People of this section will have an opportunity to inspect the newly-completed caretaker's residence and park store at Scott Memorial Park Sunday, July 3.

On that date, open house will be held at the lodge and store during the entire day and the public will be invited to visit and inspect the new combination structure and surrounding facilities.

In connection with the open house program, other features are being planned for the day.

Refreshments of iced drinks and cookies will be served, and everyone attending the open house will be invited to register free of charge for a Johnson Seahorse motor to be given away at an early date.

Overloaded Trucks Bring Fines For Six Operators

The newly built structures at the park include the caretaker's lodge, a commodious brick veneer building which also houses a retail store. There is an adjoining ice house, and sheltered minnow ponds. Also for the convenience of motorists and boat operators, two gasoline pumps have been installed.

In addition to the open house program Sunday, visitors will also have available all of the park facilities for boating, fishing, picnicing and camping.

Also, free boat rides will be given the public during the entire day in a Chris-Craft roundabout motorboat, which has a capacity of four passengers.

Since the date comes during the weekend and with the 4th of July holiday following, many picnic and camping parties will likely plan weekend outings at the park, where all facilities are available for use without charge.

A number of camp tables and benches have been built in the park, and camp sites anywhere in the park area are for free use of the public.

Rental boats and motors will be available at the park lodge at a nominal rate, and also from several fishing camps in the vicinity.

Lucky Three 4-H Club Working On Record Books

Members of the Lucky Three Girls 4-H Club held their regular meeting in the office of Miss Thelma Wirges, county Home Demonstration agent this week and made plans for completing their record books.

Club members and projects on which their record books are based, are:
Ives June Casey, dairy foods.
Robbye Norman, food preparation.

Christine Hutchinson, leadership.
Myrtle Murray, home improvement.
Emilee Griffith, national 4-H camp.

Polly Tipton, Danforth.
Jean Griffith, Santa Fe.
Cynthia Russell, citizenship.

All record books must be turned in to Miss Wirges not later than August 1st. She will be glad to help any club members with their records at any time the girls desire to confer with her, they were told.

In a brief business session, Myrtle Murray of Rule was elected secretary-treasurer of the club to succeed Doris Hutchinson, who has resigned.

Plans also were made for a "New Member" picnic to be held August 26 from 3 to 6 p. m. at Rice Springs Park in Haskell. The affair is planned as an event for all new members of the club, and for all girls interested in becoming members. Cards will be mailed to members and prospective members, but all interested girls are urged to attend whether they receive a card or not. Each one is asked to bring a sack lunch. Drinks will be provided by the club.

During the program hour, Emilee Griffith told of her recent trip to the 4-H Roundup at Texas A&M College, and Polly Tipton gave a report on the 4-H Camp held at Buffalo Gap.

Next meeting of the Lucky Three Club will be held August 11 in the office of Miss Wirges in the courthouse. All members are urged to attend. Plans will be made at that time for the girls to attend the annual camp.

Walt Disney's "Davy Crockett, King of the Wild Frontier"

At the Texas Theatre Friday and Saturday July 1st and 2nd

But the ice went out an' the warm winds came An' the meltin' snow showed tracks of game, An' the flowers of Spring filled the woods with flame, An' all of a sudden life got too tame, Davy, Davy Crockett—headin' on West again!

Now he's lost his love an' his grief was gell, In his heart he wanted to leave it all, An' lose himself in the forests tall, But he answered instead his country's call, Davy, Davy Crockett—beginnin' his campaign!

Needin' his help they didn't vote blind, They put in Davy 'cause he was their kind, Sent up to Nashville the best they could find, A fightin' spirit an' a thinkin' mind, Davy, Davy Crockett—choice of the whole frontier!

His an' his jokes travelled all through the land, An' his speeches made him friends to beat the band, His politickin' was their favorite brand, An' everyone wanted to shake his hand, Davy, Davy Crockett—helpin' his legend grow!

Mrs. Chamberlin, 92, Pioneer Resident, Dies Tuesday

Mrs. Elizabeth Chamberlin, 92, Haskell County resident since 1902 and the mother of Charles Chamberlin of this city, died at 7:45 p. m. Tuesday at the home of a son, Sam Chamberlin, of Goree. She was widely known in this region as "Aunt Lizzie."

Funeral for Mrs. Chamberlin was held Thursday, June 30 at 3 p. m. at the Goree Methodist Church with the Rev. Coyle Ragle, pastor of the Munday Methodist Church, officiating. Assisting was Rev. Charlie Sargent and Rev. Walter Hadley.

Born March 22, 1863, in Logan County, Ky., Elizabeth Baker Frey went with her parents to Peoria, Ill., while an infant. When she was 3, the family migrated to Dallas. Aunt Lizzie's favorite story was that she had "learned to knit my own stockings" on that covered wagon journey.

While living near Dallas, she often recalled, one of her girlhood chums was a little girl who later became "Ma Perkins" of radio.

On Oct. 25, 1882, she married Dan Chamberlin at Dale, Texas. The couple resided there until 1902 when they moved to a site in Haskell County 10 miles south of Goree. Her husband died in 1947. Survivors include six sons, Willie and James of McMahon, Ernest of Lovington, N. M., Charles of Haskell, Oran and Sam of Goree; four daughters, Mrs. Effie Stockton of Pixley, Calif., Mrs. May Chunn of Dallas, Mrs. Lucile Snow of Hamlin and Mrs. Ola McMahon of Austin; one brother, Marvin Frey of Hugo, Okla., and two sisters, Mrs. Maggie Alexander of Dale and Mrs. Mancel Tyler of Miles, Texas.

Holiday Week-End Traffic Death Toll Of 380 Forecast

A July 4 weekend automobile traffic death toll of 380 has been forecast by the National Safety Council. The estimate covers the period from 6 p. m. Friday until midnight Monday and takes into account only immediate deaths and not those occurring later from injuries suffered over the weekend.

More than 40,000,000 cars will be on the move over the holiday, a factor that the council said will produce an added travel hazard. The council gave these safety suggestions: Drive about 10 mph slower than normally to give time to react in an emergency. Start your outing in plenty of time so there'll be no need to hurry.

Stay alert and avoid distractions from the business of driving. Don't compete for the right-of-way. Slow down at sundown and avoid driving when sleepy or overtired.

Mr. and Mrs. R. L. LeClaire had their children at home during the weekend. Present were Mr. and Mrs. Paul LeClaire and children, Robert and Linda, from Albuquerque, N. M.; Miss Alpha LeClaire of Lubbock; Mr. and Mrs. Homer LeClaire and sons, Gene and Dougie of Dallas.

Amon Carter Rites Held Saturday In Fort Worth

Funeral for Amon G. Carter, publisher of the Fort Worth Star-Telegram and prominent Texas philanthropist, was held Saturday afternoon at the First Methodist Church in that city.

Carter, who rose from a dishwasher and waiter to journalistic and financial eminence, died Thursday night at the age of 75. A heart ailment which first struck him in 1953 finally was fatal.

The Rev. Gaston Foote, First Methodist pastor and former Haskell minister, and the Rev. James K. Thompson, a long time friend of Carter's, officiated at the funeral.

Lowly Corncob Is Now Going Into Industry

Farmers are exploring a new market for corncobs, once a waste product.

More than one million tons of cobs were used last year in industrial products, returning some \$10,000,000 to farmers and rural cob grinders, the USDA estimates.

Owing largely to research by governmental agencies and private industry, use of corncobs increased 60 per cent in the past five years.

The USDA says that each year's corn crop produces about 15 million tons of cobs, largely in Iowa, Illinois, Nebraska, Indiana and Minnesota.

But regardless of the increasing absorption by industry the major portion of the cobs still are waste. About half of the cobs collected and sold go into the production of the chemical furfural which is required in the manufacture of nylon, synthetic rubber, pharmaceuticals, and resins, and for petroleum refining and as an industrial solvent.

The remainder is used for incorporation into livestock feeds; in cleaners and polishes of metal, glass plastic and molded rubber items; for air-blast cleaning of engine parts and large electric motors; as a carrier of insecticides; and as a constituent of plastics and tread stock for automobile tires.

On farms, thousands of tons go for poultry litter, livestock bedding, garden mulch, and for filling lowland areas and prevention of erosion.

A few choice fat calves were steady. Prices included: Good and choice fed steers and yearlings \$10 to \$22.50, and common and medium sorts \$10-\$18. Fat cows \$10 to \$12.50, some young heiferish cows \$13.50 to \$14.00 on specialty shipping orders, not in line with the averages. Cannors and cutters \$6 to \$10. Bulls \$10 to \$14.50. Good and choice fat calves \$16 to \$19, a few \$19.50 and \$20 sparingly. Medium and low grades \$9 to \$15. Stocker steer feeder calves \$21 to \$22.50, load at \$22.50 weighing 463 pounds. The livestock market at Fort Worth will be closed for the traditional Independence Day holiday, July 4th. Officials of the market reported that the usual procedure would be followed and that livestock arriving over the holiday weekend will be penned on feed and water and shown for sale on Tuesday.

Texas Marks Up 397 Drownings Last Year

There were 397 drownings in Texas last year according to figures released by the Texas State Department of Health. Over half of these deaths were among those under 25 years of age. Drownings dropped sharply after age 45, but occurred in each age bracket up to 90 years.

Dr. Henry A. Holle, Commissioner of Health, stated that most of these deaths could have been prevented if sensible precautions had been taken. This is the season of the year when many of us like to take to the water for a cool swim, for week end boating or fishing trips. These are all healthful forms of recreation, if you follow common sense rules, don't get cocky about your ability in the water and don't take chances.

The safest place to swim is in the municipal pool where a life guard is on duty. The water is treated to kill germs and is kept fresh by a continuous change of water. Also there is no danger of wading into unexpected deep holes such as there is in ponds, lakes and drivers.

If you go boating and do not know how to swim always take a life preserver. See that each child is so equipped. Be careful not to overload the boat. Change-

ing seats or standing up in small boats is dangerous business. If you should capsiz, stay with the boat. Watch children carefully while they play around small pools or even buckets of water. Small children often drown in stock tanks, fish pools, ditches and drainage canals. They even drown in bath tubs, because thoughtless mothers leave them there to play without supervision.

The Very Newest

Births of five babies, four boys and one girl were recorded in the Haskell Hospital during the past week. Parents and the new arrivals are:

Twenty-Five Haskell Scouts Spend Week In Varied Activities at Camp Tonkawa

By Camp Reporter
Twenty-five tired but happy Boy Scouts and their adult leader returned home Saturday afternoon after having spent six days and nights camping at Camp Tonkawa.

Boys attending from Troop 35 were Philip Bledsoe, Fred Brown Jr., Kenneth Campbell, Robert Coburn, Bryan Corley, Rodney Davis, Ted Dement, David Hiebert, Doyce Hutson, Gene Merchant, Paul Merchant, Eddie Neeley, Bobby Pierson, Rodney Roberts, Chesley Snider, Dwight Stone, Woody Turnbow, Donald Urban, Dowell Warren and Kenney Neeley.

From Troop 36 were: James Dunlap, Tommy Furrh, Buddy Herren, Joe McCurdy and Basil Murphy. These scouts were listed with Troop 35 at camp. Adult leader, Austin Coburn, assistant Scout Master of Troop 35 stayed with the boys the entire time.

Visitors during the week were Scout Master of Troop 35, Cecil Corley and Frank Urban, Tuesday night; Ray Davis, Scout Executive from the northern part of the Chisholm Trail council and his son spent Wednesday night in camp with us. Bud Herren visited Thursday afternoon and Mr. and Mrs. Hiebert and Mrs. Warren visited a few hours Thursday night.

Although the camp is equipped to handle about 125 boys at a time, there were 145 boys during the week from June 19 through the 25th and the staff did a wonderful job of taking care of everyone. This was the largest bunch of Scouts attending camp at one time in several years. Troop 35 tied for second place in the number of boys attending for the entire week.

Troop 35 was commended very

highly for their project in Soil and Water Conservation and on completion of the requirements for their Merit Badge in Soil and Water Conservation will be given a Soil and Water Conservation Badge which is issued to Scouts who complete their Camp Tonkawa project, by the Abilene office of Soil Conservation Service of which J. E. Dominy is in charge. Mr. Dominy outlined the project and inspected it after completion. Troop 35 also received an A on camping and was issued a Camp Tonkawa 1953 A Camping Award. The rating is based on the daily average from daily inspection of campsite.

In addition to the awards issued to the entire Troop the following were issued certificates as follows:

Marksman Certificates: Dave Hiebert, Pro-marksman Certificate: Tom Furrh, Robert Coburn, Paul Merchant, Bobby Pierson, Rodney Davis, Philip Bledsoe and Kenneth Campbell.

Yeoman Certificate: Ted Dement and Dave Hiebert.

Junior Yeoman: Bobby Pierson, Rodney Davis, Bryan Corley, Kenney Neeley and Rodney Roberts.

Many other boys lacked just a little in qualifying for these certificates.

The most popular place was the swimming pool. Troop 35 had swimming from 10:30 to 11 each morning and 3:30 to 4 each afternoon and all the boys were there each time except on one or two times when some were on hikes to Lost Lake or other points in order to get in their 3-mile hike requirement. Several of the boys were non-swimmers when they arrived in camp but all could swim when they left. In the distance swimming David Urban swam 1-2 mile, Buddy Herren, Doyce Hutson and Paul Merchant swam the 1-4 mile and Robert Coburn swam 200 yards. Some of the other boys would have completed the 1-2 mile had there been more time.

Many of the boys completed some of the requirements needed to make them first and second class scouts. A few of the boys attended camp last year but this is the first time for the majority of them, but all expressed a desire to attend again next year. Troop 35 has reserved the same camp site for the third week in June next year.

Cost of the camp had been figured at \$11 for each Scout, and several months ago Scouts in Troops 35 and 36 began projects to raise money to defray their expenses. Some of the boys did weed cutting and other odd

Outstanding 4-H Clubbers To Get Recognition

The best 4-H'ers of the nation are not chosen by ballot, but earn their honors by merit and accomplishment.

This deserved recognition goes to the top ranking of the nation's 2,100,000 club members through three national 4-H Award programs, Achievement, Citizenship and Leadership. Each of the programs recognizes the different qualities by which people are judged and success is measured.

In the Achievement program, boys and girls are honored for over-all accomplishments in projects and activities, based on long-time records. Awards are provided by the county, state and national levels by the Ford Motor Company.

Medals are available to four winners in each county. The winning boy and girl in the state receive a set of two miniature statuettes, and 24 sectional winners are given all-expense trips to the National 4-H Club in Chicago Nov. 27-Dec. 1. At the Congress, six boys and girls will be presented \$300 scholarships as national winners.

4-H members who have developed and put into practice the qualities of a good leader are honored in the National Leadership program. The top-ranking boy and girl in each county are eligible to receive a medal of honor, and the two state winners are given 19-jewel watches. At the Club Congress, eight sectional winners will be guests of Edward Foss Wilson, donor of awards. Four national winners, two boys and two girls, will receive \$300 scholarships. The first place boy and girl will be selected and presented with silver trays at the Congress.

The Citizenship program emphasizes those attitudes, qualities and acts which reflect a good citizen's concern for the welfare of family, community, state and nation. The boy and girl winning

jobs, and the troop sponsored a recent program here by the Starlight Sisters. They also assisted in the annual Poppy Day sales, and by camp time had almost enough money in the Scout treasury to pay expenses of attending the one-week camp.

state honors will be presented a certificate of honor. The top boy and girl in the nation receive expense-paid trips to the Club Congress, and \$300 scholarships given in honor of Thos. E. Wilson, chairman of the National Committee on Boys and Girls Club work.

During the Congress, the first place boy and girl in the Achievement program will be presented silverware trophies, provided by the President of the United States. They will join the top Leadership and Citizenship winners in giving the "1953 4-H Report to the Nation" in Washington, D. C.

The Cooperative Extension Service conducts these programs, and the awards are arranged by the National Committee on Boys and Girls Club Work. Complete information is available at county extension offices.

Former Minister Here Dedicates New Church

Dedication of a new \$80,000 church in Colorado City—the Oak Street Baptist Church, was the culmination of a project undertaken by a former young Haskell minister, Rev. Bill Austin, who was pastor of the East Side Baptist Church here several years ago.

The attractive new sanctuary, one of the most modern church edifices in West Texas, was dedicated on June 19, when open house was held and the public afforded an opportunity to inspect the entire church plant.

The building, which has an auditorium seating 530 persons in addition to classrooms and offices, is valued at approximately \$80,000. Cost of the building was partly financed with a \$30,000 loan from Hardin-Simmons University in Abilene.

Designing of the new structure was done by Rev. Austin.

During his pastorate of the East Side Baptist Church here, Rev. Austin was active in community and civic affairs. Also during his ministry, Rev. Austin was instrumental in carrying forward plans for the new building completed and occupied last year by the congregation of the East Side Baptist Church.

Big Parade To Launch Cowboy Reunion In Stamford Friday for Three-Day Run

Hundreds of cowboys, colorfully garbed sheriffs posses and riding clubs as well as chuck wagons, buggies and a stage coach will be seen in the Western parade through the Stamford business section at 5 p. m. Friday marking the opening of the 25th annual Texas Cowboy Reunion in that city.

Haskell Saddle Tramps, in club regalia, will be among the numerous riding clubs taking part in the opening day parade, and the grand entry Friday night.

The famous Cowboy Band of Hardin-Simmons University and 60 lovely Cowgirl sponsors will be in the parade. Thousands of visitors are expected to view the cavalcade.

Many of the 500 old-time cowboys who plan to attend are already on hand.

There will be a rodeo performance Friday night also Saturday and Monday nights with a matinee on the Fourth of July. The number of contestants is the largest of any rodeo in the world and all are actual cowboys. Chuckwagons from famous ranches will provide regular range fare to the public each day and there will be dances, old-fashioned and modern, as well as an old-time fiddlers contest. The rodeo will present wild-cow milking, Cowgirl sponsors' clover-leaf barrel race, bronc riding, Brahma bull riding and calf-roping, with special roping contests for the old-time cowboys and for GIs and ex-GIs. A great tourist attraction, the Texas Cowboy Reunion has been viewed by visitors from every

state and among those who have attended were Will Rogers, Gene Autry, Paul Whiteman and Wild Bill Elliott.

Haskell Firemen Praised For Help At Weinert Fire

Members of the Haskell fire department were praised for their efforts in preventing destruction of the Weinert post office by fire recently, in a letter received by the department from Postmaster R. S. Sanders.

Postmaster Sanders wrote: "I wish to thank your fire department for their relentless efforts and energy in saving the Weinert Post Office Building, equipment and mails. I did not know about the fire until the next morning, but the folks here told me about the magnificent job you did."

TEXAS ALMANAC, TRAVEL MAPS WRONG? 'Stamford Taxpayer' Unhappy Because C of C Calls It Paint Creek Reservoir

A letter received by The Free Press, signed "A Stamford Taxpayer" encloses a newspaper clipping in which the Haskell Chamber of Commerce is taken to task concerning a small folder published recently. The C of C folder in question publicizes Scott Memorial Park, the excellent fishing in Paint Creek Reservoir, and has a map showing highways and roads leading to the park and fishing camps in the area.

Principal criticism was that Haskell people use the term Paint Creek Reservoir. "Looks like everyone is out of step but Johnny" the clipping contends. The letter containing the clipping makes the request: "Please publish our newspaper clipping so

as to enlighten the Haskell C of C and the citizens of Haskell as to what city is paying for this new lake we call Lake Stamford."

Actually, there's nothing to be disturbed about.

At some time in the dim geological past Paint Creek came into being. With the coming of the Indians and later the white man the stream was given the name by which it has been known for more than a century.

So, build a dam on Paint Creek and immediately the identity of the area changes because Stamford is paying in part for the dam? Somewhere down the line it seems that we were told the West Texas Utilities Company was to pay a big part of the cost of the project. Right?

Would Paint Creek water—the best in West Texas—be more palatable from a stream or lake of another name?

We're proud as all get-out of the new reservoir, and we know that Stamford people, as they should rightly be, are proud of it, too. We commend the West Texas Utilities Company also, for the sizeable financial share they assumed in making the project possible. And we're very, very grateful to the Scott Estate for the generous gift of Scott Memorial Park adjacent to the reservoir, with all the park's facilities dedicated to free use of the public regardless of place of residence.

Stamford has benefitted immeasurably in a business way as the result of the project. Haskell also has shared in the increased commerce from tourist and fishermen's trade. But we count as our greatest gain the many new families the project has brought to Haskell... citizens who have from the start assumed an active

role in our church, civic, and community life.

Now we've checked with our Chamber of Commerce concerning the source of information relative to the name of the new body of water in our county. We were shown the official 1955 travel map of Texas published by the Texas Highway Department, and then referred to page 165 of the 1954-55 edition of The Texas Almanac. There it is: Paint Creek Reservoir.

Perhaps Johnny isn't out of step after all, because some authoritative sources are counting cadence.

Then, if he is marching out of step, at least he's going somewhere!

Social Security Man Schedules Visits In Area

Traveling service is rendered throughout the Abilene district of the Social Security Administration, according to R. R. Tuley, Jr., district manager.

"Interviewers talk personally with each applicant for old age and survivors insurance benefits, to avoid misunderstandings on the part of beneficiaries as to their rights as well as their duties and responsibilities," he added.

Tuley explained that field personnel assist applicants to secure evidence or information to put their claims in order for prompt payment, since payments are generally needed soon after earnings are reduced or cut off in older years or by death.

"We gather the names of persons desiring social security information in a special holding file, and by making periodic trips are able to talk with many people in their own neighborhoods with no cost to the inquirer and a very small average cost to the government for such service," Tuley continued.

Field Representative Chesney Haney is responsible for service in Fisher, Stonewall and Has-

kell Counties. His schedule for July follows:
Haskell Chamber of Commerce 10:00 a. m., Thursday, July 7.

Rotan, City Hall 9:30 a. m., Friday, July 15.
Aspermont, Commissioners' Court Room 2:30 p. m., Friday,

July 15.
Persons desiring social security information may meet Mr. Haney on one of his visits above, or

write the Social Security Administration, P. O. Box 100, Abilene, Texas, and reply.

Enjoy the long Fourth of July weekend, and ... PLEASE DRIVE SAFELY!

Local School Boards Handed Work Of Integration by State Agency

The State Board of Education at Austin directed local school boards recently to take steps "immediately" to implement the Supreme Court's segregation decree.

Cecil A. Morgan, Fort Worth attorney, was named chairman of a 7-member committee from the state board to help local boards with their problems.

Other members are Emerson Stone of Jacksonville, Neal Marriott of Corpus Christi, Penrose B. Metcalfe of San Angelo, Leon Coker of Naples, A. R. Bivins of Amarillo and A. D. Moore of Beaumont.

"We don't know the answer to this segregation problem," Morgan commented after appointment by President Thomas B. Ramey of Tyler.

"I can say that we're not going to close the public schools of Texas. We're intelligent enough to find some answer. The people of Texas received the decree with poise and good common sense. They will find a reasonable answer."

Morgan said "the decree left it for the local district to work out the problem" of integration. He agreed with Gov. Allan Shivers that no special session of the Legislature is needed on the matter now.

The governor said he would not hesitate to call the Legislature if necessity arises but that he believes a session on segregation now would be a mistake.

Morgan added: "In the final analysis the local district will have to do it (handle the racial problem). The state board can't say 'you're going to do this'."

The board members predicted that integration in West Texas will be accomplished with little difficulty. Some counties in that region have no Negroes and most others have only a few.

"East Texas will have a serious problem," Morgan said. "Anything so deeply rooted for 100

years (as segregation) becomes part of our culture and tradition. Uprooting it is a serious matter."

The board adopted its resolution with little discussion. Administrators look to state officials for leadership, said Paul G. Greenwood of Harlingen.

"They are anxious for this board to point the way," said Greenwood. "Except for general principles, the responsibility is with 1,900 school boards of Texas. But I'm not adverse to assuming leadership in this matter."

Chairman Ramey said the advisory committee will assist in various phases of the segregation problem.

The board's resolution said careful study is needed both on the state and local levels.

"It is deemed essential that future course of action be taken within the framework of the Texas public school system and within proper concepts of constituted authority," it said.

It resolved: "1. That the State Board of Education request the Commissioner of Education to begin immediately a study of the Supreme Court's decision in terms of the responsibilities of the Texas education agency with respect thereto.

"2. That the state board . . . authorize its chairman to appoint a sub-committee to assist the commissioner in this study.

"3. That the state board . . . direct to the attention of local school authorities the court's instruction that local school boards begin immediately a study of appropriate methods to implement the decision of the court, as applicable to their respective local conditions."

The committee chosen for the 21-member state board represents mostly districts with large Negro population.

The state board upheld local authority in a case appealed to it. It involved a dispute over transfer of pupils from Bluff Springs School, Parker County, to Lake Worth School in Tarrant County.

Bivins remarked that the state board "has no power to change local authority as long as it is not arbitrary or capricious."

"We can't sit here and evaluate at long distance which school is best qualified to teach," said Bivins.

The Amarillo man, discussing local powers, said, "taxpayers

New residents of Haskell are Mr. and Mrs. Fred E. Gresham, who moved to this city recently from Fowler, Kans. Mr. Gresham is minister of the Christian Church. He succeeds John Barry, former minister who accepted a call to East McKinney Christian Church.

Mr. Gresham served as minister of the Christian Church in Fowler for eight years, and has been in the Christian ministry 30 years.

Mr. and Mrs. Gresham are living in the church parsonage at 604 North 4th Street in this city.

TRAFFIC VIOLATION INVOLVED IN MOST FATAL ACCIDENTS

AUSTIN—A traffic law violation was involved in 1,459 (95%) of the fatal accidents that occurred on rural highways in Texas in 1954. There was a law violation in 10,212 (86%) of the personal injury accidents which occurred on these roads. In 176 of the fatal accidents 2 drivers were violating a traffic law and in 9 fatal accidents 3 drivers were violating traffic laws. In 858 of the injury accidents 2 drivers committed law violations and in 45 injury accidents three drivers were in violation of traffic laws.

A pirogue is a canoe made from a log or tree.

Farm tractors, carelessly operated, can cause death and destruction. The Texas Farm and Ranch Safety Committee advises tractor operators against taking chances which may result in a tractor turning over or being involved in a traffic accident.

carried it to an extreme at Irving." But he said the state board should never merely substitute its judgment for a local board's concerning what is best for the community.

Lost initiative, interest and enterprise form the foundation for a proposed plan aimed at helping low-income farm families find ways to improve their level of living. President Eisenhower presented the plan to Congress.

Farm and Ranch Real Estate Taxes Continue Upward

Real estate taxes on farms and ranches in Texas were 3.2 per cent higher in 1954 than in 1953—the 8th straight year of increase.

The average tax per acre for the state in 1954 was 28.8 cents compared with 27.9 cents the previous year, according to L. P. Gabbard, agricultural economist at Texas A&M College.

While the slight increase was taking place in taxes, agricultural prices in Texas declined. The price index of agricultural commodities in the state dropped from 273 in 1953 to 265 in 1954. The changes in the tax-price ratio was from 1.14 in '53 to 1.21 in '54—a relative increase in tax burden of slightly more than 6 per cent.

"In other words, it took six per cent more farm commodities to pay taxes last year than it did the previous year," Gabbard said. The tax burden has increased 57 per cent during the four year period 1951-54.

Gabbard cited a high degree of variation in real estate taxes among type-of-farming areas and from one year to another in the same area. In 1954 the average tax per acre in the irrigated Upper Rio Grande Valley was 4.55 while in the High Plains and Trans-Pecos areas adjoining, it was six cents an acre.

Davy Crockett Fad Misses 'Coon Peak'

AUSTIN—Poor timing of the current Davy Crockett headpiece fad may cost Texas fur trappers a pretty penny, according to the director of Wildlife for the Texas Game and Fish Commission.

He said staging of the march on the fur stocks last fall might have touched off a genuine comeback in the trapping of raccoons and other varmints.

"The raccoon population probably hit an all-time high last fall," said the director. "Its numbers had been booming for several years because of the depressed market. Then came last winter and the raccoon, just like other species in reaching its peak, began to recede in numbers."

"The drought which was not eased in many areas until just recently, was a prime factor in raccoon recessions. Thousands starved to death. Parasites killed many others."

The demand for coonskins for Crockett caps has been harassing the fur trade, according to news reports. Dealers generally report that the pioneer-day hat-piece fad caught their shelves barren of coon hides simply because trappers of varmints had

been in short production due to the low prices.

The director of Wildlife Restoration said that even if the present coonskin demand continues, it will be mid-winter before fur will be prime and trapping legal. The season in Texas, under the General Law, runs through December and January.

"Too bad for the trapper that the demand didn't come last fall," said the director. "They could have hit the jackpot. We were getting reports from many parts of Texas that the raccoons were overrunning the country. Of course, the coon is blamed wrongly at times for many things, including the destruction of wildlife in general."

He pointed out that, normally, the raccoon lives around water, particularly puddle holes where he can feast on frogs, small fish, snails and snakes. Their regular diet also includes wild berries and fruit.

"Ordinarily, the raccoon is not a serious predator," explained the director. "But when the drought shrinks up his natural food, he looks around for ground nesting birds, even as big as adult turkeys, as well as poultry and field crops."

He added that the slow, ponderous coon probably will be available in sufficient numbers, despite a veritable population slump at the moment, to do its bit toward Davy Crockett or any other fads come winter.

A Marion, Ill., dairy has replaced milk trucks with horses, claiming that horses are cheaper and behave in traffic better than most truck drivers.

HIGHLIGHTS AND SIDELIGHTS From Your State Capitol

By VERN SANFORD
Texas Press Association
AUSTIN, Texas—Selection of
a successor to Wright Morrow,
Democratic National Commit-
teeman from Texas, is imminent.
Because he voted for Eisenhower
for President in 1952, Morrow
was barred from serving on the
Democratic National Committee.
But, Gov. Allan Shivers doubts
that anyone can be found to fill
the prescription laid down by
Democratic National Chairman
Paul Butler.

It must be someone, Butler told
Shivers in his now famous Wash-
ington "kitchen conference," who
never bolted the party. It must
be someone who worked for Ad-
lai Stevenson's election. And it
must be someone who can be ap-
proved by Shivers, House Speak-
er Sam Rayburn, and Senator
Lyndon Johnson.

Possibility of replacing Morrow
became a by-product of ac-
tivity by top-level Democratic and
Republican figures in the pre-
liminary skirmish toward Texas'
role as a battlefield in the 1956
presidential contest.

Chairman Butler spent 6 days
in Texas, mostly under the guid-
ing hand of the "Democratic Ad-
visory Council," a group of lib-
eral-loyalists appointed to take
over Morrow's duties.

Butler declined an invitation
by Gov. Shivers to visit the exe-
cutive mansion; Shivers did not
accept Butler's invitation to come
to some of his meetings.

Republican National Commit-
teeman Jack Porter followed But-
ler promptly with a state work-
er's rally in Austin. He announ-
ced he was extending "not only an
invitation, but a challenge to the
conservative Democrats who car-
ried Texas for Eisenhower to join
up formally with the Republi-
cans.

Porter predicted that President
Eisenhower will be renominated
and will carry Texas, Florida,
Virginia and Tennessee again—
and win in 1956.

Porter believes the Democratic
party split is permanent.
Anderson Talked for Governor

Resignation of Deputy Secre-
tary of Defense Robert L. An-
derson of Vernon started specu-
lation whether he might figure
in next year's governor's race as
the conservative's choice. Or
possibly be in line for a place on
the national Democrat ticket. This
despite his service in a Republi-
can administration.

Another name that crops up
when the conservatives are men-
tioned as likely candidates in the
governor's race is that of Sen.
Otto Lock of Lufkin. He already
has been referred to as the "jet
age candidate" since his talk to
the Jacksonville Rotary Club
last week.

Senator Lock pointed out the
need for streamlining state ad-
ministrative agencies; urged im-
provement in spending methods;
and "a sound, fair code protect-
ing each person from excessive
taxation."

With its population increasing
and its economy expanding Tex-
as can not meet its jet age gov-
ernment needs with a Model-T
vehicle, he stated.

Johnson For President
There has been a remarkable
array of national comment, in
such publications as the Wall
St. Journal, Newsweek and the
Washington Star, about Senate
Majority Leader Lyndon John-
son's success and his "availabil-
ity" as the Democratic standard-
bearer for President.

Gov. Shivers himself came back
from Washington recently praising
Johnson, a loyalist.

A speech early in the week by
Governor Shivers, before the
New York Sales Executive Club,
is another in the national net-
work of his appearance in which
he restates the basic doctrine of
the dissident Dixie and conserva-
tive Democrats.

Governor Shivers had pointed
suggestions for Texas schools,
faced with the US Supreme
Court desegregation decision.

"I do not think it necessary at this
time for any district to take any
step its board does not want to
take, beyond studying the prob-
lems and its solution," he said.

He will name a statewide com-
mittee, to study problems of the
desegregation ruling, and recom-
mend that school district appoint
their own committees.

According to the Governor, the
decision leaves a large measure
of control to local districts, "where
the problems should be worked
out."

Short Snorts

Efforts of former Land Com-
missioner Bascom Giles and B.
R. Sheffield of Brady, to have
Travis County indictments in vet-
erans' land cases quashed were
rejected in district court.

Land Commissioner J. Earl
Rudder said he will start a shake-
up of the General Land Office
in July. His decision follows testi-
mony in a lengthy court of in-
quiry on the office's operation
under former Commissioner Bas-
com Giles.

John C. White, Commissioner
of Agriculture, denied that Tex-
as overspent by \$162,670 federal
drouth aid money in 1953 — as
claimed by the US Department
of Agriculture.

Congressman Clark Thompson
and Homer Thornberry announ-
ced a tour of Central Texas coun-
ties, by a House Agriculture sub-
committee, to study acreage al-
lotments for rice and cotton.

Gov. Shivers paid tribute to
Amon G. Carter as "one of the
most dynamic Texans of his gen-
eration." Carter, a long-time pub-
lisher of the Fort Worth Star-
Telegram, died on June 23.

Trials for George B Parr, South
Texas political czar — and 11
others from Duval County — on
charges relating to school funds,
have been set for July 5 in New
Braunfels, on change of venue.

A Texas committee to plan the
state's part in the White House
Conference on Education, Nov.
28-Dec. 1, was named by Gov.
Shivers. Dr. Erwin L. Ripply,
president of the Dallas School
Board, is chairman. Its first ses-
sion will be in Austin.

Many Veterans Face Reductions In Disability Pay

By HERBERT RAY County Service Officer

Thousands of veterans receiving VA compensation for Service Connected disabilities or disease, are facing re-examination because of a sweeping review of compensation and pension cases ordered by the VA office. It seems that this review is under pressure of the House Appropriations Committee and the President's Bureau of the Budget, as an added economy move.

This new review follows a successful drive (so they say) to knock from death compensation rolls over 13,000 parents of deceased WW II veterans previously classified as "dependent" and has saved about \$7 million a year. This is why many veterans have been called for re-examination, had your disability been cut off or lowered, and there is very little we can do about it because the board of appeals will uphold the Regional Offices decision.

Many veterans who stay in VA hospitals for more than six months will have their compensation or pension payments temporarily reduced during the remainder of the time they are in the hospital with all amounts withheld repaid in one lump sum when he leaves the hospital on approval of his medical officer.

Except for those with dependents (no reduction will be made) or whose compensation or pension is less than \$30 a month—the payments will be reduced 50 percent beginning with the 7th month of hospitalization, but payments cannot be reduced below \$30 a month.

"Nothing except a battle lost can be half so melancholy as a battle won" was said by the Duke of Wellington.

Look 4 Doors and no center posts!

It's the new kind of hardtop—The 4-Door Riviera!

You drop the side windows down on this airy beauty of a Buick with the solid steel roof—and it's as wide open as a Convertible, with no center posts to mar your view. That's what makes it a hardtop.

But what makes it a very special kind of hardtop is the fact that it has four doors instead of two.

Cheers? Brother!—they're really rolling out for Buick's 4-Door Riviera!

Now, you see, you can have the tremendously popular styling of a true hardtop combined with the room, comfort and full convenience of a 4-door Sedan.

And it took a completely new kind of body design to come up with this marvel—a new kind of body built to wholly new structural principles.

So it looks like Buick's done it again—

because the 4-Door Riviera is a sweeping sensation across the nation.

It's rolling off the assembly lines in volume numbers to meet the demand—in the high-powered CENTURY Series, and in the bedrock-priced SPECIAL Series, illustrated here.

And each one is all Buick—with record-breaking V8 power, the level steadiness of all-coil springing, the extra roominess of a full-size Buick Sedan—and, most certainly, with the instantaneous getaway response and bettered gas mileage of Buick's spectacular new Variable Pitch Dynaflo.

Come in for a look at the brand-new kind of hardtop—the 4-Door Riviera. You'll find it priced at the modest extra cost of a 4-door model over a 2-door model—and a buy that's thrilling to pass up.

*Dynaflo Drive is standard on Roadmaster, optional on other Series.
