Haskell Indians In Slump, Drop Two Games

The still skidding Haskell Indians dropped two games during the week to run their losing streak to four. This is by far the longest downturn for the Indian basketballers in the past two years.

The host Indians dropped a 71-57 contest to the Munday Moguls, whom they had beaten earlier in the season 55-50, Friday night. Haskell led briefly in the initial period but fell behind and trailed 37-21 at halftime. As usual, the Tribe outscored their opponents in the last half, this time 36-35. Still, Munday was never threatened and hung on to their large margin.

Burdy Worsham scored 16, Lynn Colson 15, and Wendell Dixon 13 points to lead the Indians. Fred Lang and Glenn Amerson each hit 20 for Munday.

Hopes for a big prestige victory were lost Tuesday night when the Indians fell before Avoca's Mustangs 66-40. Hack Middleton scored Haskell's first five points and was the Indians top point producer with 14 points. Lynn Colson scored 11.

Haskell, after the four consecutive losses, now has a 12-9 seasonal record. They journey to Throckmorton Friday, Feb. 5, for a return game with the Greyhounds. On Feb. 9 Haskell goes to Albany for their ninth district 8-A encounter of the year.

Indians 'B' Team Loses To Munday And Avoca

The HHS Indians 'B' cagers lost to the Munday Moguls, 52-43, and the Avoca Lions 52-47, in the locals last two games.

The Moguls had the height on Haskell but that advantage did not make much difference. The 'B' team hustled up to lead in the first half, but got careless and dropped the game. Haskell cagers got 41 rebounds to Munday's 53. Highpoint man and runner-up for Haskell were David Josslet with 16 points and John Ivan Clifton with 8 points.

The Avoca Lions were rated to beat the Indians about 40 points but instead edged by with a narrow 7 point margin. The core was 22-21 at the half with Haskell leading, but the Lions tipped the scales in the final period to win 52-47. Haskell got 41 rebounds to Avoca's 24.

The Haskell 'B' team played the best ball they had ever played. They had good team work and passed the ball a lot. Highpoint men were David Josslet with 18 and Conner with 16. With their scoring and hustle of David Duncan, John Clifton and Red Elliott they cut the Lions win to a narrow one.

The 'B' team meet the Throckmorton Greyhounds next Friday.

Mr. Chapman had parked the car in the garage at his home about an hour before the fire was discovered. When firemen arrived, the flames had burned out virtually all the interior upholstery and intense heat had partially melted the steering wheel and instrument panel. Dense smoke had filled the garage, but no property damage to the garage or house resulted, other than from smoke.

Modern Additions To Paint Creek School Embody New Architectural Designs

Geometry, when applied to architectural construction, brings an answer to the problems of replacing overcrowded and worn out schools at a cost within the reach of the average school district.

Plans utilizing these principles and reducing costs while increasing usable area were unveiled this week by the architects who designed the \$53,000 additions to Paint Creek Rural High School. Working with Superintendent Dan McRae, Caudill, Rowlett, Scott and associates of Bryan, Texas and Oklahoma City, designed an educational plant especially adapted to local needs.

The feeling of confinement generally associated with traditional classrooms is gone," he said. "The classroom in this building is no longer a cell, but a free flowing space which designates no 'inside' or 'outside.' The atmosphere, color and texture are those of a modern living room."

Authors of this "Answer to a Parent's and school board's pray-

er" have specialized in modern school design. In the past four years they have designed and built more than 50 schools in Texas and Oklahoma. All members of the firm are former teachers or architecture students at Texas A&M College.

Caudill joined the college staff in 1939, and in recent years has been research architect for the Texas Engineering Experiment Station. John Rowlett, now in charge of the Oklahoma City, Okla., office, holds both education and architecture degrees from the University of Texas and formerly taught architecture at A&M. Other senior associates are Wallace E. Scott, Jr., and William M. Pena, both A&M graduates. Mr. Pena was supervising engineer on the Paint Creek project.

By 16 per cent, outside wall area by 22 per cent, partition wall area by 66 per cent, and volume by 46 per cent. By utilizing the principles of geometry in effecting the savings, usable classroom space increased from the old average of 24 by 40 feet to 28 by 42 feet. Savings in construction costs is inevitable, Caudill pointed out.

Over-all floor space is reduced

Lt. John E. May of Rule Helping Build Village for Homeless Orphans in Korea

Pusan, Korea—Army 2nd Lt. John E. May, son of Mr. and Mrs. S. E. May of Rule, is helping to build a six-unit village for 120 orphans made homeless by the Pusan fire.

May is stationed in Korea as motor officer of Battery A of the 24th Division's 63rd Field Artillery Battalion. His unit began "Operation Haven," giving aid to fire-victims, in the first days after the great fire.

A 1952 graduate of Texas A&M College, he entered the Army in September of that year. The new orphanage, being constructed by the artillerymen, will have a dining hall, administration building, shower and laundry building and three dwelling houses. Located in a valley above the port city, it will eventually be expanded to include eleven buildings.

The orphans were taken in by the 24th Division unit after two nights in a warehouse on the Pusan docks. They had escaped the fire with only the clothing on their backs. Temporary quarters complete with medical care, food, bedding and additional clothing, have been set up for them at a nearby army camp.

Meanwhile other 24th Division soldiers are clearing debris from the fire-scarred city and giving aid to more than 40,000 people left without homes.

The battalion, which has been in Korea since August 1950, locates enemy artillery positions with sound, flash and radar systems. It is now engaged in rigorous training to maintain combat readiness.

Andress, son of Mr. and Mrs. Beno Andress of Haskell, entered the Army last January and completed basic training at Camp Carson, Colo.

An Eye-Catching Rambler Style House

"There is a beauty of a ranch house," passers-by will say after you build according to this plan. And all members of the family will agree—from mother who enjoys the large, conveniently arranged kitchen and workroom area to little brother and sister who have a room all their own. Comfortable and spacious living is the keynote of Farm and Ranch Plan No. 5143. Yet every foot of it is usable space.

Here are some of its most attractive features:

1. Four bedrooms or three bedrooms and den.
2. Two baths—one divided to accommodate two people.
3. An abundance of closet space where you need it.
4. An everyday living room to save the rest of the house from rough wear.
5. A large "company" living room, easily accessible to dining room and everyday living room.
6. A kitchen on the front, arranged so that no traffic goes through the meal preparation and serving area.
7. An extra large pantry.
8. Living-dining rooms can be cut off completely from everyday traffic.
9. A heat-control room ideally located for mechanical hot-air heating system.
10. An easily accessible large terrace.
11. Beautiful and popular ranch styling.
12. Combination of cement asbestos shingles and brick for long life, beauty, and low maintenance.

CARD OF THANKS
 I want to express my sincere appreciation to the entire hospital staff of Haskell Hospital for the cordial treatment and many courtesies I enjoyed while in the hospital last week. Also I want to commend the doctors and my friends. Thanks again to one and all.—Mrs. Clyde Baty, Weinert. 5p

"I start where the last man left off" —Thomas A. Edison

Edison, to explain his incessant and tireless reading of scientific journals, technical papers, patents and books, said that he read to avoid useless repetition of old experiments. "I start where the last man left off."

What Edison knew, and perhaps said in an unquoted moment, is that thousands of men would be needed to "start where he left off."

"Just wait a little while," prophesied Edison, "and we'll make electric light so cheap that only the wealthy can afford to burn candles." Edison lived to see lamps that gave four times as much light and cost one-fifth as much to buy. And electric lighting has progressed far beyond that.

He recognized that an invention does not end a search. It begins a search.

The lamp was a beginning in forcing not only its own evolution but the evolution of meters, fuses, sockets, wiring, power distribution systems, transformers and generating stations.

He lived to see the company that was formed to carry on development of electric light and power evolve into one of the world's most important industrial research centers. Today General Electric laboratories employ several thousand men and women who are seeking new things on widely different fronts.

It is seventy-five years since Edison lit the first successful carbon lamp. He will be remembered for inventions that changed the world. But let him be remembered, too, for inspiring so many men to start where he left off.

Vernon Wofford For Commissioner Precinct No. 4

Vernon Wofford, well known farmer living southwest of Haskell, has authorized the announcement of his candidacy for Commissioner of Precinct No. 4, subject to action of the Democratic primary.

In making his announcement at this time, Mr. Wofford said that he had no formal statement, other than to acquaint the citizens and voters of the precinct with his candidacy and to solicit their consideration.

Mr. Wofford has lived in Haskell County and Precinct 4 for 42 years and needs no introduction to the majority of the people in that section. He is recognized as a successful farmer and business man qualified in every respect for the office he seeks. Because of his long residence in the county and precinct, he is thoroughly acquainted with the needs of that section as administered by the County Commissioner. If elected, it will be his aim at all times to discharge the duties of Commissioner impartially and fairly with respect to all sections of the precinct. Also, he will welcome at all times the suggestion and cooperation of the citizens and taxpayers of the precinct in all matters relating to the office of Commissioner.

As the campaign progresses, Mr. Wofford will endeavor to place his candidacy personally before as many of the voters in Precinct 4 as possible. Until that opportunity is afforded him, he will appreciate any consideration given his candidacy.

Bill Fouts Asks Office of Assessor-Collector

Bill Fouts, well-known farmer of this city and former County Commissioner in Precinct 4 for six years, announced his candidacy this week for Tax Assessor-Collector of Haskell County, subject to action of the Democratic primary.

Mr. Fouts said he would likely have a formal statement later, but at this time desired to acquaint the people of Haskell County with his candidacy and to thank them for their confidence and support in the past in honoring him with the office of Commissioner.

A native of Haskell County, born and reared on a farm, he

has been engaged in farming most of his adult life. Because of his long residence in the county and his six years service as a county official, he enjoys the acquaintance of a majority of the people in the county. A successful farmer, the experience gained while handling business affairs of Precinct 4 as Commissioner and his early training in business college qualifies him for the office he now seeks.

Before the primary is held, Mr. Fouts plans to make an intensive campaign throughout the county, in order to discuss his candidacy with as many people as possible and to solicit their support solely on the basis of his qualifications.

In the meantime he will appreciate any consideration given in his behalf.

Eugene Tonn For Commissioner In Precinct No. 3

Eugene Tonn, resident of Haskell County since 1902, former businessman here and active in civic and community affairs, this week authorized the announcement of his candidacy for Commissioner in Prec. No. 3, subject to action of the Democratic primary.

Mr. Tonn, more familiarly known as "Gene," enjoys the acquaintance and friendship of probably a majority of the people in the county and needs no introduction to those in his home precinct.

He has a thorough background of business experience, and because of his long residence is well acquainted with the needs of the precinct, and is both a farm and city property owner, all of which gives him a vital insight and interest in the precinct affairs and their proper administration.

Mr. Tonn believes in the application of efficiency, honesty and integrity in the administration of precinct and county business, and that will be his aim if elected. He believes there is no better investment than good roads that will serve all sections of the precinct.

As the campaign progresses, Mr. Tonn will endeavor to contact the people of Precinct 3 personally

to discuss his candidacy. Also, at a later date he will also discuss with them a tentative proposal for a salary adjustment that would benefit workers employed by the Commissioner.

Until he has an opportunity to see the individual voters in the precinct, he solicits their careful consideration of his candidacy.
