in irrigation water, Prof. E. W. Steel and E. J. M. Berg report.

Sewage irrigation encourages accumulation of chloride in soils, reducing the speed which water rises to the surface, a report of experiments at Balcones Research Center states.

The chlorides, however, are readily leached from the soil during flooding and should not accumulate injuriously when normal irrigation practices are observed, the researchers add.

Sewage irrigation increases pore space in soil and the crump structure, or tendency of very small soil particles to form larger pieces, shows some improvement. Such structures are not destroyed by the addition of water.

Singers to Meet At Weinert for Program Sunday

The regular March program of the Haskell County Singing Convention will be held at 11 a. m. Weinert Methodist Church Sunday, March 13. T. C. Cobb, president of the singers group, has announced.

The program will get underway at 2:30 and new Stamps books will be used. All singers and music lovers are invited.

New Game Birds To Be Released

The first shipment of red-legged partridges, a species that thrived in Spain under conditions resembling parts of West Texas—is being kept in holding pens preliminary to release south of Childress.

This announcement was made by W. S. Jennings, assistant director of Wildlife Restoration for the Game and Fish Commission which is trying to find upland game species adaptable to different parts of far-flung Texas for stocking experiments.

Recently, the Commission also took first steps to obtain sage hens, which abound in some Western States, to release in the Big Bend Country.

The red-legged partridges which will be introduced to the Paducah area south of Childress were obtained with the aid of the United States Fish and Wildlife Service.

An earlier shipment of the game birds had to be destroyed in quarantine because they had not been inoculated against Newcastle's disease. The latest consignment, number 70 birds, was properly treated and promptly cleared by custom authorities. Another shipment is expected shortly.

The assistant director of Wildlife Restoration said red-legged partridges require little water and can stand extreme temperatures. They feed on weed seed, leaves, grain and insects.

He describes the bird as being about twice the size of bobwhite quail and as being distinctively marked. The basic color is deep brown, blended with lighter hues around the neck. The head is marked with a mixture of brown and tan.

Mary Sue Wilson Returns from Trip To Honolulu

Mary Sue Wilson of this city returned Friday night from a month's vacation trip to Hawaii and in San Francisco, Calif. She made the trip across the Pacific on the S. S. Lurline and spent 12 days in Honolulu and made a number of interesting tours of the island.

The Haskell woman visited Pearl Harbor, which still has visible scars of the Japanese attack in December, 1941. She also had the opportunity of seeing the Hawaiian celebration of "Hukilau," which she described as extremely colorful and impressive. The occasion was one of the highlights of the trip, and included a dinner or feast arranged especially for tourists to the Island.

Attend Funeral of Glenn Ray Nichols In Throckmorton

Mrs. L. L. Nichols and Mr. and Mrs. John E. Robinson were in Throckmorton Monday to attend the funeral of Glenn Ray Nichols, 25, nephew of Mr. and Mrs. Nichols.

Young Nichols died Saturday morning in a Fort Worth hospital where he had undergone surgery for a brain tumor. A native of Throckmorton, he was a graduate of Throckmorton High School where he was a star player on the Greyhound football team. He had been employed by a Fort Worth concern since his discharge from the armed forces.

He is survived by his wife, of Fort Worth; his mother and two brothers and two sisters, all of Throckmorton.

Injured Firemen Released From Hospital

Two volunteer firemen, Alton Middleton of Haskell and Doss Fuller of Rule, both injured in separate accidents on Feb. 26, have been released from the Haskell County Hospital.

Middleton, who with his wife owns and operates The Hub dry goods store in this city, was able to leave the hospital several days ago. He suffered a fractured wrist and other injuries, but is able to be downtown a part of the time.

Fuller, water department superintendent for the City of Rule, was removed to his home Tuesday and will be confined to his bed for several weeks. He suffered a fractured pelvis and bruises and will be in a cast for some time.

Middleton, member of the fire department, and Fuller, who is a member of the fire department, were both injured in accidents on Feb. 26.

Stores Offer Outstanding Values On Dollar Day, Tuesday, March 15

People in Haskell trade territory can get set for one of the greatest bargain events in years on Tuesday, March 15, when the first of a new series of monthly Dollar Days is presented by local stores.
 To inaugurate the pre-Spring Dollar Day, merchants have gone "all out" in offering reduced prices that would tempt even a Scotchman to go on a buying spree.
 In the past, residents of the Haskell trade area have found that the monthly trade promotion event has afforded a wonderful opportunity to save on timely and seasonal needs for the entire family, which have been offered at special prices on Dollar Day.
 Cooperating in the series of Dollar Days are more local merchants than ever before. Twenty-seven establishments representing every line of retail business are offering special values for the once-a-month selling event.
 Only a few of the many items to be featured on Dollar Day at exceptionally low prices are listed in the advertisements of cooperating stores in this special section of The Free Press. Many other items will be found when you visit the stores.
 Included in the special offerings will be fresh, new Spring and Easter merchandise, just received and being displayed for the first time. Whatever your needs—for any member of the family, for the home or the car—you can buy them at big savings on Dollar Day.
 Merchants and establishments cooperating in the March 15 Dollar Day include:
 The Personality Shoppe, Club Cafe, Bynum's, Cofield Dress Shop, Boggs & Johnson, Lyles Jewelry, C. & B. Store, Neely Dry Goods, Frazier's Radio & Record Shop, White Auto Store, The Fabric Shop, Hassen's, Hunter's Mens Wear.
 Payne Drug Company, Ben Franklin Store, Woodson Radio & Electric, Haskell Pharmacy, Lane-Felker, Perry Bros., Hattox Hardware, The Re-Sale Shop, Sherman Floor Co., Perkins-Timberlake Jones Cox & Co., Conner Nursery & Floral Co., Western Auto Associate Store, Fouts Dry Goods.

Bank Official Offers Suggestions To Minimize "Bad Check" Losses

Stores in Haskell and Stamford have fallen victim in recent weeks to bad check artists, according to reports made to local officers.
 The checks given the stores are definitely bad, while the passers have been just as definitely "good" at their game, recipients of the worthless checks admit. So good, in fact, that in most cases merchants are unable to give officers anything like an accurate description of the fraudulent check writer.
 And, according to W. R. (Roy) Johnson, vice president of the Haskell National Bank, there are more worthless checks being passed now than at any time in the recent past.
 As a means of helping merchants hold their bad check losses to a minimum, the Haskell banker offers the following suggestions:
 1. Cash checks only for a person known to you or a friend.
 2. Require identification more positive than a mere driver's license or social security card, where person presenting the check is a stranger.
 3. Call the bank, if there is any doubt, before cashing a check.
 4. Accept checks only for the amount of purchase.
 5. Never cash out-of-town checks or large checks—refer the check-casher to the bank.
 6. Don't take chances to make safe. Ask questions. Stop worrying about losing a customer by doing so.
 7. If you really want to scare off the "bad check" artist, require fingerprints or thumbprints of all unknown check-cashers.
 8. Don't cash a check without question just because it looks official. Some of the most worthless checks are those seemingly of major American companies—stolen checks, made to look official with stolen check machines.
 9. Report any loss promptly, and co-operate with police in the prosecution of bad check passers.

Navy Forming Two Companies of New Area Recruits

A Navy recruiter from the Abilene station, in Haskell Friday, announced that the Navy, this month, is forming two companies of new recruits to represent "Greater Dallas and Greater Fort Worth."
 These men will be enlisted on March 17 and 18 and will undergo recruit training in San Diego, Calif., as a unit.
 Complete information on these special companies can be secured from the Navy recruiter, when he is in Haskell each week.

Texas 4-H Clubs Make Impressive Business Showing

The estimated value of demonstrations in agriculture, home economics and related fields owned by the Texas 4-H club members is \$7,500,000. The 122,000 4-H members last year, report the state 4-H leaders, conducted a grand total of 239,754 different demonstrations involving practically every phase of agricultural production and homemaking.

The state 4-H leaders in their annual report show that 4,918 local clubs conducted active programs during 1954. Also that 45,418 members received training in farm and home safety; 22,451 in soil and water conservation; 42,640 in citizenship; 13,940 in group recreation; more than 4,200 in music appreciation and 20,800 received training in some phase of judging.

The records also show that 4-H members are farmers and livestock producers. Their corn acreage last year exceeded 11,500 acres and one of their members, Doyce Turner of Lamb County, set an all-time corn record production for the state of 204.3 bushels an acre. They planted over 14,000 acres of cotton; 4,700 acres of garden vegetables and carried out soil and water conservation practices on 26,614 acres.

They owned 573,18 chickens and turkeys; 6,123 dairy animals; 13,461 beef animals; 31,466 swine; 12,112 sheep and almost 5,000 were enrolled in the tractor maintenance program.

They canned and preserved 380,015 quarts of food while an additional 301,208 pounds of food was preserved by freezing. The 36,744 enrolled in clothing work made 93,902 articles and 83,746 garments. More than 38,000 studied meal preparation and 7,411 were enrolled in junior leadership projects.

Demonstrations and activities are a mighty important part of the 4-H program but of even more value is the training members receive in character building. County extension agents and local volunteer leaders are their teachers and their farms, ranches and homes the classrooms where they learn to do by doing.

VISITS IN EASTLAND

Mrs. Mike Campbell and son, Michael, visited relatives in Eastland over the week end.

Mrs. Nancy Robinson Stonevall Resident For 64 Years, Dies

Funeral was held at the Rule Church of Christ last Thursday for Mrs. Nancy Kathryn Robinson, 82, resident of Stonevall County 64 years. Minister Travis Boyd of the Rule church officiated for the rites, and burial was in the Aspermont Cemetery beside the grave of her husband, who preceded her in death 25 years ago.

Gauntt Funeral Home of Rule was in charge of arrangements. Mrs. Robinson died March 2 at her home in Rule after an illness of several months.

Known affectionately as "Aunt Katie," she had lived in Stonevall County for 64 years, moving there from Callahan County. She had moved to Rule last December with a son, R. D. Robinson, and his family.

She was born Nov. 17, 1872, at Sherman. She had been a member of the Church of Christ since a young girl.

Survivors besides her son include six grandchildren and five great-grandchildren.

Pallbearers were Melvin Woolridge, Carl Davidson, Ancie Sawyers, J. R. Dakins, John Duncan, Olen Bokard.

Jehovah Witnesses Film to be Shown In Rule Mar. 12

A film, "The New World Society in Action," will be shown Saturday, March 12 in the Rule School auditorium, beginning at 7:30 p. m. The film is a production of the Watchtower Bible and Tract Society.

The showing in Rule will be under auspices of the Rule congregation of Jehovah's Witnesses, of which J. M. Winn is minister. The film will be shown free, and the public is invited.

Cpl. Billy Black In Training Group At Fort Hood

Fort Hood, Texas—Cpl. Billy Black, whose wife, Audrey Lee, lives at Mesquite, Texas, is a member of the 4th Armored Division's "Agressor Force," which recently held mock attacks on 1st Armored Division troops in an Army training exercise at Fort Hood.

The "Agressor Force" complete with a fictitious national history, government, language and military organization, gives regular units an opportunity to maneuver against a realistic enemy.

Black, assigned to Headquarters Company of the 37th Tank Battalion, entered the Army in February 1953. He is the son of Mr. and Mrs. Leon H. Black of Haskell.

Southwestern Life Sets New Record During Year

Again in 1954, Southwestern Life Insurance Company set new records in insurance sales and payment of policy benefits during a calendar year, it has been announced by President James Ralph Wood in his annual report on the company's business operations.

New paid-for-life insurance issued in 1954 totaled \$28,345,382, a 49 per cent increase over the 1953 total of \$153,680,329.

Insurance in force at the end of the year was \$1,211,600,658, an increase of \$146,540,725.

This unusual gain is primarily accounted for by \$89,020,786 of group insurance on federal employees underwritten by the company. Excluding this sum, new insurance sales amounted to \$159,324,596. It was the fifth consecutive year in which the company's agency force had set a new mark in producing new business.

Southwestern Life is represented here by Wix B. Currie, Jr.

HIGHLIGHTS AND SIDELIGHTS From Your State Capitol

By VERN SANFORD
Texas Press Association

Austin, Texas—Top news of the week is the arrest of Bascom Giles.

The former land commissioner was charged with conspiracy to commit theft of \$83,500 in state funds.

Giles' indictment was issued by the Travis County grand jury following investigation of alleged irregularities in the veterans' land program.

He was released after posting a \$60,000 bond—first set at \$100,000 and later reduced.

Strict secrecy has shrouded Travis County's land fraud indictments.

An unknown number of them have been made. Names of others indicted will be announced as arrests are made.

District Judge Charles O. Betts signed an order calling for a special grand jury into session on March 10. His order does not limit the jury to land investigations, although that is its purpose.

Betts' order will keep the jury in session until the last Saturday in July. The previous grand jury session expired March 5.

Rumors in Capitol corridors have it that the most outstanding breaks in the land investigations are yet to come.

McLarty Returns

A report from the Attorney General's office reveals that since the beginning of the veteran's land investigation in October of last year, John Ben Shepperd's office has been a beehive of activity.

Shepperd estimated he and his assistants have traveled 18,000 miles and have put in over 41,000 man-hours of time on the veteran's land investigation.

Shepperd has met with grand juries almost daily.

Thus far, the Bexar and Dewitt County grand juries have returned a total of 188 indictments against eight persons involved in veteran's land sales.

In addition, the State has filed three criminal complaints in Travis County.

Ten civil suits have been filed against 25 separate promoters. The total recovery sought by Shepperd in these suits is \$1,604,000.

Attorney General Shepperd plans to meet with 13 different grand juries during the month of March. He forecasts that this month will see the returning of "hundreds of criminal indictments against most of the persons involved."

Shepperd has added a complete new division to his department to process veteran's land civil and criminal cases. It is headed by Cecil E. Burney of Corpus Christi, an ex-prosecutor and former president of the State Bar of Texas.

Session Pausing

Half of the regular session of the 54th Legislature is gone.

Gov. Shivers said he wasn't perturbed at the slow start on important tax, water, appropriations and other legislation. He hadn't expected lawmakers to finish much legislation in the first half of the session.

There is still plenty of time, the Governor believes, to complete the program.

Minor Water Bills

Two minor water bills got an okay in the House.

One gives the State Water Board power to review proposals for federal projects. Veto power for the governor, originally in the bill, was stricken out.

The other requires water districts to register with the state board.

Important water conservation measures, involving millions of dollars, have not reached a vote in either house.

Two big insurance bills were hung in committee. Rep. Floyd Bradshaw's omnibus bill would regulate life companies.

Regulations in Bradshaw's bills

would: Raise minimum capital and surplus requirements (combined) to \$200,000 for fire companies; \$300,000 for casualty; and \$500,000 for companies writing more than one line.

One advocate of this bill said "Insurance companies have to be born big."

Gov. Shivers, on the other hand, said that just because an insurance company is small doesn't mean it isn't sound.

Bracewell's bill would raise minimum capital and surplus requirements of life companies to \$200,000 and require that it be kept in cash or bonds, not in real estate.

Rep. Vernon Smith charged that "vicious and false propaganda" by out-of-state insurance companies had impaired confidence in Texas insurance.

SHORT SNORTS: Rep. Herman Yezak suggests the 150-member House be cut to 100 representatives. A bill by Sen. A. M. Aikin, Jr., to double drivers' license fees, won a favorable committee report. Also approved was a House bill to increase college tuition fees from \$25 to \$50 a semester. Rep. Joe Chapman has offered a bill to soften the driving-while-intoxicated law. Bills to create a state utilities commission for state regulation

**VISIT PARENTS
DURING WEEK END**

Rev. and Mrs. Kenneth Andress and son of Colorado City spent the week end here with their parents, Mrs. Willie Andress of Haskell and Mr. and Mrs. Corbet Lytle of Rule, and other relatives and friends.

They were pocketed in sub-committees in both chambers. Political talk has Senators Crawford Martin, Jerrard Secret and Dorsey Hardeman in the 1956 races for attorney general or lieutenant governor. Agricultural Commissioner John C. White, only Democratic nominee in 1952 to reject Republican cross-filing, is being discussed as a possible choice of Texas liberals for gov-

WTCC President John Couch Announces Mar. 27-29 Dates for Annual Convention

John A. Couch of this city, president of the West Texas Chamber of Commerce, has announced that the 37th annual convention of the regional organization will be held March 27-29 in Lubbock.

Registration begins on March 27th. A "West Texas Congressional Forum" will be the big event on the morning of March 28, Couch said.

Nine U. S. Congressmen whose districts include territory within the sprawling 132-county territory of the WTCC, and the Texas Congressman at - Large, Martin Dies of Lufkin, have been invited to participate in the forum.

The general public is welcome to participate along with members of the WTCC in directing questions to this panel of Congressmen, Couch said. The forum will be presented from 9:00 a. m. to 12:00 noon in the Lindsey Theatre in Lubbock.

News From Sagerton

BY MRS. DELBERT LE FEVRE

Approximately 100 Haskell County teachers attended a county meeting in the Sagerton school Monday evening Feb. 28. Dr. Jno. MacFarland, superintendent of schools in Vernon was guest speaker. He spoke on "Responsibility and Loyalty of Citizenship."

A barbecue supper was served the teachers in the school lunchroom. Miss Irene Stewart, principal of the Sagerton school would like to thank all the women who helped to prepare and serve the meal.

The next meeting of the Haskell County Teachers Assn. will be in the Point Creek school on March 28.

Next Friday, March 11, will be a holiday for the Sagerton school children. The teachers will attend the Oil Belt Teachers' meeting in Wichita Falls that day. Miss Stewart is one of the four delegates from Haskell County.
